# PREFACE.

The map of Westchester County which was commenced about ten years since, and soon after published by Robert Pearsall Smith, was probably the first map of any county in the State of New York published from actual survey of roads and boundaries. This was followed by maps of other counties on a similar plan; and, about eight years since, Mr. Smith conceived the idea of publishing a series of maps from actual survey, embracing all the counties in the State, and, from these, of producing a State Map that should be more full, complete, and reliable than any ever before published. But, about four years since, upon careful trial, in reducing a large number of these county maps to a uniform scale, so many omissions and discrepancies were found in them, that a new survey of the State was deemed necessary to the construction of an accurate map of the State. An arrangement was accordingly made with the author to take the general superintendence of the new survey; the general plan for the works to be prepared was fixed upon; and the re-survey of the State and the collection of statistics were begun.

At the commencement of the re-survey, maps of fifty-one counties had been completed and published; six counties had been surveyed, but the maps were not yet published; and three counties were still unsurveyed. Of the fifty-one published maps, twelve were found to be so deficient in matters essential to the completion of the State Map according to the plan fixed upon, as to render entire new surveys of these counties necessary. Surveyors were sent into the remaining counties, with copies of the published or manuscript maps in hand, with instructions to visit every town, to correct every error that should be found upon the maps, to make additions of new roads, note changes in boundaries, and, in short, to return the maps properly revised and corrected for use in the preparation of the State Map. In many instances new surveys of parts of towns, town lines, roads, and streams were found necessary, and also countless changes in the location of boundary lines, roads, streams and bodies of water, and in the representation of the topographical features of the country. The surveyors were instructed to obtain copies of manuscript and other local maps, as far as practicable, as these were generally found to contain metes and bounds, and, being plotted to large scales, were of value in laying down boundary lines. Draftsmen were also sent to the several private Land Offices in the State, and to Albany, and all maps of any value in the offices of the State Engineer and Surveyor and the Secretary of State were copied, to be laid under contribution in the preparation of the State Map. The Superintendent of the United States Coast Survey and the Secretary of the Interior also furnished copies of all the maps in their Departments pertaining to the State. The number and variety of maps and plots, printed and manuscript, that have thus been collected is very great, and probably embraces more valuable matter than any similar collection in the State.

Not the least difficult part of the labor of constructing a map of a large extent of country is "making the projection." In surveys of small areas this difficulty does not occur, as the proportion of the curvature of the earth's surface to that part of its area contained in a rectangle of thirty to fifty miles, is so small that, when reduced to the scale of even an inch to the mile, it is scarcely perceptible. But in projecting a map of territory of as great extent as the State of New York, the curvature of the surface from a plane is so great as to make the departure of the lines of latitude and longitude from right lines plainly visible upon a map even when plotted to a scale of less than one-fourth of an inch to a mile.

The Flamstead Improved Projection, being the one best adapted to the correct representation of a large extent of country, was adopted for the State Map.

The maps of the State heretofore published embrace a large part of the New England States, Pennsylvania, and Canada. The space thus usually occupied is appropriated to plans of the cities, and to smaller maps illustrating particular features of the State. These marginal maps, it is believed, add to the value of the work. By placing a map of Long Island by itself,—at the same time showing its relative position to the rest of the State, by retaining a map of nearly one-third of the island in its proper place,—the map of the entire State is constructed

3

on a scale about twenty per cent. (linear scale) larger than can be done on a sheet of the same size with all of Long Island projecting eastward of New York City. This increased scale will be found to fully compensate for the change of place of the eastern portion of Long Island. The map of the State is plotted to the scale of  $\frac{1}{300}$ , which is  $\frac{625}{132}$  or a small fraction more than 4.7 miles to an inch; and the city plans to the scale of  $\frac{1}{300}$ , which is  $\frac{625}{1300}$ , which is  $\frac{625}{1300}$  or a small fraction more than .78 of a mile to an inch.

The longitude of several points in the eastern and western portions of the State having been accurately determined by the Coast Survey and the Department of the Interior, and the latitude of many points on the north and south borders and within the State from numerous and repeated observations, the projection of the parallels and meridians was first made with accurately constructed scales, using the most recent tables of latitude and longitude measurements as adopted by the Coast Survey and the U.S. Military Academy at West Point. The boundaries of the State were next projected, after which the lines of the counties were located on the map. The town lines were next laid out; and finally the roads, bodies of water, streams, topography, and all other details were filled in. This course could not fail to secure accuracy in all parts of the work; and, while the map does not agree, in many points, with previous maps of the State, the author feels confident that it will bear the closest scrutiny and criticism.

A prominent and distinctive feature of the State Map is the representation of all the roads, railroads, canals, and routes of travel, every mile of each of which has been run and every angle measured.

The city plans are all drawn to the same scale, thus presenting, at a glance, the comparative extent of the built-up portions of each. Albany, Brooklyn, and Buffalo have so great an extent of unoccupied or farm lands that it was not practicable to show the entire corporate limits of either on the city plans; but no built-up part of either city has been omitted. The plans of the other cities embrace their entire area.

In the construction of the Geological and Land Patent Map, the geology of the State according to the New York System has been followed; but the different strata or formations are represented by a system of shading in the engraving,—instead of by color, as is usually done in geological maps. This plan was adopted, as it was desirable to present two distinct features in the one map; and the engraved shading for the geology permits the use of colors for the land patents. The size of the map would not admit of the representation of tracts of land smaller than a township; but a complete list of all the grants will be found in this work.

In the year 1825 the Regents of the University established meteorological stations in various parts of the State, and reports were required to be made from these stations annually to the Board of Regents. At the expiration of twenty-five years the Regents caused these reports to be digested; and the mean averages of the summaries thus deduced—so far as relates to temperature, fall of rain, and direction of wind—are embraced in the Meteorological Map. On this map the several stations (including three established at military posts, and not subject to the direction of the Board of Regents) are at the centers of the small circles. In each of these circles are either two or three numbers; when two, the upper number is the mean annual temperature in degrees Fahrenheit, and the lower number is the mean annual fall of rain in inches; and when three, the upper and lower numbers indicate, respectively, temperature and rain, and the middle one the elevation of the station above tide, in feet. The diagram at the right represents the mean annual direction of wind at the several stations, the index in any case denoting the point of compass, and its length the number of days, one inch in length of radius representing five days. Thus, taking the index for Canandaigna, the direction is S. 63° 37′ W., and the length of the radius is 3.4 inches. This indicates that the mean annual direction of the wind at this station was from the w. s. w. for 17 days in the year more than from all other directions. For the isothermal lines, or lines of equal temperature, and the shading representing the different depths of rain, we are indebted to Lorin Blodget, author of American Climatology.

The Time Indicator has been prepared from minute calculations, and will be found correct in every case.

The diagram showing the capacity of the church edifices is constructed to a scale, and correctly represents the proportion of each to the whole.

An examination of the various Gazetteers heretofore published cannot fail to satisfy any one that a great part of the material from which they were compiled was furnished by corre-

PREFACE.

spondents. This plan seemed to be the one most likely to secure accuracy, and with some modifications it was at first adopted in collecting materials for this work. Agents were sent into some portions of the State, furnished with printed instructions, questions, and blanks, to obtain the desired information, either by personal research, or through the assistance of such competent persons in the various localities visited as would undertake to fill the blanks and return them to the general office. While a few persons promptly responded to the request thus made of them, others delayed giving it immediate attention, and still others neglected it altogether. A large proportion of the matter received from correspondents was found to be irrelevant, devoted to specialties, or unreliable, and therefore of little value. Much matter was received which possesses a greater or less amount of local interest, but which could not be admitted without giving undue prominence to some subjects or localities at the expense of others. After a fair trial of the plan first adopted, it was found subject to so many objections that it was abandoned. The surveyors and agents were then instructed to visit every city, town, and village, to search records, examine documents, consult the best living, printed, and manuscript authorities, and to make returns to the general office of all the reliable matter and information obtained. They were instructed to take no statement on a single authority, and in cases where authorities were found to differ, to examine diligently and impartially, and report all the facts, so that in digesting and arranging them for the press, all the evidence might be at hand. They were particularly cautioned against taking mere hearsay or traditionary tales for truth, and not to seek wonders and marvels. A competent person was employed to examine records and documents in the State Library and State and other public offices at Albany and in New York City, for information that might be available in the preparation of this work. The Documentary History and the State Geology of New York, general and local histories, biographies, sketches, essays, reports, newspapers, manuscripts, and all other available authorities that were likely to contain any information of value, were collected, and in turn consulted, and their accuracy and value tested as the work progressed.

The plan for the work finally fixed upon, while it embraces a wider range than is usually taken by similar works, seems to be one that cannot fail to meet the wants and tastes of the people, as it presents the wealth, resources, present condition, and past history of the State in a form and style at once convenient, perspicuous, and concise.

The details of description of each county, city, town, and village, have been arranged, as far as practicable, according to a uniform plan or outline; as has been also the General Article embraced in the first 154 pages. The subjects embraced in this article seemed to cover all the ground that properly belongs to the work; and they are treated at as great length as their proportional importance to the limits of the volume would permit. A Gazetteer of a State should not be expected to contain, in a connected form, a complete compendium of knowledge upon whatever pertains to a State. But present condition, brief and comprehensive statements, short historical sketches of general interest, tables, facts and figures as connected with the wealth, prosperity, and resources of a State, should be considered to an extent sufficient for a work of reference, such as a Gazetteer is intended to be.

The general outline of the county descriptions is as follows: 1st. Date of formation of the county, from what taken, subsequent changes in boundaries, location in the State, and air-line distance of geographical center from the Capitol at Albany. 2d. Geology, topography, and drainage; embracing the general geological formations, general contour of the surface, lakes, rivers, and other watercourses. 3d. Soil, leading articles of production, and occupation of the people. 4th. Works of internal improvement. 5th. County seat, names of first county officers, and description of county buildings and institutions. 6th. History of the newspaper press. 7th. Brief historical sketch of the county from the date of first settlement to the present time. The descriptions of the towns are according to nearly the same general plan, and embrace, 1st. Date of formation, from what taken, subsequent changes in boundaries, and location in the county. 2d. Peculiarities in geological formations not mentioned in county description. 3d. Topography and drainage. 4th. Names and description of villages, hamlets, and local ities, with their location in town, date of incorporation, institutions, leading branches of business, and population according to the most recent reliable enumeration. 5th. A brief historical sketch, embracing incidents of general and local interest, names of first settlers, first birth, marriage, and death, first church, school, mill, and factory, and number of churches

6 PREFACE.

in 1855. After the towns in each county is a table compiled from the last State eensus, except the valuation and statistics of schools, which are from the returns for the year 1858. In many cases, the population of villages and the number of churches given are from enumerations taken since 1855; but the last State census has invariably been taken as anthority on these two points, except in cases where later reliable enumerations have been taken. The acres of land as given in the tables fall short of the area of the county as given at the commencement of each county description. The reason of this is obvious: the acres of land as shown by the tables are from the returns of assessors, which seldom embrace marsh, swamp, and unproductive lands, and lands under water; while the area in square miles, as given in the county descriptions, has in every case been ascertained from actual measurements.

The steel plate illustrations are principally from original views made expressly for this work. The map has been engraved on stone, at great expense, by the best artists, and the mechanical execution of both works is highly creditable to the publisher.

The Index of Subjects at the commencement of the work, and the Index of Geographical Names at the close, cannot fail of being justly valued for their convenience. The uniform use of a bold-face letter for names of towns, villages, and hamlets will also be found to greatly facilitate rapid search for this class of geographical names.

To many of the officers in the several State Departments, and to numerous county, town, and city officers, local surveyors, civil engineers, land agents, members of the press, and others, the author is indebted for furnishing valuable materials for these works. To them, and to all who have in any way rendered him assistance in the preparation of either Map or Gazetteer, he desires to acknowledge his obligations. Many persons may feel disappointment at finding that information furnished by them has not been used. An examination of the work, however, must convince them that nothing has been omitted which was essential to the general plan of the work, and that whatever did not come within this plan could not be introduced.

The author would not be doing justice to himself nor to the public did he fail to acknowledge his obligations to those who have been associated with him in the preparation of these works. He desires to make particular mention of the valuable services of Lieut. Francis Mahler, Franklin B. Hough, M. D., and James Johonnot. Lieut. Mahler was educated in a European Military Academy for a Topographical Engineer. Ten years of subsequent practice rendered him eminently qualified for the position he has occupied on the Survey. Dr. Hough is well known to the people of the State as the Superintendent of the last State census and as the author of several historical and statistical works. His services in searching records and documents at Albany, in New York City, and elsewhere, have been invaluable, and to his practical knowledge of the geology of the State the author is mainly indebted for whatever pertains to that subject in this work. Mr. Johonnot has devoted many years to the subject of Physical Geography. The topography of the State, its counties and towns, has been mainly written by him.

The intelligent citizens of the State of New York cannot fail to appreciate the liberality of the publisher in the great expenditures he has made in bringing out these works. The cost of the original surveys for the county maps was about \$48,000, and the expenditures on the works from the commencement of the re-survey to the date of publication have reached about \$46,000 more, making a total investment of \$94,000. The whole time spent in surveys, collection of materials, writing, engraving, proof-reading, &c., has been equal to the time of one person 125 years. It is believed that no similar enterprise of equal extent, and involving the outlay of so large a capital, has ever been undertaken at private expense in this or any other country. Time, talents, and money have alike been devoted to the production of a Map and Gazetteer that it is hoped will be found every way worthy of the Empire State.

# INDEX OF SUBJECTS.

# GAZETTEER

OF THE

# STATE OF NEW YORK.

# STATE BOUNDARIES.

The State of New York is situated between 40° 29′ 40″ and 45° 0′ 42″ N. latitude, and between 71° 51′ and 79° 47′ 25″ longitude w. of Greenwich. It is bounded on the N. by Canada, E. by Vermont, Massachusetts, and Connecticut, s. by the ocean, New Jersey, and Pennsylvania, and w. by Pennsylvania and Canada.

The Northern Boundary, commencing in the middle of Lake Ontario, N. of the mouth of Niagara River, extends eastward through the lake, midway between the opposite shores, to its E. extremity, thence north-easterly through the St. Lawrence River to the 45th parallel of N. latitude, and thence easterly in a gradually diverging line from the parallel, and terminating upon Lake Champlain 4,200 feet N. of it.

The Eastern Boundary extends s. through Lake Champlain to its s. extremity, thence a short distance s. E. along Poultney River, and thence in an irregular line, but in a generally southerly direction, to Lyons Point, at the mouth of Byram River, on Long Island Sound. From this point the line extends eastward through the Sound, very near the Connecticut shore, to the E. extremity of Long Island, including within the limits of the State nearly all the islands in the Sound.

The Southern Boundary extends from the E. extremity of Long Island along the ocean to the s. w. extremity of Staten Island, thence northward through the channel between Staten Island and New Jersey and through New York Bay and the Hudson to the 41st parallel of N. latitude, thence north-westerly to a point upon the Delaware at latitude 41° 20′ N., thence north-westerly along Delaware River to latitude 42° N., and thence w. along the 42d parallel to a meridian passing through the w. extremity of Lake Ontario.

The Western Boundary, commencing upon the 42d parallel, extends n. to the middle of Lake Eric, thence eastward to the E. extremity of the lake, and thence n. through Niagara River and to the middle of Lake Ontario.

Hudson River, to latitude 41° N., 44 mi.; along the N. J. line, w. of the Hudson, 48.50 mi.; through behavare River, 78 mi.; along the Penn. line, on latitude 42°, 22°,50 mi.; on the meridian to Lake Erie, 18.75 mi., and upon the meridian in Lake Erie, 22 mi.; through Lake Erie to Buffalo. 50 mi.; and through Niagara River, 34 mi.

 $<sup>^1</sup>$  The boundary through Lake Ontario is 175 mi.; through the St Lawrence, 108 mi.; along the Canada frontier, r. of the St Lawrence, e2.75 mi.; through Lake Champhin, 105 mi.; along Poultney River, 17.25 mi.; the Vt. line, s. of that river, 54.06 mi.; the Mass, Inc., 50.52 mi.; the Conn. line, to Lyone Point on Long I-land Sound, 81.20 mi.; through the Sound, 96 mi.; along the ocean to the N. J. shore, 150 mi.; through the Bay and

The boundaries of the State have been settled from time to time by commissioners appointed by the several governments whose territories are contiguous. In several instances long and angry controversies have occurred, which have extended through many years and almost led to civil war. The boundaries are all now definitely fixed, except that of Conn., respecting which a controversy is now pending.<sup>1</sup>

1 Canada Boundary.—By royal proclamation, issued in Oct. 1763, the line of 45° N. was fixed as the boundary between the provinces of Quebec and New York, and this was confirmed in council, Angust 12, 1768. The line was surveyed by Valentine and Collins, October 20, 1774. By the treaty of 17°3 the 45th parallel was recognized as the N. boundary of the State from Lake Champlain to the St. Lawrence. By the treaty of Ghent the same line was recognized as the houndary, and provisions were made for a re-survey. In 1818-19, Gov. Van Noss and Peter B. Porter on the part of the U. S., and John Ogilvie on the part of Great Britain, ran the line with great care; and it was found that the old line coincided with the parallel only at St. Regis, and that from that point E. it diverged, until at Lake Champlain it was 4,200 fect too far N. The deepest channel of the St. Lawrence was not always adopted, as a mutual exchange of islands was made satisfactory to both parties. Before the N. line was resurveyed, in 1518, the U. S. Government had commenced the crection of a fortress at Rouses Point, on Lake Champlain; and this was found to be within the British territory. By the treaty of August 2, 1×42, the old line of Valentine and Collins was restored, and the strip of territory before taken off again came under the jurisdiction of the U. S. The commissioners to run the line under the treaty of 1842 were Albert Smith on the part of the United States, and J. B. Esteourt on the part of Great Britain.

on the part of Great Britain.

Vermont Boundary.—The territory of Vermont was originally claimed by both New York and New Bampshire, and conflicting grants were made by the two governments. Most of the actual settlers helding title under N. H. resisted the claims of N. Y., and many actual collisions occurred. Jan. 15, 1777, the settlers declared themselves independent, and laid claim to the territory w. to the Hudson, N. of Lansingburgh, and along the w. shore of Lake Champlain. By an act of Congress passed Aug. 20, 1781, they were required to recede from this claim. A final agreement was entered into between Vt. and N. Y., Oct. 7, 1790, by which N. Y. surrendered all her claim to jurisdiction to the present territory of Vt., and Vt. paid \$30,000 to certain persons who had been deprived of lands granted by N. Y. The boundary line was run by Robert Yates, Robert R. Livingston, John Lansing, jr., Gulian C. Verplanck, Simeon be Witt, Egbert Benson, Richard Sill, and Melancthon Smith on the part of N. Y., and Isaac Tichenor, Stephen R. Bradley, Nathaniel Chipman, Elijah Paine, Ira Allen, Stephen, Jacob, and Israel Smith on the part of Vt. The final line was established June 8, 1812.

Massachusetts Boundary.—The charter of Massachusetts emberaced all the territory between 44° and 48° N. latitude "throughout the Maine lands from sea to sea." Grants made under this cathority conflicted with those of N. Y., and angry controversies ensued, which in colonial times often resulted in violence and

Massachusetts Boundary.—The charter of Massachusetts embraced alt the territory between 44° and 48° N. latitude "throughout the Maine lands from sea to sea." Grants made under this gathority conflicted with (hose of N. Y., and angry controversies ensued, which in colonial times often resulted in violence and bbodshed. On the 18th of May, 1773, an agreement was entered into between John Watts, Wm. Smith, Robert R. Livingston, and Wm. Nicoll, commissioners on the part of N. Y., and Wm. Brattle, Joseph Hawley, and John Hauceck, on that of Mass.; but the Revolution soon followed, and the line was never run. Commissioners appointed by both States in 1783 failed to agree; and December 2, 1785, Congress appointed Thomas Hutchins, John Ewing, and David Rittenhouse commissioners to run the line and finally end the controversy. The claims of Mass, to the lands westward were finally settled at Hautford, Conn., Dec. 16, 1786, by James Duane, Robert R. Livingston, Robert Yates, John Haring, Melanethon Smith, and Egbert Benson, commissioners on the part of N. Y., and John Lowell, James Sullivan, Theophilus Parsons, and Rufus King, on the part of Mass. By this agreement Mass, surrendered the sovereignty of the whole disjuted territory to N. Y., and received in return the right of soil and pre-emptive right of Indian purchase w. of a meridian passing through the \$24 nulestone of the Penn, line, excepting certain reservations upon Niagara River. The title to a tract known as "The Boston Ten Towns," lying E. of this meridian, previously granted by Mass., was also confirmed. Nantucket, Marthas Vineyard, and the adjacent islands, were purchased from the Earl of Sterling by the Duke of York, and civil jurisdiction was exercised over them, under the mane of "Dukes Caunty!" by the governers of N. Y., until it was mnexed to Mass, by the provincial charter of 1692. "Permaquiia and its dependencies," comprising a considerable part of the coast of Maine, was also bought from the Earl of Sterling, and governed by N. Y., as "Corneal County

the town of Mount Washington, separated by a rugged mountain from the convenient jurisdiction of Mass, was surrendered by that State May 14, 1853, accepted by N. Y. July 21, 1853, and the transfer was confirmed by Congress, Jan. 3, 1855. Russell Dorr was appointed on the part of N. Y., and John Z. Goodrich by Massachusetts, to run and mark the line.

by Massachusetts, to run and mark the line.
Connecticut Boundary.—By the charter of 1662 the territory of Conn. extended to the "South Sea;" and by patent granted in 1664 the territory of the Duke of York was bounded E. by Connecticut River. Commissioners sent over in 1664 settled upon a line 20 mi. E. of the Hudson as the boundary, fixing the starting point on Mamaroneck River. The decision proving grossly erroneous, the controversy was renewed, and in 1653 another commissioner was appointed to settle the matter. It was finally agreed to allow Conn. to extend her boundaries w. along the Sound, and N. Y. to receive a compensation in the N.; and the line was definitely established May, 1731. By this agreement a tract called the "Oblong," containing 61,449 acres, along the N. part of the w. border of Conn., was surrendered to N. Y. The exact line of Conn. has to the present day been a subject of controversy, and in 1856 commissioners were appointed by each State to effect a settlement, but without success. N. Y. owns all

State to effect a settlement, but without success. N. Y. owns all the islands in the Sound to within a few rods of the Conn. shore. New Jersey Boundary.—The original patent of New Jersey was bounded in. by a line running directly from a point on the Belaware, latitude 41° 40′, to a point on the Hudson, latitude 41°, and E. by Hudson River. The N. line was run and marked in 1774, and the E. was claimed by N. Y. as extending only to low-water mark on the adjacent waters. N. J. claimed "full right and lawfull authority to exercise jurisdiction in and over the said Hudson River and the said main sea," including Staten Island, and, by an act of Nov. 2. 1806, appointed Aaron ogden, Wm. S. Pennington, James Parker, Lewis Condict, and Alexander C. McWhorter commissioners to settle her claims. The New York Legislature, on the 3d of April, appointed Ezra L'Honnmedica, Samuel Jones, Egbert Benson, Simeon De Witt, and Joseph C. Yafes to neet the commissioners of N. J.; but their inferviews led to no result. The question of jurisdiction was finally settled in 1803, by an agreement between Benj. F. Butler, Peter A. Gay, and Henry Seymour on the part of N. Y. and Theodore Fredinghuysen, James Parker, and Lucius Q. C. Elmer on the part of N. J.; confirmed by N. Y. Feb. 5, by N. J. Feb. 2b, and by Comgress June 28, 1834. The right of each State to land under water and to fisheries extends to the center of the channel. The State of N. Y. has sole jurisdiction over all the waters of the bay and of the river w. of New York City to low-water mark on the Jersey shore, except to wharves and vessels attached thereto. This jurisdiction covers the waters of Kil Van Kull and of Staten Island Sound to Woodbridge Creek, as for quarantine purposes. South of this, N. J. has exclusive jurisdiction over the waters of the Sound and of Raritan Bay westward of a line from Princes Bay Light to Manhattan Creek, subject to right of property in lands under water, of wharves, docks, and vessels aground or fastened to any wharf or dock, and the right o

sels aground or fastened to any wharf or dock, and the right of fishing to the center of the channel.

Civil process in each State may be executed upon the waters of the river and bay, except on board of vessels aground or attached to wharves in the other State, or maless the person or property be under arrest or seizure by virtue of anthority of the other State. By the lade survey of N. J. the point of departure of the boundary from the Delaware is 41° 20′.

Punsylvania Boundaries.—The original boundary line between New York and Pennsylvania extended from the N. w. corner of New Jersey along the center of Delaware River to 42° N. latitude, and thence due w. to Lake Erie. Samuel Holand on the part of N. V. and David Rittenhouse on the part

Pennsylvania Boundaries.—The original boundary line between New York and Pennsylvania extended from the N. w. corner of New Jersey along the center of Delaware River to 42° N. latitude, and thence due w. to Lake Erie. Samuel Holand on the part of N. Y., and David Rittenhouse on the part of Penn., were appointed commissioners, Nov. S. 1774, to run this boundary; but the Revolution soon after commenced, and nothing was done. In 1785–86 the line was run w. to the 90th milestone, and the survey was certified Oct. 12, 1786, by Jamess Clinton and Simeon De Witt, of N. Y., and Andrew Elbiott, of Penn. By authority of the State Legislature, the N. Y. delegates in Congress, March I, 1781, released to the General Government all the lands to which they had claim w. of a meridian extending through the w. extremity of Lake Ontario, The triangular tract so surrendered was sold to Penn. for \$151,640, and secured to that State 30 mi. of lake coast and an excellent harbor. The line was run by the U. S. Surveyor General in 1785–89.

# TOPOGRAPHY.

Surface.—This State lies upon that portion of the Appalachian Mountain system where the mountains generally assume the character of hills and finally sink to a level of the lowlands that surround the great depression filled by Lake Ontario and the St. Lawrence River. Three distinct mountain masses or ranges enter the State from the s. and extend across it in a general N. E. direction. The first or most easterly of these ranges—a continuation of the Blue Ridge of Va.—enters the State from N. J. and extends N. E. through Rockland and Orange cos. to the Hudson, appears on the E. side of that river, and forms the highlands of Putuam and Dutchess cos. A northerly extension of the same range passes into the Green Mts. of Western Mass. and Vt. This range culminates in the Highlands upon the Hudson. The highest peaks are 1,000 to 1,700 feet above tide. The rocks which compose these mountains are principally primitive or igneous, and the mountains themselves are rough, rocky, and precipitous, and unfit for cultivation. The deep gorge formed by the Hudson in passing through this range presents some of the finest scenery in America, and has often been compared to the celebrated valley of the Rhine.

The second series of monntains enters the State from Penn. and extends N. E. through Sullivan, Ulster, and Greene cos., terminating and culminating in the Catskill Mts. upon the Hudson. The highest peaks are 3,000 to 3,800 feet above tide. The Shawangunk Mts., a high and continuous ridge extending between Sullivan and Orange cos. and into the s. part of Ulster, is the extreme E. range of this series. The Helderbergh and Hellibark Mts. are spurs extending N. from the main range into Albany and Schoharie cos. This whole mountain system is principally composed of the rocks of the New York system above the Medina sandstone. The summits are generally crowned with old red sandstone and with the conglomerate of the coal measures. The declivities are steep and rocky; and a large share of the surface is too rough for cultivation. The highest peaks overlook the Hudson, and from their summits are obtained some of the finest views in Eastern New York.

The third series of monntains enters the State from Penn. and extends N. E. through Broome, Delaware, Otsego, Schoharie, Montgomery, and Herkimer cos. to the Mohawk, appears upon the N. side of that river, and extends N. E., forming the whole series of highlands that occupy the N. E. part of the State and generally known as the Adirondack Mountain region. South of the Mohawk this mountain system assumes the form of broad, irregular hills, occupying a wide space of country. It is broken by the deep ravines of the streams, and in many places the hills are steep and nearly precipitous. The valley of the Mohawk breaks the continuity of the range, though the connection is easily traced at Little Falls, The Noses, and other places. North of the Mohawk the highlands extend N. E. in several distinct ranges, all terminating upon Lake Champlaiu. The culminating point of the whole system, and the highest mountain in the State, is Mt. Marcy, 5,467 feet above tide. The rocks of all this region are principally of igneous origin, and the mountains are usually wild, rugged, and rocky. A large share of the surface is entirely unfit for cultivation; but the region is rich in minerals, and especially in an excellent variety of iron ore. West of these ranges, series of hills ferming spurs of the Alleganies enter the State from Penn, and occupy the entire s. half of the w. part of the State. An irregular line extending through the southerly counties forms the watershed that separates the northern and southern drainage; and from it the surface gradually declines northward until it finally terminates in the level of Lake Ontario. The portion of the State lying s. of this watershed and occupying the greater part of

the two southerly tiers of counties is entirely occupied by these hills. Along the Penn. line they are usually abrupt and are separated by narrow ravines, but toward the n. their summits become broader and less broken. A considerable portion of the highland region is too steep for profitable cultivation and is best adapted to grazing. The highest summits in Allegany and Cattaraugus cos. are 2,000 to 3,000 feet above tide.

From the summits of the watershed the highlands usually descend toward Lake Ontario in series of terraces, the edges of which are the outcrops of the different rocks which underlie the surface. These terraces are usually smooth, and, although inclined toward the n., the inclination is generally so slight that they appear to be level. Between the hills of the s. and the level land of the n. is a beautiful rolling region, the ridges gradually declining toward the n. In that part of the State s. of the most eastern mountain range the surface is generally level or broken by low hills. In New York and Westchester cos. these hills are principally composed of primitive rocks. The surface of Long Island is generally level or gently undulating. A ridge I50 to 200 feet high, composed of sand, gravel, and clay, extends E. and w. across the island n. of the center.

Rivers and Lakes.—The river system of the State has two general divisions,—the first comprising the streams tributary to the great lakes and the St. Lawrence, and the second those which flow in a general southerly direction. The watershed which separates these two systems extends in an irregular line eastward from Lake Erie through the southern tier of counties to near the N.E. corner of Chemung; thence it turns N.E. to the Adirondack Mts. in Essex co., thence s.E. to the E. extremity of Lake George, and thence nearly due E. to the E. line of the State.¹

The northerly division has 5 general subdivisions. The most westerly of these comprises all the streams flowing into Lake Erie and Niagara River and those flowing into Lake Ontario w. of Genesee River. In Chautauqua co. the streams are short and rapid, as the watershed approaches within a few mi. of Lake Erie. Cattaraugus, Buffalo, Tonawanda, and Oak Orchard Creeks are the most important streams in this division. Buffalo Creek is chiefly noted for forming Buffalo Harbor at its mouth; and the Tonawanda for 12 miles from its mouth is used for canal navigation. Oak Orchard and other creeks flowing into Lake Ontario descend from the interior in a series of rapids, affording a large amount of water-power.

The second subdivision comprises the Genesee River and its tributaries. The Genesee rises in the N. part of Penn. and flows in a generally northerly direction to Lake Ontario. Its upper course is through a narrow valley bordered by steep, rocky hills. Upon the line of Wyoming and Livingston cos, it breaks through a mountain barrier in a deep gorge and forms the Portage Falls,—one of the finest waterfalls in the State. Below this point the course of the river is through a beautiful valley I to 2 mi. wide and bordered by banks 50 to 150 ft. high. At Rochester it flows over the precipitous edges of the Niagara limestone, forming the Upper Genesee Falls; and 3 mi. below it flows over the edge of the Medina sandstone, forming the Lower Genesee Falls. The principal tributaries of this stream are Canaseraga, Honeoye, and Conesus Creeks from the E., and Oatka and Black Creeks from the w. Honeoye, Canadice, Hemlock, and Conesus Lakes lie within the Genesee Basin.

The third subdivision includes the Oswego River and its tributaries and the small streams flowing into Lake Ontario between Genesee and Oswego Rivers. The basin of the Oswego includes most of the inland lakes which form a peculiar feature of the landscape in the interior of the State. The principal of these lakes are Cayuga, Seneca, Canandaigua, Skaneateles, Crooked, and Owasco,—all occupying long, narrow valleys, and extending from the level land in the center far into the highland region of the s. The valleys which they occupy appear like immense ravines formed by some tremendous force, which has torn the solid rocks from their original beds, from the general level of the surrounding summits, down to the present bottoms of the lakes.<sup>2</sup> Oneida and Onoudaga

The most remarkable passes through the mountains are, first, that of the Hudson, through the eastern mountains; second, that of Wood Creek, from the Hudson to Lake Champlain; and, third, that of the Mohawk, through the central mountains.

 $^2$  The ravines of these lakes, and the streams which flow down parallel to them, are usually hordered by steep hillsides, the strata of which lie in parallel layers nearly level E. and w., and slightly inclined toward the s. Upon the opposite banks the

Lakes occupy basins upon the level land in the N.E. part of the Oswego Basin. Mud Creek, the most westerly branch of Oswego River, takes its rise in Ontario co., flows N.E. into Wayne, where it unites with Canandaigua Outlet and takes the name of Clyde River; thence it flows E. to the w. line of Cayuga co., where it empties into Seneca River. This latter stream, made up of the outlets of Seneca and Cayuga Lakes, from this point flows in a N.E. course, and receives successively the ontlets of Owasco, Skaneateles, Onondaga, and Oneida Lakes. From the month of the last-named stream it takes the name Oswego River, and its course is nearly due N. to Lake Ontario.

The fourth subdivision includes the streams flowing into Lake Ontario and the St. Lawrence E. of the mouth of the Oswego. The principal of these are Salmon, Black, Oswegatchie, Grasse, and Racket Rivers. These streams mostly take their rise upon the plateau of the great Northern wilderness, and in their course to the lowlands are frequently interrupted by falls, furnishing an abundance of water-power. The water is usually very dark, being colored with iron and the vegetation of swamps.

The fifth subdivision includes all the streams flowing into Lakes George and Champlain. They are mostly mountain torrents, frequently interrupted by eascades. The principal streams are the Chazy, Saranac, and Au Sable Rivers, and Wood Creek. Deep strata of tertiary clay extend along the shores of Lake Champlain and Wood Creek. The water of most of the streams in this region is colored by the iron over which it flows.

The second general division of the river-system of the State includes the basins of the Allegany, Susquehanna, Delaware, and Hndson. The Allegany Basin embraces the southerly half of Chautauqua and Cattarangus cos. and the s.w. corner of Allegany. The Allegany River enters the State from the s. in the s.e. corner of Cattarangus co., flows in nearly a semicircle, with its outward enree toward the n., and flows out of the State in the s.w. part of the same eo. It receives several tributaries from the n. and e. These streams mostly flow in deep ravines bordered by steep, rocky hillsides. The watershed between this basin and Lake Erie approaches within a few miles of the lake, and is elevated 800 to 1,000 feet above it.

The Susquehanna Basin occupies about one-third of the s. border of the State. The river takes its rise in Otsego Lake, and, flowing s. w. to the Penn. line, receives Charlotte River from the s. and the Unadilla from the n. After a course of a few miles in Penn. it again enters the State, and flows in a general westerly direction to near the w. border of Tioga co., whence it turns s. and again enters Penn. Its principal tributary from the n. is Chenango River. Tioga River enters the State from Penn. near the e. border of Steuben co., flows n., receives the Canisteo from the w. and the Conhocton from the n. From the month of the latter the stream takes the name Chemung River, and flows in a s. e. direction, into the Susquehanna in Penn., a few miles s. of the State line. The upper course of these streams is generally through deep ravines bordered by steep hillsides; but below they are bordered by wide and beautiful intervales.

The Delaware Basin occupies Delaware and Sullivan and portions of several of the adjacent cos. The N. or principal branch of the river rises in the N.E. part of Delaware co. and flows s.w. to near the Penn. line; thence it turns s.E. and forms the boundary of the State to the line of N.J. Its principal branches are the Pepacton and Neversink Rivers. These streams all flow in deep, narrow ravines bordered by steep, rocky hills.

The Basin of the Hndson occupies about two-thirds of the E. border of the State, and a large territory extending into the interior. The remote sources of the Hudson are among the highest peaks of the Adirondacks, more than 4,000 feet above tide. Several of the little lakes which form reservoirs of the Upper Hudson are 2,500 to 3,000 feet above tide. The stream rapidly descends through the narrow defiles into Warren co., where it receives from the E. the outlet of Schroon Lake, and Sacondaga River from the w. Below the mouth of the latter the river turns eastward, and breaks through the barrier of the Luzerne Mts. in a series of rapids and falls. At Fort Edward it again turns s. and flows with a rapid current, frequently interrupted by falls, to Troy, 160 miles from the ocean. At this place the river falls into an estuary, where its current is affected by the tide; and from this place to its mouth it is a broad, deep, sluggish stream. About 60 miles from its month the Hudson breaks through the rocky barrier of The Highlands, forming the most easterly of the Appalachian Mt. Ranges; and along its lower course it is bordered on the w. by a nearly perpendicular wall of basaltic rock 300 to 500 feet high, known as "The Pal isades." Above Troy the Hudson receives Hoosick River from the E. and the Mohawk from the w. The former stream rises in Western Mass, and Vt., and the latter near the center of the State.

At Little Falls and "The Noses" the Mohawk breaks through mountain barriers in a deep, rocky ravine; and at Cohoes, about I mile from its mouth, it flows down a perpendicular precipice of 70 feet, forming an excellent water-power. Below Troy the tributaries of the Hudson are all comparatively small streams. South of the Highlands the river spreads out into a wide expanse known as "Tappan Bay." A few small streams upon the extreme E. border of the State flow eastward into the Housatonie; and several small branches of Passaie River rise in the s. part of Rockland eo.

Lake Erie forms a portion of the w. boundary of the State. It is 240 miles long, with an average width of 38 miles, and it lies mostly w. of the bounds of the State. It is 334 feet above Lake Ontario, 565 feet above tide, and has an average depth of 120 feet. The greatest depth ever obtained by soundings is 270 feet. The harbors upon the lake are Buffalo, Silver Creek, Dnnkirk, and Bareeloua.

Niagara River, forming the ontlet of Lake Erie, is 34 miles long, and, on an average, more than a mile wide. About 20 miles below Lake Erie the rapids commence; and 2 miles further below are Niagara Falls.2 For 7 miles below the falls the river has a rapid course between perpendicular, rocky banks, 200 to 300 feet high; but below it emerges from the Highlands and flows 7 miles to Lake Ontario in a broad, deep, and majestic current.

Lake Ontario forms a part of the N. boundary to the w. half of the State. Its greatest length is 130 miles and its greatest width 55 miles. It is 232 feet above tide, and its greatest depth is 600 feet. Its principal harbors on the American shore are Lewiston, Youngstou, Port Genesee, Sodus and Little Solus Bays, Oswego, Sackets Harbor, and Cape Vincent. St. Lawrence River forms the outlet of the lake and the N. boundary of the State to the E. line of St. Lawrence co. It is a broad, deep river, flowing with a strong yet sluggish current until it passes the limits of this State. In the upper part of its course it incloses a great number of small islands, known as "The Thousand Islands."

The surfaces of the great lakes are subject to variations of level,—probably due to prevailing winds, unequal amounts of rain, and evaporation. The greatest difference known in Lake Erie is 7 feet, and in Lake Ontario 43 feet. The time of these variations is irregular; and the interval between the extremes often extends through several years. A sudden rise and fall, of several feet, has been noticed upon Lake Ontario at rare intervals, produced by some unknown cause.

Navigable Waters.—The natural internal navigation of the State is very extensive. Before the commencement of internal improvements, the rivers and lakes formed the most easy means of communication between distant portions of the State; and along these natural channels of commerce the early settlements were principally made.4 The most important lines of early

 $^2$  For a more full description of Niagara Falls, see page 450.  $^3$  The river scenery upon the St. Lawrence is unsurpassed. The water is perfectly pure and nearly transparent. In consequence of its being fed by the great lake reservoirs, it is never subject to sudden rises, but steadily pursues its majestic way to the ocean, unaffected by the changes of the seasons or other causes.

<sup>4</sup>The mavigable waters N. of the great watershed before the completion of the Eric Canal were as follows:— Cattaraugus Creek, about 1 mi. from its mouth. Buffalo Creek, beatable 8 mi, from Lake Erie, Tonawanda Creek, boatable 30 mi, from its mouth.

Niagara River, navigable for vessels of any size from Buffalo to Schlosser, at the head of the Rapids,—a distance of 22 mi.; also from Lewiston to Lake Ontario, a distance of 7 mi.

Odly Corkery and Corker of the Marke Ontario, a distance of the M. Orleand Creek, boatable 4 mi, from its mouth.

Genese: River, to Carthage Landing, a distance of 5 mi.; and from Rochester to Mt. Morris for boats.

Oswego River was navigated with great difficulty by bateanx, with a portage at Oswego Falls, now Fulton.

Oncida Outlet and Lake were navigable for bateaux, and for many years constituted a portion of the great thoroughfare between the E. and w.

Seneca River was boatable to Cayuga Lake, and to Seneca Lake with one portage at Seneca Falls; Clyde River was boatable

to Lyons.

The Interior Lakes, including Seneca, Cayuga, Canandaigua, Onondaga, Owasco, Skaneateles, Crooked, Chantanqua, and Otsego, are all navigable. Steamers have plied upon each of them.

Fish Creek was navigable to Rome with canoes. A portage of less than 1 mi. intervened between this stream and the Mobawk River.

Silmon River was navigable to Port Ontario.

Silmon Crick was navigable on each branch, for small vessels, about 1 mi. from the lake.

Black River was navigable for large vessels from the lake to Pexter, a distance of 6 mi., and for boats and small steamers from Carthage to Lyons Falls, a distance of 43 mi. Lake Ontario, with all its bays and inlets, is navigable for ves-

sels of idl sizes.

inland navigation were, first, N. from Albany, through the Hudson to Fort Edward, thence a portage to Fort Ann, and thence by Wood Creek to Lake Champlain; and, second, w. from Albany, by way of the Mohawk, Wood Creek, Oneida Lake, and Oswego River, to Lake Ontario. Upon the latter route were portages at several of the rifts of the Mohawk, from the Mohawk to Wood Creek, and at Oswego Falls.

Tides.—The tides at New York Harbor and along the coast have been carefully observed. under the direction of the Coast Survey. The tidal wave from the Sound, as it moves forward in a wedge-shaped channel, becomes augmented, whilst that from Sandy Hook is slightly dimin-These two waves meet in East River, at points between Hell Gate and Throggs Neck.<sup>1</sup>

Cranberry and French Creeks were boatable about 2 mi. from ' their mouths.

Indian River and Black Lake were navigable from Rossie to the fout of the lake.

Oswegatchie River is navigable in high water for rafts from Ox

Bow to Ogdensburgh.

Racket River was formerly boatable about 18 mi, from its mouth. but the navigation is now destroyed by datus. In the wilderness near the headwaters of this river are several miles of slack water navigation. St. Regis River is navigable for steamboats 2 mi, from its mouth.

Salmon River, navigable to Fort Covington.

St. Lawrence River is navigable for vessels of any size from the lake to Ogdensburgh. Below that point rafts, arks, and boats could descend, but could ascend only by towing with horses and cattle up the principal rifts. Locks and counds have been constructed around the Rapids by the Canadian Government, so that the navigation for steamboats, shoopand schooners is now uninterrupted from Lake Ontario to

the ocean.

Wood Creek was boatable from Fort Ann to Lake Champlain. Lake George is navigable for boats and steamers.

Lake Champlain is navigable for all kinds of vessels. Bafts were formerly sent down to the St. Lawrence: but vessels could not ascend the Richlieu until after the construction of a

canal and locks around the Rapids. Chazy River is navigable to Champlain Landing.

The navigable waters s. of the great watershed were as follows: Allegany River, in high water, is navigable for small steamers up to Olean.

Connewango Creek and several of its tributaries are navigable for rafts in high water

Susquehanna River was navigable for boats, in high water, to Otsego Lake.

Tuadillo River was also boatable for a considerable distance Chenango River and several of its tributaries were boatable in

high water. Cheming River was boatable and navigable for rafts in high water.

Conhocton River was boatable to Bath.

Tioga River and the Conisteo were also boatable a considerable distance.

Delaware River is navigable for rafts in high water. quantities of lumber have been floated down the Delaware and Susquehanna to the markets of Philadelphia and Balti-

Hudson River is navigable for shins to Hudson, and by sloops and steamers to Troy. Bouts formerly ascended to Fort Ed-

ward, with portages around the Falls

Rombut and Wappinger Creeks are navigable each about 2 mi.

from their months.

Mohands Refer months.

Mohands River was beatable from Schenectaly to "Fort Stanwir," now Rome, with several interruptions. The principal
obstructions were the "Six Flats Rift," 6 mi, above Schenectady; "Fort Hunter Rift;" "Caughnawaga Rift," at
Camplolarie; "Elles Rift," hear Fort Plain; "Kneisberns
Bift," near the Upper Indian Castle; and the "Little Fulls,"
which was a complete lay to unward unsigneting and co-

which was a complete bar to upward navigation and required a portage around it.

Suconday River is navigable for small steamers from Hadley to Northampton,—a distance of 20 mi. In and around New York and the American Suconday and Suconday River is a support of the Suconday and Suconday Suconday Support of the Suconday and independent of the Suconday Support of the Support of Support York and Long Island the bays, creeks, and inlets are nearly

all navigable in high tide.

Peconic River is navigable to Riverhead

to High Bridge.

Byrom River is navigable to Port Chester.
Brown River is navigable to West Farms, a distance of 3 ml.
Havlen River can be navigated by small craft from East River

# GEOLOGY.

Our knowledge of the geology of the State is derived from the survey made under State authority from 1836 to 1843, and from the investigations of several eminent geologists who have examined particular localities.1

Rocks.—The geological formations of the State include the igneous or primary rocks, and all the strata lying between them and the coal measures of Penn. The classification adopted by the State geologists, embracing all the rocks above the primary, is known as the "New York system," the rocks being analogous to the Silurian and Devonian system of the European geologists. The igneous or primary rocks, including granite, gneiss, and other varieties destitute of organic remains, occupy the greater part of the mountainous region in the N. E. part of the State, the Highlands upon the Hudson, and a considerable portion of the country below, including Man-Portions of these rocks are imperfectly stratified, and are generally found in broken and disrupted masses with the strata highly inclined. The remaining portions of the State are occupied by series of stratified rocks, generally extending E. and w. and varying in thickness from a few inches to several hundred feet. The strata everlie each other, and have a slight dip toward the s., so that a person in traveling from the N. border of the State to the Penn. line would successively pass over the exposed edges of the whole series. Toward the E. these strata all are bent, and appear to be arranged around the primitive region in the same order in which they lie elsewhere. The highest of the series of rocks found in the State forms the floor of the coal measures; so that it is perfectly futile to search for eoal within the limits of the State. The rocks are distinguished by their color, quality, and situation, and by the fossils which they contain. In many instances a stratum disappears entirely, and in others strata of several hundred feet in thickness in one place are but a few feet thick in another. In places where many strata are wanting and two rocks usually widely separated are found in contact, the geologist is obliged to depend entirely upon the fossils which they contain to determine their elassification.2

<sup>1</sup> In 1799, Dr. Samnel L. Mitchill, under the auspices of the "Society for Promoting Agriculture, Arts, and Manufactures. published an essay upon the rocks in the State. While the Erie Canal was in process of construction, Stephen Van Rensselaer employed Prof. Amos Eaton to prepare an account of the rocks along the canal route. This was published in 1824. Prof. Eaton's work was one of great merit; and to him we are indebted for the must now one on great merit; and to imm we are indebted for the first accurate knowledge ever obtained of the general system of rocks in the State.

On the 15th of April, 1836, an act was passed authorizing a geological survey of the State. The State was divided into four districts, to each of which were appointed a geologist and an A zoologist, botanist, mineralogist, and palcontologist

were appointed for the whole State.

The First District included the counties of Albany, Columbia, The PASS District inclined the counties of Albany, Common, Delaware, Dutchess, Greene, Kings, New York, Orange, Putham, Queens, Kensselaer, Richmond, Rockland, Saratoga, Schenectady, Schoharie, Suffolk, Shlivan, Ulster, Washington, and Westchester. Wm. W. Mather was appointed Principal Geologist, and Caleb Briggs, J. Lang Cassels, and —— Seymour, Assistants. The Report, in I vol. 4to, was published in 1843.

The Second District, consisting of the counties of Clinton, Essex, Franklin, Jefferson, St. Lawrence, and Warren, was placed under the charge of Dr. Ebenezer Emmons, Principal, and Jas. Hall and E. Emmons, jr., Assistants. The Report, in I vol., was

published in 1842.

The Third District, consisting of the counties of Broome, Cayuga, Chenango, Cortland, Fulton, Herkimer, Lewis, Madison, Montgomery, Oneida, Onondaga, Oswego, Otsego, Tioga, and the

Nonigomery, Oneida, Onondaga, Oswego, Otsego, Tloga, and the E. half of Tompkins, was placed under charge of Laudner Van Uxem. Principal, and Jas. Eights and E. S. Can, Assistants. The Report, in 1 vol., was published in 1842.

The Fourth District, consisting of the counties of Allegany, Cattaraugus, Chantanqua, Chemang, Eric, Genesce, Livingston, Monroe, Magara, Ontario, Orleans, Seneca, Steuben, the w. half of Tompkins, Wayne, Wyoming, and Yates, was assigned to Jas. Hall, Principal, and J. W. Boyd and E. N. Horsford, Assistants. The Report was published in 1 vol. in 1843.

The Mineralogical Department was assigned to Dr. Lewis C. Beck, Principal, and Wm. Horton and L. D. Gale, Assistants. The Report, in 1 vol., was published in 1842.

The Zoological Department was assigned to Dr. Jas. E. De Kay, Principal, and John W. Hill, Draftsman. The Report, in 5 vols. was published in 1842-43:—Vol. 1, Mammalia, with General Introduction by Gov. Seward; Vol. 11, Ornithology; Vols. 11 and IV. Reptiles and Fishes; Vol. V. Mollusca and Crustacea.

The Bolanical Department was assigned to Dr. John Torry. The Report, in 2 vols, was published in 1843.

The Agricultural Department was assigned to Dr. Elemezer.

The Agricultural Department was assigned to Dr. Ebenezer Emmons. The Report, in 5 vols., was published from 1846 to

1854,-Vol. I, Soils and Climate; Vol. II, Analysis and Results

1854.—Vol. I, Soils and Chinate; Vol. II, Analysis and Resnits of Experiments; Vols. III and IV. Fruits: Vol. V. Insects. The Paleontological Department was assigned to T. A. Conrad, in 1857.—He resigned in 1843, and was succeeded by Prof. Jas. Hall. The Report, to consist of 5 vols., is in process of publication. Two vols, are already issued; and the third is in press. A consisted two community the Equation is issued with a contract to issued with a contract of the Paleon III. geological map, accompanying the Reports, is issued with

this work.

2 The following is the classification of the New York system, with the position which the different strata occupy in the classification of English geologists. The order of the arrangement

is from below upward :-Primitive or Igneous Rocks.

Taconic System. Potsdam Sandstone. Calciferous Sandstone. Chazy Limestone. Birdseye Limestone Black River Limestone. Trenton Limestone. Utica Blate. Hudson River Group, Lorraine Shales Oncida Conglomerate, Shawangunk Grit. Medina Sandstone, Clinton Group. Niagara Group, Coraline Limestone in the east. Onondaga Salt Group. Green Shales. (Gypsum. Waterlime Group. Pentamerus Limestone. Delthyris Shaly Limestone.

Upper Pentamerns Limestone, Oriskany Sandstone, Cauda Galli Grit. Schoharie Grit. Onondaga Limestone.

Corniferous Limestone. Marcellus Shales.

Hamilton Group, Lindowville Shales, Enerinal Linestone, Moscow Shales. Tully Limestone.

Genesee Slate.

(Coshaqua Shales, Portage Group. Gardeau 1 1ag (Society) Portage Sandstone Gardeau Flag Stones.

Encrinal Limestone.

Old Red Sandstone

Conglomerate of the Coal Measures.

The Catskill Mts. are composed principally of Old Red Sandstone; and the tops of some of the higher peaks are covered with the conglomerate of the coal measures. New Red Sandstone is found in a few localities along the Hudson, below the Highlands. Trap, a rock of volcanic origin, forms the Palisades upon the Hudson; and trap dikes are common in the primitive region of the N. Tertiary clay, in deep strata, extends along the valleys of Lake Champlain and St. Lawrence River. Drift, including loose deposits of boulders, gravel, sand, and clay, is found in most parts of the State, in some places covering the rocks beneath to the depth of several hundred feet. The character of this drift, the peculiar forms which it has assumed, and the position which it occupies, all give evidence of some great general moving power which existed after the stratified rocks were lifted from their original beds, and ages before the present order of things was instituted.

Within more recent periods, considerable changes have been wrought by the action of present streams of water and the wasting agencies of the atmosphere and frost. From these are derived marl, alluvium, and the greater part of the soils. The thickness of the rock strata is generally determined by its outcrop along the ravines of the streams, and by Artesian wells, which have been sunk to a great depth in different parts of the State.<sup>1</sup>

Metallic Minerals.—The principal metals in the State are iron and lead, the former only of which is found in sufficient quantity and purity to render its manufacture profitable. Iron ore is found in three distinct varieties, viz., magnetic oxide or magnetite, specular oxide or red hematite, and hydrons peroxide or limonite. Magnetic ore is widely diffused throughout the primitive region. It is usually found in beds between the rock strata, parallel to the mountain ranges; and sometimes it is blended with the rock. The beds in many places are immense in extent, and the ore is 75 to 95 per cent. pure iron.2 Specular iron ore is found in narrow beds between the igneous and sedimentary rocks. It is principally found in St. Lawrence and Jefferson cos.3 A variety of this ore, known as argillaceous iron ore or clay ironstone, is associated with the lower strata of the Clinton group, extending from Herkimer to Mouroe co. It is found in beds 2} feet thick and about 20 feet apart, and its general form is that of flattened grains. Limonite is found also associated with the igneous rocks and in various other localities. It is usually in the form of shot or bog ore, or yellow ocher. It is wrought to a considerable extent in Richmond, Orange, Putnam, Dutchess, Columbia, Washington, Franklin, St. Lawrence, Jefferson, and Lewis cos. Bog ore is probably found, to a greater or less extent, in every co. in the State. The iron made from it is usually tough and soft.4

Lead ore is found in St. Lawrence, Ulster, Dutchess, Westchester, Orange, Columbia, Lewis, Jefferson, and Sullivan cos.; and in several of them the mines have been worked to some extent. The Rossie Mines, of St. Lawrence, are the only ones now wrought.<sup>5</sup> Copper ore in the form of

New Red Sandstone. Tertiary. Diluvial or Drift. Quaternary.

The Taconic system is claimed by some as corresponding to the Cambrian system of Mr. Sedgwick, and by others to be newer formations changed by heat.

1 TABLE

Showing the depths of the principal Artesian wells in the State.

"	Clyde	400	" " and cas.

The deepest Artesian well in the U.S. is at St. Lonis, Mo., and is 2199 feet deep. A well at Louisville, Ky., is 2086 feet deep; and another at Columbus, Ohio, 1900 feet deep.

<sup>2</sup> The principal mines which have been worked in the northern primitive region are in Warren, Essex, Clinton, St. Lawrence, and Franklin cos. So common are particles of iron in the rocks of this region that the iron sand upon the banks of the streams is sufficiently pure to repay the labor of collecting for the forge, Magnetic ores are also abundant in Orange co, and mines have there been worked since the earliest periods. This ore has also been found among the igneous rocks of Rockland, Westchester, Putnam, Washington, Saratoga, Hamilton, Herkimer, Jeffersou, and Lewis cos.

<sup>3</sup>The principal mines in St. Lawrence and Jefferson cos, yield this variety of ore. It is most abundant in the towns of Gouverneur, Rossie, and Antwerp, and is there usually associated with crystaline sulphuret of iron, spathic iron, and quartz. The argillaceous ore supplies the furnaces in Oneida, Oswego, and Wayno cos. It is red, and imparts a dull red color to whatever it comes in contact with. In the region of mines and furnaces the clothing of the laborers, the trees, fences, and vehicles employed, are all colored by it. It is used as a paint, under the name of "Spanish Deney 2".

Brown."

4 Bog ore is deposited in swamps, the bottoms of which are clay, hardpan, or some other strata impervious to water. It is continually accumulating, so that it may be removed two or three times in a century. It has various shades of color, from yellow to a dark hrown. In the primitive region it sometimes assumes a stalactital or botryoidal form, with a fibrous texture and a glossy black surface. A loamy variety, when used in high furnaces, is liable to blow up. This is caused by the mass melting away below, leaving a crust above, and, as the support at hat gives away, the moisture contained in the mass is suddenly content of the conten

<sup>6</sup> A vein has recently been opened in Orange co, that promised great richness. Lead ore is usually found in the form of sulphurets, or galena. It is often associated with crystulized minerals of great beauty.

a sulphuret has been found in Washington, Jefferson, and St. Lawrence cos., but not in sufficient quantities to render mining profitable. Zinc ore in the form of a sulphuret, or blende, is found, associated with lead, in St. Lawrenee co. Manganese, titanium, nickel, and several other metals, have been found in small quantities, though they have never been reduced except in the laboratories of the ehemist.1

Non-Metallic Minerals.—The most valuable non-metallic minerals in the State are limestone, gypsum, waterlime, pipeclay, clay and sand suitable for common and fire brick and pottery, graphite, tale, and slate. Nearly every part of the State is well supplied with building stone; and in most of the counties extensive quarries have been worked. Lime, waterlime, and gypsum are also extensively quarried.2

Mineral Springs are numerons, and are found in nearly every co. in the State. The most celebrated of these are the salt springs of Onondaga, the medicinal springs of Saratoga, and the thermal springs of Columbia co. Sulphur and chalybeate springs are common, and many of them have considerable notoriety for medicinal properties.<sup>3</sup> In the w. part of the State springs emitting nitrogen and carburetted hydrogen gas are numerous. In the limestone regions of the State the water is generally more or less impregnated with carbonate and sulphate of lime; and in many places tufa is deposited in large quantities by the water. The slow dissolving of the limestone rocks has given a cavernous structure to several localities, and in others it has formed deep holes in the ground. The caves of Albany, Schoharie, and Jefferson cos. are doubtless formed in this manner; and the peculiar sink-holes and cratean lakes of Onondaga are probably formed by the breaking of the superincumbent mass into the caverus beneath.

# SEAT OF GOVERNMENT.

THE SEAT OF GOVERNMENT was originally fixed at New York City, and remained there until the Revolution, with occasional adjournments of the General Assembly and Executive Department on account of prevailing sickness. Such of the public records as related to the immediate interests of the crown were removed, by order of Gov. Tryon, in Dec. 1775, to the armed ship Duchess of Gordon, and remained on board till Nov. 1781, when most of them were returned to the city.4 In June, 1776, the other public records were removed to Kingston, and, on the approach of the enemy in Oct. 1777, they were hastily taken to Roeliester, Ulster county.<sup>5</sup> They were soon afterward taken to Poughkeepsie, and in 1784 to New York. In 1797, commissioners were appointed to creet a building for the records in Albany, and an order dated July 31, 1798, authorized their removal thithers and the permanent location of the seat of Government at that place.

The State House was begun in 1803 and finished in 1807, at the joint expense of the city and county of Albany and the State of New York. The original cost exceeded \$120,000, of which

2 The following is a list of the most important quarries in the State :-

Gupsum is found in Cayuga. Madison, Onondaga, Wayne, Orleans, and Genesce.

Limestone is quarried in most of the counties of the State ex-

cept these along the Penn. line.

Water-Limestone is quarried in Eric, Jefferson, Lewis, Madison,
Montgomery, Niagara, Onondaga, and Ulster.

Flagging is found in most of the southern counties, and in various other localities. The thin hedded sandstone of the Portage group furnishes the best varieties.

Building stone of excellent quality is found in nearly every section of the State. Granite and gneiss are extensively quarried in New York and Westchester and in the N. E. Cos. of the State. The Potsdam sandstone, Black River lime-stone, the gray and Medina sandstone, and the Onondaga limestone all furnish excellent building stone. Most of the locks upon the Eric Canal are built of the last named stone. The shales of the Portage and Cheming group are separated into strata by hard, compact sandstone, excellent for building or flagging.

Marble is found and quarried in Westchester, Putnam. Dutchess,

and Orange cos.

Roofing slate is quarried in Washington, Rensselaer, Columbia,

and Dutchess cos.

The principal of these springs are those of Massena, St. Richfield, Otsego co.; Avon, Livingston co.; Lawrence co.; Sharon, Scheharie co.; New Lebanon and Stockport, Columbia co.; Chittenango, Madison co.; and Alabama, Genesee co. 4 Six years close confinement on shipboard damaged some of these records almost beyond remedy. The most valuable

were transcribed in 1798, under the direction of commissioners

appointed by law.

The first State Legislature, then in session, hastily adjourned and met in Jan. at Poughkeepsie. The citizens of Goshen tendered the hospitalities of their village and the use of rooms, if the Legislature chose to remove thither. In March, 1778, a concurrent resolution directed the Secretary of State and the clerks of counties to put their records into strong and light inclosures, to be ready for instant removal in case of danger. The Legislature held its sessions at Poughkeepsie, Kingston, or , as suited convenience, until 1784, when it removed to ork. Two sessions were afterward held at Poughkeepsie, New York. and three at Albany, before the final removal to the latter place

in 1797.

6 Philip Schuyler, Abraham Ten Broeck, Jeremiah Van Rens selaer, Daniel Hale, and Tennis T. Van Vechten were appointed commissioners. The edifice stood on the site of the present Geological and Agricultural Hall, and was torn down in 1855.

In many of the original patents of the mountainous regions npon the Hudson, reservations were made of all the gold and silver that might be found. To this day, however, these metals have not been found; though it is said that traces of silver have been discovered in several places.

\$34,200 was paid by the city and \$3,000 by the county of Albany. It continued to be used for city, county, and State offices and courts until about 1832, when the State became the exclusive owner and the Capitol was fitted up for legislative and other public purposes. It stands at the head of State Street, 130 feet above the Hndson, and has in front a park of three acres inclosed by an iron fence. It is substantially built of stone faced with Nyack red freestone.

The State Library is a fireproof building in the rear of the State House and connected with it by a long corridor. It is built of brick and iron and faced on its two fronts with brown freestone. It is already nearly filled with books, manuscripts, and maps, which the State has been collecting for many years.2

The State Hall, situated upon Eagle Street, fronting the Academy Park, was finished in 1842. It is built of cut stone, with a colonnade in front, supported by six Ionic columns, and is surmounted by a dome.3 It contains the offices of the Secretary of State, Comptroller, Treasurer, Auditor of Canal Department, Canal Appraisers, Canal Commissioners, State Engineer and Surveyor, Division Engineers, Clerk of Court of Appeals, Superintendent of Public Instruction, Superintendent of Bank Department, Attorney General, and State Sealer of Weights and Measures.

The State Geological and Agricultural Hall, corner of State and Lodge Sts., is the depository of the specimens collected during the geological survey, and also contains the cabinet of the State Agricultural Society.4

1 It is 90 feet broad, 50 high, and was originally 115 feet long. In 1854, 15 feet were added to the w.cod. The eastern front has an Ionic portice with four columns of Berkshire marble each 3 feet 8 inches in diameter and 38 feet high. The north and south fronts have each a pediment of 65 feet base; and the doorways are decorated with columns and angular pediments of freestone. The entrance hall is 40 by 50 feet and 16 feet high, the ceiling of which is supported by a double row of reeded columns, and the floor is vanited and laid with squares of Italian marble. Upon the north side of the hall are the office of Adjutant General and the Assembly Library, and on the south side the Executive Chambers. The remainder of the first story is devoted to the Assembly Chamber with its lobbies and postoffice. This chamber is now 56 by 65 feet and 28 feet and postoffice. The Speaker's desk is on the w. side, and the desks of the high. The Speaker's desk is on the w. sac, and the desks of the clerks are upon each side and in front of it. Desks of members are arranged in semi-circles in front. Upon the E. side is a gallery supported by iron pillars. The colling is richly ornamented in stucco. Over the Speaker's seat is a copy by Ames of a full length portrait of Stewart's Washington. In the second story, over the entrance hall, is the Senate chamber, 40 by 50 feet and 22 feet high. The President's desk is upon the s. side, and the desks of the Senators are arranged in a circle in 8. side, and the desks of the senators are arrange a macro-front. On the x side are the library and cleak room of the Senate, and on the s, the postoffice and room of the Sergeaut at ms. Over the President's seat is a crimson canopy, and oppo-site are the portraits of Gov. Geo. Clinton and Columbus. The Arms. Over the President's seal is a crimism canaly, and oppying opposite are the portraits of Gov. Geo. Clinton and Columbus. The latter was presented to the Senate in 1784 by Mrs. Farmer, a crand-daughter of Gov. Leisler, and had been in her family lab years. Over the Assembly lobbies is the room of the Court of Appeals, and in the third story are the consultation rooms of this court, committee rooms of both houses, and part of the Senate Library. The courtroom of the Court of Appeals contains portraits of Chaucellors Lausing, Sandford Jones, and Walworth, Chief Justice Spencer, Abraham Vau Vechten, and Daniel Cady. The inner Executive Chamber has a full size portrait of Gen. La Fayette, painted when he was in the city in 1825.

The roof of the State house is pyramidal, and from the ceuter rises a circular cupola 20 feet in diameter, supporting a hemi-spherical dome upon 8 insulated Ionic columns. Upon the dome stands a wooden statue of Themis, 11 feet high, holding

in her right hand a sword and in her left a balance.

2 The State Library was founded April 21, 1818, and for nearly forty years was kept in the upper rooms of the Capitol. Its growth was comparatively slow nutil 1844, when its supervision was transferred from the State officers who had been ex-officio trustees to the Regents of the University. Their Secretary, the late tees to the Regents of the University. Their Secretary, the late Dr. T. Romeyn Beck, was emineutly fitted for the task of building up an institution of this character. The library at the time of the transfer contained about 10,000 volumes. The number has increased during the subsequent 15 years to about 53,000. The present building, erected ut 1853-54, is 114 feet long by 45 broad, was built at a cost of \$91,900, and opened to the public Jan. 2, 1855. The first floor is supported by stone pillars and ground arches, and the second floor and galleries by arched spans of iron filled with concrete. The roof, rafters, trusses, pillars, shelves, and principal doors are of iron, and the floors are paved with colored tile. The first story is devoted to the wide department, and the second story to the general library, inlaw department, and the second story to the general library, in-cluding a large number of costly presents from other Govern-ments, a valuable series of MSS, and parchments relating to our colonial and early State history, and an extensive collection of medals and coins. The office of the Regeuts of the University is in the library building.

The library, formerly known as the "Chancellors' Library,"

was divided in 1849, and, with additions since made, now forms two public libraries, called the "Libraries of the Court of Appeals," one of which is lecated at Syracuse and the other at Rochester. They consist chiefly of law books, and are in charge received. They consist cheen of raw books, and a find the ficuracy of librarians appointed by the Regents and paid by the State. There is also a small library, for reference, in the consultation room of the Court of Appeals. Each of the judges of the Supreme Court and the Vice Chancellor of the Second District, under the late Coustitution, held libraries owned by the State, under the late Constitution, held libraries owned by the State, which are for the use of the four judges of the Court of Appeals elected by the people of the State at large, and their successors in office. There is also a small library for the use of the Attorney General; and means are annually provided for the increase of each of these collections, chiefly from the income of moneys known as the "Chancellors' Library Fund" and "Interest Fund," which are kept invested by the Clerk of the Court of Appeals for this purpose.

3 This hubility of SES by SS feet and 65 feet high. The collings of

8 This building is 138 by 88 feet and 65 feet high. The ceilings of \*\*Institution is 18 by 85 sect and 65 teet high. The centings of the basement and of the two principal stories are ground arches, and all the rooms, excepting in the attic story, are fireproof. The basement and attic are each 19 feet, and the two principal stories each 22 feet, high. The building cost about \$530.000.

\*\*In 1842 the old State Hall was converted into a geological state.

hall, and rooms were assigned in the same building to the State Agricultural Society. The old building was torn down, and the present Geological and Agricultural Hall erected in its place, in the summer of 1855. The Agricultural Rooms were dedicated Eq. 12, 1857, and the Cathuet was opened to the public Feb. 22, 1858. The present building is of brick, and is 4 stories high, besides the basement. In the rear is a spacious wing, of the same height as the main building. It contains a lecture room, the spacious geological cabinet, and the rooms of the State Geological Collection. The basement is occupied by a taxidermist and a janier. The building itself is subject to the order of the Commissioners of the Land Office. The Cabinet originated in the Geological Collection for the property of the Collection of the Land Office. logical Survey, and in extent and value it ranks among the first in America. Within the past year a series of English lossils has been given to the State by the British Government; and a valuable collection of shells, embracing several thousand species, has been recently presented and arranged by Philip P. Carpenter, an English naturalist. The Museum is designed to embrace a complete representation of the geological formations of the State, complete representation of the geological formations of the starter with their accompanying minerals and fossils, and of its entire native flora and launa. The birds and quadrupeds are preserved by a skilful taxidermist, with the attitudes and appearance of life; and the reptiles and fishes are principally preserved in al-cohol. Connected with this cabinet is a historical and anti-quarian department, embracing numerous aboriginal antiquities quarran department, embracing immercus aborigina autojunites and specimens of modern Indian art, relies of battle fields, and other objects of historical interest. The whole is under the charge of a curator appointed by the Regents. The museum of the State Agricultural Society, in a separate department of the building, contains a large collection of obsolete and modern implements of husbaudry, specimeus of agricultural and mechanical products, models of fruits, samples of grains and solls, drawings illustrating subjects connected with the useful arts; and it is designed to include an extensive collection of insects, made with especial reference to showing their influence upon the fruit and grain crops of the State. The entomological department is in grain crops of the State. The entomological department is in charge of Dr. Asa Fitch, who has been for several years employed by the society in studying the habits of destructive insects, with the view to ascertaining the means of preventing their ravages The whole of these collections are open to the public on every weekday except holidays. The meetings of the Executive Com-mittee of the State Agricultural Society, and the winter fairs, are held in their rooms in this building

# STATE GOVERNMENT.

The State Government consists of the Legislative, Executive, Judicial, and Administrative Departments; the powers and duties of the several officers being defined by the Constitution and regulated by law.

# LEGISLATIVE DEPARTMENT.

The State Legislature is composed of a Senate and Assembly.

The Senate consists of 32 members, chosen by single districts every two years, the whole number being chosen at once. The Lieut. Governor is ex officio President of the Senate, and has a casting vote in case of a tie. The Senate appoints a President pro tem., who presides in the absence of the Lient. Governor, and becomes ex officio Lient. Governor in case of a vacancy in that office. The Senate with the Judges of the Court of Appeals forms a court for the trial of impeachments, and it ratifies or rejects the nominations of the Governor to a great number of offices.

The Senate elects the following officers: a clerk, sergeant-atarms, assistant sergeant-at-arms, doorkeeper and assistants, librarian, and such other officers as may be deemed necessary.1

The Assembly consists of 128 members, elected annually by single districts. The districts are re-apportioned once in ten years, after the State census is taken. The Speaker, or Presiding Officer of the Assembly, is elected by the members from their number, and usually appoints all committees. npon financial matters must originate in the Assembly.

The Assembly elects the following officers: a Speaker, clerk, sergeant-at-arms, doorkeeper and two assistants. The Speaker appoints an assistant sergeant-at-arms, a postmaster and assistant, a janitor, keeper of the Assembly chamber, and several doorkeepers and pages.2

- 1 The sergeant-at-arms is also librarian. The clerk appoints : his deputies and assistants, and the President appoints a janitor, superintendent of the Senate chamber, and pages. Committees are usually appointed by the Lieut. Gov. The appointments are made for two years. About half a dozen reporters are admitted to seats within the Senate chamber. Standing committees in the Senate consist of 3 members.
  - SENATE DISTRICTS.
- Queens, Richmond, and Suffolk Counties.
   1st, 2d, 3d, 4th, 5th, 7th, 11th, 13th, and 19th Wards of Brooklyn.

- 30. Allegany, Livingston, and Wyoning Counties.
- 31. Eric County.32. Cattarangus and Chautauqua Connties.
- <sup>2</sup> The clerk appoints his assistants and deputies, a librarian and assistant, a bank clerk, and a clerk's messenger. These and assistant, a bank clerk, and a clerk's messenger. These officers are appointed for the session, except pages, who are changed in the middle of each session. Standing committees of the Assembly consist of 5 members, except those upon Ways and Means, the Judiclary, and Canals, each of which has 7 members. About 20 reporters are admitted and provided with seats within the bar. They usually share with members extra appropriations for books, and in the privilege of mailing documents at the public expense.

#### ASSEMBLY DISTRICTS.

[Those Counties not enumerated in this list form but one District. Fulton and Hamilton form one District.]

#### ALBANY COUNTY .- Four DISTRICTS.

- 1. 1st Ward of Albany, Bethlehem, Coeymans, New Scotland, Rensselaerville, and Westerlo.
   9th and 10th Wards of Albany, Bern, Guilderland, and Knox.
   2d, 3d, 4th, 5th, 6th, and 8th Wards of Albany.
- 4. 7th Ward of Albany and Watervhet,

#### ALLEGANY COUNTY .- Two DISTRICTS.

- 1. Allen, Almond, Angelica, Belfast, Birdsall, Burns, Caneadea, Centerville, Granger, Grove, Hnme, New Hudson, Bushford, and West Almond.
- 2. Alfred, Alma, Amity, Andover, Bolivar, Clarksville, Cuba, Friendship, Genesee, Independence, Scio, Ward, Wellsville, Willing, and Wirt.

## CATTARAUGUS COUNTY .- Two DISTRICTS.

1. Allegany, Ashford, Carrolton, Elgin, Farmersville, Franklinville, Freedom, Hinsdale, Humphrey, Ischua, Machias, Olean, Portville, and Yorkshire.

The sessious of the Legislature commence on the first Tuesday in January, and members can only receive pay for 100 days. The business of each year begins de novo; but if an extra session is called by the Governor, bills are taken up where they were left at the last previous adjournment. Each house decides upon the qualifications of its own members; and both houses must concur in the election of U. S. Senators, Regents of the University, and Superintendent of Public Bills, except measures of finance, may originate in either house, and must be

 Bucktooth, Coldspring, Connewango, Dayton, Ellicottville, East Otto, Great Valley, Leon, Little Valley, Mansfield, Napoli, New Albion, Otto, Perryshurgh, Persia, Randolph, and South Valley.

#### CAVUGA COUNTY .-- Two DISTRICTS.

- I. Brutus, Cato, Conquest, Ira, Mentz, Monteznma, Sennett, Sterling, Throop, Victory, and the 1st and 4th Wards of Auburn.
- Aurelins, Fleming, Genoa, Ledyard, Locke, Moravia, Niles, Owasco, Scipio, Sempronius, Springport, Summer Hill, Venice, and the 2d and 3d Wards of Auburn.

#### CHAUTAUQUA COUNTY. -- Two DISTRICTS.

- Busti, Chautauqua, Clymer, Ellery, French Creek, Harmony, Mina, Portland, Ripley, Sherman, Stockton, and Westfield.
- Arkwright, Carroll, Charlotte, Cherry Creek, Ellicott, Ellington, Gerry, Hanover, Kiantone, Poland, Pomfret, Sheridan, and Villenova.

#### CHENANGO COUNTY .- Two DISTRICTS.

- Columbus, Lincklaen, New Berlin, North Norwich, Norwich, Otselic, Pharsalia, Pitcher, Plymouth, Sherburne, and Smyrna.
- Afton, Buinbridge, Coventry, German, Guilford, Greene, Mc-Donough, Oxford, Preston, and Smithville.

#### COLUMBIA COUNTY .- Two DISTRICTS.

- Ancram, Claverack, Clermont, Copake, Gallatin, Germantown, Greenport, Hudson City, Livingston, and Taghkaniek.
- 2 Austerlitz, Canaan, Chatham, Ghent, Hillsdale, Kinderhook, New Lehanon, Stockport, and Stnyvesant.

#### DELAWARE COUNTY .- Two DISTRICTS.

- 1. Colchester, Delhi, Franklin, Hamden, Hancock, Masonville,
- Sidney, Ton.pkins, and Walton. Andes. Bovina, Davenport, Harpersfield, Kortright, Meredith, Middletown, Roxbury, and Stamford,

### DUTCHESS COUNTY .- Two DISTRICTS.

- Amenia, Beekman, Dover, East Fishkill, La Grange, Northeast, Pawling, Pine Plains, Stanford, Union Vale, and
- Washington.
  2. Clinton. Hyde Park, Milan, Pleasant Valley, Ponghkeepsie, City of Poughkeepsie, Red Hook, and Rhinebeck.

#### ERIE COUNTY .- FOUR DISTRICTS.

- 1st, 2d, 3d, 4th, 5th, and 13th Wards of Buffalo.
- 1. 18t. 20, 36, 340, 540, 540, 540
   2. 6th. 7th. 8th, 9th, 10th, 11th, and 12th Wards of Buffalo.
   3. Alden. Amberst, Chicktawanga, Clarence, Elma, Grand Island, Hamburgh, Lancaster, Marilla, Newstead, Tonawanda, and West Seneca.
   4. Amora, Boston, Brandt, Colden, Collins, Concord, East Hamburgh, Eden, Evans, Holland, North Collins, Sardinia, and Webs.
- and Wales.

## HERKIMER COUNTY .- Two DISTRICTS.

- 1. Fairfield, Herkimer, Little Falls, Manheim, Newport, Nor-
- way, Ohio, Russin, Salisbury, and Wilmurt. 2. Columbia, Danube, Frankfort, German F Schuyler, Stark, Warren, and Winfield. German Flats, Litchfield,

#### JEFFERSON COUNTY .- THESE DISTRICTS.

- 1. Adams, Brownville, Ellisburgh, Henderson, Hounsfield, Lorraine, Rodman, and Worth.
- 2. Antwerp, Champion, Le Ray, Philadelphia, Rutland, Watertown, and Wilna.
- 3. Alexandria, Cape Vincent, Clayton, Lyme, Orleans, Pamelia, and Theresa.

## KINGS COUNTY .- SEVEN DISTRICTS.

- 1. Flatbush, Flatlands, Gravesend, New Lots, New Utrecht, and the 8th, 17th, and 18th Wards of Brooklyn. 2. Ist, 6th, and 12th Wards of Brooklyn.

- 3. 4th and 10th Wards of Brooklyn.
  4. 24, 3d, and 5th Wards of Brooklyn.
  5. 9th and 11th Wards of Brooklyn.
  6. 13th, 14th, and part of 19th Wards of Brooklyn.
- 7: 7th, 15th, 16th, and part of 19th Wards of Brooklyn.

# LIVINGSTON COUNTY .- Two DISTRICTS.

- 1. Avon, Caledonia, Conesus, Genesco, Groveland, Leicester,
- Lima, Livonia, and York.

  2. Mount Morris, North Dansville, Nunda, Ossian, Portage, Sparta, Springwater, and West Sparta.

### MADISON COUNTY .- Two DISTRICTS.

- 1. Brookfield, De Ruyter, Eaton, Georgetown, Hamilton, Lebanon, Madison, and Nelson.
- 2. Cazenovia, Fenner, Lenox, Smithfield, Stockbridge, and Sullivan.

### MONROE COUNTY .- Three DISTRICTS.

- 1. Brighton, Henrietta, Irondequoit, Mendon, Penfield, Perinton, Pittsford, Rush, and Webster.
- 2. The City of Rochester. 3. Chili, Clarkson, Gates, Greece, Ogden, Parma, Riga, Sweden, Union, and Wheatland.

# NEW YORK CITY AND COUNTY .- SEVENTEEN DISTRICTS.

17 districts, corresponding to Aldermanic districts.

#### NIAGARA COUNTY .- Two DISTRICTS.

- 1. Lockport, Pendleton, Royalton, and Wheatfield.
- 2. Cambria, Hartland, Lewiston, Newfane, Nigara, Porter, Somerset, and Wilson.

#### ONEIDA COUNTY .- FOUR DISTRICTS.

- Deerfield, City of Ltica, and Whitestown.
   Augusta, Bridgewater, Kirkland, Marshall, New Hartford, Paris, Sangerfield, Vernon, and Westmoreland.
- Camden, Florence, Rome, Verona, and Vienna.
   Amesville, Ava, Brownville, Floyd, Lee, Marcy, Remsen, Steuben, Trenton, and Western.

#### ONONDAGA COUNTY .- THREE DISTRICTS.

- I. Camillus, Clay, Elbridge, Lysander, Marcellus, Skancateles, Spafford, and Van Buren.
- Cicero, Salina, and Syracuse.
   De Witt, Fabius, Geldes, La Fayette, Maulins, Onondaga, Otisco, Pompey, and Tully.

#### ONTARIO COUNTY .- Two DISTRICTS.

- 1. Farmington, Gorham, Hopewell, Manchester, Phelps, and Seneca.
- 2. Bristol, Canadice, Canandaigua, East Bloomfield, Naples, Richmond, South Bristol, Victor, and West Bloomfield.

### ORANGE COUNTY .- Two DISTRICTS.

- 1. Blooming Grove, Chester, Cornwall, Monroe, Montgomery,
- Newburgh, and New Windsor. Trawford, Deerpark, Goshen, Greenville, Hamptonburgh. Crawford, Deerpark, Goshen, Greenville, Hamptenburgh, Minisink, Mount Hope, Walkill, Warwick, and Waway-

### OSWEGO COUNTY .- THREE DISTRICTS.

- anda.
- 1. City of Oswego, Hannibal, Oswego, and Scriba. Constantia, Granley, Hastings, Palermo, Schroeppel, Volney, and West Monroe.
- Albion, Amboy, Boyleston, Mexico, Orwell, Parish, Redfield, Richland, Sandy Creek, New Haven, and Williamstown.

## OTSEGO COUNTY .- Two DISTRICTS.

- I. Cherry Valley, Decatnr. Exeter, Maryland, Middlefield, Otsego, Plainfield, Richfield, Roseboom, Springfield, Westford, and Worcester.
- Unadilla, Burlington, Butternuts, Edmeston, Hartwick, Laurens, Milford, Morris, New Lisbon, Otego, Oneonta, and Pittsfield.

## QUEENS COUNTY .- Two DISTRICTS.

- Finshing, North Hempstead, and Oyster Bay.
   Hempstead, Jamaica, and Newtown.

## RENSSELAER COUNTY .- THREE DISTRICTS.

- 1. City of Troy.
- 2. Berlin, Grafton. Hoosick, Lansingburgh, Petersburgh, Pittstown, and Schaghticoke.
- 3. Brinswick, Clinton, Greenbush, Nassau, North Greenbush, Poestenkill, Sand Lake, Schodack, and Stephentown.

## ST. LAWRENCE COUNTY .- THREE DISTRICTS.

- De Kalb, De Peyster, Fine, Fowler, Gonverneur, Macomb, Morristown, Oswegatchie, Pitcairn, and Rossie,
   Canton, Colton, Edwards, Hermon, Lisbon, Maddid. Norfolk,
- Pierrepont, and Russell.
- Brasher, Hopkinton, Lawrence, Louisville, Massena, Parish-ville, Potsdam, and Stockholm.

# SARATOGA COUNTY .- Two DISTRICTS.

- I. Ballston, Charlton, Clifton Park, Galway, Halfmoon, Malta,
- Milton, Stillwater, and Waterford.

  2. Corinth, Day, Edinburgh, Greenfield, Hadley, Moreau, North-umberland. Providence, Saratoga, Saratoga Springs, and

passed by both, and receive the signature of the Governor,—or, if vetoed by him, the votes of twothirds of both houses,—to become laws. The original laws of the Legislature, bearing the signatures of the presiding officer of each house and of the Governor and Secretary of State, are bound, and preserved in the Secretary's office. All general laws are published in such newspapers in each county as may be designated by the Board of Supervisors.

Besides the State Legislature, a limited power of enacting laws is possessed by the boards of supervisors in the several counties, by the common councils of cities, and by citizens generally assembled in town and school district meetings.

The Board of Supervisors meets annually at the county seat, on the week following the general election, to canvass the votes for State and county officers; it may hold special meetings at any time. It has power to appoint a clerk of the board, a county sealer of weights and measures, special commissioners for laying out roads, printers for publishing the general laws, inspectors of turnpike and plank roads, and, in some counties, the Superintendent of the Poor, and other officers, and to fix the salaries of the county Judge and Surrogate, and of School Commissioners, (above \$500, allowed by law,) and, in some counties, the salary of the District Attorney; to establish the bounds of assembly and school commissioner districts, to fix upon town meeting days, to make orders concerning property owned by the county, and to repair or rebuild the county buildings; to audit and settle charges against the county, and the accounts of town officers; to equalize assessments and levy taxes to meet county expenses, and for such special purposes as may be directed by law. It also has power to alter the bounds of towns, and to erect new towns; to change the location of the county seat and purchase sites for the erection of new buildings; and to examine annually the securities held by loan commissioners. It may pass laws for the preservation of game or fish, and for the destruction of noxious animals, and perform such other duties as may be from time to time authorized by law.

### STEUBEN COUNTY .- THREE DISTRICTS.

- I. Avoca, Bath, Bradford, Conhocton, Prattsburgh, Pulteney, Urbana, Wayne, and Wheeler.
- Addison, Cameron, Campbell, Caton, Corning, Erwin, Hornhy, Lindley, Bathbone, Thurston, and Woodhull.
   Canisteo, Dansville, Fremont, Greenwood, Hornellsville, Howard, Hartsville, Jasper, Troupsburgh, West Union, and Wayland.

## SUFFOLK COUNTY .- Two DISTRICTS.

- 1. East Hampton, Riverhead. Shelter Island, Southampton, and Southold
- 2 Brookhaven, Hnntington, Islip, and Smithtown.

### ULSTER COUNTY .- THREE DISTRICTS.

- Hurley, Kingston, and Saugerties.
   Esopus, Gardiner, Lloyd. Marbletown. Marlborough, New Paltz, Plantekill, Rosendale, and Shawangunk.
- 3. Denning, Hardenburgh, Olive, Rochester, Shandaken, Wawarsing, and Woodstock.

#### WASHINGTON COUNTY .- Two DISTRICTS.

- Argyle, Cambridge, Easton, Fort Edward, Greenwich, Jackson, Salem, and White Creek.
   Dresden, Fort Ann. Granville. Hampton. Hartford, Hebron.
- Kingsbury, Putnam, and Whitehall.

### WAYNE COUNTY .- Two DISTRICTS.

- 1. Butler, Galen, Huron, Lyons, Rose, Savannah, Sodus, and
- Wolcott.
  2. Arcadia, Macedon, Marion, Ontario, Palmyra, Walworth, and Williamson.

#### WESTCHESTER COUNTY .- Turke Districts.

- 1. East Chester, Morrisania, Westchester, West Farms, and Yonkers.
- Greenburgh, Harrison, Mamaroneck, Mount Pleasant, New Rochelle, North Castle, Pellam, Ponndridge, Rye, Scars-dale, and White Plains.
- 3. Bedford, Cortlandt, Lewisboro, New Castle, North Salem, Ossining, Somers, and Yorktown.

## 1 TOWN MEETINGS.

Town meetings are held on the same day throughout the county; and the time may be changed once in 3 years. The town meetings must come between the 1st day of Feb. and the 1st of May. They are at present all held on Tuesdays, as follows:—

Counties.	Tuesdays upon which Town Meetings are held.	Counties.	Tuesdays upon which Town Meetings are held.	Counties.	Tuesdays upon which Town Meetings are held.
Albany	2d in April.	Herkimer	1st in March.	Richmond	2d in Feb.
Allegany	2d in March.	Jetferson	3d in Feb.	Rockland	2d in April.
Broome	2d in Feb.	Kings	1st in April.	St. Lawrence	2d in Feb.
Cattaraugus	Last in Feb.	Lewis	3d in Feb.	Saratoga	1st in March.
Cayuga	1st after 1st Mon. in Mar.	Livingston	let in April.	Schenectady	1st in April.
Chautauqua	3d in Feb.	Madison	1st in March.	Schoharie	3d in Feb.
Chemung	2d after 1st Mon. in Feb.	Monroe	1st after 1st Mon. in Mar.	Schuyler	2d in Feb.
Chenango	1st in March.	Montgomery	2d in Feb.	Seneca	2d in March,
Clinton	1st in March.	New York		Steuben	2d in Feb.
Columbia		Niagara	2d in April.	Suffolk	1st in April.
Cortland		Oneida	1st in March.	Sullivan	1st after 1st Mon. in Mar.
Delaware		Onondaga	3d in Feb.	Tioga	let in Feb.
Dutchess	2d in March.	Ontarlo	1st after 1st Mon. in April.	Tompkins	Ist in April.
Erie	Ist in March.	Orange	1st in March,	l'Ister	1st in March,
Essex		Orleans	1st in April.	Warren	Ist in April.
Franklin	1st in Feb.	Oswego	1st in March.	Washington	1st in March.
Fulton		Otsego	Ist in March.	Wаупе	1st in March.
Genesee		Putnam	Ist after 1st Mon. in April.	Westchester	Last in March.
Greene		Qucens	1st in April.	Wyoming	Last in Feb.
Hamilton	1st in Feb.	Rensselaer	1st in March.	Yates	Last in Feb.

At these meetings are elected, by ballot, a supervisor, town each election of clerk, 4 justices, (with exceptions named on page 34, 3 assessors, (for 2 years, 1 annually,) a collector, 1 or 2 overseers of poor, the next higher (at the option of the town, excepting Montgomery and Kings stables. Each t cost that are not included in the general law.) 1 or 3 commissioners of highways, (if 3, one elected annually for 3 years,) not more than 5 constables and 2 inspectors of election for may determine.

each election district, a third being appointed by the presiding officer of the town meetings from the two having the next highest vote. The town of Maulius elects 7 consables. Each town at its annual meeting also elects by ayes and noes, or otherwise, as many overseers of highways as there are road districts, and as many pound masters as the electors

The Common Council in each of the cities has jurisdiction over municipal affairs within limits fixed by law, and observes the usual formalities of legislative bodies in its proceedings. Two aldermen are generally elected from each ward, who, with the mayor, constitute the Common Council; but the organization of no two cities is in this respect exactly alike. The enactments of the Common Council are usually termed "ordinances," and have the force of law. The council usually has the appointment of a large class of minor city officers, including the keepers of parks and public buildings, inspectors of various kinds, and in some instances the officers and members of the police and fire departments. These appointments are usually held at the pleasure of the appointing power.

Town Meetings may pass laws regulating roads and bridges, the height of fences, the support of the poor, the range of animals, the destruction of noxions weeds, the preservation of town property, and for such other purposes as may be directed by special acts. Every town is a corporate body, may sue and be sued, may hold and convey lands within its limits for purposes specified

by law, and may appropriate moneys for public objects within the town.

School Districts, at regular meetings, may pass rules concerning the support of schools, employment of teachers, repairs, supplies, and similar affairs, which have the force of law.

## EXECUTIVE DEPARTMENT.

The Governor is elected once in two years.<sup>2</sup> He is commanderin-chief of the military and naval forces of the State, and possesses
the sole power of granting pardons and commutations of sentence
after conviction.<sup>3</sup> He issues requisitions for the return of criminals in other States, and he is authorized to offer rewards for the
arrest of criminals within this State. He annually communicates
to the Legislature, at the commencement of each session, a statement of the condition of the public departments, and such other
matters as he may deem necessary. On extraordinary occasions
he may convene the Senate or Legislature.<sup>4</sup> Within ten days after
its passage by the Legislature, he may veto any act, by returning it
to the honse in which it originated, with his objections; and such act

can become a law only by the concurrence of two-thirds of both houses.<sup>5</sup>

The Governor nominates, for appointment by the Senate, a large class of State and county and a few military officers,<sup>6</sup> and may fill vacancies occurring in these offices during the recess of the Senate. Some other classes of officers are appointed by the Governor alone,—generally for specific terms, but in some cases during pleasure. He may also fill vacancies occurring in elective offices, and

1 In New York, the Common Conneil consists of two branches,—the Board of Aldermen, consisting of 17 members, chosen for 2 years; and the Board of Conneilmen, consisting of 24 members, chosen annually, 6 from each senatorial district. Each of these branches elects one of its own number president; and the mayor possesses a veto power upon their laws analogous to that of the Governor upon those of the State Legislature.

2 To be rlighle to the office of Governor a person must be a citizen of the U.S., a resident of the State for the last 5 years reviews to election and must be a static lab over 3 years.

<sup>2</sup> To be cligible to the office of Governor a person must be a citizen of the U. S., a resident of the State for the last 5 years previous to election, and must have attained the age of 30 years. The colonial governors of N. Y. were appointed by the crown. Under the Constitution of 1777 they were elected for 3 years and were required to be freeholders. Under the Constitution of 1822, the governor was elected for 2 years, and, in addition to the present qualifications, was required to be a native of the E. S. and a freeholder.

Under the first State Constitution electors were classified, and only those owning freehold property worth \$250 and nipward were allowed to vote for Senators and Governor. The aggregate of the several classes at different periods has been as follows:—

YEARS.	Worth \$250 and upward.	Writh \$50 to \$250.	Not Freeholders, but rentingtene- ments worth \$5.	Other electors.	Total,
1790	19,369	23,425	14.674	138	57,606
1795	36,358	4,838	22,598	243	64,017
1801	52,058	5,264	28,522	63	85,907
1807	71,159	5,800	44,330	88	121,289
1814	87,491	5,231	59,104	20	151,846
1821	100,490	8,985	93,035	20	202,510

 $^3$  In cases of treason and impeachment the Governor can only suspend sentence until the next session of the Legislature, that hody above possessing the pardoning power in such cases. Under the Constitution of 1777, the same restriction was applied in cases of murder.

of murder.

4 He also possessed under the Constitution of 1777 the power to prorogue the Legislature for a period not exceeding 60 days in one year. This was once done by Gov. Tompkins, to defeat the passage of a bank charter, but without sneezes.

5 The first court created a council of revision, consisting of

The first court created a council of revision, consisting of the Governor, Chancellor, and judges of the Supreme Court, who sat with closed doors and observed the usual formulaties of legislative proceedings. During the continuance of this council it rejected 144 bills, several of which became laws notwithstanding.

6 The following officers are appointed by the Governor and Senate;—1 Superintendent of Bank Department, 1 Anditor of Canal Department, 3 Canal Appraisers, 1 Superintendent of Onondaga Salt Springs, 6 Commissioners of Emigration, 5 Commissioners of Metropolitan Police, 11 Harbor Master, 89 Wardens of the Port of New York, 2 Special Wardens to reside at Quarantine, 1 Harbor Master at Albany, 1 Health Officer at Quarantine, 1 Physician of Marine Hospital, 1 Agent for the Onondaga Nation, 1 Attorney to Seneca Nation, directors in certain banks of which the State holds stock according to the amount held, as many Hellgate pilots as the Board of Wardens may recommend, 5 trustees of the Idiot Asylum, 2 commissioners in each co. for loaning moneys of the United States, as many notaries public as the law may allow or the Governor determine, and such other officers and special commissioners as are required from time to time by law. He appoints field officers of regiments and generals of brigneds, when such regiments and portains of brigades, when such regiments and brigades are not fully organized. Under the first constitution, almost every civil and military office was filled by the Council of Appointment, consisting of the Governor and 4 Senators, chosen annually by the Assembly. In 1821, 8,287

may remove, under limitations prescribed by statute, most State and county officers. He has a private secretary, with a salary of \$2000, a clerk and a doorkeeper.

The Lieutenant Governor is elected at the same time as the Governor, and must possess the same qualifications. He discharges the duties of Governor when a vacancy occurs in that office. He is President of the Senate, having the casting vote in that body, a Commissioner of the Canal Fund and of the Land Office, a member of the Canal Board, a trustee of the Idiot Asylum and of Union College, a Regent of the University, and a trustee of the Capitol and State Hall.

The Secretary of State<sup>2</sup> is keeper of the State archives; is a Regent of the University, a Commissioner of the Laud Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, a trustee of the State Idiot Asylum, of Union College, of the Capitol, and of the State Hall. He has specific duties in relation to the publication and distribution of the laws; the issuing of patents for land, of commissions, pardons, and peddlers' licenses; the filing of the declarations of aliens, and the articles of association of companies under general laws; issuing notices of elections, receiving and reporting statistics of pauperism and erime from sheriffs and county elerks, and furnishing certified copies of laws and other docu-

ments in his office. He administers the oath of office to members of the Assembly, and other State officers. His deputy is ex officio Clerk of the Commissioners of the Land Office.

The Comptroller<sup>3</sup> is the auditor of the public accounts, excepting those payable from the Canal and Bank Funds; a Commissioner of the Land Office and of the Canal Fund; a member of the Canal Board and of the Board of State Canvassers, and a trustee of the Idiot Asylum, of Union College, of the Capitol, and State Hall. He has responsible duties in relation to the payment of appropriations made by the Legislature, the collection of taxes, and sale of lands sold for taxes, the management of funds, supervision of fire and life insurance companies, loaning of moneys, and other duties connected with the finances of the State. He reports annually to the Legislature the condition of the public funds, the receipts and expenses of the State, the condition of

insurance companies, and upon such other matters as he may from time to time be called upon by the Legislature for information. He has a deputy, an accountant, and about a dozen clerks.

The Treasurer receives all moneys paid into the treasury, and pays all warrants of the Comptroller, Auditor of the Canal Department, Superintendent of the Bank Department, and Superintendent of Public Instruction. He is a Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, and a trustee of Union College. He has a deputy, and two or three elerks.

The Attorney General<sup>5</sup> is the legal prosecutor and adviser in behalf of the State. He is a

military and 6,663 civil officers held under this appointment. and most of them at will. From 1822 to 1846, the Governor and Senate appointed, in addition to most of those it now appoints, and most of them at will. all judicial officers, except justices, Masters and Examiners in Chancery, Supreme Court Commissioners, inspectors for com-mo reial purposes, Commissioners of Deeds, several city officers, and State Prison Inspectors.

1 Representatives in Congress and members of the State Logis-lature can be elected only. The Governor appoints, on his own authority, Commissioners for taking acknowledgments of Deeds

authority. Commissioners for taking acknowledgments of Beeds in other States and countries, wreck masters, and certain commissioners directed to be appointed for special purposes.

2 The Secretary of State was formerly Clerk of the Council of Appointment and of the Council of Revision, and from 1823 to 1854 was Superintendent of Schools. In colonial times he was appointed by the crown; from 1777 to 1822, by the Council of Appointment; and from 1822 to 1846, by the Legislature.

3 This office was created in 1797, in place of that of Auditor General farmed by the Prayincial Convention; but it was not

General, formed by the Provincial Convention; but it was not permanently organized until 1812. The Comptroller was ap-pointed by the Council of Appointment until 1822, when the appointing power was changed to the Legislature and the tenure of the office fixed at 3 years.

<sup>4</sup> The office of Treasurer, under the colonial government and early years of State government, was a very important one; and for many years after 1777, the Treasurer was appointed by special act from year to year. About the beginning of the present

century, the defalcation of a Treasurer occasioned a revision of century, the defalcation of a Treasurer occasioned a revision of the law creating the department; and, from his being the principal financial officer of the government, the Treasurer became the most unimportant and his powers were narrowed down to the payment of the drafts of other officers. For many years previous to 1822 he was appointed by the Council of Revision, and from 1822 to 1846, by the Legislature. The accounts of the Treasurer are annually compared with those of the Comptroller, Superintendent of Bank Department, and Auditor of the Canal Department, by a comparisoner appointed for the oursess, and bepartment, by a commissioner appointed for the purpose; and these officers thus become a check upon each other. The Trea-surer may be suspended for cause, by the Governor, in the recess of the Legislature.

5 This office has existed almost from the beginning of the

5 This office has existed almost from the beginning of the Colonial Government. It was filled by the Council of Appointment from 1777 to 1822, and by the Legislature, with a term of 3 years, from 1822 to 1846. The Attorney General originally attended the circuits of Oyer and Terminer, as prosecutor in criminal suits, until 1706, when the State was divided into 8 districts to each of which an assistant Attorney General was appointed, except in New York, where the head officer officiated personally. In 1818 each co, was made a separate district, and a District Attorney was appointed in each. The Attorney General still occasionally attends upon important criminal trials: but his time is chiefly occupied in civil suits in

which the State is a party.

Commissioner of the Land Office and of the Canal Fund, a member of the Canal Board and of the Board of State Canvassers, and a trustee of Union College, of the Capitol, and State Hall. He has a deputy and a clerk.

The State Eugineer and Surveyor<sup>1</sup> has charge of the engineering department of the canals and such land surveys as involve the interests of the State. He reports annually the statistics of these departments and of railroads. He is a Commissioner of the Land Office, a member of the Canal Board and Board of State Canvassers, and a trustee of Union College and the State Hall. He must be a practical engineer. He is assisted by a deputy and 3 clerks.

## JUDICIAL DEPARTMENT.

United States Courts.—The second of the U. S. Courts comprises New York, Vermont, and Connecticut. A court is held twice a year in each State by a Justice of the Supreme Court and the District Judge of the district in which the court sits.

The State of New York is divided into two Judicial Districts, in each of which is held a District Court.<sup>2</sup> The officers of this court in each district are a District Judge, Attorney, Marshal, and Clerk. In the Sonthern District a term is held in each month, at New York; and in the Northern District one term is held each year at Albany, Utica, Auburn, and Buffalo, and one term annually in St. Lawrence, Clinton, or Franklin co., as the Judge may direct.<sup>3</sup> These courts have nearly concurrent original jurisdiction in all matters in which the United States is a party; and they take cognizance of offenses against the laws of the U.S. An appeal lies from the District to the Circuit Court, and thence to the Supreme Court.

State Courts.—The State Courts consist of a Court for the Trial of Impeachments, the Court of Appeals, the Supreme Court and Court of Oyer and Terminer, the County Court and Court of Sessions, Justices' Courts, and City Courts.

The Court for the Trial of Impeachments consists of the Senate and the Judges of the Court of Appeals. Its judgments extend only to removal of officials and to disqualification for holding office. Parties impeached are liable to all the penalties of the civil and criminal laws. This court is a court of record; its meetings are held at Albany.

The Court of Appeals,<sup>5</sup> instituted in 1847, is composed of 8 judges, 4 of whom are elected, (one every 2 years,) and 4 of whom are the Judges of the Supreme Court having the shortest term to serve. The judge elected having the shortest term to serve is Chief Judge; and 6 judges constitute a quorum. This court has power to correct and reverse all proceedings of the Supreme Court, or of the former Supreme Court, and Court of Chancery. It holds 4 terms a year at the Capital; and every 2 years one term must be held in each Judicial District. Its clerk has an office in the State Hall, where the records of this and former State and Colonial Courts are preserved. The State Reporter prepares for the press and publishes the decisions of the court, copies of which are sent to each

county, and franked, under the Governor's hand, to each of the other States and Territories of the Union.

<sup>&</sup>lt;sup>1</sup> This office takes the place of that of "Surveyor General," which existed under the colony. In the earlier years of the State Government, numerous and responsible duties were imposed upon this officer, under acts for the sale and settlement of hands, the adjustment of disputed titles, boundaries, and Imdan claims, laying our roads, and business relating to the salt springs reserved village plats, and other State property. These duties were discharged from 1784 to 1834 by Simeon De Witt, with great integrity and success.

with great integrity and success.

The Secretary of State, Comptroller, Treasurer, Attorney General, and State Engineer are elected biennially at the same time,—their election occurring on alternate years from those of the dection of the Governor and Lieut, Governor.

<sup>&</sup>lt;sup>2</sup> United States District Courts.—There are two Districts within this State. The Southern District embraces Columbia, Greene,

Ulster, Sullivan, and the counties South. The Northern District embraces the remainder of the State.

The United States has caused or ordered buildings to be erected in part for the accommodation of these courts at New York, Utica, Buffalo, Ogdensburgh, Canandaigua, and Plattsburgh, These edifices are of the most substantial kind, and generally fire proof.

<sup>4</sup> This court has assembled but once. In 1853 it was convened for the trial of impeachment of John C. Mather, Canal Commissioner. He was acounted.

Commissioner. He was acquitted.

5 Constitution, Art. VI. No. 2. This court takes the place of the former \*Court for the Correction of Errors," and in some respects fills that of the old Supreme Court and Court of Chancery.

The Supreme Court.—The State is divided into 8 Judicial Districts, in each of which, except the first, 4 justices are elected. The clerks of counties are clerks of this court. It has general jurisdiction in law and equity, and power to review the judgments of the County Courts and of the former Court of Common Pleas. This court has three distinct branches,-General Terms, Special Terms, and Circuits. The General Term held by three or more of the Supreme Judges, including the presiding judge, is an appellate court for the review of cases from the courts below, and for deciding solely upon questions of law. Special Terms are held by one Supreme Judge, without a jury, for the decision of equity cases; and Circuit Courts are held by one Supreme Judge, with a jury, for the trial of issues of fact. At least four general terms of this court are held in each district every year. Every county (except flamilton) has at least one special and two circuit courts annually. A general term of the Supreme Court is held at the Capital in January of each alternate year, for the purpose of arranging the terms of all the Circuit Courts and Courts of Oyer and Terminer, of assigning the business and duties of the justices, and revising the rules of the court.

County Courts are held by the County Judge, assisted by two justices of the peace elected annually for the purpose. The judge performs the duty of surrogate, except in counties where the population exceeds 40,000, in which the Legislature may provide for the election of a separate officer as surrogate.3 The Legislature may direct the election of local officers, not exceeding two in any county, to discharge the duties of judge and surrogate in case of inability or vacancy in that office, and to exercise such other powers as may be provided by law. Judges and surrogates receive a salary fixed by the Supervisors, and which cannot be increased during their term of office.

County Courts have jurisdiction in civil cases when the real estate, or all the defendants, or all the parties interested are within the co., and where the action of debt, assumpsit, or covenant claimed is not above \$2,000, or in actions for injury to the person, or trespass upon property, where the damage claimed does not exceed \$500; or in replevin suits where the value claimed is not above \$1,000. These courts have equity jurisdiction for the foreclosure of mortgages, the sale of the real estate of infants, the partition of lands, admeasurement of dower, the satisfaction of judgments over \$75, and the care and custody of lunatics and habitual drunkards. Surrogate's Courts are held by the County Judge or Surrogate, (in counties where the latter is elected,) and have the ordinary jurisdiction of Courts of Probate.

Justices' Courts are held by justices of the peace, who have jurisdiction in civil suits where the sum claimed does not exceed \$100 in value. They have jurisdiction in criminal cases for imposing fines to the amount of \$50, and of inflicting imprisonment in the county jail for a term not exceeding 6 months.6

Tribunals of Conciliation may be established, and their powers and duties prescribed by law; but their judgments are not obligatory unless the parties previously agree to abide by such decision.7

City Courts. In each of the cities and in several of the larger villages are courts of local jurisdiction organized under special laws.8

1 New York State Judicial Districts under the Act of May 8, | 1847 :-

1. City and Connty of New York.
2. Dutchess, Kings, Orange, Putnam. Queens, Richmond, Rockland, Suffolk, and Westchester Counties.

 Albany, Columbia, Greene, Rensselaer, Schoharie, Sullivan, and Ulster Counties. 4 Clinton, Essex, Franklin, Fulton, Hamilton, Montgomery,

- St. Lawrence, Saratoga, Schenectady, Warren, and Washington Counties. 5. Herkimer, Jefferson, Lewis, Oneida, Onondaga, and Oswego
- Countles.
- 6. Broome, Chemung, Chenango, Cortland, Delaware, Madison,

Broome, Chemang, Chenango, Cortland, Delaware, Madison, Otaego, Schuyler, Tioga, and Tompkins Counties.
 Cayuga, Livineston, Monoe, Ontario, Seneca, Stenben, Wayne, and Yates Counties.
 Allegany, Caffarangus, Chautanqua, Erie, Genesce, Niagara, Orleans, and Wyoming Counties.
 From 1777 to 1822 Judges were appointed by the Council of Appointment; and from 1822 to 1846, by the Governor and Senate. One in each co. was styled "First Judge;" and a fixed annaher (subsequently 4) of others were called Judges.
 Surrogates are elected in Albany, Cavanga, Chautanqua, Columbia, Dutchess, Erie, Jefferson, Kings, Monroe, New York, 9neida, Onondaga, Ontario, Orange, Otsego, Rensselaer, St. Lawrence, Saratoga, Ulster, Washington, Wyoming, and Yates cos.
 Gunstintion, Act. VI, Sec. 15. Special acts have been passed for this purpose, as follows:—Special Judge and Special Surrogate in Cayuga, Chevtanqua, Jefferson, and Oswego, 1849; Washington, 1855. Special Judge in Oncida, Orango, St. Law-

- rence, and Tioga. 1849; Ulster, 1850; Chenango, 1851; Sullivan, 1982, 1893, 1895, 1897, 1897, 1897, 1898,
- There are 4 justices elected in each town except Champlain.
   Ellisburgh, Fort Ann. Hanover, Harmony, Hector. Lenox. Niagara.
   Pomfret, and Potsdam, which have each 5, and Brookhaven, which has 8. Justices were appointed by the Council of Appointment from 1777 to 1822, and by the Supervisors and Judgos from 1824 to 1827, since which they have been elected.
   Revised Statutes, Art. I, Title 4, Chap. 2, Part 3, 1 Constitution, Art. VI, Sec. 23.
   The principal City Courts are as follows:—
   However, A. Musch, Caret, bud, by the Mayor, Recorder.

- In Albany .- A Mayor's Court, held by the Mayor, Recorder, Altony,—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly, or either of them singly. It is practically held by the Recorder only; a Court of Special Sessions, held by the Recorder or County Judge, with one or more Justices; a Justices' Court, held by 3 Justices elected for the purpose. Two Police Justices elected. elected.
- In Auburn .- Justices' and Police Courts. Three Justices of the Peace elected.
- In Brooklyn.-The City Court, held by the City Judge; Police thurts and Justices' Courts, for whose convenience the city is divided into 5 districts; a Court of Special Sesions, held by a Justice or Police Justice.

In Buffalo.—A Superior Court, held by 3 Instices; Justices; and Police Courts. Eight Justices of the Peace and one Police Justice elected.

The officers in each county, auxiliary to the judiciary, are as follows:-

The District Attorney, who is the official prosecutor in all criminal cases coming before the county courts, and has general duties in relation to suits in which the county has an interest.

**The Sheriff**, who is charged with the preservation of the public peace and the execution of the orders of the courts. He has charge of the jail and prisoners, and appoints as many deputies as he may deem necessary. He can hold no other office, and is ineligible to the same office for the next 3 years after his term expires. He is required to give bonds, in default of which the office becomes vacant.

The County Clerk, who is made the keeper of the county records. He attends the courts and records their proceedings, records deeds and mortgages, files papers and documents required by law to be preserved in his office, and is the medium of communication between State and town officers. He is the clerk of the Supreme Court for his county. He appoints a deputy, who, when duly sworn, may discharge all his duties.

Four Coroners, who are charged with the duty of inquiring into the cause of sudden deaths. Upon being notified, it is their duty to attend at the place where a dead body is found, summon a jury and witnesses, examine into the causes, and make a written report to the county clerk. They also have the sole power of issuing writs against sheriffs.

A Register, performing that part of the duties of county elerks relating to the recording of conveyances and mortgages, is elected in New York, Kings, and Westchester counties; and each of these appoints a deputy.

Commissioners of Deeds, to take acknowledgments of deeds and legal documents, are appointed by the Common Councils of cities in such numbers as they may decide, except in New York, where the number is limited to 300, and in Syracuse to 12.3

Notaries Public are appointed by the Governor and Senate for a term of 2 years, and have anthority to demand and accept payment of foreign bills of exchange, and to protest the same for nonpayment, and to exercise the duties of Commissioners of Deeds. Their number is limited to 400 in New York, 25 in Troy, and in other cities and towns as many as the Governor may deem proper.

Criminal Courts. Courts for the trial of criminal cases consist of the Court of Over and Terminer connected with the circuit of the Supreme Court, the Court of Sessions connected with the County Court, City Criminal Courts, and Justices' Courts.4

**Courts of Oyer and Terminer** consist of a Justice of the Supreme Court associated with the County Judge and two Justices of the Sessions, (except in New York City,) the Supreme Judge and two of the others constituting a quorum for trials. This court has original and general jurisdiction.

Courts of Sessions are held by the County Judge and two Justices of Sessions. They have jurisdiction over cases in which the imprisonment in case of conviction is less than ten years. The inferior City Courts and Justices' Courts have jurisdiction over petty criminal cases.

In Hudson.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen, or the Mayor and Recorder jointly or singly: a Justices' Court, held by 2 Justices. One Police Justice elected.

In New York .- The Superior Court, consisting of a Chief New 1008.—The Superior Court, consisting of a Uniter Justice and 6 Justices; the Court of Common Plas, composed of 3 Justices; the Marine Court, composed of 3 Justices; the Marine Court, composed of 3 Justice of the Superior Court of Oper and Transfer, held by Justice of the Superior Court; the Court of General Sessions, held by the Recorder or City Judge; the Court of Special Sessions, held by the Recorder or City Judge with Special Sessions, held by the Recorder or City Judge with Court of the Court of th ont a jury; Palice Courts, held by Special Justices in 4 separate districts; and Justices' or Pastrict Courts, held in 6 separate districts.

Oswego.—A Recorder's Court, held by the Recorder, or, in his absence, by the Mayor or any two Alderman; a Court of Special Sessions, held by the Recorder. Two Justices In Oswego. elected.

In Poughkeepsic. -Justices' and Police Courts.

In Recluster.—Justices and Police Courts. Three Justices of the Peace and I Police Justice elected.
In Schenectady.—Justices' and Police Courts. Four Justices

elected.

In Syracuse .- Justices' and Police Curts. Three Justices of

In Syracuse.—Justices' and Police Curts. Three Justices of the Peace and I Police Justice elected.

In Troy.—A Mayor's Court, held by the Mayor, Recorder, and Aldermen. or the Mayor and Recorder jointly, or either singly. Practically it is held by the Recorder: a Justices' Court, held by 3 Justices elected for the purpose.

In Utica.—A Recorder's Court, held by the Recorder: a Court of Special Sessions, held by the Recorder and 2 Aldermen. Four Justices and 1 Police Justice elected.

1 By an acc massed April 14 1852, the supervisors may deter-

1 By an act passed April 14, 1852, the supervisors may determine whether this shall be a salaried office, and may fix the com- administration of E. W. Leavenworth, the statistics of crime

pensation. In the absence of such action, the District Attorney is paid by fees.

Art. X. Sec. 1. From 1777 to 1822 sheriffs were appointed annually by the Governor and Council, and could not hold the office more than 4 successive years. They have been elected since 1822

<sup>8</sup> In towns the duties of the office are performed by justices of the peace. Special commissioners for this service were appointed in the several cos, by the Council of Appointment under the first Constitution, and by the Governor and Senate under the Constitu-tion of 1821. The Governor may appoint, for a term of 4 years, any number of persons not exceeding 5, in any city or co. of other States and of Canada, to take acknowledgments of instruments or conveyances to be recorded in this State. The consuls, viceand ministers of the U.S. in foreign countries. mayors of London, Liverpool, and Dublin, the provost of Edin burgh, and persons appointed by the Governor, not exceeding 3 in each of the cities of London, Liverpool, Glasgow, Paris, and Marseilles, may also perform this duty, and administer baths or affirmations substantiating proofs to documents requiring to be

recorded or to be produced in evidence within this state.

4 In 1829, co. clerks were required to report to the Secretary
of State a transcript of all convictions and the sentences thereon. The intention of this act was to establish evidence in case of the trial of the same person for a second offense, in which the punish ment for the same crimes is enhanced in severity. In 1857, the Secretary of State was required to report a statement of all consections reported under this act, and annually afterward to lay before the Legislature a like summary. In 1839, sheriffs were also required to report the name, excupation age, see, and native country of every person convicted and such other information as might indicate degree of education, the effect of home influ-ciaces, and such other details as might be required. Under the

## ADMINISTRATIVE DEPARTMENT.

Under the head of the Administrative Department are classed the officers charged with the general administration of the affairs of canals, of State prisons, of the salt springs, of academic and common school education, and other public interests, each of which is particularly noticed elsewhere. It also includes a variety of other offices, the principal of which are as follows:—

The County Treasurer is charged with the duty of receiving all moneys collected by tax, or otherwise payable into the county treasnry, of paying all orders issued by the Supervisors, and of accounting to the Comptroller of the State for such moneys as are due to the State treasury. He is required to give bonds; and in case of vacancy the office is filled by appointment of the Supervisors until the January following the next general election.

Superintendents of the Poor have charge of the county poor and of the poorhouses, nnless otherwise provided by law. The Supervisors may elect to have 1 or 3 superintendents. In several of the counties, special laws exist with regard to this office.1

Commissioners of Excise are appointed by the County Judge and the two Associate Justices, except in New York, where the Chief Justice of the Superior Court, the presiding Judge of the Court of Common Pleas, and the Recorder, have the appointing power. They meet annually on the third Tuesday of May, to grant licenses for selling liquors and keeping inns under restrictions fixed by law. This office was created April 16, 1857. Twenty freeholders must unite in a petition for a license; and the same person can sign but one petition. Licenses cost \$30 to \$250 each.

Of the 1712 convicted in 1858, 1582 were males and 130 females The number of convictions reported by sheriffs falls short of that by clerks for the obvious reason that many who are fined pay down their penalties and never come into the sheriff's hands. The excess reported by clerks from 1839 to 1854 varied from 172 to 1,000 annually. Males form about 94 per cent, of all convictions reported by clerks, 93\(\frac{1}{2}\) per cent, of those reported by sheriffs, and 85 per cent, of those convicted in courts of special sessions. The results of trial compared with total indictments have varied in different years within the following limits:-

and imprisonment. 1,285 from jails and local prisons, 5,744 from State prison for term of years, and 559 from State prison for life. Of the whole number, 1,640 were conditioned mostly to leaving the State or U. S. 807 were restored to rights of citizens, 59 were respited from capital offenses. The pardoning power has been considered follows: exercised as follows:

George Clinton	208 [
John Jay	160
Morgan Lewis	213
Daniel D. Tompkins	1,693

John A. King	

Supervisors. In early times each town supported its own poor, and where persons who had not acquired residence became chargeable, they were sent from town to town back to the place where they had formerly resided. A very able report was presented to the Senate by J. V. N. Ystes, Secretary of State, Feb. 9, 1824, npon the subject of the "laws for the relief and settlement of the poor." in which he advised the erection of one or more houses of employment in each co., in which paupers might

State Assessors.—The object of the office is to collect the necessary statistics among the several counties to enable the Board of Equalization to equalize the State tax among the several counties, and fix the amount of real and personal estate upon which the State tax shall be levied. The Assessors are appointed by the Government and Senate, and hold office for three years.

The Board of Equalization consists of the Commissioners of the Land Office, and the State Assessors. It meets at Albany on the first Tuesday of September of each year, for the purpose of equalizing the taxes, &c.

be maintained and employed at the county charge, and that children at suitable ages should be put out to some useful trade. An act was accordingly passed Nov. 27, 1824, authorizing the establishment of county poorhouses. In most of the counties such institutions were established within a few years. They were located upon farms, which were designed to be worked, as far as practicable, by the inmates. The towns in Queens and Suffolk counties have mostly town poorhouses, and in these there are no county establishments of this kind. The county of Albany supports its poor at the city almshouse.

In most counties a distinction is made between town and county poor, the former including those who have gained a residence; and this distinction may be made or not, at the option of the Board of Supervisors. Temporary relief may be extended in cases where the pauper cannot be removed, or for other causes satisfactory to the Superintendents. Towns may vote at town meetings the sum estimated to be necessary for the support of their own poor.

The following tables and summaries are from the last annual Report of the Secretary of State:—

Statistics of Poorhouses and of the Support of the Poor, for the year ending Dec. 1, 1858.

Counties.	Acres of land at- tached to Poor- house.	Estimated value of Prorhouse establishments.	Value of labor of paupers.	Weekly expenses of each person.	Number of county paupers relieved or supported.	Number of town paupers relieved or supported.	Number of per- sons temporarily relieved.	Expenses connected to the county. Pourhouses.	Espenses of administering ten- porary relief.	Whole expense of support of county and town paupers for the year enting December 1, 1858.

During the year  $1\%58,\,38.582$  were admitted, 38,400 were discorated, 1.007 absconded, 849 were born, 2,584 died, and 646 were bound out.

Supported in Poorhouse.—Males, 6,219; Females, 7,203; total, 13,422. Foreigners, 6,503; Lunaties, 1,838; Idiots, 137; Mutes, 36. Temporardy Relicied.—Foreigners, 58,709; Lunatics, 2,408; Idiots, 595; Mutes, 52.

Loan Commissioners' are appointed in each county by the Governor and Senate, except in Onondaga, where they are elected. They are paid \( \frac{1}{4} \) to \( \frac{3}{4} \) of one per cent, on all moneys loaned, and are obliged to give bonds and report annually to the Comptroller.

School Commissioners are elected one in each Assembly District, and under certain circumstances another may be added. They are required to examine and grant certificates to teachers, visit schools, apportion the public moneys, and report to the Superintendent of Public Instruction. The Board of Supervisors in the counties have the power of arranging the several commissioner districts and of increasing the salary of the commissioners above \$500. All cities, and many villages, are under special laws with regard to schools, and are more or less exempt from the jurisdiction of County School Commissioners.2

Sealers of Weights and Measures are appointed for the State and for each county and town. The State Superintendent has an office at Albany, and he furnishes to the several counties and towns standard sets of weights and measures.3 The County Scaler keeps the Standards

1 The first Stafe loan was made by an act passed April 18, 1786, creating bills of credit to the amount of \$500,000, the most of which was apportioned among the counties in preportion to their supposed wants, and loaned by officers appointed for the purpose. These bills were of convenient denominations for the purpose. These bills were of convenient denominations and circulated as money. They were receivable in payment of taxes, and for some purposes were legal tender. This lean was distributed among the counties then existing, as follows:— This ban was

and the same of the		THE CARRIED	** File of the second of the s	•
Albany \$55,000	New York.	\$30,000	Suffolk	\$25,000

A third loan of \$400,000 was authorized to the several counties, excepting New York, Kings, Queens, Richmond, Suffolk, and Westebester in proportion to the number of their electors. In case the Supervisors of these counties applied for a share, a further sum of \$50,000 was authorized to be issued. In 1819 the above loan was transferred to the Common School Fund. In 1850 the office of Loan Commissioner for the loans of 1792 and 1808 was abolished and the loans remaining in their hands were transferred to the custody of the commissioners for loaning the U S. Deposit Fund.

The U. S. Deposit Fund originated as follows: An Act of Congress, passed June 23, 1836, directed the surplus in the treaon the 1st day of Jan. 1837, excepting \$5,000,000, to be deposited with the several States in proportion to their representation. The amount thus deposited was \$37.488.59.97, of which N.Y. received \$5.552.98.29. This was apportioned to the several counties according to population, as follows:—

Albany	\$147,107.48	Oneida	\$33,858.70
Allegany	86.681.22	Onondaga	40,699.36
Broome	49,698.51	Ontario	93,555.50
Cattaraugus	01.504.43	Orange	98,3+3.76

 $^2$  In Utica and Schenectady the care of schools is intrusted to  $^{\alpha}$  Commussioners of Common Schools;" in Buffalo and Hudson to "Commassioners of Common Schools:" in Buffalo and Hudson the Common Councils are exaflicio Commissioners of Schools: and in Albany, Astoria. Auburn. Brooklyn, Castleton, and Southfield, (Clifton.) College Peint, East Chester, Hushing, Jamaica. Lockport, Medina, Newburgh, New York, Oswego, Port Byron, Ponghkeepsie, Pulaski, Eochester, Salem, Syracuse, Port Byron, Ponghkeepsie, Pulaski, Eochester, Salem, Syracuse, Proy, Waterford, Westfarms, and Whitestown, schools are under a Board of Education, usually elected, but in some of the cities appointed by the Common Council. In most cities a Superintendent, who is clerk of the Board is appointed by the Board of Education for the more immediate supervision of schools and inspection of teachers. In Euflato the Suncrinschools and inspection of teachers. In Buffalo the Superin-

tendent is elected.

3 A County Standard consists of—
1. A large balance, comprising a brass beam and scales, with stand and lever

 A small balance, with a drawer stand for small weights. 3. A set of large brass weights, namely, 50lb., 20lb., 10lb., 5lb.

4. A set of small brass weights, avoirdnpois, namely, 41b., 21b., 11b., 8oz., 4oz., 2oz., 1oz., ½oz., ¼oz.

5. A brass yard measure, graduated to feet and inches, and the first graduated to eighths of an inch, and also decimally; with a graduation to cloth measure on the other side; in a case

6. A set of liquid measures made of copper, namely, 1 gallon, ½ gallon, 1 quart, 1 pint, ½ pint, 1 gill; in a case.
7. A set of dry measures of copper, namely, ½ bushel, 1 peck, ½ peck, 2 quarts, 1 quart; in a case.
There are also cases to contain the large brass weights and the necessary packing boxes included, etc. The cost of the set

is \$300.

Town Standard differs in some particulars, as consisting of but one medium sized balance, the large weights being of iron in place of brass; the yard measure being a cast metallic square rod, without decimal graduation, etc.; and likewise withont cases, in general. The cost of the set is \$125.

furnished by the State, and is required to have them compared with the State Standard once in 3 years. The Town Sealer is required to examine all weights and measures in use once a year.

The Mayors of cities are administrative officers of State laws and executive officers of city ordinances. They are elected annually, except in Albany and New York, where they hold their offices for two years.

The Supervisors of towns are administrators of the general laws relating to towns.

The President and Trustees of villages have charge of every thing pertaining to the welfare of their respective localities within the limits of the charter of incorporation.

Trustees of School Districts are the officers recognized by law to whom is intrusted the administration of the school laws within their districts.

Turnpike Inspectors are appointed in every county in which there are turnpikes, the acts of incorporation of which do not require the appointment of special inspectors. They are 3 to 5 in number, and must have no interest in any turnpike in the State.

Plank Road Inspectors are appointed in every county having plank roads. Their duties are analogous to those of the inspectors of turnpikes; and they are chiefly intended to protect the public against the collection of tolls when plank roads are unsafe or difficult to travel from neglect or other cause.

Commissioners of Highways have the power of directing repairs, laying out and altering roads, discontinuing old roads, and of ordering new bridges to be built and kept in repair. They must annually divide the towns into road districts, and assign such inhabitants to work upon them as they may deem proper; and they must deposit an accurate description of all new roads in the Town Clerk's office for record.

Overseers of Highways, or "Pathmasters," have charge of road districts.3

1 The statute defines the State Standard of Weights and Measures to be the same as that approved by Congress June 14, 1856, and turnished by the U. S. to the States in 1842. The set furnished consisted of a yard, sets of Troy and avoirdupois weights, the wine gallon and the half bushel and their subdivisions. The unit of length and surface, from which all other measures of extension are derived, whether linear, superficial, or sold, is the yard, which is divided into 3 feet of 12 inches each, except for cloths or other articles sold by the yard, when it may be divided into halves, eighths, and sixteenths. The rod contains 5½ yards, and the mile 1,760 yards; the acre is 160 square rods: the chain for land surveying is 22 yards long and subdivided into 100 links; the Troy pound is to the avoirdupois as 5.700 to 7,000, the one containing 12 and the other 16 ounces; 100lbs, avoirdupois form a hundredweight, and 2,000lbs, a ton. All measures of capacity not liquid are derived from the half bushel, the subdivisions of which are obtained by dividing repeatedly by 2. Coal, ashes, marl, manure, corn in the ear, fruit, and roots, are sold by hear measure.

roots, are sold by heap measure.

The Standards now in use do not vary essentially from those established by the State Government before standards were furnished by the U.S. As formerly defined, the unit of linear measure was the yard, which bore the ratio of 1,000,000 to 1,086,140, to a pendulum heating seconds in a vacuum at the temperature of melting ice at Columbia College. A cubic foot of water at its maximum density in vacuo was declared equal to 1000 ounces avoirdupois. The liquid gallon to contain Slbs., and the dry gallon 101bs., of distilled water at its greatest density and mean pressure at sea level.

Weights of articles per bushel as fixed by Standard.

2 Roads extending through several towns may be hid out by commissioners appointed by the Supervisors; and those extending through several counties are usually laid out by special commissioners appointed by law. The commissioners of highways are required to report annually, at town meeting, their receipts and expenditures, and a statement of what improvements are necessary, and the cost of obtaining them. These estimates are referred to the Board of Supervisors, and assessed as other town charges. They may summon inform and witnesses in opening and closing reads. Reads through improved lands must be certified as necessary by the oath of twelve respectable freeholders; and a like certificate to the contrary is required in closing roads. Every owner may obtain a road to his land.

Every owner may obtain a road to his land.

New roads cannot be kaid through orchards or gardens of more than four years' growth or use, or through buildings or yards, and inclosures of malls and factories, without the owner's consent. The law requires the commissioners of highways to crect mileboards along the line, and guideboards at the crossing of post and such other important roads as they may deem

proper; and the defacing of these is punishable as a misdemennor. Every owner or occupant of lands in any town, and every male inhabitant above the age of 21, must be assessed for highway labor. The whole number of days labor annually expended in the town must be at least three times the number of taxable inhabitants; and every male inhabitant over 21, except ministers, paupers, idiots, and lunatics, must be assessed at least one day. The residue is assessed upon the property of individuals and corporations. Labor may be commuted at the rate of 62½ cts, per day; and the moneys so paid must be expended in the district.

pended in the district.

3 Overseers of Highways are required by law to warn out to work all persons assessed for highway labor in their respective districts; keep their roads in order; superintend work; receive and apply commutation moneys; cause the noxious weeds upon the wayside to be cut down or destroyed once before July and once before Sept, of each year; remove obstructions; and collect all fines, whether for neglect of work, idleness, or juntting up of gates contrary to law. They may require additional labor, to the amount of one-third of the first tax. All roads must be fenced by the owners of adjacent lands, unless liable to be overflowed by streams, when the overseers of highways must erect, and keep in repair, good swinging gates at the expense of the lands benefitted; and persons leaving such gates open are liable to triple damages. All rivers where the tide ebbs and flows are public highways, without special law. Many other streams have been so declared by acts, and obstructions in such streams and in highways are punished by fine, notwithstanding a plea of title. Such obstructions may be abated as musances; and the persons causing them are liable to actions for damage. Persons owning lands upon roads 3 rods wide, or more, may plant trees on the readside adjacent to their line, and may prosecute for damages to such trees. They may also construct a sidewalk, with a railing. Trees falling into the road from inclosed lands must be removed by the occupant within 2 days, after notice by any person, under a fine of 50 cts, a day. Assessors and commissioners of highways are exaglicio fence viewers in their several towns. In case of fires in the woods of any town, it is the roads, as may be deemed necessary, and reside near, to assist in checking the fires, under penalty of \$60, and liability to prosecution for mislemeanor, and further fine not over \$100 or imprisonment not more than 60 days.

Tersons aggrieved at the decision of commissioners may appeal to referees appointed by the county judge or justices of sessions. Kings, queens and Suffolk cos, have from an early colonial period had a read law peculiar to thems lives. It differs by fixing the number of days at timee the number of persons assessed, in granting private roads for builed periods, in allowing roads through gardens and orchards of less than ten years' use or growth, by allowing appeals to the county pudge, and in a few other minor details. Bichmond co, has also a special law, which requires assessments in money only, to be collected with the general tax, and the repairs of roads to be let out at public anction by districts from year to year and to the lowest budder. There are many other special laws, chiefly applicable to cities and villages, but too numerous to mention here.

others connected with sanitary supervision, pilots, wreck mascers, superintendent of Onondaga salt springs, and officers
chared with duties relating to Indian officer. charged with duties relating to Indian affairs.

# PRISONS.

FOR a great number of offenses criminals are sentenced to be confined at labor for different periods of time, and the State has provided prisons at several places for the security of these offenders against law.1 The principal of these are the three State Prisons, an Asylum for Insane Convicts, two Houses of Refuge, and several penitentiaries and jails.

The Anburn State Prison is located upon a lot of I0 acres near the center of the city of Auburn. It consists of the prison proper, containing 800 cells and a large number of workshops, all surrounded by a high and strong wall. The Sing State Prison is located upon a lot of 130 acres upon the Hudson, in the village of Sing Sing. It contains a prison for males and another for females, the latter the only one in the State. It has an aggregate of 1,000 cells and a great variety of workshops.<sup>2</sup> The Clinton State Prison is situated upon a lot of 250 acres in the town of Dannemora. About 25 acres are inclosed within the walls of the prison. It contains workshops, forges, and furnaces, and has an aggregate of 396 cells.3

The general supervision of the State Prisons is intrusted to a Board of 3 Inspectors, one of whom is elected each year for a term of three years. They appoint all the officers of the several prisons and renew them at pleasure. The discipline of the several prisons is rigid and uniform, and all convicts are treated alike, irrespective of their former standing in society or of the crimes of which they are convicted. The rules for the general conduct of prisoners are rigidly enforced. In the administration of discipline a leading object is to secure the reform of the criminal and his return to society with regular and industrious habits and correct moral principles.6 All convicts in health are required to labor in shops by day, under rigid supervision, and without exchanging words or looks with each other or with those who may visit the prison. They observe strict silence upon all occasions when not addressed by some person allowed the privilege. In passing to and from the cells, shops, and dining rooms, they march in close single columns, with their

1 By an act of March 26, 1796, John Watts, Matthew Clarkson, | 1 By an act of March 26, 1796, John Watts, Matthew Clarkson, Isaac Sloatenburgh, Thomas Eddy, and John Murray, Ir, were appointed commissioners to build a State prison in New York City. This prison, styled "Newpate," was located on a lot of 9 acres on the Hudson, at the foot of Amos St. with its principal from on Greenwich St. It was 204 feet long, and from each end a wing extended to the river. It had 34 rooms, each for 8 persons, and cost \$208.846. It was opened Nov. 25, 1797, and continued in use until May, 1828, when it was sold. Convicts were employed in shoe and nail making and other work in leather and iron and as cornenters tailors weavers sinjurers. leather and iron, and as carpenters, tailors, weavers, spinners, and gardeners. A second prison was ordered, in 1796, to he built at Albany, but the set was repealed in 1797. The limited accommodations and wretched moral influences of the New York prison led to the ordering of another prison, in 1816, which

York prison led to the ordering of another prison, in 1816, which was located at Auhurn. The south wing was completed in 1818, and in 1819 the north wing was ordered to be fitted up with single cells. The prison was enlarged in 1824.

2 An act passed March 7, 1824, ordered a prison to be erected at Sing Sing. Work was begun May 14, 1825, and the prison was finished in 1829, with 800 cells, to which 200 were added in 1830. It was finally completed in 1831. The grounds here occupy 130 acres, and include marble quarries, upon which it was designed to employ the convicts. The State Hall at Albany is built of magnesian marble or delomite quarried and dressed at this prison. The prison for females is built of rough marble is built of magnesian marble or delomite quarried and dressed at this prison. The prison for females is built of rough marble in the Ionic style of architecture. It stands on elevated ground and is entirely distinct from the male prison in its offices and management. Previous to its erection. In 1835-40, female con-victs were kept by the city of New York at their prison at Bellevne, at an annual cost to the State of \$100 each. <sup>3</sup> Clinton Prison was built, in 1844-45, under the direction of Ransom Cosk, with the design of employing convicts in iron

Ransom Cook, with the design of employing convicts in iron

mining and manufacture.

4 These Inspectors must visit all the State prisons four times a year, in company, inspect their management, discipline, and a year, in company, inspect their management, discipline, and financial affairs, keep minutes of their proceedings, and report annually to the Legislature. They establish rules for the observance of the efficers of the prisons, and may examine witnesses. One prison is assigned to each Inspector for three months, and he is required to spend at least one week in each month at the prison in special charge, and to inform himself minutely concerning its details. The Inspectors are successively changed to other prisons. Inspectors can make no appointments of relations within the 3d degree, and they can have no interest in contracts. Their salary is \$1000 Health (Matthew Matthews and Matthews interest in contracts. Their salary is \$1600 .- Constitution, Art.

the prison. He receives a salary of \$1,250 to \$1,500, and is required to give a bond of \$25,000.

2. A Principal Keeper, who has charge of police regulations and discipline of the prison, and must live upon the premises. He keeps a journal of every infraction of rules, records, punishments, complaints, &c., and reports monthly to the Inspectors. Salary, \$-

3. Keepers under the direction of the Principal are appointed,

not to exceed 1 for every 25 prisoners. Salary, \$---.
4. A Clerk, who records all commitments and discharges,

4. A Cerr, who records all commitments and discharges, keeps the accounts, and reports annually to the Secretary of State. Salary, \$1,000 at Sing Sing and \$900 at the other prisons. 5. The Chuplain visits prisoners in their cells, devotes a stated time each Salbath to religious services, keeps the prison library, and allows the use of books, under proper regulations, and is expected to counsel and assist convicts in the formation of settled resolutions for reform upon leaving the prison. Through him they may obtain whatever is allowed of correspondence settled resonations for resonation area may be present. In adapting the may obtain whatever is allowed of correspondence with friends. Salary, \$900.

6. A Physician and Surgeon, who has charge of the Hospital

and attends at all times when his services are required. Salary, \$700 at Sing Sing and \$600 at the other prisons.

7. Instructors, of which there are 2 each at Anburn and Sing

Sing, 1 at Clinton, and 1 at the Female Prison, who give all ne

Sing, 1 at Chuton, and 1 at the Female Prison, who give all necessary instruction to the prisoners in their several occupations.

8. A Store Kreper, who has general charge of the provisions and clothing and other property belonging to the prison.

9. A Guard, under the command of a sergeant, who are stationed in the prison and upon the walls to prevent escapes. The number of privates is 20 at Auburn, 25 at Cliuton, and 30 at Sing Sing. They are armed and equipped from the State arsenals, and are held legally justified if they shoot down prisoners attempting to escape.

prisoners attempting to cscape.

10. A Matron, who has charge of the Female Prison. Assistant matrons are appointed, not to exceed 1 for every 25 prisoners.

matrons are appointed, not to exceed 1 for every 25 prisoners.

<sup>a</sup> Solitary confinement without labor was tried at Auloun in a Solitary confinement without labor was tried at Auloun in B21, but with the most unhappy results, and in 1823 the present system was adopted upon the suggestion of Capt. Elam Lynds and John D. Cray. Capt. Lynds deserves particular notice from the energy and firmness with which he brought his favorite system into successful operation and to a degree of perfection scarcely conceivable to one who had not witnessed it. This plan has been adopted in many prisons and less received the name of the "Auburn System." The labor not required in the domestic affairs of these prisons is hired upon centract to manufacturers, who put up the requisite machiners and copied agents and foremen to superintend the work. Willial violation of the rules is punished by the lash, ball and choin, yoke, strait jacket, shower bath, dark cell, and similar means. V. Sec. 4.

5 The officers of each prison consist of the following:—

1. An Agent, or Warden, who is the principal fiscal officer of strait jacket, shower bath, dark cell, and similar means.

faces turned to the side on which their keeper walks. Their shops have narrow openings in the walls, through which they may be seen without the possibility of knowing it. They are confined at night in solitary cells; and guards with woolen socks tread silently around their cells at all hours of the night. The fare is abundant, but coarse; and all convicts are required to wear a costume peculiar to the prison.

An Asylum for Insane Convicts is located at Auburn, in the rear of the prison. It is under the general charge of a medical superintendent.<sup>2</sup>

The New York House of Refuge, situated upon Randalls Island, near New York City, is an establishment for the reformation of juvenile offenders. It is partly a State and partly a city institution.<sup>3</sup> The Western House of Refuge, located upon a farm of 42½ acres in Rochester, is another juvenile establishment of a similar kind. It is entirely under State patronage. These institutions are under rigid discipline; and the inmates receive instruction in the elementary branches of education during certain hours of the day, and are required to labor during certain other hours. The New York institution was established in 1824, and receives both sexes. The Rochester institution was started in 1849, and receives boys only.<sup>4</sup>

The Prison Association of New York was formed Dec. 6, 1844, and incorporated May 9, 1846. It has for its objects the amelioration of the condition of prisoners, whether detained for trial or finally convicted, or as witnesses; the improvement of prison discipline and of the government of prisons, whether for eities, counties, or States; and the support and encouragement of reformed convicts after their discharge, by affording them the means of obtaining an honest livelihood and sustaining them in their efforts at reform.<sup>5</sup> The association is supported entirely by private contribution. The members pay \$10 annually. The payment of \$25 constitutes a member

The surplus expenses of the State prisons are paid from the general fund. For a fuller account of these institutions, see Introduction to Natural History of New York, Vol. 1, pp. 181-188.

<sup>2</sup> Until 1859, persons charged with crime and proved insane were sent to the State Lunatic Asylum at Utica. An act for the erection of the present asylum was passed April 13, 1855, and the building was completed in 1858.
<sup>3</sup> The New York Asylum is conducted by a close corporation.

consisting of 30 managers, who serve without pay and report annually to the Common Council of New York and to the State Legislature. It is supported by the labor of its immates, an annual appropriation from the Marine Hospital fund, theater and circus fleeness school moneys from the Board of Education, and grants from the City and State of New York. It can accommodate 1,000 immates. In 1838 there were received 378; of which number 304 were boys and 74 were girls. The former are engaged in making shoes, chair-seats, wire cloth, wearing, &c.; and the Litter in needlework. Each day 7 hours are devoted to labor,

4½ to school, 1½ to meals, 9½ to sleep, and 1½ to recreation.

Annual expenses	\$42,005	30,000

The Western House of Refuge is supported by the labor of its immates, the product of its farm, and an annual State appropriation. Its managers are appointed for a term of 3 years by the Governor and Schate, and are so classified that 5 are appointed annually. Its rules require half an hour more at labor and an hour less at school than is required at the New York Asylam; and 10 hours are allowed for sleep. In 1859, 508 hoys were received at this institution. Of these, 128 were employed in making chains, 171 in making shoes, 37 in making brushes, 7 upon the farm, 29 in the sewing rooms, and 23 as domestics.

The condition of prisoners has from a remote period enlisted the sympathies of the benevolent and led to associated efforts for their relief. A society was formed in New York, soon after

by The condition of prisoners has from a remote period emisted the sympathies of the benevolent and led to associated efforts for their relief. A society was formed in New York, soon after the Revolution, for the relief of imprisoned debtors. "The Philadelphia Society for alleviating the miseries of Public Prisons" was formed over 80 years since by the Friends, and the Prison Discipline Society of Boston is nearly 20 years older than that of similar objects in New York. The Prison Association of New York for some time issued a bulletin called the "Monthly Record." The female department for some years maintained a Home for the temporary residence of discharged female prisoners until other means of support could be fourd. This association has for several years appointed committees for visiting county jalls; and the facts reported show abundant reason for continuing efforts for reform in their management. The aid furnished by this association to discharged convicts during the last three years reported has been as follows:

Total	413	741	532
Number provided with situations	52	155	112
Number supplied with clothing	131	147	138
money	230	439	282

for life; of \$100, an honorary member of the Executive Committee for life, and \$500 a life patron. A department, consisting of ladies, has in charge the interests of prisoners of their sex. The managers of the association receive no pay for their services. They usually report to the Legislature annually; but no reports were made in 1856 and 1858. Office, 15 Center Street, New York.

# MILITARY.

THE Governor is Commander-in-Chief of the land and naval forces of the State. In time of peace the supervision of the militia and military establishments is intrusted to the Adjutant General, who has an office of record at the capital, issnes, under his seal, all military commissions, keeps a register of the names and residences of the

officers of militia throughout the State, issues all orders on behalf of the Commander-in-Chief, prescribes the manner of reporting from the several subordinate divisions, and reports the statistics thus obtained—through the Governor—to the Legislature annually. He has the rank of brigadier general; and his assistant has the rank of colonel. The militia of the State is composed of 8 divisions, 26 brigades, and 62 regiments, embracing 220 companies of infantry, 126 of artillery, 41 of eavalry, 37 of rifles, and a total of 18,107 officers and privates.

All able-bodied white male citizens between the ages of 18 and 45, not exempt by law, are

liable to military duty. An enrolment is made annually by the assessors. Militia officers are chosen by election; excepting major generals and the Commissary General, who are appointed by the Governor and Senate. Staff officers are appointed by the commanding officer of the forces to which they are attached,<sup>3</sup> The Adjutant General, Judge Advocate General, Quartermaster General, Paymaster General, Surgeon General, Engineer-in-Chief, and one Instructor of Artillery and one of Cavalry to each division, are appointed by the Governor.4

Arsenals. An arsenal is provided for each division of the Militia, and an armory for each regiment. The general custody and supervision of the military property of the State is intrusted to the Commissary General, who has his office in New York, and reports annually through the Governor to the Legislature.5

1 The laws of the U.S. exempt from military service the Vice President, the Judicial and Executive officers of the Government of the U.S., members and officers of both Houses of Congress, customhouse officers and ollerks, post officers and stage drivers in charge of mails, ferrymen on post roads, inspectors exports, pilots and maniners in actual sea service. The State exempts, besides the above, persons in the army and navy and those honorably discharged therefrom, preachers of every sect. those honorany discharged therefrom, preachers of every seconomissioned officers and privates of uniformed companies who have resigned after seven years' service, and certain firemen. All others may commute by paying 50 ets. annually, except in Kings and New York cos, and the cities of Albany and Buffalo, where the commutation is fixed at 75 ets.

These moneys are paid to the collectors of taxes and applied These moneys are paid to the collectors of taxes and applied to the military fund,—from which the officers and men of regiments are paid, from \$1.25 to \$4, according to rank, for every day's military service. Persons going to, remaining at, or returning from military duty are exempt from arrest upon civil process. Previous to the act of 1846, the State contained 33 divisions, 66 brigades, 272 regiments, and 1836 companies, and numbered 144.436 officers and men. The number of enrolled militia had been as follows, at different periods:—

1-

			·	<u>'</u>	<u> </u>	

 $^2$  Under the Constitution of 1777, nearly every military as well as givil officer in the State received his appointment from the Council of Appointment, and mostly held during their pleasure. The Constitution of 1822 introduced the following system, now in use:—"Militia officers shall be chosen or appointed as follows: Captains subalterns and non-commissioned officers shall be chosen by the written votes of the members of their rebe chosen by the written votes of the members of their respective companies; It-Id officers of regiments and separate battalions, by the written votes of the commissioned officers of the respective regiments and separate battalions; brigadier generals and brigade inspectors, by the field officers of their respective brigades; major generals, brigadier generals, and commanding officers of regiments or separate battalions shall appoint the staff officers to their respective divisions, brigades, regiments, or separate battalions."—Constitution, 1822, Art. 1V, Sec. 1: Constitution, Art. XI, Sec. 2.

Sec. 1: Constitution, Art. XI, Sec. 2.

The above rule does not apply to regiments and brigades not fully organized. If the former contain less than 6 companies,

mily organized. If the termer contain less than 6 companies, the field officers are appointed by the Governor; and if the brigades are not within the requirements of the law, the brigadier generals are also appointed by the Governor. Const. 1846, <sup>3</sup> The staff of the Communder-in-Chief consists of the Adjustant General, Inspect of General, Commissary General, Engineer-in-Chief, Judge Advocate General, Surgeon General, Quarter-parts General, Property General, master General, Paymaster General, Aids de Camp, and Military Secretary, who severally rank in the order here given. The precedence and gradation of officers and non-commissioned offi-

- cers in the militia is as follows:
  1. The Commander-in-Chief.
- Major General.
- 3. Brigadier General.
  4. Colonel.
- 5. Lieutenant Colonel.
- 6. Major.
- 14. Corporal. i. Captain.
- 8. First Lieutenant. Second Lieutenant.
   Sergeant-Major.
- 11. Quartermaster Sergeant,
- 12. First Sergeaut.
- 13. Sergeant.

In each grade precedence is given by priority in date of election, or appointment.

4 The instructors, with the rank of colonel, are attached to the headquarters of the division, and hold by the same tenure as commissioned officers of the line. Instructors and division

as commissioned officers of the line. Instructors and division engineers must pass an examination as to special qualification before a hoard of not less than five officers, convened by the Commander-in-Chief. Appointments to this office have hitherto been made entirely from among the graduates of West Point.

<sup>5</sup> The Constitution of 1777 ordained that a proper magazine of warlike stores, proportionate to the number of inhabitants, should be established in every county of the State; but this provision was never fully carried out. An arsenal was built at New York at an early period, and another at Albany soon after, the latter out the site nurchased for a State brison. Under an New York at an early period, and another at Albany soon after, the latter ou the site purchased for a State prison. Under an act of Feb. 12, 1808, entitled "An Act for the defense of the morthern and wostern frontiers," and by subsequent acts, arse-nals were erected at Canandaigua, Batavia, Onondaga Hollow, Rome, Watertown, Enssell, Malone, Plattsburgh, and Elizabeth-

The arsenal at Plattsburgh was burned in 1813 or '14, and the one at Rome, which occupied the present site of St. Peter's Church, was burned with its contents a few years since. Neither In 1844 the State leased of the city of Buffalo has been relimit. a market building on Batavia St. for an arsenal. Magazines were also located at New York, at Albany, and on Staten Island. In 1850 these arsenals were mostly ordered to be sold, together with such arms and other property as had become unserviceable for military purposes. An arsenal occupying the site of an old powder magazine of the Putch, between Center, Elm, Franklin, and White Streets, New York, was authorized to be sold in 1844, and a new one was directed to be huilt. The site was purchased by the city for \$50,000, and a new city armory was built, on the corner of White and Elm Streets. In 1808 the city of New York conveyed to the State a tract of ground upon Fifth Ave-York conveyed to the State a tract of ground upon Fifth Avenue, between Sixty-Fifth and Sixty-Fifth Sts., upon which a magazine was erected. In 1844 the Legislature authorized a new arsenal to be erected on these premises with such moneys as might be paid by the U.S. for the military works upon Staten Island. The sale was completed in April, 1847, for \$37,284.87, of which \$33.284.87 was applicable to the arsenal. The work was commenced, but in March, 1848, was suspended by the Commissioners of the Land Office, to whose charge and that of the Commissary General the work had been intrusted. It was alleged that the latter officer had expended moneys most un-

the Commissary General the work had been intrusted. It was alleged that the latter officer had expended moneys most unwarrantably; and subsequent observation has proved that the structure was unfit for this or, in fact, for any other purpose.—Assembly Doc, 1855, No. 141. Senate Doc, 1848, No. 54.

In laying out the Central Park, the premises consisting of 152 building lots, valued in 1856 at \$206,000, were included in the proposed improvement, and an act was passed. April 15, 1857, under which this property, which the State purchased in 1808 for \$700, was conveyed back to the city for \$275,000, Of this sum \$100,000 was made applicable to the erection of an arsenal at New York; \$45,000 for an arsenal at Buffalo; \$40,000 for an arsenal at Buffalo; \$40,000 for an arsenal at Albany and the crection of an armory; \$17,000 for the arsenal at Albany and the crection of an armory; \$17,000 for the arsenal at same all at same and at same and at the same all at same and at the same all at the same all at same and at the same and at the same all at th arsenal at Albany and the crection of an armory; \$17,000 for the purchase of the U.S. arsenal at Reme; \$14,000 for an arsenal at Corning, and for armories; \$5,000 at Nuchester, \$5,000 at Troy, \$4,000 at Auburn, \$4,000 at Syracuse, \$4,000 at Utica, \$5,000 at Daylor, \$4,000 at Unity, \$5,000 at Usensburgh, \$5,000 at Oswego, and \$5,000 for the purchase of a stone fort in Schoharie for an armory. The arsenal in Albany, by act of April 17, 1858, was exchanged with the city for a site on Hudson and Eagle Streets, and \$5,000 toward an arsenal and armory buildings, which were crected in 1858-59. During the summer of 1858, buildings at Albany, Auburn, Ballston Spa, Brooklyn, Corning Dunkirk, New York, Ogdensburgh, and Syracuse were put under contract and finished or far advanced, the same year. The stone fort or church at Schoharie was purchased, but no steps were contract and missed or is a data discount to some year. The stone fort or church at Schoharie was purchased, but no steps were taken for the erections anthorized at Troy, Rechester, Oswego, and Utica. The new arsenal built at New York in 1858 was located on Seventh Avenue, corner of Thirty-Fifth St., and was nearly completed, when the roof fell, on the morning of Nov.

13, 1858, greatly injuring the building.

Most of the structures erected under this act are of substantial workmanship and elegant architectural style. They were built under the direction of commissioners appointed by law. When completed, they will be placed in charge of the Commissary General, who also attends to the safe keeping of arms and

The fortifications within the State are owned and supported by the United States although several of them were built by the State of New York under an arrangement for the settle ment of the Revolutionary debt.1

Feb. 1801, there was due from the State of New York the United States, on account of Revolutionary expenses, the

sum of \$2.074.846. An Act of Congress, passed February 15, sum of \$2.04.4.46. An Act of Congress, passes a symmetria of the debt by payment into the treasury leftere April, 1800, or by expending a like amount within five years in the erection of fortifications. New York was within five years in the erection of fortifications. New York was the only State that chose to extinguish its debt by erecting defenses upon its own soil; and a committee of Congress reported in February, 1801, that no other States had shown any disposition to pay the balances reported against them. The amount credited to New York was \$891,129.31, and the remainder of the indebtedness was subsequently released.—American State Propers, Finance, I, 697.

The amount of moneys reduced to specie value received by, or paid to, the State of New York from the beginning of the Revolution to April, 1790, was as follows, in dollars:—

Paid to State...... 822,803

The forts on Staten Island are being rebuilt on an extensive scale. Fort Schuyler, on Throggs Neck, has since been finished, a site purchased for a fort at Wilkins Point, directly opposite, and an immense fortress has been commenced on Sandy Hook, and an immense fortress has been commenced of vanoy mook, for the more effectual defense of New York Harbor. These works will effectually defend the approaches to New York by water, but would not prevent an attack by land should an enemy effect a landing upon Long Island. To guard against this, it has been proposed to erect a line of redoubts across the island from Wilkins Point to Fort Hamilton at such intervals

as would secure this object.

The General Government has appropriated large sums of money during many years to the construction of a floating battery for the defense of New York Harbor. It is building at Hoboken, and is said to be nearly completed. It is of iron, of great strength and thickness, with its onter deck oval, and every part proof ngainst cannon ball. It is to be mounted with heavy guns and propelled by steam. No official account of its construction has properties by steam. So ometal account of its construction has been published; and, for obvious reasons, the details of its plan are kept secret. It is reported that it has a capacity to accommodate 3000 men, with the necessary supplies of find and military stores; and it is thought that of itself it might oppose an effectual barrier against the approach of a lostile fleet in any passage which it might be brought to defend. This mighty engine of war was planned by the late John P. Stevens.

The other military establishments of the National Government

The Military Academy at West Point.

The Navy Yard, Dry Dock, Naval Hospital, and Labo-

ratory at Brooklyn.

The Arsenal at Watervliet for the manufacture of gun carriages and other heavy furniture of artillery for the field

and fort. The Arsenal of Deposit, at Rome.

Plattsburgh Barracks.

Madison Barracks, at Sackets Harbor. Buffalo Barracks.

A few years after the last war with Great Britain, a military road was surveyed and partly opened by the United States from Plattsburgh to Sackets Harbor; but this work from the first has

been kept in repair by the towns as a common highway.

Fort Montgomery is the only work now under construction on the northern frontier. The Canadians have the following fortifications adjacent to New York:—

Fort Wellingion, at Drescott, erected in 1812-15.

Fort Henry, at Kingston, with several Martello towers and batteries for the protection of the best processing the production of the protection of the batteries of the protection of the best per and term and defense

batteries, for the protection of the harbor and town and defense of the north channel of the St. Lawrence. They were partly built in the War of 1812-15, and partly in 1837-40. Fort Carl-ton, now within the United States, commanded the south channel, and portions of the work, executed a century ago, (and since the Revolution entirely neglected,) might still be made available upon short notice.

Fort Massasauga, at Niagara, directly opposite the American fort. is of modern origin.

Note.-By the Militia Regulations of this State, the device at the head of this article is borne upon buttons and other insignia worm by military officers.

# LANDS.

The absolute property of all the lands in the State is vested in the respective owners, liable only to escheat and to the reservation of gold and silver mines in such as derive title from Colonial patents.<sup>1</sup>

The law prohibits the leasing of agricultural lands for a longer period than twelve years.<sup>2</sup> The care and sale of lands belonging to the State are intrusted to the Commissioners of the Land Office. These commissioners have also the sole right of dealing with the Indians for the sale and surrender of reservations, excepting within the territory whereof the pre-emptive right of purchase was ceded to Massachusetts and is now held by the Ogden Company.

The Commissioners of the Land Office were created by an act of May 11, 1784, to earry into execution the promises of bounty lands for Revolutionary services which had been made by the Legislature in 1780. As now formed, this Board consists of the Lieutenant Governor of the State, Speaker of Assembly, Secretary of State, Comptroller, Treasurer, Attorney General, and State Engineer and Surveyor. The Deputy Secretary of State is ex officio Clerk of the Board, and the meetings are held in the Secretary's office, upon the eall of the Secretary of State.

When State lands are to be sold, they are first surveyed, appraised, and advertised for sale at auction, and their minimum bid affixed. The lots that remain without a bid are liable to be taken by the first applicant upon payment of one-fourth of the price and giving bonds for the residue. If they remain unsold any considerable time, they are re-appraised and offered at a lower rate.<sup>3</sup>

The lauds under water in the bays around Long Island are in most eases the property of the townships, by virtue of original patents; and the privilege of fishing and taking oysters and clams is by some towns held as exclusively belonging to their inhabitants.<sup>4</sup>

1 The Dutch Government sometimes granted lands in the Colony without the formalities of Indian purchase; but it was the rule of the English to first extinguish the aboriginal title. It was customary to apply to the Governor and Council for leave to purchase. If granted, a treaty was held and an Indian deed obtained, a warrant was issued to the Surveyor General for a survey, and the map and field notes were reported. The Attorney General was then directed to prepare a draft of a patent, which was submitted to the Governor and Council, and, if approved, was engrossed upon parchinent, recorded, scaled, and issued. The fees incident to procuring a patent were important sources of revenue to the officers concerned. Only 1,000 portant sources of revenue to the efficers concerned. (mly 1,000 acres could be granted to one person; but this rule was evaded by associating great numbers of merely nominal parties; and the officers through whose hands the papers passed were often larg by interested in the grants. The Colonial Government in this respect became exceedingly corrupt, and stood greatly in med of a r form like that wrongsh by the Revolution. In a few isolated cases grants of land were made directly by the crown, and no records appear in our offices. Of this class was the floyal Grant to Sir Wm. Johnson, N. of the Mohawk. Patents for land were generally very formal, and abounded in repetitions. The grants were 'in fee and common socago," as in the manor of East Greenwich, in the co. of Kent, and included with the land all "houses, messuages, tenements, erections, and buildings, mills, milldens, lences inclosures, gardens, tions, and buildings, mills, milld.ens, fences inclosures, gardens, orchards, fields, pastures, common of pastures, meadows, marshes, swamps, plains, woods, underwoods, timber, trees, rivers, rivers. lets, runs, streams, water, lakes, ponds, pools, pits, braclen, quarries, mines, minerals, (gold and silver [wholly or in part] except d) creeks, harbors, highways, easements, fishing, bunting, and fowling, and all other franchises, profits commodities, and appurtenances whatsoever." This enumeration of rights, more or less varied, was embraced in all land patents. Colonial grants were usually conditioned to the annual payment of a quitrent, at a stated time and place named in the patent. This payment was sometimes due in money, and often in wheat or other commedity. Others were conditioned to the payment of other commodity. Others were conditioned to the payment of the skins of animals or a merely nominal article, as simply an acknowledgment of the superior rights of the grantors. The quitrents formed an important source of revenue, and, after the Revolution became due to the State. In 1786 it was pro-vided that lands subject to these reuts might be released upon payment of arrears, and 14 shiftings to every shifting of the annual does. Large amounts of land upon which arrears of quitrents had accumulated were sold from time to time; and laws continued to be passed at frequent intervals for the regu-lation of these rents until 1824, when an act was passed for the issued of these rents until 1924, when an act was passed for the final sale of all lands which had not been released by commutation or remitted by law. Such lands as then remained unredeemed were allowed to be released by payment of \$2.50 to each shilling storting due. The last sale took place in March, 1826, The arrears for quitrents then amounting to \$53.380, were in 1840 taken from the execution of the sale took place in March, 1826. 1819 taken from the general fund and given in equal portions to the Literature and School Funds.

<sup>2</sup> This feature was adopted to prevent the recurrence of antirent difficulties. The Legislature, in 1846, enacted a law providing that all lands previously rented for a life or lives, or for more than 21 years, should be taxed as the personal property of the persons receiving the rents, to an extent equal to a smithat at legal interest would produce the annual rent. Such tax is were made payable in the ces, where the lands lay; and this unplea-ant encumbrance has largely contributed to reduce the amount of lands thus held.

4 Around Staten Island the owners of the shores possess the right of using or leasing the adjacent lands under water for planting oysters. The custom of granting lands under water without the restrictions here enumerated has led to serious encroselments upon the harbor of New York, the details of which are stated on pages 418, 419. LANDS. 47

The public lands are greatly reduced in quantity, and belong to the several permanent funds to which they have from time to time been granted.1

Gospel and School Lands.—Under an act of 1782, a lot of 400 acres was to be reserved in each township of the Military Tract for the support of the gospel, and two lots of 200 acres for schools.2

In each of the Twenty Towns of the Chenango Tract a lot of 250 acres (usually Lot 45) was reserved for the gospel, and another (Lot 46) of like extent for schools; but these lots were sold with the lands, and the Canastota Tract, in Sullivan and Lenox, adjoining Oneida Lake, was in ISO5-08 given in lieu, and apportioned among the Twenty Towns.3

In each of the Ten Towns on the St. Lawrence a mile square (usually Lot 55) was grauted for gospel and schools, and in some towns was applied in early years to both these objects.

Besides these grants for schools by the State, land proprietors have in some instances conveyed certain lots for this purpose, to encourage settlement. In nearly every instance these lands have been applied for the benefit of the original townships within which they were granted, and in their subdivision the local school fund has been equitably divided. Other lands were subsequently granted, as elsewhere noticed; and in 1822 the Constitution gave all the public lands not specially appropriated to the school fund.<sup>5</sup>

1 The quantity now owned forms about 41 per cent. of that 1823, and compares between the two periods as follows:--

			Ja	in. 1, 1823	Jan. 1859.
Lauds be	doaging to	the School	Fund	991,659A.	9,463 A.

28. Sterling	73a	85	Sterling, Butler, Wolcott, Huron, and Rose,

Exchanged for No. 17 by Chap. 177, Laws of 1812.

<sup>8</sup> In each of the following townships a lot of 640 acres was reserved for schools, viz.:—Fayette, now Gnilford, and part of Oxford; Clinton, now Bainbridge, Afton, and part of Coventry; Greene, now parts of Greene, Smithville, and Coventry; Warren, now parts of Colesville, Sanford, and Windsor; Chemange, now parts of Port Crane, Conklin, Colesville, and Windsor; Sulney, now parts of Binghanton and Vestal; Reindalph, now parts of Sanford, Windsor, and Conklin; and Hambden, now parts of Vestal, Owego, and Nichols.
4 In Plattsburgh 640 acres was reserved for the gospel, and 460 for schools; and in Totten and Crossfield's Purchase 15 lots of 640 acres each. The latter have been selected under the Sackets Harbor and Saratoga R. R. Grant. In Benson Township (Hope and Lake Pleasant) 4 lots of 160 acres each were given for schools and literature. 8 In each of the following townships a lot of 640 acres was

smp (nope and Lake Fressatt) 4 lots of 100 acres each were given for schools and literature.

5 The lands of the school fund were, Jan. 1859, as follows:—
4.270 acres in Hamilton, 2,861 in Essex, 1.680 in Clinton, 350 in Wayne, 105 in Schoharie, 75 in St. Lawrence, 30 in Washing-ton, 28 in Oneida, 25 in Fulton, 16 in Montgomery, 12 in Her-kings, 6 in Butchess, and 5 in Goodden seeds. kimer, 6 in Dutchess, and 5 in Onondaga cos.

Literature Lands have been reserved as follows:-1 mi. square Learning Learning and the control of the townships of Fayette, Greens, Chuton, Chenango, Warreo, Sidaey, and Hamden. Townships 1, 4, 5, 8, 13, 14, 17, 19, 31, 32, 33, 34, 35, 36, 38, 34, in Totten and Crossfield's Purchase. Lot No. 56 in each of the Ten Towns of St. Lawronce co. A lot of 550 acres (less 50 for survey) in each of the 28 towns of the Military Truct. These lots were appropriated as follows: as follows:-

Military Tract.—Townships 7, 8, 9, 10, 11, 12, 15, 16, 17, and 20, to Union College.

The remainder were sold for the benefit of the Literature Fund Clinton Township, granted to the town of Jericho, Chap. 3, Laws of 1822. All other townships in Broome and Chenango cos. were sold for the henefit of the Literature Fund

Ten Towns in St. Lawrence Co .- In Potsdam, granted to St. Lawrence Academy, Chap. 148, 1816. In Canton, granted to St. Lawrence Academy, Chap. 148, 1816. In Canton, granted to Lowville Academy, Chap. 134, Laws of 1818. The remainder was sold, and \$1,000 given to Middlebury Academy in 1823; \$1,000 to Redhook Academy in 1824; \$2,500 to St. Lawrence Academy in 1825; and the remainder passed to the Literature Fund.

Totten and Crossfield's Purchase .- 10,240 acres absorbed by ten and Crossfield's Purchase.—10,240 acres absorted by S. H. & S. R. R. In Benson Township, 4 bots of 160 acres each remain unsold. Of the unsold Luds of the State in Jan. 1859, there were 39,269 acres; of which 19,020 are in Clinton, 5,133 in Hamilton, 5,111 in Essex, 4.728 in Frank-lin, 1,643 in Warren, 1,147 in Delaware, and the same in Erie, 780 in Herkimer, 212 in Cortland, 175 in Seacca, 116 in Sultivan, and 57 in Washington cos.

nn Sallivan, and 57 in Washington ces.

The Sall Springs Lands are, by Article 7, Sec. 7 of the Constitution of 1846, declared as belonging inalierably to the State, and comprise the grounds upon which salt is manufactured, whether by solar evaporation or artificial heat. The Commissioners of the Land Office may sell, under authority of law, certain portions for the purpose of purchasing other lands, so that the amount shall not be duai nished. Since 1846, 114.35 acres have been sold, fo. \$153,039.50, and 543.12 acres purchased, for \$154,161.79.

With certain exceptions all property, both real and personal, is liable to taxation whether owned by individuals or corporations. Real estate is taxed in the town where it lies, unless adjacent to lands of the same owner or occupant in another town where he resides.

Personal property is taxed where the owner resides, and corporations in the towns where their property lies. Stocks of corporations are taxed to the company and not to the holders. Property may be sold for the payment of taxes, and lands upon which the taxes remain unpaid are returned by the co. treasurers to the comptroller, and so much of each parcel is sold at stated periods, as is necessary to pay the taxes, interest, and charges that accrue thereon.<sup>2</sup>

The pre-emptive title to the lands of the State w. of a meridian passing through the 82d milestone on the Penn. line, was conveyed to Massachusetts, (except a mile strip along the Niagara,) at a convention held at Hartford, Dec. 16, 1786. These lands amounted to about 6,000,000 acres. Ten towns of 234,400 acres, in Broome and Tioga cos., called "The Massachusetts Ten Towns," were also conveyed at the same time.

Large tracts of land remained in possession of the government when it became a State. These and other portions derived from forfeitures, escheats, tax sales, Indian purchases, and forcelosure of loan mortgages, have been sold in small parcels, as parts of large tracts, having a general name and system of survey. Sometimes as many patents have been issued for these tracts as they had lots, and in others many lots have been conveyed to the same person.

The largest grant ever made by the State to citizens was that of Maeomb's Purchase, in Franklin, St. Lawrence, Jefferson, Lewis, Herkimer, and Oswego cos. It embraced 3,693,755 acres, and was patented to Daniel McCormick and Alexander Maeomb in 1791-8. The State, in accordance with Indian treaties, has conveyed sundry tracts, the principal of which are Penet Square, (10 mi. sq.,) in Jefferson co., and Peraché's, Kirkland, and other minor tracts, in Oneida eo. Others, for like cause, have been assigned for missions and other specific objects. The Legislature has also by acts directed the land commissioners to convey extensive tracts for the promotion of roads, railroads, and canals, colleges, academies, schools, and other institutions, and to reward military or other services to the State. Of the latter class was a grant of 16,000 acres in Oneida co. to Baron Steuben, in 1786.

Of patents to citizens not included in either of the preceding lists, the principal are Scriba's 500,000 acres in Oswego and Oneida cos.; Adgate's, Coxe's, Machin's, Oothondt's, Remsen's, Dean's, and other tracts in Oneida; Vrooman's, Noble's, &c. in Herkimer; and Watkins & Flint's in Chemung and adjoining counties. Numerons grants of land to communities, with privileges of government, were made upon Long Island, and in the counties bordering upon the Hudson, which will be specially noticed in the localities to which they refer.

Several of the cities have special laws for the sale of real estate for taxes, and such sales are made under the direction of the fiscal officer of the corporation. All other tax sales occur at Albany once in three years, and are duly advertised by the Comptroller and in each co. by such newspapers as are designated by the supervisors.

recorded in the co. .lerk's office, but such record does not exempt from sale for taxes, and property generally is liable for debts contracted in its purchase. Where a homestead is exempted the privilege continues for the benefit of the widow and family after the death of the head. Such of the above articles as are movable continue exempt while the family to whom they belong are removing from one place of residence to another.

<sup>1</sup> The real estate not subject to taxation comprises property belonging to the State and United States; buildings and grounds for public uses owned by counties, cities, villages, and towns; colleges, academies, and incorporated seminaries; clurrches, school houses, and the property of corporations for reform of offenders; public libraries; bank stock owned by State and by literary and charitable societies; Indian reservations, and the property of Indians living thereon; the property of Cergymen to the extent of \$1,500 each, and property not liable to sale under execution for debt. The last named includes (if owned by householders) a spinning wheel, a loom, stoves put up or in use, the family Bible, family pictures, and school books in use, books not exceeding \$50 in value, a sent or pew in church, ten sheep with their fleces, and their necessary food, all necessary pork, beef, fish, four, and vegetables provided for family use, and fuel for 60 days, all necessary wearing apparel, beds, bedsteads, and bedding for the family, arms and acconterments required by law to be kept for service in the militia, necessary cooking utensils, one table, six chairs, table furniture for six persons, one crane and its appendages, one pair of andirens, a shovel and tongs, tools of mechanics to the value of \$25, a team worth \$150, and land set apart for a private larying ground not more than \$1 acre. A building and lot worth \$1,000 eccepied as a dwelling by the owner and his family may be exempt by causing a description of the premises to be

another.

2 Each parcel is held up at auction, and those persons competing at the sale name the least amount of land in a square, usually in the N.W. corner, that they will accept, and pay the taxes and charges due. The sale is declared in favor of the person naming the least quantity, and the purchaser receives a certificate naming the time when a deed will be due. If not paid, the Comptroller may in 3 months cancel the certificate and give to another upon payment of the same amount, and any person may redeem within 2 years by paying the taxes, charges, and 10 per cent, in addition. Specific or undivided parts of tracts of land may be sold. If not redeemed in 2 years the Comptroller issues a full deed to the purchaser. The portion sold to pay taxes is designated by the comptroller and varies with circumstances. If a village lot, it is located so as to front upon a street, and in long narrow tracts it is taken off from one end. A tax sale takes place in 1859, and triennally thereafter.

LANDS. 49

# TABLES OF MANORS, COLONIAL PATENTS, PURCHASES, AND LAND GRANTS.

Manors of the Colonial Period in New York and its Dependencies.

NAMES.	PATENTEES.	DATES.	LOCATION AND REMARKS.
Bentley		May 6, 1687 Mar. 20, 1687	S. W. part of Staten Island, sometimes called "Billop Manor." N. part of Staten Island.
Cortlant	Col. Stephanus Cortlandt	June 17, 1697	N. part of Westchester co., had I Rep. in Gen. Assembly. Canceled.
Fox Hall Gardners Island	Capt. Thos. Chambers	May 21, 1667	Annexed to Kingston, Mar. 12, 1787. With full power as an independent town.
Livingston Marthas Vineyard			Columbia co., had 1 Rep. in Gen. Assembly. Since annexed to Massachusetts.
Pelham		Oct. 25, 1687	S. point of Westchester co. S. E. border of Westchester co.
Philipsburgh Plumme Island	Samuel Willes	April 2, 1675	Putnum co. Plum and Gull Islands.
Rensselaerwyck			Fully organized; represented in Gen. Assembly; confirmed Oct. 17, 1685, May 20, 1704.
Scarsdale	Col. Wm. Smith Calch Heathcote	Mar. 21, 1701	In town of Brookhaven, Suffolk co. Westchester co.
	John Paine		Prudence Island, R. I. Disallowed by R. I., and authorit resisted.
Tysbury	Thos. Mayhew	July 8, 1761	Marthas Vineyard, now a part of Massachusetts.

Several of these existed only in name; perhaps a few other patents bore the name of Manors, upon which active settlement was not begun under the Colonial Government.

# Table of the more important Patents

Granted under the English Colonial Government, in the eastern part of New York.

NAME OF PATENT.	County.	Date.	Extent in Acres.	Patentees.
Adaquataugie Patent			26,000	Sir William Johnson and others.

Boston Ten Towns	Massachusetts to Settlers	Nov. 7, 1787	230,400	Broome and Tioga.

a Phelps and Gorham originally contracted for the whole tract at \$1,000,000, payable in a kind of scrip called "Consolidated Securities." then much below par. A rise to par prevented them from fulfilling the agreement.
b In 1801, conveyed in unlivided halves to the State of Conn. and Sir Wm. Pulteney, the former using part of her School Pund in the purchase. Divided by alternate lots in 1811.
c Conveyed in four tracts to the agents of the Holland Co.; viz., 1,500,000, Dec. 24, 1792, to Le Roy and Lincklaen; 1,000,000 Feb. 27, 1793, to Le Roy, Lincklaen, and Boon; 800,000, July 20, 1793, to the same; and 300,000, same date, to Le Roy, Bayard, and Clerken. and Clarkson.

# CANALS.

THE PUBLIC CANALS of the State are made, by the Constitution, inalienable. They were first constructed for the purpose of facilitating settlement and of opening an easy means of communication between the Atlantic and the great lakes. The canals are under the care of several State officers, the powers and duties of whom are as follows:-

The Canal Commissioners, three in number, are elected one each year and hold office for three years. They have the immediate supervision and management of the construction and repairs of canals, and are ex officio members of the Canal and Contracting Boards. They have their office in the State Hall, and report annually

The canals have three general divisions, each of which is under the special to the Legislature. charge of a commissioner.1

The State Engineer and Surveyor has general charge of the engineering department of the canals, and is a member of the Canal and Contracting Boards. He has an office in the State Hall, and reports annually to the Legislature.2

The Canal Board consists of the Commissioners of the Canal Fund, the State Engineer, and the Canal Commissioners. It meets, during the session of the Legislature, at the office of the Canal Department, fixes the rates of toll, appoints collectors of tolls, their assistants and weighmasters, directs extraordinary repairs; hears appeals from the Canal Appraisers, remits penalties, and regulates the police of the canals.3

The Auditor of the Canal Department draws warrants on the Treasurer for all canal payments, audits accounts, instructs collecting and disbursing officers, and keeps account of canal receipts and expenditures. He is ex officio Secretary of the Commissioners of the Canal Fund and of the Canal Board, and a member of the Contracting Board. His office, known as the "Canal Department," is in the State Hall at Albany.

The Canal Appraisers, three in number, are appointed one each year, and hold office for three years. They appraise all damages arising from the canals, whether temporary or permanent in their nature. They have an office in the State Hall.

The Contracting Board consists of the State Engineer, the Auditor of the Canal Department, and the Canal Commissioners. It appoints all division, resident, and first assistant engineers.

The Commissioners of the Canal Fund consist of the Lientenant Governor, Secretary of State, Comptroller, Treasurer, and Attorney General. The Anditor of the Canal Department is ex officio Secretary of the Board. They have the general management of the funds and debts of the canal.5

1 The Eistern Division embraces the Eric Canal as far w. as Oneida Lake Canal. 136 miles; Champlain Canal and Glens Falls Feeder, 78 miles; Pond above Troy Dam, 3 miles; Black River Canal and Improvement, 98 miles; nacking a total of 315 miles. The Maddle Division embraces the Eric Canal from the E. bank of Oneida Lake Canal to the E. line of Wayne co., including feeders and reservoirs, 76 miles; Chemango Canal, 97 miles; Oneida Lake Canal, 7 miles; Oswego Canal, 38 miles; Baldwinsville Side Cart I mile; Oneida River Improvement, 29 miles; One-dia Lake Canal, 7 miles; Oswego Caud, 3's miles; Baldwins-ville Side Cut, 1 mile; One-dia River Improvement, 20 miles; Seneca River towing path, 54 miles; Cayuga & Seneca Canal, 23 miles; Crocked Lake Canal. 8 miles; Chenung Canal and Feeder, 39 miles; One-dia Crock Feeder, 2 miles; Seneca River Improvement, 122 miles; making a total of 331 miles. The Western Division embraces the renameder of the Eric Canal, 155 miles, and the Genesee Vailey Canal and Dansville Side Cut, 118 miles, making a total of 275 miles. 2 He prescribes the duties of engineers and assigns to the divisions whites and inspects all the canals at least once in cach

divisions, visits and inspects all the canals at least once in each advisions, visite and inspects air the canas at react once in Carlos year, and prepares plans, surveys, maps, and estimates for construction or improvement. He has other duties relating to railroads, lands belonging to the State; and other subjects are also assigned to him from time to time.

In the Engineering Department are the following subordinate officers:

officers :-

Division Engineers, one to each division, are appointed by They have special supervision of the sections of canals in their respective divisions, and are obliged to frequently pass over the respective divisions, and are obliged to frequently pass over the canal; and they prepare all maps, plans, and specifications for work to be put under contract. They make full reports annually to the State Lugmeer. The office of the Resident Engineer of the Eastern Division is at Allany, of the Middle Division at Syracuse, and of the Western Division at Rochester.

\*\*Resident Engineers\*\* 12 in number level invariant subsection.

Resident Engineers, 12 in number, have immediate charge of certain sections under the supervision of resident engineers. They are assisted by:

First Assistant Engineers, appointed by the Contracting Board, and

Second Assistant Engineers, appointed by Resident Engineers. Second Assistant Engineers, appointed by Resident Engineers. The number of these assistants is regulated by the amount of labor in progress. Levelers, surveyors, draftsmen, elerks, &c. are employed as the Department may require, and are appointed in the same manner as Second Assistant Engineers. No engineer or other public officer appointed upon the canals, or a clock foreman, or overseer of laborers, is allowed to have or a clerk, foreman, or overseer of laborers, is allowed to have an interest in the boarding of laborers, or in furnishing teams, materials, or any other thing belonging to himself, for the use of the public.

3 There are 20 collectors of tolls on the Erie, 3 on the Cham-

<sup>3</sup> There are 20 collectors of tolls on the Eric, 3 on the Champlain. 3 on the Oswego, 3 on the Seneca & Cayuga. 3 on the Chemung, 1 on the Crooked Lake, 3 on the Chemango, 5 on the Genesee Valley, 1 on the Black River, and 1 on the Oneida Lake Canal. There are also 41 assistant collectors. Collectors may be removed by the Canal Commissioners or the Auditor.

<sup>4</sup> This Board was created April 15, 1854, and its powers were enlarged and defined May 14, 1857. Until May 1, 1859, it appointed superintendents of repairs: but since that time all repairs are made by contract. Repairs were formerly made by laborers, hired by the day or month, under the direction of superintendents; but in 1857 the Contracting Board was authorized bet the ordinary perairs muon contract for a term of verys. to let the ordinary repairs upon contract for a term of years.

5 The canal fund was derived from the following sources:-1817-35. Auction duties, (in part,) amounting in

all to......
" Salt duties, amounting in all to....... In 1835, these revenues were restored to the general fund, by a popular vote of

1817-23. Steamboat passenger tax, amounting in all to

73,509,99

\$3,592,039.05 2,055,458,06 Reports are annually made to the Legislature by the heads of the various Canal Departments concerning every thing pertaining to the Canal interests. These reports, embodying voluminous details and summaries, are printed, and are easily accessible to all.

Loans for construction, at sundry times, secured by State stocks. The avails for Erie and Champlain Canals, up to Sept. 30, 1858, amounted to Loans for enlargement, &c	\$8,271.831.00 11,828,000,00 10,203,844.10 10,500,000,00 1,512,390,75 1,700,000,00 64,429,475.41 2,936,623,21

Special bans were made for most of the lateral canals. A tract of land from the Onondaga Salt Springs Reservation was sold for the benefit of the Oswego Canal Fund, and amounted to \$100,000. Stock in the Western Inland Lock Navigation Co., amounting to \$20,000, was canceled for the benefit of the canals, and the interests of individuals in that work were canceled by muchass. The amount arounised was \$157,211,50

amounting to \$2,2000, was cancered for the belief of the canals, and the interests of individuals in that work were canceled by purchase. The amount appraised was \$152,718.52.

The Constitution provides (Art. VII) that, after paying the expenses of collection, superintendence, and repairs, the sum of \$1,300,000, and after 1855, \$1,700,000, shall be applied amountly, from the revenues of the canals, to a sinking fund, to pay the canal debt. In 1857, the surplus receipts of tolls failed, for the first time since 1840, to meet this, and it became necessary to raise by direct tax the money required to pay interest on the stock. The clause in the Constitution prohibiting the creation of a debt for any public work, without imposing a direct tax for its payment and a submission to the popular vote, was suspended by an amendment adopted Feb. 14, 1854, to allow of the raising of \$0,000,000, by the issue of State stock, for the more speedy enlargement and completion of the canals. A measure was introduced in the Legislature of 1859, for the loan of a further sum for this object, and the submission of the question to the decision of a pequilar vote.

To 1823 inclusiv

The Erie Canal, connecting the Hudson with Lake Erie, was commenced at Rome, July 4, 1817, and was completed Oct. 26, 1825. As first constructed, it was 363 mi. long, 28 ft. wide at the bottom, 40 ft. wide at the top, and 4 ft. deep. The locks were 90 ft. long between the gates, and 15 ft. wide. The original cost of the whole was \$7,143,789. 86.1

The number of boats upon the canals at different periods has been--in 1843, 2,136; in 1844, 2,126; in 1847, 2,725; in 1853, 3,401; and in 1859, about 3,500. The following numbers of new boats have been registered:-

Some opinion may be formed of the class of boats used from the numbers built. These were, in 1857, of scows, 106; decked scows, 23; lake boats, 95; bullheads, 102; and packets, 3. None of the last named were built in 1858; and the day for traveling upon the canals may be considered as virtually passed, unless steam canal boats—now being introduced into uso—prove successful competitors in speed with steam upon railroads.

The largest heat registered in 1844 was 90 tons. In 1849, some were as high as 105 tons; in 1850, 170 tons; in 1853, 250 tons; and in 1858, 300 tons. The average tonnage of heats has been as follows:-

1849	76
1850	80
1851	87
1852	
1853	
1854	
1855	
1856	
1857	
1858	169

a Double locks, side by side, are counted as one. The number upon the Eric Canal, when completed, will be two less, by dis-

pensing with those now at Montezuma.

b Farm bridges are gradually lessening in number, as the claims of individuals are from time to time commuted, or the damages appraised from failure to rebuild them. The principal increase of bridges is in cities and villages, from the opening of new streets; and in these localities permanent iron bridges are now generally built upon the principal thoroughfires.

Of the I0 dams in the first column, 8 are feeder dams.

<sup>1</sup> Plans for improving the navigation of the Mohawk were proposed in 1725, but nothing was done to this end till March 30, 1792, when the "Western Inland Navigation Company" was incorporated, with powers to improve the channel and build canals and locks to Lake Ontario and Seneca Lake. The cost to Oneida Lake was estimated at £39,500. This work consisted

mainly of the following:—

1st. A canal at Little Falls, 4,752 feet long, of which 2,550 feet ret. A canna in Jattle Fanns, 4, 62 feet long, of which 2,550 ever through solid rock. Upon it were 5 locks, with a total rise of 44½ tect. 2d. A canal 1½ miles long, with a lock, at Wolf Rift, Germann Flats. 2d. A canal, 1½ miles long, at Rome, connecting the Mohawk with Wood Creek; and, 4th, four locks upon Wood Creek, with a total depth of 25 feet. The work was begun at Little Falls, in 1793, but the want of funds delayed the work at Little Falls, in 1793, but the want of tunds delayed the work until 1794, when a subscription of 200 shares was obtained from the State. Boats first passed the canal and locks at this place Nov. 17, 1795, and on that day and the next 8 large and 102 small beats were passed, at a toll of £80 108, exclusive of 0 that passed free the first day. The chambers of the locks were 74 by 12 feet, and allowed boats of 32 tons to pass; but other impediments limited boats to a burden of 10 or 11 tons. Light boats could go from Schemetady to Fort Stanwix and back in 9 days; but the larger loads required 14 days to make the trin. In days; but the larger boats required 14 days to make the trip. In 1793, Wood Creek was cleared out, and 13 isthmuses were cut 1793. Wood Creek was cleared out, and 13 isthmuses were ent across, shortening the channel 7 miles. In 1796, boars passed through to Oneida Lake: and the work, in 1797, had cost \$400,000, of which the State paid \$92,000. The great cost required high toils; and in 1812 but 300 boats passed, with 1,500 tons, at Little Falls. The company gave up its rights west of Oneida Lake in 1808, and sold out to the State, in 1820, for \$152,718,52.—Report of Weston, the Engineer, 1796; Spatford's Gazetter, 1813; Hist. N. Y. Canals, II. 40.

It is entirely uncertain who originated the first idea of constructing a chain of water communication through the State.

structing a chain of water communication through the State. structing a chain of water communication through the State.
All of the early efforts were directed to effecting a passage
through the Mohawk, Wood Creek, Oncida Lake, and Oswego
River to Lake Ontario. The Western connection was sought
by locking around Niagara Falls. In 1800, Gouverneur Morris
first suggested the idea of a direct canal from Lake Eric to the Hudson, through the center of the State. His plan was to tap Lake Erie, and have a continuous slope from the lake to the high land that borders upon the Hudson, and a series of locks thence to the river. In 1803 he stated the outline of his plan to the Surveyor-General, Simeon De Witt, who looked upon it as

chimerical. The next year Mr. De Witt, in a conversation with James Geddes, then a land surveyor of Onondaga county, stated the plan of Mr. Morris as one of the impracticable schemes which had been advanced. Mr. Geddes, however, looked at the matter in a different light, and, after some little reflection, be concluded that the plan, with some modifications, was by far the best that had yet been suggested. He counseled with Jesse Hawley upon the subject; and the latter, convinced of the feasi-Hawley upon the subject; and the latter, convinced of the feasibility of the project, wrote a series of papers which were published in the Genesee Messenger from Oct. 1807, to March. 1808. These essays were signed "Hercules," and were the first ever printed in favor of the Eric Canal. In 1808, Joshua Forman, an intimate associate of Mr. Geddes, then a member of the Assembly, introduced a resolution for the survey of a canal route, to the end that Congress might be led to grant moneys for the construction of a canal. The sum of \$600 was granted for surveys under the direction of the Surveyor-General. James Geddes was intrusted with this service, and was directed to level down from Oneida Lake to the mouth of Salmon Creek, to ascertain whether a canal could be oneed from Oswego Falls to lake tain whether a canal could be opened from Oswego Falls to Lake Ontario, and to survey the best route for a canal around Niagara Falls. He was also directed to survey a route eastward from Lake Erie to Genesee River, and thence to the waters flowing east into Seneca Lake. He finished this work, and made a east into Seneca Lake. He finished this work, and made a report showing the practicability of the last named route and its great superiority over the others which had been proposed. This report at once excited general attention, and seemed the influence of De Witt Clinton, then a member of the Senate, and many other prominent men. In 1810, commissioners, at the head of whom was De Witt Clinton, were appointed to explore a canal route through the center of the State. On the Sta of April, 1811, an act was passed to provide for the improvement of the internal navigation of the State, and efforts were made to other in add from the General Government but without success. obtain aid from the General Government, but without success. The report of the commissioners stated the importance of this measure with such force and elequence that a law was passed the next year continuing the commissioners, and authorizing them to borrow and deposit money, and take cessions of land, for them to borrow and deposit money, and take cessions of land, for the proposed caual; but the war suspended active operations. The project, however, continued to be discussed, and an act was passed on the 17th of April, 1816, providing for a definite survey. The caual was begun at Rome, July 4, 1817, and on the 22d of October, 1819, the first boat passed from Utica to Rome. The completion of the canal was celebrated by extraordinary

The enlargement of this canal was ordered May 11, 1835, and has been going on more or less rapidly since, except during a few years of suspension commencing under Gov. Wright's administration. It was estimated by the State Engineer and Surveyor, in Jan., 1859, that \$1,565,077.75 would complete the enlargement upon the present plan, making the total cost of that work \$23,000,000. The length of the Eric Canal when enlarged will be reduced to 349.74 mi. Its section gives a breadth of 70 ft. at the surface of the water, 52½ ft. at the bottom, and a depth of 7 ft.

civic and military ceremonies throughout the State, and especially in New York City, on the 4th of Nov. 1825. As the first beat, with fovernor Cinton on locard, entered the canal, at Buffalo, at 10 o'clock, (Oct. 26.) a line of cannon, previously arranged a few miles apart, passed a signal along to Albany, and down the Hudson to Sandy Hook, from whence it was returned in like manner. The signal was heard at New York, at 11.20. The dotlink with the Governor was everywhere greeted with enthusiastic rejoicing. Upon reaching New York it passed down to Sandy Hook, and the waters of the lake were mingled with those of the ocean with imposing ceremonics.

The Canal Commissioners under whom the Eric and Champlain Canals were constructed were Stephen Van Rensselaer, De Witt Clinton, Joseph Ellicott, Samuel Young, and Myron John Hopkins, and Seymour Skiff.

Holley. Henry Seymour was appointed in place of Ellie it in March, 1819, and William C. Bouck was added to the number in March, 1821. The chief engineers were James Geddes, of Onon-daga co., and Benjamin Wright, of Rome, neither of whom had ever seen a canal, or enjoyed means of acquiring a practical knowledge of engineering other than that obtained from surveying land. The precision with which their canal surveys were executed, umler the circumstances, may be regarded as truly wonderful. Among the assistant engineers were — Peacock, David Thomas, Nathan S. Roberts, David S. Bates, Canvass White, Davis Hurd, Noah Dennis, Charles T. Whippo, William Jerome, Henry G. Sargent, Frederick C. Mills, Isaac J. Thomas, Henry Farman, Alfred Barrett, John Bates, William H. Price, John Honkins, and Seymour Skiff.

The Canal Board have adopted the following table of distances from place to place upon the Eric Canal. The elevations above tide are those shown by the lockages, and do not take into account the descent given to cause a flew of water between locks, which does not vary much from an inch to a mile. The long level is supposed to be perfectly uniform in elevation above tide.

The number of locks will be 74, or 10 less than the original number.\textstyle The banks of the enlarged canal are protected from washing by slope walls, consisting of stone firmly packed upon the sloping sides. The canal will allow the passage of boats of 200 to 250 tons burden. Steam has been introduced to some extent in propelling boats, and the snecess of the experiment has been so great that probably steam power will ultimately supersede horse power.

The Champlain Canal, extending from the Eric Canal, near Cohoes, to Lake Champlain, was begun Jnne 10, 1818, finished to Waterford Nov. 28, 1822, and completed Sep. 10, 1823, at an original cost of \$875,000, exclusive of the feeder to Glens Falls. It is 64 mi. long and has a navigable feeder of 7 mi, to Glens Falls, with a slackwater navigation 5 mi, further upon the

The Chenango Canal, connecting the Erie Canal at Utica with the Susquehanna River at Binghamton, was anthorized Feb. 23, 1833. It is 97 mi. long, exclusive of 133 mi. of feeders, none of which are navigable.

The Black River Canal and Eric Canal Feeder extends from Rome up the valley of the Mohawk and of Lansing Kil to Boonville, and thence it descends the valley of Black River to a point below the High Falls. From the latter point is a river navigation 42½ mi. to Car-

The chambers of the enlarged locks are 110 by 18 feet, and there it leaves the river and crosses to the valley of Wood Creek, their lift varies from 3 to 15½ feet. The canal leaves Lake Ericand thence, partly in the hed of that stream, to Whitehall, at Buffdo, follows the river bank to Black Rock, and community when this canal was first opened slackwater navigation upon cates with the dam at that place. At a point 10 mi, below Buffalo it enters Tonawanda Creek, follows its channel 12 mi., and crosses thence, through a rock cutting, to the brow of the mountain ridge, at Lockport, where it descends 55.83 feet by 5 combined locks. It continues thence, eastward, from 1 to 3 mi. s. of the ridge road, to Rochester, crosses the Genesee upon a stone aqueduct, makes a circuitous sweep across the Irondequoit valley, along the top of a natural range of hills, and finally delivers the adoing the top of a hatural range of mins, and many derivers in waters of Lake Eric into Seneca River, after supplying 153 mi. of the Eric Canal, and affording a large amount of water-power at various points along its course. It then rises by 2 locks, descends into the Oncodaga valley by 1 lock, and then rises by 2 locks to the long level which extends from Synause to Utica, from whence it descends the Mohawk valley, mostly on its 8. side, to the Hudson. Below Schenectady, it twice crosses the Mohawk, upon stone aqueducts. It is continued down the bank of the Hudson to Albany, where it terminates in a spatotal lockages going w. are 612.9 feet up, and 43.5 feet down, or a total of 650.4 feet. The canal is fed by numerous streams along its course, and by 9 reservoirs, all of which, with a single exception, are upon the middle division. They are as follows:

Reservoirs.	Acres in area.	Elevation above cand, in fect.	Pepth, in feet.	Length of feeders in mi.
Ericvillea	340	46	21 🚦	20
Hatchs Lake	134	15	10	988

Total	11,516			1504

a Built in 1857, at a cost of \$10,884.73. In Nelson, Madison

Besides these are the reservoirs upon the Black River Canal, which is itself but a feeder to the long level of the Eric Canal. Several of the feeders to the middle and western divisions of the Eric Canal are navigable for short distances. Connected with the canal at Euffalo are Main and Hamburg street canals, the Clark and Skinner Canal, the Ohio basin, and several slips con-

cars and same canal, and a ship-lock channel at Black Rock.
At Tonawanda is a side-cut for a river-lock.

2 A company styled the "Northern Inland Navigation Co."
was formed at the same time as the Western Co.; but fulled to
raise funds to accomplish its objects. A natural water commuraise funds to accomplish its objects. A natural water commination, interrupted by portages, extended along the route of this canal, which was used by the natives with their cances. The canal was built of the same dimensions as the Eric. It crosses the Mohawk in a pond formed by a dam 1.700 feet in length, and fellows near the w. bank of the Hudsen to Schuyler-ville, where it crosses into Washington co. by another dam 700 feet long, and continues near the east bank to Fort Edward. road and 18 farm bridges.

and thence, parify in the hed of that stream, to Whitehall. When this canal was first opened slackwater navigation upon the Hudson was used 8 miles above and 3 miles below Fort Miller, with a short canal and 2 locks around the falls at that place. It was fed from the Hudson by means of a high and costly dam near Fort Edward. The use of the channel of the Hudson is now entirely superseded by a canal along its bank, built in 1820-27; and the high dam has given place to a feeder to a point above Glens Falls, where there is a dam 770 feet long and 12 feet high. The feeder cutars the canal at the supunit level. 12 feet high. The feeder enters the canal at the summit level,  $1\frac{1}{2}$  miles N.E. from Fort Edward. The canal communicates with the Hudson above the State dam at Waterfield by a sidecut with 3 locks. It has 7 locks between the lake and the summit, with 54 teet total lift, and 14 locks, with a total of 134 feet, between the Summit and the Hudson at Waterford. The locks on this canal are being enlarged to a capacity of 15% by 100 feet.

thage, on the line of Jefferson co. At Boonville the canal receives a navigable feeder 12 mi. long, which derives its water from Black River. Length of main canal 36.62 mi., of feeders 12.48 mi., and of reservoirs 12.95 mi.1

The Oneida Lake Canal<sup>2</sup> connects the Eric Canal at Higginsville (3<sup>3</sup>/<sub>4</sub> mi.) with Wood Creek, and by slackwater, 24 mi. on that stream, with Oneida Lake, a total distance of 6 mi., and a descent of 56 ft.

The Oswego Canal, extending from Syracuse to Oswego, was authorized Nov. 20, 1824. A loan of \$160,000 was allowed April 20, 1825; it was begun in 1826, and was completed in 1828, at a cost of \$525,115.3 It is 38 mi. long, and includes 19 mi. of slackwater navigation in Oswego and Seneca Rivers, with a towing path on the E. bank. Connected with this work are the Oneida River Improvement, extending the whole length of that stream from Three River Point to Fort Brewerton, at the ontlet of Oneida Lake; the Seneca River Improvement, extending from Mud Lock, on the Oswego Canal, to Baldwinsville, by slackwater navigation; and

<sup>&</sup>lt;sup>1</sup> This canal was authorized April 19, 1836, and began the next summer. The sammit level is 693 feet above the canal at Rome, to which it descends by 70 locks. Northward the canal descends 585 feet, by 39 locks. The feeder has but one level. The State has caused reservoirs to be formed by damming the outlet of Woodhull, Chub, North and South Branch, and other lakes in Herkimer co. The Eight Lakes near the source of Moose River are available as reservoirs to supply Black River with water, withdrawn to feed the canal southward.

2 This canal was completed in the fall of 1835 by a company incorporated March 22, 1832, as the "Oneida Lake Canal Co." The company having to use the waters of the Eric Canal from the long level, were required to supply an equivalent amount. A feeder was constructed 5 miles west, drawing its waters from Oneida Creek. It is 2 miles long, and not navigable. The company had authority to extend its improvements 4 miles up Wood Creek, but nothing was ever done in that direction. By an act of May 11, 1840, the Canal Commissioners were authorized to purchase it at a cost not exceeding \$30,000, which was done April 12, 1841, and State stock hearing 5 per cent, interest, and redeemable in 10 years, was issued in payment. The first cost of the canal and feeder was \$78,824.85.

This canal forms an important link in the internal water

communication of the State, extending navigation from the Eric Canal to Oneida Lake, and by the Oneida Outlet to the Oswego Canal and River. Before the Eric Canal was built the Oneida Lake route was the great thoroughfare for the transporta-tion of goods westward.

3 The act did not originally authorize a connection with the Erie Canal, but only a communication with Onondaga Lake. The connection was recommended by the commissioners in 1827. and it was authorized soon after. This canal has a fall of 120 feet by 18 locks

The Oneida River Improvement has 2 steamboat locks, one of 3 and one of 3) feet lift, 120 feet long and 30 wide passing boats drawing 4 feet of water. It also has one dam and one thence by a canal three-fourths of a mile long, with one lift and one guard lock, and by slack-water on the Seneca River to Jacks Reef.

Cayuga and Seneca Canal connects the Eric Canal at Montezuma with Cayuga Lake at East Cayuga and with Seneca Lake at Geneva. About half of the canal is formed by slackwater navigation upon Seneca River, and the remainder is a channel parallel to the river. As enlarged, this canal admits the passage of large boats from the Eric Canal to the head of Cayuga and Seneca Lakes.<sup>1</sup>

Crooked Lake Canal connects Crooked Lake at Penn Yan with Seneca Lake at Dresden.<sup>2</sup>
Chemung Canal and Feeder connects Seneca Lake at Watkins with Chemung River at Elmira, with a navigable feeder from Knoxville on Chemung River to Horseheads, on the summit level of the Chemung Canal, including slackwater navigation from the dam and guard lock at Gibson to Knoxville.<sup>3</sup>

The Genesee Valley Canal extends from Rochester up the Genesee Valley to Olean upon the Allegany. The summit level is 978 ft. above Rochester and 86 ft. above the Allegany River, at Olean, and from it 97 locks descend toward the N. and 9 toward the s.4

The Seneca Lock Navigation Co, was incorporated April 6, 1815, for the purpose of improving the outlet of Seneca and Caruga Lakest and the Cayuga and Seneca Canal Co, was chartered April 20, 1815. Its capital was increased in 1815 to \$50,000, and in 1817 a further call of 25 per cent, upon the original stock was unthorized, including a like extension of payment on stock held by the State. The proposition for assuming this work by the State was approved in 1825, and the interest of the company was purchased for \$33,867.18, exclusive of the amount owned by the State. The work was begun in 1826, and finished in 1828, at a

cost of \$214,000. The inlet to Caynga Lake is navigable  $1\frac{1}{2}$  miles to Ithaca. The becks of this canal are all enlarged excepting one at Chamberlain's Dam, which will be dispensed with so as to include the distance from Seneca Falls to Waterloo in one level. The descent from Geneva to Montezuma is 74 feet by 12 locks.

by 12 locks.

<sup>2</sup> The survey of this canal was anthorized by the Legislature in 1828. The canal was ordered to be built by an act of April 11, 1829. It was begun in 1830 and finished in 1833. It has a descent of 269 feet by 27 locks. It extends water communication to the various ports upon Crooked Lake.

<sup>3</sup> This canal was authorized April 15, 1829, and its construction was begun in that year and finished in 1833. The total lockages on both the canal and feeder are 516 feet by 52 locks, and the original cost was \$344,000. From Corning, the Blossburg & Corning R. R. ascends into the bitunitious coal region of Tiega co., Penn., and this article forms a very important item in the business of the canal. It also communicates with the Erie R. R. The Junction Canal, a private enterprise connecting the Cheming Canal at Elmira with the North Branch Canal of Penn. at Athers, 19 mil. s., promises to become an important tibutary to the trade of this canal by opening access to the coal region. The diversion of Cheming Biver into our canals has been made a subject of complaint and remonstrance by the State of Penn. Plans have been proposed for using Mnd Lake. (459 acres) and Little Lake. (708) acres.) in Tyrone, as reservoirs to relieve this canal from the inconvenience felt in dry seasons from low water.

4 This canal was authorized by act of May 6, 1836, and was begun the same year. The portion from the Junction to Rochester and the Hansville side-cut, in all 52 miles, was finished in 1840; to Oraniel, 26 miles forther, with the Genesec Feeder at that place, in 1851; to Belfist, 2 miles, in 1856. A section of one nile, with 2 lift locks and 2 bridges, still remains to be finished.

The repairs of the first and second sections of this canal were put under contract for five years in Dec. 1855, the former for \$13,000 per annum. In consequence of heavy freshets and unexpected damages, the contractor on the first section abandoned his contract in June, 1857.

An act passed, 1857, authorized the extension of this canal from Olean castward across them Creek and the bottom lands along the N. bank of the Allegany to its entrance into Mill Grove Pond, 652 miles. CANALS.

Besides the foregoing navigable improvements by the State, the following have been placed under the direction of the Canal Commissioner for construction:

The Owasco Lake Improvement, ordered in 1852, and designed to make this lake a reservoir for supplying a water power for the machinery in Auburn State Prison.1

The draining of Cayuga Marshes, for reclaiming a large amount of land, estimated at 40,000 acres, at the outlet of Cayuga Lake and along Seneca River. By an act of April 12, 1853, the channel of the river was ordered to be lowered, and the lands benefitted to be taxed for the expense. Surveys have been made and the work partly accomplished under the direction of the Canal Commissioners.2

Several companies have been incorporated for the purpose of constructing navigable canals, but, with two or three exceptions, none of these have at present a corporate existence.

The Delaware and Hudson Canal, extending from Rondout on the Hudson to Honesdale, Penn., is the most important of these. It is connected with the Lackawanna coal region by a R. R. 16 mi. long, and is one of the principal routes by which coal is brought to the market upon the Hudson.3

<sup>1</sup> This work was 2 years in charge of the Agent of the State

63

<sup>1</sup> This work was 2 years in charge of the Agent of the State Prison and the Mayor of Anburn, but in 1855 it was placed in the hands of the Canal Commissioners. The work, up to 1857, was greatly injured by a Spring flood. From 1852 to 1857 inclusive, §33.485 had been appropriated for this work.

¹ In 1842, and several times afterward, the drainage of these marshes was made the subject of legislative enactment, but without other results than surveys. A caucise history of this movement is given in Snate Doc. 35, 1853. The work was placed in 1853 under the direction of George Geddes, and up to 1858, §175,000 had been appropriated and mostly expended.—
Report Canal Commissioners, 1858, p. 110.

³ The Delaware and Hadson Canal Company was incorporated April 23, 1823, with a capital of \$1,500,000, with the right of nsing \$500,000 in banking until 1844. The credit of the State was loaned for \$800,000 in stock, bearing interest of 4½ or 5 per cent. The canal was begun in July, 1825, and opened for use in 0ct. 1828. Its length from Rondout to Port Jervis, on the Delaware, is 59 miles; and from Port Jervis, up the Delaware to the mouth of the Lakawaxen, 24 miles. It crosses the river at the latter place, and extends 26 miles further to Honesiale. Its highest summit between the Hudson and Delaware Nivers is \$55.5 foot above 450. highest summit between the Hudson and Delaware Rivers is 585 feet above tide. Its descent to the Delaware is 80 feet; its rise along the Delaware is 148 feet; and its rise between the Delaware and Honesdale 187 feet. The aggregate number of locks is 109, and the total rise and fall is 950 feet. The railroad to the coal and the total rise and fall is 950 foot. The railroad to the coal mines is also owned by the Canal Company. The original cost of the New York section of the canal was \$1,424,934, and of the Penu, section \$612,123. The company own most of the boats used upon the canal, and conduct the mining operations at Carbon-lale. Present capital, \$7,500,000. The canal was originally constructed to afford 4 feet of depth, and to accommodate boats of 30 tons. In Sept., 1842, a plan of enlargement was adopted, and 5 feet of water was obtained, accommodating boats of 40 tons each. In 1851 a further culargement was completed obtaining each. In 1851 a further culargement was completed, obtaining for the first and accommodating boats of 120 tons. The locks are now constructed with a single gate at the upper end, which turns down upon hinges like a door. It is found to be very serviceable, and much quicker to operate than the double gate.

Annual Receipts of Tolls on the Delaware and Hudson Canal since its completion.

Table of Companies which have been organized for Constructing Canals and Extending Navigation in the State.

NAMES OF CANALS.	Date of Organization.	Capital.	Connections.	Remarks.
Allegany River Slackwater Navigation Co.	April 7, 1857	\$30,000		To improve Allegany Biver be-
Auburn Casal and R. B. Co	April 24, 1832		Auburn and Erie Canal	Nothing done.
Auburn & Owasco Canal Co	April 21, 1828	100,000	Auburn and Owasco Lake	Charter renewed in 1834; not finished.
Binghamton, Owego, & Penn. Slackwater Navigation Co.	April 9, 1855	100,000		Act amended in 1857.
Black River Canal Co	March 20, 1828		Eric Canal and Black River	Nothing done.
Black River Navigation Co	April 5, 1810		Brownville and Lake Ontarie	Not constructed.
Cassadaga Navigation Co	April 16, 1827	20,000		To imprave Cassadaga Creek; not completed.
Catatunk Dock Navigation Co.	March 3, 1815	70,000		To improve Cattatunk Creek from its mouth to N.W. branch. Nothing done.
Cavuga & Seneca Canal Co	April 20, 1815		Montezunia and Seneca Lake	Rights purchased by the State.
Chenaugo Junction Canal Co	May 12, 1846		Binghamton to State line	Nothing done.
Chittenango Canal Co	March 1, 1818		Chittenango Village and Erie Canal.	Assumed by the State, and used as a navigable feeder to Erie Canal.
Delaware & Susquehanna Na- vigation Co.	April 20, 1825		Delaware and Susquehanna River.	Nothing done.
Ellicotts Creek Slackwater Na- vigation Co.	April 29, 1829	5,000		Nothing done.
Gowanus Bay & East River	April 24, 1837		City of Brooklyn may cause to be constructed.	Partially improved.
Great Chazy Navigation Co	May 11, 1836	5,000	Lake and Lower Bridge at Champlain.	
Granville Canal Co	April 18, 1825		Champlain Canal and Bishops Corners.	Nething done.
Harlem Canal Co			East River and Manhattanville.	Partly done and abandoned.
Harlem River Canal Co	April 16, 1827	600,000	Spuyten Duyvil Creek and Har- lem River.	Surveyed but not constructed.
Hudson River & Channel Co	April 4, 1806	3,500	For raft navigation on upper water.	Nothing done.
Jefferson County Canal Co	April 15, 1828	200,000	Carthage and Sackets Harbor	Nothing done.
Junction Canal Co			From Eric Canal near Cham-	Nothing done.
			plain Junction to Hudson River.	

Table of Companies which have been organized for Constructing Canals and Extending Navigation in the State, continued.

NAMES OF CANALS.	Date of Organization.	Capital.	Connection.	Remarks.
Junction Canal Co	May 11, 1845		From Cheming Canal at Elmira to State line to connect with	Completed in 1858.
Long Island Canal Co	April 15, 1828	\$200,000	North Branch Canal. To connect Bays on s. side and to cross Canoe Place to Peco-	Nothing done but survey.
Long Island Canal & Naviga-	April 8, 1848	300,000	nic Bay. The same	Nothing done.
Manlins Canal Co	April 15, 1828	50,000	Eris Canal and Maulius Slack- water Navigation.	State Canal Feeder.
Mohawk & Hndson Lock	April 17, 1816	500,000	Cohoes Falls and Schenectady	Nothing done.
Navigation Co. Neversink Navigation Co	April 16, 1816	50,000		The project failed. The State loaned its credit for \$10,000 and lost the whole sum.
New York & Sharon	April 19, 1823		From Sharon, Conn., to tide water to any point on the Hindson or in the City of New York.	Snrveyed nearly on the present line of the Harlem R. R.
Niagara Canal Co Northern Inland Lock Naviga- tion Co.			Lake Eric and Lake Ontario Hudson River and Lake Cham- plain.	Nothing done. Work commenced but no part completed.
Northern Slackwater & Rail- way Co.	May 13, 1846		Port Kent and Saranac	Nothing done.
Oneida Lake Canal Co	March 22, 1832	40,000		Finished in 1835, and purchased by the State in 1841.
Onondaga Canal Co	Nov. 25, 1824		Eric Canal and Onondaga	Not constructed.
Ontario Canal Co	March 31, 1821	100,000		Nothing done.
Orange & Sussex Canal Co	April 11, 1825		From Columbia, on the Dela- ware, through Orange co., to the Hudson.	The right granted in 1828 to build a R. R. on the line. Nothing done on either.
Oswegatchie Navigation Co	April 25, 1831		From the St. Lawrence to Black Lake and Canton.	Nothing done.
Owasco & Erie Canal Co Peconic River Lock Navigation Co.	May 1, 1829 April 8, 1808	150,000		Nothing done. Nothing done.
Rochester Canal & R. R. Co St. Lawrence Lock Co	March 26, 1831 April 1, 1808	30,000		Railroad only constructed.  Locks completed but too small for general use.
Salmon River Harbor Canal Co Scottsville Canal Co			Lake Ontario and Port Ontario	Never completed.
Seneca Lock Navigation Co			For improving navigation between Seneca and Cayuga Lakes.	Merged in Cayuga & Scneca Canal.
Seneca & Susquehanna Lock Navigation Co.	March 31, 1815	300,000		Nothing done.
Sodus Canal Co	March 19, 1829	200,000	From Seneca River or Canan- daigua ontlet to Great Sodus Bay.	Partly constructed, but never used.
Susquehanna & Chenango Wallabout Canal Co	May 20, 1836 April 9, 1828		From river to Chenango Canal. Wallabout Bay and Tillery St. Brooklyn.	Not constructed.
Wallabout Canal Co	April 18, 1838	25,000	Wallahout Bay to Kent Avenue, Brooklyn,	
Western Inland Lock Naviga- tion Co.	March 30, 1795		To open navigation on the Mo- lawk, Wood Creek, Oneida, and Oswego Rivers to Lake Ontario.	Completed to Oneida Lake in 1797. The rights were after ward vested in the State, and such as were available were used for the Eric Canal

6

### RAIL ROADS.

The first rail road in the State, and the second in the U.S., was opened from Albany to Schenectady in 1831. Although rudely constructed, at great and much needless expense, the advantages of this means of communication became so apparent that within 3 years rail roads, duly chartered by law, were projected in every part of the State. These early grants were generally limited to 50 years, and work was required to be commenced within 3 years, the State being allowed to become purchaser at the expiration of the charter. The charters contained the necessary provisions for the taking of property by appraisements, named the commissioners for opening subscriptions, and sometimes for locating and surveying the road, which in a few instances was done at the expense of the State.

At an early period the aid of the General Government was solicited, in view of the utility of these roads in the transportation of the mails, and, in case of war, of military supplies; but, with the exception of surveys made in two instances, no aid was obtained from this source. The State has

Albany, Vermont, & Canada Rall Road, formerly the Albany Northern R. R. Company organized Feb. 12, 1851. Connects Albany and Eagle Bridge. Road opened through about the 1st of July, 1853. It was sold under foreclesure of mortgage Oct. 16, 1856, and assumed its present name Nov. 7, following.

Albany & West Stockbridge Rail Road, formerly Casheton & West Stockbridge R. R. Company organized April 19, 1830, but nothing was done under the first name. Present name assumed May 5, 1836. Road opened from Greenlash to Charham Dec. 21, 1841, and to the State line Sept. 12, 1842. It was leased to the Western (Mass.) R. R. Nov. 18, 1841, for the term of its charter; and has since been operated as a part of that road, including the ferry at Albany. The city of Albany, at different times, issued its bonds for \$1,000,000, to aid in building the road, the lessees paying the interest and \$10,000 annually toward the sinking fund. It connects Albany with Springfield and Boston.

Canandaigua & Corning Rail Road. Company incorporated May Canandaigua & Corning Rail Road. Company incorporated May 11, 1845; capital \$1,600,000. Time extended April 15, 1847, and again March 24, 1849. Surveys were begun June, 1845, and the construction in Aug. 1850. Road opened from Canandaigua to "Lefferson", toow Watkins) 46;45, mi, Sept. 15, 1851, the New York & Erie R. R. furnishing engines, cars, &c., for a specific rate per mile. The road was allowed to connect with the Chemung R. R. at Jefferson, and to change name Sept. 11, 1852, to Canandaigua and Elmira R. R. Canandaigua & Elmira Rail Road, changed from Canandaigua & Corning R. R. Sept. 11, 1852. Leased the Chemung R. R. 17,50, mi, and 4 mi, of Erie R. R. Sold to parties in Elmira, Penn Yan, and Providence, R. I. April 23, 1857, and possession given May 1. Price \$35,000, subject to \$500,000 due bondholders, and name changed to the Elmira, Canandaigua, &

holders, and name changed to the Elmira, Canandaigua, & Niagara Falls R. R. the next day.

Canandaigua d Niagara Folls Roil Road. Company incorporated diatargat as Nagarit Finis, rice hood, Company Incorporated Dec. 10, 1850; capital \$1,000,000. Road opened to Bataxia, 50 mi., Jan. 1, 1853, to Niagara Falls 47 mi. July 1, 1853, and to Suspension Bridge 1½ mi. April 1, 1854. Sold March 22, 1857, to Jas. M. Brown and others, and name changed to Niagara Bridge & Conandaigna R. R. Now leased and run by New York Central R. R.

Cayuga & Susquehanna Rail Road, formerly the Itlaca & Owego R. R., was chartered Jan. 28, 1828,—the second R.R. charter granted in the State. The road was opened in April, 1834. An inclined plane at Ithaca rose I foot in pril, 1834. An inclined plane at itnaca rose 1 not in ft, and stationary horse power was used for drawing he cars. Above this was another inclined plane, that up the cars. rose one foot in 21 ft., on which herse power was used. The road was subsequently sold by the Comptroller on stock issued by the State, on which the company had failed to pay interest. A new company was organized and the present name assumed April 18, 1843; the road was reconstructed, the inclined planes were done away with, and Jan. I. 1855, it was leased to the Delaware, Lackawanna & Western R. R. Co., and is operated by them as the Cayuga Division. Thus is an important route from the coal mines of Penn., and coal forms the principal item of business.

custom that has since been continued, except during the short period in which the office of R. R. Commissioners was in existence. This Board was created April 14, 1855, and abolished April 16, 1857. The expenses of the State Engineer and Surveyor's office chargeable to rail roads are assessed upon the several companies in proportion to their earnings. The general act to authorize the formation of R. R. companies was passed March 27, 1848. There are at present within the State 2,5544 mi. of R. R., besides double tracks and turn outs. The rail roads give employment to about 18,000

Long Island Rail Road. Company organized June 15, 1835. Opened through in July. 1844. The road extends from Brooklyn to Greenport; \$100,000 in State stocks was issued to aid in the construction. The company have leased the Brooklyn & Jamaica and the Hicksville & Coll Spring Branch R. Roads, which they operate as a part of this road.

Newburgh Brnnch of New York & Erie Rail Road. Branch allowed to Newburgh April 8, 1845. Opened Jan. 8, 1850.

New York Central Rail Road. Company formed by consolidating the several roads in operation, and some projected roads between Albany, Troy and Buffalo, and Niagara Falls. The act allowing the consolidation was passed April 2, 1863, and was carried into effect the 17th of May following. The consolidated capital amounted to \$23,085,600, and debts were assumed to the amount of \$1,947,815.72. The stock of the several companies was received at the following rates, viz.:—

 Albany & Scheuectady
 117
 Rochester & Syracuse
 130

 Syracuse & Utica Direct
 130
 Rochester
 Lockport
 Ni 

 Schenectady
 75
 Utica & Schenectady

 Buffalo & Rochester
 140

 Mohawk Valley
 135
 Luffalo & Lockport
 125

 Syracuse & Utica
 160
 Luffalo & Lockport
 125

Each stockholder received a like amount of stock of the new company, at par. (the Troy & Schenectady upon payment of \$25 per share.) and for the differences, certificates or prominim bonds bearing six per cent, interest, semi-annually, and payable May 1, 1883. These certificates amounted to \$8,822,600. The Rochester & Lake Ontario R. R., and the Buffalo & Ningara Falls R. R., have since been merged in this road.

Date of opening the several roads now forming the New York
Central Rail Road.

New York and Eric Hall Road. Company organized in July, 1833. The act anthorizing the road was passed April 24, 1832. The first preliminary survey was made in 1832, by De Witt Cliuton, jr., by order of the government. In 1834 the Governor appointed Benj. Wright to survey the route; who, assisted by Jas. Seymour and Charles Ellett, began the survey May 23d, and finished it the same year. In 1835 the Co. was reorganized, and 40 mi. were put under contract. In 1836 the Comptroller was directed to issue 83,000,000 State stock to aid in constructing the road. In 1846 the State released its lien on the road, and authorized the original stockholders to surrender two shares of old stock, and receive one share of new. April 8, 1845, a branch was allowed to be huilt from Chester to Newburgh, 19 mi. The road was opened as follows: from Piermont to Goshen, Sept. 22, 1841; to Middletown, June 7, 1843; to Port Jervis, Jan. 6, 1848; to Binghamton, Dec. 28, 1848; to Owego, June 1, 1849; to Elmira, Oct. 1849; to Corning, Jan. 1, 1850; and to Dunkirk, May 14, 1851. The Newburgh Branch opened Jan. 8, 1850. The road is compelled to pay a bonus of \$10,000 annually to the State of Pennsylvania for the privilege of passing a short distance in that State. Ample details will be found in The New York & Erie R. R. Onide, the annual and special reports of the company, and especially that of Nov. 1853, and in the following documents of the New York Legislature: Senate Doc. No. 12, of 1836; Nos. 37, 38, of 1842. Assem. Docs. Nos. 17, 171 of 1839; No. 47, of 1839; No. 215, of 1840; Nos. 113, 207, of 1841; and No. 50, of 1842. The Patterson & Ramapo (N. J.) R. R., 234 mi., and the Union R. R., 750 mi., the Chemung R. R., and the Elmira, Jefferson, & Cauandaigua R. R. are leased and operated by the this company.

New York & Harlem Rall Road. Company formed April 2, 1831. Work was commenced Feb. 24, 1832, and the first mile opened in Oct. following. The company was allowed to extend the road north of Harlem River, to meet the New York & Albany R. R. at such point as might be agreed upon, in May, 1840; and to continue to Albany, May 14, 1845. The road was opened to Chatham 4 Corners Jun. 19, 1852, connecting at that place with the Albany & West Stockbridge R. R.

Williamshurgh, Brooklyn, Bushwick & New Lots	June	29, 1853		wunamshurgh and New Lots	Allowed to build Horse R. Road, for 21 years.

### CORPORATIONS.

Corporations were generally formed under special acts until the adoption of the Constitution of 1846, which directed that general laws should be passed for this purpose, and forbade special legislation, except for municipal purposes and in cases where the purpose to be attained could not otherwise be effected. The Legislature has power to alter and repeal the powers of any corporation formed under the general laws. The articles of association or declaration of intention must in all cases be filed in some office of record specified in the general acts; and limitations of time, capital, and location must be specified. The stockholders of the more important classes of corporations are personally liable to an extent equal to the amount of stock owned. Under the present Constitution, general acts of incorporation have been passed for a variety of purposes, all of which belong to one of 4 general elasses.1

Class I. includes those whose articles are filed in the office of the Secretary of State.

- 1. "An Act to provide for the Incorporation of Companies to construct Plank Roads and Turmpikes."22
- 2. "An Act to authorize the formation of Companies for Mining, Mechanical, and Chemical Purposes' was passed Feb. 8, 1848.3
  - 3. "An Act to authorize the formation of Gas Light Companies" was passed Feb. 16, 1848.

1 Constantom, Art. VIII, Revised Statutes. Previous to 1846, pairing mostly been abandoned and divided into read districts general laws existed for the organization of religious societies, (1784;) colleges and academies, (1787;) public libraries, (1796;) but generally neglected to do so; and few general statistics are medical societies, (1862) manufacturing companies, (1811;) banks, (1838;) and agricultural societies, (1819, 1841.)

2 Several hundred of these corporations were formed and to report; and statistics concerning them cannot be obtained, several thousand miles of plank road built in 1848-52. It is probable that less than 5 per cent, of these are now in use, operation.

4 Gus Light Companies. A \* indicates companies not in operation.

3 These associations were chiefly limited to the vicinity of New York numbering 12 in New York co., about 49 in Kings co., with a t-w in queens, Richmond, and Westchester. Their operations consisted in raising money by subscription of the members, to be loaned to that member who would allow the highest premium,—the avowed intention being to afford to people of humble means the opportunity of securing for each a home. This should full our furnithments the description of the control of th ble means the opportunity of securing for each a nome. This subsurd fallacy found multitudes of dupes; and in the competition should fall for the amount loaned. The mode of appropriating loans varied. It appeared in evidence before the legislative committee of 1855 that in one instance it was as follows:— The committee of 1855 that in one instance it was as follows:— The

names of all the shareholders who are not more than four weeks in arrear are put in the end of a quill, and all put into a bottle; the whole is then shaken and the unit of a quift, and all put into a bottle; the whole is then shaken and the unit which first comes out or reversing the bottle has the right to the appropriation." Nearly or quite all of these associations have been abundantly a lew outly being kept together by the complexity of their interests and obligations, which are not readily adjusted. A statement

- 8. "An Act for the Incorporation of Companies formed to Navigate the Ocean by Steamships" was passed April 12, 1852.1

Exclusive individual and corporate rights for steam naviga-tion upon the waters of this State have been granted under special acts, as follows:—An act was passed March 19, 179; act was passed March 27, 1798, granting to Robert R. Livingston the sole right of navigating by steam for twenty years, con-granting to John Fitch the sole right of steam navigation in the waters of the State for a period of fourteen years. Having

Capital reduced to \$270,000 Jan. 15, 1859.
 Charter expired April 11, 1858. The first steamboat on Lake Champlain was in 1810.

<sup>·</sup> Merged in the Ontario & St. Lawrence Steamboat Co. in 1848.

d Charter expired April 11, 1838, Charter limited to 20 years. Reincorporated April 12, 1842, f Merged in the Ontario & St. Lawrence Steamhoat Co. in 1848.

g Merged in the American Steamboat Co. in 1858.

12. "An Act for the Incorporation of Associations for Improving the Breed of Horses" was passed April 15, 1854.

13. "An Act to facilitate the formation of Agricultural and Horticultural Societies" was passed June 8, 1853, and amended April 15, 1855.2

Class II. includes all those whose certificates are required to be filed in the Comptroller's office

1. "An Act to provide for the Incorporation of Life and Health Insurance Companies, and in relation to Agencies of such Companies," was passed June 24, 1853.3

2. "An Act to provide for the Incorporation of Fire Insurance Companies" was passed June 25, 1853.4

1 The following companies have been formed under this act:-

Names.	Place.	When	formed.
Fashion Association	Newtown	May	29, 1854
	Goshen	July	01, 1855

<sup>2</sup> For Table of Agricultural Societies, see pp. 102, 103.

privilege was extended two years, March 29, 1799, to enable Nicholos J. Rosevelt to complete experiments. By act passed in 1798, Robert R. Livingston and Robert Fulton secured the exclusive right of navigating by steam for a period of twenty years; and by an act passed April II, 1808, an extension of five years was granted for each new boat—the whole time, however. not to exceed thirry years. This monopoly was contested in the State and Federal Courts, in a suit begun in 1819, and finally decided in the Supreme Court of the U. S. in Feb. 1824. 

3 These companies report annually to the Comptroller. of them is given in the general list of Insurance Companies.

<sup>4</sup> Those companies were formerly created by special acts-generally for periods of 20, 21, or 30 years. Until about 183-Until about 1834 they were almost invariably upon the joint stock principle. For many years this class of investments was considered extremely many years this class of investments has considered accessed and large dividends were often paid to the stack-holders. The great fire in New York in Dec. 1835, proved a heavy disaster to almost all the Insurance companies then formed, and many of them were prostrated by it. This event soon led to the formation of Mutual Insurance Companies in almost every county in the State; most of these companies have since become insolvent. A graphic and truthful statement of the operations that ruined these companies is given in the Comptroller's Report on Fire Insurance Cos. of 1854. A general law passed April 10, 1849, provided for the incorporation of these companies, under which risks of every kind might be taken. The frands perpetrated under this system rendered a revision indispensable; and in 1853 two general laws were enacted,—one for the formation of companies for insurance of life and health, and the other against loss by fire, or inland navigation, and transportation. The articles of association (under the law of 1849, required to be filed in the Secretary's office) were, by

these acts, filed in the Comptroller's office, and general powers these acts, filed in the Comptroller's office, and general powers were conferred upon the Comptroller, with the view of protecting the public from any frands that might be attempted, and to seeme the equal and uniform operation of the laws relating to insurance. Annual reports are made to the Comptroller, and by him to the Legislature, under each of these laws. Marine Insurance companies are still filed in the Secretary's office, but are required to make no report.

Insurance companies formed under the laws of other States or countries cannot establish agencies in this State without first depositing with the Comptroller a certified copy of their charters, and of the vote or resolution creating the agency, a statement of their condition, and proof that their capital is equal to that required by the laws of this State, and, if a Life Insurance company, securities to the amount of \$100,000, for the lenefit of policy holders. Foreign Marine Insurance companies are required to pay 2 per cent, upon all prominus received by any agent; and a bond in the penal sum of \$1,000 is required of every agent of such companies for the payment of this tax. This tax was first collected in 1858, and 18 required of every agent of such collected in 1858, and amounted to \$3,742.55. Several companies are not required to report their statistics to the Legislature. The aggregate reports of Fire Insurance Companies for 1857 show the following results:-

Capital invested	\$16,731,010,00
Cash premiums received	= 6,051,304.87
Gross amount of income	7,577,872.62
Losses paid	= 2.898.166.11
Dividends paid	2,240,434.72
Taxes paid	= 243,062.79
Gross expenditures	-6,855,953.88
Unpaid claims	

The following tables comprise the companies which have been incorporated under special acts or the general laws of the State. Foreign companies authorized to transact business in the State are not included in the list:-

a Capital reduced from \$199.880.90 to \$87,536.45 by the great Troy fire of 1820. Life insurance taken away in 1831. Directed to close up by act of April 18, 1843.

Class III. includes those whose certificates are filed in the Banking Department.

"An Act to authorize the Business of Banking" was passed April 18, 1838, and was modified April 12, 1851, upon the creation of a Bank Department. Reports previously made to the Comptroller are now made to this Department. In 1853 the articles of association previously filed in the Secretary's office were transferred to this department.

Individuals or copartners may obtain bills from the department for circulation as individual bankers, and are liable to the full extent of their property for the redemption of the notes and the payment of the debts of such private banks. The name of individual banks must now be that of their

owners; and the privilege cannot be sold, or the bills be signed by an agent. It may, however, be

1 The first bank organized in the State was the Bank of New York, which had existed several years previously as a private partnership. In many of the earlier banks the State reserved the right of subscribing stock, and of appointing directors to represent their interest in proportion to the amount held. Banking powers could only be enjoyed by special act of the Legislature, and were commonly limited to a period of 30 years. In 1838 a general law was enacted, allowing the organization of associations for banking, upon depositing the requisite securities with the Comptroller and filing articles of association in the Secretary's Office. Up to the date of the general law, 106 banks had been created,—of which 31 are still in existence, 36 have

reorganized, and 39 have falled, closed, or changed their names. The Manhattan Co., created "for supplying the city of New York with pure and wholesome water," and the New York Dry Dock Co. possess perpetual banking powers. Other corporations for manufacturing or commercial purposes were allowed like privileges for limited periods, all of which have expired. In 1829 a "safety fund" was created, by requiring an annual contribution of \(\frac{1}{2}\) per cent. of its capital paid in from each bank formed or extended after that time, until each had paid 3 per cent. This fund was placed in charge of the Comptroller, and applied to the redemption of the bills of insolvent banks contributing to this fund, after their other means had been ex-

bequeathed. All banks, excepting those in New York, Brooklyn, Albany, and Troy, must have an agency in New York, Albany, or Troy, for the redemption of their bills within one-fourth of one her cent. of par.

hausted. The bank fund has long since been exhausted, the naisted the bank final has long since forch exhausted, the draft upon it far exceeding the income. In 1948, II has death banks, that had contributed but \$96,292 to this fund, had drawn from it \$2.577,927,—Completeller's Report, 1948, p. 55.

The same I we provided for the appointment of 3 Bank Commissioners who were required to visit the banks thrice annually.

to ascert on their condition, take measures to secure the public against fraud or loss, and report unnually to the Legislature. This office was abolished April 18, 1843, and the Comptroller was my, sted with general powers relating to banks, from which he was relieved by the creation of a special Bank Department in This department is under a superintendent appointed by overher and Senate for 3 years. It has the custody of all the Governor and Senate for 3 years. It has the custody of all plates for printing bank bills; registers, numbers, and issues to banks such balls as their charters and securities entitle them to; destricts the same when withdrawn from circulation; and destroys the plates when the bank is closed. It appoints special agents for examining the condition of doubtful banks, directs prosecutions in heli di of the State, sells the securities of broken lunks to rejorm, their circulation, and reports the condition of banks to the Legislature annually. Banks can only obtain bills for circulation by depositing New York State or United States stocks bearing interest equivalent to 6 per cent., or bonds and mortgages of not over \$5.000 each upon unincombered improved lands at two-fifths value, exclusive of buildings, and bearing 7 per cent, interest. Closing banks, after calling m 90 per cent, of their

circulation, may withdraw their stocks or mortgages, and substitute cash for the redemption of the remaining 10 per cent. of circulation. Stockholders of banking associations are personally hable to an extent equal to their capital stock. Experience has shown that under our free bank system bonds and mortgages have realized but about 88 per cent, on the sum for which notes were issued, while the aggregate securities, including stocks, have almost always sold for more than enough to redeem the circulation based upon them.—Report, 1859, p. 8.

Bank Note Engraving is now done by a company, formed in 1858 by the union of most of the establishments previously ex-

isting.

The Bank of the United States had branches for discount and

deposit at New York, Utica, and Buffalo, in this State.

Specie payment has been generally suspended three times by Specie payment has been generally suspended three times by the banks of New York State. In the fold of 1814 all the banks of the Union, except those of New England, suspended until the spring of 1817. In May, 1837, there was a second suspension, which continued until the spring of 1838. On the 13th of Oct, 1857, a third suspension took piece in all the banks of New York City, with one exception, (Chemical Bank), and this was soon followed by the banks of the State generally; but specie payment was resumed in about 60 days. payment was resumed in about 60 days.

The following tables, derived from returns in the Bank Department, are corrected up to Jan. 1, 1859. The amount of capital is reported for Dec. 18, 1855:

Existing Banks in the State, Jan. 1, 1859.

Savings Banks are institutions intended to receive in trust small sums of money, generally the surplus earnings of the laboring classes, and to return the same with moderate interest at a future time. They are banks of deposit only; their officers serve without pay, and the money received on deposit can be invested only in mortgages upon real estate, public stocks, or such other securities

as may be approved by law. They can be organized by special act of the Legislature, and their charters are perpetual. The total number of savings institutions incorp. prior to 1859 was 75, of which 57 reported their statistics in 1858. They are placed under the care of the Superintendent of the Banking Department, who has general powers for the protection of the interests of depositors, and is required to report their condition annually to the Legislature. Most of these institutions bear names closely resembling those of banks of discount and circulation, and are kept in the same building and have the same persons as officers of both.

Class IV includes those whose certificates are filed in the County Clerks' offices. Most of the corporations already described are required to file their articles in the clerk's office of their respective counties, in addition to depositing them in the departments of the State Government.

- "An Act to provide for the Incorporation of Religious Societies" was passed April 6,
- "An Act authorizing the Incorporation of Rural Cemetery Associations" was passed April 27, 1847.
  - "An Act to provide for the Incorporation of Villages" was passed Dec. 7, 1847.3

<sup>1</sup> The first savings bank in England was formed in 1804, and the first in New York in 1819, under the auspices of the "Society for Prevention of Pauperism." A public meeting was called and the plan discussed and approved Nov. 29, 1816. The first deposits were made July 3, 1819, and \$2,807 were received the first on viting from \$3 denoration in superforms of them for the second production of the second productions of the second production of within 6 mo., \$153.378.31 had been deposited, by 1.527 persons, and but \$6,696 had been withdrawn. Up to 1857, \$47,539,007.61 had been intrusted to the care of this institution .-Council Minual, 1858, p. 623.

The first savings bank in Albany was established in 1820;

in Troy, in 1823; in Brooklyn, in 1827; and in Buffalo, in 1836 Most of these banks were originally required to report to the Legislature; but their returns were seldom published. Under the act of March 20, 1857, they are required to report to the | the incorporated villages of the State.

Superintendent of the Banking Department. Sixteen savings banks have been incorp, that never organized. Only two of the whole number chartered have ever failed. The "Knicker-bocker Savings Institution," of N. Y., incorp. April 8, 1851, failed and went into the hands of a receiver in 1854; and the "Sixpenny Savings Bank of Rochester," incorp. July 13, 1854, filled. failed.

2 This act was amended, so far as it related to the Ref. Prot. D. Societies, March 7, 1783. Other amendments were made in 1801, 1813, and 1828. For statistics see p. 139.

\*\*Previous to this act, villages were incorp. by special acts of

the Legislature, and the articles were filed in the State Department: but since, the filing of articles has become a mere local affair; and it is extremely difficult to obtain a complete list of

## AGRICULTURE.

The climate of the State is adapted to the cultivation of most of the crops and fruits of the temperate zone. The improved lands comprise a little more than one-half of the entire area of the State, and of these 37 per cent, is devoted to pasturage and 25 per cent, is occupied by meadow lands. The principal crops, in the order of relative amount, are oats, corn, wheat, buckwheat, rye, and barley, together occupying 37 per cent. of the cultivated lands,—leaving I per cent. for the minor crops and gardens. The northern cos. of the State and the highland regions along the s. border and upon the Hudson are much better adapted to pasturage than tillage; and the people in these sections are almost exclusively engaged in stock and sheep raising and in dairying. Little more grain is raised than is strictly necessary for a proper rotation of crops; and the greater part of the grain for home consumption is imported from other sections of the country. The low lands that surround the great lakes and occupy the greater portion of the surface in the w. part of the State are best adapted to grain growing. Several sections of the State are found peculiarly adapted to particular products. The Mohawk Valley intervales have been long almost exclusively devoted to the cultivation of broom corn. The Chemung Valley, parts of Onondaga co. and several other sections are becoming known as tobacco raising districts. Hops are extensively cultivated in Madison, Oneida, Otsego, and Schoharic cos. The Hudson Valley below the Highlands, the N. shore of Long Island, and the s. extremity of several of the lake valleys in the central portion of the State are well adapted to the culture of grapes. Maple sugar is largely preduced in the northern cos, and in the central highland districts. Upon Long Island and in Westchester large sections are devoted to the cultivation of vegetables for the New York market. The people of Orange, Rockland, Westchester, Putnam, and Dutchess cos. are largely engaged in furnishing the city of New York with milk.1

The New York State Agricultural Society was formed by a convention held at Albany in Feb. 1832; but for several years it received no support from the State and held no regular fairs. In 1841 the society was re-organized, and measures were adopted for raising funds and holding annual fairs. On May 5 of that year, an act was passed by the Legislature, appropriating \$8,000 for the encouragement of agriculture, \$700 of which was to go to the State Society, and the remainder was to be divided among the co. societies in the ratio of Assembly representation. This appropriation has been continued until the present time. The society is required annually to report to the Legislature a full account of its proceedings, and such facts concerning the agricultural condition of the State as may be of general interest. The volumes of Transactions are published by the State, and are widely distributed among the farming population. The annual fairs are held in different parts of the State, and are largely attended. They usually succeed in

1 Hay is most largely produced in 8t, Lawrence, Oncida, Chemango, Otsero, Chantanqua, Delaware, and Orange counties; wheat, in Livingston, Monroe, Genese e, Niagara-Ontario, and Jefferson counties; eats, in Onondaza, Wontgomery, Oncida, Cayuga, and Otsego; rye, in Columbia, Rensselaer, Ulster, Orange, Albany, Saratega, and Washington; harley, in Jefferson, Onondaza, Ontario, Cayuga, and Wayne; bucks) theat, in Scholarie, Montgomery, Otsego, Saratoga, and Troga; corn, in Onendaga, Cayuga, Mouree, Wayne, Oneida, and Ontario; and potatoes, Messhington, Mouroe, Oneida, St. Lawrence, Rensselaer, and Franklin. The counties having the greatest number of cows are St. Lawrence, Jefferson, Oneida, Orange, Chemango, Herkiner, and Chantanqua; and the greatest number of sheep, Ontario, Livingston, Stenhen, Cayuga, Washington, Wyoming, Mouroe, and Genesee. The counties that produce the greatest quantity of butter are St. Lawrence, Delaware, Chemango, do ferson, Chantanqua, Orange, and Otsego; and the greatest amount of cheese, Herkimer, Oneida, Jefferson, Madison, Etre, Cattarnupus, St. Lawrence, and Orsego.

2 The earliest agricultural exhibition on record within the present limits of the State was a cattle fair, held at New Amsterdam, Oct. 15, 1941. An act passed Nov. 11, 1692, entitled "An act for settling fairs and markets in each respective city and co. throughout this province," remained in torce until repealed by the State Legislature, March 12, 1788. A special act was passed for the fairs of Albany, Cumberland, and Tryon cos, March 8, 1775, but scarcely took effect before the Revolution. Acts applying to particular towns were passed by the earlier State Legislatures; that the custom of holding fairs soon fell into district. These fairs were more properly market days; no positions were offered, and no inducements to competition existed beyond the ordinary stimulus of trade. The products of tarm culture being placed side by side, their comparative excellence was left to the decision of the purchaser, which doubtless contri-

buted to excite combation among the producers. These fairs were generally held semi-annually, upon fixed days, under the direction of "Governors and Rulers," appointed in colonations by the Governor, and afterward by the judges of the cocourts. The expenses were defrayed by tells, usually 1 per cent, upon the commodities sold, half of which was paid by the hayer and half by the seller.

The Society for the Promotion of Agriculture, Arts, and Manufactures was instituted Feb. 26, 174, and incorp. March 12, 1703. For more efficient action, it in 1801 divided the State into as many agricultural districts as there were cos., in each of which a secretary was appointed, to convene the members of the society within his district, inquire into the state of agriculture and manufactures, receive communications and arrange and transmit them to the President of the society. The transactions of this body were printed by the State, and the society numbered among its members nearly every person of eminence throughout the State. Its charter explied in 1804; and its coporate powers were revived and continued April 2 of that year, under the name of the Society for the Promotion of the Useful Arts. The alkairs of the new body were managed by a council of 9 members, and State patronage was continued by the coincil of members, and State patronage was continued in the printing of its Thursactions. In 1808-12 liberal premiums were offered for the less tolths of household manufacture, a part of which were awarded by the co, indge and a part by this society. The samples, upon which \$10,000 were thus paid, are still preserved in the Inbury of the Albany Institute. After being once extended, the Society for Promoting Agricultural Arts was superseded, in part, by a Board of Agriculture, last confined as a local institution of Albany until merged, with the "Albany Lyceum of Natural Habory," in the "Albany Institute," in 1829. The latter has most of the books, papers, and effects of its prodecessors; and tracing back through its change it is the oblest scientific society in the State, "An act to improve the agriculture of this State,"

awakening a great local interest in agricultural matters. The office of the society is kept at the Agricultural Rooms, corner of State and Lodge Sts., Albany, where it has a museum and library.

County and Town Societies.—The act of 1853 allows county agricultural societies to purchase and hold real estate to an amount not exceeding \$25,000 and personal property not exceeding \$1,000, for the purposes set forth in their articles of incorporation, and for no other purposes. Town and other societies may hold real estate to the amount of \$10,000 and personal property to the amount of \$3,000. Each county or union society must have at least one director or manager for each town; and each town, village, or city society must have not less than 10 directors, who are elected annually by ballot. Upon application of two-thirds of their members to the Supreme Court of the district in which they are located, these societies may obtain an order for the sale of a part or the whole of their property. An amendment to the act was passed April 13, 1855, by the provisions of which the number of directors was changed to 6, 2 of whom are elected each year for a term of three years. Any person may become a life member by the payment of a sum not exceeding \$10; and the officers are jointly and severally liable for all debts due from the society contracted while they are in office, if suit be commenced within one year

passed April 7, 1819, created a board of agriculture and appropriated \$10,000 annually for 2 years, to be distributed for the promotion of agriculture and family denastic manufactures in the several cost, on condition that a similar sum should be subscribed by the co, societies termed under this act. A beard, formed of the president, or a delegate chosen from each co, society, met annually at Albany, elected efficers, examined reports, and selected for publication such returns as they deemed proper. These were published by the State. Three volumes of Memorrs were issued, and the board continued in existence but little longer than the appropriation was continued. County societies, on the plan of the Berkshire Co. Agricultural Society, began to be formed in 1817; and, by the excitions of be Witt Chrion, Elkanah Watson, and other friends of the measure, they were extended to most of the cost. These societies, after a brief period, fell into disuse; and that of Jeflerson co, is the only one of this chas that can trace an unbroken descent from that period.

The first officers of the present State Agricultural Society, formed in 1832, were Le Ray de Chammont President; E. P. Livingston, Jacob Morris, and Robert L. Rose, Vice Presidents; P. S. van Rensselaer, Recording Secretary; Jesse Eucl, Corresponding Secretary; Charles R. Webster, Transver; and H. W. Dehavan, John Townsend, and H. Hickox, Executive Committee, County societies were again instituted in many of the cos, under the influence of this society; but most of them were short lived. The "Cultivator" was begun in March, 1834, by Josse Buel, under the gnarantee of Stephen Van Rensselver and James Walsworth, as the organ of the society and medium of communication between the friends of agriculture; and if has been continued ever since, under private auspices, but entirely devoted to the interests of agriculture. It has for many years been pub-

to the interests of agriculture. It has for many years been purlished by Luther Theker, of Albany.

Any jerson a citizen of the State may become a member of the State Society upon payment of \$1 annually, or a life member by payment of \$10 at one time. Presidents of co. societies and one delegate from each are exollicio members. The officers of the society are elected annually in Feb, and consist of a

President, one Vice President from each of the Judicial Districts, a Recording and a Corresponding Secretary, a Treasurer, and an Executive Committee, consisting of the above and 5 others closen for the purpose.

Premiums are awarded in meney, plate, medals, books, and diplemas; and the society embraces within the field of its patronage not only stock, farm, and garden products and implements of husbandly, but a wide range of useful and ornamental manufactures, particularly those which are the products of home industry. The places and times of holding the State fairs, names of Presidents, and total receipts of the State society have been as follows:—

# MANUFACTURES.

The manufactures of the State are very extensive, embracing an almost endless variety of articles. In many sections the manufacturing interests surpass those of agriculture or commerce. The lines of internal communication through the State have greatly facilitated the spread of manufactures; and now flourishing establishments are found in nearly every part of the State.¹ The most im-

<sup>\*</sup> Manufacturing Establishments in the several Counties, as reported by the State Census of 1855.

portant and extensive manufactories are those of iron and machinery, leather, articles of wood, and cotton and woolen goods. Such articles as relate to the professions and fine arts, to books, maps, and engravings, and to the heavy machinery used in ocean steamships, are principally manufactured in New York City and its suburbs. Immense quantities of brick are manufactured on the Hudson for the New York and Southern markets. Lime, waterline, and gypsum are largely manufactured on the Hudson and through the center of the State; and iron ware is produced in large quantities in the iron districts of Essex. Clinton, Dutchess, Orange, and Oncida counties. Details of the principal manufacturing establishments are given in the statistics of the cities or towns in which they are located.<sup>1</sup>

The returns of manufacturing establishments from many counties are quite unsatisfactory, as an examination of the table will thow. It is to be hoped that the next course will be more complete in this particular.

### COMMERCE.

The position of New York in the confederacy of States gives it peculiar facilities for maritime affairs, and through its various ports a large proportion of the foreign and internal commerce of the nation is earried on. This commerce extends to every accessible port in the world, and in amount and variety excels that of all the other States of the Union. It is regulated by acts of Congress; and the revenues arising from duties upon articles imported are collected by officers appointed by the President and Senate, or subordinate to those thus appointed. These officers are accountable to the U.S. Treasury Department.

Collection Districts.—The Federal Government has established 11 Collection Districts within this State for the collection of these revenues. Each of these has one port of entry, in charge of a collector, and several ports of delivery, at which one or more deputy collectors, inspectors, or other officers reside. The number of officers employed in collecting these revenues in New York City and its dependencies is nearly 800. Duties on foreign importations form much the largest item of revenue for the support of the General Government, and those collected at the port of New York form the largest part of the whole amount. The absolute and relative amounts of moneys collected from this source in the United States and State of New York have been steadily increasing. except as influenced by pecuniary embarrassments; and now the former amount to about \$60,000,000 annually.2

#### <sup>1</sup> Collection Districts in New York.

District.	Date o Establish		Principal Office,	Subordinate Offices.
Sag Harbor	July 31,	1759	Sag Harbor	Greenport.
New York City	July 31,	1780	New York	Albany, Troy, Cold Spring Harbor, Port Jefferson.

The amount of revenue from duties varies with the amount The amount of revent's room entrox varies with the amount of family, and the sum thus collected becomes a very more range measure of the amount of commerce. The present tarriff was adopted March 3, 1845, and admits a large class of goods free of daily. The system of bunding, introduced in 1846, permits goods to be stored in Government warehouses until re experted or sold, before the payment of duties is required. The state Government took early measures for establishing custom houses and them took carry measures for establishing custom nonsestant regulating duties upon foreign importations. By an act of Nov. 18, 1784, Sag Marbor and New York were made ports of entry and delivery, and efficies were appointed by the Gover or and Council of Appointment at cach. The reductance of New York to part with these revenues led to much delay in her ratifying the Confession of the U.S. by which known programs are Constitution of the U.S., by which her revenues were sur rendered to the General Government.

The Foreign Trade of New York from 1700, although fluctuating considerably, has exhibited a general progressive increase. The commerce of the country was suspended during the Revolution; and no statistics of its amount have been preserved during the period in which the States formed each an independent sovereignty under the Confederation. The amount of imports has been reported separately by States only since 1821.

**Tonnage.**—The size of registered American vessels engaged in foreign trade has been steadily increasing, and has more than doubled within twenty years. Steam vessels were first enrolled in 1823 and first registered in 1830. They now form 12 to 15 per cent. of the total amount of tonnage.

Steamboats applying for registry, enrolment, or license must be inspected under the direction of a Board of Supervising Inspectors. The United States is divided into 9 Supervising Districts, the 24 of which includes the seaboard and the 9th the lakes of New York. Steamboats are required to be well guarded against fire, to have suitable pumps worked by hand and by steam, at least two boats, and large steamers more, in proportion to their tonnage, (except upon rivers,) one life preserver to every passenger, and a certain number of floats, and fire buckets and axes. Their boilers, engines, and hull must be examined and approved by inspectors appointed by the Collector, the Supervising Inspector for the district, and the Judge of the U. S. District Court; and every requirement of the law must be found complied with. Pilots and engineers on steamers must be examined and licensed by the Inspectors. The present steamboat law was passed Aug. 30, 1852.<sup>2</sup>

The Coasting Trade of the United States is entirely restricted to American vessels, and the share belonging to New York is very great; but from the want of official returns it cannot be definitely ascertained. Unless carrying distilled spirits or foreign goods, these vessels are not required to report their entrance and clearance; and, as they oftener leave than arrive with these articles, the number of clearances reported is disproportionately high.

The affairs of commerce relating to police, sanitary, and municipal regulations are governed by

the laws of the State, and their care is intrusted to officers appointed under its authority. These officers are divided into several classes, each of which has charge of a particular department.

- 1. The Board of Commissioners of Pilots consists of 5 persons,-3 elected for 2 years by the Chamber of Commerce, and 2 for a like term by the presidents and vice-presidents of the marine insurance companies of N. Y., composing or representing the Board of Underwriters in that city. This Board appoints a secretary, has an office, meets once a month or oftener, and licenses, for such term as it may think proper, as many pilots as may be deemed necessary for tle port of New York.1
- 2. The Board of Mealth of New York is composed of the Mayor and Common Conneil of the city.2
- 3. The Commissioners of Health are the President of the Board of Aldermen, the Health Officer, the Resident Physician, the Health Commissioner, and the City Inspector.
- 4. The Health Officer, appointed by the Governor and Senate, is required to board every vessel subject to quarantine or visitation, upon its arrival, to ascertain whether infectious diseases are present, and to obtain, in such case, the facts necessary to determine the period that such vessel must be detained.3
- 5. The Physician of the Marine Hospital is appointed by the Governor and Senate. He appoints as many assistants as he may find necessary. His salary is \$5,000, and is paid by the Commissioners of Emigration.
- 6. The Resident Physician for the city and county of New York is appointed by the Mayor and Common Council. He is required to visit all sick persons reported to the Board of Health, or to the Mayor and Commissioners of Health, and to perform such other professional duties as the Board may require.
- 7. The Health Commissioner, appointed in like manner, is required to assist the Resident Physician.4
- 8. The Quarantine Hospital is located in the town of Castleton, in Richmond co.; and vessels detained on account of infectious diseases are anchored in the adjacent waters, or, in sickly seasons, in the lower bay.5
- Harbor Masters are appointed by the Governor and Senate, for the purpose of assigning piers and other stations for landing and receiving cargoes.6
- 10. The Port Wardens of the Port of New York are appointed by the Governor and Senate, for the purpose of inspecting vessels and the stowage of cargoes and of estimating all damages to the same. They consist of a Board of 9 members, one of whom must reside in Brook-

In June, 1858, there were, of small vessels under 20 tons licensed for the coasting trade, 189.21 tons at Sag Harbor and

heensed for the coasting trade, 189.21 tons at Sag Hartor and 71.25 tons at Greenport.

1 The licenses thus granted may express different degrees of qualification, appropriate to different branches of duty, and may be revoked at pleasure. Candidates must sustain a satisfactory examination and be found of good character and temperate that it. The proposed species had been the first before the state. They must also give bonds for the faithful discharge manns. They must also give couns for the rational distinction, their duties. The board has power to regulate pilotage; and the fees of pilots are fixed by law. The masters of vessels of under 300 tons, owned by a citizen of the U. S. and heensed in the consting trade, need not employ a pilot unless they prefer. If the master of a vessel of from 150 to 300 tons, owned and the master of a vessel of from 150 to 300 tons, owned and heensed as above, he desirons of piloting his own vessel, he may obtain a license from the Commissioners of Pilots for such purpose. All masters of foreign vessels and vessels iron a foreign port, and all vessels salling under register by way of Sandy Hook, are required to take a heensed pilot, or, if they prefuse, they must pay the pilotage to the pilot first offering his services. Pilots because the pilotage to the pilot first offering his this. Candidates for recommendation as Hellgate pilots must have served an apprentieeship of 3 years, and until they attain the age of 21 years, must have served 2 years after as deputy pilots and sustained repeated examinations before the Board of Wardens in the presence of at least 2 Hellgate pilots.

The first act regulating the pilotage of New York was passed under rules and penaltics established by the Colony or State of Sandy Hook were repeated in 1845. The present law was of Sandy Hook were repeated in 1845. The present law was ensected in 1853 and amended in 1854-57. The pilots belonging

Enrolled Tonnage of the U. S. engaged in the Coasting Trade for different periods.

| Upon steamboats are licensed by inspectors appointed under the Treasury Department of the U. S. Those employed in conducting vessels by way of Sandy Hook are licensed by the Board of Commissioners of Pilots; and those by way of Hellgate, by the Governor and Senate, upon recommendation of the Board of Wardens.

2 Boards of Health are by law created in every city, incor-

porated village, and town, under an act of 1850; but the greater number of these have never acted officially. In towns the Supervisor and Justices of the Peace are a Board of Health, and may appoint a physician as health officer .- Revised Statutes, 5th

Edition, 11, p. 53.

The Health Officer resides at quarantine, has general direction of the location of vessels detained, their purification, and

tion of the location of vessels defained, their purification, and the discharge of their cargoes, and other duties connected with the health of vessels in quarantine. He is paid by fees, and reports to the Mayor or Commissioners of Health.

4 This other receives all moneys applied to the Marine Hospital, and pays all denoteds against the same that shall have been approved by a majority of the Commissioners of Health. He reports his accounts monthly to the Board of Health, gives a bond of \$20,000 for the faithful discharge of his duties, and receives a salary of \$3.500, to be paid by the Commissioners of Emigration. The Beard of Health may from time to time appears as many visiting, hospital, and censulting advictions as point as many visiting, hospital, and consulting physicians as

lyn, and 3 must be nautical men. They choose one of their number President, appoint a Secretary, use a seal, and keep an office. They are exclusive surveyors of vessels damaged or wrecked, or arriving in distress, and, when called upon, judge of the fitness of vessels to depart upon voyages. They are also, upon application, required to estimate the value or measurement of vessels when the same is in dispute or libeled; and they may examine goods in warehouses that have been damaged on shipboard. The Board, or some member thereof, must attend all sales of vessels or their eargoes condemned and in a damaged state; and such sales by auction must be made under the direction and by order of the Wardens, and are exempt from auction duties.1

The Commissioners of Health are authorized to collect of the masters of every vessel entering the port of New York a certain tax, for the benefit of the Health Office.2

The Board of Commissioners of Emigration, consisting of the Mayors of New York and Brooklyn, the Presidents of the German Society and Irish Emigrant Society, and 6 Commissioners appointed by the Governor and Scnate, have charge of the interests of immigrants when they first arrive at New York.3

The Marine Court of the City of New York has jurisdiction in civil cases arising between persons engaged in maritime affairs, where the sum in dispute does not exceed \$500.4

Canadian Trade.—The revenues collected on the Canada frontier, in some periods, have fallen short of the cost of collecting them. The Reciprocity Treaty of 1854 admits the greater part of articles the produce of the U. S. and B. A. into each country respectively free of duty.5

1 The Wardens are paid by lees and percentages appropriate Special Wardens are appointed to reside at quarantine. They report to the Board of Wardens of N. Y., and have jurisdiction. The Board of Wardens of the grant possels detained in quarantine. The Board 1 The Wardens are paid by fees and percentages upon sales. report to the board of wardens of N. 1, and note infision on as wardens over vessels detained in quarantine. The Board of Port Wardens reports annually to the Comptroller a statement of its receipts and expenses, with an aftidavit of each member and of the Secretary that they have not received directly or indirectly any moneys except their legal fees.

2 Under an act passed in March, 1801, the amount of this tax was fixed at \$1.50 for every cabin, and 75 cts. for every steerage passenger, mate, and mariner. In 1813 the tax was fixed at \$1.50 for every captain and cabin passenger; \$1.00 for every steerage passenger and mariner of foreign vessels; and 25 cts. for master, mate, and sailor of every coasting vessel. The moneys thus paid, after supporting the Marine Hospital at Quar-antine and contingencies and yielding \$8,000 annually to the Society for the Reform of Juvenile Delinquents, was invested by the Comptroller as the "Marine Fund." In 1831 the Board of Frustees of the Scamen's Fund and Retreat was created, under Abose direction the present establishment known as the "Sca-neu's Retreat," on Staten Island, more particularly described on page 50s, has since been managed. Of the 44,932 admitted up to Jan. 1, 1859, 80 per cent, were discharged cured, 8½ per ent, were relieved, 3 per cent, were discharged by request, and

2011, were renewed, o per cent, were accounted by Alp per cent, died.

3 The master of every vessel bringing passengers from foreign countries must give a bond of §300, conditioned that such persons shall not become chargeable for support within 5 years. They may commute this hond by paying §2 upon each passenger, of which sum 4 is set apart for the countries ofter than N.V. toward the support of emigrants in the several counties. For every lunatic, idnot, deaf and dumb, blind, manned, or infirm erson, and every widow with children, or person over 60 years of age, and liable to become a public charge, a bond of \$500 is

The Commissioners of Emigration have a large establishment on Wards Island for the support of the sick, infirm, and destitute, and have leased Castle Garden as a general landing place. Emigrants may here purchase tackets for any part of the Union, and procure such articles as they may stand in need of, without encountering the horde of faithtess agents and mercenary runners that formerly proved the scourge of munigra-tion and the disgrace of the city. The Marine Hospital at

Quarantine was placed under these Commissioners in 1847. See pages 116, 427, 565,

4 These actions may be for compensation for the performance, or damages for the violation, of a contract for services on board or damages for the Wolation, of a contract for services on near a vessel during a voyage performed in whole or in part, or intended to be performed, by the vessel; or for assault and lattery, false imprisonment, or other injury committed on beard a vessel upon the high seas, and not coming within the jurisdiction of the U. S. Instrict Courts. The Marine Court is held duly, except on Singley and holdays; and its Justices, three in number of the superformer of the property of the superformer of the super ber, are elected for a term of 4 years, and enter upon their duties on the second Tuesday of May after their election. Their Clerk is appointed by the Supervisors, and their salary is fixed by the Common Council and cannot be increased during their term of office.

The State Government, before the adoption of the Federal Constitution, had instituted a court of Admiralty; but in 1789 it surrendered these powers to the General Government, and they have since been exercised by the District Court of the U. S.

they have since near exercised we the instruct control the c.s. Suits for salvage, and other questions arising in the sale of wrecked property, are decided in this court.

The Governor appoints 15 Week Masters in Suffolk, 12 in Queens, 3 in Kings, 2 in Richmond, and 2 in Westchester cos. These officers have, with coroners and sheriffs, the custody of very classical property cost achieve by the sec. Such property wrocks and property east ashore by the sea. Such property belongs to the owners, and may be recovered by paying reasonabb salvage and in due course of law.

As the only avenue to the sea which Canada possesses is closed by ice during about five months in the year, the foreign trade of that country in winter must seek other avenues; and, from the acknowledged superiority of New York as a commercial point, a large part of the trade is through that port. Over half the vessels that arrive in Quebec come in ballast; while none leave port without eargoes of timber or other commodities of the country. This renders the outward freights disproportionately high; and, although vessels may load in the upper lakes and pass without transhipment down the St. Lawrence, the difference of ocean freights makes it cheaper to send by the eanals to New York.

The number of vessels and amount of tonnage employed upon the great lakes have been rapidly increasing for the last 10 years. In the several collection districts of this State, the ratio of increase has been much greater in ports where railroads terminate.1

Arrivals and Tonnage of the several Districts bordering upon Canada during a series of nine years.

The above indicates but a part of the commerce of these dis- | not entered upon the custom honse books is much larger in tricts. It is probable that the amount of coasting trade which is | each district than that here given.

The canals and rail roads of Canada terminating upon our frontiers are intimately connected with the commercial prosperity of this State; and a notice of their extent and capacity is necessary to a full understanding of our commercial possibilities.1

Custom Houses have been erected by the General Government at New York, Plattsburgh, Oswego, and Buffalo; and a site has been purchased at Ogdensburgh. These edifices are built of stone, fireproof, and are generally fine specimens of architecture. Efforts have been made to secure the erection of similar buildings at Rochester, Sackets Harbor, Albany, Brooklyn, and Sag Harbor, but so far without success.2

1. The Welland Canal extends from Port Colborne, on Lake Erie, to Port Dalhousie, on Lake Ontario. It has a feeder branch to Dunusville, on Grand River, and another from the feeder to Port Mailland. It passes sloops, scheeners, and propellers of a capacity of 400 tons. In 1856 its tolls amounted to \$261,568.13; in 1857 to \$232,437.38; and in 1858 to \$207,771.52.

The Ridean Const was built as a military work by the Home Government and transferred some years since to the Province. It extends from Kingston to Ottawa, most of the way along the channel of givers. Its total length is 126 miles. It rises from Kingston to the summit 165 feet by 13 locks, and descends to the Ottawa 232 feet by 34 locks. Its total cost was \$3,860,000. Ringston to the straint ros feet by 13 locks, and december the Ottawa 222 feet by 34 locks. Its total cost was \$5,860,000, The G-loppe, Point tropius's, Rapid Plat, Forrans Point, Cornwall, Beatharnois, and Lachine Canals extend around the rapids on the St. Lawrence. Steamers usually pass down the rapids, but must return by the canals and pay toll both ways. Sail vessels

pass both up and down by canal. These canals afford navigation down to Montreal, to which point ships come up from the sea. The total fall by river without locks is 2044 feet to Montreal and 13% feet thence to tide water at Three Rivers. of the St. Lawrence have been surveyed with the design of deepening them to afford a channel 200 feet wide and 10 feet deep, but nothing further has been done. These surveys make Lake Eric 5347 feet above tide. Chombly Canal extends from the foot of navigation on Lake

Champlain to Chambly Basin, and with a lock at St. Ours, upon Richhen River, completes the line of navigation from the lake to the 8t Lawrence. A ship canal has recently been proposed between these important navigable waters. The amount of tonnage on these canals, in which this State

is interested, is very large; and in the Welland Canal more than half the duties are paid by American vessels.

Statistics of the Business of the Canadian Canals for two years.

It has been proposed to build a ship canal from Lake Huron to Lake Ontario at Toronto, by way of Lake Simece, 80 nm. A cutting to allow Lake Simece to pass southward would not exceed 175 ft. in depth; and in the 8 mi, surveyed the principal obstacles would not average over 49 ft. It has been estimated that the cost for a canal 120 ft. wide at bottom, and 136 ft. at surface, 12 ft. deep. with 64 double locks 50 ft. wide, and 250 ft long, would be \$29,051,000, and that it could be constructed in 5 years.

Great Western Railway of Canada, from Suspension Brake to Windser, 229 mi., and thence by terry to betroit, was opened Mineson 225 min, and thence by letty to bettom was opened, Jan. 27, 1854. Branches extend from Hamilton to Toronto, 38 mil; from Harrisburgh to Guelph. 234 mil; from Proston to Berlin, 10½ mil; and from Kamoka, near London, to Port Sarnia, 60 mi.

Buffalo & Lake Huron Railway extends from Fort Erie, opposite Buffalo, to Goderich Harbor, on Lake Huron, 165 mi. Erie de Ontario Railway extends from Chiq pewa to Niagara, I7 miles,

Willand Railway, from Fort Dalhousie to Port Colborne, 27

mi., is on the eve of completion. and Trunk Railway of Canada extends from Portland, Me., and Quebec to Richmond, and thence to Montreal, Toronto, and Port Sarnia, at the foot of Lake Iluron. More than 700 mi. of this road are finished. A branch extends from Belleville to Peterborough, 50 mi, and others are proposed.

Ontario, Simcor & Huron Railway extends from Toronto to

Cellingwood, on Georgian Bay, 95 mi. Coburg & Peterborough Railway is 28½ mi. long, with privi-lege of extending to Marmora Iron Works.

Ottawa & Prescott Kailway extends from Prescott to Ottawa City, 54 mi.

Montreal & New York R. R. extends from Montreal to Lachine, 8 mi., and thence by ferry, 2 mi., always open, to Caughinawaga, the terminus of a road leading to Plattsburgh, 52 mi. This line is now united with the Champlain & St. Lawrence R.  $R_n$  from St. Lumbert, opposite Montreal, to Rouses Point, 44 mi : and the consolidated company is known as the Montreal  ${\bf G}$ Champlain Kail Road Co.

Marine Hospitals.—Since 1778, every American seaman has been taxed 20 cents per month for a Hospital Fund; and in return he is entitled in case of sickness to assistance and support from the revenues thus collected. This fund is in charge of the U. S. Government, and is entirely independent of the various State and private hospital funds of New York City.1

**Light Houses.**—The United States Government has erected 62 light houses, lighted beacons, and floating lights within the State of New York, for the benefit of navigation. Of these, 3 are npon the seacoast, 15 upon Long Island Sound, 4 within the Harbor of New York, 16 upon Hudson River, 3 upon Lake Champlain, 14 upon Lake Ontario and St. Lawrence River, and 7 upon Lake Eric. The Government has also erected broys, spindles, beacons, and other signals to indicate channels or to point out dangerous localities.2

The site for the New York Custom House was purchased Jan. | collection districts in the year ending June 30, 1858, was as 9, 1833, the building was completed Feb. 22, 1842; it is used for a custom house only. The site for the Plattsburgh Custom House was purchased Nov. 22, 1856, the building was completed May 18, 1858; it is used for a custom house, post office, and courthouse. The site for the Ogden-burgh Custom House was purchased Jan. 20, 1857, the building has not been commenced: it is designed to be used for a custom house, post office, and courthouse. The site for the Oswego Custom House was purchased Dec. 15, 1854, the building was completed Sept. 1, 1858; it is used for a custom house and post office. The site for the Buffalo Custom House was purchased Jan. 26, 1855, the building was completed July 12, 1858; it is used for a custom house, post office, and courthouse.

The Custom House in New York occupied before the present one was finished was creeted in 1816, at a cost of \$903,312.96, In 1850 the only custom house building in the State belonging to the United States was at New York City. On the 19th of Feb. 1857, the Federal Government purchased a site for stores at Atlantic docks, Brooklyn, for \$100,000; but as yet no use has been made of it.

1 The Federal Government has built 34 marine hospitals, none of which are in this State. Those entitled to aid are supported in this State in private families or local hospitals. The number of scauten relieved and supported in the several

fullows:-

Lifeboat Stations have also been established by the General Government upon the seacoast and great lakes. On the shores of Long Island and the adjacent islands are 30 lifeboat stations, the first of which were established about 1850. Each of these consists of a house, containing a lifeboat, boat wagon, life cars, mortar for throwing lines, and every fixture that could be used in affording aid to vessels in distress. The houses are furnished with stoves for warming them when necessary, and with fuel and matches for kindling a fire on short notice. They are each intrusted to a local agent, and are under the general care of a superintendent appointed by the Secretary of the Treasury. Their location is indicated on the map.

Coast Survey.—A survey of the coast, with soundings of its adjacent waters, was ordered by the General Government about 50 years since; but many years were necessarily employed in making preliminary arrangements. Active surveys were begun about 1832, and during the last 15 years they have been prosecuted with great effect. The triangulations of this survey are conducted with great precision, and extend up all rivers navigable from the sea as far as tide flows.

Light Houses, continued.

Besides the above, there are nine State lights established in 1856 in the marshy "Narrows" at the head of Lake Champlain. Big Sodus Beacon was destroyed in a gale in 1857.

A flashing light has been authorized at Crown Pojut.

There are lifeboats on Lake Ontario at Tibbetts Point, Sandy Creek, Salmon River, Oswego, Sodns, Genesce River, and Niagara River, which were supplied by the U. S. Government in the summer of 1854. Several have also been placed on Lake Eric. None of those on the lakes have been provided with houses, except such as have been erected by the persons having them in charge.

Immigration into the U.S. for many years past has been very great; but the proportion landing in New York has been less than the relative amount of trade. Other routes in some respects afford superior facilities for immigration. The large number of ships arriving in Canada without cargoes favors immigration to a great extent; and hundreds of thousands of immigrants have crossed into this State from Canada without their names ever appearing on the U.S. Government records. These immigrants have consisted chiefly of Irish and Germans; though there has also been a large number of English, Scotch, and Norwegians. The greater part of the immigrants either locate in the cities or immediately pass on to the wild lands of the West. The English and Scotch usually prefer to settle in Canada.1

Assay Office.—By an act of 1853, the Secretary of the Treasury was directed to establish an assay office at New York, for the special accommodation of the business of the city. At this place the owners of gold or silver bullion, or of foreign coin, may deposit the same, have its value ascertained, and certificates issued payable in coin of the same metal as that deposited, either at the office of the assistant treasurer in New York, or at the Mint in Philadelphia. The metal assayed may, at the option of the owner, be east into bars, ingots, or discs, of pure metal, or of standard fineness, and stamped with a device designating its weight and fineness. This office is nnder the general direction of the Director of the Mint, in subordination to the Secretary of the Treasury. The Assay Office is located on Wall St., adjacent to the Custom Honse, and is fitted up with every appliance for carrying on its operations upon a very extensive seale. Its lofty chimney, emitting dense, orange colored fumes of nitric acid, forms a conspicuous object in the district. About 50 men are employed upon the premises. Its officers are a superintendent, treasurer, assayer, melter, and refiner, with their assistants and clerks. The site of the Assay Office was bought Ang. 19, 1853, for \$553,000, and the premises were fitted up and completed Oct. 9, 1854, at a total cost of \$761,493.62.2

The Mail Service of the State of New York forms about 5 per cent, of the whole U. S. in miles, and 7 per cent. in cost, while the receipts from postage in this State amount to 22 per cent.

The Fisheries in New York, although considerable in amount, are quite subordinate to other branches of industry. The whale fisheries, formerly of great importance, are now chiefly limited to Sag Harbor, Greenport, and Cold Spring Harbor. The shores and bays of Long Island support great numbers of fishermen, and the product of their labor chiefly finds a market in New York City. The Hudson yields shad, sturgeon, and other fish in great quantities: and there are extensive fisheries upon the great lakes, especially near the E. end of Lake Ontario and in the waters of Chaumont Bay. The waters of Lake Champlain and the St. Lawrence formerly abounded in salmon; but, from the building of dams and mills, or other causes, the tributaries of these waters now afford but very small supplies. Trout and other fish highly prized for food abound in the clear mountain streams of Northern New York. Hundreds of millions of "bony fish" are taken annually around Long Island for manure; and the manufacture of oil from sharks, porpoises, and other fish has been at various times carried on with encouraging success. Numerous special laws have been passed for the preservation of fish in certain waters and at particular seasons; but this is now made one of the subjects within the legislative jurisdiction of Boards of Supervisors.

<sup>1</sup> The right to drift whales was often made a subject of special reservation or sale by the Indians of Long Island; and the capture of whales in open boats from the shore has continued from the first settlement to the present time. Scarcely a year passes without one or more being taken along the shore of the island. The whale fisheries from Hudson, Poughbeepsie, and Newburgh, once large have ceased altogether. In the 30th of June, 1858, 5,927,92 tons were employed in the whale fisheries at Sag Harbor, 1,942.12 tons at Greenport, and 2,138.27 tons at Cold Spring Harbor. The total of whaling vessels in the U.S. at the same time was 198,500,51 tons.
2 The whotesale fish mart of N.Y., on the East River, at the

<sup>2</sup> The wholesale fish mart of N.Y., on the East River, at the foot of Fulton St., occupies an entire block. The rarer kinds are oftener sold in the Washington Market. A record kept in 1856 enumerated 79 species, in 56 genera and 20 families, as found in

these markets, the majority of them being marine fish from the waters adjoining Long Island and the New England coast. A few came from the South, and many from the interior lakes and rivers.

3 It is estimated that \$100,000 worth of shad are taken annually below the Highlands. They are caucht in seines nearly as far up as Albany. About \$20,000 worth of sturgeon are sold annually at the Albany market.
4 As many as 10,000 bbls, have been taken at Chaumont Bay

<sup>4</sup> As many as 10,000 bbls, have been taken at Chaumont Bay in one season, although sometimes no more are taken than enough to supply the local want. The fish are chiefly lake herring and whitefish. The amount of tonuage invested in this State in the cod fisheries is quite unimportant, and amounted in June, 188, to 131.32 tons at Greenport, and 159.34 tons at New York, consisting of licensed vessels under 20 tons.

## COLLEGES AND ACADEMIES.

In 1754 King's College was incorporated in N. Y. City by patent, and liberally endowed by a lottery and grants of land. At the commencement of the Revolution it was the only incorporated educational institution in the colony. In 1784 its name was changed to Columbia College; and in connection with it an extensive scheme of education was devised, in which the college was to be the center of the system, and subordinate branches were to be established in different parts of the State,—the whole to be under the control of a board denominated "Regents of the University." This board was to consist of the principal State officers, two persons from each co., and one chosen by each religious denomination. The number of the Regents was afterward increased by adding 33 others, 20 of whom resided in N. Y. City. This whole scheme

was found to be impracticable; and by act of April 13, 1787, it was superseded by a system which has continued without essential change to the present time.' By this act the Governor, Lieut.-Governor, and 19 persons therein named were constituted

Regents of the University, and required to visit and inspect all colleges and academies, and report their condition, annually. They might appoint presidents of colleges and principals of academies for one year, in case of vacancy, and incorporate new colleges and academies, providing the revenue of the latter should not exceed the value of 4,000 bushels of wheat annually. In 1842 the Secretary of State, and in 1854 the Superintendent of Public Instruction, were made ex officio members of the Board of Regents. Vacancies are filled by the Legislature in the same manner that U. S. Senators are appointed; and Regents hold their office during life, unless they resign or forfeit their place by removal from the State, by accepting the office of trustee in an incorporated college or academy, or by accepting a civil office the duties of which are incompatible with their duties as Regents;<sup>2</sup> but the members may be removed by concurrent resolution of the Senate and Assembly.<sup>3</sup> They receive no pay. Under a special act of I791, the Regents appoint the faculty of the College of Physicians and Surgeons of the City of N. Y. and confer degrees upon its graduates.4 They confer the honorary degree of M.D. upon four persons annually, upon recommendation of the State Medical Society, and may grant any honorary degree. They have exercised this right by conferring the degree of LL.D. upon 12 persons since their first organization.<sup>5</sup>

In 1821 they were authorized to incorporate Lancasterian and select schools.<sup>6</sup> In 1844 the Regents were made trustees of the State Library, and, with the Superintendent of Schools, were charged with the supervision of the State Normal School. In 1845 they were made trustees of the State Cabinet of Natural History, and in 1856 were intrusted with what remained of the publication of the colonial history. Their secretary and the Secretary of State are commissioners to superintend the completion of the publication of the natural history of the State.

The Regents annually apportion \$40,000 of the income of the Literature Fund among academies. in proportion to the number of students pursuing the classics or the higher English branches;

1 The anthorship of this system has been generally ascribed to | Alexander Hamilton, then in the Assembly. The original drafts of the act, still preserved, and the legislative journals of that period, show that Ezra l'Hommedien, then in the Senate, was prominently concerned in its passage, if not the original mover. The bill was introduced in the Senate upon a petition from Clin-Academy, in Suffolk co.

<sup>2</sup> What these offices are does not appear to have been settled. On several occasions an appointment to the bench of the Supreme Court has created a vacancy. Non-attendance at the meetings of the Board during one year has also been construed to vacate the sect of a Regent.

3 This power has never been exercised by the Legislatur

\* this power has never need exercised by the Legislature, 'A similar power existed with regard to the Western College of Physicians and Surgeons at Fairfield, during its existence, 'The honorary degree of M. D. had been conferred upon 120 persons previous to 1859. Resolutions were passed, Oct. 14, 1851. for conferring the degrees of Doctor of Philosophy and Doctor of

Literature; but none have been granted.

6 This right has been exercised four times, viz.: Select School at Henrietta, Mouroe co., July 2, 1827 Lewiston High School Academy, Niagara co., April 16, 1828. Fabius Select School, Onondaga co., Feb. 27, 1841. Hunter Classical School, Greene co., June 23, 1851

Lancasterian schools were incorporated by special acts, as

Albany, Lancaster School Soc., May 26, 1812.

Catskill, Lancaster School Soc., March 14, 1817. Repealed April

20, 1830. Hudson, Lancaster Soc., April 15, 1817.

Schenectady, Lancaster School Soc., Nov. 12, 1816.

Poughkeepsie, Lancaster School Soc.

7 This fund originated with certain tracts of land reserved for literature, and was largely increased by four lotteries, granted April 3, 1801, by which \$100,000 were to be raised for the joint benefit of academies and common schools, but chiefly for the latter. In 1816, the avails of the Crumbern Mountain Tract, amounting to \$10.416, were given from the general fund to academics and common schools; and in 1819 the arrears of quitrents amounting to \$53,380, were also thus equally divided. In 1527, \$150,000 was given to this fund by the Legislature; and on the 17th of April, 1838, the sum of \$28,000 was set apart annually, from the income of the U.S. Deposit Fund, for distribution among academies. The sum previously applied for this purpose was \$12,000 annually; and since 1834 a small part of the income, aside from this, has been applied, from time to time to the pur chuse of apparatus.

This fund was managed by the Regents until, by act of Jau 25, 1832, it was transferred to the Comptroller for investment,—the Legislature appropriating the proceeds annually, and the

Regents designating the scale of appending on the principal of the fund amounted, Sept. 39, 1858, to \$269,952, 12, aside from the U. S. Deposit Fund, and was invested chiefly in stocks and Comptroller's bonds.

designate such academies as shall receive aid in establishing classes for instructing teachers of common schools; conduct exchanges of books and documents with other States and countries; maintain a system of meteorological observations at certain academies; and make full reports annually to the Legislature upon the condition of the colleges and academies of the State, the State Library, and the Cabinet of Natural History.

The officers of the Regents are, a chancellor, vice-chancellor, and secretary. They appoint a librarian and assistants to the State Library, and a curator to the State Cabinet. Six members form a quorum for the transaction of business. Their annual meeting is held on the first Thursday of January, in the Senate chamber, and is adjourned for short periods during the session of the Legislature. Most colleges report annually to the Regents, but are not uniformly subject to visitation, nor do they share in the income of the Literature Fund. They have generally been assisted by grants of land or money from the State.

Colleges and Academics are entrusted to boards of trustees, who possess the usual powers of corporations, and usually fill all vacancies occurring in their number.\(^1\) They appoint professors and instructors, and remove them at pleasure, unless employed by special agreement. All degrees in colleges, whether honorary or in due course of study, are conferred by the trustees.

By an act passed April 12, 1853, the Regents were required to establish general rules under which colleges, universities, and academies might claim incorporation, subject to such limitations and restrictions as might be prescribed by law, or which, by the Regents, might be deemed proper; and institutions thus formed should possess, in addition to the powers thus vested in them, the general powers of a corporation, under the Revised Statutes of this State. The trustees of academies

1 Genesee College, N. Y. Agricultural College, People's College, † tees of Union College; and the Mayor and Recorder of cities University of Buffelo, and University of the City of N. Y., are are, in some cases, trustees of medical colleges. The principal connect by shareholders, who elect trustees, or officers analogous, for stated terms. The principal state officers are ex office trustees as follows:—

Literary	and	Medical	Colleges.

NAME.	Location.	Date of Charter.	How Invor- porated.	Remarks.
Alfred University	Alfred	Mar. 28, 1857	Law	Seventh-day Bap., 33 trustees.

a Mostly upon authority of the American Almanac of 1859. are, it is believed, in no cases required from those receiving inspectation. All the above are now in operation.

The following institutions have been projected, but have not been established, or have ceased to exist :-

NAME.	Date of Incorp.	Remarks.
Albany College		Applications were made for a college in 1795, but refused.
Andurn University	Feb. 26, 1826	Provisions of charter not complied with.
Auburn Female University	Jan. 29, 1852	Never organized.
Brockport College	March 4, 1830	Never organized.
Cayuga College		Applications made Feb. 15, 1802. Refused.
Central Medical College and Syracuse Medical College	1549	After a few courses of lectures, these institutions were abandoned.
Clinton College, Fairfield	Mar. 25, 1816	Conditions not complied with.
College of Physicians and Surgeous of Westero District, Fairfield	June 12, 1812	Courses of lectures were held until 1840, the Regents con- terring the degrees.
Flushing College		Applications refused Feb. 20, 1845.
Ithaca College	April 10, 1822	Conditions not complied with.
Kingston College		Applications refused in 1779, 1804, and 1811.
Medical Department of Columbia College	1793	Discontinued in 1814.
N. Y. College of Dental Surgery, Syracuse	April 13, 1852	Discontinued in a short time.
Richmond College, Richmond co	April 18, 1838	Never organized.
St. Paul's College, College Point, Flushing, L. I.	May 9, 1840	Closed in a short time.
Troy Medical College		Application refused, Feb. 16, 1824.
University of Western N. Y., Butfalo	April 8, 1836	Never organized.
Washington College, Richmond co	Jan. 27, 1827	Conditions not complied with.
Westminster College, Buffalo	April 17, 1851	Never organized.

Besides these, several institutions bearing the name of collogea have been established, but of which no general statistics and located at Suspension Bridge, Niagara co.; and the "St. have been obtained. Among them are the "Martin Luther College." (B. C.) in course of organization, at Troy. lege." at Buffalo, the "College and Convent." (R. C.) in Most of these are unincorporated none of them possess the right of granting degrees, and they generally partake more of the 4,1858, at Allegany, Cattarangus co.; the "De Veanx College for character of academics than of colleges.

<sup>•</sup> Charter repealed Feb. 19, 1841. Merged in Black River Literary and Religious Institute.

# PUBLIC SCHOOLS.

AMPLE provisions have been made by the State for the establishment and support of public schools throughout its borders. To this end the whole inhabited portions of the State have been divided into convenient districts, in each of which a school is taught some portion of the year and is open to all and within the reach of all. These schools are supported in part by money derived from the State, in part by a rate bill collected from parents of children attending school, and in part by a tax upon the property of the district.1

School Districts are formed and altered by school commissioners. These districts are so formed as to best accommodate all the inhabitants of the various localities and at the same time

secure efficiency in school organizations. Each district has a schoolhouse and a library. Its monetary affairs are arranged, and its officers elected, at annual meetings of all the taxable inhabitants. Its officers are trustees, a clerk, a collector, and a librarian.<sup>2</sup>

School Commissioners are elected in each of the Assembly districts of the State outside of the cities, and have the general supervision of schools. They examine and license teachers, visit the schools, and in every possible way endeavor to advance the general interests of education. They report annually to the State department of education.

The State Superintendent of Public Instruction is the administrative officer of the school department. He has an office in the State Hall at Albany, and has a deputy and the necessary number of clerks. He hears and decides appeals from the school officers and Commissioners, and has the general supervision of the common schools, Indian schools, the Institution for the Deaf and Dnmb, and all similar institutions in the State. He is ex officio a member of the Board of Regents of the University, is chairman of the Executive Committee of the Normal School, and a trustee of the State Asylnm for Idiots. He also apportions the school fund among the several counties and districts as the law directs.

The school fund of the State, derived from a variety of sources, in I859 yielded a revenue of \$264,500.3 This sum, and the amount derived from the 3 mill tax, is divided among the schools as follows:-One-third is divided among the districts in proportion to the number of teachers employed, and the remaining two-thirds are distributed to the several counties in proportion to their population, and thence distributed to the districts in proportion to the number of children between the ages of 4 and 2I.

District Libraries were established in 1838; and from that period to 1851, with few intermissions, the sum of \$55,000 was annually appropriated for the purchase of books.4 These

1 In 1859 the amount divided by the State among the several districts was \$1.316,607.18. Of this sum \$1,052.107.18 was derived from the 1 mill State tax, and \$264,500 from the interest of the common school fund

A record is kept of the attendance of each pupil, and the amount due for teachers' wages above that received from the State is assessed in proportion to this attendance. Cost of fuel, repairs, and the amount of rate bills abated to indigent

fact, repairs, and the amount of rate ones anates to mangent parents are net by a tax upon the property of the district. 2 District Meetings decide upon questions of building and re-pairing schoolhouses, furnishing them, providing fuel and facili-ties for teaching, within the limits of the law. The annual meetings for the election of officers are held on the second Tuesday of tot, throughout the State. The Board of Trustees, consisting of Oct. throughout the State. The Board of Trustees, consisting of 1 or 3 at the option of the district, constitute the executive officers of the district. The Trustees engage teachers, properly furnish the schoolhouse, provide fuel, and execute the wishes of the district as expressed in the district meetings. They have also the care of the district library. The Clerk preserves the records of the district and calls district meetings.

<sup>3</sup> The school fund was chiefly derived from the following

1799, Seven-eighths of four lotteries of \$100,000, aggre-.....\$ \$7,500 50,000 1805, Proceeds of 500,000 acres of land sold.

Stock subscribed in Merchants' Bank, and increased in 1807 and '08.

1816, One-half of the proceeds of the Crumborn Mountain Tract of 6,944½ acres, amounting to....... 5.208

1819, One-half of the arrears of quitrents	\$26,690
" An exchange of securities between general and	
common school fund, by which the school fund	
gained	161,641
" Proceeds of escheated lands in Military Tract given.	•
1822. By the Constitution, all public lands, amounting to	

991,059 acres, were given to the school fund. 1827, Balance of loan of 1786, amounting to....... 33.616 Bank stock owned by the State...... 100.000 Canal ... 150,000 1838, From the revenue of the United States deposit

The sum of \$25,000 from the revenue of the United States deposit fund is annually added to the capital of the common school fund; and the capital of this fund is declared by the Con-

An additional sum from the same fund for libraries

stitution to be inviolate.

In directing the sale of the public lands, the State reserved certain lots in the 10 Towns of St. Lawrence co. and in the Chenango 20 Townships, for gospel and school purposes. The pro-ceeds from the sales of these lands have formed a local fund for the benefit of the towns in which they lie. Many other towns have small funds, derived from flues and penalties, applicable to thools. See p. 47.

The following directions are given in the selection of books:-schools.

\* The following directions are given to the pholod or attack any sect or creed in our country claiming to be a religious one shall be tolerated in the school libraries.
"2. Standard works on other topics shall not be excluded

libraries, free to every person in the district, generally comprise books on scientific and literary subjects and affording means of information which would otherwise be unattainable.

The State Normal School was established in 1844, for the instruction and practice of teachers of common schools in the science of education and the art of teaching. It is supported by an annual appropriation from the literature fund, and is under the immediate charge of an executive committee appointed by the Regents of the University. Each county in the State is entitled to send twice as many pupils to the school as it sends members to the Assembly. The pupils receive tuition and the use of textbooks free, and also receive a small amount of mileage. The school is located at the corner of Howard and Lodge Streets, Albany.1

The law makes provision for the establishment of Union Free Schools wherever the inhabitants may desire it, and for the formation of Colored Schools in districts where the presence of colored children is offensive to a majority of the people of the district.2

Previous to the Revolution no general system of education was established. All the schools that had been founded were of a private character or the result of special legislation. The necessity and importance of common schools had not been recognized, and education was principally confined to the wealthier classes. At the first meeting of the State Legislature, in 1787, Goy. Clinton called the attention of that body to the subject of education, and a law was passed providing for the appointment of the Regents of the University. In 1789 an act was passed appropriating certain portions of the public lands for gospel and school purposes. In 1793 the Regents in their report recommended the establishment of a general system of common schools; and in 1795 Gov. Clinton in his message to the Legislature strongly urged the same.3 On the 9th of April of that year a law was passed "for the purpose of encouraging and maintaining schools in the several cities and towns in this State, in which the children of the inhabitants of the State shall be instructed in the English language, or be taught English grammar, arithmetic, mathematics, and such other branches of knowledge as are most useful and necessary to complete a good English education." By this act the sum of £20,000, or \$50,000, was annually appropriated for 5 years for the support of these schools.4

The beneficial result of this system, imperfect as it was, became at once apparent; and from time to time measures were taken to increase the funds and to improve the system.<sup>5</sup> The successive Governors nearly all strongly recommended the passage of new laws for the encouragement and support of schools; but nothing definite was accomplished until 1811, when 5 commissioners were

because they incidentally and indirectly betray the religious |

"3. Works, avowelly on other topics, which abound in direct and unreserved attacks on, or defense of the character of any religious sect, or those which hold up any religious body to conreligious sect, or those which hold up any religious body to contempt or execution by singling out or bringing together only the darker parts of its Instery or character, shall be excluded from the school libraries. In the selection of books for a district library, information, and not mere anuscement, is to be regarded as the primary object. Suitable provision should, however, be made for the intellectual wants of the young, by furnishing them with books which, without being merely juvenile in their character, may be level to their comprehension and sufficiently entertaining to excite and cratify a taste for and sufficiently entertaining to excite and gratify a taste for reading. It is useless to buy books which are not read."—Code of Public Inst., 1856, p. 326.

1 Males are admitted at 18 and females at 16 years of age;

1 Males are admitted at 18 and females at 16 years of age; and upon entering each one is required to sign a pledge that he intends to become a teacher. The number of graduates up to the close of the thirteenth year, 1556-57, was 949, and the number of pupils at that time was 223. The school for several years occupied the building near the head of State Street, now known as "Van Vechten Hall." In 1848 the present building was receted, at a cost of \$25000. The experimental school taught by the graduating class numbers semewhat over 100 pupils. These pay tuition, and are elected or appointed by the Executive Committee.

2 Under the Union Free School law a large number of schools have been established in different parts of the State. These

have been established in different parts of the State. achools are supported by a direct tax upon the property of the district, and the rate bill system is discarded. Free schools are established in all the cities and in most of the larger villages in the State by special laws. In most cases the free schools are graded, and comprise 3 or 4 distinct departments, furnishing instruction from the primary to a full academic course. Being entirely free and within the reach of all, they afford to every entirely tree and within the reach of all, they allord to every child, regardless of his position in life, an opportunity to secure a typrough English education. These free schools rank among the hest public schools in the country; and they have thus far proved superior to those in which the rate bill system is retained.

3 In his message Governor Clinton uses the following language.—"While it is evident that the general establishment and liberal endowment of academies are highly to be com-mended and are attended with the most heneficial consequences, large school fund.

yet it cannot be denied that they are principally confined to the children of the opinlent, and that a great portion of the community is excluded from their immediate advantages. The estabil-innent of common schools throughout the State is happily calculated to remedy this inconvenence, and will therefore engage your early and decided consideration.

4 The principal features of the system inaugurated by this act

were as follows:—

1. The public money was to be appropriated to the several counties in the proportion of their representation in the Legis-liture, and to the towns in proportion to the number of taxable inhabitants in each. 2. The Boards of Supervisors were required to raise by tax

on-shalf as much as they received from the State.

3. Each town was to elect not less than 3 nor more than 7 commissioners, to take general charge of the schools, to examine trachers, and to apportion the public moneys in the several dis-

4. The people in each district were authorized to elect 2 or more trustees, to employ teachers, and to attend to the special interests of the school.

5. The public money was to be divided among the various districts in proportion to the number of days' instruction given in each.

6. Annual reports were to be made from the districts, towns, and counties.

The returns of 1798 show a total of 1,352 schools organized and 59.660 children taught.

and \$5.000 children raugut.

5 An act was passed in 1799 authorizing the raising of \$100,000 by 4 lotteries. \$57.500 of which was appropriated for the support by 4 forteries, \$77,300 of which was appropriated for the support of common schools. In 1801 \$109,000 more was raised by lottery for school purposes, of which sum \$50,000 was devoted to common schools. In 1800 a bill appropriating \$50,000 to the support of common schools passed the Assembly, but was defeated

in the Senate.

6 Gov. Jay, in 1800, Gov. Geo. Clinton, in 1802, Gov. Lewis, in 1804 and '05, and Gov. Tompkins, in several successive years, urged upon the Legislature the necessity of revising the school laws and of making more liberal appropriations to the support of schools. Several bills were introduced into the Legislature; but they were all defeated in either the Senate or Assembly. In the mean time the school moneys gradually increased, and were funded by the Comptroller, laying the foundation of the present

appointed to report a complete system for the organization and establishment of common schools. The commissioners made a report, accompanied by a draft of a bill, Feb. 14, 1812. The report was accepted by the Legislature, and the bill became a law. Under this act, Gideon Hawley was appointed Superintendent, and continued in office from 1813 to 1821. The great success which this system met with, and the firm hold which it speedily attained, is mainly due to the administrative abilities and indefatigable exertions of Mr. Hawley. Several important changes were made in the law during his administration, all of which tended greatly to improve the schools. In 1821 the office of State Superintendent was abolished, and the superintendence of schools was made an appendage to the department of Secretary of State. Every successive year the Governor and Secretary of State urged upon the Legislature the necessity of systematizing the schools and of correcting obvious defects in the existing laws.2 In 1835 a law was passed providing for the establishment of teachers' departments in 8 academies, I in each of the Senatorial Districts of the State.3 In 1838 the District Library system was established by law; 4 and in 1841 the office of Deputy Superintendent was created.<sup>5</sup> In I843 the Board of Town Inspectors and School Commissioners was abolished and the office of Town Superintendent was substituted. May 7, 1844, an act was passed for the establishment of a State Normal School; and the school was opened at Albany on the 18th of Dec. following.6

On the 13th of Nov. 1847, the Legislature abolished the office of County Superintendent,—although the act was strongly resisted by many of the best friends of education in the State.7 During the same session Teachers' Institutes, which had existed for several years as voluntary associations, were legally established.8

On the 26th of March, 1849, an act was passed establishing free schools throughout the State. By the conditions of this act the rate bill system was abolished, and the whole expense of the schools beyond the State appropriation was made a tax upon the property of the district. This act was submitted to a vote of the people and was sustained by a majority of 3 to 1. In consequence of the inequality of the laws in regard to taxes, it was found that the Free School system did not work well in practice. Remonstrances poured in upon the next Legislature from all parts of the

<sup>1</sup> These commissioners, appointed by Gov. Tompkins, were Jedediah Peck, John Murray, jr., Samuel Russel, Roger Skinner, and Samuel Macomb. The principal features of this bill

1. \$50,000 was annually to be divided among the counties of the State.

2. The Boards of Supervisors were obliged to raise an equal snm, to be distributed among the towns and districts.

3. Three commissioners were to be appointed in each town to superintend the schools and examine teachers.

4. Three trustees were to be elected in each district to engage teachers and otherwise provide for the local necessities of the 5. The whole system was to be placed under the charge of a

State Superintendent.

2 In 1812 the office of School Commissioner was created, and from 3 to 6 school inspectors were annually elected in each town, with the same powers and duties as school commissioners. Bills were introduced from time to time to place the whole system again under the charge of a distinctive officer, to provide for more efficient supervision of schools, to seeme more competent teachers, and to establish a seminary for the instruction of teachers; but they all failed of receiving the necessary support. In 1828 the number of inspectors was reduced to 3. The laws that were passed corrected the most obvious abuses;

The laws that were passes corrected in most onvolus abuses, but no great step was taken in advance until 1838.

3 Erasmus Hall Academy in Kings co., Montgomery Academy, Orange co., Kinderhook, St. Lawrence, Faitheld, Oxford, Cananddigna, and Middlebury Academies, were the justitutions in which this department was established.

4 On the 13th of April of this year, the foundations of the District School I Buren work but by "go act authorizing the

in which this department was established.

4 On the 13th of April of this year, the foundations of the District School Library were hid by "an act authorizing the taxable inhabitants of the several school districts to impose a tax not exceeding \$20 for the first year and \$10 for each succeeding year, for the purchase of a district hirrary, consisting of such books as they shall in their district meeting direct." This bill was ally advocated in the Senate by Col. Young of Saturday, the 10 Least Residues of Only and the Santa for each single product. ratoga, and the Hon. Levi Beardsley, of Otsogo; and its friends were indebted for its success to the untiring exertions and extensive influence of James Wadsworth, of Geneseo. By act of July 9, 1851, the law was modified, giving to supervisors of towns a discretionary power of levying a tax for library pur-POSes.

In 1838 an act was passed requiring \$55,000 of the school moneys to be distributed among the school districts and expended by the trustees in the purchase of suitable looks for district libraries, and the residue for the payment of the wages of unly qualified teachers. An equal amount was also required to be raised by taxation on the several counties and towns and applied to the same purposes.

The first definite proposition to establish district libraries

was made by A. C. Flagg. in his report of 1839.

5 In 1839, John C. Spencer, Superintendent of Schools, recommended a plan of county supervision, which " was urged upon the department and the Legislature; and under the strong recommendation of the Superintener, and finite the strong re-commendation of the Superintener, and finite the strong re-order of the most eminent friends of popul or education,— among whom may be enumerated the Hon. Jahev B. Hammond, who as early as 1835 had given to the public the details of a plan essentially similar; the fice, Dr. Whitchouse, of Roch-ester; Francis Dwight, ksq., editor of the Pistrict School Journal, then of Geneva; Professor Potter, of Union College; and James Wadsworth, Esq., of Genesee,—this proper become, in 1841, by the nearly unanimous action of the Legislature, incorporated with our system of common schools."-Randall's Common School System, p. 44.

6 The establishment of a Normal School for the professional • The estandament of a Aormal School for the professional education of teachers was strongly advecated by several Super-intendents, and had been a favorite measure of many distagnished friends of the cause for many years. The bill for the establishment of the Normal School was introduced March 22, 1844, by Hon. Calvin T. Hurlburd, of St. Lawrence. The bill, as passed, appropriated \$0.000 for the first year, and \$10,000 per vear for five years for the samout of the school moder the disyear for five years, for the support of the school, under the direction of the State Superintendent and Regents of the University. The Superintendent of Schools, (Saninel Young, Hev. Alonzo Potter, Rev. W. H. Campbell, Hon. Gideon Hawley, and Francis Dwight, Esq., were appointed an executive committee to attend to the interests of the school. The committee proceeded to organize the school by the appointment of David P. Page, Principal; Frederick I. Hsley, Teacher of Music; and J. D. Howard, Teacher of Drawing. Only 29 pupils were in attendance the first day; but the number speedily increased to 100, and since that time the school has been an uninterrupted

7 This office had become very unpopular in some sections of the State, in consequence of appointments having been tre-quently made by the Beaud of Supervisors upon political con-siderations merely, without the least regard to the qualineations of the appointees. Under the supervision of the County Superintendents the schools had progressed more rapidly than over before, in the same period; and after the abobstiment of that office they steadily retrograded for several years.

8 The first Teachers Institute in the state was held at Ithaca, Tompkins co., April 4, 1843, under the direction of James 8. beman, County Superintendent. Immediately afterward, in-stitutes were held in other counties; and in a few years they became a fixed institution. In 1847 they were recognized by the Legislature, and appropriations were made for their support.

State; and in 1850 the law was again submitted to a vote of the people and again sustained,—though by a decreased majority. In April, 1851, the Free School Act was repealed and the rate bill system was reinstated.<sup>1</sup>

During the session of 1853 a law was passed allowing Union Free Schools to be established under certain conditions.<sup>2</sup> On the 30th of March, 1854, the office of Superintendent of Public Instruction was created,—thus substantially restoring the original system of general supervision.<sup>3</sup> On the 13th of April, 1855, a law was passed allowing the Regents of the University to designate certain academies in the several counties in which a teachers' class might be taught free, the State allowing \$10 for each pupil so taught, to a number not exceeding 20 in each academy.

<sup>&</sup>lt;sup>1</sup> At the time of the repeal of the Free School act a provision was made for raising \$800,000 annually by a State tax, which in many of the rural districts practically made free schools. This tax was afterward made a \$\frac{1}{2}\$ mill tax upon all the property of the State, producing a sum somewhat larger in the aggregate,

and one increasing with the wealth and wants of the State.

2 The law for the creation of Union Free Schools was a recognition of the free school principle and an important step in the progress of education.

<sup>&</sup>lt;sup>3</sup> While the School Department was a subordinate branch of the Department of State, it was impossible to give to it that character and efficiency necessary to the best interests and welfare of the schools. Since the change, every department of education has felt a new impulse and has been constantly improving. The administration of the schools has been much more perfect, the reports have been more regular and reliable, and the standard of teaching has materially advanced.

The office of School Commissioner was created by law April 12, 1856, and by the same act the office of Town Superintendent was abolished. This substantially reinstated the office of County Superintendent, the abolishment of which in 1847 was so disastrous to the interests of education. On the 15th of March, 1856, an act was passed directing that the school laws should be digested and codified.2 By act of April 12, 1858, the school year was changed so as to commence Oct. 1, and the annual district school meetings were directed to be held on the second Tuesday of October.

Mercantile Colleges, especially adapted to instruction in opening, conducting, and closing business accounts of every kind, and an elucidation of the laws and enstoms that have been established concerning them, have within a few years been opened in most of our cities. They depend entirely upon individual enterprise for support, and instruction is usually given by oral illustrations, lectures, and examples.3

#### CHURCHES.

The various church organizations in the State are independent of each other and are supported entirely by private contributions. The aggregate amount of church property in the State, and the amount annually raised for religious purposes, are immense. The following is a list of the different denominations, arranged in alphabetical order:-

The African Methodist Episcopal (Zion) Church was formed in 1820. The State of New York forms one conference, having in 1852 1,928 members.

The American Swedenborgian Association was formed in 1857, and has its office in New York City. A Printing and Publishing Society of this denomination, formed in 1850, collected in the year ending in 1858 \$3,108.25. It owns the stereotype plates of all the theological writings of Swedenborg.

The Antl Mission or Old School Baptist, in 1855, had in the State 18 churches and 1.101 members.

The Associate Presbyterian Church, in 1855, had 26 churches and 3,926 members. and The Associate Reformed Presbyterian Church 38 churches and 5,634 members. These two denominations united in May, 1858, under the name of The United Presbyterians.

The Baptist Church has in the United States 565 associations, 11,600 churches, 7,141 ordained ministers, 1,025 licentiates, and 923,198 members. Of these 43 associations, 812 churches, 738 ordained ministers, 90 licentiates, and 84,266 members are in New York. Its general Benevolent Associations are the "American Baptist Missionary Union," "American Baptist Publication Society," "American Baptist Historical Society," "American Baptist Home Mission Society," "American and Foreign Bible Society," "American Baptist Foreign Mission Society," "Southern Baptist Convention," 1845, and "Southern Baptist Publication Society," 1847. It has in this State 2 colleges and 2 theological seminaries, and has 5 periodicals devoted to its interests.

<sup>1</sup> The School Commissioners have generally succeeded in awke ong a new interest in their respective districts by per-sonally visiting the schools and teachers, by encouraging the formation of teachers' associations and institutes, and by re-quiring a higher standard of qualification on the part of teachers. The schools under their supervision are steadily improving.

Thin mig a higher standard of qualification on the part of teachers. The schools under their supervision are steady improving.

2 The expense of this codification of the school laws was defrayed from the library fund.

3 These institutions are almost indispensable in every mercantile community. They afford instruction upon every department of business accounts, and incidentally upon methods of conducting loisiness generally. Courses of lectures are usually given, in which are unfolded the laws relating to all loisiness matters, and a vast amount of information is given relating to all departments of commercial transactions. The most extensive of these colleges are those of Bryant & Stratton, 7 in numher, of which 3 are in this State,—I at Bahalo, I at Albany, and I at New York,—Eastman's Colleges, at Rochester and Oswego, and Bassett's College, at Syracuse. There are various other institutions of the kind in the State, of good local repute, and

of great value to the villages and towns in which they are established.

<sup>4</sup> The Missionary Union was formed in 1814; its receipts for 1857-58 were \$07,808.77. It has 19 missions, 80 missionaries, and over 300 charches. The headquarters of the Society are at Boston. The Brylist Publication Seciety was formed in 1824, and has its depository at Philadelphla. It supports 53 colporterrs, and its receipts for 1857-58 were \$60,585.12. The American Brylish Heisenberg 1857-58. tenrs, and his receipts for 1801-95 were geogroup. The 2000-19 ican Boptist Home Missonarry Society was formed in 1822, and has its office in New York. It employs 99 missionaries and supplies about 250 stations. Its receipts for 1857-58 were \$52,083.33. The American and Foreign Bible Society, formed in 1828, has its office at New York. Its receipts for 1857-58 were \$57,049.98, Madison University, at Hamilton, and the University of December of Particular and Authority to Receipt to the Particular and Authority of the Society for the Particular and Particul of Rochester are Baptist institutions; and attached to each is a theological semmary. The papers published by this denomination are.—The New York Examiner, New York Chromele, American Baptist, (newspapers.) and the Home Mission Report, and Mothers' Journal, (magazines,) all published in New York

The Christian Connexion<sup>1</sup> divide the State into the New York Eastern, New York Central, New York Western, Northern, Black River, and Tioga Christian Conferences, each having distinct boundaries. They have in the U. S. and Canada over 1,500 ministers and —— communicants. The eensus reports 85 churches in this State and 9,825 persons usually attending them.

The Congregational Churches of the Union number about 2,900, with 2,400 ministers and 240,000 members. Of these, 425 churches, 400 ministers, and 25,000 members are claimed within the State of New York.<sup>2</sup>

The Congregational Methodists<sup>3</sup> were first composed of seceders from the Methodist Episcopal Church, in 1820. They have 3 churches in the State.

The Disciples of Christ have in the Union over 1,700 churches, 1,100 ministers, and 130,000 members.<sup>4</sup> In New York they reported, in 1855, 28 churches and 2,015 members. The New York State Convention embraces, besides the State, parts of Connecticut and Vermont.

The Evangelical Lutheran Church embraces 35 synods in the U. S., of which 25 are connected with a general synod. It numbers 1,083 ministers and 1,920 congregations, 5 and has of general societies the Parent Educational, Home Missionary, Foreign Missionary, Church Extension, Lutheran Historical, and Lutheran Publication, for the purposes indicated by their respective titles. It has within this State a Theological Seminary and Academy at Hartwick, Otsego county, and Martin Luther College, with a theological department, at Buffalo.

The Free Will Baptist Church in the U. S. has 28 yearly and 129 quarterly meetings, 1189 churches, 957 ordained and 164 licensed preachers, and 55,209 communicants.<sup>6</sup> This State comprises 5 whole yearly meetings and parts of 2 others. As no attention is paid to State lines

The Fifty-First Annual Report of the Baptist Missionary Convention of the State of New York (Oct. 1858) gives the following statistics of this denomination in New York. The dates of organization are from the Baptist Almana: :—

1		<u>'                                      </u>		

<sup>1</sup> Otherwise named "Unitarian Baptists." They originated between 1793 and 1801, in secessions from Raptists, Methodists, and Presbyterians. Each church is independent in government; and full statistics are not accessible.

2 The General Association of New York includes the Oneida,

Island, New York & Brooklyn, Ontario, Susquebanna, Albany, and Furitan of Wyoming & Allegany Associations. The American Congregational Union has for one of its objects the aid of feetble churches. In the year ending in 1858 it expended \$6.154.95 for this purpose.

3 Otherwise known as "Stiluellites."

<sup>3</sup> Otherwise known as "Stimellites," from Rev. Alexander Campbell, the founder,—Fax d Hoges Quad. Reg., 1852, p. 253, <sup>5</sup> From the Lutheran Almanac, 1859. The synods embraced in New York are as follows:—

Synods.	When formed.	Ministers.	Congre- yations.
New York Ministerian	1785	59	55
Hartwick Synod Franckean Synod	1830 1838	25 24	33 30
Synod of Bullalo	1839	16	16

Of these the last two are not connected with the General Synod.

These synods have no definite boundaries, but overlap each other, and in some instances extend into neighboring States. The Kirchliches Informatorium and Historische Zeitblatt, of

Ruffalo, and Der Lutherische Herold, of New York, are the official organs of this denomination.

6 The Free Will Baptist Register for 1859 gives the following statistics. To those extending partly into neighboring States a star is prefixed; and those entirely out of the State are in Italies.

CHURCHES.

in these divisions, the exact numbers in the State cannot be determined from the reports. Its general institutions are 3 mission societies, an anti-slavery society, a biblical school and institution at New Hampton, N. H., and a seminary in this State.

The Friends or Quakers have, since 1827, been divided into 2 distinct branches, known as "Hicksite" and "Orthodox." The Hicksites have a general meeting for the United States and Canada, which is divided into 6 yearly, 33 quarterly, and 138 monthly meetings in the U. S., and 2 half-yearly and 6 monthly meetings in Canada. This State is embraced within the New York and the Genesee yearly meetings, the former of which extends into New Jersey and the latter into Canada. There are of the New York yearly meeting in this State 7 quarterly and 31 monthly meetings; of the Genesee yearly meeting 2 quarterly and 8 monthly meetings.

The Orthodox Friends divide the United States and Canada into 8 yearly, 1 half-yearly, 65 quarterly, and 222 monthly meetings. The New York yearly meeting comprises 1 half-yearly, 15 quarterly, and 43 monthly meetings, of which 9 entire and a part of 1 other quarterly and 28 monthly meetings are within the State, the remainder being in adjoining States and Canada.1

The German Methodists<sup>2</sup> originated in the year 1800, and number about 20,000. They have in New York about 15 churches and 3,000 members.

The Mennonites have in the Union 300 churches and 36,280 members: of these, 6 churches and 442 members were reported in Western N. Y. in 1855.

The Methodist Episcopal Church in the United States was divided in 1844 into the Church North and the Church South, forming two independent organizations, differing only upon the question of slavery. The Church North embraces 49 annual conferences, 5,365 traveling, 769 superannuated, and 7,169 local preachers, and 820,514 members and probationers. The total number of preachers in both divisions is 20,644, and of members 1,476,291. This State embraces 5 entire and parts of 4 other conferences, which are subdivided into districts and tircuits, each with definite boundaries. The Sunday School Union of the M. E. Church North reports 11,229 schools, 120,421 officers and teachers, 639,120 scholars, and 2,054,253 volumes in S. S. libraries. Its Tract Society has auxiliaries in each conference, and distributes large quantities of tracts and a small paper called "The Good News." Its Missionary Society supports 44 foreign missionaries and 76 helpers, and 302 missionaries and 214 helpers among the Indians and foreign populations. Its "Book Concern" carries on an amount of publication equaled by that of few private firms in the country, including books, papers, and magazines. This denomination has within the State 1 college and 10 seminaries, in connection with annual conferences.3

The Methodist Protestant Church was formed Nov. 1830. It divides the Union into conferences, stations, and circuits. The census reports as belonging to this denomination in this State, in 1855, 46 churches and 1,605 members.

The Presbyterian Church existed as one body until 1837, when it was divided into "Old School" and "New School," which form two distinct organizations, with similar professions of faith but different views of discipline. The Old School General Assembly of the U. S. report 33 synods, 159 presbyteries, 2,468 ministers, 3,324 churches, and 259,335 communicants. During

pying the premises effected for the Omena thattate, formerly a manual labor school, is under the anspires of this denomination.

1 The manes of quarterly meetings within the State, with the number of monthly meetings in each, according to Foulke's Friends' Almanuc for 1858, are, in the New York yearly meeting, Westbury, 6, Purchase, 3, Nine Partners, 3, Stanford, 4, Easton, 5, Saratoga, 5, Duanesburgh, 5; in the Genesee yearly

meeting. Farmington, 5, Scipio, 3,

3 The following is a summary of the Conferences in New York. Those marked with a star are partly in other States.

The districts within the State of New York forming the above Conferences are:-

New York-Poughkeepsie, Rhinebeck, Prattsville, Monticelle, N. Y. German Mission, Rochester, and German Mission.

missionary societies under the charge of this society are the Free Will Baptist Foreign Mission Society, which supports 3 missionaries and their families at Arissa, India, the Free Will Baptist Home Mussion Society, and the Free Will Baptist Female Missionary Society. The Whitestown Seminary, occu-pying the premises erected for the Oneda Institute, formerly a

meeting. Farmington, 5. Scipio, 3.

The quarterly meetings within the yearly meeting, according to Wood's Book of Meetings, 1858, are as follows, with the date of establishment and number of monthly meetings in each:—Westhury, (1676,) 2; Purchase, prior to 1746,) 3; Kine Partners, (1783,) 3; Stanford, (1800,) 3; Ferrisburgh, (partly in Vermont, 1809,) 1; in New York, 2; in Vermont, Farmington, (1810), 5; Batternuts, (1812, under the name of Duanesburgh, changed in 1883,) 3; Saratoga, (1793, in 1795 changed to Easton, in 1815 divided into Saratoga and Easton, and in 1835 the latter was discontinued.) 3; Scipio, (1825,) 2; Le Ray, (1830,) 3. The first meeting within New York was established at Oyster Ray, by Richard Smith and others who were banished from Ioston in 1856. The persecutions of that colony drove others to Rhode The persecutions of that colony drove others to Rhode Island and Long Island, and meetings were established at Oyster Bay, Gravesend, Jamaica, Hempstead, Flushing, and other places, at an early period.

2 Correctly known as Evangelical Association, or Albrights.

the year ending May, 1858, \$2,544,692 was raised for various religious and benevolent objects. Its general objects of promotion and extension are conducted by Boards; and it has various funds for special objects. The State of New York embraces the greater part of 3 synods.

The New School Presbyterian General Assembly of the United States reports 26 synods, 120 presbyteries, 1,612 ministers, 1,687 churches, and 143,510 communicants. During the year ending May, 1858, \$273,965.90 was raised for domestic and foreign missions, education, and publication. It has several committees for the promotion of its general objects, and has in this State 2 theological seminaries and several periodicals.<sup>2</sup>

The Primitive Methodists have 2 churches and about 500 members in this State. They have in the Union over 1,200 members.

The Protestant Episcopal Church embraces in the Union 31 dioceses and 4 missions, 1,995 parishes, 39 bishops, 1,979 elergymen, and 127,953 communicants. Total contributions for missionary and charitable purposes, \$1,265,642.96. Its general institutions are the "General Theological Seminary," New York, the "Domestic and Foreign Missionary Society," the "General Protestant Episcopal Sunday School Union and Church Book Society," the "Protestant Episcopal Historical Society," the "Western Church Extension Society," and the "Prot. E. Society for the Promotion of Evangelical Knowledge."

The Diocese of New York3 embraces all E. of the E. lines of Broome, Chenango, Madison, Oncida, Lewis, and Jefferson cos., and comprises 275 parishes, 321 clergymen, and 22,411 communicants.

Genesee-Buffalo, Niagara, Genesee, Wyoming, and Olean, Oncida-Oneida, Chenango, Cortland. Auburn, and Cazenovia. Troy—Troy, Albany, Saratoga, Plattsburgh, and 3 in Vt.
Block River—Rome, Syracuse, Oswego, Adams, Watertown,
Ogdensburgh, and Potsdam.

Eric-Fredenia. The remainder in Ohio and Penn.

East Genesee-Geneva, Rochester, West Rochester, Bath, Corning, Elmira, and Lima.

New York East-New York, (E. district.) Long Island, and 2 in Conn.

Wyoming-Binghamton and Owego, in part; the remainder in Penn.

The offices of the several Missionary Societies and of the Book The effices of the several Missionary Societies and of the Book Concern are at 200 Mulberry St., N. Y. The periodicals issued from that establishment are the Christian Advocate and Journal, a weekly newspaper; the Quarterly Review, the National Magazine, and the Ladies' Repository, octavo magazines; and the Sunday School Advocate, The Good News, and the Missionsry Advocate, small newspapers. The Northern Christian Advocate, at Aubarn, is also an official publication of this denomination. Under the auspices of this Church are the Genesee College, at Lima, Livingston co.; the Amenia Seminary, Dutchess co.; A-bhand Collegiate Institute, Greene co.; Charlette Bearding Academy, Schobaria co.; Falley Seminary, Fulton, Oswego co.; Genesee Wesleyan Seminary, Lawrence co.; Jones-co.; Gorvernery Wesleyan Seminary, Lawrence co.; Jones-co.; Gorvernery Wesleyan Seminary, S. Lawrence co.; Jonesco.; Gouvernour Wesleyan Seminary, St. Lawrence co.; Jones-ville Academy, Saratoga co.; New York Conference Seminary, Charlotteville. Schoharie co.; Oneida Cenference Seminary, Cazenovia. Schonarie co.; Onema Collectènee Seminary, Cazenovia. Madison co.; and the Susquehanna Seminary, Bing-bantion, Broome co. Resides these, a large number of institu-tions, including several of the incorporated academics, are owned and patronized mainly by members of this denomination. 1 The names of presbyteries and statistics of churches of this branch, in the State are recorded in the 202 state. It is

branch in the State are reported in the Old School Presbyterian Almanac for 1559 as follows:—

The various societies under the care of this denomination are ane various societies under the care of this denomination are in charge of the Iresbyterian Publication Committee, Foreign Mission Committee, Permanent Committee on Education, and Church Extension Committee. Voung men preparing for the ministry are educated at the Union Theological Seminary, of

ministry are educated at the Union Theological Seminary, of New York City, and Anburn Theological Seminary, of Cayuga co. The newspapers of the denomination are the Evangelist, of New York, and the Genesee Evangelist, of Rochester.

8 Its institutions are the "Society for the Promotion of Religion and Learning," the "Corporation for the Relief of Widows and Children of Clergymen," the "Prot. E. Tract Society," the "New York Bible and Common Prayer Book Society," the "New York Bible and Common Prayer Book Society," the "New York Prot. E. City Mission Society," the "Prot. E. Christian Mission Society for Seamen in the City and Port of New York," the "Prot. E. Brotherhood of New York," the "Northern Missionary Convocation," the "Bible and Common Prayer Book Society of Albany and its Vicinity," the "Brotherhood of St. Barnabas," (Troy.) "Columbia College," "Trinity School," (N. Y.,) "St. Luke's Hospital," (N. Y.,) "St. Luke's Home for Indigent Christian Females," the "Chrisch Charity Fonndation," (Brooklyn.) and the "Pastoral Aid Society." tion," (Brooklyn,) and the "Pastoral Aid Society."

The Diocese of Western New York embraces the remainder of the State, comprising 149 parishes, 129 clergymen, and 10,551 communicants.

The Reformed Methodists originated in 1814, in Vt. Their church government is Congregational. They report in the State 8 churches and about 500 members.

The Reformed Presbyterians, or Covenanters, is derived from the church of the same name in Scotland. In 1855 it numbered in the State 15 churches and 2,274 members.

The Reformed Protestant Dutch Church of the State belongs to the General Synod of the Ref. Prot. Dutch of N. A. It is subdivided into the particular Synods of New York and Albany, the former embracing 16 and the latter 14 classes, of which 29 are entirely within the State and 1 partly in New Jersey. In 1855 it reported 364 churches, 348 ministers, 130,120 persons attending congregations, and 38,927 communicants. Of these, 260 churches, 259 ministers, 21,027 families, 97,553 total of congregations, and 31,208 communicants, were in this State.

The Roman Catholic Church divides the Union into 7 Provinces, 46 Dioceses, and 3 Vicarates Apostolic. The Province of New York comprises the New England States, New York and New Jersey, and the dieceses of New York, Portland, Burlington, Boston, Hartford, Brooklyn, Albany, Buffalo, and Newark. Four of these are within this State. There are 3 theological seminaries, 1 preparatory seminary, 2 colleges, and a large number of benevolent and educational institutions belonging to this denomination within the State, and 8 periodicals devoted to its interests.2

The Seventh Day Baptists have in the United States 67 churches, 70 ordained ministers, and 7,250 members. Of these 36 churches are in New York. In 1835 the denomination was divided into associations, of which the Eastern, Central, and Western are embraced wholly or in part in this State. De Ruyter Institute and the Alfred Academy are under the patronage of this denomination.

Shakers, or the "United Society of Believers," otherwise called the "Millennial Church," numbers in the Union 18 communities and about 6,000 members. They live in "families," and in New York they are principally located at New Lebanon, Watervliet, and Groveland.

The Unitarians number in the Union 293 clergyman and 250 societies, mostly in Massachusetts. They have within this State 10 societies. Their only periodical within the State is the "Christian Inquirer," a weekly newspaper in New York City, published under the auspices of the "Unitarian Association of the State of New York."3

The Universalists United States Convention is composed of clerical and lay delegates from each State and Territorial Convention, and meets on the third Tnesday of Sept. annually.4 The denomination has a Historical Society, composed of all preachers and laymen in good standing whe sign the constitution. It also has a General Reform Association, that meets in Boston on the

3 For Book of the Unitarian Ong. Churches, 1857.

4 The New York State Convention embraces the Central, Niagara, Cayuga, Ruffalo, Mohawk River, Ontario, Genesce, Black River, St. Lawrence, Otsego, Allegany, Steuben, Chautauqua, Chemango, Hudson River, and New York Associations, and contains 220 societies, 194 church edifices, and employs 107 preachers, thus a State Educational Society, with \$4,000 subscribed. It has a State Educational Society, with \$40,000 subscribed, and \$25,000 invested for the Theological School in Canton; and has in charge the Clinton Liberal Institute. The Uniand has in charge the Cunton Liberal Histifute. Ans Cuntor States and the State Paper and Book Establishment has assets amouning to \$13,796, and intredeemed stock to the amount of \$4,169. The profits of the concern are applied to the purchase of the shares, which will thus become the property of the State Convention. It has a relief tund for aged and disabled preachers. The Young Men's Christian Union, formed Jan. 1856, and the

<sup>1</sup> Its institutions are Hobart Free College, at Geneva; and De Veanz College, at Suspension Bridge. There are besides several incorporated and private academies supported by members of this denomination.—Church Almanac for 1859, pp. 32, 47.

last Tuesday in May. This denomination has organizations in 32 States and Territories, in 19 of which State Conventions are held. It has 4 educational, 9 missionary, 1 tract, and 4 Sunday school associations, I relief fund, and I book and newspaper establishment,—all of which are of a State character. It has 85 associations, 1,334 churches or societies, 913 church edifices, 655 preachers, 18 periodicals, and 9 institutions of learning.

The Wesleyan Methodists.<sup>1</sup> This denomination in the United States was formed by seceders from the M. E. Church, May, 1843.

Besides these, there are churches in the State known as Bethels, Evangelical, German Evangelical Reformed, Jewish, Calvinistic Methodists, German Methodists, Moravians, French Evangelical Presbyterian, Protestant Community of Inspiration, Second Advent, True Dutch, Free, and Union, numbering in the aggregate a large number of church edifices and communicants.<sup>2</sup>

# RELIGIOUS, LITERARY, AND BENEVOLENT SOCIETIES.

Societies of a religious, humane, and benevolent character began to be formed in considerable numbers about 1822-25. The objects of these societies enlisted the co-operation of members of the different religious denominations and of other philanthropic persons, and annual meetings were held in New York for the several objects.

The time of meeting has been usually in the second week in May, and the appointments were so made that the same persons could attend several of them in succession. These societies have become numerous, and "Anniversary week" thus becomes a season of interest to thousands. The assembling of so large a number of persons from distant sections of the Union has led reformers of every degree to appoint the anniversary meetings of their societies at the same time and place; and there is scarcely a society for the promotion of religion, morality, charity, or civil and social reform that is not thus annually brought to public notice, its operations exhibited, and its elaims nrged.

The societies exclusively under the control of a single denomination are noticed under the reli-

The principal societies of a general character are as follows:-

The American Bible Society, formed by a convention of 60 persons, mostly elergymen, May 8, ISO9, has for its object the publication and distribution of the Bible and parts

N. Y. City Missionary Society are connected with this denomination. Its periodicals are the Christian Ambassador, at Anbarn and New York, and a monthly periodical by the female department of the Clinton Liberal Institute.

The M. E. Church in England and Canada is thus known.

thereof without note or comment.1 Auxiliary to the American Bible Society are numerous county and local societies, through which the greater part of the funds are raised.2

The American Tract Society was instituted in 1825, by the several evangelical denominations, for the purpose of disseminating tracts and books upon moral and religious subjects.3 Several of the religious denominations have tract societies of their own.

The American Board of Commissioners for Foreign Missions was formed in 1809, for the purpose of supporting missions in foreign lands. Its central office is in Boston; but it has auxiliary societies throughout this State. It is chiefly supported by the Congregational and New School Presbyterian societies.4

1 The first society within the State for the gratuitous distribution of the Scriptures was the N. Y. Bible and Common Prayer Book Seciety, formed in 1869. A large number of co, societies was formed within the next five years. The present society, formed in 1816, has gradually increased in wealth and influence, until its operations have extended to almost every section of the globe. It has a Bible house in New York,—one of the most extensive publishing houses in the world. Its books are gra-tuitously distributed, or sold at cost; and the total number of volumes issued up to May, 1858, was 12,804,014. These are volumes issued up to May 1958, whis 12,804,014. These are produced in great varieties of style and in upward of forty different languages. The society has also published the Bible in English with raised characters for the bland.

The Baptist and Profestant Epicopal denominations have separate societies for publishing the Scriptunes, although many members belonging to both of these cooperate with the Ameri-

can Bible Society.

2 The following table gives the names of these societies, the date of their organization, and the amount of their donations and remittances up to May, 1858:—

<sup>3</sup> This society has a large property vested in a publishing house and grounds, corner of Nassau and Sprince Streets, New York, and in the stock, machinery, and materials used in the manufacture of books and tracts. Its fiscal affairs are managed by a finance committee. It has 31 auxiliaries in the State of New York. The receipts up to May, 1858, were \$4,356,114.05,20 about three-fifths of which were derived from sales, and the remainder from dourtions. Previous to May, 1858, this society had circulated 13,098.013 volumes, 188,971,408 publications, 4,753.741.573 pagest including 149,761 volumes (3,931 sets) of the Evangelical Family Library, 94,028 volumes (2,955 sets) of the Christan Library, 4,5638 volumes (1,955 sets) of the Curiculated 13,094,094 volumes (1,957 sets) of the Youth's Library, and 160,921 volumes (2,944 sets) of the Youth's Scripture Biography. The society publishes an Almanac, the Scripture Biography. The society publishes an Almanae, the American Messenger, (in English and German,) and Child's Paper, in large editions; and issues hooks and tracts in the English, German, French, Spanish, Portuguese, Italian, Weish, Dutch, Danish, Swedish, and Hungarian languages. It operates through branch and auxiliary societies, general agents and superintendents, and paid and volunteer colporteurs. The American Tract Society of Boston, which formerly co-operated with this, is now a distinct organization.

Societies of kindred character were formed in the State previous to this,—the more important of which was the New York Religious Tract Society, formed in 1812, with auxiliaries in vari-

ons parts of the country.

4 This society has established 27 missions, 121 stations, and 101 out stations in Africa, Greece, Western and Southern Asia, 101 out stations in Argea, oriecce, western and southern asia, China, Sandwich Islands, Micronesia, and among the North American Indian Tribes. It employs 273 missionaries and as-sistants, and 524 native pactors and assistants, his 8 printing presses, and up to 1858 had issue 4 1,000,000 presses for tracts and relations books. These missions numbered 318 charches, and the first producer spatt brackes then the authors trained and produced and produced and the produced statement and confidence. and 27,740 members; and thee lucational department embraced

The American Home Missionary Society was formed May 12, 1826, for the purpose of supporting the ministry in feeble and destitute Presb. and Cong. churches in the U. S.1

The American Sunday School Union was formed in 1824, for the purpose of encouraging the establishment of Sunday schools and of supplying them with books. Its central office is at Philadelphia. The New York Sunday School Union, auxiliary to this, was established in 1816, and has numerous local subordinate societies in different parts of the State.<sup>2</sup>

The American Seamen's Friend Society was formed in 1828, and endeavors to carry out the intentions expressed in its title by distributing Bibles and tracts, supporting the ministry, and otherwise promoting the moral welfare of seamen.<sup>3</sup>

The American Bethel Society was instituted in 1836, for the purpose of opening chapels for boatmen and mariners, distributing tracts, and extending other means for their moral improvement. It established a magazine named the "Bethel Flag;" and has auxiliaries in many places on the lakes, rivers, and canals.

The American and Foreign Christian Union was formed in 1849, for the special object of counteracting the influence of the Romish and other churches opposed to the class usually denominated "evangelical."4

The Central American Education Society was formed for the purpose of assisting young men preparing for the ministry. In 1858 the society aided 111 students.

The American Colonization Society was formed at Washington, Jan. 1817, for the colonization of free colored persons in Africa. The New York State Colonization Society was formed at Albany, April 9, 1829, and has had numerous auxiliaries in the State.5

The National Compensating Emancipation Society, formed in 1857, has for its object the purchasing of slaves for the purpose of giving them freedom.

The American Anti Slavery Society was organized Dec. 4, I833.6

The American Missionary Association was formed Sept. 1846, as a Home and Foreign Missionary Society. Business office in N. Y. Citv. Receipts for first 12 years of its existence, \$421,001.98. Present monthly income, \$3,000 to \$.5,000. It has a slaves' Bible Fund, and labors for the extinction of slavery. The association publish The American Missionary (paper) and American Missionary Magazine, both monthly.

Young Men's Christian Associations have been formed in most of the cities and

6 seminaries, 17 other boarding schools, 619 free schools, (of o seminaries, 11 other boarming schools, 619 ree schools, 604 which 312 were supported by the Hawanian Government) and 17,020 publis. The receipts in the year ending July 31, 1858, were \$334.018 48, the principal part of which was derived from donations.—Forty-Ninth Report 4, B.C. P. M., 1858.

1 This society was formed by the union of two societies pre-

viously formed by the Presbyterian and Reformed Protestant Dutch Churches. It is supported by the Congregationalists and Kew School Presbyterians, and to some extent by the Reformed Protestant Dutch, Lutheran, and German Reformed Churches. In 1858, 1,012 persons were connected with this society or its agencies and auxiliaries, of which 133 are within this State. ngences and auxiliaries, of which 153 are within this State. The number of congregations and stations fully or statedly supplied is 2.034; Sublath school scholars, 65,500; contributions to benevolent objects, \$24,272.28. The receipts in 12 months were \$175,971.37; the payments in the same time were \$190,735.70. Total receipts in 22 years, \$3,456.082; total years of labor, 18,871; total additions to churches, 150,275.

There are a central and a western agency in this State,—the office of the former of which is at Utica and of the latter at Geneva. The number of missionaries aided within the year was 133. Total contributions, \$39,347.96.

2 This movement was supported by most of the evangelical denominations; but several of them have since established Sunday support of the manufacture of the manufacture of the several of them have since established Sunday support of the manufacture of the manufactur

day school organizations among themselves. The American Sunday School Union had, in 1858, expended about \$2,500,000 in Smolay School (more more in 1835, experience about \$2.500,000 to books, and \$1,000,000 more in organizing Smolay schools. Its receipts for the last year were \$65,076,14; and it had formed 1,524 new schools, with 57.75; pupils and 9,994 teachers. The New York Sunday School Union had, in 1858, 210 schools, re-porting 60,000 pupils, 4,825 teachers, 82,294 books in libraries, and \$12,089 raised by contributions. Sunday schools in some form

and \$13.98 raised by contributions. Sunday schools in some form are supported by nearly every religious denomination, and are chiefly for Biblical instruction. A State Sunday School Teachers' Convention, formed in 1835, meets annually. Its third report, made 0ct. 1858, gave a total in the State of 1,895 schools, 22,203 officers and teachers, and 212.312 pupils.

§ This society has 15 stations in various parts of the world, and grants aid to various Betheloperations not connected with it. The receipts for the year ending in 1858 were \$25,230,20; and the total expenses in the samen's cause about \$100,000; 2,257 mariners had been received at the Sullors' Home in New York, and the whole number received into that institution from York, and the whole number received into that institution from

its establishment was 52,353.

4 The association has 61 home laborers; and its receipts in the year ending in 1858 were \$75,603,22. Its expenses in the same time were \$79,604,33. It has agents, and supports chapels in several foreign countries.

The slave trade was abolished in 1807, and after Jan. 1,

1808, the cargoes of captured slaves were to be sold for the benefit of the State where they might land. By an act of March 3, 1819, the General Government appropriated \$100,000 for the restoration of a large number of Africans to their native contry. By the co-operation of the Government with this Society a purchase was made in Dec. 1821, in the neighborhood of Cape Mensurado, on the w. coast of Africa, from which has grown the present Republic of Liberia, under the special patronage of

this society. Formal possession was taken April 28, 1822.

Several of the subordinate State societies have been merged

Several of the substitution at the societies for the termination of slavery. In the year endical societies for the termination of slavery. In the year ending in 1858 the receipts of the New York Colonization Society were \$15,624,62.

6 The expenses of the society for the year ending in 1858 were \$17,952, including those of the Anti Slavery Standard, its principal organ. Receipts, \$15,290 from the paper and donations, and \$17,255 to receipts.

cipii ofgati. Accipies 2005.

A New York State Anti Slavery Society, with numerous anxillaries, was formed about 1834-36, and its friends soon organization. iliaries, was formed about 1834–36, and its inconsession organized themselves into a political party. The highest State vote of this party was in 1844, when it amounted, on the Governor's ticket, to 15.136. Slavery existed under the Putch, and was continued through the English period of our colonial history. An act was passed March 31, 1817, declaring that every child born of a slave in this State after July 4, 1799, should be free at An act was passed March 31, 181, declaring that every child born of a slave in this State after July 4, 1799, should be free at the age of 25 if a mule, or at 25 if a female. Every child born after the passage of the act was to become free at the age of 21, and measures were ordered for the education of children held in service. The importation of slaves was prohibited. The first emancipation under this law, therefore, took effect July 5, 1827. emancipation under this law, therefore, took effect July 5, 327, as the law fixed the period as after instead of upon the 4th of July, as was perhaps intended. The 5th of July has sometimes heen celebrated as their anniversary of independence; and henci arrises the slang expression of "Fourth of July one day arter." Those born before the above date remained slaves till their death, and the census of 1855 reported one such as living in the State. The number of slaves in New York at different periods has been as follows:

large villages in the United States and British Provinces. They form a general confederation, the State of New York forming the fourth district. These associations embrace within their objects a library, reading room, lectures and prayer meetings.<sup>1</sup>

The Young Men's Christian Union of New York is supported by the Unitarian and Universalist denominations principally.

**Young Men's Associations** for mutual improvement have been formed in various parts of the State and under various names. The plan of organization is essentially alike; and it usually includes a library, reading room, cabinet, lecture course, and debating club. Most of these associations have been organized by special acts, and their affairs are managed by executive committees chosen annually by the members. They can hold a limited amount of property for the special objects of their organization.<sup>2</sup>

In most of the large villages, associations have been formed for the support of lectures at stated intervals in the winter months. They are generally of a temporary character, are re-organized every season or are attached to academies or other existing institutions.

The New York State Temperance Society was formed April 2, 1829. Its objects were to suppress intemperance and limit the traffic in intoxicating liquors. It received the support of a large number of the best and most philanthropic citizens, and its influence spread rapidly throughout the State.<sup>3</sup> Since the formation of the first society, efforts to suppress intemperance have been made upon an extended scale, and the strong arm of the law has been invoked to prohibit the traffic in alcoholic liquors.

Fraternity of Free and Accepted Masons. "The Ancient and Honorable Fraternity of Free and Accepted Masons" of the State of New York is under the government of a Grand Lodge, composed of its Grand Officers and the representatives (the Master and Wardens) of every lodge in the jurisdiction. As at present constituted, the Grand Lodge dates from 1785, when Chancellor Robert R. Livingston was elected Grand Master, and continued in office till 1801. In 1859 there are 430 chartered lodges in the State, (numbered to 474.) with about 33,000 members, numbering among them a very respectable class in all the walks of life. There is at least one lodge in every county in the State, (except Hamilton;) 93 of the lodges are in the city of New York; and a lodge is located in every considerable town and village. The annual receipts of the

2 The first organization of this kind in the state was the Albany Young Men's Association, formed Pec. 13, 1833, and incorp. March 12, 1835. The following is a list of these associations in the State formed under special acts:—

3 The fourth report of the State Society, in 1838, gave 1.538 societies and 231.074 members. Its principal organ, the Temperance Recorder, was begun March 6, 1823, at Albany, and issued many years. It also jublished almanaes, tracts, and circulars to a large extent. The American Society for the Promotion of Temperance, formed in 1827, was in 1856 succeeded by the "American Temperance Union." The latter, in the year ending in 1838, received \$1,887.20. Its principal organ is the Journal of the American Temperance Union, at New York. Both this

and the State Society are still in operation. About 1841–45 the "Washingtonian" temperance movement, originating amount performed inductives, spread over the State, and several thousand independent societies were formed under it.—most of which, however, died out with the enthusian under which they were created. The secret orders of "Rechabites" and "Sons of Temperance" originated in New York, about 1842, and subsequently those of "Cadets of Temperance," "Daughters of Temperance," "Good Sunaritans," "Daughters of Samaria," "Knights Templar," Social Circles," and other associations of a similar class were formed for the avoved purpose of promoting temperance reform. Numerous bodges or encampments were formed, and these societies at one time embraced large numbers of members. Several of them have been given up entirely; and it is believed none of them are increasing. They required a form of initiation and placing of secrecy, had fixed dues payable at regular intervals, provided money to assist the sick and bury the dead, and gave certificates of membership, which, with passwords and other tokens of recognition, might enables a member oclaim assistance among strangers belonging to the order.

The License question was submitted to the popular vote May 5, 18-b, with the result of 111,884 for, and 177,683 against, license. The operation of the law was deemed by many to be unequal; and its effect upon the temperance cause was unquestionably adverse. In 1847 the majorities for license were large in most of the towns. The "Maine Law." or prohibition movement, began in 1851, and was urged by its friends with great force during several sessions of the Lexislature. A prohibitory law was passed, but was declared unconstitutional by the Court of Appeals. The present law regulating the sale of intoxicating liquors, passed April 16, 1857, provides a Board of Excise Commissioners in each county for granting licenses and prosecuting violations of the law.

4 At the close of his term there were 94 lodges in the State, of which the oldest was St. John's, No. 1, (yet in active existed ished in the city of New York in 1757. Gen. Jacob Morton was Grand Master from 1801 to 1806, De Wirt Chuton from 1806 to 1829, and Daniel D. Tempkins from 1820 to 1822, when the Grand Lodge became divided. In 1826, at the commencement of the Anti-Masonic excitement, (see Genesoc co.) there were about 360 lodges in the State, (numbered to 567.) with about 22,000 members. In 1836 the number of lodges had been reduced below 75, with a corresponding membership,—say 4,000.

<sup>&</sup>lt;sup>1</sup> In July, 1858, associations of this kind were in active operation in Albany, Albion, Black Rock, Brooklyn, Buffalo, Catskill, Flushing, Hudson, Jamestown, New York, Oswego, Pongheepsie, Roudout, Saratoga, Springs, Stapleton, Troy, Citea, and Waterford. Those in italics belonged to the confederation.

Grand Lodge are about \$16,000; and during the year ending in June, 1859, the amount expended for charitable relief by the Grand Lodge and its immediate agents was about \$3,000; and probably three times more than that sum was expended for the same purposes by lodges and individual Masons. There is in the Hall and Asylum Fund, raised for charitable and educational purposes, about \$25,000, controlled by trustees chosen by the Grand Lodge, (it not being incorporated;) and this sum is constantly being increased from various sources,—a pertion of it arising from the stated revenues of the Grand Lodge. The fraternity are now all united in one body, under the jurisdiction of the Grand Lodge and its subordinates, and are in a sound and flourishing condition. The office of the Grand Secretary and place of business of the fraternity is in Odd Fellows Hall, corner of Grand and Center Sts., New York. The Grand Lodge is in correspondence and direct communication with all the Grand Lodges and Masonic fraternity throughout the world.<sup>1</sup>

Independent Order of Odd Fellows. This order was introduced into the United States from Manchester, England; and the first regular lodge was opened at Baltimore, in 1819. The Grand Lodge of the U.S. includes 42 subordinate Grand Lodges in the States and Territories, Canada, and the Sandwich Islands. There are 2 Grand Lodges and 623 subordinate lodges in this State.

Sons of Malta. This order embraced in this State, on the 1st of July, 1859, the Grand Lodge of the State and 8 subordinate lodges, with an aggregate membership of 12,680.

### MEDICAL SOCIETIES.

The formation of County Medical Societies was authorized by an act passed April 4, 1806. They were empowered to grant licenses to practice medicine in the State and to collect of the members a sum not exceeding \$3 annually. Delegates sent from each co. society, in number equal to the representation of the co. in Assembly, were to constitute a State Medical Society, which had the power of granting diplomas to practice medicine and to decide upon cases appealed from the co. societies. Although local societies were formed under this act in most of the counties then existing, several of them have ceased to exist; and there are at present but about 40 county societies that are represented by delegates. The State Society was formed Feb. 5, 1807, and is

The elective Grand Officers of the Fraternity are Grand Master, Deputy Grand Master, Senior Grand Warden, Junior Grand Warden, Grand Treasurer, Grand Secretary, and 5 Grand Chaplains.

<sup>&</sup>lt;sup>1</sup> The first act regulating the practice of physic and surgery in New York was passed June 10, 1760. It was amended in 1792 and 1797, and under the latter the judges of State courts

at a medical school, can collect pay according to the time employed, but they cannot collect the specific fees implying professional skill, which are recognized by the established usages

1792 and 1797, and under the latter the judges of State courts of Common Pleas and Masters in Chancery were, upon proof of two years' study of medicine, authorized to license persons to practice as physicians. By the act of 1806, medical societies might be formed in each co, by securing five or more members; and where there were less than five physicians in a co, they might units with the society of a neighboring co.

The restrictions upon practice without a diploma were finally abolished in 1844; and the law now makes no distinction between the different classes of practitioners. Those assuming to act as physicians become responsible for their practice, and, if not licensed by a county or the State Society or regularly graduated.

lied on.

• The larger part of this village is in Canada.

a The total number reported was, from neglect of the marshal, too small. In May, 1855, 1,388 were returned as entitled to share in annuities.

b The returns of civil condition are too indefinite to be relied on.

The larger part of this village is in Canada.

d In the returns of the last State census 235 Indicates (102 males and 135 females) not residing on reservations were connected and reported with the population of the towns in which they live. These, added to the numbers in the above table, make siding in the State in 1855.

Persons engaged in the various Professions, Trades, and Occupations

#### ALBANY COUNTY.

This was an original county; formed Nov. 1, 1683, and confirmed Oct. I, 1691.1

Tryon and Charlotte (now Montgomery and Washington) counties were taken off in 1772, Columbia in 1786, Rensselaer and Saratoga in 1791, a part of Schoharie in 1795, a part of Greene in 1800, and Scheneetady in 1809. The Manor of Rensselaerwyck was erected into a district March 24, 1772, and subdivided into east and west districts soon after the Revolution. The county lies on the west bank of Hudson River, about 150 miles from its mouth, and contains an area of 544 square miles. Its surface is undulating and hilly, and it has a general inclination toward the southeast. A narrow intervale extends along

the course of the river, bounded by a series of steep bluffs from 100 to 180 feet high, from the summits of which an undulating and slightly ascending plateau stretches westward to the foot of the Helderbergh<sup>2</sup> Hills, where it reaches an elevation of about 400 feet above tide. This range of hills rises from 400 to 800 feet above the plateau, and 800 to 1200 feet above tide. Their declivities are very steep, and sometimes precipitous, on the east, but more gradually sloping upon the west. Several other ranges of hills, inferior to them in height, extend in a general northerly and southerly direction through portions of the county. The highest point is the summit of the Helderberghs, in the northeast corner of the town of Bern, and is 1200 feet above tide. All these ranges of highlands may be considered as outlying spurs of the Catskills, which, in turn, are but a northerly continuation of the Allegany Mountains, and a part of the great Appalachian system.

The geological formations of this county belong to the Upper Silurian system, and comprise nearly all the rocks of the "New York System," from the Utica slate to the corniferous limestone. Above the rocks, in the eastern part of the county, are thick deposits of drift, consisting of sand, gravel, and clay; and along the river intervales are rich alluvial deposits. The lowest rock, cropping out on the Hudson, Normans Kil, and Mohawk, is the Utica slate. Next above is the graywacke and shales of the Hudson River group, appearing in the valleys of all the streams that flow into the Hudson, and apparently underlying the entire eastern part of the county. This stone is quarried for building stone and flagging.3 The red rocks that form the base of the Helderberghs evidently belong to the Medina sandstone series, though they have sometimes been confounded with the red shales of the Onondaga salt group. Next above, forming the first terrace of the mountains, is the water-lime group, from 50 to 200 feet in thickness, furnishing both water and quick-lime. Next in order is the pentamerus limestone, 50 feet in thickness, consisting of impure gray and black limestone mixed with slate and shale. Overlying this is the Catskill limestone, from 50 to 180 feet in thickness, consisting of thick, compact masses of limestone alternating with thin layers of shale. It is used for building stone and lime. The Oriskany sandstone is next developed, in a strata only 2 feet in thickness, followed by the cauda-galli grit, from 50 to 60 feet in thickness. This last has a fine grit, and resembles black or gray slates, but is easily disintegrated, and crumbles upon exposure to the air. Next in order come the Onondaga and comiferous limestones, the latter crowning the summits of the mountains. These rocks furnish both a superior quality of lime and an excellent building stone. The surface of the eastern part of the county is covered with immense beds of clay, gravel, and sand. The highlands west of Albany City are covered 40 feet deep with sand, which rests upon a bed of clay estimated to be 100 feet deep. In this drift are found small beds of bog ore and numerous chalybeate and sulphuretted springs. In the limestone regions are numerous caves, sink holes, and subterranean water courses, forming a peculiar and interesting feature of the county.

The principal streams are,-the Hudson River, which forms the eastern boundary; the Mohawk, which forms a part of the northern boundary; the Patroon Creek, Normans Kil, Vlamaus, Coey-

The county by these acts embraced "the Manor of Rensselaerwyck, Schenectady, and all the villages, neighborhoods, and Christian plantations on the east side of Hudson's River, from
 Signifying "Clear Monntain," from the fine prospect from Rocleffe Jansen's Creek; and on the west side, from Sawyer's Creek to the outermost end of Saraghtoga. The Manor of Livingston was annexed to Dutchess co. May 27, 1717, and by subsequent statutes the county of Albany was also made to com-

<sup>8</sup> Several of the intermediate series of rocks, including the gray sandstone, Clinton, Niagara Falls, and Onondaga salt groups,

mans, Haanakrois, and Catskill Creeks, and their branches. Nearly all the streams that flow into the Hudson have worn deep gulleys in the sand and clay. Many of these gorges are 100 feet deep, and extend from one-fourth of a mile to one mile from the river. The streams farther west generally flow through narrow, rocky ravines bordered by steep banks. These streams are mostly very rapid, and subject to extremes of flood and drouth. There are several small lakes among the hills, but none of special importance.

The soil upon the intervales is a deep, rich alluvial loam. In Watervliet, Albany, and the eastern parts of Gnilderland and Bethlehem, it consists of almost pure sand, with strips of clay along the banks of the streams. A belt of land lying between the sandy region and the foot of the Helderberghs is principally a clayey and gravelly loam, and very productive. Helderberghs the soil consists of alternate layers of clay, slate, and gravel, generally with a subsoil of tenacious clay called "hard-pan." Patches in this region are also stony, and much of it is wet and cold, and only moderately productive. Pitch pine, oak, and chestnut are the principal kinds of timber that grow upon the sandy region. In the most barren parts these trees are mere dwarfs, and the region has much the appearance of a desert. In the southeast corner of the county is a limited amount of red cedar. West of the sandy tract are found the usual trees of this northern elimate, including both the decidnous and evergreen.1

In the farming districts the people are principally engaged in raising spring grains, dairying, the raising of stock, and in gardening for the markets of Troy and Albany. The people of Albany, West Troy, and Cohoes are principally engaged in manufactures and commerce.

The city of Albany is the county seat and State capital. The county buildings are commedious, and the county institutions are well organized. The City Hall<sup>2</sup> at Albany, erected at the joint expense of the city and county, contains the principal city and county offices. The Albany County Penitentiary<sup>3</sup> is a fine building in the western part of the city. Persons convicted of certain erimes, and sentenced to short terms of imprisonment, are confined here; and prisoners are received frem Dutchess, Columbia, Reusselaer, Washington, Saratoga, and Schenectady counties. The county has no poor-house, but contracts with the city for the support of its paupers.

Albany is 145 miles above New York, upon the Hudson. The tide rises about one foot in the river. In low water, navigation is obstructed, except for vessels of light draught, by the "overslangh," or bar, near Castleton, and at other points; and considerable sums have been expended in attempting to deepen the channel, by dredging, and building a long stone dike below Albany. The most important works of internal improvement in the county are,—the Erie Canal, the New York Central, and the Albany, Vermont, and Canada Railroads, all terminating in the city of Albany. Connected with these lines, and terminating at Greenbush, directly opposite Albany, are the Hudson River, Albany and West Stockbridge, Harlem, and Troy and Greenbush Railroads. A company has been chartered to build a R. R. from Albany in a s. w. direction to Binghamton, and the work upon it is now in progress. A pier has been built in the river in front of Albany, for the benefit of navigation.8

Hendrick Hudson is supposed to have ascended the river as far as Albany in 1609. During the next three or four years, several Dutch traders commenced a traffic with the Indians, and small trading houses were built at Manhattan and Albany. In after years these stations were fortified, the one to protect from invasion by sea, and the other against incursions from the French settlements in Canada. The principal military work at Albany (built in 1623) was known as Fort Orange. The station at Albany remained a mere trading post until 1630, when agricultural improvements began. The Dutch West India Co. was formed in 1621, for promoting settlement in "New Netherlands," as the Dutch possessions in America were then called. In 1629, this company granted to Killian Van Rensselaer, one of the commissioners, (a pearl merchant of Amsterdam,) a charter conferring upon him privileges similar to those enjoyed by the feudal barons of Europe. His

 $<sup>^{1}</sup>$  A geological and agricultural survey of Albany co. was made, in 1820, by Dr. T. Romeyn Beck, for the Co. Ag. Soc., and was the first enterprise of the kind in the state.— Mem. Bd. Ag., i. 367. 2 See page 100.

<sup>&</sup>lt;sup>2</sup> See page 160.
<sup>3</sup> This penitentiary was built in 1845-46, and opened for prisoners in April, 1846. It was organized under the direction of Amos Pilsbury, in 1848, and has since continued under his direction and that of his son, Lonis D. Pilsbury. It has 300 cells, and the average number in confinement has been 220. The convicts are averagely employed in the manufacture of came. convicts are principally employed in the manufacture of cane-seat chairs and saddlery hardware. During the first 8 years the total receipts were \$115.082, and the total expenditures \$104,680. 4 The tide rises here 6 b. 34 m. behind time of the moon's southing.

<sup>6</sup> The Eric Canal terminates in a basin at Albany, and communicates with the Hudson at West Troy. It crosses the Mohawk River, above Coboes Falls, upon a stone aqueduct. A company has been incorp, for building a ship-canal from Albany to New Baltimore, a point below the bars which obstruct navigation.

7 Leased by the Western (Mass.) R. R. Co.

8 The pier is built across a curve io the west shore, and opens into the river at both ends. It is divided for the accommodation of the railroad ferries, and is 1½ miles long. It was formerly closed by locks. The basin inclosed within the pier affords a secure harbor, during winter, for river vessels and canal boats, which otherwise would be exposed to destruction from ice. The pier otherwise would be exposed to destruction from ice. The pier is owned by an incorporated company.

agents' made large purchases of land lying on both sides of the Hudson, near Albany,2 in 1630-37, at which last date the manor embraced a territory 24 mi. n. and s. and 48 mi. E. and w., including nearly all of the present counties of Albany and Rensselaer.3 By the terms of the grant the charter would be forfeited unless the lands were settled in 7 years by at least 50 persons over I5 years of age. A ship load of emigrants was forwarded in 1630, and others in each of several succeeding years. The emigrants were furnished with stock, seeds, and farming implements, and the land was leased at an annual rent, payable in grain, beeves, and wampum, or a share of the products.4 The proprietor received the title of Patroon, and in him was vested authority in civil and military affairs subordinate only to the West India Co. and the States General. He had his forts, soldiers, cannon, and courts of justice; and, although the laws allowed an appeal from the decisions of the local courts, he required every person who settled within his jurisdiction to pledge himself never to exercise this right. Altercations soon arose between the agents of the patroon and the officers of the garrison at Fort Orange, in regard to the land immediately around the fort; and the controversy was not settled until after the English conquest.<sup>5</sup> The settlement formed under Van Rensselaer gradually acquired importance as a trading post, and a considerable hamlet was built under the guns of Fort Orange.6 Mills were built on several of the streams, and a church was erected. By the surrender of the colony to the English, in 1664, the personal rights of the colonists were secured, and a new charter was granted to the patroon, restricting his civil power, but confirming the relations existing between landlord and tenant.<sup>7</sup> The feudal tenure was finally abolished in 1787.8

The leasehold tenures, from an early period, excited discontent among the tenants.9 The late patroon, by his indulgence, had secured their regard; and when he died, in 1839, the course that would be pursued by his successor became a matter of solicitude. A committee of respectable men, appointed by the tenants to wait upon him and confer upon subjects of mutual interest, were treated with marked coldness and disdain, which quickly led to the organization of armed resistance to the enforcement of civil processes in the collection of rent. In Dec. 1839, the excitement was so great in the w. part of the county, that the Governor issued a proclamation, and sent an armed force to assist the civil officers. The people finally dispersed, and no collision ensued. For many years the anti-rent question greatly excited the public mind in all sections of the State where the leasehold tenure prevailed. Within a few years, much of the land has been conveyed in fee to the lessees; and probably in a few years the whole question will be amicably arranged in this manner.<sup>11</sup> There are 17 newspapers and periodicals now published in the county.<sup>12</sup>

1 Janson Krol and Derick Cornelissen Duyster, commissary |

and under commissary at Fort Orange.

2 The tract first purchased, w. of the Hudson, extended from Beeren (Bear) Island—called by the Indians "Passapenock" np to Sneackx Island, and "of a breadth of two days' jour-

ney."
3 On the 1st of Oct. 1630, a copartnership was formed between Van Rensselaer on the one part, and Saml. Godyn, Johannes de Lact, Saml. Bloemmaert, Adam Bissels, and Toussaint Moussart on the other, by which the latter were constituted co-directors of Rensselaerwyck, and were bound to do homage and fealty to

the lord of the manor.

4 The patroon reserved the right to trade with the Indians. For several years this trade was carried on by the settlers, who received goods from the patroon's store, and sent the peltries which they received to be sold by him in Holland. This busi-

ness afterwards fell into the hands of local traders.

5 So active did this controversy become, that at one time Gov. Stnyvesant sent an armed force to Albany to support the rights

of the company against the preprietor.

6 This place soon became the seat for holding all great councils with the Indian tribes. Among the curious things mentioned in the annals of the "old colonie" is the fact that, during an almost unprecedented freshet in the spring of 1646, a whale 40 feet long came up the river and stranded on an island near the mouth of the Mohawk. Four others stranded the same season, 40 Dutch mi, above New Amsterdam.

For a concise view of the changes made by this charter, see
 Barnurd's Hist. Sketch of Rensselaerwyck, p. 107.
 The manerial title has descended as follows:—

KILLIAN VAN RENSELBARE, first Fattroon, died in 1647, at Amsterdam, leaving the property with his two sons.

JOHANNES and JEREMAR. Each of these had a son named KILLIAN, the former of whom died without issue in 1687, leaving the title with

Killian, son of Jeremian. Dongan's patent was confirmed to the two consins Nov. 5, 1685, and all other claimants released to the survivor in 1695; to whom also Queen Anne's patent of confirmation was granted May 20, 1704. He willed the property to his son, JEREMIAH, and to the male heirs of his body; but, dying without

issue, the title passed to his younger brother,

STEPDEN, who had a son (sole heir under the will above mentioned,) named

tioned.) named
STEPHEN, who died in 1769, leaving the title with
STEPHEN, the late patroon, who was born in 1764, and died
in 1839. The entail ended with this person, who, in his
will, gave the w, part of the manor to his sen, STEPHEN,
the present preprietor, and the E. part to his sen,
WILLIAM P., of New York.

The "Quarter Sales," as they were technically called, I
which the landlord claimed a part of the purchase money at
each transfer of a lease, was particularly chorytons. In 1850

each transfer of a lease, was particularly obnoxious. In 1850 the Quarter Sales were declared unconstitutional by the Su-

preme Court.

19 This movement led to the adoption of Art. 1, Sec. 14, in the constitution of 1846, prohibiting the lease of agricultural lands

for a longer period than 12 years.

11 The relative amount of the land held by lease and in fee in The relative amount of the sand near by mass and in result the county is now nearly as follows:—In Watervliet, nearly all held in fee; in Guilderland, three-fourths; in Bethlehem, Cocy-mans, and New Scotland, two-thirds; in Knox, Rensselaerville, and Westerlo, half; and in Bern, one-third,-the remainder being held by lease.

12 The following list is imperfect, but is supposed to include all the more important newspapers ever published in the Co-We are indebted to Joel Munsell, printer, for assistance, and the use of his immense collection of specimen numbers, in the prepaation of this class of statistics.

The Albany Gazette was first issued in Nov. 1771, by Alex. and James Robertson, who joined the loyalists in N. Y. in 1776.

The New York Gazetteer or Northern Intelligencer, in 1782, by Solomon Balantine and Charles R. Webster. In 1784

Solomon manufine and charles R. Weister. In 1784 the name was changed to the same was changed to the Albany Gazette, and in 1788 a semi-weekly edition was issued. In March, 1817, united with the Albany Dauly Advertiser, and took the name of The Albany Gazette and Daily Albartiser, continued until 1845.

The Albany Journal, or Montgomery, Woshington, and Columbia Intelligencer, semi-w, in winter and w, in summer was started in Jan. 1788, by Chas. R. & Geo. Webster,

and published in connection with the Gazette.

The Albany Daily Advertiser, Sept. 1815, by Theodore Dwight.

In 1817 W. L. Stone united it with the Albany Gazette. 
The American Journal of Science and Art. Thos. McKee, editor. 
The Albany Register was published by Jobn Barber from 1785 
till 1808, and by S. Southwick till 1817. 
The Federal Herald, by Claxton & Babecck, brought from 
The Albany Custind, semi-w. 1796. In Nov. 1806 changed to 
The Republican Crisis. Backus & Whiting and Isaac Mitchell 
were successively publishers.

by J. Hazen, and afterward removed to Irvington, N.J. It was in part successor to the Ch. Messenger, pub. at

The Subary Dutchman and The Albany Dutchman

The Albany Dutchman and The Albany Dutchman

ALBANY CITY -was incorporated by patent July 22, 1686,2 having previously enjoyed divers rights and privileges, under the names of "Beverwick," "William Stadt," and Albany. The Dutch styled it "New Orange." The part of the city north of Patroon and Quackenhoss Streets, known as the "Colonic," was incorp. March 31, 1791; and again, March 30, 1801. It was made a village April 9, 1804; and was creeted as a town April 11, 1808. The town was divided, and merged in Albany and Watervliet, Feb. 25, 1815. The city lies upon the w. bank of the Hudson River, a little N, of the center of the county; and embraces a strip of land about one mile wide, extending 133 miles in a N. w. direction to the N. boundary of the A narrow intervale of low land lies along the county.

eourse of the river, bounded by steep banks from 150 to 250 feet high, where a barren region commences, rising toward the w., and broken by numerous sand hills and ridges. The banks which form the declivities of this tract are separated into several distinct ridges by the deep gulleys worn in the clay by the streams which flow through them. The soil, except near the river, is a light sand, not adapted to cultivation without the aid of costly artificial means. A mineral spring was obtained on Ferry St. in 1827, while boring for water.3 Albany is situated near the head of navigation upon the Hudson, and at the eastern terminus of the Eric Canal.4 The several railroads before mentioned render it a place of considerable commercial importance.<sup>5</sup> It is the largest barley market in the U.S., and immense

The American Migazine, mo., by J. S. & B. Wood, was pub. 11 yr.

The Gord, no., was published by John Tanner 2 years.
The Albuny Library Gazette was published by John B. Germain.
The Rural Edio was started at Rensselactville in Jan. 1828, by

C. G. & A. Palmer, and continued 2 years. An Anti-Rent paper has also been published. The Zodiac, mo., was published about 1836 by Gen. De Coudrey Holsteir

The West Troy Advocate was commenced at West Troy in Oct. 1857, by Wm. Hollands, and is now published by his widow and son.

I shed by his widow and son.

Watervliet Daily Democrat was started at West Troy
Jan. 20, 1839. Allen Corey, ed.

The Colors Advertiser was started at Colors in 1845 by Winants
& Agnes. In 1849 its name was changed to

The Cohors Catarnet. J. H. Masten, publisher.

1 The name Albany was derived from the Seatch title of the
Duke of Verk to when the regime was graphed.

Duke of York, to whom the province was granted.

<sup>2</sup> The charter conveyed municipal jurisdiction over the territory bounded E. by the low water mark on the Hudson; S. by a line drawn from the southernmost end of the pasture at the S. end of Martin Gerritsen's island, and running back due N. w. 16 nules into the woods to a certain creek called Sandkil: N. by a line parallel to the former, about 1 mile distant; and w. by a me jaraner to me termer, about 1 me discuit, and 3.50 are struight line drawn from the western extremities of the N, and 8, lines. This chatter embraced the right of cettain public buildings and fields, the ferry, all waste land within the boundaries, the right of fishing in the Hadson within the county, and of purchasing of the Indians 500 acres of meadow land at "Schaatcogne" on the N, and 1,000 acres at "Tionnouderoge". (Fort Hunter) on the w., in the Mohawk country, on which to plant colonies as barriers against hostile incursions. The quitent was fixed at one beaver skin, payable at Albany on the 25th of March annually forever.

This borng was commenced to obtain water for a brewery.

At a depth of 480 feet, sparkling water, of a saline taste and im At a depth of 480 feet, sparkling water, of a saline taste and impregnated with carboretted hydrogen gas, was obtained. The boring was continued to a depth of 617 feet without any change in the character of the products. A few rods distant a second well was bored, with similar results. One of the wells was ruined by placing a pump in the other.

4 See page 1.66.

5 Besides the river, canal, and railroads, there are 5 plank roads and 2 turnuloss bergoinsting in the eth.

roads and 2 turnpikes terminating in the city.

quantities of this grain are here mannfactured into malt and beer.\(^1\) Albany, Troy, and West Troy are the largest lumber markets in the State. "The Lumber District" in Albany is along the canal, above the little basin, where extensive wharves and slips have been built for transferring lumber from canal boats to vessels and barges upon the river.2 The manufactures of the city are varied and extensive.3 Among those that may be considered specially important are the stove-founderies and breweries. The city is amply supplied with water from works erected at public expense. The water is obtained from several creeks w. and N. of the city. The main reservoir (Rensselaer Lake,) is 5 miles w. of the City Hall, and is elevated 262 feet above the river. It covers 39 acres, and its capacity is 180,000,000 gallons. A brick conduit conveys the water to Bleeker Reservoir, on Patroon St., whence it is distributed through the portion of the city w. of Pearl St. This reservoir has a capacity of 30,000,000 gallons. The lower portion of the city is supplied from Tivoli Reservoir, on Patroon Creek, covering 20 acres, and has a capacity of 30,000,000 gallons. These works are under a Board of Water Commissioners, and the rents are charged to property owners and collected with the taxes.<sup>5</sup> Pop. 57,333.

The State buildings at Albany, including the Capitol, State Hall, State Library, Geological and Agricultural Hall, Normal School, and State Arsenal and Armory, have already been described under the head of State Institutions.<sup>6</sup> Besides these, there are several buildings and institutions worthy of a particular notice.

The City Hall is situated on Eagle St., fronting the E. end of Washington Avenue. It is an elegant structure, faced with Sing-Sing marble, and surmounted by a gilded dome,—the only one in the U.S. It was built at the joint expense of the city and county, and it contains most of the city and county offices.7 The jail is in Maiden Lane, near the City Hall.

The Albany Exchange, a massive granite building, is situated on Broadway, at the foot of State St. It was erected in 1839 by a joint-stock company, and contains the post-office, the general offices of the New York Central R. R. Co., and a variety of other offices.

The Public Schools<sup>8</sup> have hardly kept pace with the progress of other institutions of the city, or with the public schools of other cities in the State. Until within the last few years, the whole public school interest was under the charge of a Board of Commissioners, appointed by the Regents of the University. The people, having no power over school matters, took but little interest in them, and the schools languished in every department. There was a great deficiency in schoolhouses, in the number of teachers employed, and in the general supervision of schools. This system has been changed of late, and a series of improvements have commenced which bid fair to soon place the schools of Albany on a par with those of her sister cities. In 1857, there were 13 school districts, employing 53 teachers, 16 males and 37 females. The number of children between 4 and 21 was 18,359, of whom 6729, or 37 per cent., were in attendance some portion of the year. There are 70 private schools, reporting 3827 pupils.

The Albany Academy, (for boys,) fronting on Eagle St., opposite the State Hall, is a flourishing institution. It was chartered by the regents, March 4, 1813: the corner-stone of the present building was laid July 29, 1815, and it was opened for students Sept. I, 1817. Dr. T. Romeyn Beck was its principal for 31 years; and under him the school obtained a deservedly high reputation. The building is an imposing structure, of red Nyack freestone, in the Italian style, fronting on a park of 3 acres.10

<sup>1</sup> In 1856, the receipts of barley at tide water exceeded 2,000,000 |

bushels.

2 In 1858 there was received at Albany by canal, principally from the N., 207,406,411 feet of boards and scantling, 11,949,700 feet of timber, 31,823 M. of shingles, and 67,505 tons of staves. 3 The directory of 1858 gives the following aggregate of the manufacturing establishments in the city; 4 ag, implement fars.;

manuacuring estations meeting 19 bookbinderies; 10 breweries; 8 borler and steam-engine shops; 9 bookbinderies; 10 breweries; 9 break yards; 17 carriage and car fac.; 1 car wheel fac.; 6 astilleries; 4 drain tile fac.; 9 from mills; 13 harness shops; 8 hat fac.; 15 iron founderies; 11 machine shops; 14 mal houses; 15 printing offices; 3 safe fac.; 5 sawing and planing mills; 2 type and sterestype founderies; 13 stove manufac.; and 4 plano factories. There are about 50 commission merchants; 60 dealers in flour and grain; and 50 lumber dealers.

<sup>4</sup> In 1795 the corporation was empowered to construct water works, but nothing was done. Afterward the enterprise was completed by a private company, who obtained their supply of water from Maczlandt Kil, x, of the city. This supply not being sufficient, an act was passed in 1850 for the construction of public water works. The vote in the city stood, "For water," 4405, "No water," 6; "Brandy and water, strong," 1. The works of the old concern water appearance of the old concern water appearance of the conc

<sup>42.78-100</sup> miles. The receipts for the year ending Oct. 31, 1857, were \$75,550. The revenues are sufficient to pay the interest on the debt for construction and the cost of numerona, and leave a considerable balance to form a sinking fund for the final liquidation of the debt.

6 See pages 27, 44, 136.

7 This building is 109 feet front by 80 feet deep. In front it

has a recessed porch, supported by 6 lonic columns. In the center of the ball, in the second story, is a statue of Hamilton, by Hewes; and in the common council room are portraits of the first 13 Governors of the State.

8 A Lancasterian School Society was incorp. May 26, 1812, a

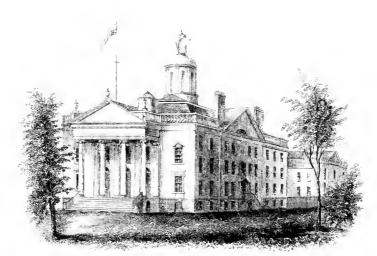

school having been maintained for some time previous. members of the common council were ex-officio members of the society, and those giving \$25 were entitled to a scholarship. In 1817, the society erected the building now occupied by the Albany Medical College, for the use of the school, which continued to be occupied until 1834, when the school was superseded by the public school system of the State. Wm. Tweed Dale was principal of the school for 23 years.

9 The total expenses of the schools for 1857 were \$44,310 10.

<sup>&</sup>quot;Ane total expenses of the schools for 1857 were \$44,310 10. Total receipts, the same. No. of volumes in Dist. Libraries, 9285. The original cost of construction was \$850,000; and the total cost of the old company were purchased and the present works built.

The original cost of construction was \$850,000; and the total cost of Jan. 1, 1858, \$1,018,495. The main pipes measure; gent yenth.

NEW FORK STATE CAPITOL

The Albany Female Academy, on N. Pearl St., was established in 1814, and incorp. in 1821, and the present building was completed May 12, 1834. The institution has uniformly borne a high reputation. The building is in Grecian style, with an Ionic portico.1

The Albany Female Seminary, situated on Division St., was incorp. April 9, 1828. It is under the charge of the Meth. denomination.

The Albany Institute, a society for the promotion of science and art, was incorp. Feb. 27, 1829 by the union of Society of Arts and the Albany Lyceum of Natural History.<sup>2</sup> It has three departments, devoted to-1st, Physical Sciences and the Arts; 2d, Natural History; and 3d, History and Gen. Literature. During the winter months it holds semi-monthly meetings. It has a valuable library, and an extensive cabinet of minerals and of specimens of natural history.3

The Young Men's Association was formed in 1833, and incorp. March 12, 1835. It supports a lecture course during the winter, and has a library of above 7000 vols., and a reading room supplied with 70 papers and 15 other periodicals. It is the oldest institution of the kind in the U.S., and has about 1000 members.

A Catholic Young Men's Association has sustained a course of lectures for several winters.

The Albany Industrial School, erected by the city in 1857, for vagrant children, is not completed. It is located in the rear of the Penitentiary. The Albany Mercantile College (Bryant, Stratton & Co.) is located on Broadway. (See p. 748.)

The Dudley Observatory, on an eminence in the N. border of the city, was founded through the munificence of Mrs. Blandina Dudley and other liberal patrons of science. It was incorp. April 2, 1852, and its management intrusted to 15 trustees. The building is admirably arranged, and furnished with instruments, several of which are the largest and most delicate ever constructed. It was dedicated Aug. 28, 1856, and placed under the charge of a scientific council, to be employed by the coast survey in the determination of longitudes, and other purposes connected with that great national enterprise. It has a special library of about 1000 volumes.4

The Albany Medical College, located upon Eagle St., was incorp. Feb. 16, 1839. Two courses of lectures are held annually; and the institution has secured a deservedly high reputation in the medical profession. It has an extensive medical museum, and a choice library of 5000 vols.

The Law School of the University of Albany was instituted under the university charter of April 17, 1851. Two courses of lectures are annually held in rooms attached to the medical college building. This school has obtained an excellent reputation.

The Albany Almshouse, consisting of a poor house, 5 insane asylum, 6 and a fever hospital, 7 is located upon a farm of 116 acres,  $1\frac{1}{2}$  miles s. w. of the city, and is entirely owned and managed by the city authorities. These departments are supplied with commodious and appropriate buildings. The Industrial School building is located upon the same farm.

The Albany City Hospital, located on Eagle St., was incorp. April 11, 1849. It was founded by private subscription, and the present building<sup>8</sup> was opened for the reception of patients Aug. 8, 1854.<sup>9</sup>

The Albany Orphan Asylum, on Washington St., at the junction of the Western Turnpike, was incorp. March 30, 1831, at which time it had been in practical operation for nearly two years. It was commenced as a private enterprise, and the present building was creeted by subscription and the product of several ladies' fairs. It is now supported by funds received from the State, the interest on its endowment, and the proceeds of an annual fair.

The St. Vincent Orphan Asylum was incorp. in 1849. The female department, situated on N. Pearl St., is under the charge of the Sisters of Mercy. The male department, 2 mi. w. of the capitol, is under the eare of the Christian Brothers.

The first church (Ref. Prot. D.) was formed in 1640. Rev. Johannes Megapolenses was settled as pastor in 1642, under the patronage of the patroon. A regularly organized Lutheran church existed in 1680, but the date of its formation is unknown. It was reorganized Aug. 26, 1784.

<sup>1</sup> The Albany Library, kept in this building, was incorp. Feb. Swede, and purchased by John F. Rathbone.

<sup>1</sup> The Albany Library, Rept in this unusing, was morely 14, 1792. It contains about 5,000 vols.

2 Prof. Henry, of the Smithsonian Institution, read his first scientific papers before this association, and performed his first original experiments while a pupil at the Albany Academy. The Society for the Promotion of Agriculture, Arts, and Manufactures, was established in 1791, incor. 1793, and expired in 1804, by limitation of charter. Revived as the Society for the Promotion of Useful Arts: incor. 1804. These were State Institutions, and the latter became local on the establishment of the Board of Agriculture, in 1819, and continued a city institution until its union with the Albany Lycenin of Natural History in 1829.

3 The library and cabinet are kept in the Albany Acad. building.

4 The building is in the form of a cross, 86 by 70 feet. Among

<sup>4</sup> The building is in the form of a cross, 86 by 70 feet. Among the instruments is a calculating engine, made by C. Schentz, a

It is the only one A large class of calculations is performed by its in existence. in existence. A large class of calculations is performed by its use, and the results are impressed upon leaden plates, ready to electrotype and print. This institution has been involved in an unhappy controversy between the trustees and council, which has embarrassed its plans; but it is now in active operation under cheering auspices.

<sup>&</sup>lt;sup>5</sup> The city contracts to support county paupers at \$1.25 per week each. A school connected with this institution is kept throughout the year.

<sup>6</sup> Built at an expense of \$12,000, and with accommodations for 80 inmates.

<sup>8</sup> This building was erected by the city for a jail.

<sup>9</sup> The whole cost of the institution has been about \$50,000.

The first Prot. E. Church (St. Peter's) was erected in 1715, on a site granted by the governor of the colony. It stood in the center of State St., opposite Barrack (now Chapel) St., and was demolished in 1802, and the present edifice built by Philip Hooker. The communion plate of this church was presented to the Onondagas by Queen Anne. The most imposing and costly church edifices in the city are the Catholic Cathedral of the Immaculate Conception, corner of Eagle and Lydius Sts., and St. Joseph's (R. C.) Church. There are now (1858) 48 churches in the city.1

At an early period Albany acquired much importance from being the principal center of the Indian trade, and afterward the place where the great military expeditions against Canada were fitted out.<sup>2</sup> Its importance as a military station led to its being fortified at an early period; and, although it was often threatened with invasion, no hostile army ever reached it.3 It became the permanent seat of the State government in 1797. For 30 years after the Revolution, Albany was the seat of the entire trade of the western part of the State, the produce being brought in by sleighs in winter. The first great impulse to its commercial prosperity was given by the successful trip of the Clermont, the first steamboat of Fulton, in 1807, and the improvements in steam navigation which immediately followed. The steamboats now upon the Hudson River are among the very largest that navigate any inland waters.5 The completion of the Eric Canal, in 1825, and of the various lines of railroads since that time, have each essentially added to the growth and prosperity of the city.<sup>6</sup> Business is principally centered upon Broadway, State, S. Pearl, and Washington Sts. The Dutch language and customs, which continued until long after the English conquest, have almost entirely disappeared. Very few families retain any characteristics of their origin, although many occupy the same lots that were conveyed to their ancestors two centuries ago. The peculiar Putch architecture has now nearly disappeared, and within the limits of the city there are not more than a dozen houses with the sharp gables fronting even with the street, the tile roof, and antiquated appearance, so common but a few years ago. The city has been visited by several disastrous fires,7 and the lower part has often been inundated by water.8

BERN9—was formed from Rensselaerville, March 17, 1795. Kuox was taken off in 1822. It lies near the center of the western border of the county. The Helderbergh Mts., 1200 feet above tide, form the eastern border. Grippy and Irish Hills, two broad mountains, with steep declivities and rolling summits, 900 to 1000 feet above tide, occupy the center. The s. and w. parts are hilly, and the N. rolling. The principal streams are the Foxen Kil and the Switz Kil. These streams flow x, w. through narrow valleys bordered by steep hill sides. Werners and Thompsons Lakes, in the N.E., are small sheets of water. In the lime rock, in the N.E. part, are numerous small caves and sink holes.10 There are several sulphur springs in town. The soil is a sandy and gravelly loam interspersed with clay. Bernville (Bern p.o.) contains 50 houses; " E. Bern (p. v.) 15: S. Bern (p. v.) 15: and Reidsville (p. v.) 12. Peoria is a small village on the line of Knox, Settlement was begun about 1750 by a few German families. In 1777, a company of 85 militia were raised in this town, of which the captain and 63 men joined the British, and the remainder the Americans at Saratoga. Bernville, then ealled "Beaver Dam," was fortified during the war, and sentiuels were posted at night to prevent surprise by the Indians.<sup>13</sup> The place at one

<sup>&</sup>lt;sup>1</sup> Of these there are 8 Meth. E., 7 Bap., 5 Prot. E., 5 Presh., 5 R. C., 3 Ref. Frot. D., 3 Jewish Syn., 3 Evang. Luth., 2 Wes. Meth., Cong., Evang. Ber. Asso., Evang. Prot. Ger., Asso. Presh., Friends, Utilia., and Univ.

<sup>2</sup> on the 19th of June, 1754, the first Congress of the colonies assembled at Albany, to devise a general plan of union and measures of defense, in view of the French and Indian hostilities, measures of deceles, in view of the French and Fanolan hostuffica-then just commencing. This Congress consisted of delegates from N. H., Mass, R. L. Comb., N. Y., Penn., and Md. The "plan of mino" drawn up by Dr. Franklin was adopted, but it was afterward rejected by the British government as being 100 demo-cratic, and by the coloniess a giving too much power to the king. 3 The first fort was built by the Dutch, in 1614, on the island

below the city, which is hence called Castle Island. In 1617 a fort was built at the mouth of the Normans Kil; and in 1628 fort was unit at the mouth of the Normans Ku; and in 1628 another was erected near the present scannional landing, in the s. part of the city, and named Fort θrange, in honor of the regning prince of Holland. A quadrangular fort, called "Fort Frederick," was afterward built on the bard ground, now State St. between St. Peter's Church and the Geological Hall, with lines of palisades extending down Stenben and Hudson Sts. lines of pall-sides extending down Stenten and Hidson Sts. to the river. These fortifications were demolished soon after the Revolution, and the only evidence of their existence now re-nutning is the curved outlines which they have given to the streets in the older parts of the city.

4 The Clermont was 100 feet long, 12 feet wide, and 7 feet deep. The first voyage to Albany was accomplished in 28 hours and 45 minutes. This boat was afterwards enlarged, and her name changed to the "North River."

<sup>5</sup> As a contrast to the "Clermont," it may be stated that the "Isaac Newton," of the People's Line of Steamers, is 404 feet long, 75 wide, and 47 deep, and has sleeping accommodations for

iong, 5 wide, and 4, deep, and has seeping accommodations for more than 700 passengers.

<sup>6</sup> The sloop "Experiment," of 80 tons, Capt. Stewart Dear sailed in the fall of 17.55 from Albany to China. This was the second vessel from the U.S. to Cauton. She was absent 18

second vesser from the C.S. to Canton. She was absent 18 months, and returned with a cargo of teas, nankeens, damask silks, and 13 sets of China ware, to order, for family gifts, 7 A fire in 1797 burned 96 dwellings, and rendered 150 families houseless. Aug. 17, 1848, a most destructive fire broke ont, which destroyed a considerable portion of the commercial part of the city bordering upon the river, and also many boats in the basin.

<sup>8</sup> Upon the breaking up of the ice in the river, Feb. 9, 1857, the water completely submerged the lower part of the city, and came up so high that it covered Broadway in front of the Exchange. The damage to property was immense.

9 Named from the native place of Jacob Weidman, first settler

<sup>\*</sup> Samed from the native place of Jacob Weidman, first settler and mill owner.
<sup>10</sup> In one of these caves, during the war, a notorious tory and spy named Salisbury was concealed for some time, but was at last arrested. The place is still known as "Tory's Hole."—Simma's Schoharie, p. 525.

<sup>11</sup> In 1825 an extensive ax factory was erected here; but it was soon after removed to Cohoes.

12 Fermerly called "Philadelphia," and still locally known as

<sup>13</sup> The family of Johannes Deitz, consisting of S persons, were murdered by the Indians.—Simms's Schoharie, p. 499.

time became a rendezvous for tories.1 The Ref. Prot. D. Church of Beaver Dam was formed in Jan. 1763. The first settled pastor was Johannes Schuyler, in 1767.2

BETHLEHEM-was formed from Watervliet, March 12, 1793. New Scotland was taken off in 1832. It lies on the bank of the Hudson, E. of the center of the county, and includes the islands w. of the main channel of the river. Its surface consists of a rolling upland, ending upon the river in steep bluffs 100 to 150 feet high. Near the center of the town are a few sand ridges and rocky knolls. The principal streams are Coeymans Creek, Vlamans Kil and Normans Kil. The declivities of the upland are broken by numerous deep gulleys worn by streams flowing into the Hudson. There are two small caves, several sulphur springs, and quarries of coarse brown sandstone, in town. The soil is sand and clay.3 Groesbeck is a suburb of Albany. Pop. 1,232. Kenwood, a village near the mouth of Norman's Kil, contains an extensive mill, and a manufactory of woolen and cotton knit goods. Upper Hollow, Adamsville, Normanskill, (p. o.,) Bethlehem Center, (p. o.,) Beckers Corners, Cedar Hill, (p. o.,) and S. Bethlehem are hamlets. Callanaus Corners, in the n. w. corner, is a p. o. On the hills overlooking the Hudson below Albany are several fine country seats. The first settlement was made upon Castle Island,4 in 1614, and a fort erected the same year. As this island was liable to overflow, in 1617 another fort was built at the mouth of Normans Kil.5 Agricultural improvements commenced in 1630, by tenants under Van Rensselaer. Mills were built on the Normans Kil and Beaver Kil at a very early period. A part of the house known as "Whitehall," near the Delaware Road, was built by Gen. Bradstreet, and during the Revolution is said to have been a secret rendezvous for tories. Cherry Hill, just out of Albany, on the river road, was the residence of Gen. Solomon Van Rensselaer. A Ref. Prot. D. church was formed in colonial times, and in 1794 S. Van Rensselaer gave the society 100 acres of land, known as the parsonage farm.<sup>6</sup>

COEYMANS—(Quee'mans) was formed from Watervliet, March 18, 1791. A part of Westerlo was taken off in 1815. It was named from the patentee. It is the s. E. corner town in the county, and includes the Barren islands in the Hudson. Its surface consists of an upland, 200 to 400 feet above the river, broken by ridges and hills rising 100 to 400 feet higher. The principal streams are the Coeymans' and Haanakrois Creeks. In the former, at Coeymans village, are two falls at which the stream descends, in the aggregate, 75 feet. Lawsons Lake is a small sheet of water in the N. w. part of the town. A stratum of marble or limestone extends through the town 3 or 4 mi. from the river. In the N.E. part are two caves, the largest extending 40 rods into a perpendicular ledge. Feuri-Spruyt Kil, a small stream in the x. part, disappears, and flows for half a mi. in a subterranean passage, coming to the surface again in New Scotland. At the place where the stream disappears it falls perpendicularly into a deep cavity, forming a considerable water power. Another break, in the w. part, flows in a similar manner under ground for 40 or 50 rods. There are several mineral springs in town, impregnated with sulphate of magnesia. In the E. the soil is sand mixed with clay, and in the w. it is gravel and clay. The fossil remains of a mastodon were found on the farm of Mr. P. Gidney, 6 mi. w. of the river. Large quantities of hay are sent annually from this town to the New York market. Cocymans Landing, (Cocymans p.o.,) on the Iludson, is a village of considerable trade. Pop. 650. Cocymans Hollow, (p.o.,) Stephensville. and Indian Fields (p.o.) are small villages in the valley of the Haanakrois. Keefers Corners is a p.o. Barent Peterse Coeymans, an emigrant from Utrecht in 1636, settled under the patroon as miller, and leased the mills upon the Patroon Creek and Normans Kil. In 1673 he bought the territory included in this town of the Catskill Indians, and a patent was granted him April 17, 1673, by Gov. Lovelace. Van Rensselaer had previously bought the same lands of the Mohawks; and a conflict of titles ensued. The matter was finally settled in 1706, by Coeymans agreeing to receive title under the patroon and pay a small annual quit rent. Settlement commenced early in the last century. The first mills were erected by the patentee at Coeymans

<sup>1</sup> Cornelius Schermerhorn kept a tory rendezvous, and at one time an absc nding paymaster from Burgeyne's army is said to have been murdered at his house.

<sup>2</sup> A parsonage farm was given to this church by S. Van Rens-<sup>2</sup> A parsonage arm was given to this course by \$\frac{1}{2}\$ and \$\frac{1}{2}\$ eschaer, midway between Fernville and Feoria, and a churich was creeted upon it. In 1835 the society was divided, and a new edifice was creeted at each of the villages, the farm being held in common by both secteties. The census reports 13 churches in town; 4 M. E., 3 Christian, 3 Ref. Prot. D., and one, each, Bap.,

Evang. Luth., and Friends.

<sup>3</sup> The proximity of this town to Albany has afforded an excellent market for produce, and much of the land has been de-

island, and on some old maps, it is called Martin. Gerritsen's Island.

<sup>5</sup> A map dated 1639 gives the name of "Godyns Kil" to the stream. The Indian name was Ta-wal-southa. The present name is derived from Albert Andriessen Bradt de Noerman, the lessee of the falls at an early period, and one of the first settlers, 6 There are 6 churches; 1 T. R. Ch., 2 R. P. D., 2 M. E., 1 Proble 7 The Indian name of this creek is said to have been Chick kerban and of the flets of Connection.

thau, and of the flats at Coeymans Hollow Acheque-tuck. 8 This arrangement was confirmed by patent from Quech Anne, Aug. 6, 1714.

<sup>9</sup> Andreas and Lendert Whitbeck were early settlers near voted to the production of milk, butter, and culinary vegetables. Ach questuck; Daniel Traver and Balthus Keefer near Keefer.

1 1 1668 Martin Gerritsen Van Bergen had a lease of this Corners; and Δ. Serls, Juo. & T. Witbeck near Indian Fields.

Falls. The first church (E. M.) was built in 1792, 2 mi. west of Coeymans Landing. This church was organized March 1793, Rev. Freeborn Garrison first pastor.<sup>1</sup>

GUILDERLAND—was formed from Watervliet, Feb. 26, I803. It lies near the center of the northern border of the county. Its surface is greatly diversified. In the w. rises the precipitons wall of the Helderberghs to a height of 800 feet above the general level of the valleys. The central part is undulating, and the eastern is occupied by numerous sand ridges. The Normans Kil with its branches, the Bozen Kil,2 Black Creek, Wildehause Kil, and Hunger Kil, are the principal streams. The lower course of the Normans Kil in this town is through a narrow ravine, with steep elayey banks. The soil is light and sandy in the E., and gravelly loam mixed with clay in the w. A mineral spring is found upon the farm of Wm. McGowan. Hamiltonville, (Gnilderland p.o.,) formerly known as the "Glass Honse," is situated on the old turnpike, 8 mi. w. of Albany. Guilderland Center, (p.v.,) locally known as "Bangall," contains 18 houses. Dunnsville, (p.o.,) Knowersville, (p.o.,) and Frenchs Mills, on the Normans Kil, are small villages. During the Revolution, a portion of the inhabitants sided with the British; and the fends which grew up between families and neighborhoods have not yet entirely subsided. The Ev. Luth. church (St. Jame's) was organized Oct. 13, 1787. Heinrich Moeller was the first pastor.8

KNOX—named from the celebrated Col. Knox—was formed from Bern, Feb. 28, 1822. It is the N.W. corner town of the county. Its surface consists of a high plateau region broken by a few small hills. Its eastern part constitutes a portion of the Helderbergh region; but the declivities are so gradual that they only serve to give to the town a moderate inclination towards the N. and W. The Bozen Kil, forming a part of the E. boundary, with its tributaries, and the Beaver Dam Creek, are the principal streams. There are two caves, supposed to be of considerable extent, about 14 mi. N. of Knoxville. The soil is principally gravel and clay, with hard pan underneath. Knoxville (Knox p.o.) contains 23 houses. W. Township, (p.o.,) E. Township, and Peoria, on the line of Bern, are small villages. This town was settled by Germans before the Revolution. During the war the people became divided in politics, and after the defeat of Burgoyne many of the tory families went to Canada. Saml. Abbot and Andrew Brown, from Conn., settled in town in 1789; and soon after 20 to 30 families came in from the same State. The first church was a Ref. Prot. D.<sup>11</sup>

NEW SCOTLAND—was formed from Bethlehem, April 25, 1832. It is the central town of the county. The eastern and central parts are high and rolling, with occasional isolated hills and ridges; and the western border is occupied by the Helderbergh Mountains. The principal streams are Normans Kil, Vlamans Creek, and Coeymans Creek, (or Oniskethau Kil,) and several of their tributaries. Upon the side of Bennett Hill, in the s.w. part, is a strong sulphur spring. Near Clarksville are two caves, extending respectively  $\frac{1}{8}$  and  $\frac{1}{2}$  mi. under ground. Streams flow through each of them. The ontlet of Lawsons Lake, in the n.w. part, about I mi. from the lake, falls into a deep cavity and flows 1 mi. in a subterranean passage, and in its course it receives a considerable tributary.<sup>12</sup> At the northern foot of Copeland Hill, near the same locality, are remarkable sink holes, 5 to 8 feet in diameter, and extending down through the soil and lime rock to a depth of 10 to 20 feet. A subterranean stream connects the bottoms of these cavities. 13 The soil is a gravelly loam mixed with clay. Clarksville (p. v.) is situated at the foot of the Helderberghs, on Coeymans Creek, and contains 211 inhabitants. New Salem (p. v.) contains 27 houses; and New Scotland (p. v.) 15. Unionville, (Union Church p. o.,) Feuribush,

Since the Revolution, a small number of Indians belonging to Since the Revention, a small number of indians belonging to the oneids tribe lived in this town. They removed, but re-turned for a short time in 1812. An acct. of £10 was audited in 1792, for huilding stocks and a whipping post. 1 The census reports 6 churches in town; 3 M. E., R. P.D.,

R. C., and Union.

<sup>2</sup> From "Boos," angry, because of its rapid descent and severe

freshets.

Irespect.

3 A glass factory was erected here in 1792; and in 1793 the State loaned the proprietors £3000 for 8 years.—3 years without interest and 5 at 5 per cent. In 1796 the project was conceived of establishing here a manufacturing town, and the ground was land out into streets and lots, under the name of Hamilton. To encourage the project, the company and workmen were exempted encourage the project, the company and working were examples from taxation for 5 years. The works were discontinued in 1815 for want of fuel.—Munsell's Annals, vol. 111, p. 157.

4 Named from Christopher Dunn, original owner; locally known as "Hardscrabble."

5 An inn was kept here during the Revolution by Jacob Aker. It was the seat of a factory in 1800.

<sup>6</sup> Named from Abel French, who built a factory here in 1800.

A clothing works was erected here in 1795, by Peter K. Broeck.

The news of Burgoyne's surrender was celebrated by the whigs by burning a hollow chestnut tree on a hill. A barrel of tar had previously been turned down the hollow trunk and branches.

8 A. R. P. D. church was formed Dec. 14, 1793. The census

reports, besides those already mentioned, 3 churches; 2 Presb.

and I.M. E.

9 Knoxville was formerly known as "Union Street," and is still locally called "The Street."

<sup>10</sup> Capt, Jacob Van Aernden was an active leader of the whige of this section during the war.

<sup>11</sup> The ceusns reports 6 churches; 3 M. E., R. P. D., Luth., and Bap.

12 This cavity has been explored, and in it are found beautiful

stalactites, and thousands of bats clinging to the roof. 13 This passage has been explored, and is found to contain

several rooms of considerable size. Some years ago a notorious thief used this cavity as a depository for stolen goods, and for s

and Oniskethau (locally known as "Tarrytown") are hamlets. Teunis Slingerland, from Holland, was the first settler on the Oniskethau flats. He purchased 9874 acres, and built a dwelling near the center of the tract, and erected the first mills.\(^1\) The first church (Ref. Prot. D.) was organized at New Salem about 1786.2

RENSSELAERVILLE—named from the Van Rensselaer family—was formed from Waterwhiet, March 8, 1790. Bern was taken off in 1795, and a part of Westerlo in 1815. It is the s.w. corner town of the county. Its surface is mostly upland, broken by parallel ridges extending N. and s. and rising 400 to 600 feet above the valleys. The principal streams are Catskill Creek and its tributaries, Scrub, Fox, Ten Mile, and Eight Mile Creeks, and Willow Brook. The valleys of these streams are narrow, and are bordered by steep hill sides, and the streams are rapid, and subject to sudden and destructive freshets. Upon Ten Mile Creek, near Rensselaerville, is a fall of 100 feet; and upon Willow Brook is another of 40 feet. Bog iron has been found in the z. part. There is a sulphur spring 2½ miles N.E. of Preston Hollow. The soil is clay and gravel, underlaid by hard pan. Rensselaerville<sup>3</sup> (p. v.) contains an academy.<sup>4</sup> Pop. 561. Williamsburgh, on the w. border of the town, contains 18 houses; Preston Hollow<sup>5</sup> (p.v.) 40; and Medusa<sup>6</sup> (p.v.) 30; Potters Hollow<sup>7</sup> and Cooksburg<sup>6</sup> are post-offices.<sup>9</sup> The town was mostly settled by emigrants from New England soon after the Revolution. Michael Brandt, a German from Schoharie, lived in town during the war.<sup>10</sup> Daniel Shay, the leader of the revolt known as Shay's Rebellion, moved to this town in 1795. Maj. John Edmonds, a Revolutionary officer, was also a settler in this town. The first church (Presb.) was formed in Nov. 1793, and the edifice erceted in 1796.11 Rev. Samuel Fuller was the first pastor.

WATERVLIET—was formed March 7, 1788, and included the w. district of the manor of Rensselaerwyck.<sup>12</sup> Rensselaerville was taken off in 1790, Coeymans in 1791, Bethlehem in 1793, Guilderland in 1803, and Niskayuna in 1809.13 It lies at the junction of the Hudson and Mohawk, in the N.E. corner of the county. Its surface is mostly an upland, 200 to 300 feet above the river. The declivities of this upland are broken by numerous gulleys worn by the small streams. A fine intervale, nearly half a mile in width, extends along the Hudson. At Cohoes, on the Mohawk, the river flows over a rocky declivity 78 feet in height, of which 40 feet is perpendicular.14 The banks, both above and below the falls, are high and precipitous. The Eric Canal rises, by a series of 18 locks, from the Hudson, through the village of Cohoes, to the most northerly angle of the town 3 mi. above, and 188 feet above tide. At this point it crosses the river into Saratoga co., in a stone aqueduct 1137½ feet long, 26 feet high, and resting upon 26 piers. The soil is a deep, rich alluvial upon the river intervale, and a light, sandy loam upon the upland. Sulphur and chalybeate springs, and bog iron ore, are found in town. The quarries of graywacke furnish an excellent flagging and building stone. This is the most populous town in the State. West **Troy**, (p.v.,) incorp. April 30, 1836, is a commercial and manufacturing village opposite the city of Troy. Pop. 8306. It is especially noted for the extent of its lumber trade, and for being the seat<sup>15</sup>

long time cluded the vigilance of those who were searching for |

long time cluded the vigilance of those who were searching for him. At length he was tracked to his hiding place, and the existence of the cavity was made known.

1 Among the other first settlers were William Pangburn and Wm. Vanattan at Stoney Hill; Ebenezer Wands, John Watt, Geo, Swan, and Wm. Kirkland, Scotch emigrants, near New Scotland; and Geo, Reed, John Patterson, Saml, Ramsey and sons, James McMullin, Bavid Allen, Wm. McCulloch, and Brundt in other parts of the town, also Tunis Hought-ding.

2 There are in town Schurches: 4 Ref Prot. D. 3 M. E. Presh.

<sup>2</sup> There are in town 8 churches: 4 Ref. Prot. D., 3 M. E., Presh. The Friends organized a meeting in 1812.

3 Samuel Jenkins, the first settler, located here February 22, 1788.
4 Opened Jan. 17, 1847.
5 Named from the family of first settlers, who came in soon

after the Revolution.

6 Formerly called "Halls Mills," or "Halls Hellow."

7 Named from Saml. Potter, who, with his sons and brothers.

were first settlers.

8 Named from Thomas B. Cook, who purchased land bere in anticipation of business from the Catskill and Canajoharie R. R.,

which was completed to this place from the Hudson. The road was run two years, when the rails were taken up.

9 Upon the farm of Ezra Lester, in a place known as Willow Glen, formerly stood a village, known as \*Pecklam Hollone," consisting of 2 stores, 2 smith's shops, and 14 houses. For a time it was a rival of Rensselaerville; but now not a vestige of it remains.

10 At the time of the Indian incursion into Bern, Mr. B. had gone to Catskill Landing, leaving his family alone. On their return, the savages passed close by with their scalps, prisoners, and plunder, but offered no molestation.

Truman Beman was the first pastor. A Bap, church was

Truman Beman was the first pastor. A Bap, church was formed at Preston Hellow in 1809; a Friends meeting at Potter Hollow in 1808; and Trinity Church (P. E.) was organized in 1816. There are besides, in town, 2 M. E. churches.

12 The manor was divided into the East and West Districts, March 5, 1779, the river being the separating bounds. This district, as defined by act of March 24, 1772, embraced all that part of the manor north of an E and w. line from Becren Island north to Cumberland co., except the city of Albany.

13 It includes the former village of "Gibbansville," (incorp. April 23, 1823.) and places Known as "Wickington" and "P of Schuyler,"

M The cascade is in full view from the real between a former districts and the cascade is in full view from the real between a former distributions.

<sup>14</sup> The cascade is in full view from the B. R. bridge, a few rods below Cohoes. The Champlain Canal crosses the Mohawk a short distance below, in a pond formed by a dam 1650 feet long and 7 feet high, and unites with the Eric Canal 2 mt. 8, of this

point. 15 The arsenal grounds occupy about 100 acres, located be tween the Troy and Albany turnpike and the Eric Canal, the latter furnishing water-power for the machinery of the arsenal. The grounds are inclosed by a high wall excepting the part between the river and the turnpike. This is the principal government manufactory of gun carriages, machines, equipments, ammunition, and military supplies for the troops and forts of the United States. The building of this establishment was begun in 1814, under Col. Goo. Romford, of the Ordannee description of the Contract of Manufacture of Manufactu partment, and it was for many years under the charge of Maj. Jas. Dalliba. The Watervliet Arsenal now consists of more than thirty buildings, of brick and stone, mostly large shops and storehouses,—the former of which will accommodate, in case of need, more than 500 workmen. The stores deposited and plunder, but offered no melestation.

11 A Bap, church was formed at Rensselaerville in 1797; Rev. | case of need, more than 500 workmen. The storage process of here exceed \$1,500,000 in value. A company of soldiers of the

of an extensive U. S. arsenal. It has a bank, printing office, 8 churches, and extensive manufactures of woolen goods, bells, butts and hinges, castings, earriages, and malt. The annual aggregate value of manufactured products is about \$1,000,000.2 Green Island (p. v.) was incorp. Oct. 14, 1853. Pop. 1,324. It contains 2 churches,3 a car factory, brass, malleable iron, and 2 iron founderies and R. R. machine shops. It is also the seat of considerable lumber trade.4 Cohoes, (p. v.,) incorp. under general act, is a manufacturing village upon the Mohawk, Pop. 6106. A dam is here erected across the Mohawk, and the water is conducted by eanals to convenient places for factories. The whole fall is 103 feet, and the water is used 5 times from canals of different levels. The annual aggregate of manufactured products is nearly \$2,000,000.7 The village contains two banks and six churches,8 and a large number of stores, shops, &c. Boght (p.v.) contains 15 houses. The Ref. Prot. D. church of this place was organized April 14, 1784, by Rev. E. Westerlo. Lishas Kil, Newtonville, 10 and Ireland Corners<sup>11</sup> are hamlets and p. offices. Loudonville is a hamlet, 2½ miles from Albany. Tivoli Hollow, on Patroon Creek, adjoining Albany, has extensive manufactures of ag. implements, bolts, and hollowware. North Albany lies on the river, north of the city. and contains 40 houses. It includes a portion of the "Lumber District" and several manufactories. Spencerville, or West Albany, is the name applied to the recent establishments of the N. Y. C. R. R., 34 mi. N. w. of the city, including the eattle and wood yards and car and engine houses of the company. The Shaker Settlement,12 in the w. part of the town, consists of about 300 persons, living in 4 distinct families, in a manner peculiar to that people. Town House Corners is a populous neighborhood near the center of the town, where town business has usually been transacted. Waterviiet Center (p. o.) is a hamlet. The Albany Rural Cemetery<sup>13</sup> was incorp. April 20, I841, and the site selected April 20, 1844. The premises were dedicated and consecrated Oct. 7 of the same year. Haver (Dutch for "Oat") and Van Schaicks Islands, in the Hindson above Green Island, are separated from each other and the mainland by the "Sprouts" of the Mohawk. Upon the approach of Burgoyne, in the summer of 1777, Gen. Schuvler retired to these islands and threw up fortifications to check the advance of the enemy expected from both the N. and W. Upon the retreat of St. Leger from the siege of Fort Stanwix, no further trouble was apprehended from the direction of the Mohawk Valley; and Gen. Gates, upon assuming the command of the northern army, advanced into Saratoga County. The traces of the fortifications are still visible.

WESTERLO<sup>14</sup>—was formed from Coeymans and Rensselaerville, March 16, 1815. It lies upon the center of the southern border of the county. Its surface is broken and hilly, with a general southerly inclination. The highest point in the northerly part of the town is 800 feet above tide. The hills are very steep and irregular, and the valleys are mere narrow ravines. The streams are Haanakrois, Basie, Wolf, Fly, and Eight Mile Creeks and their branches. These are all rapid streams, and are liable to severe freshets. The soil is a sandy and gravelly loam, inter-

Ordnance department forms the guard of the arsenal, and the men are also employed in the shops. Most of the employees are citizen mechanics. A large number of trophy cannon are de-

citizeli mechanics. A large number of trophy cannon are depesited monthe premises.

1 Bap. org. 1827; Ref. Prot. D., 1844; P. E., (Trinity.) 1835; 2 R. C., (8t. Patrick's, 1839, and 8t. Bridget's, 1851,) and 2 M. E.

2 The village is built on land formerly held by the Bleecker family. It was purchased by a company of Troy capitalists and laid out as a village, and has mostly grown up since the com-

pletion of the canals. 8 Presb. and M. E

piction of the cands.

4 It is situated upon an island in the Hudson directly op-posite the city of Troy, of which it forms a suburb.

5 The Cohoes Co. was incorp. March 28, 1826, with a capital of \$250,000. afterward increased to \$500,000. This co, built the dam, and constructed the canals, for the purpose of leasing

6 This dam is half a mile long, and the canal 2 miles long. 7 The following manufactories were reported here in the census of 1855:

6 knitting mills, value of product	\$647,100
2 cotton factories	615,000
1 ax and edge tool factory	210.000
2 bed-stead factories	45,000
1 veneering factory	42,000
2 mills	28,000
1 machine shop and foundery	34,200
1 tobacco factory	21,450
1 shoddy mill	21.840
1 wheel factory	9.000
1 straw paper factory	9,000
1 bobbin shop	6,000

There are now a considerable number of manufactories not in-

cluded in the above list.

8 M. E., Ref. Prot. D., Presb., P. E., (St. John's,) Bap., and R.

C., (St. Bernard.)

The Dutch for "bend," in reference to the bend in the Mohawk; sometimes called "Grossbeck Corners," from Wm. G.

hawk; sometimes called "Groesbeck Corners," from Wm. G. Groesbeck. One of the earliest settlements in the county was made in this neighborhood.

19 Named from J. M. Newton.

11 Named from E. H. Ireland, innkeeper.

12 This community was forned in 1776, by Ann Lee and her followers, by whom she is regarded as the spiritual mother of mankind. It is the oldest of the kind in the U. S., and now owns 3,000 acres, including about 300 acres of alluvial land on the Mohawk at the month of the Scholarie Creek and on Shaker Island, which are annually fertilized by the floods of the Mohawk, and chieft devoted to the raising of throom corn. The Mohawk, and chiefly devoted to the raising of broom corn. The Monawk, and chiefly devoted to the raising of broom corn. The whole number of buildings in the settlement is about 150, several of which are of stone or brick. They have a commodious church, duult in 1848, 3 offices, 1 schoolinous, 8 dwellings, (suitable for 50 to 100 persons each.) 2 grist mills, 3 saw mills, 3 machine slops, for turning, sawing, &c., and numerous other shops and storehouses. Their pursuits are agriculture, hortistical contents of the conte culture, the manufacture of brooms and medicines, and such mechanical trades as their own wants require. The females are employed in household work, dressmaking, spinning, weaving, braiding whiplashes and bonnets, and in making small salable articles. They keep 40 to 50 horses, 100 cows 16 yoke of oxen, 500 sheep, and young stock in proportion. "Mother Ann" (as their founder is affectionately named) was buried in the cemeter y near the church family.

12 This cemetery is located upon the hills west of the Troy and Albany Road, 4 miles from the city. The grounds are tastefully laid out, and condain many elegant monuments.

14 Named in honor of Rev. Eilardus Westerlo, of Albany.

spersed with clay and underlaid by hardpan. There are several fine quarries of flagging stone in town. Chesterville (Westerlo p. o.) contains 196 inhabitants. Dormansville, (p. o.,) South Westerlo, (p. o.,) Lambs Corners, and Van Lenvens Corners,<sup>3</sup> are hamlets. Settlement commenced before the Revolution.4 A Bap, church was organized, about 1800, at Chesterville; Roswell Beckwith was the first pastor.5

<sup>1</sup> Named in honor of Rev. John Chester, former pastor of 2d judge of the county, taught school in 1788. Robt. O. K. Bemet taught a school in 1790. Grant & Eadie kept a store and made potash at Chesterville in 1798. Lobdell & Baker built the first

#### ALLEGANY COUNTY.

This county was formed from Genesee, April 7, 1806. A portion of Steuben co. was annexed March 11, 1808. Portions were set off to Genesee in 1811, to Wyoming and Livingston in 1846, and to Livingston in 1856. It lies upon the s. line of the State, w. of the center; is centrally distant 220 miles from Albany, and contains 1,033 sq. miles. The surface is mostly an upland, separated into ridges and broken by the deep valleys of the streams. The highest summits, in the s. part, are 500 to 800 feet above the valleys and 2,000 to 2,500 feet above tide. The declivities are usually too steep for profitable cultivation. Toward the N. the co. gradually loses its mountainons character and spreads out into a hilly The Genesee River flows in a n. E. direction through region.

near the center of the co., forming a deep valley bordered by abrupt hillsides. The main ridges -parallel to the river and about 10 mi. distant from it-form watersheds, dividing the waters flowing N. from those flowing s. The streams E. of the E. ridge are tributaries of the Susquehanna, and those w. of the w. ridge of the Allegany. Narrow valleys break the continuity of these ridges, and in numerous instances streams flowing in opposite directions take their rise within a few rods of each other. The principal tributaries of the Genesee are Wigwam, Angelica, Philips, Vandemark, Dike, Chenunda, and Cryder Creeks on the E., and Fords, Knight, Van Campens, White, Black, Caneadea, and Six Town Creeks on the w. The streams flowing E. from the E. border of the co. are Canaseraga and Sugar Creeks, Canisteo River, Karr Valley, McHenry Valley, and Whitney Valley Creeks; and the streams flowing w. from the w. border are Oil, Wolf, Dodges, Deer, and Little Genesee Creeks.

The rocks of the co. belong to the shales and sandstones of the Portage and Chemung groups, the former appearing in the deep valleys in the N. part, and the latter covering the tops of the s. hills. At various localities the sandstone furnishes an excellent building material; and in Rushford it is quarried for grindstones. The shales in the s.w. part are highly charged with bituminous matter; and many of the springs have a strong bituminous taste and smell. spring in Cuba petroleum, or rock oil, issues in considerable quantities. Iron pyrites are found to some extent associated with the shale. Drift deposits are found in some portions of the co., The soil upon the uplands is generally a heavy clay, dethough not in large quantities. rived from the disintegration of the shales, and iu most sections largely mixed with undecomposed fragments of the rocks. In the valleys the soil is mostly a gravelly loam and alluvium. From the nature of its surface and geological formation, the co. is best adapted to grazing; and, although wheat and the spring grains are successfully produced, stock and wool growing and dairying form the principal branches of agricultural pursuit. The manufacture of lumber has formed the leading interest for a long series of years, and facilitated the occupation and cultivation of the lands; but as the primitive pine forests have disappeared the pursuits of the people have become more and more exclusively agricultural. A considerable portion of the s, part of the co, is yet covered with forests, and lumbering is still pursued to some extent.

The county seat is located at the village of Angelica. The courthouse is an old, dilapidated brick building, built in 1819, and now entirely inadequate to the comfortable accommodations of the courts. The jail is a wood structure, erected in 1849. It has no facilities for the proper classification of prisoners, and no means of ventilation.2 The clerk's office is in a separate building, contiguous to the courthouse. The poorhouse is located upon a farm of 180 acres in Angelica, 2 mi. E. of the courthouse. It is a stone building, affording ample accommodations for

at Angelica, and a courthouse and jail were authorized to be erected, under the direction of Moses Carpenter, John Gibson, and Wm Higgins. The jail was built soon after; but the courts continued to be held in private rooms until 1819, when the present courthouse was erected. The old jail continued to be continued to be held in private rooms until 1819, when the present courthouse was erected. The old jail continued to be coupied until 1849, when it was superseded by the present a weekly cost of \$2.75 each.

<sup>1</sup> By the act erecting the county in 1806, courts were structure. An act was passed, April 2, 1868, providing for the directed to be held at Angelica on the 2d of June, 1807. By an immediate removal of the county seat s, to the line of the act of March 11, 1808, the county seat was permanently located [N.Y. & Eric R.K.; but the expectation of the law has been are rested and restrained by legal proceedings now pending in the State courts. The first co. officers were Philip Church, First State courts. The first co. officers were Philip Church, First Judge; Jacob S. Helt, County Clerk; John Gilson, Sheriff; and

the inmates, but is destitute of means of ventilation. The average number of inmates is 57, supported at a weekly cost of \$1.03 each. The farm yields a revenue of \$1,000.1

The Genesee Valley Canal extends s. from the N. boundary of the co. along Genesee River to Belfast, thence up the valley of Black Creek to New Hudson, and thence across to the valley of Oil Creek, and down the valley of that stream to the w. bounds of the co. The N. Y. & Eric R. R. extends from Steuben co. up Whitney Valley Creek; thence across to Dyke Creek, and down the valley of that stream to Genesee River; thence down the Genesee to Belvidere: thence up Van Campens Creek to Friendship Village; thence across to the valley of Oil Creek, and down that stream to the w. bounds of the co. It passes through Almond, Alfred, Andover, Wellsville, Scio, Amity, Friendship, and Cuba. The Buffalo & N. Y. City R. R. extends through Burns and Grove, in the N. E. corner of the co.

Four weekly newspapers are now published in the co.<sup>2</sup>

The two western tiers of towns in this co. were included in the Holland Land Purchase, and the remaining part belonged to the Morris Reserve. John B. Church became the owner of 100,000 acres of this tract. His son, Judge Philip Church, subsequently became the proprietor of onehalf, or 50,000 acres, and the pioneer settler of the tract at Angelica, in 1804. A few settlers had previously located at different points in the valley of the Genesce; and the settlement of the co. may be said to have commenced with the century. The roughness of the surface, and the superior richness of the lands further N., had a tendency to retard the development of this co.; and for many years comparatively little progress was made. The construction of the Genesee Valley Canal and of the Erie R. R. gave an impulse to improvement and afforded an opportunity to convey the rich products of the extensive pine forests to a profitable market. Agricultural improvements have slowly followed the retreat of the forests; and now nearly one-half of the co. is under improvement to some extent.

ALFRED—was formed from Angelica, March 11, 1808. A part of Angelica was annexed in 1816. Almond and Independence were taken off in 1821, a part of West Almond in 1833, and a part of Ward in 1856. It lies upon the E. border of the co., a little s. of the center. The surface consists of deep, irregular hills separated by narrow valleys. The highest summits are 500 to 800 feet above the streams. Whitney Valley Creek flows to the N. E., and Dyke Creek to the s. The soil upon the hills is a clayey or shaly loam, and in the valleys a gravelly loam. Alfred Center (p. v.) contains a church, the Alfred Academy and University,3 and 177 inhabitants; Bakers Bridge, (Alfred p. o.,) in the N. E. corner, contains a church, flouring mill, and 134 inhabitants. It is a station upon the Eric Rail Road. Tip Top Summit is also a rail road station. The first settlement was made near Alfred Center, in May,

is reported as poorly kept. Lunatics were confined for weeks together without attendance and without having their cells cleaned; and it was a custom of the keeper to flog the inmates

with a raw hide.

2 The Angelica Republican was started in Oct. 1820, by Franklin Cowdery, and was continued 2 years. In 1827 it was revived as

The Allegany Republican, published by Samuel P. Hull. In 1832 it was changed to The Angelica Republican and Furmers and Mechanics' Press, issued by B. F. Smead. During the same year it was

again changed to

The Allegany Republican and Internal Improvement Advocate, and published by Peter Cherry. In 1836 it was issued as
The Angelica Republican and Allegary Who. It soon after passed
into the hands of Wm. Pitt Angell, who changed it to

The Angelica Reporter and Allegany Republican. It soon passed into the hunds of Samuel C. Wilson, and was issued for several years as

several years as

The Angelica Reporter. In 1841 it was published by Horace E.
Purdy and Chas. Horton; and in 1844 Mr. Horton became sole proprietor. In 1856 the purchased The Advocate and Whig, and published the combined paper as

The Angelica Reporter and Angelica Advocate and Whig, under which name it is still

issued. The Republican Ægis and Allegany Democrat was published at

Angelica in 1830.

The Allegany Gazette was issued at Angelica in 1840.

The Allegany Co. Advocote was started at Angelica in Jan. 1842. by Erastus S. Palmer. It was successively issued by Ellroy & Churchill, Peter S. Norris, and Wm. H. & C. M. Boecher. In 1852 it was united with The Cuba Whig and issued as

1 In the report of the Senate committee of 1857, this institution | The Advocate and Whig. In 1856 the Beechers sold to Charles Horton, who united the paper with The Reporter.

The Republican Era was started at Angelica in 1844 and issued a short time.

The Republican Era was started at the village of Oranel in 1846 by Horace E. Purdy. Its publication was continued by different persons until 1857.

The Cuba Advocate was commenced at Cuba, Oct. 29, 1838, by Isaac C. Sheldon, and was continued several years. The Political Investigator (mo.) was published at Angelica a short time in 1848.

The American Banner was commenced at Cuba in Feb. 1855, by Hatch & Pratt. In July, 1857, the name of the paper

was changed to

The Southern Tier, and its publication continued by C.

Pratt, M. B. Champlin, editor.

The Almond Heroid was commenced at Almond in 1853 by R. Denton, who published it Lyear, when it was suspended. In about 6 months it was resuscitated by Melvin Hydo

and Isaac Busby, and appeared under the name of The Allegany Scating. Subsequently it passed into the hands of Pruner & Spencer, by whom the paper was published nutil 1856.

The Genesee Valley Free Press was commenced at Bellast in Jan. 1853, by A. N. Cole. In March following, the paper was removed to Wellsville, where the publication is continued by Mr. Cole.

The Rural Budget was commenced at Wellsville in Oct. 1856, by Richard O. Shant, by whom the publication is

continued.

3 The academic part of this institution was incorp. in 1°42 and the university in 1857. The crecion of the university building has been commenced. It is under the charge of the Seventh Day Baptists. The building occupied by the female department was burned Feb. 14, 1858.

1807, by Clark Crandall, from Rensselaer co.<sup>1</sup> The first church (Seventh Day Bap.) was formed in 1816. There are now 2 churches in town; both Seventh Day Bap.

**ALLEN**—was formed from Angelica, Jan. 31, 1823. A part of Birdsall was taken off in 1829. It is an interior town, situated north of the center of the co. Its surface is a hilly upland, divided into ridges by the valleys of the streams. The highest summits are 500 to 700 feet above the valleys. The principal streams are Wigwam, Plum, and Bakers Creeks. The soil upon the uplands is clay underlaid by hardpan, and in the valleys a gravelly loam and alluvium. **Alien.** (p. 0.,) in the e. part, and **Alien Center** (p. 0.) are hamlets. There are no stores, taverns, doctors, or lawyers in the town. A few small settlements were made about the commencement of the century, but the principal settlements were made subsequent to 1820.<sup>2</sup> The first religious services were conducted by Rev. Robert Hunter, (Presb.,) in 1821; and the first church (Presb.) was formed in 1830.<sup>3</sup>

**ALMA**—was formed from Willing, Nov. 23, 1854. It is the central town on the s. border of the co. The surface is broken and mountainous. Honeoye Creek and its branches, flowing in deep, narrow ravines, form the drainage. The greater part of the surface is yet covered with forests. The soil upon the uplands is a clayey and sandy loam, and in the valleys a gravelly loam and alluvium. Lumbering is the principal pursuit; and large quantities of pine lumber are annually manufactured. **Albra**, (p. v.,) in the w. part of the town, contains a steam sawmill and 15 houses. The first settlement was made in 1833, by Warren Huff, from Quebec, Canada. The first religious services were performed by Rev. Reuben Kent, in 1838; and the first and only religious association (M. E.) in town was formed in 1850. There is no church edifice in town.

**ALMOND**—was formed from Alfred, March 16, 1821. A part of Birdsall was taken off in 1829, and a part of West Almond in 1833. It lies upon the E. border of the eo., a little N. of the center. Its surface is mostly an upland, separated into several distinct ridges by the deep valleys of Canisteo River and the Karr Valley, McHeury Valley, and Whitney Valley Creeks. The highest summits are 500 to 800 ft. above the valleys. The soil is a gravelly and clay loam. Quarries of good building stone, and sulphur springs, are found in various localities. **Almond**, (p. v.,) near the E. line, contains 2 churches, 2 flouring mills, several manufactories, and about 1,000 inhabitants. **Center Almond**, in Karr Valley, and **North Almond** are p. offices. The first settlement was made at Karr Valley, by Rev. Andrew Gray, Wm. Gray, Jos. Rathbun, and — Vandemark, all from Penn., in the spring of 1796. The first religious meeting was held at Karr Valley, by Rev. Andrew Gray, (Presb.,) in his own house, May 1, 1797; and the first church was formed, the same year, by Mr. Gray. 6

AMITY—was formed from Angelica and Scio, Feb. 22, 1830. A part of Ward was taken off in 1856. It is an interior town, lying a little s. of the center of the co. The surface is hilly and broken, the summits rising 500 to 800 feet above the valleys. Genesee River flows x.w. through the w. part and receives as tributaries Van Campens and Philips Creeks. The valleys of these streams are narrow and are bordered by steep hillsides. The soil is principally a clayey and sandy loam. Philipsville, (p. v.,) on the Genesee, was incorp. Feb. 21, 1853. It contains 3 churches, 2 sawmills, a flouring mill, and about 1,000 inhabitants. It is a station upon the rail read. Belvidere, (p. v.,) on the Genesee, at the mouth of Van Campens Creek, in the x.w. corner of the town, contains 3 sawmills and 181 inhabitants. It is also a rail road station. The first settlement was made in 1804, near Belvidere, by John T. Hyde. The first religions

<sup>&</sup>lt;sup>1</sup> Nathan Green, from Madison co., settled at Bakers Bridge in 1807. The first child born was Rebecca Stillman, in 1808; the first marriage, that of Luke Maxson and Susan Green; and the first death, that of Chas, H. Clark, who accidentally shot himself. Nany Teater laught the first school, in 1815; John Teater kept the first inn, in 1818; and E. S. Pavis built the first sawnill in 1824; and the first sawnill in 1824; and the first sawnill in 1824.

nest death, that of this, I, Chirk, who herehedically shot hinself. Namy Teater laught the first school, in 1845; John Teater kept the first inn, in 1848; and E. S. Davis built the first sawnull, in 1821, and the first gristmill, in 1824.

2 The first school was taught near the 8, line, in 1820. The first inn was kept by Mrs. Armstrong, near the 8, line, in 1827. The first sawnull was erected by Asher Miner, on Wigwam

The first sawmill was elected by Asset Jamer, on Frigwan Crock, in 1825.

3 The census reports 3 churches; Cong., Bap., and M. E.

4 The first child born was Emeline, daughter of Azor Hurdbut, Sept. 1, 1836; and the first death, that of John Bagley, in 1838. The first school was taught by Clarinda Kent, in 1830, Azor Hurlbut kept the first inn, in 1837, Smil J. Peet the first store, in 1844; and John W. Post erected the first sawmill, in

<sup>5</sup> Maj. Moses Van Compen, Capt. Henry McHenry. Walter, Jos., the first saws and Sam'l Karr, Silas Ferry, Stephen Major, Benj. Van Campen, mill, in 1808.

Matthew McHenry, Jos. Coleman, and Geo. Lockhart, all from Luzerne co., Penn., settled in the town in 1797. The first child born was Wm. Mellenry, in 1799; the first marriage, that of Peter Putnam and Pelly Waters, in 1804; and the first death, that of Matthew McHenry, in 1801. The first school was taught at Karr Valley, by Jos. A. Rathban, in Dec. 1892. Benj. Van Campen kept the first inn, at Karr Valley, in 1805; and Phineas Stevens built the first sawnill, in 1806, at Almond Village, and Asa Clark the first gristmill, in 1818.

O The census reports 3 churches; Presb., Bap., and Wes.

<sup>7</sup> Harry Davis, from Hampshire co., Mass, settled near Philipsville in 1805. The first child born was Hamask Hyde, Nov. 4, 1804; the first marrage, that of Loomani Asthley and Rachel Baker, in 1807; and the first death, that of Harvey Manning, in 1806. Polly Baker taught the first school, in 1810; Ebenezer Hyde kept the first inn, at Bledvilere, in 1809, Alvin E Parker the first store, at Philipsville, in 1830; and Philip Church built the first sexually, on Genesee River, in 1806, and the first gristmill, in 1808.

meeting was held at the house of Samuel Van Campen, by Rev. Robert Hubbard, (Presb.,) in 1814; and the first church (Bap.) was formed by Rev. Jonathan Post, in 1816.1

ANDOVER—was formed from Independence, Jan. 28, 1824. A part of Independence was taken off in 1824, and a part of Wellsville in 1855. It lies upon the E. border of the co., s. of the center. The surface is very hilly and still retains some of the original pine forests. Dyke Creek flows s. w., receiving several small tributaries. The soil is chiefly a heavy loam resting on hardpan. The primitive forests had a large proportion of pine; and the manufacture of pine lumber -for many years a leading pursuit—is still carried on to some extent. Andover, (p. v..) near the center of the town, contains 4 churches, a grist and saw mill, and 374 inhabitants. It is a R. R. station. Shoemakers Corners (Elm Valley p. o.) is a hamlet on the w. line of the town. The first settlement was made in the spring of 1795, by Nathaniel Dyke, from Tioga Point, Penn.,-originally from Conn.2 The first religious meeting was held at the house of Mr. Dyke, by Rev. Silas Hubbard, in 1808; and the first church (Cong.) was formed by Rev. Robert Hubbard, July 4, 1824.8

**ANGELICA**<sup>4</sup>—was formed from Leicester, (Livingston co.,) Feb. 25, 1805. Alfred and Caneadea were taken off in 1808, Allen and Scio in 1823, a part of Amity in 1830, and a part of West Almond in 1833; and a part was annexed to Alfred in 1816. It lies a little N. of the center of the co. Its surface is a hilly upland, broken by the deep rayines of the streams. Genesee River flows aeross the s. w. corner, and its tributary, Knight Creek, through the center. The soil is a clayey loam upon the uplands, and a gravelly loam in the valleys. Augelica, (p. v.,) on Knights Creek, a little N. of the center of the town, was incorp. May 2, 1835. Besides the co. buildings, it contains the Angelica Academy, 5 churches, 1 bank, 2 newspaper offices, and several mills and manufactories. Pop. 846. The first settlement was made on the site of the village, in 1802, by Philip Church.<sup>5</sup> The first church (Presb.) was formed by Rev. Robt. Hubbard, in 1811.<sup>6</sup>

BELFAST—was formed from Cancadea, March 24, 1824, as "Orrinsburgh." Its name was changed April 21, 1825. A part of Caneadea was annexed in 1831. It lies a little N. W. of the eenter of the eo. Its surface is a hilly upland, separated into distinct ridges. Genesee River flows across the N. E. corner. Black and White Creeks, the other principal streams, flow through narrow, irregular valleys bordered by abrupt hillsides. The highest summits are 600 to 800 feet above The soil is a clayey learn upon the hills, and a gravelly learn in the valleys. Belfast, (p.v.,) on the Genesee, near the mouth of Black Creek, contains 3 churches, the Genesee Valley Seminary, and several mills. Pop. 801. At this place considerable commerce is carried on by means of the Genesee Valley Canal. Rockville, (p.o.,) in the w. part, and Transit Bridge, (p.o.,) in the E., are hamlets. The first settlement was made on Genesee River, in 1803, by Benjamin, Elisha, Calvin, and David Chamberlin, brothers, from Penn.9 Rev. Ephraim Sanford (Bap.) held the first religious meeting, at the house of Nath'l Reynolds, in 1806, and formed the first church, in 1807-08.10

BIRDSALL<sup>11</sup>—was formed from Allen and Almond, May 4, 1829. It is an interior town, lying N. E. of the center of the co. Its surface is principally a hilly upland, separated into several distinct ridges. The declivities are usually very abrupt, and the highest summits are 500 to 800 feet above the valleys. Black Creek and its branches form the principal drainage. The soil is

<sup>1</sup> The census reports 4 churches; Bap., Cong., M. E., and Univ. <sup>2</sup> Mr. Dyke was educated at Yale College, served as an officer during the Revolutionary War, was attached to the staff of Gen. during the feveralmonary war, was attached to the staff of Gen. Warren at Deston, and subsequently to that of Gen. Washington. Stephen Cole settled on lot adjoining Dyke, in 1796, and Benj. Brookings and John T. Hyde, from Vt., near the same place, soon after. The first child born was Daniel Cole, Feb. 18, 1797, the first marriage, that of Isaac Dyke and Pamelia Gibson, in 1802; and the first death, that of Zeriah, daughter of James Dyke, Jan. 21, 1798. Robert Reed taught the first school, in 1820; Luther Strong built the first saw and grist mill, in 1819, and kept the first inu, in 1820; and Asa S. Allen kept the

<sup>and kept the first store, in 1823.

and R. C.

11 Named from Judge John Birdsall, Circuit Judge of the Eighth

a clay loam underlaid by hardpan. Birdsall, (p. o..) in the n. w. part, and Birdsall Center, (p.o.,) are hamlets. The first settlement was made by Josiah Whitman, on Lot 24, in 1816. The first religious meeting was held at the house of Wm. Day, in 1823, by Rev. Robert Hubbard; and the first church (M. E.) was formed by Rev. Eleazur Day, in 1825.2

BOLIVAR—was formed from Friendship, Feb. 15, 1825; and a part of Wirt was taken off in 1838. It lies upon the s. border of the co., w. of the center. Its surface is a broken, mountainous upland, in some parts too steep for profitable cultivation. The streams are Little Genesee, Honeoye, and Horse Creeks. The soil upon the hills is a reddish clay loam, and in the valleys a gravelly loam. Bolivar, (p. v.,) N. of the center, contains a church, flouring mill, and 157 inhabitants. Honeoye Corners (S. Bolivar p. o.) is a hamlet near the s. border. Timothy Cowles, from Otsego co., settled in the w. part of the town in 1819.3 The first religious services were held by Austin Cowles, (M. E.,) in 1820; and the first church (M. E.) was organized in 1828.4

BURNS—was formed from Ossian, (Livingston eo.,) March 17, 1826. It lies upon the E. border of the co., N. of the center. Its surface is very hilly and broken, the highest summits being 400 to 700 feet above the valleys. The principal streams are Canaseraga, South Valley, and Slader Creeks. Canaseraga, 6 (p. v., ) in the N. part, contains 2 churches, the Canaseraga Academy,6 several mills, and about 200 inhabitants. It is a station on the B. & N. Y. City R. R. BHPDS, (p. v.,) on the E. line of the town, contains 1 church and 20 dwellings. It is also a R. R. station. Whitneys Crossing is a p. o. in the w. part. The first settlement was made at Whitney Valley, in 1805, by Moses and Jeremiah Gregory, John Gaddis, and Samnel Rodman, The first religious meeting (M. E.) was held at the house of Moses Gregory, by Robert Parker, in 1806; and the first church (Bap.) was formed at Whitney Valley, by Rev. Jesse Braman, in 1817.8

CANEADEA-was formed from Angelica, March 11, 1808. Friendship was taken off in 1815, Rushford in 1816, "Orrinsburgh" (now Belfast) in 1824, and a part of Belfast in 1831. It is an interior town, lying N. w. of the center of the co. Its surface is divided into two ridges by Genesee River, which flows in a northerly direction through the center. The soil upon the highlands is a gravelly and clayey loam, and in the valleys a gravelly loam and alluvinm. Upon Cancadea Creek is a valuable stone quarry. Oramel, (p. v.,) upon the Genesee, in the s. part, was incorp. June 9, 1856. It is an important canal village, and contains 2 churches, several mills, and 733 inhabitants. Caneadea, (p. v., ) at the mouth of Caneadea Creek, contains 1 church, 3 mills, and about 400 inhabitants. Ifoughton Creek is a p.o. in the n. The first settlement was made about the commencement of the century, by a Mr. Schoonover, from Penn.9 The first religious meeting (Bap.) was held by Elder Ephraim Sanford, in his own house, at Oramel Village, in 1804.10

CENTERVILLE—was formed from Pike, (Wyoming eo.,) Jan. 15, 1819. It is the N. W. corner town of the co. Its surface is a moderately hilly upland. Six Town Creek and its branches form the principal drainage. The soil is a heavy clay loam. Centerville (p. v.) contains 2 chnrches and about 150 inhabitants. The first settlements were made by Jos. Maxson, of R. I., in April, 1808, and by James Ward, in the fall of the same year. The first religious meeting

<sup>1</sup> James Mathews, from N. J., settled on Section 21, near the center, in 1818. Previous to this, — Vance, Win. P. Schaanck, from N. J., Jeremiah Van Wormer, and Win. Day, from Cayuga from N. J., Jereman van Woener, an Win. Day, Irom Caynga co., had located in town. The first child born was James E. Mathews, March 7, 1820; and the first marriage, that of Sam? Van Wickle and Harriet Freeman, in 1821. Hannah Scott taught the first school, in 1822. Josiah Whitman kept the first inn, in 1820, and Joseph B. Welch the first store, in 1828. The first sawmill was creeted on Black Creek, by Elias Hull and David

Brst sawmin was rected on mack creek, by Lines run day level. Peterson, in 1823.

2 There are 3 churches in town; M. E., F. W. Bap., and R. C.

3 Christopher Tyler settled in 1819, Austin and Asa Cowles in 1820, in the w. part of the town,—all from Otsego co. The first birth was that of Almond W. Cowles, in 1820; the first marriage, that of Daniel Kellogg and Sophia Hitchcock, in 1825; and the first death, that of a child of Luther Austin, in 1823. The first school was taught by Austin Cowles, in 1820-21. Hollis B. Newton kept the first inn, in 1831, and Newton & Cowles the first store, in 1825. The first sawmill was built by Asa and Austin Cowles, near the village, on Genesee Creek, in 1822, and

the first gristmill by Asa Cowles, at the village, in 1824,

The census reports 3 churches; 2 M. E. and Bap.

Formerly called "Whitney Valley."

<sup>6</sup> This institution was formed in 1856, and is in charge of the

Bap, denomination,
7 Wm. Carroll and Wm. Hopkins settled at South Valley. Elijah

Penn., at De Witts Valley, and Sam'l Boylan, at Whitney Valley, in 1806. The first child born was Lewis W. Carroll, Aug. 1, 1807; the first marriage, that of John Gregory and Betsey Poty; and the first deaths, those of Jeremiah Gregory, who was killed by the full of a tree. April 4, 1812, and his twin-brother, killed by the full of a tree. April 4, 1812, and his twin-brother, killed in the sume manner, spet. 17 of the same year. The first school was taught at Canaseraga, by Win. Crooks, in 1810. 8. De Witt Brown bept the first inn. at "De Witts Fulley." (now Burns Village.) in 1826, and Isaac N. Town the first store, at Canaseraga. in 1828. Daniel Schull erected the first gristmill, in 1810, and David McCardy the first sawmill, in 1813.

soon after. The first children born were Moses V. Chamberlain and Betsey Santord, both in 1806. The first school was taught, near the center, by Asa Harris, in 1811. The first inn was kept by Widow Bradley, from Penn, at the center, in 1810; and the first store, at the same place, by — Hunt, in 1812. John Hoyt erected the first sawmill, at the mouth of Cancadea Creek, in 1816, and Pavid Hitcheok put the first carding machine in operation, in 1810, on Cancadea Creek.

11 Calvin P. Perry, from Berksbire co., Mass., settled near Mr.
Maxson in 1809. Abraham and David Jolatt, brothers, were the and Daniel Ahhott, Elias Van Scoter, and Thos. Quick, all from next settlers in the order of time; and next were Zaccheus, Thos.,

(Bap.) was held by Rev. John Griffith. The first church (Presb.) was formed in July, 1824, by Rev. Silas Hubbard.<sup>1</sup>

CLARKSVILLE—was formed from Cuba, May II, 1835. It lies upon the w. border of the co., s. of the center. Its surface is a mountainous upland, divided into several steep ridges by the narrow valleys of the streams. The highest summits are 700 to I,000 ft. above the canal at Cuba. Dodges Creek and its branches form the principal drainage. The soil is principally a heavy clay loam. Considerable pine lumber is still made in town. Clarksville Corners, (West Clarksville p. o.,) near the center, contains a church, sawmill, and 12 dwellings. The first settlement was made a little s. of the center, in 1822, by John and Horatio Slayton, from Warsaw, Wyoming co.<sup>2</sup> The first religious meeting (M. E.) was held at the honse of Nelson Hoyt, in 1828, by Rev. Mr. Cole, from Friendship; and the first church (Bap.) was organized by Rev. Holden E. Prosser, in 1842, and is still the only church in town.

CUBA—was formed from Friendship, Feb. 4, 1822. Genesee was taken off in 1830, and Clarksville in 1835. It lies upon the w. border of the co., s. of the center. Its surface is a broken and mountainous upland, divided into irregular ridges by steep and narrow valleys. Oil Creek and its branches form the principal drainage. The canal and R. R. both extend through the narrow valleys of this town.<sup>3</sup> The highest summits are 600 to 800 ft. above the level of the canal. The soil is a clayey and gravelly loam.<sup>4</sup> Cuba, (p. v.,) on Oil Creek, incorp. Nov. 11, 1850, contains 5 churches, a newspaper office, and several mills and manufactories. Pop. 816. North Cuba, (Seymour p. o.,) in the N. part, contains 20 houses. Cuba summit is a R.R. station. Settlement was commenced in 1817, by Salmon Abbott, — Freer, and — Hall, from Conn.<sup>5</sup> The first religious meeting was held by Rev. Robt. Hubbard, in 1818; and the first church (Bap.) was formed in 1824.<sup>6</sup>

FRIENDSHIP—was formed from Caneadea, March 24, 1815. Cuba was taken off in 1822, Bolivar iu 1825, and a part of Wirt in 1838. It is an interior town, lying a little s.w. of the center of the co. Its surface is broken by high, mountainous ridges, the summits of which are 600 to 800 feet above the valleys. It is drained by Van Campens Creek and its branches. The soil is a clay and gravelly loam. Friendship, (p. v.,) near the center, contains 4 churches, the Friendship Academy, 2 flouring mills, 25 sawmills, and about 800 inhabitants; Nile, (p. v.,) in the s. part of the town, contains a church, 3 mills, and 40 dwellings. The first settlement was made in Nov. 1806, by Richard Frair, from Kingston, Ulster co.<sup>7</sup> The first religious service was held in a barn, by Samuel Vary, in July, 1810; and the first church (Presb.) was formed by Rev. Robert Hubbard, in the spring of 1813.<sup>8</sup>

GENESEE—was formed from Cuba, April 16, 1830. It is the s. w. corner town in the co. Its surface is very broken and mountainous; and the highest summits are 1,000 to 1,400 feet above the valleys. The streams are Little Genesee, Dodges, Deer, Windfall, and Oswaya Creeks,—all flowing through narrow, mountainous ravines. The soil is a sandy and elayey loam. A considerable portion of the surface is still covered with pine, and lumbering is extensively carried on. Little Genesee, (p. v.,) in the s. e. part of the town, contains a church, sawmill, and 30

and Strong Warner, Perkins B. Woodward, from Ashford, Conn., settled a little N. of the center, Sargent Morrell, from Vt., in the s. part of the town, in 1840, and hen; Blanchard, from Vt., on Lot 25, in 1841. The first birth and the first death in town were those of achild of Calvin P. Perry, in Jun., 1840, and the first marrage, that of Win. Foy and Ruth Morrill, in 1841. Perkins B. Woodward taught the first school, in the winter of 1845-14; Benji and Mark Blanchard and Eher Hetchkiss erected the first sawnill, on Six Mile Creek, in 1843, and Russell Higgins and Packard Bruce the first gristmill, in 1847, on the same stream.—Thatcher kept the first inn, at the center, in 1849, and Sparrow Smith the first store, at the same place, in 1820.

<sup>1</sup> The census reports 4 churches; 2 Presh., Cong., and M. E. 2 James McDougal, from Steuben co., settled a little z. of the center, and Jabez Survey near the same place, in 1827. The first child born was Jos. P. Slayton, in 1826; the first marriage, that of Van Rensselaer Delivan and Harriet Palmer, in 1827; and the first death, that of Mrs. Sally Olds, in 1831. The first school was taught by Maria McDougal, z. of the center, in 1828; and Samuel King erected the first sawnill, on Dodge Creek, in 1832.

<sup>8</sup> The R. R. crosses the Genesee Valley Canal in this town, near the reservoir built to feed the summit level of the canal. The reservoir-built, at a cost of \$150,000, by the erection of a dam across Oil Creek—is 60 ft. high. It raises a pond that covers an area of 500 acres, and finds an outlet near its head, so that no water runs over the dam. Its capacity when full is estimated to be equal to 200 mi, of canal.

4 The celebrated Oil Spring, in the w. part of this town, is

situated upon the Indian Oil Spring Reservation. It is a dirty pool, 20 ft. in diameter, and has no outlet. The water is mixed with bitmuen, which collects upon the surface. There are several quarries of good building stone in town.

<sup>5</sup> John Bennett, Andrew Hawley, and Stephen Cole came about the same time. The first death was that of Andrew Hull. The first school was taught by David Row, in 1822. Stephen Cole kept the first inn, near the center, in 1814, and King & Graves the first store, in 1821 or 722. The first sawnill was built by Wm. Bovner, on Oil Creek, in 1815; and the first gristmill, by Cady & Baldwin, on the same stream, in 1822.

Cady & Baldwin, on the same stream, in 1822.

<sup>6</sup> The census reports 5 churches; Bap., Presb., Prot. E., M. E., and R. C.

and K. C. T John Harrison and Simon and Zehulon Gates settled in Jnne, 1807. The first birth was that of Sherman Haskins, in a sugar camp, in March, 1808; the first marriage, that of Jas, Sanford and Sally Harrison, in Dec. 1809; and the first death, that of Hattie Frair, in Dec. 1806. The first school was taught by Pelatinh Morgan, in the winter of 1810-11. Simon Gates opened the first inn, in May, 1808, and Stephen Smith the first store, in the spring of 1818. Sylvams Meriman and Aaron Axtell built the first gristmill, in 1810; and Ehenezer Steenrod the first sawmill, in 1816, and a mill for wool carding and cloth dressing, in 1816.

8 The census reports 5 churches; Bap., Seventh Day Eap., Cong. M. E. and Livie.

Cong. M. E. and Univ.

9 Upon a high summit near the center is a locality known
as "Rock City." It consists of a tract of 40 acres covered with
conglomerate, composed of milkwhite pebbles broken into

regular layers, forming alleys and streets.

dwellings; and Ceres, (p. v., ) on the s. line, a church and I2 dwellings. The first settlement was made on Genesee Creek, on Lot 3, in the E. part of the town, in 1823, by Jabez Burdick, from Rensselaer co. The first religious services (Seventh Day Bap.) were held by Rev. John Green, in 1826; and the first church (Seventh Day Bap.) was organized, in 1827, by Rev. Henry P. Green.<sup>2</sup>

GRANGER-was formed from Grove, as "West Grove," April 18, 1838. Its name was changed March 6, 1839. It is the central town upon the N. border of the eo. It is a hilly upland, divided into several distinct ridges. Genesee River, forming a portion of the w. boundary, is bordered by abrupt hillsides 600 to 800 feet high. The soil is a clayey loam upon the hills, and a gravelly loam in the valleys. Short Tract is a p. o. in the s. part of the town, Granger a p. o. in the N., and Grove a p. o. in the E. The first settlement was made near Short Tract, in Feb. 1816, by Reuben Wilcox, Isaac Smith, and Rufus Trumbull, from Vt., and Elias Smith, from Otsego co.3 The first religious meeting was held at the house of Elias Smith, in 1818, by Rev. Mr. Hill, (M. E.;) and the first church (M. E.) was organized about 1830.4

GROVE—was formed from Nunda, (Livingston co.,) March 8, 1827, as "Church Tract." Its name was changed in 1828, and Granger was taken off in 1838. It lies upon the N. border of the co., near the N.E. corner. Its surface is a hilly upland, divided into several distinct ridges. A valley in the E. part is known as Chautauqua Valley. Branches of Black and Canascraga Creeks form the drainage. The soil upon the hills is a clay loam underlaid by hardpan, and in the valleys a gravelly loam. Swainsville is a p.o. on the R. R., in the E. part of the town, and Chantauqua Valley a. p. o. on the R. R., in the N. E. part. Grove Center is a hamlet. John White, from Herkimer co., made the first settlement, in May, 1818, in the N. w. part.<sup>5</sup> The first religious meeting (M. E.) was held at the house of Mr. White, by Rev. Cyrus Story, in 1820; and the first church (M. E.) was formed in the White Settlement, in 1821.6

INUME—was formed from Pike, (Wyoming co.,) Feb. 20, 1822. It lies upon the N. border of the co., w. of the center. Its surface is a hilly upland. Genesee River flows through the s. E. corner and forms a portion of the E. boundary. It is bordered by abrupt hills rising to a height of 400 to 700 feet. The other principal streams are Six Town and Cold Creeks. The soil is a gravelly and clayer loam. Cold Creek, (Hume p. o.,) near the center of the town, contains 2 churches, a saw and grist mill, and about 300 inhabitants; Filmore, (p.v..) a canal village at the mouth of Cold Creek, contains a church, a saw and grist mill, and 372 inhabitants. Wiscoy, on Wiscoy Creek, and Mill's Mills, in the N. Bart, are p. offices. Mixville, at the mouth of Wiscoy Creek, contains a church, saw and grist mill, and 200 inhabitants. An immense water-power at this place is but little used. The first settlement was made at Mill's Mills, in 1807, by Roger Mills, from Montgomery co.7 The census reports 5 churches in town.8

INDEPENDENCE—was formed from Alfred, March 16, 1821, Andover was taken off in 1824, and a part of Willing in 1851. It is the s. E. corner town in the co. The surface is a monntainous upland, broken by deep, narrow valleys. The highest summits are 800 to 1,200 ft. above the valleys. The streams are Cryder and Chenunda Creeks. The soil is principally a gravelly loam with sections of sand. Whitesville, (p.v.,)s.E. of the center, contains 2 churches and several mills and manufacturing establishments. Pop. 220. Spring Mills, (p. v.,) in the s. E. corner, contains several mills and 14 dwellings; Greens Corners, (Independence p.o.,) in the N. part, contains a church and 16 dwellings. The first settlement was made in 1798, by John Cryder, who built a house, a sawmill, and made other improvements, and soon after abandoned them and left the country. The first permanent settlement was made by Samuel S. White, from Madison co.,

<sup>&</sup>lt;sup>1</sup> Roswell Streeter, from Rensselaer co., settled in 1825, and Ezekiel Crandell and Joseph Wells, from R. L. in 1826, on Wind-fall and Genesee Creeks. Joseph Maxson, from R. L., and John Cook, settled in the w. part in 1827. The first child born was Edward W. Burdick, in 1826; the first marriage, that of Joseph Allen and Phebe Maxson, in the same year; and the first death, that of Arvilla Burdick, in 1824. The first school was taught that of Arvilla burdler, in 1924. The first school was tangen by Henry P. Green, near the month of Windfall Creek, in the winter of 1820-27. Lewis P. Coon kept the first inn, in 1842, at Genesee Valley, and Albert Langworthy the first store, in 1831. The first sawmill was built on Genesee Creek, by Newman Crab tree, in 1820. No liquor license has ever been granted in the town; and it is claimed that no inhabitant has ever been sent to

a prison or a poorhouse.

The census reports 3 churches: all Seventh Day Bap.
The first birth was that of a child of Elias Smith, in March, 1817; and the first death, that of Olive Lince, in 1817. The first school was taught in the Smith Settlement, by Miss Williams, in

Elias Smith kent the first inn, in 1819, and the first store. 1819. in 1820. Isaac Van Nostrand erected the first gristmill, in 1831, and the first sawnill, in 1823.

and the first sawnill, in 1823.

5 In the same year Alex. Bailey, from Vt., settled near Mr.

15 In the same year Alex. Bailey, from Vt., settled near Mr.

26 and the first marriage, that of Elijah White and Lucy Dana, in

1822. The first school was taught by Emily Page, in 1826,

1847 Henry Andrews kept the first inn, in 1825, in the N. corner,

28 and Thayer & Smith the first store, at or near the same place, in 1825. John S. Culver erected the first sawmill, in the N. part.

6 There are 4 churches in town; 3 M. E. and Bap.

7 The first school was taucht in the barn of Roger Mills, jr., in

the summer of 1812, by Caroline Russell, from Montgomery co. Geo. Mills kept the first inn, at Mills Mills, in 1815, and Elisha Mills the first store, at the same place, in 1809. Roger Mills errected the first sawmill, in 1807, and the first gristmill, in 1808. 8 Cong., Bap., F. W. Bap., M. E., and Wes. Meth.

in the spring of 1819, at Whitesville.\! The first religious meeting was held at the house of Sam'l S. White, by Rev. Daniel Babcock, (Seventh Day Bap.,) Jan. 1, 1820.2

NEW HUDSON-was formed from Rushford, April 10, 1825, as "Haight." Its name was changed April 4, 1837. It lies upon the w. border of the co., a little N. of the center. The surface is a hilly upland, broken by valleys extending N. E. and S. W. The principal streams are Black, Oil and Rush Creeks. The soil is a gravelly or clayey loam. McGrawville, (New Hudson p. o.,) on the N. line, contains a church, 2 sawmills, and 20 dwellings; New Hudson Corners, (Black Creek p. o.,) in the s. part, contains 2 churches and 30 dwellings. North Valley is a hamlet near McGrawville. The first settlement was made on Lot 49, in the s. part, by Spencer Lyon, from Waterbury, Vt., in 1820.3 The first religious meeting was held by Rev. James Eastwood, (M. E.,) at his own house, in 1821. The first church (Presb.) was formed with 6 members, by Rev. Robert Hubbard, June 4, 1822.4

RUSHFORD—was formed from Cancadea, March 8, 1816. New Hudson was taken off in 1825. It lies upon the w. border of the co., N. of the center. Its surface is a hilly upland, divided into two distinct districts by Caneadea Creek, which flows E. through near the center. valleys of several smaller streams, tributaries of the Caneadea, divide the highlands into narrow ridges. The soil is a shaly loam underlaid by hardpan. Quarries of building stone, several sulphur springs, and a brown mineral paint resembling other are found in town. A woolen factory upon Caneadea Creek manufactures about 12,000 vds. of cloth annually; and a pineapple cheese factory turns out 70,000 lbs. of cheese annually. Rushford, (p.v.,) at the center of the town, contains 4 churches, the Rushford Academy, and several manufacturing establishments. East Rushford (p.v.) contains several mills and 40 dwellings. The first settlement was made on Lot 30, in 1808, by Enos Gary, from Vt.<sup>5</sup> The first religious meeting was held by Rev. Mr. Sauford, (Bap.,) in 1813; and the first church (Bap.) was formed in 1815, by Rev. Nathan Peck, a missionary from Boston.<sup>6</sup>

SCIO—was formed from Augelica, Jan. 31, 1823. A part of Amity was taken off in 1830, a part of Willing in 1851, and a part of Wellsville in 1855. It is an interior town, lying s. E. of the center of the county. Its surface is a mountainous upland, the highest summits being 700 to 1,000 ft. above the valleys. The streams are Genesee River and Knight and Vandemark Creeks. The soil is principally a sandy loam. Scio, (p. v.,) on Genesee River, contains a church, several mills, and 496 inhabitants. The first settlement was made at the month of Knights Creek, in 1805, by Joseph Knight and his son Silas, from Oneida co.7 The census reports 5 churches.8

WARD—was formed from Alfred and Amity, Nov. 21, 1856. It is an interior town, lying s. E. of the center of the co. The surface is a hilly upland, the highest summits being 500 to 800 feet above the valleys. The streams are Philips and Vandemark Creeks. The soil is a clayey loam upon the hills, and a gravelly loam in the valleys. Philips Creek, (p. v., ) in the N. part, contains 2 churches and 16 dwellings. The first settlement was made in 1817, by Abraham Waldruff, from Ontario co.9 The first church (M. E.) was organized at an early period. There are now 2 churches; M. E. and Univ.

WELLSVILLE—was formed from Scio, Andover, and Willing, Nov. 22, 1855.

<sup>1</sup> In the spring of the same year John Teater, from Dutchess co., David Wilson and Stephen Boyce, from Mass., settled in or near Whitesville. The first child born was Dugald C. White. Oct. 23, 1819; the first marriage, that of Daniel Remington and Gel. 25, 1819. The first maringe, that of folder kenningformations. Blizz Enton, Jan. I. 1824; and the first death, that of Sam'l W. Goodridge, Jan. 27, 1822. The first school was taught at Whitesville, by Deborak Covel, in the summer of 1822. Sam'l S Whiteskept the first inn, in 1827, at Whitesville, and Josiah W. Green the first store, at Greens Corners, in 1822. Nath'l Covel erected

the first store, at Greens Corners, in 1822. Nath't Covel creeted a sawmill on Cryder Creek, in 1822; and Jas. Maxwell the first gristmill, at Spring Mills, in 1820.

\* The census reports 5 churches; Bap., Seventh Day Bap., Presb., M. E., and Unv.

\* James Eastwood, John C. McKeen, and Jas. Davidson, from N. H., settled in the s. part in 1821. The first burth was that of Mary McKeen, in June, 1821; the first marriage, that of Earl Gould and Catharine Eastwood, in June, 1822. The first school was removed by Wrs. Graham McKeen, in the summer of 1821. Win. was taught by Mrs. Graham McKeen, in the summer of 1821. Wm. was rangin by Mrs. Vitamin brekeen, in the summer of 1821. William Andrews kept the first store, near the same place, in 1820, and Nelson McCall the first store, near the same place, in 1830. The first sawmill was erected by James Davidson, on Black Creek, in 1829.

4 The census reports 4 churches: 2 Cong. and 2 M.E.

<sup>6</sup> Chas, Suiff, Abel Belkmap, Amos Rose, and Joshua Wilson, lage, and Waldruff & Cartwright the first store.

from New England, were settlers in the town in 1809-10; Levi Benjamin, from Windsor, Vt., settled on Lot 30, near Rushford Village, in 1813. Bethiah Belknap, born in the spring of 1810, and Sam'l Gordon, June 12, 1810, were the first births in town: Wm. Rawson and Lawrence Swift were the first married, m 1811. Plina Bannister taught the first school, near the center, in the winter of 1813-14. Levi Benjamin kept the first inn, a little N. of Rushford Village, in 1813, and Jas. McCall the first store, at the same place, in 1814. The first sawmill was built by Matthew P. Cady, on Cancadea Creek, in 1815; and the first gristmill, by Jas. McCall, on the same stream, in 1818.

The census reports 4 churches; Bap., Cong., M. E., and Univ
 Silas Bellamy and Silas Palmer settled in 1809,—the former at Scio Village and the latter in the 8 part of the town. daughter of Silas Knight, was the first child born, in 1805, and the first one that died, in 1808; the first marriage was that of Silas Bellamy and Betsey Knight, in 1809. The first school was taught by Lucy Moore, near the village, in 1816. Altred John son kept the first inn, in 1821. The first sawmil was erected in 1822, and the first gristmill in 1823, by Benj, Palmer.

<sup>8 2</sup> R.C., Cong., Bap., and V. E.
9 Daniel Hart and Hezekiah Ward settled in the N. part. in 1817-18. Geo. Waldruff kept the first lim, at Philips Creek Vil-

interior town, lying s. E. of the center of the co. Its surface is very broken and mountainous, the highest summits being 800 to 1,200 feet above the valleys. The declivities are too steep for profitable cultivation. The streams are Genesee River and Dyke and Chennuda Creeks, all flowing in narrow and deep valleys winding among the almost precipitous mountains. The soil is mostly a sandy loam. Considerable pine lumber is still manufactured in town. Wellsville, (p. v.,) on Genesce River, was incorp. Oct. 12, 1857; it contains 4 churches, 2 weekly newspaper offices, 2 flouring and 3 saw mills. Pop. 1,286. The first settlements were made in the valley of the Genesee, about the commencement of the century.1 There are 4 churches in town.2

WEST ALMOND—was formed from Angelica, Almond, and Alfred, April 15, I833. It is an interior town, lying a little N.E. of the center of the co. Its surface is a broken and clevated The streams are Angelica, Black, Philips, and Karr Valley Creeks,--all flowing in narrow ravines bordered by steep hillsides. The soil is principally a clay loam underlaid by hardpan. West Almond (p.v.) contains a church and 15 houses. The first settlement was made at the center, in 1816, by Daniel Atherton.3 The first religious meeting was held by Rev. Robert Hubbard, (Presb.,) at the house of Daniel Dean, in 1823; and the first and only church (Bap.) was formed in 1824.

WILLING—was formed from Independence and Scio, Nov. 19, 1851. Alma was taken off in 1854, and a part of Wellsville in 1855. It lies upon the s. border of the co., E. of the center. Its surface is a broken and mountainous region, the highest summits being 800 to 1,200 ft. above the valleys. The streams are Genesee River, Cryder, Chenunda, and Fords Creeks, all flowing in narrow valleys bordered by steep mountain declivities. The soil is a clay and sandy loam.  $\Lambda$ considerable part of the surface is still covered with forests, and lumbering is extensively carried on. Beanville, (Shongo p. o.,) on Genesee River, in the s. part of the town, contains a church and 61 inhabitants; and Halls Port, (p. v., ) in the N. E. corner, a sawmill and 64 inhabitants. Elijah Robinson, from Brookfield, Madison co., settled on the Genesee, adjoining the State line, in 1825. He built a sawmill, made other improvements for four or five years, when he became deranged, and left the town.4 The first religious meeting (Prot. Meth.) was held at the house of Daniel Baker, by Rev. Seneca Fish, in 1834.5

WIRT—was formed from Bolivar and Friendship, April 12, 1838. It is an interior town, lying s. w. of the center of the co. Its surface is a wild, mountainous upland, divided into three general ridges extending n. and s. The streams are headwaters of Van Campens, Little Genesee, and Dodges Creeks. Richburgh, (p. v.,) in the s. w. part of the town, contains 2 churches, the Richburgh Academy, <sup>6</sup> 2 steam gristmills, 2 sawmills, and 50 dwellings. Wirt is a p.o., near the center of the town. The first settlement was made in the N. part of the town, in 1812, by Benj. Crabtree and Levi Abbott, from Amsterdam, Montgomery co.7 The first religious meeting (Bap.) was held at the house of Benj. Crabtree, in 1816, by Rev. Jonathan Post. The first church (Bap.) was organized in I826.8

<sup>&</sup>lt;sup>1</sup> The first child born was Rachel Dyke, in 1805; and the first death, that of Thos. Brink, in 1807. The first school was taught, Jas. R. near the E. line, by Ithamer Brookings, in 1814. Nath'l Dyke built the first grist and saw mill, in 1803, on Dyke Creek, near

the r. line.

<sup>2</sup> Cong., M. E., Bap., and R. C.

<sup>3</sup> Jason Bixby, Isaac Pray, and Daniel Hooker settled on the road leading from Almond to Angelica, and John Alfred, from road leading from Annous to Angenea, and John Annel, from N. J., near the N. line, all previous to 1818. The first child born was Jerusha, daughter of Baniel Atherton, in the fall of 1817; and the first death, that of Jason Bisdy, in the spring of 1817. The first school was taught, in the E. part, by Jissper White, in 1818. Daniel Atherton kept the first inu, in 1817, at the center, and Samuel M. Eddy the first store, at the same place, in 1832. The first sawmill was crected by Enoch Hawks, on Angelica Creek, in 1833.

<sup>4</sup> The first death was that of a child of Austin Butler, in 1837. The first school was taught near Beanville, in 1836, by Betsey | Bap., and M. E.

Allen Gifford kept the first inn, in 1838, at Beanville, and Jas. R. Wood the first store, at the same place, in 1839. Elijah Robinson erected the first sawmill, near the Penn, line, on the Genesce.

There are 2 churches in town: M. E. and Univ. 6 This institution has lately been incorp, with the common school system.

<sup>7</sup> Azel Buckley, from Unadilla, Otsego co Daniel Willard, from Mass., in 1815. Mr. W. is the oldest settler now living in town. The first child born was Benj. Crabtree, jr., in 1813; and the first marriage, that of Hyra Axdell and Lucy Crabtree, in 1814. The first school was taught, in the N. part of the town, by Sophia Hitchcock, in 1820. Alvan Richardson erected the first sawmill, in 1824, and the first gristmill, in 1825, on Gene-see Creek, near Richburgh. Mr. Richardson also kept the first inn. in 1824, and Francis L. Leroy the first store, in the same year.

<sup>3</sup> There are 4 churches in town; Bap., F. W. Bap., Seventh Day

Acres of Land, Valuation, Population, Dwellings, Families, Frecholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Allegany County.

a Formed since 1855.

## BROOME COUNTY.

This county was formed from Tioga, March 28, 1806. Owego and Berkshire were annexed to Tioga co. March 21, 1822. It is situated near the center of the s. border of the State, centrally distant 110 mi. from Albany, and contains 706 sq. mi. Its surface is greatly diversified, consisting of rolling and hilly uplands, broad river intervales. and the narrow valleys of small streams. The hills extend from the Penn, line northerly through the co. They are divided into 3 general ranges by the valleys of the Susquehanna and Chenango Rivers. The first range lying E. of the Snsquehanna forms the E. border of the co. Its highest summits are 400 to 700 feet above the Delaware and 1,400 to 1,700 feet above tide. The declivities of the hills are usually steep, and the summits spread out into a broad

and hilly upland. This ridge is divided by the deep ravines of a large number of small streams; and in several places it rises into peaks. The second ridge lies in the great bend of the Susquehanna, and is bounded by the valleys of that river and the Chenango. The highest summits are 300 to 500 feet above the Susquehanna and 1,200 to 1,400 feet above tide. The hills are generally bounded by gradual slopes, and the summits are broad, rolling uplands. The southern portion of this ridge is high above the valleys; but toward the N. the hilly character subsides into that of a fine rolling region. The third ridge lies w. of Chenango and Susquehanna Rivers. Its summits are a little less in elevation than those of the second ridge; and the general characteristics of the two regions are nearly the same. The wide valley of the Susquehanna divides it into two distinct parts, the southern of which is more hilly than the northern. The hills in the central and western parts of the co. are rounded and arable to their summits. The narrow valleys that break the continuity of the ridges are usually bordered by gradually sloping hillsides.

The rocks of this co. all belong to the Chemung and Catskill groups. The former—consisting of slaty sandstone and shales-occupy all the N. and W. portions of the co.; and the latter-consisting of gray and red sandstone, red shale, and slate—erown all the summits in the s. and w. portions. Drift-consisting of sand, gravel, clay, and hardpan-covers a large share of the more level parts of the co., the rocks only cropping out upon the declivities and summits of the hills. The valleys throughout the co. appear to have been excavated by the action of water, showing that a force immensely greater than any now in existence must once have swept over this portion of country. Weak brine springs were early found, extending for several mi. along the valley of Halfway Brook, in the N. part of this co.2 Several excavations have been made for coal, but without success, as all the coal measures are above the highest strata of rocks found in the co.

The principal rivers are the Susquehanna, Pelaware, Chenango, Tioughnioga, and Otselic. The Susquelianna enters the co. from the N., and flows in almost a due s. direction through Colesville and Windsor to the Great Bend in the State of Penn., whence, turning N., it again enters the co. in Conklin, flows through that town in a x. w. direction, and thence westerly to the w. border of the co. In the upper course of this river the valley is narrow and bordered by high and steep declivities; but further w. it expands into broad intervales bordered by gradually sloping hillsides. The whole valley is celebrated for its beauty. The majestic river, with its strong current of clear, sparkling water, the deep, rich intervales, and the beautiful slopes crowned with forests, all together form a landscape rarely equaled for beauty and quiet repose. The Delaware forms a small portion of the E. boundary. It flows through a deep, rocky valley bordered by steep and often

with a handsomery executed silver sear, appropriately designed by himself, emblematical of the name.

2 A few years since, a horing was commenced a Barker, on the form of the deer lick, and was continued to a depth of more than 400 feet, without any practical result. The theory of the operators was, that the salt came from the same source as the 152

<sup>1</sup> Named from John Broome, of N. Y., then Lieut Gov. of the State. For the complament Lt. Gov. Broome presented the cowith a handsomely executed silver seal, appropriately designed graphical level of those wells. Sulphur springs have been of saltness, all that was necessary would be to bore to the geo-graphical level of those wells. Sulphur springs have been observed in Nanticoke, 14 mi, from Binghamton, and at Bellona, 8 Called by the Indians Ga-wa no-wa-na-neh, at the Great

Island. 4 Indian name, O-nan'no-gi-is'ka, Shagbark hickory.

precipitous bills. Chenango River enters the co. from the N. and flows in a general southerly direction until it enters the Susquehanna at Binghamton. A broad intervale extends along the lower part of this river, but farther N. the high ridges shut close in on either side, confining the valley to very narrow limits. The Tioughnioga enters the eo. from Cortland and flows s. E. until it unites with the Chenango at Chenango Forks. The valley of this river is very narrow, and is bordered by high and steep hillsides. Otselic River, also from the N., flows through a similar narrow valley and unites with the Tioughnioga at Whitneys Point. The other principal streams are Oquaga Creek, a tributary of the Delaware, Okkanum, Little Snake, Little and Big Choconnt, and Nanticoke Creeks, tributaries of the Susquehanna, and Castle Creek, tributary of the Chenango.

The soil along the river intervales is generally very fertile, consisting of deep, sandy and gravelly loam mixed with disintegrated slate and vegetable mold. The narrow valleys of the smaller streams are also fertile. The soil upon the N. and W. hills consists principally of gravelly loam intermixed with clay and disintegrated shale, and is well adapted to grazing. The declivities of the s. and E. hills are similar to the last in character, but their summits are generally covered with elay and hardpan. The large proportion of upland and the unevenness of the surface render this co. best adapted to pasturage. While all branches of agriculture are pursued, fruit raising, and stock and wool growing, in connection with the products of the dairy, form the leading interests. A limited amount of manufacturing is carried on at Binghamton and several other places.

The co. seat is located at Binghamton, at the junction of the Chenango and Susquehanna Rivers. The courthouse, situated at the head of Chenango St., fronting Court St., is a fine stone and brick edifice, with a Grecian portico in the Ionic style. It contains the usual co. offices, and in many respects is a model building.2 The jail is on Hawley St., at a little distance from the courthonse.3 A fireproof co. clerk's office is situated adjacent to the courthouse. The co. poorhouse is located upon a farm of I30 acres 3 mi. N. of Binghamton. The average number of inmates is 45, kept at a weekly cost of \$1.08 each, exclusive of the products of the farm, which are estimated at \$800 per annum. The children are sent to the district school, and when of proper age are bound out. No religious instruction is afforded. The sexes are kept in separate buildings, and the general arrangement of the institution is such as to secure the health and comfort of the inmates.

The principal works of internal improvement are the Chenango Canal, connecting the Susquehanna River at Binghamton with the Eric Canal at Utica; the N. Y. & Eric R. R., and the Syracuse, Binghamton & N. Y. R. R.4 These various routes furnish all necessary facilities for traveling and commercial purposes, and bring the agricultural lands of the co. into close proximity to the great Eastern markets.<sup>5</sup> Several plank roads have been built; but they are now mostly abandoned.

There are 6 newspapers published in the eo.6

<sup>1</sup> Binghamton (then "Chenango Point") was a half-shire of Tioga on previous to the crection of Broome co. The co, was divided into 2 jury districts in 1801, and a courthouse was built in 1802. Previously the courts had been held a part of the time at the house of J. Whitney, in Binghamton. A counthouse was built in 1826, which was superseded by a new and elegant brick ellifice in 1857. The first co.officers were John Patterson, First Judge; James Stoddard, Amos Patterson, Daniel Hudson. Geo. Harper, and Mason Wattles. Associate Judges; Ashbel Wells, O. Cerk; and Win, Weodrinff. Sheriff. The first court was held on the 2d Tuckday of May, 1806.

<sup>2</sup> This building was creeted in 1857, at a cost of \$22,000. It is 96 feet long by \$8 wide. The front is ornamented by a portico supported by 4 lonic pillars 6 feet in diameter and 36 feet high. The basement is built of stone and the upper steries of brick. The rooms are all large, convenient, and well ventilated.

<sup>3</sup> The portion of the jail containing the cells was built in 1858,

The rooms are all large, convenient, and well ventilated.

3 The portion of the jail centaining the cells was built in 1858, at a cost of \$15,000. In its construction due provisions were made for the safety, health, and classification of prisoners.

4 The Albany & Susquehanna R. R., now in process of construction, extends from Binghanton N.E. through the co. to Albany. This road will probably be completed in a few years.

6 The Delaware, Lackawanna & Western R. R. connects with the N.Y. and Eric R. R. at Great Bend Station, just S. of the line of this co., thus forming a direct communication with the coal mines of E. Penn. Large quantities of this coal are sent coal mines of E. Penn. Large quantities of this coal are sent over the Erie and the S. B. & N.Y. R. R., supplying the salt works at Syracuse and the markets in the w. part of the State; and a considerable amount is shipped on the canal at Bingham-

ton.

6 The American Constillation was pub. at Union Village (then in Tioga co.) in 1800.

The Browne Co. 101 1990.

The Browne Co. Patriot was commenced at Binghamton in 1812, by Channeey Morgan. In 1815 it was changed to The Phonics, and was published by Morgan & Robinson. In 1819 it was discontinued.

The Republican Herald was commenced in 1818, and successively.

jubbished by Morgan & Howard, Abraham Burrell, and Dorephus Abbey, until 1822.

1 Binghamton (then "Chenango Point") was a half-shire of | The Broome Republican was established at Bingleanten in 1822, by Maj. Angustus Morgan. It was published by Morgan until 1824, by Morgan until 1824, by Morgan & Canoll until 1825, by Evans & Canoll until 1825, by Evans & Canoll until 1835, by Canoll & Cooke until 1839, when it passed into the hands of Davis & Cooke. It was continued by T. Cooke until 1848, and by E. R. Colston until 1849. It subsequently became the proposition of Windistry and in contrast. became the property of Wm. Stuart, and is now published daily and weekly.

The Evening Express, d., was issued from the Republican office in 1848

The Daily less was started in 1849, by Wm. Stuart and E. T. Evans. It was soon after changed to

The Binghamton Daily Republican, and is still

published by Wm. Stuart.

The Broome Co. Courser was started in 1831, by J. R. Orton, and

The Broome Co. Courrer was started in 1831, by J. R. Orton, and was continued by him until 1837. It then successively passed into the hands of Sheldon & Marble; J. C. Sheldon; E. P. Marble; E. P. & J. W. Marble; and Marble & Johnson. In 1843 it was changed to:

The Binghamton Courrier and Broome Co. D morral, and was pullished by J. & C. Orton. In 1846 it passed into the hands of N. S. Davis. In 1849 it passed into the hands of J. K. Drekinson and was changed to:

The Binghamton Democrat. It is now published.

The Binghamton Democrat. It is now published by Adams & Lawyer.

The Iris, semi-mo, was started in July, 1839, by C. P. Cooke,

In July, 1841, it was purchased by Edwin T. Evans, and by him it was enlarged, and published weekly until 1855, when it was merged in the Enghamton Republican.

The Binghamton Standard was started in Nov. 1853, by J. Van Valkenburgh, and is still published.

The Binghamton Mercury, semi-mon, was issued a short time by Chester Dehart.

The Susquehanna Journal, started in Oct. 1853, by W. H. Pearne, was merged in the Broome Republican in 1 The Broome Co. American was started in May, 1855, by Ransom

Bostwick The Union News was established at Union in 1851, by

By a treaty held at Fort Herkimer, June 28, 1785, between the Governor and Commissioners of Indian Affairs in behalf of the State, and the Oneidas and Tuscaroras, the latter for \$11,500 ceded all their lands, bounded N. by an E. and W. line from the Chenango to the Unadilla, 10 mi. above the mouth of the latter, E. by the Line of Property, 1s. by Penn., and w. by the Chenango and Susquehanna. At the Hartford Convention, in 1786, a tract of 230,400 acres, between the Chenango and Tioughnioga on the E. and Owego River on the w., was ceded to Massachusetts.2 This tract was afterward known as the "Boston Ten Towns," and was sold by Mass. (Nov. 7, 1787) to 60 persons for £1500.3 It is embraced in Broome, Tioga, and Cortland cos. The Indian title to this tract was extinguished in 1787, and the remaining Indian titles within the co. were extinguished by the treaty of Fort Stanwix in 1788. The s. and E. parts of the co. were granted to Hooper, Wilson, Bingham, Cox, and others, several of whom resided in Philadelphia.4

The first settlements in the co. were made in the valleys of the Susquehanna and Chenango, in 1785. The settlers were people who had traversed the region in the Revolution; and they located while the country was still threatened with Indian hostilities, and before Phelps and Gorham had opened the fertile lands of Western N. Y. to immigration. The early settlement was retarded by a remarkable ice freshet in 1787-88, which destroyed most of the property of the settlers upon the river intervales. Scarcely less calamitous to life and property was the scarcity that followed in 1789. Oquaga, on the E. branch of the Susquehanna, was a noted rendezvous of tories and Indians during the Revolution.<sup>5</sup> Most of the invasions into the Schoharie and Mohawk settlements, as well as those upon the frontiers of Ulster and Orange cos., were by way of the Tioga and Susquehanna Rivers from Niagara; and this war path, with its sufferings and cruelties, has been often described in the narratives of returned captives.

BINGHAMTON—was formed from Chenango, Dec. 3, 1855. It lies at the junction of the Susquehanna and Chenango Rivers, and extends s. to the s. line of the co. The surface is hilly in the s., but the N. part embraces the wide and beautiful intervales extending along the two rivers at and near their junction. The hills are 300 to 400 feet above the river, and are generally arable to their summits. The soil in the valleys is a deep, rich, alluvial and gravelly loam, and upon the hills it is a fine quality of slaty loam. Binghamton6 (p. v.) was incorp. April 2, 1813. By a subsequent charter, passed May 3, 1834, its limits were enlarged and its territory was divided into 5 wards. It is beautifully situated on the N. bank of the Susquehanna at its junction with the Chenango. It contains the State Inebriate Asylum,7 the Binghamton Academy, and the Susquehanna Seminary, 8 3 female seminaries, 9 a commercial college, 10 2 water cures, 11 9 churches, 12 5 newspaper offices, and several manufactories. The village is an important station upon the Erie R. R., and is connected with Syracuse by the S. B. & N. Y. R. R. It is also the s. w. terminus of the Chenango Canal and of the Albany & Susquehanna R. R. It is the center of a large trade,

Benedict and Ebenezer M. Betts, and is still published. The Broome County Gazette was commenced at Whitneys Pourt, in July, 1858, by G. A. Dodge, its present publisher.

1 This line was agreed upon at Fort Stanwix in 1768, and was surveyed by Simon Metcalf the next year. It forms the E. boundary of this co.

2 The 8, bounds of this tract were to be the N. line of the tract • the s, bounds of this fract were to be the x, fine of the fracting granted to Daniel Cox and Robert Lettner Hooper, and it was to extend as far N, as was necessary to include the above quantity of Rand. Upon survey it was found to overlap the Military Tract by 17,294 aera; which was allowed, and an equivalent was granted to the claimants under the latter in Junius, Scheda. Th. R. Cox D. R. J. W. 19, 29.

was grained to the cramains under the latter in canalia, some co.—Billoting Book, pp. 20, 23.

3 The partition of a part of this tract by lot was legislized March 3, 1789, in an act reciting the names of the 60 associates.

—Lines of N. T., Fid. Ed., 12th Sess., p. 76, Map No. 148, State Engineer and Surveyor's Office.

4 A tract of 1000 acres on both sides of the Susangelmana was

sold to Jacob and John Springstead, Josiah, David, and Damel

sold to Jacob and John Springstead, Josida, David, and Damed Stow, Bavid Hortakiss, and Joseph Beebe. Other tracts were sold to Win. Allison, James Clinton, Isaac Metcher, Abijda Ham-mond, and others. The islands in the Susquelanna were bought by Jas. Clinton, at 4 shillings per acre. § This place is sometimes found written On-choogle-wage and Oglesquaga. There is here a hill or mountain on both sides of the river, gently sloping from a beautiful velo of 3 or 4 mi. in length and a mit to a mi, and a half wide. When first settled, it hore evidence of having long been occupied by the Hohans. Apple trees of great age were found growing, and traces of fortifications trees of great age were found growing, and traces of fortifications existed, supposed to have been erected by Gen Clinton. Missionary labors were directed to this locality about the middle of the last century, and in 1755 the Rev. Gideon Hawley was sent hither

A. F. Quinlan. It was subsequently sold to Cephas | from Mass,—Doc, Hist, III. 1031; Wilkinson's Binghamton, p. 142. 6 Einghamton was originally called "Chenango Pend." Its present name was given in honor of Wilham Bingham, the original purchaser of a large tract of land lying on both sides of the Susquehanna, and including the site of the village. He made liberal donations of land to the village

7 The New York State Inchride Asylum was incorp. in 1854 for the term of 50 years. It is designed for the medical treatment and restraint of incluides. It owes its origin morally to the persevering efforts of Dr. J. Edward Turnet Livery person er. The builddonating \$10 is deemed a subscriber and stockholder. The build-ing is located E. of the village, on a bountiful site, 240 fect above water. It is 305 feet long by 82 feet broad, built of stone and brick in the Tudor castellated style of architecture. citizens donated a farm of 250 acres, upon which the buildings are erected.

8 This institution is under the charge of the M. E. denomina-

tion, and is designed for a large bounding school. The building is a 4 story brick edifice, pleasantly located N. w. of the village upon an eminence overlooking the vailey. 9 River Side Seminary, estal lished in 1848 by Miss R. S. In-

galls: Miss Barton's Seminary, estad ushed in 1857; and Harmony Retreat Seminary, established in 1857; and Harmony

Peters terminary, established in 1850 by 90 Misses math.

13 There was transhipped from the Del., Lackawanna & Western R. E. cars to the Cheromgo canal boats, in 1857, 51,700 gross tons of coal, and from these boats to the cars 25,895 tens of Clinton

(Oneida co.) non ore.

and is an important point for the transhipment of coal.13 Pop. 8,818. Hawleyton (p. o.) is a hamlet in the s. part, near the Penn. line. The first settlement was made in 1787, by emigrants mostly from New England. The first religious services were conducted by Rev. Mr. Howe, (Bap.,) in 1788. Hon. Daniel S. Dickinson is a resident of this town.

BARKER<sup>2</sup>—was formed from Lisle, April 18, 1831. A part of Greene was annexed April 28, 1840. It lies upon Tioughnioga River, N. w. of the center of the co. The surface consists of a high, broken plateau divided into two distinct parts by the valley of the river. The declivities of the hills are in some places very steep; but their summits spread out into a broken region generally covered with timber and adapted to pasturage. The highest point, in the N. W. part of the town, is about 1400 feet above tide. The river valley is very narrow, but the limited amount of intervale is excellent land. Halfway Brook flows through a narrow valley in the E. part of the town. In this valley brine springs have been found; and here also the unsuccessful boring for salt was made.3 The soil in the valley is a rich alluvium and gravelly leam, and that upon the hills is a clayer loam mixed with disintegrated slate and shale. Chenango Forks (p. v.) is situated mostly in this town, at the fork of Chenango and Tioughnioga Rivers. It is a station on the S. B. & N. Y. R. R. Pop. 506,—in Barker 287, in Chenango 127, and in Greene (Chenango co) 92. Barker is a p.o. in the central part of the town. The first settlement was made in 1791, by John Barker, from Branford, Conn. There are 3 churches in town. 5

CHENANGO—was formed Feb. 16, 1791. Windsor was taken off in I807, Conklin in 1824, and Binghamton and Port Crane in 1855. A part of Union was annexed Feb. 26, 1808, and a part of Maine, Nov. 27, 1856. It lies upon the w. bank of Chenango River, a little w. of the center of the co. Its surface consists of the river intervale and several high ridges extending in a N. and s. direction and separated by the narrow valleys of small streams. The declivities of the hills are steep, and their summits are 300 to 600 feet above the valleys. Castle and Kattel Creeks, tributaries of Chenango River, are the principal streams. The former was named from the location of an Indian castle near its mouth, and the latter from a family of early settlers. The soil upon the N. hills is a gravelly loam mixed with disintegrated slate and underlaid by hardpan, but farther s. it becomes a deeper and richer gravelly loam. It is productive, but, from its moist character, it is largely devoted to grazing. Stock growing and dairying form the leading branches of agricultural interest. Castle Creek (p. v.) is on the creek of the same name, in the w. part of the town. Pop. 185. Gien Castle, (p. o., ) on a branch of the same stream, is in the central part. Chenango, (p. o., ) on Chenango River, is a station on the S. B. & N. V. R. R. Kattelville is a hamlet on Kattel Creek. The first settlement was made in 1787, by Thos. Gallup.6 There are 4 churches in town.7

COLESVILLE8—was formed from Windsor, April 2, 1821. It lies upon the Susquehanna, E. of the center of the co. Its surface consists principally of a high and broken upland divided into 2 parts by the deep valley of the river. The summits of these uplands are 400 to 700 feet above the valley, and considerable portions are still covered with forests. The soil upon the river bottoms is a deep, fertile, gravelly loam, and upon the summits of the hills it consists of clay and slate. It is generally much better adapted to pasturage than tillage. IRAPPERSVINE, (p. v.,) on Susquehanna River, contains 3 churches and has a pop. of 230. Center Village, (p. v..) on the Susquehanna, has a pop. of 147. New Ohio, (p.o.,) in the N. part of the town, Osborne Mollow, (p. o., ) in the w. part, West Colesville, (p. o., ) in the s. w. part, Colesville, (p. o.,) s. of the center, Onaquaga, (p. o.,) and Nineveh, (p. o.,) on the Susquehanna, are hamlets. Vallonia Springs and Unitaria are p. offices. The first settlement to

<sup>1</sup> Among the early settlers were Capt. Joseph Leonard, Col. Wm. | that of Simeon Rogers and a daughter of John Barker, in 1792; Rose, the two brothers Whitney, ——Lyon, Jesse Thayer Peter and Thos. Ingeredl, Sunl, Harding, Capt. John Sawtell, — and thos. Batter, and Solomon Moore. The first birth was that of Amesa
Leonurd, Sept. 23, 1788; the first marriage, that of Ercked
Crocker and Polly Benton; and the first death, that of Mrs.
Blunt. in 1787. Lewis Keeler epened the first inn, and Delmo &
Monroe the first store. Ezekiel Crocker erected the first gristmill, in 1791. The first school was taught by Col. Wm. Rose, in
1701. Execution of courts bistoria and Birthiage of Amelio of 1794. For details of early history see Wilkinson's Annals of Binghamton.

<sup>2</sup> Named from John Barker, the first settler.

<sup>8</sup> Sec p 178. Simeon Rogers, John Allen, Asa Beach, and Sol. Rose, from

the first birth, that of Chauncey, a son of Simeon Rogers, iz 1793; and the first death, that of Thos. Gallup, the same year. Sinceon Rogers opened the first inn, in 1795, kept the first store, and built the first mill. The first school was taught by Pios. Cartwright, in 1795, § 2 M. E. and Cong.

<sup>6</sup> Stephen Palmer and Jared Page were among the earliest settlers. The first birth was that of Sally Smith, in 1791.

7.3 M. E. and 1 Bap.

<sup>8</sup> Named from Nathaniel Cole, one of the first settlers.

<sup>9</sup> At this place is a tannery, which turns out 50,000 sides of leather per annum.

<sup>10</sup> Lemud and Nath'l Badger and Cusper Spring settled in the Coan., settled in town in 1792. The first marriage was town in 1786; Nathaniel and Venn Cole, Daniel Picket, Jed.

was made in 1785, by John Lamphere, from Watertown, Conn. The first religious services were conducted by Rev. Joseph Badger, in 1793. There are 10 churches in town.

CONKLIN2—was formed from Chenango, March 29, 1824. A part of Windsor was taken off in IS31, and a part was annexed from Windsor in IS31. It lies upon the Susquehanna, s. of the center of the co. Its surface consists of the fine broad intervale of the river and high, broken uplands which rise upon each side. The summits of the hills are 400 to 600 feet above the valley. The declivities upon the w. side of the river are very steep, but upon the E. they are generally more gradual. Little Snake Creek flows in an easterly direction through the s. w. part. Its valley is narrow and is bordered by steep hills. The soil upon the summits of the hills is a hard clayey and gravelly loam largely intermixed with fragments of slate. In the valley the soil is a deep, rich alluvium and gravelly loam. Kirkwood (p.v.) is situated on the E. bank of the Susquehanna, in the s. part of the town. It is a station on the Eric R. R., and contains 25 houses. Conklin Center and Corbettsville are p. offices, and Millburn and Conklin are hamlets. At Millburn are extensive pyroligneous acid works. The settlement of the town was commenced in 1788, at the mouth of Snake Creek, by Jonathan Bennett, Ralph Lathrop, and Waples Hance. The first religious services were conducted by Revs. David Dunham and John Leach, Methodist missionaries. There are 4 churches in town; M. E., Presb., Bap., and Christian.

LISLE4—was formed from Union, April 7, 1801. Nanticoke, Barker, and Triangle were taken off in 1831. The line of Berkshire was altered in 1812, and a part was annexed to Union in 1827. It is the N. w. corner town of the co. The surface is mostly a hilly and broken upland, divided by the valley of Tioughnioga River into 2 unequal parts. The summits of the hills are 400 to 700 feet above the river, and their declivities are generally steep. Dudley or Yorkshire Creek flows easterly through near the center of the town, its narrow valley breaking the continuity of the w. ridge. The soil along the valley is a rich, gravelly loam, but upon the hills it consists of clay and a slatv gravel underlaid by hardpan. The declivities of the hills are usually too steep for easy cultivation, and the soil upon the summits is a moist clay loam, better adapted to grazing than grain growing. Liste (p. v.) is situated on the w. bank of the Tioughnioga. It is a station on the S. B. & N. Y. R. R., and contains about 30 houses. The old Catskill & Ithaea Turnpike, built in 1796, crossed the river at this point. Yorkshire, (Center Lisle p.o.,) near the center of the town, contains about 30 houses. Killawog, (p.o.,) in the N. part, on the Tioughnioga, is a station on the S. B. & N. Y. R. R. The first settlement was made in 1791, by emigrants from N. E.<sup>5</sup> The first religious services were conducted in 1795, by Rev. Seth Williston. There are 5 churches in town.6

MAINE—was formed from Union, March 27, 1848. A part of Chenango was taken off in 1856. It is the central town upon the w. border of the co. Its surface consists of ranges of hills divided by numerous narrow valleys, the principal of which extends in a n. and s. direction. These hills are 400 to 600 feet above the valley of Chenango River. The principal streams are Nanticoke, Bradley, and Crocker Creeks. The soil is a gravelly loam largely intermixed with the underlying slate. Maine, (p. v.,) situated on Nanticoke Creek, w. of the center, contains 3 churches. Pop. 220. East Maine is a p. o. The first settlement was made in May, 1797, by Daniel Howard, Alfred and Russell Gates, and Winthrop Roe.<sup>7</sup> There are 4 churches in town; 2 M. E., Bap., and Cong.

NANTICOKE8—was formed from Lisle, April 18, 1831. It lies upon the w. border of the eo., N. of the center. Its surface consists of an upland broken by a few narrow ravines.

Merchant, Bateman S. Dickinson, -- Wilmot, Daniel Crofoot, Merchant, Bateman S. Dickinson. — Wilmof, Damiel Crofoot, and Titus Humiston, in 1795: John Ruggles and Isaac Tyrell, in 1796; and Eli Osborne and Peter Warn, in 1800. — The first birth was that of Louisa Badger, May 28, 1788; the first death, that of John Lamphere, the same year; and the first marriage, that of Lenj. Bird and Mrs. John Lamphere, in 1794. Benj. Bird kept the first inn, in 1794, and Bateman S. Dickinson the first store, in 1795.

the first inn, in 1794, and Bateman S. Dickinson the first store, in 1805. The first school was taught by Job Bunnet.

1 4 M. E., 2 Bap., 2 Union, Prot. E. Iresb.

2 Named from Judge John Conklin, one of the early settlers. Kirkwood was taken off in 1859.

3 Among the early settlers were Gerret Snedaker, David Bound, Daulel Chapman, Peter Wentz, Asa Rood, Nathaniel Tagot, Asa Squires, John Bell, Silas Bowker, Joel Lamoreaux, Abraham Sneden, David and Joseph Compton, Abraham Miller, Ebenezer Park, Noel Carr, and Thos. Cooper. The first birth was that of William Wentz, Feb. 18, 1795; the first marriage, that of Noel Carr and Sally Tougher, in 1803; and the first death, that of Noel Carr and Sally Tousler, in 1803; and the first death, that of Silas Bowker. The first gristmill was built at "Fitchs Creek.

Creek," in 1790. The first school was taught by George Lane, m 1801.

4 Named from Lisle, in France.

A Named from Lisle, in France.
The first settlers were Josiah Patterson, Ebenezer Tracy, which was the first settlers were Josiah Patterson, and Whittlesey Gleason. The first birth was that of Henry Patterson, in 1793; the first marriage, that of Solomon Owen and Selvic Cooks and the first death, that of Wright Dudley. The son, in 1735, the hist mainage, that of Solomor owen and Sylvia Cook; and the first death, that of Wright Dudley. The first gristmill was built in 1800, by Jacob Hill. The first store was kept by Moses Adams, and the first tavern by O. Wheaton in 1799.

<sup>6.2</sup> Bap., Cong., Presb., and M. E. 7 Benjamin Norton settled in the town in 1798. The first birth was that of Cynthia, daughter of Winthrop Roe, in July, 1797. The first school was taught by Betsey Ward, in 1802. Daniel Howard built the first gristmill, in 1810; Jared Ketchum kept the first store, in 1825, and Oliver Whitcomb the first tavern, in 1829.

8 This name is derived from the Indian name of Nanticoké

The summits of the highest hills are 100 to 300 feet above the river and 1,200 to 1,400 feet above tide. "The town is drained principally by the two branches of Nanticoke Creek, which flow s. through the central portion of the town. The soil upon the hills is a slaty learn underlaid by hardpan. The settlements are principally confined to the valleys. Lambs Corners, in the central part of the town, contains about 12 houses. Nanticoke Springs, in the s. part, and Glen Anbrey, are p. offices. The first settlement was made on Nanticoke Creek, in 1793, by Philip Counselman and John Beachtle, from Luzerne co., Penn., and Henry Stoddard, from Conn. There are 2 churches in town; Bap. and M. E.

PORT CRANE<sup>2</sup>—was formed from Chenango, Dec. 3, 1855. It lies upon the E. bank of Chenango River, extending from the central portions of the co. N. to the borders of Chenango. Its surface consists principally of a high and rolling upland region. The valley of the Chenango is very narrow, and the hills rise steeply to an elevation of 500 to 700 feet above the river. Page Brook flows in a southerly direction through the center of the town, dividing the uplands into 2 distinct ridges. The soil upon the hills is a clay and slaty loam underlaid by hardpan, and in the valleys it consists of a fine, rich gravelly learn and alluvium. Port Crane, (p.v.,) on the Chenango Canal, in the s. part of the town, has a pop. of 193. Doraville. (p. o.,) in the N. part, is a hamlet. Settlement was commenced in 1788, by Elisha Pease.<sup>3</sup> The first religious services were conducted by Rev. John Camp, in 1798. There is a M. E. church in town.

SANFORD—was formed from Windsor, April 2, 1821. It is the s. E. town of the co., bordering upon Delaware River. Its surface is principally occupied by the high, mountainous range that extends between Delaware and Susquehanna Rivers. The summits of the hills are 600 to 900 feet above the valley, and the declivities are usually very steep.4 The deep, narrow valley of Oquaga Creek, flowing s. through the center of the town, separates the highlands into 2 parts. This valley and that of Delaware River are both bounded by nearly precipitous mountain declivities. In its course the creek has numerous falls, furnishing an abundance of water power. The soil in the valleys is a fertile, gravelly loam, but upon the hills it is a cold, clayey loam underlaid by hardpan. Considerable portions of the central and s. parts of the town are still unsettled. Lumber and leather are largely manufactured. **Deposit** (p. v.) is situated partly in this town and partly in Tompkins, (Delaware co.) The depôt, several hotels, and about half of the dwellings are in this town. Pop. 1249,-656 in Sanford, 593 in Tompkins. Sanford, in the central part of the town, N. Sanford, in the N. part, and Gulf Summit, in the s., are p. offices. Settlement commenced in 1787, by Wm. McClure, from N. H., --- Whitaker, and Capt. Nathan Dean.<sup>6</sup> There are 3 churches in town; Bap., M. E., and R. C.

TRIANGLE<sup>7</sup>—was formed from Lisle, April 18, 1831. It is situated in the extreme N. part of the co., bordering upon both Cortland and Chenango. Its surface consists of a hilly and rolling upland divided into ridges by the valleys of Otselic River and Halfway Brook. The summits of the hills are 300 to 500 feet above the valleys. The soil is generally a gravelly loam, better adapted to grazing than to tillage. Whitneys Point, (p. v., ) situated at the junction of Otselic and Tioughnioga Rivers, contains 3 churches and has a pop. of 205. Upper Liste, (p. v.,) on the Otselic, in the N. part of the town, contains 2 churches and 35 houses; and Triangle, (p. v., ) on Halfway Brook, in the s. c. part, 3 churches and 175 inhabitants. The first settlement was made at Whitneys Point, in 1791, by Gen. John Patterson, from Berkshire co., Mass.<sup>9</sup> The first religious services were conducted by Deacon Josiah Lee, in 1792; and the first sermon was preached by Rev. Seth Williston, in 1795. There are 9 churches in town. 10

<sup>1</sup> The first birth was that of Betsey Stoddard, July 1,1794, and the first death, that of Sally Bird, sister of Mrs. Stoddard, Jan. 16,1800.

2 Named from Jason Crane, one of the engineers on the

Chenango Canal.

The first birth was that of Chester Pease, in 1793; the first marriage, that of Gardner Wilson and Polly Rugg, in 1800; and the first death, that of Mrs. Pease, in 1789. Elisha Pease erected the first sawmill, in 1797, and Thomas Cooper kept the first ore, in 1813. The first school was taught by Ozias Masch, in 1800.

<sup>4</sup> The highest point between the two rivers, by the State Road Survey, is 1688 feet above tide.

5 See page 255.

<sup>6</sup> Among the first settlers were Daniel Race, Noah Carpenter, Nathan Austin, Simeon Alexander, Russel Farnham, S. P. Greett, Anthony West, Joseph Page, John Pinney, J. P. Appleton, Shis Seward, Capt, Parker, Isaac Denton, and Dexter May. The first marriage was that of Conrad Edict and Elizabeth Whitaker, in

April, 1787; the first birth, that of Phebe Edict, in 1788; and the first death, that of Stephen Whitaker, Oct. 23, 1793. Capt. Dean built the first sawmill, in 1791, the first gristmill, in 1792,

Dean built the first sawmill, in 1791, the first gristmill, in 179, opened the first store, in 1794, and kept the first inn. The first school was taught by Hugh Compton, in 1792.

7 This name was applied to the tract s, of the Military Tract and "Twenty Towns" and between the Chenango and Tioughnioga Rivers. It was bought by Col. Wm. Smith, at 38 billings 3 pence per acre. The Chenango Triangle embraces Smithvillo and part of Greene in Chenango co., and Triangle and part of Barker in Broome.

Barker in Broome,

8 Named from Thos, Whitney,

9 In 1792, David Seymour and family settled at Whitneys
Point; and between 1794 and 1797, Timothy Shepherd, Asa
Rodgers, Benj and Hendrick J. Smith, and John Landers, settled at Piper Lisle. The first death was that of Mrs. Hannah
Lee, in 1791. The first school was taught by Martha Seymour,

<sup>10 4</sup> Bap., 2 M. E., 2 Cong., and 1 Univ.

UNION—was formed Feb. 16, 1791. A part of Norwich and Oxford (Chenango co.) were taken off in 1793, a part of Greene (Chenango co.) in 1798, Tioga (Tioga eo.) in 1800, Lisle in 1801, a part of Che-, nango in 1808, Vestal in 1823, and Maine in 1848. A part was annexed from Tioga, (Tioga co.,) April 2, 1810, and a part from Lisle, April 11, 1827. It lies upon the N. shore of the Susquehanna, s. w. of the center of the co. The surface consists of the Susquehanna intervale and the hilly region N. of it. The highlands are nearly centrally divided by the deep valley of Nanticoke Creek. The soil in the valley consists of a mixed clayey, sandy, and gravelly loam and alluvium, and is very productive. The hills have a rich soil of slaty and gravelly loam, and are cultivated to their summits. Union, (p. v.,) sitnated near the Susquehanna, in the s. part of the town, is a station on the N. Y. & E. R. R. The Union News is published at this place. Pop. 520. Union Center, (p.v.,) on Nanticoke Creek, partly in this town and partly in Maine, contains 2 churches and about 40 houses. **Mooper**, (p. o.,) in the s. part of the town, is a station on the Eric R. R. The first settlement was made in 1785, by Joseph Draper, Nehemiah Crawford, Bryant Stoddard, Nathan Howard, Jabesh Winchop, Caleb Merriman, and Winthrop Roc. The first church (Ref. Prot. D.) was organized in 1789, at Union Village, and Rev. John Manley was the first settled preacher. There are 4 churches in town.2

VESTAL—was formed from Union, Jan. 22, 1823. It lies upon the s. bank of the Susquehanna, and is the s. w. corner town of the co. The surface consists of the river intervale and the hilly region immediately s. of it. The soil upon the hills is a fine quality of slaty loam, and in the valley it is a deep, rich, gravelly loam and alluvium. It is adapted to both grain raising and grazing. Vestal, (p.v.,) near the month of Big Choconnt Creek, contains I church and about 45 dwellings, Vestal Center, (p. v.,) on the same stream, 1 church and about 20 honses, and Tracy Creek, (p. o., ) in the w. part, 1 church and about 10 houses. Settlement was commenced in 1785, by emigrants from New England.3 The M. E. church at Vestal was the first religious organization in town.4

WINDSOR5—was formed from Chenango, March 27, 1807. Colesville and Sanford were taken off in 1821, and a part of Conklin in 1851. A part of Conklin was annexed April 18, 1831. It lies upon the s. border of the co., s. E. of the center. Its surface is principally occupied by 2 high ridges separated by the valley of the Snsquehanna. Upon the E. side of the valley the hills attain an elevation of 400 to 800 feet above the river, and culminate in several sharp ridges; on the w. the hills are less elevated, though the highest summits attain an elevation of 400 to 800 feet above the valley. The declivities of these hills are generally quite abrupt. Oquaga Hill, in the N. E. part of the town, is one of the highest peaks, and it has some historical notoriety. (See The valley of the river is generally narrow. The soil is a deep, rich, gravelly loam in the valleys, and a slaty loam underlaid by elay and hardpan upon the hills. Considerable portions of the E. and S. parts of the town are yet unenltivated. Windsor, (p. v.,) situated on the Susquehanna, near the center of the town, contains 3 churches and Windsor Academy. Pop. 339. Stillson Mollow (West Windsor p.o.) contains about 20 houses. Randolph Center' (p.o.) is a hamlet. The first settlement was made on the Susquehanna, at the mouth of Doolittle Creek, in 1786, by John Doolittle, from Conn. The first church (Cong.) was organized Ang. 15, 1793, by Rev. Mr. Judd. There are 5 churches in town.

<sup>1</sup> Among the early settlers were Joshua and John Merserean, Gen. O. Stoddard, Nehemiah Spanlding, Walter Sabin, Capt. Wm. Brink, Mos & Chambers, Ezekiel and Oliver Crocker, Jeremiah and Benj. Brown. Amos Patterson, Abuer Rockwell, and Medad and Elisha B. Bradley. The first death was that of Mary J. Fisk, June 13, 1789. James Ross and Jabesh Winchop built the risk, June 18, 1797. James toos and Janesa wincop built the first gristmill, in 1791, and the latter opened the first tavern, the same year. The first school was taught by Flavel Sabin, In 1787. The first birth was that of Joseph Chambers, July 4, 1790.

<sup>2 2</sup> Presb. and 2 M E <sup>2</sup> 2 Press. and 2 M. E. Samnel and Paniel Seymonr, David Barney, Daniel Price, Wm. Coc. Enggles Winchel, and Asa Camp, were the first set-thers. Sand Coc kept the first inn, in 1791, and R. Winchel built the first greet mill, in 1786. The first school was taught by John ' Routch, in 1793.

<sup>&</sup>lt;sup>4</sup> The census reports 3 churches; Eap., M. E., and Ref. Meth. <sup>5</sup> Named from Windsor, Conn.

<sup>6</sup> The surface of the Susquehauna in this town is about 910

feet above tide.

7 So called from its being the center of Randolph's Patent.

8 David Amaphad and Cyrus Hotchkies, John Gurnsey, and — Swift, settled in town in 1787. The first birth was that of David Doblittle, Dec. 27, 1786; the first marriage, that of Capt. Andrew English and Miss Rachel Moore; and the first death, Anarew English and Juss Radner Jacret, and the last death, that of Mrs. Ashley, the interpreted of the Opinga Mission, in Aug. 1787. Justal stow open 4 the first inn and store, in 1788, and Nathan Line built the first gristmid, in 1797. The first school was taught by Stephen Seym our, in 1789.

9 2 M. E., and 1 each F. W. Bap., Eap., and Presb.

MIRIO WOOD—was formed from Conklin, Nov. 23, 1859. It includes all of that part of the old town of Conklin w. of the Susquehanna.

<sup>«</sup> Formed sin≈ 1855.

## CATTARAUGUS COUNTY.

This county was formed from Genesee, March II, 1808. It lies upon the Penn, line, near the s.w. corner of the State. It is 260 mi, from Albany, and contains I,334 sq. mi. The surface is a hilly upland, forming the N. spurs of the Alleghany Mts. The upland is separated by deep valleys into distinct ridges, having a general N. and s. direction. The valleys deepen toward the s., and the hills rise abruptly to a height of 800 to 1,300 feet above them and 2,500 to 3,000 feet above tide. Nearly the whole co. is very broken; and many of the hills, though arable to their summits, are too steep for profitable cultivation. Toward the N. border the extreme mountainous character is somewhat modified, and the summits of the hills spread out into high, rolling uplands. Allegany River enters

the s.E. corner of the co. from Penn., flows in a n.w. direction to near the center, thence s.w. to the s. border. It receives Four Mile, Trout, Tunegawant, Red House, Tunessassa, and Split Rock Creeks from the s., and Oswaya, Dodges, Haskel, Ischua, Five Mile, Mill, Wrights, Little Valley, Cold Spring, and Bone Run Creeks from the N. Cattaraugus Creek, forming the N. boundary, receives Buttermilk and South Middle Branch Creeks. Connewango Creek, draining the w. border, flows into Chautauqua co. Upon all these streams are numerous falls, furnishing an abundance of water-power.

The rocks of this co, belong mostly to the shales and sandstones of the Portage and Chemung groups. The former are exposed along Cattaraugus Creek, and the latter in the valleys in the central and s. parts of the co. The summits of the southern hills are covered with Catskill conglomerate. These rocks afford a good building stone in a few localities, but generally they are too easily acted upon by the elements to be very valuable. Drift deposits are found to some extent, scattered over the co.; and beds of clay, alluvium, and muck are found in limited quantities in the valleys.\textsuperscript{1} The only lime in the co. is derived from small, isolated beds of marl and tnfa. Springs of sulphur, weak brine, petroleum, and carburetted hydrogen are found in different localities. The "Oil Spring" of Freedom, yielding petroleum, is a place of considerable note. A very small amount of bog iron ore has been discovered in the swamps, but not in sufficient quantities to be profitably worked. The soil in the valleys is a yellowish loam, composed chiefly of disintegrated sandstone and shale; upon the uplands it is clay alternating with sand and gravel and underlaid by hardpan. The whole region is best adapted to grazing. For many years lumbering has been extensively carried on, and it still is a leading branch of business in the s. part of the co. The pine lands now remaining are exceedingly valuable; and the revenue derived from them forms no inconsiderable portion of the wealth of the co. Stock and wool growing and dairying form the leading pursuits in the other parts of the co.

The county seat is located at Ellicottville.2 The courthouse is a brick edifice, situated near the center of the village, upon ample grounds donated by the Holland Land Company. The clerk's office is a fireproof brick building, adjacent to the courthouse. The jail is a stone building, amply provided for the accommodation and classification of prisoners. The poorhouse is located upon a farm of 200 acres in Machias, 16 mi. N.E. of Ellicottville. The average number of inmates is 35, supported at a weekly cost of \$1.40 each. The farm yields a revenue of about \$1,000.3

The N. Y. & Erie R. R. enters the co. from the E., and extends along Oil Spring and Ischua Creeks to Olean, thence along Allegany River to the mouth of Little Valley Creek, thence up the valley of that creek about 9 mi., and thence in a n.w. direction to the w. border of the co. It passes through the towns of Hinsdale, Olean, Allegany, Carrolton, Great Valley, Bucktooth, Little Valley, Mansfield, New Albion, Persia, Dayton, and Perrysburgh. The Genesee Valley Canal

186

tions of the colorie essentially observed. The missions and vaneys of the x-me cavered with hemlock, and those of the x-with pine, 2 Upon the organization of the co., in 1808, Jonas Williams, Isaac Sutherhard, and Asa Ransom were appointed commissioners to locate the county seat. They fixed upon the site of Ellicottville, then a wilderness, and erected a large iron-wood post to indicate the spot. Up to 1817 the co. was merged in Niagara. The first cc. courts were held at Olean, July 3, 1817. The first co. officers were Timothy H. Porter, First Judge; James Brooks,

<sup>1</sup> The superficial deposits and alluvium of the N. and S. portions of the co. are essentially different. The hill-ides and valleys Boughton, Candy Clerk: Israel Curriss, Sheriff; and Jeremy of the N. are covered with hemleck, and these of the S. with pine. Wooster, Surrogate. The first conthouse and jail was erected at Ellicettville, in 1817-18. It was burned in 1829, and the present buildings were soon after erected.

3 This may be be a first control of the present buildings were soon after erected.

<sup>3</sup> This establishment is represented by the Senate Committee of 1857 as being in bad repair and indifferently kept. The food supplied was plain and wholesome; but the house was old and dilapidated, and little attention was pant to cleanliness.

Several railroads have been surveyed through the co., and upon

extends through Hinsdale and Olean, uniting with Allegany River at the latter place. An extension of this canal 7 mi, up the Allegany to the Penn, line is in process of construction.

Five weekly newspapers are now published in the co.1

This eo. was included in the territory ceded by the Six Nations to the Holland Land Co. in 1797. Three reservations made within the limits of the eo. are held by the Indians at the present day. The Oil Spring Reservation, containing I sq. mi., is partly in Ischua, Cattaraugus co., and partly in Cuba, Allegany co. The Allegany Reservation, containing 42 sq. mi., extends from the Penn. line 25 mi. N.E. along Allegany River. The tract is, on an average, about 2 mi. wide, and embraces nearly all of the river intervale,—the finest agricultural region in the co. It embraces portions of Allegany, Carrolton, Great Valley, Bucktooth, Cold Spring, and South Valley. A small portion of the Cattaraugus Reservation lies in the N. part of Perrysburgh.2 The Philadelphia Quakers established a mission on the Allegany Reservation, in what is now South Valley, as early as 1798. The first permanent settlement was unade at Olean, by Maj. Adam Hoops and his brother Robert, from Albany, in 1804. For many years a large share of Western emigration was by way of the Allegany River and Pittsburgh; and, being at the head of boat uavigation upon the river, Olean speedily became a place of importance. Upon the completion of the Eric Canal travel was diverted from this route and improvements advanced very slowly. The completion of the N, Y, & Erie R, R, gave a new impulse to enterprise and industry; and the co. is now rapidly progressing in all the elements of wealth and civilization.

ALLEGANY—was formed from Great Valley, as "Burton," April 18, 1831. Its name was changed March 28, 1851. Humphrey was taken off in 1836. It lies upon the s. border of the co., E. of the center. The surface is a hilly upland, broken by the deep valley of Allegany River, which extends E. and w. through the center. The declivities of the hills are steep, and their highest summits are 700 to 900 feet above the valleys. The streams are Four Mile, Five Mile, and Mill Crecks, tributaries of the Allegany. About nine-tenths of the town is still covered with forests. The soil is a shaly and sandy loam on the hills, and a clayey and gravelly loam in the valleys.

some of them considerable labor has been expended. The Erie & N.Y. City R.R. extends w. from the N.Y. & Erie R.R. at Rucktooth to Erie, Penn. A large portion of this road is graded. The Bufflo & Pittsburgh and the Attica & Allegany Railroads, both to terminate at Olean, have been surveyed; but work upon them been been indepthed up not respectively.

them has been indefinitely postponed.

1 The Allegany Mercury, the first paper in the co., was started at "Hamilton," now Olean, in 1818, by Benj. F. Smead. In 1819 Franklin Cowdery became interested in its pub-

In 1819 Franklin Cowdery became interested in its publication, and the name was changed to

The Hamilton Recorder. It was continued but a few years.

The Western Courier was started at Ellicottville in 1826 by

Richard Hill. In 1827 it was changed to

The Cottarungus Gesetle, and was continued about 2 years.

The Lodi Proneer was started at "Lodi," now Gowanda, in 1827

by Lewis B. Edwards. At the end of 3 years it was changed to

The Lodi Freeman and Messenger, and issued by G. N. Starr. In 1533 it passed into the hands of Eliakim Hough, and

was changed to

The Cuttorangus Freeman, under which name it was continued

until 1844, when it was changed to

The People's Advocate and Lodi Banner. In Oct. 1850, it passed
into the hands of Henry M. Morgan, and its name was

The Catagord to

The Guttarangus Chronicle. It was soon after changed to

The Independent Chronicle, under which name it was published

4 years. In 1864 John M. Henry became interested in

its publication, and it was changed to

The Governal Chronicle, and was continued until the office was

burned, April 30, 1856.

The Ellicotteille Republican was commenced in May, 1833, by Iselos E. Sill. In 1834 it passed into the hauds of R. H.

Shankland, and was changed to

The Cattaraugus Republican. In 1855 it became
the property of Fred. A. Stanton, by whom it is still

published. The Allegany Mercury was started at Olean in 1805 by G. W. Curler. In 1836 it was changed to

The Olean Advocate, and was issued by Rufus W. Griswold for about 1 year. In 1807 Carlos Woodcock had charge of it; and in 1838 it passed into the hands of Dudley Bryan

and was changed to The Olean Times. It was afterward published by A. M. Badger until 1841.

The Hinstelle Democrat was started at the village of Hinsdale in 1836 by Joseph T. Lyman. It soon passed into the hands of Edward Rughs & Co., and was continued 2

The People's Gazette was started at Hinsdale in 1840 by Geo. C.

Smith. In 1842 it was removed to Genesco. Livingston

The Catturangus Whig was started at Ellicottville in July, 1840, by Delos E. Sill. It was continued by him until 1854, when its name was changed to

The Cattaraugus Freeman, under which title it is still issued by Sill & Beecher.

The Randolph Herald was started at Randolph in March, 1842.

It was successively issued by Wm. Mason, Lorenzo and Julius Marsh, and Fletcher & Russell until 1845, when it passed into the hands of J. J. Strong, who continued it 2 years. Strong then joined the Mornions, and removed the establishment to Nanvoo, Ill.

The Freeman and Messenger was started at Ilinsdale in 1843 by L. E. Smith. Its name was soon changed to

The Expositor, and it was issued by Edwin and Allen C. Fuller until 1846.

The Gowanda Whig was started at Gowanda in Nov. 1850, by James T. Henry. In the following Feb. it was removed

The Whig and Union; soon after it appeared as

The American Union, soon after it appeared as

The American Union, under which title it is now published by Robert H. Shankland.

The Gowanda Phonix rose from the ashes of the great fire of April, 1856, and was issued 1 year by Louis S. Morgan. when it was removed to Bradford, Penn.

The Cattarangus Sachem was started at Randolph in June, 1851. and was continued about 1 year, when the press was removed to Olean.

The Randolph Whig was started at Randolph in July, 1852, by C. K. Judson and Benj. F. Morris. In 1857 its name was changed to

The Randolph Reporter, and it was issued by Morris until July 5, 1858, when it was removed to Gowanda and changed

The Gowanda Reporter. It is now published by N. W. Henry and Frank Stebbins.

The Oleon Journal was started at Olean in 1853 by Class. Aldrich. In June, 1856, it passed into the hands of James T. Henry, who changed its name to

The Olean Advertiser, under which title he still issues it.

The Neosophic Gem, mo., was started at Randolph in 148 by A.

M. Shattuck, and was continued 4 years.

2 The Indian titles to these lands have been questioned; but both the State and U.S. courts have decided them to be original. absolute, and exclusive. By an act of Feb. 19, 1857, the legas-lature formally renounced all right upon the part of the State to tax these lands. The Indians are mostly engaged in agricultural pursuits, in which they have made considerable progress

Lumbering is extensively pursued. **Allegany**, (p. v.,) upon Allegany River, E. of the center, contains a tannery, door and blind factory, 3 churches, and 70 houses. It is a station on the N. Y. & E. R. R. The Franciscan College is located near the village. **Five Mile Run** is a p. o. The first settler was Ebenezer Reed, from Conn., who located near the mouth of Nine Mile Creek in 1820.<sup>2</sup> The first religious services (Bap.) were held at the house of James Strong, by Elder Benj. Cole, in 1823. The first church (M. E.) was formed in 1829.<sup>3</sup>

ASHIFORD—was formed from Ellicottville, Feb. 16, 1824. It is centrally located on the N. border of the co. The surface is hilly, with ridges extending generally in a N. and s. direction. The highest points in the s. part are 300 feet above the valleys. Cattaraugus Creek, forming the N. boundary, and Buttermilk Creek, are the principal streams. The soil is a slaty loam intermixed with gravel and clay. Maple sugar is largely manufactured. Ashtord. (p. v.,) in the s. w. part of the town, contains a grist and saw mill, 2 churches, and 36 dwellings; East Ashtord (p. o.) contains 2 churches and 11 dwellings. The first settlers were Henry Frank and bis two sons Andrew and Jacob H., from Herkimer co., who located on Lot 56, in 1816. The first church (F. W. Bap.) was organized in 1821, by Elder Richard M. Cary. There are now 6 churches in town.

of the co., w. of the center. Its surface is mostly a broken and mountainous upland, the highest summits being 800 to 1,000 feet above the valleys. Allegany River flows w. and s. w. through the n. part. The other principal streams are Red House, Little Valley, and Bucktooth Creeks, and Sawmill Run. The soil is a clay and sandy loam. A large share of the town is yet covered with forests; and lumbering forms the leading pursuit. Bucktooth is a p.o. in the n. part. A few settlements were made previous to 1812; but they were abandoned during the war. The first permanent settler was James Rosenbury, who located in town in 1816. The only church (M. E.) was formed about 1830.

CARROLTON<sup>8</sup>—was formed from Great Valley, March 9, 1842. Part of Allegany Reservation was annexed in 1847. It is the central town upon the s. border of the eo. Ball Hill, in the s. E. part, is 800 feet above the valley. The Allegany flows n. w. through the n. part, receiving as tributaries Tunegawant and Windfall Creeks. The soil is a clay and shaly loam upon the uplands, and a gravelly loam in the valleys. Lumbering is the leading pursuit. Limestone, (p. o...) in the s. part, and Tuna, (p. o...) in the n., are hamlets. Charles Foster, Ilorace Ilowe, and Marcus Leonard located upon Lots 28 and 29 in 1814. The first religious meeting (Bap.) was held by Rev. Aaron Kellogg, at his own house, in 1831; and the first church (M. E.) was organized in 1843. The census reports 2 churches; M. E. and R. C.

COLD SPRING—was formed from Napoli, March 20, 1837. Parts of South Valley were taken off in 1847 and '48. It is an interior town, near the s. w. corner of the co. The surface is a hilly and broken upland, the highest summits being 400 to 500 feet above the valleys. The Allegany flows s. w. through the n. e. corner, and receives from the n. Cold Spring Creek, which flows through the center. The soil is a clay and slaty loam upon the uplands, and a sandy and gravelly loam in the valleys. A sulphur spring is found in the n. e. part. There is no village, p. o., or church edifice in town. Lumbering is extensively carried on. The first settlements were made by Chas. Crook, with his 3 sons Chas., jr., Ira, and Nathan, from Vt., on Lot 32, and Joshua Basson,

7 Among the other early settlers were James Green, Adam Johnson, and John Boutell. The first birth was that of a child of David Hathaway, in 1831; and the first marriage that of Andrew Mills and Sally Hadly. Leister Ganger taught the first school, in 1834; Adam Johnson kept the List ion, in 1832, and John Boardman the first store, in 1834. The first savanit was

<sup>&</sup>lt;sup>1</sup> This institution is under the control of the Franciscan (R. C.) Association. The buildings are now in process of erection. Nicholas Beyerenx donated to the association, for the institute,

Naclais Beverent dointed to the association, for the institute, 200 acres of Land and \$5.00.

2 Among the other early settlers were Andrew L. Allen, Hiram Word, James Strong, Issue Eggleston, Amos B, and David Orton, who bested on Five Mile Crock in 1821. The first child born was Nathen Beed, Oct. 2, 1820; the first maniage, that of Wm. Bs Fox and Sathy Strong, in 1825; and the turst persons who died were children of Issue Eggleston, in 1823. Leonard Cronkhite tunglet the first school, in a house of James Strong's, in the winter of 1825-26; therefor Teed kept the first un. in 1820; Aaron Wheeler the first store in 1833; and Reuben Lamberton errected the first swill, on Five Mile Crock, in 1826.

3 The centus reports 4 churches; Eap, Cong., M. E., and R. C. 4 Among the other walls of the research for the Good and Sent.

<sup>3</sup> The ceneus reports 4 charefules; (Eap., Cong., M. E., and R. C. 4 Among the other early settlers were John Goodenote, Saml. Flazg, Graffin and Pavid Wyby, Amos David, Thomas, and Makey Sampson, David Oyer, Augustus Van Slyke, Calvin Woodrull, Marcena Brooks, Jacob and Machrel Houghstader, John Quackenbush and his son Peter, all from Herkimer and Montemery cos., and all of whom located in town in 1818. The first birth was that of I hasbeth, doughter of Jacob H. Frank, in the full of 1817; and the first death, that of Pheebe, a child of Andrew Frank, Aug. 30, 1818. Dan! Thomas and Norman B. Carter taught the first schools, in 1822-23.

 <sup>5 2</sup> Bap., F. W. Bap., Cong., M. F., and Wes. Meth.
 5 This town contains an area of 47 (20 acres, of which less than 1,000 acres were under cultivation in 1875.

built by the Indians, in 1843, on Sawandt built.

8 Named from G. Carrelton, one of the original proprietors,

9 Upon the flats near Lime-tone are the renains of an ancient
fortification. It is in the shape of a Hane S, the remains of the

fortification. It is in the shape of a flame Primary of an interfaction of the dirth and enriftworks being plainly visible.

10 John and Wim Moore, I has Steine, Peter Z-duff. — Hecock, Isaac Farr, Agron Kellogg, and Win, Smath settled on Tima Creek in 1828. The first birth was that of Melit Zeloff, in dune, 1829; the first marriage, that of — Hown and Emelite Fuller, in 1828, and the first death, that of Fina h Fuller, in 1828. The first school was tanglit by Milton Northrep, at Limest ue, in the winter of 1830-31. I line Stone kept the first urn, near the month of Tima Creek, in 1828, and Chas, Lewis the first store, in 1832, The first sawnill was built by Marcus I conard, in 1826.

from Mass., on Lot 22, in 1820.1 The first religious meeting (Cong.) was held in 1823, by Rev. Wm. J. Wilcox.

CONNEWANGO—was formed from Little Valley, Jan. 20, 1823. Randolph was taken off in 1826, and Leon in 1832. It lies upon the w. border of the co., s. of the center. The surface in the s. w. and w. parts is level and swampy, the Connewango Swamp being 30 to 50 feet below the bed of Allegany River at its nearest point. The remaining parts are hilly. It is drained s, by Connewango, Little Connewango, and Clear Creeks, and other small streams. The soil on the nplands is clay and gravel, and on the flats a gravelly loam. Rutledge, (Connewango p. o.,) in the N. W. part, on Connewango Creek, contains a church and 17 dwellings. Clear Creek (p. v.) is on the line of Chautauqua co. Axville is a hamlet. Settlement was commenced in 1816, by Eliph. Follet, near Rutledge.<sup>2</sup> The first church (Presb.) was organized at Rutledge, in 1816.<sup>3</sup>

DAYTON-was formed from Perrysburgh, Feb. 7, 1835. It lies upon the w. border of the co., N. of the center. Its surface is generally a rolling and billy upland. The highest elevations in the x, part are about 300 feet above the x, x, at Dayton Station. It is drained s, by two branches of Connewango Creek and other small streams. The soil is a clayey and gravelly loam. Lumbering is an important branch of industry. Dayton, (p.v.,) on the N. Y. & E. R. R., in the N. E. corner of the town, contains 13 dwellings; and West Dayton. (Cottage p.o.,) in the N. W. corner, a church, 2 sawmills, and 14 dwellings. Sociality is a hamlet, in the s. E. part. The first settlement was made by Silas Nash and Simeon Bunce, from Otsego co., in 1810.4 The first religious meeting (Bap.) was held at the house of Joshua Webb, in 1816, by Rev. Elnathan Finch; and the first church (Bap.) was organized in March, 1818, at the house of Mr. Webb.5

EAST OTTO—was formed from Otto, Nov. 30, 1854. It lies upon the N. berder of the co., w. of the center. The surface is hilly and broken; Mt. Tug, the highest summit, being 300 feet above the valleys. Cattaraugus Creek forms the N. boundary; and South Middle Branch flows w. through the town, s. of the center. The soil is a clay and gravelly loam, favorable for both grain and grass. Otto Corners, (East Otto p.o.,) a little s.w. from the center, contains 3 churches and 17 dwellings. The first settlements were made by Joseph Bates, on Lot 20, and Hornee Wells, near Otto Corners, about 1816.6 The first religious meetings were held at the house of Tyler M. Beach, in 1821. The first preaching (M. E.) was at the same house, by Rev. Ira Brownson, in 1822.

ELLICOTTVILLE8—was formed from "Ischua," now Franklinville, April 13, 1820. Ashford was taken off in 1824. It is an interior town, lying a little N.E. of the center of the co. The surface is a hilly upland, broken by the deep and narrow ravines of the streams. The principal stream is Great Valley Creek, flowing s. through near the center. The soil upon the hills is a clay loam, and in the valleys a gravelly loam. **Ellicottville.** (p. v.,) on the creek, in the s. w. part of the town, was incorp. April 1, 1837. Besides the co. buildings, it contains 4 churches, 3 newspaper offices, and an iron foundery. Pop. 695. Plato and Ash Park are p. offices. The first settlements were made in 1815, by David Waldo, from Oneida co., and Orin Pitcher, from Mass.9 The first religious meeting was held at the house of Wm. Vinton, by Rev. John Spencer, m 1818. The first church (Presb.) was formed Sept. 10, 1822.10

1 Eastman Prescott and his father settled in the s. part, and | Dayton, and Wm. H. Leland, the first store in 1805, in the s. g. part of the town. Silas Nash erected the first sawnall, in 1817,

town.

Rickartson Burlingame, and 1 phraim Fitch setfled in 1816. The first schild burn was Orlando F. Pitcher, in June, 1816. The first school was fought by Juneo Carpenter, at the house of Orin Putcher, in the summer of 1817. Baker Leonard kept the first inn, in 1817, and the 1818. Orin Pitcher erected the first sawnull, in 1821, on Great Valley Creek.

FARMERSVILLE—was formed from "Ischua," now Franklinville, March 29, 1821. It lies on the E. border of the co., N. of the center. The surface is a hilly upland, forming the watershed between the streams flowing N. W. into Lake Erie and those flowing E. into Genesee River and s. into Allegany River. The highest point, near the center, is 800 to 900 feet above the R. R. at Olean. Mud Lake, in the N. part, covering an area of about 30 acres, discharges its waters N.; and Ischua Creek flows s. through the w. part. On the uplands the soil is chiefly a vegetable mold resting on clay, shale, and slate; in the valleys, a gravelly loam. Farmersville, (p.v.,) near the center, contains 2 churches and 17 dwellings. Fairview is a p.o. The first settlement was made by Peter and Cornelius Ten Broeck and Richard Tozer,-all from Otsego co.,-on Lots 4 and 36, in 1817.1 The first religious meeting was held by Rev. Eliab Going, (Bap.,) at the barn of Levi Peet, in 1821. The census reports 2 chnrches; Bap. and M. E.

FRANKLINVELLE—was formed from Olean, June 16, 1812, as "Hebe." Its name was changed to "Ischua," April 17, 1816; and to Franklinville, March 3, 1824. A part of Perrysburgh was taken off in 1814, Ellicottville, Freedom, and Yorkshire in 1820, Farmersville in 1821, and Lyndon in 1829. It is an interior town, lying N.E. of the center of the co. Its surface is undulating and hilly. It is drained s. by Ischua and Great Valley Creeks and several other small streams. The soil is clay and gravelly loam. Franklinville, (p. v., ) on Ischua Creek, in the N. E. corner of the town, contains 2 churches, 2 sawmills, and 370 inhabitants; Cadiz (p. v.) a church and several mills. Pop. 165. The first settlement was made at the village of Franklinville, by Joseph McClure, originally from Vt., in March, 1806.2 The first church (Bap.) was formed in 1823. There are 3 churches in town; Bap., Presb., and M. E.

FREEDOM-was formed from "Ischua," now Franklinville, April 13, 1820. A part of Yorkshire was taken off in 1844. It is the N. E. corner town of the co. The surface is a rolling or moderately hilly upland. Clear Creek and the s. branch of Cattaraugns Creek are the principal streams. Beaver Lake, in the s. part, Fish Lake, in the E., and Seum and Laws Lakes, in the center, are small ponds. The soil is a clay and gravelly loam. Several quarries of good building stone are found in different parts of the town. Sandusky, (p.v.,) on Clear Creek, in the N. part, contains 2 churches, a gristmill, and 2 sawmills. Pop. 175. Elton, (p. v.,) near the s. w. corner, contains a church and 14 dwellings. Freedom is a p.o. The first settlements were made in 1811, by Warren Stauley, Ezekiel Reynolds, from N. H., and Earl Lawyer, Rufus Metcalf, and Enoch Howlett, from Vt.3 The first religious meeting was held at the house of Rufus Metealf, in April, 1813, by Ehler P. Root. The first church (M. E.) was formed in 1820.4

GREAT VALLEY-was formed from Olean, April 15, 1818. "Burton," now Allegany, was taken off in 1831, and Carrolton in 1842. Part of Allegany Reservation was taken off in 1847. It is an interior town, lying a little s. of the center of the co. Its surface is a mountainous and hilly upland. The highest summit, near the s. w. corner, is 1,300 feet above the river. The declivities are generally very abrupt, and many of them are too steep for cultivation. Allegany River flows through the s. w. corner, and receives as tributary Great Valley Creek. The soil upon the highlands is a hard clay mixed with disintegrated slate and shale; and in the valleys a gravelly loam. Lumbering is the leading pursuit, five-sixths of the surface being still covered with forests.<sup>5</sup> Great Valley Station, (Killbuck p. o.,) at the mouth of Great Valley Creek, in the s. part, contains 18 dwellings; and Peth (Great Valley p. o.) 11. Settlement was commenced at the

1 Levi Peet and Peleg Robins, from Otsego co., settled on Lots 26 and 3, in 1817. The first child beau was Addison, son of Richard Tozer, in 1817; the first marriage, that of Peter Ten Broeck and Polly Tremain; and the first death, that of Mrs. Magdalene Adams, Nov. 7, 1820. The first inn was kept in 1817. Eithu Daggart and Sally McKee, and Sylvester Davis and Miss Magdalene Adams, Nov. 7, 1820. The first inn was kept in 1817. Daggart, were all married at the same time, in 1817. The first by Richard Tozer, and the first store by Jacob Comsteck, in 1828. James Worden crected the first sawmill, in 1824, on the kept the first inn and the first store, in 1824. He also erected the first sawmill, in 1821, on Clear Creek. Dr. Elihu Cruttenden erected the first gristmill, on the same stream, in 1822.

4 The census reports 5 churches; 2 Bap., F. W. Bap., Calv.

5 on Lot 19, about 1 mi, E. of the center of the town, is a place
known as the "Breathing Well." About 1850, Nicholas Flint
attempted to dig a well: but, after reaching a depth of 25 feet
and obtaining no water, he abandoned the undertaking but
stoned up the well, hoping that water neight come. Noticing a
current of air proceeding from the well, he inserted a pump log
in it, and covered it up, except the end of the log. A current
of air is continually blowing either into or out of the well; and
a whistly algorith the long of the log has been heard half a mi. a whistle placed in the bore of the log has been heard half a mi.
The current is sometimes steady in one direction for a whole

day, and sometimes it changes every bour.

ontlet of Mud Lake.

2 Mr. McClure was an agent and surveyor of the Holland Land <sup>2</sup> Mr. McClure was an agent and surveyor of the Holland Land Co., and located his lot in 1895. He was a leading man in the town for many years, filled the pinicipal town (fliers, served with the rank of captain on the Niagara frontier in the War of 1812, and lepresented the co. in the Assembly of 1814-15. His brother David settled in the town in 1806. Thes, Morris and Renry Courad in 1807, and Timothy Butler, Jerendah Burroughs, and Bunl. Cortwright, seon after,—all in the velley of Ischna Creek. The first child born in the town and co, was livan W., son of David McClure April 30, 1805. John McClure tanght the first sel.col. in 1809; Joseph McClure kept the first lon, in 1806, and Thos. Morris the first store, in 1816, at or near Franklinville Village. Henry Conrad built the first gristmill, in 1808, and sawmill, in 1809, at Caliz.

<sup>\*</sup> These settlers made improvements and put up log houses in

mouth of Great Valley Creek, by Judge James Green, in 1812. The first religious meeting was held at the house of Orin Pitcher, by Rev. John Spencer, in 1815. The first religious association (Cong.) was formed, with 8 members, in 1817. There is now no church edifice in town, and but 1 church, (M. E.)

HINSDALE—was formed from Olean, April 14, 1820. Ischua was taken off in 1846. It lies on the E. border of the co., s. of the center. The surface is a hilly and broken upland. The hills are 500 to 600 feet above the valleys and are bordered by abrupt declivities. The highest points, on Lots 23 and 24, are 500 feet above the R. R. at Hinsdale Village. Reservoir Lake is a small sheet of water near the s. E. corner. Ischua and Oil Creeks-the former from the N.E. and the latter from the N. W.—form a junction near the center, and thence the united stream takes the name of Olean Creek, flowing s. through the town. The soil upon the uplands is chiefly clay, and in the valleys a gravelly loam. **Hinsdale**, (p. v., ) at the junction of Ischua and Oil Creeks, contains 2 chnrches and several mills and manufacturing establishments. Pop. 255. It is a canal village and a station upon the N. Y. & Eric R. R. Scotts Corners, in the N. part, contains a church and 13 houses. Haskel Flat is a p.o. The first settlers were Horace Noble, Chas. Foot, and Thos. Lusk, who located near the present site of the village in 1806.2 The first religious meeting was held at the log barn of Zachariah Noble, in June, 1807. The first regular preacher was Rev. Reuben Aylesworth, (M. E.,) in 1820, who organized the first religious association in 1821.3

**HUMPHREY**<sup>4</sup>—was formed from "Burton," now Allegany, May 12, 1836. It is an interior town, lying a little s.e. of the center of the eo. The surface is a broken and hilly upland, the highest summits being 600 feet above the R. R. at Olean. Its streams are Great Valley, Five Mile, Wrights, and Sngar Town Creeks. The soil upon the hills is mostly clay, occasionally intermixed with sand, and in the valleys it is a gravelly loam. If umplivey Center is a hamlet. Humphrey and Sngar Town are p. offices. The first settlement was made in the N. W. corner, on Lot 56, by Russel Chappell, in 1815.5 The first religious association (M. E.) was formed in 1834.6

**ISCHUA**—was formed from Hinsdale, Feb. 7, 1846, as "Rice." Its name was changed March 27, 1855. It lies upon the E. border of the co., a little s. of the center. Its surface is a broken and hilly upland, the highest summits being 600 feet above the valleys. 1sehua Creek flows s. through the town and receives several tributaries. The soil is chiefly elay, with a thin surface mold and some gravelly loam. Quarries of good building stone are found in the town. Ischua, (p. v.,) formerly called "Rice," on Ischua Creek, in the n. part, contains a gristmill and 19 dwellings. The first settlement was made on Lot 45, on the creek, by Abraham M. Farwell, from Mass., in 1812.7 The first religious meeting was held at the house of Mr. Farwell, by Rev. John Spencer, in 1815; and the first church (M. E.) was formed in 1827.

**LEON**—was formed from Connewango, April 24, 1832. It lies on the w. border of the eo., a little N. of the center. Its surface in the w. and N. w. is level and marshy, and in the remaining parts moderately hilly. It is drained s. by Connewango Creek and its tributaries. The soil is a clay, sandy, and gravelly loam. Leon, (p. v.,) near the center, contains 2 churches and 18 dwellings. East Leon is a p. o. Thompsonville is a hamlet in the s. E. part. Settlements were made on Mud Creek, in 1819, by Jas. Franklin and his son James, from Riga, Monroe co., and Abner Wise and his son Abner W., Thos. W. Cheney, and Ed. Dudley, from Otsego co.

Renj. Chamberlin, and — Hibbard, who located in 1813; Lewis Worcester and Laurin Norton, in 1814. The first child born Worcester and Laurin Norton, in 1814. The first child born was Ira Green, in 1813; and the first death, that of Mrs. Hibbard, the same year. The first school was taught at the house of James Green, by Joel Fairbanks, in the winter of 1817-18. James Green kept the first inn, in 1813, at the mouth of Great Valley Creek, and Lewis Worcester the first store, in 1815, at Peth. The first sawnill was erected by James Green, in 1815.

2 Zachariah and Seymour Noble also settled in 1806. All the settlers at this time were from Ontario co. and originally from

settlers at this time were from Ontario co. and originally from Mass. The first child born was Clarissa, daughter of Horaco Noble, in the fall of 1808; and the first death, that of Bibbin Follet, in 1899. Rachael Turner taught the first school, at Scotts Corners, in 1818. Elihu Murray kept the first inn, near Hinsdale Village, in 1810, and Emery Wood the first store, in 1825. The first sawmill was erected by Lewis Wood, in 1815;

and the first gristmill, by Henry Conrad, in 1825.

The census reports 2 churches; Bap., and M. E.

Named from Charles Humphrey, of Tompkins co., Speaker

of the Assembly at the time of the formation of the town.

5 Among the other early settlers were Alonzo Berry, Abijah

Among the other early settlers were Danl. McKay, Judge | Rowley, Nathan Howe, Thomas Scott, and Stephen S. Cole. The hirst school was taught by John Howe, at Sugar Town, in 1820. Mr. Howe has since been a member of Congress from Penn. Russel Chappell kept the first inn, in 1824, and Averill Lawrer the first store, at Humphrey Center, in 1848. The fir was erected by Foster B. Salisbury, on Wright Creek. The first sawmill

Name Kirchall, Amos Pitcher, and Jonalage in 1815, and William Kimball, Amos Pitcher, and Jonathan Davis about the same time. The first child born was C. than Davis about the same time. The first child born was C. Adeline, daughter of A. M. Farwell, in 1816; and the first death, that of Henry Boughton, by the fall of a tree, in 1811. that of Henry boughton, by the latter a tree, in 1811. The first school was taught on the premises of Mr. Farwell, by Caroline Putnam, in the summer of 1821. Mr. Farwell erected the first sawnill, on Lot 45, in 1814, and Cook & Tyler the first grist-nill, in 1826, both on Ischua Creek. The first store was opened by Albert Lawrence and Henry Stephens, in 1832, and the first inn by Seymonr Boughton, in 1816

<sup>8</sup> Robert Durfee, from R. L. settled on Lots 50 and 57, in 1819, where he still resides; and John Fairbanks and John Battles, in 1819-20. The first birth was that of Edward Dudley, July 26,

The first religious meeting was held at the house of Abner Wise, in 1820, by Elder Hadley; and the first church (Ref. Meth.) was formed by Rev. Ezra Amadon, in 1822.

LITTLE VALLEY—was formed from "Perry," now Perrysburgh, April 10, 1818. Connewango and Napoli were taken off in 1823, Mansfield and New Albion in 1830, and Bucktooth in IS54. It is an interior town, lying a little s.w. of the center of the co. The surface is mostly a hilly upland, divided into two principal ridges by the deep valley of Little Valley Creek. The highest summits are 500 to 600 feet above the creek. Upon Lot 77, in the s.e. part of the town, is a peculiar rock formation, known as "Rock City." The soil is a hard, clay loam upon the hills, and a gravelly loam in the valleys.3 Little Valley, (p.v.,) in the N.W. corner, contains a church and 36 dwellings. It is an important station upon the N. Y. & Erie R. R. Little Valley Creek, near the center, contains a church and 11 dwellings. The first settlements were made in the valley, in 1807, by John Green, Judge Benj. Chamberlin, and several other families, who left during the War of 1812.4 The first church (F. W. Bap.) was formed by Elder Richard M. Cary, Oct. 8, 1826.5

LYNDON—was formed from Franklinville, Jan. 24, 1829. Its name was changed to "Elgin" April 7, 1857, and back to Lyndon April 16, 1858. It lies on the E. border of the co., N. of the center. Its surface is hilly, the highest ridges, near the center, being about 500 feet above the R. R. at Olean. It is drained by Oil Creek and branches of Isehua Creek. The soil is chiefly clay covered with a light vegetable mold upon the hills, and a gravelly loam in the valleys. Eigin, (p.o.,) near the center, and Rawson, (p.o.,) in the E. part, are hamlets. The first settlement was made by Solomon and Wm. Rawson, who located upon Lots 6 and 7 in 1808. The first religious services (F. W. Bap.) were conducted by Seth Markham, at his own house, in 1810. The first church (F. W. Bap.) was organized in the E. part of the town, in 1816, by Elders Jeremiah and Abraham Folsom.7

MACHHAS—was formed from Yorkshire, April 16, 1827. A part of Yorkshire was annexed in 1847. It is an interior town, lying N. E. of the center of the co. The surface forms a portion of the elevated table land dividing the waters of Allegany River from those of Cattaraugus Creek. Lime Lake, in the N. E. part, 1,100 feet above Lake Erie, discharges its waters N. into Cattaraugus Creek. Ischua Creek flows s. into the Allegany. The soil is a clay and gravelly loam, mostly of good quality. Maple sugar is largely produced. Machias, (p. v.,) in the N. E. part, contains 2 churches, a gristmill, sawmill, and 30 dwellings. Lime Lake is a hamlet at the head of the lake of the same name. Timothy Butler and Jeremiah Ballard, from Me., located on Lots 13 and 14, on the creek, below the village, in 1813.8 The first religious services were performed by Rev. John Spencer, a missionary from Conn.; and the first church (M. E.) was organized in 1822.9

MANSFIELD—was formed from Little Valley, Feb. 23, 1830. It is an interior town, a little

1820; the first marriage, that of Abner W. Wise and Laura 1820, the 1884 marriage, that of Abbre W. Wise and Laura Davison, in 1823, and the first death, that of Laura Abughter of Capt John Fairbanks, in 1821. Bichard Outhout taught the first school, in the winter of 1822-23. Asa Franklin kept the first inn, in 1823, and Johnson Noyes the first store, in 1828. Ebenezer Coffar creeted the first sawmill, in 1824, on Mud Creek; and Jabez Thompson, the first gristmill, on the same stream, in 1835

1 There are now 3 churches in town; Bap., M. E., and United

2 Rock City is situated upon the nearly level summit of a hill brethren.
2 Rock City is situated upon the nearly level summit of a hill offer above the valley and 2,000 fort above tide, and covers an area of about 100 acres. The rock, consisting of Catskill conglomerate, is arranged in regular blocks, with sharp angles and glomerate, is arranged in regular retects, with snarp angies and perpendicular sides, presenting the appearance of courtyards or squares in the midst of numerous streets and alleys. In a more minute description of the place, Prof. Hall, in his \*Geology of New Fork\*\* says, \*The large trees which stand upon the top of the immense blocks have often sent their roots down the slides, where they are sustained by the deep soil, supporting the large growth above upon an almost barren rock. The rectangular growth above upon an almost barren rock. The rectangular blocks, composed of pure white pebbles conglutinated, are from 30 to 25 feet in thickness, and, standing regularly arranged

along the line of outcrop, present an imposing appearance,"

3 A successful experiment in domesticating the American elk
has been made in this town by Mr. Lorenzo Stratton. This
gentleman purchased a pair in 1853, and subsequently 3 more,
from the head branches of the Missouri, and placed them in a
pasture of 125 acres of well fenced woodland. By frequent attention and feeding, the animals have become so domesticated that they are driven to the animals not occase so consistence. Has they are driven to the animal co. fairs without trouble. His original number of 5 have increased to 15, including a pair of 5 year dels sold for \$1,000 for shipment to England, in 1857, and a 3 year old huck slaughtered July 4, 1858.

4 Among the first settlers before the war were Luther Stewart, Wm. Gillmore, Pavid Powers, and Alphens Bascom. After the war, Stephen Crosby, from Madison co., located on Lot 30, in Feb. 1816; and Noah Culver, Emoch, David, and Alvin Chase, and John Stratton, from New England, soon after. David Powers built the first saw and grist mill, in 1809, on Little

Valley Creek.

5 The census reports 3 churches; F. W. Bap., Cong., and Prot.

<sup>6</sup> Among the other early settlers were J. Simons, David, Seth, and Jephtha Markham, from Penn., who settled on Lot 7 in 1809. The Markhams were originally from Conn. The first child born was Nattella, daughter of Solomon Rawson, in Aug. 1809; the first marriage, that of Wm. Markham and Bachel Phillips, March of the 3 Markhams among the first settlers, in 1811. Sally Osborne taught the first school, in the summer of 1815, in the E. part of the fown. The first inn was kept by Wm. Bawson, in the E. part, in 1825, and the first store by Charles Gillmore, at the center, in 1827. The first sawmill was built by Jason Sherman, in 1843.

7 The census reports 4 churches; F. W. Bap., Wes. Meth.,

Asso, Presb. and Asso, Ref. Presb.

8 Joseph Kinney settled In 1815; Obadiah Vaughn in 1818; E.
T. Asheraft, Chas. Button, Chas. II. Briggs, and Wiggen M. Far-T. Asheratt, Chas. Button, Chas. H. Briggs, and Wiggen M. Far-rer soon after. The first marriage was that of Brigham Brown and Polly Mason, in April. 1823; and the first death, that of Esther Asheraft, in Dec. 1819. Nathl. Bowen taught the first school, in 1819, on Lot 25. Andrew McBuzzell elected the first sawmill, in 1822, and Panl. Potter the first gristmill, in 1823, both on the outlet of Line Lake. The first store was kept at the same place, by Howard Peck and Alva Jefferson; and the first inn, on Ischua Creek, by Widow Freeman, in 1820.

9 The census reports 2 churches; M. E. and Christian.

N. W. of the center of the co. The surface is hilly, the highest elevations, in the s. E., being about 300 feet above the N. Y. & E. R. R. where it crosses the s.w. corner of the town. The s. branch of Cattaraugus Creek flows w. through the N. part, and several small streams s. into the Allegany. The soil is a hard, clay loam on the uplands, and a gravelly loam in the valleys. Eddyville. (p.o.,) in the N. part, contains 2 churches, a sawmill, and 11 dwellings. The first settler was Amos Morgan, who located in the s. part in 1817.1 The first church, (Bap.,) formed in 1828, has since broken up.2

NAPOLI—was formed from Little Valley, Jan. 20, 1823, as "Cold Spring." Its name was changed April 15, 1828; and the present town of Cold Spring was taken off in 1837. Its surface is a hilly upland, the highest summits being 600 feet above the valley. The principal stream is Cold Spring Creek. The soil is a clay and gravelly loam. Napoli, (p.v.,) s. of the center, contains a church and about a dozen houses. The first settlement was made on Lot 27, by Major Timothy Butler, in 1818.3 The first religious meeting was held by Rev. John Spencer, in 1820. The first church (Cong.) was organized in 1820.4

**NEW ALBION**—was formed from Little Valley, Feb. 23, 1830. It is an interior town, N. w. of the center of the co. The surface is a hilly upland. It is drained by streams flowing into Cattaraugus Creek on the N. and into the Allegany on the s. The soil is a clay loam on the hills. and a gravelly learn in the valleys. **New Albion**, (p.v.,) a little s. of the center, contains 20 dwellings; Cattaraugus, (p. v., ) in the N. part, contains a steam flouring mill and 50 dwellings. It is an important station upon the N. Y. & E. R. R., and has grown up since this road was completed. The first settlement was made on the s.w. corner of Lot 57, by Matthew Dimmick, in 1818.6 The first religious association (M. E.) was organized in 1830. There are 3 churches in town, but no church edifice.7

OLEAN—was formed March 11, 1808, and at first included the whole territory of Cattarangus co. "Ischua," now Franklinville, was taken off in 1812, a part of Perrysburgh in 1814, Great Valley in 1818, Hinsdale in 1820, and Portville in 1837. It lies upon the s. line of the co., near the s. E. corner. The surface is a hilly upland, separated into two distinct parts by the valley of the Allegany. The highest points are 500 to 600 feet above the valley. Lumbering is the leading occupation. Olean, (p. v., ) on the Allegany, at the month of Olean Creek, was incorp. in 1854. It contains 6 churches, the Olcan Academy, a newspaper office, a flouring mill, foundary, tannery. and 3 sawmills. Pop. 994. It is a station upon the N. Y. & E. R. R., and an important commercial point upon the river; and it was for some years the southern terminus of the Genesec Valley Canal. The first settlement was made prior to 1805. In that year Robert Hoops, agent of Adam Hoops, and David Heusten were residents near the river on small improvements, and must have settled as early as I804.10 The first church (M. E.) was formed in 1820.11

**OTTO**<sup>12</sup>—was formed from Perrysburgh, Jan. 29, 1823. East Otto was taken off in 1854, a

<sup>1</sup> Among the other early settlers were Nathaniel Fish, Sewell | Lot 33. The first birth was in the family of Matthew Dimmick, Gnin, and — Bennett, who located in the s. part in 1817; and Samuel L. Hollister, from Great Valley, who located in the s.e. part in 1822. The first child born was Mahala Pish, Dec. and Samuel L. Housser, from typen vancy, who located in the N. E. part in 1822. The first child born was Mahala Fish, Dec. 9, 1820; and the first marriage, that of Prince W. Fish and Lois Grover, Jan. I. 1824. The first school was tungth by Lefo Chase, in 1821. Nathaniel Fish kept the first inn, on the old Johnson Road, in the s. E. part, in 1848, and Thos, H. McKay the first store, in 1848, at Eddyville. The first sawnill was erected by George and Munson Clark, in 1837, on the s. branch of Catta-

raugus Creek.

2 The census reports 3 churches; M. E., F. W. Bap., and Univ. 3 In 1819, Geo. Hill located on Lot 29, Harvey Parmalee and Harlow Butler on Lot 51, Sargent Morrill on Lot 50, and Timo-thy Boardman on Lot 43. The first child born was Joseph Foy, thy hoardman on hot 45. The first can born was Joseph Foy, in June, 1820; the first marriage, that of Dr. Noble and Statira Canfield, in 1821; and the first death, that of a child of Timothy Butler, in 1820. The first school was taught by Fanny Beardman, in the summer of 1819. Moses Cook kept the first store, in 1826, and Eastman Prescott the first inn, in 1831. James Wait erected the first sawmill, in 1829, on a branch of Cold Spring Creek.

There are 4 churches in town; Cong., Bap., F. W. Bap., and

M. E.

5 Joseph Plumb, the owner of the lands on which the village is built, decided the lots with the condition on penalty of for-feithre that no intoxicating liquors should be sold on the pre-mises. It is, of course, a temperance village,

<sup>6</sup> Pavid Hammond, r. located on Lot 33, and Jonathan Kinnscutt on Lot 10, in 1818; A. Smith Waterman on Lot 25, and James Godard on Lot 9 about the same time; Benj. Chamberlin on Lot I, and David Hill and John A, Kinnecutt on Lot 18, in Dec. 1820; Robert and Timothy P. Gay subsequently located on

in Dec. 1818. Capt. Rosecrantz, an Indian trader, froze to death in this town in the winter of 1810, while on his way from the month of Cattaraugus Creek to Olean. The first inn was kept month of Cattaraugus Creek to Olean. The first inn was kept by Jas. Godard, on Lot 9, in 1819, and the first store by Erastus Hooth, in 1833, at the center. Matthew Nealy built the first sawmill, on a s. branch of Cattarangus Creek, and Charles Sib-

ley the first gristmill, on Lot 49, in 1836, <sup>7</sup> M. E., Wes, Meth., and Prot. Meth.

<sup>8</sup> The academic buildings were burned April 1, 1856. The new

buildings are nearly ready for the reception of students.

9 An act was passed in 1856 authorizing the extension of this canal 7 mi, to the Penn, line. The work is now in progress; and, when completed, it will, in connection with slackwater navigation upon the river, open a direct communication with

navigation upon the river, open a direct communication with the coal mines of Penn.

19 John Brooks, James Green, Cornelius Brooks, Wm. Shepard, and Willis Thrall located in 1806. Jas. G. Johnson was the first settler in the village, in 1808. The first lumber was rafed down the Allegany in 1807, by Bibbins Follet, Jededach Strong, and Dr. Bradley. The first birth in town was that of Clean, daughter of Wm. Shepard, May 22, 1807; and the first death that of Wm. B. Shepard, Sept. 21, 1809. Sylvanus Russell kept the first ion, in 1808, at Olion Point and Levi Gragary the first store, in in 1808, at Olean Point, and Levi Gregory the first store, in 1811, at Olean Villago. Wm. Shepard and Willis Thrall creeted the first sawmill, in 1807, on Olean Creek; and Adam Hoops, the first gristnill, in 1809, at the mouth of the Creek. Mr. Hoops was a proprietor of lands and a piopeer settler. He had served with distinction in the Continental army,—at one period as aid to Gen. Washington.

11 There are now 7 churches in town; 2 Evan. Luth., M. E.,

Prof. E., Presh., Bap., and K. C.

Prof. E., Presh, Bap., and K. C.

Named from Jacob S. Otto, agent of the Holland Land Co.

part of Perrysburgh in 1823, and a part of Ashford in 1835. It lies on the N. line of the co., w. of the center. The surface is a hilly and broken upland. It is drained w. by Cattaraugus Creek, which forms its N. boundary, and several tributaries, the principal of which is the South Branch, forming the w. boundary. The soil is chiefly a hard, clay loam, with occasional spots of gravelly **Waverly**, (Otto p. o.,) in the s. part, contains a church, woolen factory, and gristmill. Pop. 277. The first settlement was made on Cattaraugus Creek, in 1816, by Joseph Adams and his son Bina, and Joseph Bartlett. The first church (Christian) was formed about 1826.2

PERRYSBURGII3—was formed from Olean and "Ischua," now Franklinville, April 13, 1814, as "Perry." Its name was changed April 10, 1818. Little Valley was taken off in 1818, Otto in 1823, and Dayton and Persia in 1835. Part of Otto was annexed in 1823. It is the N. w. corner town in the co. Its surface is a hilly and broken upland. Cattaraugus Creek forms the N. boundary. The streams are small branches of Cattarangus and Silver Creeks. The soil is a clay and gravelly loam. Perrysburgh, (p. v.,) s. of the center, contains a church and 23 dwellings. It is a station on the N. Y. & E. R. R. Versailles, (p. v., ) on Cattaraugus Creek, in the N. E. part, contains a church, 2 flouring mills, and a tannery. Pop. 274. The rapid descent in the creek at this point affords an extensive water-power. The first settlement was made in 1815, by John Clark. Religious meetings (M. E.) were held in 1820; but the first church (Bap.) which drew the lands granted by the Holland Land Co. was formed in 1821.5

PERSIA—was formed from Perrysburgh, Feb. 7, 1835. It lies on the N. line of the co., w. of the center. The surface is a hilly upland, with a general inclination toward the N. The highest points are about 650 feet above Lake Erie. The principal streams are Cattaraugus Creek, forming the N. boundary, and South Branch. The soil is a clay and gravelly loam. Gowanda, 6 (p.v.,) on Cattaraugus Creek, in the N.W. corner, was incorp. Dec. 7, 1847. It contains 2 churches, a newspaper office, a large flouring mill, 2 sawmills, and various other manufacturing establishments. Pop. 908, of which 520 are in Persia and 388 are in Collins, (Eric co.) The first settlement was made a little above Gowanda Village, in 1811, by John Russell, from Vt. Upon the breaking ont of the War of 1812, he left with his family and never returned. In 1814, Ahaz Allen, from Vt., settled permaneutly on the lot left by Russell.7 The first religious meetings were held by Elder Elnathan Finch, (F. W. Bap.,) in 1815-16. The first church (Presb.) was formed in 1826, at Gowanda.

PORTVILLE—was formed from Olean, April 27, 1837. It is the s. E. corner town of the co. The surface is mostly a hilly upland, the highest summits being 500 to 600 feet above the valleys. The Allegany River enters the town upon the s. border, flows N. to near the center, and thence N.W. to the W. border. It receives as tributaries Oswaya, Hodges, and Haskel Creeks. The soil is a saudy loam; and the flats were originally covered with a magnificent growth of white pine. Lumbering is the leading pursuit. Portville, (p.v.,) on the Allegany, contains 2 churches, 2 sawmills, and a gristmill. Pop. 287. Mill Grove, s. of Portville, on the Allegany, contains 2 sawmills, a gristmill, and 18 dwellings. The first settlement was made in 1805, by James Green, on Haskell Creek, in the N. part of the town. The first church (M. E.) was formed in 1824. The ceusus reports 2 churches; M. E., and Presb.

RANDOLPHI—was formed from Connewango, Feb. 1, 1826, and named from Randolph, Vt. A part of South Valley was taken off in 1847. It lies upon the w. border of the co., s. of the center. Its surface is an undulating and hilly upland, the highest summits being about 400 feet ahove the valleys. Little Connewango Creek is the principal stream. The soil is mostly a clay

<sup>1</sup> Stephen, Isaac, and Benj. Ballard, from Vt., and Ephraim Brown, settled in 1818, in different parts of the town. David S. Elliott kept the first inn, and Vine Plumb the first store, in 1828, at Waverly. The first sawnill was erected by Isaac W. Sherman, in 1822; and the first gristmill, by Stephen Rogers, in

Sherman, in 1822; and the first gristmill, by Stephen Rogers, in 1828, at Waverly.

2 There are now 3 churches in town; Christian, M. E., and Presb.

3 Named from Commodore 0. 11 Perry.

4 Among the other early settlers were Edward Russell, Phineaa Spencer, Hugh Campbell, Balph Griswold, Wm. Cooper, John Sprague, and Simon Waterman, who came in about 1816; and Elisha Ward. Stephen Crocker, and Freeman Edwards, who located near Perrysburgh Village in 1817. The first school was taught by Olive Barto, in the summer of 1819. Benj. Waterman kept the first inn, in 1816, and Cobb, Cook & Pelton the first store, at the village, in 1927. The first sawmill was erected no the branch of Silver Creek, by Isaac Balcomb; and the first gristmill, at Versailles, about 1820.

5 The census reports 4 churches; 3 M. E., and Bap.

5 Formerly called "Lodi."

Formerly called " Lodi."

<sup>&</sup>lt;sup>7</sup> Thomas Farnsworth located in 1814, and Merrill Aldrich and Daniel Wheeler in 1815. The first child born was Anice Farnsworth, in the summer of 1815. The first school was taught by Polly Redfield, in 1817. Ahaz Allen erected the first sawnill, in 1814; the first clothing works, in 1821; and first gristmill, in 1823, on Cattaraugus Creek. Phineas Spencer kept the first store, about 1825, at Gowanda. "Point Peter" is the name given to a locality 1; mi. above Gowanda that marks the site of an ancient fortification.

6 There are 2 churches in town: Presb. and M. E.

<sup>9</sup> The first child born was Hannah Green, daughter of Jas. Green, April 28, 1807; the first marriage was that of Jonathan Dedge and Eunice Atherton, in 1809; and the first death, that of David Reusten, killed by the spring of a tree while getting out spars, in the spring of 1807. Anna Carpenter taught the first school, near Portville Village, in the summer of 1822. Luman Rice kept the first inn, in 1822, and Allen Rice the first store, in 1823. The first sawmill was erected by James Green and Alpheus Dodge, on Haskel Creek, in 1807; and the first gristmill, by Samuel King, on Dodges Creek, in 1830.

and gravelly loam. A sulphur spring is found ½ mi. N. of East Randolph. (p. v...) on Little Connewango Creek, in the N. part, contains a sawmill, 3 churches, and about 600 inhabitants; East Randolph, (p. v...) in the N. E. corner contains 2 churches, a grist and saw mill, a furnace, machine shop, tannery, and about 700 inhabitants. Randolph Academy is situated upon an eminence about midway between the villages. The first settlement in town was made at Randolph Village, by Edmund Fuller, from Oneida co., in 1820. The first church (M. E.) was organized in 1823.

SOUTH VALLEY—was formed from Randolph and Cold Spring, April 2, 1847. A part of Cold Spring was annexed in 1848. It is the s. w. corner town of the co. The surface is mountainous and broken. Allegany River flows s. w. through the town and receives as tributaries Split Rock, Hotchkiss, Tunessassa, Pierce, Sawmill, and Bone Rnn Creeks. The soil is a clay loam on the hills, and a rich, gravelly loam in the valleys. Lumbering is the principal occupation of the people. Onoville is a p. o. The first settlement was made, under the auspices of the Friends' Mission, upon the Allegany Indian Reservation. The Mission was established in 1798, by the Yearly Meeting of Philadelphia Friends; and Joel Swayne, Holliday Jackson, and Chester Simmons, from Chester co., Penn., settled upon the Reservation, in the N. part of the town. It does not appear that any other religious association has ever been formed in the town. The Presb. missions on the Reservation, however, have an extensive range in the valley of the Allegany.

**YORKSHIRE**—was formed from Franklinville, April I3, I820. Machias was taken off in 1827. A part of Freedom was annexed in 1844, and a part of Machias was taken off in 1847. It lies upon the N. border of the co., E. of the center. Its surface is a rolling and hilly upland. Cattaraugus Creek forms the N. boundary. South Branch flows through near the center and receives several tributaries. The soil is a clay and gravelly loam. A large amount of maple sugar is annually produced. **Yorkshire Corners**, (Yorkshire p.o.,) on Cattaraugus Creek, contains 38 dwellings. **Yorkshire Center**, (p. v.,) a little E. of the center, contains 2 churches, 2 sawmills, a gristmill, and 42 dwellings. **West Yorkshire**, (p. v.,) on the N. line, at the junction of the South Branch with Cattaraugus Creek, contains a gristmill, sawmill, carding machine, and I4 dwellings. The first settlement was made in 1810, on Lot I, in the N.E. corner by Abner Bomp, from Vt.<sup>5</sup> The first church (M. E.) was formed about I814.<sup>6</sup>

<sup>1</sup> The first child born was James Fuller, in June, 1822; and the first death was that of Zadmon C. Smith June 17, 1824, while at work on mills of Chauncey C. Helms. The double marriage of David Salisbury and Clement Russell with daughters of Thos. Harvey, at the same time, was the first in town. The first school was taught by Sally Morton, at Randolph Village, in the summer of 1822. Benj. Clark kept the first inn, in 1823, and Robert Helms the first store, in 1837. Thos. Harvey erected the first sawmill, in 1823; chancey C. Helms, the first grist-mill, in 1826; and Jonathan Wood, the first carding and cloth Assessive still, in 1826.

dressing nill, in 1827.

2 There are 5 churches in town; M. E., Bap., F. W. Bap., Cong., and R. C.

<sup>8</sup> The extensive pine forests which grew in town are nearly exhausted; and the lumbering is now mostly confined to the coarser kinds of lumber. The town has an area of 37.749 acres, of which only about 2,000 acres are under improvement.

<sup>4</sup> Soon after the first settlement the Yearly Meeting at Phila-

delphia purchased 300 acres of land of the Holland Land Company and built a saw and grist mill. The mills did work for white settlers on the usual terms, and furnished lumber and ground corn for the Indians free. The Indians were also instructed in agriculture and the arts of civilized life. The mills were built by Jacob Taylor and Jonathan Thomas. Robert Clendenon, from Chester co. Penn, occupied the Mission Station in 1812. It is said that descendants of Sir Wm. Johnson are now residing on the Allegany Reservation.

in 1812. It is said that descendants of Sir will, Johnson are now residing on the Allegaux Reservation.

6 Renj, and Wm. Felch, Edward Bomp, Thos. Dow, and Litther Thompson were among the first settlers. Saml, G. Sutton and Rol ert Steel, from N. H., settled in 1818, and are now the oldest residents in town. The first store was keep by Henry L. Baker, in 1823, and the first inn by Prescott Williams, in 1826,—both at Yorkshire Corners. Isaac Williams erected the first grist and saw mill, in 1814, on Cattarsaveus Creek.

<sup>6</sup> There are now 3 churches in town; M. E., Bap., and Univ.

Acres of Land, Valuation, Population, Dwellings, Families, Frecholders, Schools, Live Stock, Agricultural Products, and Domestic Manufactures, of Cattaraugus County.

## CAYUGA COUNTY.

This county was formed from Onondaga, March 8, 1799. Seneral was taken off in 1804, and a part of Tompkins in 1817. It is a long, narrow co., lying w. of the center of the State, and extending from Lake Ontario s. to near the head of Cayuga Lake. It is centrally distant 146 mi. from Albany, and contains 756 square mi.! It has a general northerly inclination, and is divided geographically into two nearly equal parts by a line extending eastward from the foot of Cayuga Lake. The N. balf is level, or gently undulating, and contains numerous marshes. Some portions of its surface are covered with small, isolated drift-hills 50 to 75 ft. high. The surface of the s. balf is rolling, and gradually rises until it attains an elevation of 500 to 800 ft. above the level lands of the N. These highlands are divided into two general ridges, the first lying

between Skaneateles and Owasco Lakes, and the second between Owasco and Cayuga Lakes. The summits of both ridges are rolling, and have an elevation of 1000 to 1200 ft. above tide. Their E. declivities are often precipitons, forming high, bold bluffs upon the shores of the lakes, but their w, declivities are more gradual, generally sloping gently down to the very edge of the waters. The s. part of the w. ridge is divided near its center by the valley of Salmon Creek, which is bordered by steep banks 50 to 200 ft, high. Among the most peculiar of the natural features of the co. are the three long, narrow lakes which extend from the level regions of the N between the parallel ridges far into the highlands of the s. Skaneateles Lake, upon the E. line, is 840 ft. above tide, and is bordered by bluff shores within the limits of the co. Owasco Lake, near the center, is 770 ft. above tide, and its shores are generally hold, and in some places precipitous. Cayuga Lake, on the western border, is 387 ft. above tide, and along nearly its whole extent in the co. the land slopes beautifully and evenly upward from its surface to the summits of the ridges. The water of these lakes is clear and transparent, and may be taken as the very type of purity. This lake region, with its beautifully rolling surface and rich and productive soil, with its green lawns apparently stretching upward from the very bosom of the water, and with its highly cultivated farms, presents one of the finest landscapes in the country. Seneca River flows eastward through near the center of the lowlands which form the N. half of the co. It receives Caynga and Owasco Outlets from the s. and numerous smaller streams from both the N. and s. A swampy region, known as the Montezuma Marshes, extends along the whole course of the river.2 The streams that drain the central ridges are small creeks and brooks. Upon the level land in the N. part of the co. are a series of small, shallow lakes and ponds, the principal of which is Cross Lake.

The rocks in this co. generally lie in nearly horizontal layers, but in some places they are disrupted and broken. Their edges appear one above the other, forming the declivities of the hills that rise toward the s. The lowest formation is the Medina sandstone, which outcrops upon the shore of Lake Ontario and covers the N. half of Sterling. Above this successively appear the Oneida, conglomerate, and Clinton groups in the s. part of Sterling; the Lockport group in Victory; the red shale of the Onondaga salt group in Cato, Brutus, Conquest, and Mentz; the gypsum of the same group in Auburn, Aurelius, and Springport, and for a distance of 10 miles along Cayuga Lake; the waterlime and Oriskany sandstone in Owasco, Auburn, Fleming, and Springport; and, successively above the Onondaga and corniferous limestone, the Marcellus and Hamilton shales, Tully limestone, Genesee slate, and the Portage and Ithaca groups, the last occupying the summits of the southern hills. Weak springs of brine are found in the Medina sandstone upon the borders of Lake Ontario, and also in the red shale of the salt group along the course of Seneca River. In the central part of the co., and along the shores of Cayuga Lake, are numerous quarries, which furnish a good quality of waterlime, quicklime, and gypsum. The red sandstone and the Onondaga and corniferous limestone are quarried extensively for building stone. Thin layers of corniferons limestone and of sandstone are extensively quarried along Caynga Lake, and make an excellent quality of flagging.

The soil in the x, half of the co, is generally a fine quality of sandy or gravelly loam, inter-

 <sup>1</sup> Exclusive of 180 sq. mi. in Lake Ontario.
 2 Soveral efforts have been made by the State to drain these however, has yet been redeemed.
 197

mixed with clay, muck, and alluvium; and in the s. it is a gravelly and clay loam and very productive. The whole co. is well adapted to either grain raising or pasturage. Until within a few years wheat has been the staple production; but it has been nearly superseded by rye, oats, barley, and corn. Wool growing and dairying are also extensively pursued. The cultivation of fruit, to which the climate and soil are admirably adapted, is beginning to receive considerable attention. The manufactures of the co., mostly confined to Auburn, are extensive, though comparatively tess than in  $1810^{1}$ 

The county seat is located at the city of Anburn.<sup>2</sup> An elegant and substantial courthouse was built in I807-09.3 It is located upon a commanding site in the s. w. part of the city, and coutains rooms for the usual co. offices. A fireproof clerk's office is situated adjacent to the courthouse. A substantial stone jail was erected in 1833, in the rear of the conrthouse.4 The county poorhouse is located upon a farm of 90 acres in Sennett, 3 mi. N. E. of Auburn. It is a poor, old, dilapidated building, containing about 30 rooms. The average number of inmates is about 100, supported at a weekly cost of 70 ets. each. A school is kept during a portion of the year.<sup>5</sup> The Cayuga Orphan Asylum, located in the city of Auburn, was incorp. in April, 1852. It receives orphans and destitute children and has an average attendance of 30. The institution is well managed, and the children receive good care and instruction. The Eric Canal extends through Brutus, Mentz, and Montezuma. Cayuga Lake and Outlet are navigable, and form a connection with the eaual at Montezuma. The direct branch of the N.Y. Central R.R. from Syracuse to Rochester extends through Brutus, Mentz, and Montezuma, and the Auburn branch through Sennett, Auburn, and Aurelius.6

Two daily, 7 weekly, and 3 monthly papers are published in the co.7

1 "The number of looms in the co. were 1,360, producing 340.870 yds, of cloth annually; there are 19 tanneries, 47 dis-48 asheries, 11 carding machines, 11 cloth dressingmills, 3 oil mills, an air furnace, triphammer, several nail factories, 6 earthen ware factories, and several hatters' shops. About 2,500 skeins of silk and 60,000 bushs, of salt are made annually. The inhabitants clothe themselves principally in the products of their own families, and were it not for the exerbitant number of their distifleries, I should add, are very temperate and industrious,-the character given them by correspondents."-

numerrous,—the character given them by correspondents.—
Spofford's Guzetter, ed. 1813.
When organized in 1799, Cayuga included Seneca ca, the territory lying between the Cayuga and Seneca Lakes; and, as central to the thin population, the first courthouse was located at Aurora, on the E. shore of Caynga Lake. It was built of poles and covered with brush. In 1803 a circuit court and court of over and Terminer was held at this place by Doniel D. Tompkins, at which an Indian by the name of John was tried and convicted of the murder of Ezekiel Crane, jr., and sentenced to convicted of the murger of rizeRell Crane, jr., and sentenced to the hung. He urgently requested that he might be shot,—a privilege, of course, not granted by our laws. A log building at Cavuga Village was authorized to be used as a jail March 25, 1800. In 1804 an act was passed authorizing John Tillotson, Augustus Childsey, and John Grover, jr., commissioners to build a courthouse on these E. corner of Lot 40 of Scipio, (now Auburn.) This act was afterward repealed. On the 6th of March, 1905, Edward Savage, of Washington co., Jas. Burt, of Orange, and Jas. Hildreth, of Montgomery, were appointed commissioners to locate the site of a courthouse. The commissioners neglected to fix the site; and, April 6, ISOS, John Glover, Stephen Close, and Noah Olmstead were appointed to superintend the finishing

and void consequence were appeared to superintent the missing of the courthouse at Auburn.

3 The first co. officers were Seth Phelps, First Judge; William Sturt. District Attorney; Benjamin Ledyard, County Clerk; Joseph Annin, Sheriff; Glen Cuyler, Surrogate.

4 This building is 45 by 65 feet, 2 stories high, with 2 double

and 26 single cells, arranged in the center of the building, with

a hall on three sides, open to the prisoners in daytime.

5 No means are provided for ventilating the rooms or for classifying the inmates. The instane are sometimes confined in dark cells not provided with means of warmth; and the whole establishment and its management are by no means creditable to the intelligence and humanity of the citizens of

6 The Ontario, Auburn & N. Y. R. R., extending from Little

Solus Bay s. to Hhaca, has been surveyed through the co. and partially graded; but work upon it has been suspended.

7 The Levana Gazette, or Ononloga Advertiser, the first paper published in Cayuga co., was established July 20, 1798, at Levana, in the town of Scipio, (then Onondaga co.,) by R. Delano.

The Western Luminary was published at Watkins' Settlement, in Scipio, in 1799.

The Aurora Gazette was established in 1799 by H. & J. Pace, and continued until 1805, when it was removed to Auburn and changed to

The Western Federalist. It was published as The Aubarn Gezette by Skinner and Crosby in 1816.

The Cayupa Torsin was commenced at Union Springs in 1812 by R. T. Chamberlain. It was soon after removed to The Masonic Union, mo., was published in 1850.

Auburn, and continued by different persons until 1847, when it was united with the Cayuga Patriot.

The Cayaga Patriol was almed at Auburn by Sannel R. Brown in 1814. Isaac S. Allen, Hysses F. Doubleday, and others, were afterward interested in its publication. In June, 1847, it was united with the Tocsin, the joint

In June, 1847, it was united with the Tocsin, the joint papers taking the name of

The Cayana New Era. It was successively published by Merrill, Stone & Co., Stone, Hawes & Co., Finn & Halbett, and William b. Finn, and was discontinued in 1857.

The Advocate of the People was commenced at Auburu in Sept. 1816, by Henry C. Southwick.

The Cayana & published by Thomas M. Skinner. In 1823 it was nuited with the Free Press and In 1833 it was muited with the Free Press and issued as

The Auburn Journal and Advertiser by Oliphant & Skinner.

The Auburn Journal and Albertier by Oliphant & Skinner.
Skinner subsequently withdrew, and the paper was continued by Oliphant. In 1846 it was issued as

The Auburn Journal; and the same year

The Auburn Daily Advertiser, the first daily paper published in the co., was established in connection with it. In the fall of the same year, Oliphant sold out to Henry Montgomery, by whom the papers were continued until 1850, when Knapp & Peck, the present publishers, became promittors.

publishers, became proprietors.

The Auburn Free Press was commenced by Richard Oliphant in 1824 and published by him until 1829.

sold to Henry Oliphaut, and in 1833 it was united with the Cayaga Republican. The Gospel Messenger (Prot. E.) was established at Anhur u by Rev. Dr. Rudd in 1827. It was removed to Utica a few years after.

Chamberian.

The Northern Christian Advocate (M.E.) was commenced in April, 1841, by Rev. John E. Robie. It was edited by Rev. F. G. Hibbard and Rev. Wm. Hosmer until May, 1844, when it was purchased by the Meth. Genl. Conference and changed to

The Northern Advocate. It was edited successively THE NOTHETH ADVOCATE. It was cutted successively by Rev, Nelson Rounds and Win, Hosmer, and is now under the editorial charge of Rev. F. G. Hibbard.

The Star of Temperance was published in 1849 by L. H. Davey, Auburn's Fuyorte was published in 1849 by Newton Calkins.

The Caying Chief was commenced at Auburn in January, 1849, by Thurlow W. Brown, and continued until 1857. The Auburn Duily Bulletin was published in 1849 by Stone,

This co. formed a portion of the Military Tract, and included the original townships of Cato, Brutus, Aurelius, Scipio, Sempronius, and parts of Milton and Locke. Sterling was included in the lands granted as a compensation for portions of the original grants, which upon survey were found to belong to the Boston Ten Towns. Before the advent of the whites it formed the chief hunting grounds of the Cayuga Nation. The people of this nation were more migratory in their habits than those of the Onondaga and Scheca nations, and they had fewer towns and villages. The principal town or place of conneil of the tribe was upon the shore of Cayuga Lake, near the present village of Aurora. The first white settlers were soldiers, who had served during the Revolution and who drew lots upon the Military Tract, or those who had purchased soldiers' warrants. The first immigration was by the way of Oneida Lake and River, and from the s. by way of Cayuga Lake; but in 1796 a State road, extending from Whitestown to Geneva by way of Auburn, was cut through; and in 1800 the celebrated Cayuga Bridgel was built, the new route speedily becoming the great highway of Western emigration. The population steadily and rapidly increased from 1790, a great impulse being given to it by the completion of the Eric Canal in 1825. The first inhabitants were principally from New England and the eastern cos. of New York.

AUBURN CITY—was formed as a town from Aurelius, March 28, 1823. It was incorp, as a village April 18, 1815, and as a city March 21, 1848. It lies upon Owasco Outlet, near the center of the co. Its surface is rolling, with an inclination toward the N. Owasco Outlet, flowing N. w. through near the center, descends 120 ft., and furnishes an abundance of waterpower, which is mostly improved. Along its course are valuable quarries of waterline, Oriskany sandstone, and Onondaga and corniferous limestone. The city is finely laid out upon both sides of the creek, most of the streets having a gentle inclination. It is situated in the midst of a rich farming country, and it has a large share of internal trade. Its manufactures are

extensive and important, consisting principally of woolen goods, apper, agricultural implements. books, flour, and machinery. Besides the co. buildings, it contains 12 churches, 3 3 banks, and many other fine public and private buildings. Seven weekly, 2 daily, and 2 monthly papers are published in the city. Pop. 9,476.

The Public Schools are under a Board of Education, consisting of 4 members, elected annually. The schools, 5 in number, employ 23 teachers.—5 males and I8 females.—In I858 the number of children between the ages of 4 and 21 was 3001, of whom 2187, or 73 per cent., attended sch of during some portion of the year. The total expenses of the schools for 1858 were \$13,231.19. The number of volumes in the district libraries is 3986,

The Christian Ambassador (Univ) was commenced in Jan. 18a1, and is now edited by John M. Austin.

<sup>1</sup> The Cayuga Bridge was finished Sept. 4, 1800, by the Man-The Cayuga Bridge was finished Sept. 4, 1800, by the Man-hattan Company. It was 1 mi, and 8 rods long, 22 ft, wide and 22 ft, between trestles. It was built in 18 months, and cost \$150,000. The Cayuga Bridge Company, consisting of John Harris, Thos Morris, Withelmus Myuderse, Charles Williamson, and Jos, Annin, was incorp. in 1797. The bridge was destroyed in 1808, but afterward rebuilt. For a go at unaber of years the Cayuga bridge was considered one of the greatest public improvements in the State, and it was taken as the dividing line between the y and w. The budge was abundanced in 1857. line between the E, and W. The bridge was abandoned in 1857; and the lake is now crossed by a ferry.

2 The Auburn Wooden Mills give employment to 175 hands and manufacture 250,000 yds, of cloth per annum. The Auburn Paper Mills employ 50 hands and manufacture \$80,000 worth of paper annually. The founderies and machine shops give our playment to a large number of men, and turn out work to the amount of \$100,000 annually. The N. Y. C. R. B. Repair Shops employ 52 hands exclusively in repairing passenger cars. number of years books were very extensively manufactured; but of late much of this branch of business has been removed to other cities. Besides these, there are in the city a card factory belting factory, carpet factory, distillery, rolling mill, and 2

grist mills.

3 2 Presh., 2 M. E., 2 R.C., Prot. U., Ai, Meth., Eap., Second Advent, Univ., and Disciples.

The Auburn Academy is a fine stone edifice on Academy St. It was first erected in 1811, but was burned in 1816, and the present building was soon after erected.

The Auburn Female Seminary, a private institution, is in the building erected for a city hall, at the junction of Market, Frankliu, and North Sts.

The Auburn Theological Seminary, a Presb. institution, was established by the Synod of Genesee in 1819. It was incorp, in 1820 and opened in 1821. The building is located upon a commanding site, fronting Seminary St., in the N. E. part of the city.

The Coyuga Orphan Asylum, an institution for the care of orphan and destitute children, is supported by State and co. appropriations and private contributions.

The Auburn State Prison is situated on the N. bank of Owaseo Outlet, N. of the center of the city. The site, containing 10 acres, is surrounded by high walls, and within this inclosure are the prison proper<sup>1</sup> and the various workshops in which the convicts are employed. The main building, fronting upon State Street, is 3 stories high and 276 feet long, and is flanked by two wings 42 feet wide and 242 feet deep.

The Asylum for Lunatic Convicts, situated upon a lot of 10 acres, formerly the prison garden, in the rear of the prison, is a fine brick building, faced with cnt stone. It contains 64 cells, and rooms for physicians, attendants, &c.2

Fort Hill is a beautiful rural cemetery, located upon the site of an ancient fortification and Indian village. It contains a monument to the memory of Logan, the celebrated Cayuga chief.3 The first settlement at Auburn was made in 1793, by Col. John Hardenburgh, from Ulster ec. Hon. Wm. II. Seward resides in this city.

AURELIUS—was formed Jan. 27, 1789. Brutus, Cato, Owasco, and "Jefferson" (now Mentz) were taken off March 30, 1802, Auburn and Fleming and a part of Springport in 1823, and a part of Throop in 1859. It lies upon Cayuga Lake, near the center of the w. border of the co. Its surface is undulating, with a slight inclination toward the n. and w. Owasco Ontlet flows through the N. E. corner; and upon its course are several fine mill privileges. Cayuga Brook, Crane Creek, and several other small streams take their rise in the town. The soil is mostly a heavy clay and gravelly loam. Cayuga, (p.v.,) upon Cayuga Lake, 2 mi. s. of the outlet, was incorp. in 1858. It is an important station upon the Central R. R., and is connected with Ithaca by a daily line of steamers. It contains 2 churches and 400 inhabitants. Fosterville, (p.v.,) in the N. part, contains a church and 12 dwellings; and Aurelius, (p. v.,) in the s. E. part, a church and 12 dwellings. Clarksville, on the E. line, is a manufacturing village, and forms a suburb of Auburn. It contains a paper mill, gristmill, hoe factory, woolen factory, and 300 inhabitants. The first settlement was made at Cayuga in 1788, by John Harris, from Harrisburgh, Penn.<sup>6</sup> The first church was formed in 1804, by Rev. David Higgins.<sup>7</sup>

BRUTUS—was formed from Aurelius, March 30, 1802. Sennett was taken off in 1827. 1t lies on the E. border of the co., N. of the center. In the N. and W. its surface is level, with an

<sup>1</sup> The cells of the prison are built in a block 5 stories high, | separated from the exterior walls by an open space and surrounded by galleries. Each cell is 7 feet long by  $3\frac{1}{2}$  wide and rounded by galleries. Each cell is 7 feet long by 3½ wide and 7½ high, closed by an iron grate. Breakfast and dinner are eaten at narrow tables, so arranged that the convicts cannot exchange books or signs. Supper is eaten in the cells. The workshops form a range of nearly 1000 feet, built against the outer wall and lighted from the roof and inner sides. Waterpower is afforded by the Owasco. These prison buildings were commenced in 1816 and completed in 1819, by the State, at a cost of \$300,000, exclusive of the labor of convicts upon them. The general control is vest d in a Board of Inspectors; 54 officers of the convicts and the sign of the convicts upon them. cost of \$300,000, exclusive of the labor of convicts upon them. The general control is vest of in a Board of Inspectors; 54 officials, including a guard of 20 men, a chaplain, a physician, and 2 teachers, are employed in the management and government of the establishment. The average number of convicts is about 700. Their carnings in 1857 were \$70,000, and the current expenses of the establishment about \$72,000.

2 This building was erected by the State in 1858, at a cost of \$60,000.

<sup>\$60,000.</sup> 3 This ancient fortification was evidently the work of a people 3 This ancient fortification was evidently the work of a people who occupied the country prior to the advent of the Indians. The meanine of the Indians, the meanine of the Indians of the Indians, all show that they belonged to the same general stock as the aborigines of Mexico. They are knewn as the "Mound Builders," and in instry are generally colled the "Alleghans." The fort at this place was probably built prior to the discovery of America by Columbus, and was occupied by them for several hundred years; but they were findly driven out by the Cayingus. It was mained by them Osco or Was Kough, and became the principal village of the nation until the advent of the whites. The celebrated bullian chief, Logan, was born here about the commencement of Indian chief, Logan, was born here about the commencement of

the last century. He afterward emigrated to Penn., and finally to Ohio. He was always known as a peacemaker and friend to the whites until his wife and children were murdered by Col. Cresap, after which he took up the hatchet and became one of the most noted of the Indian warriors. His address to the Peace Commissioners at the close of the war has scarcely its parallel in history for true eloquence and pathos. This ancient work is particularly described in the Smithsonian Contributions, Vol. II. Art. VI, p. 35.

Fot. II. Art. 14, p. 39.
4 Among the other early settlers were Col. Brinkerhoff, Dr. Hackeliat Burt, Wm. Bostwick, Barnabas Caswell, and Lyman Paine, who came about 1795. John Hardenburgh built the first gristmill, In 1794; and Wm. Bostwick kept the first im, in 1796. The place was called "Hardenburgh Corners" until 1805, when

its name was changed to Auburn.

5 The Auburn Paper Mill was incorp. here Feb. 17, 1848, with a capital of \$50,000. It gives employment to 40 hands, and manufactures paper to the amount of \$150,000 annually.

6 Mr. Harris established the first ferry across Cayuga Lake.

Wm. Harris and John Richardson came in the same year. The first marriage was that of John Harris and Mary Bichardson, in nrst marriage was flat of soon barris and Sary Brobardson, in 1789; the first birth, that of John Harris, i., in 1790; and the first death, that of —— Depuy, in 1797. Hugh Buckley taught the first school, in 1797; John Harris kept the first linn, in 1790, and the first store, in 1789. The celebrated Cayuga Bridge, I and the first store, in 1789. The celebrated Cayoga Bridge, I mi, 8 rods in length, was built in 1797, by Swartwood & Deman, of New York City, and Joseph Annin and others, of Cayoga. It fell in 1808, but was rebuilt in 1812-13, and was abandoned in 1857. 1857. After it was built, the read across it was the great highway of emigration until the canal was finished. The condy seat was located here at the first organization of the co.
7 There are 4 churches in town; 2 Presh., and 2 M. E.

average elevation of not more than 10 feet above Seneca River, which forms its N. boundary. The portions immediately bordering upon the river are generally swampy. In the s.e. the surface is rolling and broken by isolated drift hills 50 to 75 feet above the general level. The principal streams are Bread Creek and Cold Spring Brook, both flowing into Seneca River. The former is a canal feeder, and along its banks are outcrops of limestone and plaster, which are quarried to some extent. The soil is a fine quality of sandy and gravelly loam intermixed with clay and alluvium.

Weedsport¹ (p.v.) was incorp. April 26, 1831. It is situated upon the Eric Canal, and is a station on the N. Y. Central R. R. It contains a bank, insurance office, union school, 4 churches, a foundery, a large distillery, and several mills. Pop. 1,226. The first settlement was begun in 1800, by Wm. Stevens, from Mass, on Lot 76.2 The first church (M. E.) was formed in 1816.3

CATO—was formed from Aurelius, March 30, 1802. Sterling was taken off in 1812, and Conquest, Ira, and Victory in 1821. A part of Ira was annexed in 1824. It lies upon the E. border of the co., N. of the center. Its surface is level in the s. and gently rolling in the N. The ridges extend N. and s., and their summits are about 50 feet above the valleys and 150 to 200 feet above Lake Ontario. Seneca River forms the s. boundary. Cross Lake, upon the E. border, is a shallow body of water about 5 mi. long, through which flows Seneca River. Once Lake and Parkers Pond, in the N. part, discharge their waters through Otter Creek into Seneca River. The soil is a sandy and gravelly loam mixed with clay and disintegrated red shale. Meridian, (p. v.,) in the N. part of the town, was incorp. Oct. 17, 1854. Pop. 360. Cato, (p. v.,) on the line of Ira, in the N. w. corner, contains 3 churches and 53 dwellings. Seneca River is a p.o. The first settlement was begun in 1800, by Samson Lawrence, on Lot 32.5 The first church (Bap.) was formed Oct. 26, 1810; Rev. Daniel Palmer was the first pastor.6

CONQUEST<sup>7</sup>—was formed from Cato, March 16, 1821. It lies on the w. border of the co., n. of the center. The surface is gently rolling, the ridges extending n. and s. The s. part along the course of Seneca River is marshy, and a swamp about one-fourth of a mi. wide extends n. and s. through the town along the course of the small stream which flows through Mud Pond. Duck Pond, in the n. w., is about 1 mi. in diameter. Howlands Island, in Seneca River, contains 2,700 acres, one-third of which is swampy, and overflowed during high water. The soil is a sandy loam interspersed with clay and underlaid by red shale. Conquest Center (Conquest p. o.) contains 2 churches and 26 houses; Pineville, in the w. part, contains 15 houses. The first settlers were George Snyder, from Schoharie co., who located on Lot 37, and Israel Wolverton, from Tompkins co., on Lot 4, in 1800.8 The first church (Prot. Meth.) was formed at Conquest Center, in 1803; Rev. Joshua Beebe was the first settled preacher.9

**FLEMING**<sup>10</sup>—was formed from Aurelius, March 28, 1823. It lies w. of the foot of Owasco Lake, a little s. of the center of the co. Its surface is rolling, with an inclination toward the N. and E. The banks of the lake slope upward for about three-fourths of a mi. The highest portions are 150 to 250 feet above the lake, and 800 to 1,000 feet above tide. Wheeler and Crane Creeks are the principal streams. The soil is principally a gravelly loam, with an occasional intermixture of clay and sand. **Fleming**, (p.v.,) near the center, contains 2 churches and 25 dwellings.

<sup>1</sup> Named from Elisha and Edward Weed, first settlers at the

<sup>2</sup> Among the other early settlers were Caleb, Nathan, and Jonah Rood, and — Fowers, from Saratega co, who located at and near Weedsport; John Hamilton, from Washington co, on Lot 64, in March, 1802; Edward Horton, Peter Douglass, and Sanmel Moore, from N. J., on Lot 86; Adout Helmer, from Helsemer co, on Lot 67, in 1804; and — Van Dyck and Domel Miller, from N. J., on Lot 75, in 1805. The first child born was Burnett Stevens, Nov. 13, 1801; the first marriage, that of Peter Douglass and Polly Hamilton, Jan. 12, 1804; and the first death, that of an infant child of Sunderland Sweet, in 1800. Horrist Phelps taught the first seriod, in 1806; Walter and Elisha Weed kept the first store; and Lewis Putnam built the first sawmill and cristuil, on Bread Creek.

and gristmill, on Bread Creek.

3 The census reports 4 churches; Presb., Bap., M. E., and R. C.

<sup>4</sup> Formerly "Cato Four Corners."
5 Among the other early settlers were Solomon Knapp, on Lot 50, L. Sheblon, on Lot 84, Jacob Labertaux, from Penn., on Lot 57, in May, 1803; Jesse Elwell and Abner Holhster, at Meridian, in 1805. The first child born was Elvira Stockwell, May 4, 1805; the first marriage, that of Andrew Stockwell and Sibyl Root, June 4, 1804; and the first death, that of Stephen Olcott, in 1805. Solomon Knapp kept the first inn at Cato, in 1803; and Jesse Elwell, the first at Meridian, in 1805. Funniel M Bristol kept the first sixte, in 1805; and Samuel Woodford

<sup>6</sup> The census reports 4 churches; Presb., M. E., Bap., and Ref. Prot. D.

<sup>7</sup> Name given to commemorate the conquest achieved by those who favored the division of the old town of Cato over those who

who favored the division of the old town of Cato over those who enposed lit.

8 Among the other early settlers were James Perkins, from Onendaga Co., on Lot 3, Ejdraim Witherill, from Tompkins Co., on Lot 4, Theophilus Emerson, on Lot 27, and Clement B. Emerson, on Lot 15, in 1892; Jujar Wilcox, from Sanatoga Co., on Lot 74, Win. McCellen and John Crowell, from Newburgh, on Lot 76, in 1895; and Wilham Crowell, on Lot 77, in 1807. The first child born was Amos Wilverton, in 1862; the first marriage, that of Gilbert Perkins and Betsey Snyder; and this first death, that of a traveler and stranger, at Musquito Pomt. John Perkins tanght the first school, at Conquest Center, in 1897; Ephraim Witherill kept the first inn, in 1893; Jonathan Davis, the first store, at Conquest Center, in 1897; Ephraim Witherill kept the first inn, in 1893; Jonathan Davis, the first store, at Conquest Center, in 1873; — Twithell eracted the first sawnill, in 1808, and Abram Cherry the first gristmill, in 1810. This mill was long known as the "Popper Mill," from the fact that a store was at first kept in it. The first settlers joined in making a cause which would hold to bush, of grain; and in this they carried the grists of the whole neighborhood to Springport, by the way of Sener, River, to be ground. The journey usually took 4 days. In 1813 John Filkius took a lond of wheat to Albany, but was obliged to sell the wheat and one horse to defray the expenses of the journey. In 1804 Jas, Perkins built the first framed house, sawing out the whole lumber with a whipseaw. The building still stands (1859) a monument of persevering industry.

a monument of persevering industry.

9 The census reports 3 churches; 2 Prot. Meth. and M. E.

10 Named from Gen. George Fleming, an old resident.

Owasco Lake is a p.o. The first settlements were made in 1790-91. The first religious services were held by Elder Daniel Irish (Bap.) about 1794.2

GENDA—was formed as "Milton," Jan. 27, 1789; and its name was changed April 6, I808. Locke was taken off in 1802. It is the s.w. corner town of the co., lying upon the E. bank of Cayuga Lake. The surface is a rolling region, gradually rising from the lake to a height of about 600 ft. and divided into ridges by the valleys of Big and Little Salmon Creek, which extend through near the center.3 The declivities that border upon the streams in some places are steep and 50 to 150 ft. high. The soil consists of a strip of clay along the banks of the lake, and a deep, rich, gravelly loam in the other parts of the town. Genoa, (p.v.,) on Big Salmon Creek, contains 2 churches, 2 flouring mills, a tannery, and a furnace and machine shop. Pop. 300. Northwille (Kings Ferry p. o.) is situated in the n.w. part of the town. Pop. 200. Five Corners (p.v.) contains 35 dwellings. East Genoa (p.o.) is a hamlet. The first settlements were made anterior to the organization of the co. Jabez Bradley was the first settler, at Northville. The census reports 6 churches in town.4

IR.3.—was formed from Cato, March 16, 1821, and a part was annexed to Cato in 1824. It lies upon the E. border of the co., N. of the center. Its surface is rolling, the summits of the ridges being 50 to 75 ft. above the valleys and 225 to 275 feet above Lake Ontario. The streams are small brooks and creeks. The soil is a sandy loam underlaid by red sandstone, and is very productive. Ira Center, (p.v.,) the only village, contains 2 churches and 145 inhabitants. The first settlements were made by David, Eleazur, and Andrew Stockwell, 3 brothers from Whitehall, on Lot 58, Wm. Patterson, on Lot 32, and Henry Conrad, (a German,) on the same lot, all in 1800.5 The first church (Cong.) was formed at Ira Corners, July 7, 1807, by Rev. Francis Pomeroy; Rev. Silas Barnes was the first preacher.6

LEDWARD -- was formed from Scipio, Jan. 30, 1823. It lies upon the E. bank of Cayuga Lake, s. w. of the center of the co. Its surface inclines toward the w., its extreme E. border being elevated 500 to 600 ft. above the surface of the lake. The slopes of the hills are generally gradual, but are steep in a few places. Its streams are small, rapid brooks, the principal of which is Paines Creek, flowing through a narrow ravine in the s. part. The soil is a sandy and clayey loam, very fertile. Aurora. (p.v.,) incorp. May 5, 1837, is beautifully located on the E. bank of Cavuga Lake. Its fine situation and the comparative mildness of its climate have made it a place of considerable resort; and it contains some of the finest residences to be found in the interior of the State. It is the seat of the Cavnga Academy.8 Pop. 459. 'Falcotts Corners, (Ledyard p. o.,) near the s. E. corner, contains 2 churches and 12 dwellings. Levana (p. v.) is a steamboat landing, 2 mi, N. of Aurora. Pop. 106. Roswell Franklin, from Wyoming, settled at Aurora in 1789, and was the first settler in Cayuga co. Benj. Avery was the first settler at Talcotts Corners. Rev. Seth Williston (Presb.) conducted the first religious services; and Rev. II. Woodruff was the first settled minister.<sup>10</sup>

LOUKE—was formed from "Milton," (now Genoa,) Feb. 20, 1802. Summer Hill was taken off in 1831. It lies upon the high ridges which border upon Owasco Inlet, in the s. part of the co. The inlet flows through near the center in a deep, narrow valley bordered by steep hills rising 200 to 400 ft, above it. The summits of the hills spread out into a beautifully undulating

<sup>1</sup> Among the early settlers were Benj, Irish, Joseph Grover, Edward Wheeler, Ichabod and Abel Wilkinson, and James Herrington. The first child born was Amelias Wheeler, in 1791; and the first death, that of Mrs. West, in 1792. John Herring taught the first school, in 1794; Abel Wilkinson kept the first inn, in 1792; and Joseph Grover the first store, in 1797.

There were definitely and Joseph Grover the first store, in 1794. There are definitely and the first trace of the lands belonging to the Military Tract. The trace

<sup>&</sup>lt;sup>2</sup> There are 3 church s in town; Ret. Prof. D., Bap., and M. E. <sup>3</sup> The s. part of the town was settled by emigrants mostly from Penn, and N. J., and the N. patt by emigrants from New

from Penn, and N. J., and the N. part by emigrants from New England. In 1800 the town had a pop. of 3.553; in 1810 it rose to 5.425; in 1829, after its territory was reduced to its present limits, the pop. was 2.885; and in 1855, 2.352. 4 Two Push., 2 M. E., Cong., and Univ. 6 Among the other early settlers were Daniel Parker, on Lot 69, John C. Barnes and Rev. Silas Barnes, on Lot 70, and Zadock Barnes, on Lot 82, all from Marcellus, and Edward Wood, from Sennett, on Lot 82, all from Marcellus, and Edward Wood, from Sennett, on Lot 89, in 1802; Archibold and Chas, Green, on Lot 70, in 1803; Eli Mattison and Abraham Wiley, from Conn., on Lot 71, in 1804; and Thos, Barnes, from Washington co, at Ira Corners, in 1805. De, Smire, the first physician, tampit the first Lot 1.1 in 1804; and Thos, Barnes, from Washington to, at 1806. Corners, in 1805. Dr. Squire, the first physician, faught the first school, in 1805; Lavid Stockwell kept the first run, in 1809; Sam'l and Israel Phelps, the first store, at Ira Corners, in 1813; and John Hooker etc. do the first gristmill, in 1818. The first child born was Polly, daughter of David Stockwell, in April, 1801. 1502; the first marriage was that of Eleazur Stockwell and Mar- and Prot. E.

<sup>7</sup> Named from Benjamin Ledyard, agent and clerk for the disposal of the lands belonging to the Military Tract. The trace of an ancient fortification is found within this town. It stood upon a hill between two ravines, and inclosed about 20 acres, —Smithsonian Contributions, Fol. II, Part VI. P., 63.
8 The Academy building stands upon an eminence commanding a fine view of the bay and lake. The institution has a well selected library, competent teachers, and is in a prosperous condition. The Gospel and School Let No. 36 of this town have the contribution to the contribution of the contribution of the contribution of the contribution.

condition. The Gospel and School Lot No. 36 of this town hav-ing been given to Union College, Lot 89 was taken for school purposes, and assigned to this academy.

9 Elisha Durkee, and Atwell and Edward Paine, settled at Anrora in 1790. The first settler, Mr. Franklin, was in the battle of Wyoming at which his wife was killed and his youngest child taken prisoner by the Indians. He died at Aurora in 1791, under the weight of his misfortunes. Betsey Durkee (now Mrs. Sweetland) was the first child born in town. The first inn was hear by Lechwa Parkie, at August in 1733 in a lauss still Sweethandy was the first child born in town. The first linn was kept by Joshna Patrick, at Aurora, in 1793, in a louise still standing. Abiather Hull kept the first store, and T. Wheeler erected the first mill. a little N. of Aurora.

10 The census reports 6 churches; 2 Friends, 2 M. E., Presb.,

region with a mean elevation of about 1,000 ft. above tide. The soil is a gravelly loam interspersed with clay. Milan, (Locke p. o.,) situated on the s. branch of Owasco Lake Inlet, contains 2 churches, 2 woolen factories, 2 gristmills, and several mechanics' shops. Pop. 180. Centerville contains 18 houses. The first settlement was made by Ezra Carpenter, Jas. Cook, Jas. Durell, and Solomon Love, in 1790.1 The first church (M. E.) was formed in 1819.2

MENTZ—was formed from Aurelius, as "Jeffirson," March 30, ISO2. Its name was changed April 6, 1808. Monteznma and a portion of Throop were taken off in 1859. It lies upon Scheca River, N. w. of the center of the co. Its surface is generally flat, with a few low sand ridges near the s. border. A swampy region extends along Scheca River. Owasco Outlet, flowing through the center, is the principal stream. Limestone, gypsum, and red shale are the underlying rocks. The soil is a clayey, sandy, and gravelly loam. Port Byron, (p.v.,) incorp. March 2, 1837, is situated upon the Owasco Outlet and Erie Canal, near the center of the town. The N. Y. C. R. R. station is I mi. N. of the village. It contains 3 churches, a woolen factory, cabinet ware manufactory, and a flouring mill with 10 run of stones. Pop. 1,669. Centerport, a canal village on the E. line, contains 22 houses. The first settlement was made in 1797.3 There are 3 churches in town; Bap., M. E., and Presb.

MONTEZUMA—was formed from Mentz, April 8, IS59. It lies in the n. w. angle formed by the great easterly bend in Seneca River, on the w. border of the co. Its surface is mostly low An extensive swamp, known as the Montezuma Marshes, extends along the river. The only considerable stream is Cayuga Brook. The soil is generally a clayey loam. Brine springs are found along Seneca River. Montezuma (p. v.) is located upon Seneca River, in the w. part of the town. The Seneca and Cayuga Canals here unite with the Eric Canal. Salt and some other articles are manufactured.4 Pop. 650. The first settlement was made in 1798.5 The first church (Bap.) was formed in 1803, by Rev. John Jeffries. There are 3 churches in town; 2 M. E. and Bap.

MORAVIA—was formed from Sempronius, March 20, IS33. It lies upon Owasco Lake and Inlet, in the E. part of the co. The greater part of its surface is a rolling upland, broken by , the deep and narrow valleys of Owasco Inlet and its branches.<sup>6</sup> These valleys are 300 to 400 ft. below the summits of the hills, and are bordered by steep and in many places nearly perpendicular sides. Upon the streams in their course through the ravines are several beautiful cascades, furnishing an abundance of water-power. Mill Brook, just below its junction with Trout Brook, flows over a precipice of 80 ft. Upon the E. tributary of the outlet, near the s. border, is a cascade known as Dry Falls, from the fact that in summer the stream ceases to flow. A little below this cascade is a circular recess in the face of the perpendicular precipice, 42 ft. deep, and surmounted by a limestone arch 55 ft, high and 125 ft, long. Upon this arch rises a lofty hill covered with primitive forest trees. A large spring of carburetted hydrogen gas, highly inflammable, is situated upon the lowlands near the lake. The soil among the hills is a gravelly loam mixed with clay, and in the valleys it consists of a deep, rich loam formed of gravel and disintegrated limestone and slate. Moravia (p. v.) is situated on Mill Brook, in the vailey 3 mi. s. E. of the head of Owasco Lake. The rapids and cascades in the stream at this point furnish an abundance of water-power. The village is incorp., and contains I30 dwellings, the Moravia Institute, and several mills and other manufacturing establishments. Montville, a small village I mi. E. of Moravia, contains 15 houses. The first settlement was made at Moravia Village, by John Stoyell, in 1791.8 The first church (Cong.) was formed March 12, 1806.9

lately been discovered, and the manufacture of salt has been successfully resumed. These salt springs, like those of Onendaga, belong to the State.

6 Among the early settlers were Peter Clark, from New York City, Comfort Tyler, and Abram Morgan, at Montezuma, in

1798, who located there to manufacture self.

The Owasco Flats were in part cultivated by the Indians anterior to the settlement by the whites, and still lear traces of the ancient occupation.

J., and Ira Hopkins, from Washington co., on Let 85, from 1800 to

<sup>4</sup> Salt was first manufactured in Monteznma about 1798: Int. the business was abandoned about 1840, in consequence of the brine becoming too weak to successfully compete with the salt springs of Syracuse and Salina. Strong brine springs have

NILES—was formed from Semprouius, March 20, 1833. It lies between Owasco and Skaneateles Lakes, s. E. of the center of the co. Its surface is principally a rolling and hilly upland. The highest summits are 700 ft. above Owasco Lake. The declivities are gradual toward Owasco but more abrupt toward Skaneateles Lake. Dutch Hollow Brook, flowing N. through near the center, is bordered by high, steep banks.1 The soil is a gravelly and clayey loam. Kelloggsville, (p.v.,) in the extreme s. part, contains 2 churches and 30 dwellings; New Hope, in the s. E. part, contains a church, gristmill, sawmill, and 12 dwellings; Niles. (p. o., ) in the N. part, West Niles, Twelve Corners, and Nine Corners, are hamlets. The first settlements were made in 1793.2 There are 4 churches in town; 2 M. E., Bap., and Univ.

OWASCO-was formed from Aurelius, March 30, 1802. It lies E. of the foot of Owasco Lake, s. E. of the center of the co. Its surface is rolling and inclined to the N. W. From the lake it slopes gradually upward, and the highest summits attain an elevation of 500 ft. Owasco Creek, flowing w. across the s. part, and Millers Brook, in the x. part, are the only streams. The soil is a clayey loam. Owasco, (p. v.,) in the s. E. corner, contains 3 churches and 45 dwellings. The first settlements were made in 1792.3 The first church was formed in 1798, by Rev. Abram Brokaw.4 Ex-Gov. Throop is a resident of this town.

SCIPIO-was formed March 5, 1794. Sempronius was taken off in 1799, a part of Marcellus (Onondaga co.) in 1804, Ledyard, Venice, and a part of Springport in 1823. It lies on the w. shore of Owasco Lake, s. of the center of the co. Its surface is rolling, the highest summits being 500 ft. above the lake. A steep bluff, 20 to 50 ft. high, extends along the lake, and from the summit the surface slopes gradually upward for about one mi. The streams are mere brooks. The soil is a clayey loam. Scipio Center (Scipio p.o.) contains 2 churches and 80 inhabitants; Scipioville, (p.v.,) near the w. line, 80 inhabitants; Sherwood, (p.v.,) near the s. w. corner, 80 inhabitants. The Square is a p.o. in the n.w. part, and Bolts Corners a hamlet in the s. The first settlements were made in 1790.5 The first religious services were held by Elder David Irish, in 1794; and the first church (Bap.) was formed the same year.6

SEMPRONIUS—was formed March 9, 1799. A part was annexed to Marcellus (Onondaga co.) March 24, 1804, and Moravia and Niles March 20, 1833. It lies upon Skaneateles Lake, in the s. E. part of the co. From the valley of the lake and inlet the hills rise abruptly to a height of 800 to 1,000 feet, and from their summits the surface spreads out into a rolling and hilly upland. The highest points are about 1,700 ft. above tide. Mill Brook, flowing w., Bear Swamp Brook, N., and Fall Brook, s., all have excavated deep valleys in the drift deposits and shales. The soil is a good quality of clayey, sandy and gravelly loam, mixed with disintegrated slate and limestone. **Dresserville**, (p. v.,) located on Mill Brook, in the s. part of the town, contains 30 dwellings; Vansville, (Sempronius p. o.,) 15; Glen Haven (p. o.) is a noted water cure establishment near the head of Skaneateles Lake. Its situation is extremely beautiful, and it is supplied with pure, soft spring water. The first settlement was made in 1794, by Ezekiel Sales, Jotham Bassett, and Seth Burgess. The first church (Bap.) was formed Feb. 29, 1798; Rev. John Lasure was the first preacher. The census reports I church (Bap.) in town.

SENNETT—was formed from Brutus, March 19, 1827; it was named from Judge Daniel Sennett, a pioueer settler. A portion of Throop was taken off in 1859. It lies upon the E, border of the co., N. of the center. Its surface is level or gently undulating, the ridges rising in long, gradual slopes 50 to 100 ft. above the valleys. The streams are all small brooks. The soil is a deep, fertile, clayey and sandy loam, and is under a high state of cultivation. Sennett, (p. v.,) a station on the Auburn branch of the N.Y. Central R. R., contains 2 churches and 30 dwellings. The first settlement was made in 1794, by Ebenezer Healy, Jos. Atwell, Thos. Morley, and Thos.

quarry of tine flagging stone.

Among the early settlers were Garret Conover and his sons John and Aaron, Isaac Selover, James Brinkerhoff, and William Bowen. The first child born was Sally American, in 1798.

Bowen. The first child form was Shiy Amerinan, in 1798.

3 Among the early settlers were Samuel and Benj. De Puy, Masses Cartwright, and Jacob and Roeliff Brinkerhoff. Cornelius belannater kept the first inn, in 1800; James Burrows, the first store, in 1807; and David Bovier built the first gristmill, in 1798.

4 There are 3 churches in town; M. E., Ref. Prot. D., and True D. Pafermer.

<sup>4</sup> Among the early settlers were Elisha Durkee, Henry Wat-

On the highest point of land, 3 mi. E. of Owasco Lake, is a kins Gilbert and Alanson Tracy. Sam'l Branch. Ebenczer Witter, and Gideon Allen. The first child born was Betsey Durkey. Dec. 5,1790; and the first marriage, that of Wm. Allen and Betsey Watkins, June 25, 1793. Wm. Daniels taught the first school, in 1798, and Dr. Strong kept the first store, in 1808.

There are 4 churches in town; Bap., Presb., M. E., and Univ.
 The first child born was Benj. Sales, in 1794; the first marriage, that of Sam'l Rice and Matilda Summerston; and the first death, that of Sam'l Rice. Cyrus Powers taught the first school, in 1800; John Husted kept the first inn and store, and Artemas Dresser erected the first mill.

Morley, jr., from Conn., on Lot 21.1 The first church (Bap.) was organized Sept. I2, 1799, by Rev. Manasseh French, who was the first preacher. There are now 2 churches in town; Presb. and Bap.

SPRINGPORT—was formed from Scipio and Aurelius, Jan. 30, 1823. It lies upon the E. shore of Cayuga Lake, s. w. of the center of the co. Its surface rises in gradual slopes from the water to the E. border, where it attains an elevation of 400 to 500 ft. Waterlime, plaster, and limestone used for flagging, are quarried along the shore of the lake and in the adjoining ravines. Two immense springs flow from the ground near the village, furnishing a valuable water-power.2 The soil is a superior quality of sandy and gravelly loam, in some places mixed with clay. The lake is so deep that it rarely freezes, and the warmth of the water essentially moderates the intensity of the frosts of winter.3 Union Springs (p.v.) is beautifully situated npon Cayuga Lake, s. of the center of the w. border of the town. It contains several mauufactories, a private academy, and many fine residences. Pop. 1,118. The first settlement was made in 1800, by Frederick Gearheart, Thos. Thompson, and Jas. Carr. The first church (Cong.) was formed by Rev. Joshua Lane, the first preacher.<sup>5</sup>

STERLING-named from William Alexander, Lord Sterling, of the Revolution-was formed from Cato, June 19, 1812. It lies upon Lake Ontario, in the extreme N. part of the co. Its surface is rolling and has a slight inclination toward the N. The summits of the ridges in the s. are 200 to 300 ft. above the lake; and Big Bluff, upon the lake shore, has about the same elevation. The streams are Little Sodus Creek and its branches, flowing into Little Sodus Bay, and Cortright Brook, flowing into Blind Sodus Bay. Little Sodus Bay is about 2 mi. long by I mi. wide, and is one of the best harbors upon the s. shore of the lake. An extensive swamp, covering several hundred acres, extends along the lake shore, E. of the bay, and another lies on the s. border of the town. The soil is a sandy and gravelly loam; some portions of the surface are very stony and hard of cultivation. Outcrops of Medina sandstone<sup>7</sup> and Oneida conglomerate are quarried in this town for building stone. Sterling Center (Sterling p. o.) contains 40 dwellings; Fairhaven, (p. v.,) on Little Sodus Bay, 40; Martville, (p. o.,) near the s. E. corner, 25; and Sterling Valley 20. North Sterling (p. o.) is a hamlet. The first settler was Peter Dumas, who located upon Lot 19 in 1805.8 The first church (Asso. Ref. Presb.) was formed in 1818.9

SUMMER HILL—was formed from Locke, as "Plato," April 26, I831; its name was changed March 16, 1832. It is the s.E. corner town of the co. Its surface is a rolling upland, 1000 to 1100 ft. above tide. Fall Brook, the principal stream, flows s. through the E. part. Its valley is 300 to 400 ft. below the summits of the hills, and forms the only considerable break in the general level of the surface. Summer Hill Lake is a small pond in the N. E. part, discharging its waters into Fall Brook. The soil is a clayey and gravelly loam, the clay predominating. Summer Hill, (p. v.,) in the s. part of the town, contains Il5 inhabitants. The first settle-

an effort has been made to change the name of this bay to On

tario Bay.
7 This stone is much used for the underpinnings of houses and farm buildings. It has been observed that hogs are very tend of licking the stone whenever they have access to it; and in consequence they foam at the mouth, and can only be fatted with great difficulty.

<sup>1</sup> In 1795 Judge Dan'l Sennett, Amos Bennett, and Jacob, Rufus, and Dan't Sheldon, from Conn., settled on Lot 99. In 1797 Jacob Hicks, a Revolutionary soldier, who drew Lot 99, settled on it; Benj. Miller, also a Revolutionary soldier, on Lot 17; and Jubez genj. silier, also a kevolitionary soluter, on Lot 4:; and Jubez Remmington and Hezekiah Freeman, from Vt., on Lots 21 and 10. The first child born was Sally Smith, in 17:95; the first marriage, that of Nebemiah Smith and Mindevill Morley, in 1794; and the first death, that of Thos. Morley, in 17:95. Betsey Morley taught the first school, in 17:95; Joseph Atwell kept the first in the same year; and Shuldon & Letters the first the first inn, the same year; and Sheldon & Lathrop the first

store.

2 These springs are about 10 rods apart. From the larger flows \*These springs are about to robs apart. From the larger hows a stream of sufficient size to furnish water-power for running a flouring mill with 6 run of stones, a plaster mill, sawmill, and several other kinds of machinery. The stream from the smaller spring drives the machinery of a planing mill, sawmill, and tannery. From the springs the town and village both derive

Their names.

3 Fruit growing, to which the climate and soil are admirably advantable beens to attract attention. The vine is successfully adapted, begins to attract attention. The vine is successfully cultivated; and a single vineyard of 10 acres, devoted to grapes, produces fine crops.

<sup>4</sup> Amos Comely taught the first school, near Union Springs; Thomas Collins kept the first inu; Laban Haskins and Walter Low, the first store; Philip Winegar erected the first woolen

<sup>8</sup> Mr. Dumas was a Frenchman, who came to this country with <sup>6</sup> Mr. Jumas was a Frenchman, who came to this country with La Fayette and served during the Revolution. For his services he received a lot in the Military Tract, and drew Lot 19, in Sterling. Capt. Andrew Rassanusen settled the same year on Lot No. 1. He was killed on board of an American vessel, on Lake Ontario, during the War of 1812. Francis Decamp located mear Martulle, in 1806; Wm. Divine, Nathan Wilmot, and Jehiel Peck, on Lot 11, in 1807; Jacob Wilsey, from Saratoga co., on Lot 14, in 1808; John Coeper, on Lot 12, John McFarland and son, from Washington co., on Let 27, John and Matthew Harshar, from Washington co., at Martville, in 1809; Wm. Cooper, from Saratoga co., in 1812. The first child born was Isaac Hoppins, March 16, 1807; the first marriage, that of Matthew Harsha and Charily Turner; and the first death, that of Ezra, son of Peter Dumas, July 21, 1806. The first school was taught by Benj. Clark, in 1812; Wm. Cooper kept the first in, 1810; John Cooper erected the first sawnill, in 1810, and the first gristmill, in 1815. La Fayette and served during the Revolution. For his services factory.

THROOF - was formed from Aurelius, Mentz, and Sennett, April 8, 1859. interior town, lying a little N. W. of the center of the co. Its surface is generally level, broken in a few places by sand and gravel ridges 100 to 150 ft. high. Its principal streams are Owasco Outlet and Cayuga Brook. The soil is a sandy and gravelly loam. Throopsville, (p. v.,) on Owasco Inlet, s. E. of the center, contains 3 churches, a grist and saw mill, and woolen factory. Pop. 160. The first settlement was made on Lot 2, in 1790, by Ezekiel Crane and his son Shadrach, from N. J.4 There are 3 churches in town; Bap., M. E., and Disciple.

VENICE—was formed from Scipio, Jan. 30, 1823. It is an interior town, lying s. of the center of the co. Its surface is a rolling upland, the highest summits being 300 to 400 ft. above Owasco Lake. Salmon and Little Salmon Creeks flows, in deep valleys dividing the surface into distinct ridges. Owasco Lake borders upon the N. E. corner. The declivities bordering upon the take and upon the w. bank of Salmon Creek are steep, but generally the hillsides are long, gradual slopes. The soil is a fine quality of clayey and gravelly loam. Venice, (p.v.,) in the N. E. part of the town, contains 1 church and 20 dwellings; and Poplar Ridge, upon the highest summit in the N. W., contains a foundery and machine shop and 20 dwellings. East Venice (p. o.) and Venice Center (p. o.) are hamlets. The first settlement was made in 1800.5 The first church (Bap.) was formed at Stuarts Corners, in 1800, by Elder Irish, the first preacher.6 Upon the ridge E. of Salmou Creek, near the s. border of the town, are the remains of an ancient fortification. Upon the creek, near the center of the town, were extensive cleared and cultivated fields at the first advent of the whites. Near these fields was an Indian burial ground.

VICTORY—was formed from Cato, March 16, 1821. It lies upon the w. border of the co., N. w. of the center. Its surface is gently undulating, the highest points being scarcely 50 ft. above the general level. Little Sodus and Red Creeks are the principal streams. The underlying rocks are red shale and blue limestone, covered deep with drift. The soil is a gravelly and sandy loam. A swamp in the s.w. part covers several hundred acres. Victory, (p. v.,) near the center of the town, contains 25 houses; and Westbury, (p. v.,) on the line of Wayne co., 50. The settlement of the town was commenced in 1800, by John McNeal, from Montgomery co.. and John and Samuel Martin, from Ireland, on Lot 65.7 The first church (M. E.) was formed in 1813, by Rev. Zenas Jones, the first preacher.<sup>8</sup>

<sup>1</sup> Among the early settlers were Nath'l Fillmore, (father of | Among the early settlers were Anna Frinnote, (father) with Millard Fillmore, Ex-Pres. U. S., who was born in this town.) Martin Larber, Win. Webster, Jos. Cone, Win. Honeywell, Jas. Savage, Harvey Hongh, and Josiah Walker. The first school was taught by Natifi Fillmore, in 1804. The first child born was Millard Fillmore or Anson Cone; the first marriage, that of

was Millard Fillmore or Anson Cone; the first marriage, that of Ehenezer Crowl and Rosaman Mix, in 1803; and the first death, that of Ames Mix, killed by the folling of a free in 1798. Jos. Cone kept the first inn, in 1803; Chas Crane, the first store; and Ehenezer Bennett erected the first mill, in 1816.

2 The census reports 3 churches; Lap. Cong., and M. E.

3 Named from Hon. Lines T. Throop, Ex-Gov, of the State.

4 Annog the other early settlers were Isaac Earnian, Odmiel Palmer, and his son, from Conn., Israel Clapp, from Mass., on Lot 16; Jas. Leonard and Win. Durell, from N. J., on Lots 2 and 4, Manonah Clark, from Oneille co., on Lot 4, Jonas Ward and his son Caleb, from N. J., on Lot 92, in 1796; Christopher and Ev. John Jeffries, from Saratoga Springs, on Lot 16, Ephraim Wethy, from Dutchess co., on Lot 4, in 1799; Ames and David Codner, on Let 11, in 1801. The first marriage was that of Shadrach Crare and Hannah Palm. T; and the larst birth, that Shadrach Crane and Hannah Palmer; and the first birth, that of Ezekiel Crane. Edward Curpenter taught the first school, in 1800; Israel Clapp kept the first inn, in 1800; Lother Harden

the first store, in 1804; and Prentice Palmer erected the first saw and grist mill, in 1798.

<sup>6</sup> Among the early settlers were Henry Hewit, Ezekiel Landon. Samuel Robinson, and Zadock Bateman, at Stuarts Corners, Samuel Childsey, and Amos Rathbun, at Poplar Ridge, Luke Taylor, and Thomas Carman, all of whom came in between 1799 Taylor, and knomas Carman, and of whom came in netween 17:29 and 1800. The first child born was Lemon Cole; and the first death, that of —— Herrick, one of the pioneer settlers; he was killed by the fall of a tree. The first inn was kept by Samuel Robinson. The first null was erected at Venice Village, in 18:50. 6 The census reports 2 churches; 2 Friends and 1 Bap.

7 Patrick Murphy, from Ireland settled on Lot 54, in Feb. 1806.

Matthias Vanderluyden, from Albany co., on Lot 62, and Asahel Carter, from Vt., on Lot 66, in 1810; John Ramsey, and Wm. and Dan'l Griswold, from Herkimer co., on Lot 25, in 1811; Jacob W. and Martin De Forrest, from Washington co., Conrad Phrozine, from Newburgh, on Lot 43, Mauasseh French, from Scipio, Judge C. Smith, from Saratoga co., on Lot 40, Philander Phinney, from Saratoga co., Silas Kellogg, from Brutus, on Lot 39, and Ebenezer Bird, from Ononlaga co., on Lot 29, all in IS12. Mrs. Jane Wood was the first child born in town, in 1804; and the first death, was that of John McNeal, in 1800.

8 The census reports 5 churches; 2 M. E., Presb., Bap., and

Christian.

<sup>•</sup> Montezuma was formed in 1859, and its statistics are embraced in those of the town of Mentz.

# CHAUTAUQUA COUNTY.

This county was formed from Genesee, March 11, 1808. It lies upon the shore of Lake Erie, and is the s. w. corner co. of the State. It is centrally distant 288 mi, from Albany, and contains 1,099 sq. mi. The surface is mostly a hilly and rolling upland. A bluff, with a mean clevation of 20 ft., extends along the lake; and from its summit the land spreads ont into an undulating region, gradually rising for a distance of 3 or 4 mi. This comparatively level tract is bordered by the declivities of a hilly upland, which occupies the center and s. part of the co. The highest summits are 1,000 to I,200 feet above Lake Erie and I,800 to 2,000 ft. above tide. The uplands are broken by several deep valleys, the principal of which are those of Chautauqua Lake and Connewaugo Creek. The sum-

mits of the hills, 4 to 6 mi. s. of the lake shore, form the watershed which divides the waters of Lake Eric from those of Allegany River. The declivities bordering upon the valleys are in many places too steep for profitable cultivation.

Connewango Creek, flowing along the E. border and receiving Cassadaga Creek and Chautauqua Outlet, is the largest stream in the co. The other principal streams are Cattaraugus, Silver, Walnut, Canadaway, Little Cattaraugus, and Twenty Mile Creeks, flowing into Lake Erie; French and Little Brockeu Straw Creeks, tributaries of Allegany River; and Prendergast Creek, flowing into Chautauqua Lake. Besides these and their tributaries are numerous smaller streams flowing directly into Lake Erie. Chantauqua Lake is a beautiful sheet of water, 18 mi. long and 1 to 3 mi. wide, occupying a deep valley in the highland region about 10 mi. s. E. of Lake Erie. 1 t is 726 teet above Lake Erie and 1,291 ft. above tide. The hills that surround it are 600 to 800 ft. above its surface. Its outlet forms a branch of Connewango Creek, which latter stream is a tributary of Allegany River. Several other small lakes are located among the highlands, the principal of which are Bear, Cassadaga, Mud, and Findleys Lakes, all 700 to 900 ft. above Lake Eric.

The rocks of this co. belong to the Portage and Chemung groups,—the former occupying the N. half of the co. and the latter the s. half. The summits of the highest hills in the s. are crowned with conglomerate, belonging to the Catskill group and affording the only good building stone in the s. part of the co. The sandstones of the Portage group are quarried to some extent in the N. part, Lime is obtained in limited quantities from limestone boulders and marl beds. One of the most peculiar geological features of the co. is the numerous springs of carburetted hydrogen gas found in various localities and especially along the shore of Lake Erie. It comes from the shales of the Portage group, and at various places is turned to profitable account.

The soil upon the uplands is principally clay mixed with disintegrated shale, generally known as flat gravel; and in the valleys it is a fine quality of sandy and gravelly loam mixed with alluvium. Along the lake shore is a strip of productive clay loam. The uplands are arable to their summits, but are generally much better adapted to pasturage than tillage. The various branches of agriculture form the leading pursuits of the people. Stock and wool growing, and dairying, are largely and successfully carried on. Spring grains and fruits are also largely produced.

Manufactures are few and unimportant and are chiefly confined to the local wants of the people. Commerce—an important item in the business and wealth of the co.—is chiefly concentrated at Dankirk, which is at once an excellent harbor upon the lake and the w. terminus of the Eric R. R.

The county seat is located at Mayville, in the town of Chautauqua, at the head of Chautauqua Lake.<sup>2</sup> The courthouse is a fine brick edifice, erected in 1834, at a cost of \$11,000. The jail is a brick building, with stone cells, on the opposite side of the street from the courthouse. The clerk's office is a fireproof brick building contiguous to the courthouse.3

The poorhouse is located upon a farm of 160 acres, near De Wittville, 3½ mi. s. E. from Mayville.

few rods, giving it the appearance of two lakes connected by a

<sup>&</sup>lt;sup>2</sup> This co, was united with Niagara from the date of its organization in 1808 until 1811. The first court was held June 25, 1811. The commissioners to locate the co. buildings were Jonas | clerk's office at a cost of \$2,500.

<sup>1</sup> Near the middle this lake is contracted to the width of a Williams, Isaac Sutherland, and Asa Ransom. The first co, w rods, giving it the appearance of two lakes connected by a officers were Zattu Cushing, First Judge; Matthew Prendergast, Judges; David Eason, Sheriff; and John E. Marshall, Co. Clerk.

In 1858 the supervisors authorized the erection of a new

The average number of inmates is 130, supported at a weekly cost of 44 cts. each. A school is taught 6 to 8 months in the year. The buildings are poor and dilapidated and are destitute of proper accommodations and means of ventilation.

The N. Y. & Erie R. R. extends through Hanover and Sheridan and terminates at Dunkirk. This road opens a direct communication with New York, and, taken in connection with the connecting railroads and vessels upon the lake, is one of the most important of the great thoroughfares between the Atlantic seaboard and the Valley of the Mississippi. The amount of freight earried over the road is immense; and the business connected with it gives employment to thousands of men. The Buffalo & Erie R. R. extends along the lake through Hanover, Sheridan, Pomfret, Portland, Westfield, and Ripley. This forms another link in the great chain of Western travel, and connects with the Erie R. R. at Punkirk and with the N. Y. Central at Buffalo. The proposed Erie & New York City R. R. extends through the s. part of the co., connecting Erie, Penn., with the N. Y. & Erie R. R. at Great Valley.1

Nine weekly newspapers are now published in the co.2

In 1782 a party of British and Indians, with a train of artillery and other munitions of war, spent the months of June and July around Chautauqua Lake in constructing cances and making other preparations to navigate Allegany River in a contemplated attack upon "Fort Pitt," near

1 The surveys of this R. R. have been made, and considerable

work has been done in grading.

2 The Chantaugue Greete, the first paper published in the co,
was started at Fredonia in Jan. 1817, by Jas. Pereival. It
was afterward issued by Carpenter & Hull, and by Jas. Hull, until 1822, when it was suspended. In 1823 it was revived by Jas. Hull, and continued until 1826, when it was united with the People's Gazette and its name was changed to

The Fredomic Gazette. It was issued a short time by Hull & Snow, when it was removed to Dunkirk by Mr. Hull

and changed to

The Dunkirk Gazette. In a few months it was removed to Westfield and united with The Chautanque Phænix.

The People's Gazette was started at Forestville in 1824 by Wm. 8. Snow. In 1826 it was removed to Fredonia and united with The Chautanque Gazette.

united with The Chantauque Gazette.

The Chantsupne Engle was commenced at Mayville in May, 1819, by Robt, J. Curtis, and was continued about 1 year.

The Fredonia Censor was commenced in 1821 by Henry C. Frisbee, who continued its publication for 17 years. In 1838 it passed into the hands of E. Winchester, and was published by him 2 years and by K. Cunnington 1 year. In 1841 it was bought by Wn. McKinstry, and it is now waith had be Workfustry 6. C.

year. In 1841 it was bought by William Kunsty, and it is now published by W. McKinstry & Co.

The Western Star was sworted at Westfield in June, 1826, by Harvey Newcomb, and was discontinued after 2 years. It was soon after revived, as

The Chantauque Pharnix, by Hull & Newcomb. In 1831 its name was changed to

The American Engle, and it was issued by G. W. Newcomb. In 1838 it was changed to
The W stifeld Omeier, and was issued a short time by G.W. Bliss.
The Jamestown Journal was commenced in June, 1826, by Adolphus Fletcher, and was continued by him. until 1846. It was then issued by John W. Fletcher, a son of the original proprietor, for 2 years, when it passed into the hands of F. W. Palmer, who continued at the head of the establishment until 1858, having had

at the mean time associated with mm as partners Francis
P. Bailey, Ebenezer P. Upham, and C. D. Sackett. It is
new issued by Sackett & Bishop.

The Chantungae Republican was started at Jamestown in 1828
by Morgan Bates. Richard K. Kelbogg, Lewis C. Told,
Chas, McLeun, Alfred Smith, and Wm. H. Cather were
Class. McLeun, Alfred Smith, and Wm. H. Cather were successively interested in its publication until 1833, when it passed into the hands of S. S. C. Hamilton and its name was changed to

The Republican Bunner. It was soon after removed to Mayville, and in a few months was discontinued.

The Genus of Liberty was started at Jame-town in 1820 by Lewis C. Tebl, and was continued atent 2 years.

The Western Intelligencer was published at Forestville a short time in 150

The Moyville Sentinel was started in 1804 by Timothy Kiloy; and the next year it passed into the hands of Beman Brockway, who continued it 10 years. In 1845

it was sold to John F. Phelps, by whom it is still issued.

The Chantengae Whip was started at Dankirk in Aug. 1834, by
Thompson & Carpenter. About 1844 its name was
also also also also be a started at the started at changed to

The Dunwirk Beacon, and it was discontinued a short time afterward.

The Westfield Lyceum, started in 1835, was issued a short time

by Sheldon & Palmer.

The Western Democrat and Literary Inquirer was started at Fredoma in 1825 by Wm. Verrinder. It was successively issued by Ramball, Crosby & Co. and Arba K. Maynard,

and by the latter it was removed to Van Buren Harbor in 1857 and issued as

The Van Baren Times. It soon after passed into the hands of W. H. Cutler, and was continued about 2 years. The Western Farmer was started at Westfield in 1855 by Bliss &

Knight, and was continued about 2 years.

The Settler was issued a short time in 1840 from the Fredonia Censor office by E. Winchester. The Westfield Advocate was commenced in May, 1841, and was discontinued in a few months.

The Westfield Messenger was started in Aug. 1841, by C. J. J. &

T. Ingersoll. In 1851 it passed into the hands of Edgar W. Dennison and was changed to The Westfield Transcript. In 1856 Buck & Wilson became its

proprietors, and continued it about 1 year.

The Panama II-raid was started at Panama in Aug. 1846, by
Dean & Huribut. Stewart & Pray afterward became

proprietors, and continued it until 1848.

The Frontier Express was started in June, 1846, by Cutler,

Cottle & Ferham. In 1849 it was changed to The Freibmia Express, and was published by J. P. Cobb & Co. and afterward by T. A. Osborn & Co. In 1850 it was changed to

The Chantauque Union, and was published a short time by E. F. Foster.

The Liberty Star was started at Jamestown in 1847 by Harvey A. Smith. In 1849 it passed into the hands of Adolphus

Hetcher and was changed to thern Cilizen. In 1855 John W. Flo.cher became pro-prietor; and in 1855 it was changed to The Northern Citizen.

prietor; and in 1850 it was changed to

The Chautauqua Democrat, under which name it is
now issued by Adolphus Fletcher and Jas. Parker.

The Silver Creek Mul was started at Silver Creek in 1848 by
John C. Van Duzen. In 1852 it was changed to

The Home Register, and was published by Jas. Long. In 1854

Sanned Wilson became proprietor, and changed it to

The Silver Creek Garder and continued it until 1856 when it

The Silver Creek Gazette, and continued it until 1856, when it was discontinued. In Aug. of that year it was revived, as **The Lake Shore Mirror**, by H. M. Morgan, by whom it is still published.

The Thesia, a temperance paper, was published at Mayville by Lloyd Mills a short time about 1845.

The Chautangur Journal was started at Dunkirk in May, 1850, by W. L. Carpenter. In a short time its name was changed to

The Dunkirk Journal, and it is still issued by the original proprietor.

The Fredonia Advertiser was started July 4, 1851, by

Tyler & Shepard. It is now published by Lovi S. Pratt & J. C. Frisbee.

The Tubercurrent was published at Jamestown a short time in 1851-52 by Harvey A. Smith.

The Limestown Herold was started in Aug. 1852, by Dr. Asaph Rholes. In 1853 Joseph B. Nessel became proprietor, removed it to Ellington Center, and changed its name to The Ellington Laminary. It was discontinued in 1856.

The Philomethian Exponent was issued at Ellington by the students of the academy in 1852.

The Westfield Republican was commenced April 25, 1855, by M. C. Rice & Co., by whom it is still continued. The Botanic Medical Journal was published a short time at Fredonia.

The Pantheon was published at Fredonia a short time

The Western Argus was started at Westfield in 1857 by John F. Young. In about I year it was removed to Dunkuk, and changed to

The Dunkirk Press and Argus, and is now issted by Howard & Young.

Pittsburgh. Their plan was to build a dam across the outlet of the lake and descend the river upon the flood so created. The party finally returned without attempting the project.

The first settlement in the co. was made at the mouth of Cattaraugus Creek in 1797, by Amos Cottle. Soon after making the first improvements, Sottle left, and returned in 1801, with Mr. Sidney and Capt. Rosecrantz. At the time of the first exploration of the co. the only Indian settlement was on Connewango Creek, within the limits of the present town of Carroll. In I802, Gen. Paine, agent for the State of Connecticut, opened a wagon road from Buffalo to Chautauqua Creek, to enable emigrants to reach the Conn. Reserve lands in Ohio. This road was soon after finished to the Penn. line. In 1804 the town of Chautanqua was formed, and embraced the entire territory now included within the limits of the co. In April of the succeeding year the first town meeting was held, at which John McMahan was elected supervisor, and John Mc-Mahan, David Eason, and Perry G. Ellsworth were appointed the first justices of the peace.<sup>2</sup> In 1806 the first mail route was established between Buffalo and Erie, Penn.<sup>3</sup> The lands in the co, were included in the Holland Purchase. A tract of 60,000 acres in the s. E. part was sold to Levi Beardslev, James O. Morse, and Alvan Stewart. In 1835 the Holland Land Company sold their outstanding contracts and unsold lands to Trumbull Cary & Co., of Batavia; and the new proprietors imposed such conditions upon the extension of contracts that the settlers rose en masse and demolished the land office at Mayville and burned the records in the public high-In 1838 the interests of the co. were transferred to Duer, Morrison & Seward, and the troubles were satisfactorily settled.

ARKWRIGHT—was formed from Pomfret and Villenova, April 30, 1829. A part of Pomfret was annexed in 1830. It is an interior town, lying N. E. of the center of the co. Its surface is an elevated upland, broken and hilly in the s. w., and rolling in the N. E. The highest summit—near the center, said to be the highest land in the co.—is I,000 to I,200 ft. above Lake Eric. The principal streams are Canadaway and Walnut Creeks. Mud Lake, on the E. border, covers about 10 acres. The soil is a clay and gravelly loam. Upon Canadaway Creek, in the s. w. part, is a fine cascade with 22 ft. perpendicular fall. Arkwright Summit is a p. o. in the E. part of the town. Arkwright (p. o.) is a hamlet in the N. part. The first settlement was made in the N. w. corner, by Byron T. Orton, Benj. Perry, and Augustus Burnham, from the eastern part of the State, in 1807. The first religions meeting was held at the honse of Aaron Wilcox, in 1810. by Rev. John Spencer. The first church (Bap.) was organized by Elder Thos. Grennel, in 1820.

BUSTI — was formed from Ellicott and Harmony, April 16, 1823. A part was annexed to Ellicott in 1845. It lies upon the s. border of the co., E. of the center. Its surface is hilly and broken. It is drained by several small streams flowing into Chautauqua Lake, which lies along the s. border, and by others flowing E. into Connewango Creek. The soil is a clay and gravelly loam. Busti Corners (Busti p. o.) contains a church, gristmill, and sawmill. Pop. 201. The first settlement was made on Lot 61, in 1810, by John L. Frank, from Herkimer co. The first church (Cong.) was formed Aug. 30, 1819; Rev. Lemnel Smith was the first minister.

and erected the first mill, on Stillwater Creek, in 1815.

The census reports 5 churches; Cong., Bap., M. E., Univ., and Christian.

<sup>&</sup>lt;sup>1</sup> Elial T. Foote. (now of New Haven, Conn..) for 20 years First Judge of Chantampaa co., says that the first settlement in the co. was made in 1794, by several persons from Eric, Penn..; and among them were the brothers Lowry. These persons had been induced to locate in Penn. by fraudulent representations, and were afterward obliged to leave their improvements and commence anew in the wilderness. They settled within the limits of Chantamona oc; but the precise place is nuknown.

commence and win the whorbess. They settled within the limits of Chautauqua co.; but the precise place is unknown.

2 Previous to 1804 the whole of the present co, formed a part of the town of Batavia, in Genese co. The elections were held at Batavia, nearly 100 mi, distant, to which place the elections were compelled to go if they voted. In 1812 the Board of Supervisors consisted of 2 members, representing the towns of Chautauqua and Pomfret. The county seat had been located at Mayville, much against the wishes of the people of Pomfret; and, in consequence, the supervisor of Pomfret voted against the appropriation of \$1,500 to build the courthouse and jail. After repeated attempts to effect the object, the question was temporarily laid aside. When the accounts of the town officers of Pomfret were presented, the Chautauqua member voted in the negative, and affairs came to a dead lock, but were finally settled by a compromise, which allowed both the appropriation and the account to go through.

3 Phe first mail was carried by a man named Metcalf, who

<sup>&</sup>lt;sup>6</sup> The first mail was carried by a man named Metcatt, who went on foot and carried the mail matter in a handkerchief.
<sup>4</sup> The company demanded compound interest on all sums due, and an increase, of one-third upon all extensions of contracts.

<sup>&</sup>lt;sup>5</sup> Aaron Wilcox settled in 1809, Nathan Eaton in 1810, Uriah L. Johnson, Jonathan and Benj. Spragne, from Otsego co., ast the center, in 1811, and Simeon Clinton, from Otsego co., ast the center, in 1813. The first child born was Horatio Nelson Jehnson, May 11, 1811; the first marriage, that of Asabel Burnham and Launia Eaton, May 11, 1815; and the first death, that of Augustus Burnham, in 1813. The first selvol was taught by Lucy Dewey, near the center in the summer of 1813. Simeon Clinton kept the first inn, in 1817; and Benj. Orton built the first sawmill, in 1818, on the E. branch of Camdaway Creek.
§ The census reports 3 churches; 2 M. E. and Christian.
Named from Paul Busti, of the Holland Land Company.
§ Lawrence Frank settled on Lot 62 in 1810, Heman Bush and John Frank, from Herkimer co., and Theron Plumh, from Masson Lot 60, in 1811. The first marriage was that of Zebrick

<sup>7</sup> Named from Paul Busti, of the Holland Land Company.
8 Lawrence Frank settled on Lot 2 in 1810, Henan Bush and John Frank, Irom Herkimer co., and Theron Plumh, from Mass., on Lot 60, in 1811. The first marriage was that of Zebrick Root and Polly Parmiter, in 1813; and the first death, that of Lawrence Frank, in 1811. Eve Frank, a young lady, was carried for by the Indians in 1811, and was gone 3 years, when she returned home and was married. Soon after, her husband was taken by the Indians and detained about the same length of time. These incidents are noted upon a tombstone in the graveyard at Busti. The first school was taught by Olive Marsh on Lot 61, in 1813. Capt. Hennan Bush kept the first inn and store,

CARROLL!—was formed from Ellicott, March 25, 1825. Kiantone was taken off in 1853. It is the s. E. corner town in the co. Its surface is broken and hilly in the N. E. and E., and rolling in the s. and s. w. The bighest summits are 900 ft. above Lake Erie. The principal stream is Connewango Creck, forming part of the w. boundary. The soil is a clay loam in the N. and E., and a gravelly loam in the s. and w. Frewsburgh, (p. v.,) in the n. w. part, contains 2 churches, a gristmill and sawmill. Pop. 400. Fentonville is a p.o. near the s.w. corner. Joseph Akins, from Rensselaer eo., the first settler in town, located on Lot 29 in Jan. 1807.2 There are 2 churches in town; Bap. and M. E.

CHARLOTTE—was formed from Gerry, April 18, 1829. It is an interior town, lying N. E. of the center of the co. The surface is moderately hilly and divided into several ridges by the valleys of the streams. North Hill and Lake Hill, the highest points, are about 1,000 feet above Lake Eric. It is drained by Mill Creek and several tributaries. The soil is chiefly a clay loam. Charlotte Center (p.v.) contains 2 churches, a good water-power with some manufactories, and 10 dwellings; Sinclearville, (Gerry p. o., ) near the s. line, contains 4 churches, 2 gristmills, and 2 sawmills. Pop. 450. The first settlement was made near the center, in 1809, by Robt. W. Seaver and Wm. Divine, from Oneida co.4 The first religious meeting (Presb.) was held at Sinclearville, in 1811; and the first church (M.E.) was formed in 1816. There are now 6 churches in town.5

CHAUTAUQUA—was formed from Batavia, (Genesee co.,) April 11, 1804, and embraced all the territory now included within the limits of Chantauqua co. Pomfret was taken off in 1808, Portland in 1813, Harmony in 1816, and Clymer, Ellery, and Stockton in 1821. It is an interior town, lying a little w. of the center of the co. The surface is elevated and moderately hilly, occupying the watershed between the waters of Chautauqua Lake and those of Lake Erie. Chautauqua Lake is on the E. border, and chiefly within the limits of the town. The soil is a clay loam of good quality. Mayville, (p. v., ) pleasantly located near the head of Chautauqua Lake, was incorp. April 30, 1830; it contains the co. buildings, 3 churches, the Mayville Academy, a newspaper office, and a flouring mill. Pop. 501. De Wittville, (p.v.,) in the E. part, contains a church, the co. poorhouse, and 133 inhabitants; **Hartfield**, (p. v., ) on the lake inlet, contains a church, gristmill, sawmill, and furnace. Pop. 123. Magnolia is a p.o. on the lake, near the s. line. The first settlement was made at Mayville, in 1804, by Dr. Alexander McIntyre.<sup>6</sup> The first church (Bap.) was formed at Mayville, in 1820, by Elder Wilson.<sup>7</sup>

CHERRY CREEK—was formed from Ellington, May 4, 1829. It lies on the E. border of the co., a little N. of the center. The surface is hilly in the N. W., and rolling in the S. E. Along the s. border are several small swamps. It is drained by Connewango Creek and several tributaries, flowing s. The soil is elay and a gravelly loam. Cherry Creek, (p. v.,) in the s. e. part, contains 3 churches, 2 sawmills, and a gristmill. Pop. 240. The first settlement was made on Lot 15, in 1812, by Joshua Bentley, from Rensselaer co.8 The first religious services were held at the house of Ward King, in 1817; the Rev. Mr. Hadley (Bap.) was the first preacher.9

CLYMER<sup>10</sup>—was formed from Chautauqua, Feb. 9, 1821. Mina was taken off in 1824, and French Creek in 1829. It lies upon the s. border of the eo., w. of the center. The surface is a hilly upland, broken by the valleys of Brocken Straw Creck and its tributaries. The soil is a gravelly loam. Considerable lumber is still manufactured. Clymer, (p.v.,) near the s. w. corner, con-

<sup>1</sup> Named in honor of Charles Carroll, of Carrollton.
2 Lahan Case settled on Let 31, Wm. Akins on Let 21, in 1807,
Jas. Akins on Let 13, in 1818; James Hall on Let 11, in 1810,
and Wm. Sears on Let 11, in 1811. The first child born was
Hamilton Tyler, in 1810; the first marriage, that of Wm. Bowles
and Jerusha Walton, in 1811; and the first death, that of
Woodcock, killed by the fall of a tree in 1810. Stephen Rogers
tanght the first school, in 1813, on Let 51. The first sawmill
was built by John Fren and Thos Russell on Let 61. in 1811 was built by John Fren and Thos. Russell, on Lot 61, in 1811, and the first gristmill by John Fren, on the same lot, in 1817.
William Sears kept the first inn, on Lot 11, in 1814, and James
Hall the first store, on the same lot, in 1824.

<sup>&</sup>lt;sup>3</sup> The village derives its name from its first settler, Maj. Sam'l Sinclear, who came in from Madison co. in 1810.

<sup>&</sup>lt;sup>4</sup> John Picket, John Cleveland, Chas. Waterman, and Harvey O. Anstin, from Eastern N. Y., settled in the w. part in 1809. The first school was taught at Sinclearville, in the winter of 1811-12, by Wm. Gilmore. Maj. Sinclear kept the first inn, in 1811-12, by Wm. Gilmore. Maj. Sinclear kept the first inn, in 1811, and Plumb, Edson & Winsor the first store, in 1817, at Sinclearville. Maj. Sinclear erected the first sawnill, in 1810, and the first gristmill, in 1811, on Mill Creek.

6 2 M. E., 2 Univ., Cong., and Bap.

<sup>6</sup> Jonathan Smith settled shout the same time near the w shore of the lake, and Peter Barnhart, from Penn., on the E. shore; Martin Prendergast and Messrs. Griffith and Bennus, also on the E. shore, in 1806. Judge Peacock was also an early settler. John Scott kept the first inn, at Mayville, in 1808, and J. & M.

Prendergast the first store, in 1811.

7 The census reports 7 churches; 2 Bap., 2 M. E., Cong., Prot. E., and F. W. Bap.

E., and F. W. Bap.

8 Jos. Kent settled on Lot 9, in 1815, and Willard Cheney on Lot 10, Wm. Weaver on Lot 16, Amson Hendrick on Lot 16, and Cogsdill Brown on Lot 15, in 1816. Reuben Cheney taught the first school, in 1818; doe. H. Frost kept the first ino, in 1823, and 8cth Grover the first store, in 1831, at the village. Win. Kilbourn built the first sawmill, in 1824, on Cherry Creek, near the village. The first death was that of Lydia Page; she was buried in the woods near the village. Joshua Bentley lost a daughter, 2 years old, in 1817,—supposed to have been carried off by the Indians.

The census reports 3 churches; 2 Bap. and F. W. Bap. 10 Named in honor of Geo. Clymer, one of the signers of the Declaration of Independence.

tains 2 churches and 110 inhabitants. Clymer Center is a p.o. John Cleveland settled on Lot 58 in 1820.1 The first religious meeting (Bap.) was held at the house of Mr. Cleveland, in 1820, by Elder Powers. The first church (Bap.) was formed in 1830.<sup>2</sup>

ELLERY<sup>3</sup>—was formed from Chautauqua, Feb. 29, 1821. A part of Stockton was taken off in 1850. It is the central town in the co. The surface is hilly, the highest summits being about 400 ft. above the valleys and 1,000 ft. above Lake Eric. Chautauqua Lake forms the s. w. boundary, and into it flow several small streams, which form the principal drainage. The soil is a clay loam upon the uplands, and a gravelly loam in the valleys. Ellery Center (p. v.) contains a church and 16 dwellings. Ellery is a p.o. near the shore of the lake. The first settlements were made on the lake by Wm. Bemus and Jeremiah Griffith, from Rensselaer co., in 1806; the former located at Bemus Point, and the latter farther s.4 The first church (Bap.) was formed in 1809, by Elder Asa Turner, the first minister.<sup>5</sup>

ELLICOTT<sup>6</sup>—was formed from Pomfret, June 1, 1812. A part of Busti was taken off in 1823, Carroll in 1825, and Poland in 1832. A part of Busti was annexed in 1845. It is an interior town, lying s.e. of the center of the co. Its surface is a hilly upland, with a gentle inclination toward the s. w. The foot of Chautauqua Lake extends into the s. w. corner; and the outlet flows E. through the s. part of the town, receiving Cassadaga Creek as a tributary The soil is a sandy and gravelly loam. Jamestown, (p. v.,) located on the outlet of Chantauqua Lake, in the s. part of the town, was incorp. March 6, 1827. It contains 7 churches, the Jamestown Academy, 2 newspaper offices, 2 banks, the office of the Farmers' Insurance Company, 2 woolen factories, 2 furnaces, 2 flouring mills, and various other manufacturing establishments, and an ample water-power. Pop. 1,625. Fluvanna, (p. v.,) at the foot of the lake, near the w. line, contains a church and 14 dwellings. Levant is a p.o., on the E. border, at the junction of Cassadaga Creek with the lake outlet. Dexterville is a hamlet. The first settlement was made on the outlet of Chautauqua Lake, in 1806, by Wm. Wilson. The first church (Cong.) was formed July 6, 1816, by Rev. John Spencer, a missionary preacher from Conn. There are 12 churches in town.8

ELLINGTON—was formed from Gerry, April 1, 1824. Cherry Creek was taken off in 1829. It lies upon the E. border of the co., a little s. of the center. Its surface is an undulating and hilly upland. Clear Creek flows through near the center, and, with its tributaries, forms the principal drainage. Connewango Creek flows through the N. E. corner. The soil is a sandy aud gravelly loam. Ellington, (p.v.,) near the ceuter, contains 4 churches, the Ellington Academy, and 2 gristmills. Pop. 487. Clear Creek is a p.o. Jos. Bentley made the first settlement, on Lot 7, in 1814.9 The first religious services were held at the house of James Bates, in 1817, by Rev. Daniel Hadley. The F. W. Bap. denomination organized the first church.<sup>10</sup>

FRENCH CREEK—was formed from Clymer, April 23, 1829. It is the s. w. corner town of the co. The surface is hilly and broken by the deep valley of French Creek. The soil is chiefly a heavy clay loam. French Creek is a p.o. in the n. part, and Marvin a p.o. in the s. Andy Nobles, from Oswego co., made the first settlement, on Lot 44, in 1812.11 The first religious meeting was held on Lot 46, in 1818, by Elder Ashford; and the first church (Bap.) was formed in 1821. There is no church edifice in town.

<sup>1</sup> Wm. Rice, from Washington co., settled on Lot 59, in IS21, | Horace and Anson Starkweather, from Vt., on Lot 43, in I822. The first birth was that of Patience Russell, in I823; the first marriage, that of Walter Freeman and Rowencia Brown, in 1823. Alvin Williams kept the first inn, in 1826, at the village, John Stow the first store, in 1823; and Peter Jacquins built the first mill. in 1825.

<sup>2</sup> The census reports 5 churches; 2 M. E., Bap., Germ. Evang. Ref., and Ref. Prot. D.

of Independency
4 Isaac Young, from Genesee co., settled on Lot 3, near the
Lake, in 1806. About the same time, or soon after, Dan'l Cheney,
Alanson Weed, Abijah Bennett, John Putnam, and Nahum Ad
drich settled in town. Clark Parker, from Washington co.,
located near the center, in 1810. The first school was taught by
Dr. Cary, in the N. w. part, in 1808. Wm. Bemns kept the first Decided near the center, in 1805. The inst sensor was taught by Dr. Cary, in the N. w. part, in 1808. Wim. Bems kept the first uni.in 1811, erected the first suwmill, in 1808, and the first gristmill, in 1811, on Bemus Creek. David Dellamy kept the first store, at the center, in 1830.

The census reports 3 churches; Bap, M. E., and Univ.

Named from Joseph Ellicott, agent of the Holland Land

Company.

<sup>1808,</sup> and the first gristmill, in 1809,-this being the first improvement of the water-power of the Ontlet. The first school was taught in the house of John Bloover, in 1815, by Rev. Amasa West.

<sup>8 2</sup> M. E., Cong., Presb., Prot. E., Bap., F. W. Bap., Christian, Wes. Meth., Luth., Univ., and R. C.

<sup>9</sup> Among the other early settlers were Jas. Bates, from Mass., <sup>9</sup> Among the other early settlers were Jas. Bates, from Mass, Sam'l McConnel, from Cayinga co., and Joshua Bentley, Jr., from Rensselaer co., in 1816; Simon Lawrence, from Vt., Abner Bates and Ward King, from Mass., in 1817. The first child bern was Simon Lawrence, jr., in 1817; the first marriage, that of Rufus Hitcheock and Ranah Hadley, in 1817; and the first death, that of Mr. Hitcheock, who fell from a building and was killed six werks after his marriage. Jas. Bates kept the first inn, at Ellington Village, in 1814, and Lewis Holbrook the first store, in 1821. Ward King built the first gristmill, near the village, in 1821. in 1821.

<sup>10</sup> The census reports 5 churches; Bap., Christian, Presb., M. E., and F. W. Bap.

11 John Cleveland settled on Lot 31, in 1812; Roswell Coe on

Lot 39, and Nath'l Thompson on Lot 9, in 1812; and Paul Colbourn, from Oneida co., on Lot 44, in 1814. The first death was that of a son of Nath'l Thompson, drowned in French Creek. The first school was taught by —— Chitsey, in 1818. William Thomas R. Kennedy and Edward Works located upon the Thomas R. Kennedy and Edward Works located upon the Outlet, in 1807, and Wilson Ellicott, Jas. Culbertson, and Geo.

W. Fenten, in 1808. Edward Works built the first sawmill, in and John Dodge opened the first store, in one end of the gristmill.

GERRY—was formed from Pomfret, June I, 1812. Ellington was taken off in 1824, and Charlotte in 1829. It is an interior town, lying a little E. of the center of the co. The surface is a hilly upland, the highest summits, in the N. E. corner, being 900 ft. above Lake Erie. It is drained by Cassadaga Creek and its tributaries, Mill Creek, and several smaller streams. The soil is a clay loam upon the uplands, and a sandy loam in the valleys. There are several sulphur springs in town. Upon Lot 44, s. w. of the center of the town, a gas spring has been found; and the owner, James II. Mix, uses the gas for lighting his house. Bucklins Corners, (Vermont p. o.,) in the s. part, contains 23 dwellings. The first settlement was made in 1811, by John Love, jr. and Stephen Jones, in the N. w. part.<sup>2</sup> The first religious meeting was held in the spring of 1818, by Elder Jonathan Wilson. The first religious association (M. E.) was formed in 1819, and drew the lot appropriated by the Holland Land Company for religious purposes. They erected a church a little w. from the center, the only one now in town.

HANOVER—was formed from Pomfret, June 1, 1812. Villenova was taken off in 1823, and a part of Sheridan in 1827. It lies upon Lake Eric, in the N. E. corner of the co. A part of Cattaraugus Indian Reservation lies in the N. E. part of the town. The surface along the lake is level or undulating, and in the center and s. it is hilly, with an inclination toward the N. Cattaraugus Creek forms a portion of the N. boundary. Silver Creek flows in a N. w, direction through the town into Lake Erie, receiving Walnut Creek at its month, and several other tributaries. The soil is elay and gravelly loam. Silver Creek, (p. v., ) upon the lake shore, at the mouth of Silver Creek, was incorp. June 8, 1848; it contains 2 churches, a bank, a weekly newspaper office, 2 mills, 2 tanneries, and various other manufacturing establishments. Pop. 652. Lake vessels were formerly built at this place, 4—the first by Ira Fairchild, in 1816. Irving, (p.v..) on Cattaraugus Creek, near its entrance into the lake, contains 2 churches, a gristmill, and 2 sawmills. Pop. 404. At the mouth of the creek is a harbor admitting of the entrance of vessels. Smith Mills, (p. v.,) a little s. from the center, contains a flouring mill, a distillery, and 22 dwellings. Forestville, (p. v., ) in the s. w. part, was incorp. April 4, 1849. It contains 2 churches, 2 gristmills, and 2 sawnills. Pop. 540. It is a station on the N.Y. & Eric R.R. Nashville, (p.v.,) in the s. E. part, contains 2 churches and 26 dwellings. IIanover is a hamlet. Amos Cottle settled at the mouth of Cattaraugus Creek in 1797.5 The first religious meetings (Bap.) were held by Rev. Joy Handy, in 1811; and the first church (M.E.) was organized in 1816, at Forestville.6

HARMONY—was taken from Chautanqua, Feb. 14, 1816. A part of Busti was taken off in 1823. It lies upon the s. border of the co., a little w. of the center. The surface is a moderately hilly upland, the highest summits being about 900 ft. above Lake Eric. Chautauqua Lake forms the N.E. boundary. It is drained by Goose Creek and several smaller streams, flowing N. into the lake, and by Little Brocken Straw Creek, flowing s. to Penn. The soil is clay, yellow and gravelly loam. Quarries of a fine quality of sandstone for building purposes are found in several localities. Ashville, (Harmony p. o.,) on Goose Creek, near Chautauqua Lake, contains 3 churches, a gristmill and sawmill. Pop. 247. Panama, (p. v.,) upon Little Brocken Straw Creek, near the center, contains 4 churches and 500 inhabitants. Blockville (p. v.) contains 20 dwellings. Stedman is a p. o. in the N. part of the town. The first settlement was made on Lot 43, in 1806, by Reuben Slayton, from Otsego co. The first religious meeting (Bap.) was held in a schoolhouse at Blockville, by Rev. Simon Bowers.

1 Named from Elbridge Gerry, a signer of the Declaration of

Bichard Smith and Sally Mack, in 1807; and the first deata that of Wm. Sidney, in Jan. 1807. John Mack kept the first inn, in 1807, at the month of Cattarangus Creek, and Parker Brownell the first store, in 1811. Abel Cleveland and David Dickers of built the first sawmill, in 1804, and the first gristmill, in 1800, at Silver Creek. In 1805 Mr. Dickerson creeted a saw mill at Silver Creek, to which be attached a mortan and peatle, for the purpose of pounding corn for food. — Moore creeted a gristmill at Forestylle about the same period.

Independence.

2 Jesso Dexter, David Cobb, and Hugh B. Patterson were among the early settlers. The town settled slowly until after the close of the war in 1815, when the settlements progressed rapidly. The first death was that of Alva Eaton, who was killed by the fall of a tree in the spring of 1818. Jos. Bucklin kept the first un, in 1820, and Howard B. Blodget the first store, in 1826, at Bucklins Corners. John Hines and Wm. Newton erected the first sawmill, on Cassadaga Creek, in the s. w. part, in 1819, and the first gristnill, in 1822.

Named from a gigantic walnut tree that grew near its mouth. This tree was 9 ft. in diameter and 27 ft. in circumference. It was cut into sections and sold as curiosities.

<sup>4</sup> The steambeat W. F. B. Taylor was built here in 1826.
5 Among the first settlers were Wm. Sidney and Capt. Rosecrantz, in 1801; Schvanus Maybee, Benj. Kinyon, and Anno Avery, at the month of Cattaraugus Creek, Nathan Cass, from Boston, Jehiel More and Jamas Green, at Forestville, in 1805; Ahd Cleveland and David Dickerson, in 1802; John E. Howard, in 1806; and Artemos R. Clothier, in 1809.—all at Silver Creek. The first child born was Caroline Sidney, in 1804; the first marriage, that of

m 1800, at Silver Creek. In 1805 Mr. Dickerson creeked a saw mill at Silver Creek, to which he attached a mortar and pestle, for the purpose of pounding corn for feed. — Moore creeked a gristmill at Forestville about the same period.

\*Othere are Schurches in town; 4 M. L., 3 Eap., and Presh.

\*Daniel B. Carpenter, from Washington co., settled on Lot 64, in 1806; Jonathan Cheney on Lot 25, in 1807; Theron Bly, from Otsego co., on Lot 44, and Wm. Mattison on Lot 52, in 1811; and Jas. Carpenter on Lot 56, in 1816. The first child born was Thos, Slayton, in Nov. 1807; the first marriage, that of Reuben Slayton and Clarissa Slayton, in 1808; and the first death, that of Thomas Slayton Nov. 26, 1807. Elsen Pratt taught the first school, in 1817; Jas. McCallen kept the first sim, in 1816, on Lot 43; and Tibbets & Relogg the first store, on the same lot, in 1818, Beuben Slayton built the first sawnill, on Lot 43, in 1818.

<sup>8</sup> The census reports 9 churches; 5 M. E. 3 Bap., and Presb

**KIANTONE**—was formed from Carroll, Nov. 16, 1853. It lies upon the s. border of the co., E. of the center. The surface is undulating in the E., and hilly in the w. The highest summits are about 100 ft. above Chautauqua Lake. Connewango Creek forms the greater part of the E. boundary. Kiantone and Stillwater Creeks are the other principal streams. The soil is a clay loam intermixed with gravel. **Kiantone** (p. v.) contains about 20 dwellings. The first settlement was made on Lot 1, in 1807, by Robt. Russel. The first religious meeting was held at the house of Joseph Akins, in 1814, by Rev. Mr. Smith; and the first church (Cong.) was formed in 1815. There are 3 churches in town; Cong., M. E., and Univ.

MINA—was taken from Clymer, March 23, 1824. Sherman was taken off in 1832. the central town upon the w. border of the co. Its surface is rolling and hilly. The principal streams are French and several smaller creeks, flowing s. and w. Findleys Lake is a fine sheet of water in the s. w. part. The soil is a clay and gravelly loam. Mina Corners, (Mina p. o.,) a little E. of the center, contains 15 dwellings; and Findleys Lake, (p. v.,) near the outlet of the lake, 20 dwellings. Friends is a p.o. in the s. w. part. The first settlement was made on Lot 52, in 1816, by Alex. Finley, from Penn., originally from Ireland.<sup>2</sup> The first religions services (Ref. Prot. D.) were held in the barn of Benj. Ilazen, by Rev. Mr. Bradley, in 1826. The first and only church (Ref. Prot. D.) was formed in 1853, and the church edifice was crected in 1857.

POLAND—was formed from Ellicott, April 9, 1832. It lies on the E. border of the co., s. of the center. Its surface is a hilly upland, divided into several distinct ridges. The principal streams are Connewango and Cassadaga Creeks, which form a junction near the s. line. The soil is a clay and sandy loam. Considerable lumber is still manufactured. Falconer, (p.v.,) on Connewango Creek, contains a church, gristmill, sawmill, and 23 dwellings. Poland Center is a p.o. The first settlement was made at Falconer, on the Connewango, in 1805, by Dr. Thos. R. Kennedy, from Meadville, Penn. A church (Union)—the only one in town—is located at Falconer.

POMFRET—was formed from Chautauqua, March 11, 1808. Ellicott, Gerry, and Hanover were taken off in 1812, a part of Sheridan in 1827, and parts of Arkwright in 1829 and '30. It lies upon Lake Eric, a little E. of the center of the co. A strip of comparatively level land extends along the lake, and the remaining part of the surface is a rolling upland, the higher summits being 700 to 800 ft. above the lake. It is principally drained by Canadaway Creek and several smaller streams flowing into the lake. Several small branches of Cassadaga Creek take their rise in the s. part. The soil is a clay and gravelly loam. Quarries of excellent building stone are found along the lake shore. **Dunkirk**, (p. v., ) on Lake Erie, was incorp. May 15, 1837. It is a commercial port upon the lake, and the w. terminus of the N. Y. & Eric R. R. It has a fine harbor, and commodious wharves and warehouses for the accommodation of the large amount of commerce that centers here during the season of navigation.<sup>6</sup> The R. R. company have also extensive warehouses, work and repair shops, and accommodations for an immense freighting business. The port is the most important one on the lake between Buffalo and Cleveland; and regular lines of steam propellers run in connection with the R. R. The village contains a bank, 4 churches, 2 newspaper offices, a union school, several machine shops and furnaces, and a brewery and distillery. Pop. 4.754. **Fredonia**, (p.v.,) upon Canadaway Creek, 3 mi. s. of Dunkirk, was incorp. May 2, 1829. It contains 4 churches, the Fredonia Academy, 2 banks, 2 weekly newspapers, 3 flouring mills, 2 furnaces, and various other manufacturing establishments. The celebrated "Fredonia Garden Seeds" are raised and put up at this place.8 Pop. 2,004.

<sup>1</sup> James Hall settled on Lot 28, in 1810. The first school was | taught by Stephen Rogers, in 1814. Jas. Hall kept the first store, on Lot 28, and Win. Sears the first inn, on Lot 11. Robert

Woodard were also early settlers. Dr. T. R. Kennedy erected the Woodard were also early settlers. 17. I. R. Kennedy erected the first sawnill, in 1905, and the first gristnill, in 1905, on the Connewango. The first lumber rafted down the Allegany was made at Dr. Kennedy's mill.

6 Formerly called "Chadwicks Bay," from the first settler.

6 At this part were received, in 1857, 242,957 bbls. flour, 38,532

store, on Lot 28, and Wm. Sears the first inn, on Lot 11. Robert Russel built the first sawmill, on Kiantone Creek.

<sup>2</sup> Aaron Whitney, from Dunnville, Canada, settled on Lot 59, Zina Reckford on Lot 28, and Roger Haskill on Lot 50, in 1821; James Ottaway, from Kent co. England, on Lot 14, in 1823. The first birth was that of a daughter of Nathaniel Throop, in 1823; the first marriage, that of Isace Stedman and Nancy Williamson, and Throop, in 1825. The first school was taught by Elisha More, near Finheys Mills, in 1825. Cullin Barnes kept the first inn, on Lot 20, in 1827, and Horace Brockway the first store, in 1824, on Lot 52. Alex, Finley built the first mill, in 1824, on the outlet of Finleys Lake. 1824, on the outlet of Finleys Lake.

3 Formerly known as "Kennedyville."

<sup>4</sup> Edward Shillitto settled about the same time at the mills on the Connewango; Amasa Ives, Isaac Young, — Owens, — Biles, Jos. and Daniel Wheeler, Nicholas Dolloft, and Joshna

<sup>6</sup> At this port were received, in 1857, 242,957 bbls, thour 38,532 bbls, whiskey, 20,153 bbls, beef, pork, and bacon, 93,448 bush, wheat, 114,552 bush, corn, 2152,800 lbs, wool, 1,208,400 lbs, butter, 9,256 head of cattle, 10,782 sheep, and 10,865 bugs.
7 Upon the banks of the creek—just below the bridge, in the village—is a spring of carburetted hydrogen gas, yielding about 10,000 enbic ft, of gas every 24 hours. This gas is collected in a gasometer and distributed in pipes, affording sufficient light for about one-half of the village. About one mi. E. of the village the gas cozes from the shale rocks on the banks of the creek over the space of an acre. The amount of gas escaping here is supposed to be much preater than at the spring in the village, and a company bas been formed to collect it for use.
8 Over 600 acres of land are devoted to this business.

**Laona.** (p. v.,) on Saw Creek, near the E. border, contains 2 churches, a paper mill, saw and grist mill, and 406 inhabitants. **Brigham**, in the s. part, is a p. o. **Shumla** is a hamlet, near the s. E. corner. David Eason and Thomas McClintock, from Penn., settled at Fredonia, in 1804. The first church (Bap.) was organized Oct. 20, 1808, at the house of Judge Cushing.

PORTLAND—was formed from Chantauqua, April 9, 1813. Ripley was taken off in 1817, and a part of Westfield in 1829. It lies upon Lake Erie, a little w. of the center of the co. Its surface is level along the lake shore, but broken and hilly in the center and w. Its streams are small creeks and brooks flowing into Lake Erie. The soil is a clay and gravelly loam. Centerville, (Portland p. o.,) near the center, contains 2 churches and 233 inhabitants; Salem, (Brockton p. o.,) in the N. E. part, contains 2 churches and 258 inhabitants. The first settlement was made a little w. of the center, by Capt. Jas. Dunn, in 1805.<sup>3</sup> The first religions meeting was held at the house of Capt. Dunn, in 1810, by Rev. John Spencer, who afterward organized the first church (Cong.) in 1817.<sup>4</sup>

RIPLEY5—was formed from Portland, March 1, 1817. A part of Westfield was taken off in 1829. It lies upon Lake Erie, in the N. W. corner of the co. Its surface is level along the lake shore, and broken and hilly in the S.E. The highest summits are 800 ft. above the lake. It is drained by Twenty Mile Creek and its tributaries and a large number of small streams flowing into the lake. The soil is a clay and gravelly loam. Along the lake shore are several valuable stone quarries. Quincy, (Ripley p. o.,) about 1 mi. E. of the lake, contains 2 churches and 289 inhabitants. State Line is a station on the B. & E. R. R. Josiah Farnsworth, from the E. part of the State, settled at Quincy in 1804. The first religious services (Bap.) were held at the house of Nathan Wisner, by Rev. Samuel Wisner, in 1806; the first church (Presb.) was formed in 1820.6

SHERIDAN—was formed from Pomfret and Hanover, April 16, 1827. It lies upon the shore of Lake Erie, E. of the center of the co. The surface is level in the N. w., and hilly in the s.E., with a gradual inclination toward the lake. A nearly perpendicular bluff, 50 to 200 ft. high, extends along the lake shore. It is drained by Scotts Creek, and several smaller streams, flowing into Lake Erie. The soil is a clay loam, mixed in some parts with gravel. Sheridan Center (p. v.) contains 2 churches and 20 dwellings. The first settlements were made on Lot 17, at the center, by Francis Webber, from Mass., in 1804.7 The first religions meeting (Presb.) was held at the house of Orsamus Holmes, by Rev. John Spencer, in 1807; and the first church (Presb.) was organized by Mr. Spencer, in 1816.8

SHERMAN<sup>9</sup>—was formed from Mina, April 17, 1832. It is an interior town, lying s. w. of the center of the co. The surface is rolling and hilly, broken by the deep ravines of the streams. It is drained by French Creek and its tributaries. The soil is clay and sandy loam. Considerable lumber is mannfactured in the town. Sherman, (p. v.,) in the n., contains 4 churches, a gristmill, sawmill, and several manufacturing establishments. Pop. 401. Center Sherman is a p.o. Pleasant Valley and Waits Corners are hamlets. In 1824, 10 Alanson Weed set-

<sup>1</sup> Low Minegar, Benj. Barrett. Zattu Cushing. — Barnes, Cole, and — Geer settled, in 1804 and '05, at and near Fredonia. Timothy Goddling settled 1 mi. w, of the harbor, in 1808. Solomon Chadwick located at Dunkirk in 1809, and — Gaylord, Daniel Pier, and Latther Gondling soon after. Samuel Perry brought the first vessel into the harbor, in 1810. The first death was that of a daughter of Oliver Woodcock, 12 years of age, killed by the fall of a tree in 1808. The first school was taught by Samuel Perry, at Fredonia, in the winter of 1808-09. Thos. McClintock kept the first inn, in 1809, and E. Risley the first sownill and gristnill, in 1807, on Canadaway Creek.

2 The general reports 11 daysches, 2 Page 2 No. 5, 2007.

<sup>&</sup>lt;sup>2</sup> The ceusus reports 11 churches; 3 Bap., 2 Prot. E., 2 Presb., 2 M. E., Christian, and R. C.

<sup>&</sup>lt;sup>3</sup> In 1806, Nathan, Elisha, and Nath'l Fay settled on Lot 25, Peter Kane on Lot 38, John Price on Lot 34, David Eason on Lot 75, and Benj. Butchins in the same vicinity. The first birth was that of George W. Dunn, Jan. 18, 1807; the first marriage, that of Absalom Harris and Pelly Kane, in 1819; and the first death, that of Mrs. Nathan Fay, in 1807. The first school was taught by Anna Eaton, on the premises of Capt. Dunn, in the summer of 1810. The first inn was kept near Centerville, by Capt. Dunn, in 1806, and the first store by Thos. Clump, in 1817, in the w, part of the town. Moses Sage and Wm. Dunham built the first sawmills, near the lake shore. The first gristnull was built at Salon.

built at Salem.

4 The census reports 6 churches; 2 Bap., 2 M. E., Prot. Meth., and Come.

<sup>6</sup> Named in honor of Gen. Eleazur W. Ripley. Among the other early settlers were Perry G. Ellsworth, on Lot 12, near Quincy, Samuel Truesdail, near the Penn. line, Alexander Cochrane, on

Lot 10, and Wm. Alexander, all of whom came in 1804; Silas Baird settled on Lot 6, and Ira Loomis in town, in 1806; Chas, Forsyth in 1808. The first school was taught by Ann Riddle, a little w. of Quincy, in 1810. The first inn was kept near tho State line, by Sam'l Truesdail, in 1805.

<sup>&</sup>lt;sup>6</sup> The census reports 5 churches; 2 Presh., M. E., Bap., and Union.

<sup>7</sup> Jerrard Griswold, John Walker, Orsemus and Alanson Holmes, and Uriah Lee, from Eastern New York, settled near the center in 1804–05; Wm. Griswold, from Conn., on Lot 35, in 1805; and Rev. John Spencer, from Conn., at the center, in 1807. The first birth was that of Jos. Ellicott, son of Alanson Holmes, in the spring of 1805; the first marriage, that of Benj. Parrows and Betsey Stebbins, in 1807–08; and the first death, that of Alanson Holmes, in the fall of 1805. The first school was taught by Wm. Griswold, in the winter of 1808–09, at his own house orseems Holmes kept the first inn, w, of the center, in 1808, and Elisha Gray the first store, the same year. Haven Brigham built the first gristmill, in 1807, on Brighams Creek.

<sup>8</sup> The census reports 3 churches; Presb., Bap., and Wes. Meth. 9 Named in honor of Roger Sherman, one of the signers of the Declaration of Independence.

<sup>&</sup>lt;sup>10</sup> In the same year, Harvey W. Goff settled on Lot 30, Lester R. Dewey on Lot 31, Otis Skinner on Lot 32, and Hiram N Glesson on Lot 24. The first child born was Amasa Dormas, in 1824; the first marriage, that of Lester R. Dewey and Fanny Patterson, in 1825; and the first death, that of —— Arnold, in 1826. Otis Skinner taught the first school, in his own house, in 1828. Josinh Keeler kept the first store and mn, on Lot 27, in 1827. Alanson Weed erected the first mill, on Lot 30 in 1825.

tled on Lot 31. The first religious meeting (Bap.) was held at the house of Jonathan Reynolds, by Elder Spencer; and the first church (Cong.) was formed in 1826.1

STOCKTON2—was formed from Chautauqua, Feb. 9, 1821. A part of Ellery was annexed in 1850. It is an interior town, lying a little N. of the center of the co. Its surface is a rolling and hilly upland. Cassadaga and Bear Lakes, two small bodies of water near the N. border, give rise to Cassadaga and Bean Creeks. These streams unite in the s. part of the town. The soil upon the npland is a clay loam, and in the valleys a sandy loam. Delanti, (Stockton p. o.,) near the center, contains 3 churches, a grist and saw-mill, and 180 inhabitants. Cassadaga, (p. v.,) upon Cassadaga Lake, in the N. E. corner, contains a church, a sawmill, and 151 inhabitants. South Stockton, in the s. E. part, and Oregon, in the s., are p. offices. The first settlement was made in the s. part of the town, in 1810, by Shadraek Scofield, David Waterbury, and Henry Walker, from Saratoga co.3 The first church (Bap.) was organized in the s. part, in 1815.4

VILLENOVA—was taken from Hanover, Jan. 24, 1823. A part of Arkwright was taken off in 1829. It lies upon the E. border of the co., N. of the center. Its surface is rolling in the s. E., and broken and hilly in the center and N. The highest summit is 900 ft. above Lake Erie. Two small lakes-one on the N. and the other on the w. border-form the sources of the two branches of Connewango Creek, which unite in the s. E. corner. The soil is a clay and gravelly loam. Omar, (llamlet p.o.,) a little s. w. of the center, contains 2 churches, a grist and saw mill, and 181 inhabitants. Villenova is a p.o. at Connewango Forks, in the s. E. part. The first settlement was made in 1810, on Lot 3, by Daniel Whipple, from Herkimer co., originally from Mass.<sup>5</sup> The first religious meeting was held by Rev. Mr. Dunham; and the first church (M. E.) was formed in 1812. There are 3 churches in town; M. E., Wes. Meth., and F. W. Bap.

WESTFIELD—was formed from Portland and Ripley, March 19, 1829. It lies upon Lake Erie, w. of the center of the co. The surface is level or rolling along the lake, and hilly in the center and s. It is drained by Chautauqua and Little Chautauqua Creeks and several smaller streams flowing into the lake. The soil is a clay and gravelly loam. Westfield, 6 (p. v.,) upon Chantauqua Creek, about 2 mi. from the lake, was incorp. April 19, 1833. It contains 4 churches, 2 banks, a weekly newspaper, the Westfield Academy, an agricultural implement factory, a hardware factory, woolen factory, cotton mill, and 3 flonring mills. Pop. I,433. Barcelona, (p. v.,) a port of entry upon the lake, contains 169 inhabitants. **Volusia** is a p. o. in the s. part of the town. The first settlement was made in 1801, by Edward McHenry, from Penn. The first church (Presb.) was organized in I807, by Rev. John Linsley.8

<sup>&</sup>lt;sup>1</sup> The census reports 5 churches; Cong., Bap., F. W. Bap., M. E., and Univ.

<sup>&</sup>lt;sup>2</sup> Named in honor of Richard Stockton, a signer of the De-

<sup>-</sup> Namer in Independence.

3 The first child born was Wm. Walker, Aug. 25, 1811. Abigail Durfey taught the first school, in the s. part, in the summer of 1815. The first inn was kept by Ichabed Fisher, at Cassadaga, in 1811, and the first store by James Haywood, at Delanti, in 1817. Hines, Lazell & Nelson built the first gristmill, at Delanti, on Bean Creek, in 1819.

<sup>4</sup> The census reports 6 churches; 3 Bap., Cong., Christian, and

Univ.
5 Among the other early settlers were Daniel Wright, from Among the other early settlers were Damel Wright, from Herkimer co., on Lot 19, Villercy Balcomb, John Kent, and Eli Arnold. The first child born was Electa Whipple. May 5, 1812; the first marriage, that of Jas Mafit and Mary Dighton; and the first death, that of John Arnold, in 1811. Mrs. Battles taught the first school, in her own house, near Wrights Corners, in 1815. Norris & Grover kept the first store, and Villercy Balcomb the first inn, at Wrights Corners, in 1829. John Kent

erected the first sawmill, in 1815, on the Connewango, below the Forks; and a gristmill was attached in 1818.

<sup>&</sup>lt;sup>6</sup> The business of this place was ruined by the finishing of the N. Y. & Erie R. R. to Dunkirk. A lighthouse here is lighted by gas obtained from a gas spring, on the bank of the creek, about a mile distant.

7 Among the other early settlers were Arthur Bell and James

Montgomery, from Penn., who located a little w. of Westfield Village, Abraham Fredrick, from Penn., on Lot 71, and Dan'i Kinkaid, on Lot 14, all in 1802; and Gen. John and Jas. McMahan, on the present site of the village, in 1803. The first child born was John McHenry, in 1802; the first marriage, that of James Montgomery and Sarah Taylor, June 30, 1805; and the first Montgomery and Sarah Taylor, June 30, 1805; and the first death, that of Edward McHenry, drowned by the upsetting of a small boat on Lake Eric, in 1803. John McMahan erected the first sawmill and gristmill, in 1804, on and near the month of Chantanqua Creek. Edward McHenry kept the first inn, in 1802, and Jas. Atkins the first store, in 1808, at Westfield Village. The first school was taught by Win, Murray, in 1803.

8 The census reports 7 churches; 2 M. E., Presb., Prot. E., Wes, Meth., Bap., and Univ.

**DUNKIRK**—was formed from Pomfret, Nov. 17, 1859, the division line being the north line of Lots 2, 9, 15, 21, 26, 31, 35, 38.

#### CHEMUNG COUNTY.

This county was formed from Tioga, March 29, 1836. A portion of Schuyler was taken off in 1854. It lies upon the s. border of the State, is centrally distant 158 mi. from Albany, and contains 406 Its surface is principally a hilly upland broken by the deep ravines of the streams. The highest points are 400 to 600 ft. above the valleys and 1300 to 1500 ft. above tide. The ridges extend in a general N. and s. direction, and have steep declivities and broad and rolling summits. A deep valley, extending s. from Seneca Lake, divides the highlands into two general systems, and forms an easy communication between the Susquehanna Valley and the central portions of the State. Chemung River flows s. E. through the s. part of the co. and cuts the ridges diagonally. Wide alluvial flats,

bordered by steep billsides, extend along nearly its whole course. Catharine Creek flows N. through the central valley and discharges its waters into Seneca Lake. The other principal streams, all tributaries of the Chemung, are Post, Sing Sing, Newtown, Goldsmith, Wynkoops, and Cayuta Creeks from the N., and Hendy and Seely Creeks from the s. The valleys of these streams are generally narrow, and are bordered by steep hills. The valleys of the smaller streams are mere raviues and gulleys.

The principal rocks in the eo. belong to the shales and sandstones of the Cheming group. In the N. part the rocks of the Portage group are exposed in the ravines. The sandstone is quarried in several places, and furnishes a good quality of stone for building and flagging. Bog iron ore and marl are found to a limited extent. The soil is a gravelly and sandy loam, intermixed in some places with clay. The valleys are covered with a deep, rich alluvium. The bigblands are best adapted to pasturage. The people are principally engaged in agriculture. Until within a few years, lumbering has formed a leading pursuit; but since the disappearance of the fine forests this business has been mostly superseded by stock and wool growing and dairying. Since the completion of the railroads and canals, commerce and manufactures have received considerable attention, although they are still subordinate to the agricultural interests of the co.

The county seat is located at Elmira, upon Chemung River.<sup>5</sup> The courtbouse and jail are located near the center of the village, E. of the canal. The jail is poorly arranged, and in construction it meets neither the requirements of humanity nor the law. The average number of inmates is 12, kept at a cost of \$2.50 per week each. The poorhouse is located upon a farm of I80 acres in the town of Horseheads, on the line of Eriu. The average number of immates is 70, supported at a cost of \$.80 each per week. The farm yields a revenue of \$1000.6 The Chemung Canal extends s. from Seneea Lake through the central valley to Chemung River at Elmira, forming a direct connection with the great chain of internal water navigation of the State. A navigable feeder from Corning, Steuben eo., forms a junction with the canal on the summit level at Horseheads Village. Junction Canal extends several mi. along the Chemung, affording navigation at points where the river is obstructed by rapids and narrows. The New York & Erie R. R. extends along Chemung River through Chemung, Sonthport, Elmira, and Big Flats. The Chemung R. R. extends N. from Elmira through Horseheads and Veteran. The Williamsport & Elmira R. R. extends s. from Elmira through Southport into Penn., forming a direct line to Philadelphia.

Two daily and 2 weekly newspapers are published in this eo.7

<sup>1</sup> Name derived from the principal river, signifies "Big horn," | Joseph L. Darling, First Judge; Andrew K. Gregg, District Ator "Horn in the water." It is called by the Delawares Conongue, a word of the same signification. These names were applications to the same signification. These names were applications of the same signification. These names were applications of the same signification. These names were applications of the same signification. These names were applications of the same signification. phed to the stream in consequence of numbers of immenso deers' horns having from time to time been discovered in the water. In his "Views of Elmira," Solomon Sonthwick says that the Indian name of the Chemung was Con-e-wa-wa, signifying "a head on

name of the Chemung was Con-e-wa-wa, signifying "a nead on a pole."

2 Named from John Sing Sing, a friendly Indian.

3 Named from Wm. Wynkoop, an early settler.

4 For many years 10,000,000 ft, of pine lumber were floated down the Chemung and Susquehanna from Elmira annually.

5 Upon the erection of Tioga co. Elmira, then "Newtonen," was made half-shire; and upon the erection of Chemung co. in 1836 it was desirated as the county seat, and the old co. buildings it was designated as the county seat, and the old co. buildings were taken for the use of the new co. The first co. officers were

Surrig; and Lyman Covili, Surregute.

6 The poorhouse is entirely inadequate for the comfort or health of the inmates. Many insane persons are confined, without proper care or medical attendance. No school is kept, but at proper age the children are bound out.

7 The Telegraph, the first paper published in the co., was established at "Newtonon" (now Elmira.) by Prindle & Murphy at an early period. In 1816 it was issued as

The Vidette by Prindle & Murphy, and subsequently by Wm. Murphy. Murphy. The Investigator was commenced at Elmira, in 1820, by Job Smith. In 1822 its name was changed to The Tioga Register, and in 1828 to

The Elmira Gazette, and its publication was continued

In 1779, Gen. Sullivan and his army entered the eo. from the s. by the way of Chemung River. Below "Newtown Point" (now Elmira) he encamped and threw up a breastwork, which was afterward called Fort Sullivan. At this point he first encountered the Indians and torics in force, and on the 29th of Aug. a battle ensued. The Indians were commanded by Brant, and the tories were led by Cols. Butler and Johnson. After an obstinate engagement of two hours, the enemy gave way at all points and fled, and no more resistance was offered to the advance of the American army. The first settlements were made from 1787 to 1790, by immigrants from Penn., who had accompanied Sullivan in his expedition. They located principally in the valley of the Chemung, at Elmira, Southport, and Big Flats. Soon after, settlements were made at Catlin and Veteran, by immigrants from Conn.; at Erin, by Dutch and Scotch from N. J. and Del.; and at Chemung, by immigrants from Lancaster co., Penn. The portion of the co. lying s. of the Cheming River was included in a royal grant made previous to 1775. The remaining parts of the co. were included in the Watkins and Flint purchase.

BALDWIN2-was formed from Chemung, April 7, 1856. It lies s. E. of the center of the co., and a narrow strip extends to the E. border. Its surface is a hilly upland, broken by the deep valleys of Baldwin and Wynkoop Creeks. The soil upon the hills is a clayey and shaly loam nnderlaid by hardpan, and in the valleys a gravelly loam. Hammonds Corners (North Cheming p. o.) contains a church, tannery, and 18 houses. Henry Sice made the first settlement, a little N. of the village, in I813, and Warren and Charles Granger settled at the village in 1814. The only church in town (Union) was formed in 1852, by Dr. Murdock, the first preacher.

BIG FLATS—was formed from Elmira, April 16, 1822. It lies upon the w, border of the co., s. of the center. Its surface consists of a broken upland in the N. and s., separated by a wide intervale or flat, which extends N.E. from the Chemung through the center and gives name to the town. Chemung River receives several small tributaries from the N., the principal of which is Sing Sing Creek. The soil is a slaty loam upon the hills, and a productive gravelly loam in the valleys. Tobacco is raised in considerable quantities upon the flats. Big Flats, (p.v.,) situated in the valley near the w. border of the town, is a station upon the N.Y. & Erie R.R. Pop. ISO. The first settlement was made by Christian Miner, from Penn., in 1787.5 The first church (Bap.) was formed in I807. Rev. Roswell Goff was the first preacher.

CATLIN—was formed from Catharines, Schuyler co., April 16, 1823. It is the N.W. corner town of the co. The surface is a hilly upland, the highest summits being 200 to 400 feet above the valleys. The principal streams are Post and Sing Sing Creeks and Hubbards Run. The soil is chiefly a gravelly loam, and is best adapted to grazing. There is no village or church in town.

by Mr. Smith until 1831. It was successively issued by Brinton Paine, Cyrus Fratt, Pratt & Beardsley, Mason & Rhodes, Geo, W. Mason, and Wm. C. Mason, until 1857, when it passed into the hands of S. C. Taber, by whom it is still published.

The Elmira E-publican was commenced in 1820, and in 1828 it

was changed to

The Elmira Whig, and published by James Durham. In 1829 it was changed again to
The Elmira Republican, and issued by C. Morgan. It was soon

nfter called

The Elmira Republican and Canal Advertiser. In 1831 it passed into the hands of John Duffy, and its name was changed

The Elmira Republican. It was successively issued by Birdsall & Huntley, Ransom & Birdsall, Polly & Carter, Polly & Cook, Polly & Huntley, S. B. & G. C. Fairman, G. C. Fairman, Fairman & Baldwin, Baldwin & Dumas, and - Calhoun, until 1857, when it was discontinued.

The Elmira Daily Republican was issued a short time in 1846, The Daily Republican was issued from the Republican office from the fall of 1851 to 1855.

The Elmira Advertiser was commenced in 1853 by Fairm in Brothers. In 1856 F. A. De Voe became interested in the publication, and the paper is still issued by Fairman & De Voe.

The Elmira Dally Advertiser was commenced simultaneously with the weekly, and is still issued, by

the same publishers.

The Elmira Dady Democrat was issued a short time in 1851 by J. Taylor & S.C. Taher

The Cheming Patriot was published in 1837 at Horscheads by J. T. Bradt.

The Philosopher was commenced at Horseheads, April 7, 1855, by Sain'l C. Taber, and was continued until 1857, when it was merged in The Elmira Gazette.

The Dnily Press was commenced in 1856, by Dumas, Van

Gelder & Paine, its present publishers.

The Temperance Gen (mo.) was published at Elmira about 1850.

1 Louis Philippe, the Duke de Nemours, and the Duke de Berri, visited Elmira in 1797, having traveled on foot to that place from Canandaigna, a distance of 70 mi. They went down the since to Receival Park page and page 1899. river to Harrisburgh upon an ark.

2 Named from Baldwin Creek, which received its name from

Isaac, Walter, and Thomas Baldwin, brothers, who settled at an early period at the mouth of the creek. It was formetly called Butlers Creek. They were attached to Gen. Sullivan's expections. tion against the Indians in 1778-79, and Walter was wounded at the battle of Newtown.

3 The first child born was Simeon Hammond, and the first death was that of Thos, Wheeler, killed by the fall of a tree. The first school was taught by Polly Blandin, a little N. of the village. D. R. Harris kept the first inn, and Miles Covel the first store, N. of the village.

4 In 1850, Sanford Elmore, from Conn., commenced the cultivation of tobacco in this town, and it has since become a staple product. In 1858 nearly 1000 acres were devoted to it, and 250 tons of the Conn. seed leaf were produced.

<sup>5</sup> Caleb Gardner and Henry Starell, from Penn., settled on \*Cheb Gardner and Henry Stardl, from Penn., settled on the river below Miner in the same or the next year. Geo. Gard ner settled at the village in 1788, Clark Winans on the river in 1789, and John Winters, Jesse and Joel Rowley, and Geo. Gardner, jr., all from Penn., in 1790. The first birth was that of Christian Miner, jr., in 1790; the first marriage, that of Win. Applegate and Catharine Miner; and the first death that of T. Dolson. Cornelius McGinnis taught the first school, near the village; John Hay kept the first store, and Capt, Geo. Gardner the first inn at the village. The first grismill was creeted by Robt. Miller, E. of the village,

6 The census reports 4 churches; Bar., F. W. Bap., Presb., and M. E.

Catlin Center and Post Creek are p. offices. The first settlers were John Martin, from Tompkins eo., and Aaron Davenport, from N. J., who located in the s. w. corner of the town.1

CHEMUNG—was formed Feb. 28, 1789. Elmira was taken off in 1792, Erin in 1822, and Baldwin in 1856. It is the s. E. corner town of the co. Its surface is a hilly upland broken by deep and narrow valleys. Chemung River flows s. E. through the s. part. Wynkoop Creek flows s. through near the center, in a deep valley bordered by steep hillsides. The soil on the uplands is a gravelly loam, and in the valleys gravel mixed with alluvium. Broomeorn and tobacco are largely cultivated. Breckville, (Chemung p.o.,) on Chemnng River, contains a church and 57 dwellings. It is a station on the N. Y. & Erie R. R. Chemung Center and Baldwin are p. offices. The first settlement was made at Breckville, in 1788, by Elijah Breck, Capt. Daniel McDowell, and William Wynkoop,—the first two from Penn.<sup>2</sup> The first church (Bap.) was formed in 1790, by Rev. Roswell Goff.3

**ELMIRA**—was formed from Chemnng, as "Newtown," April 10, 1792, and its name was changed April 6, 1808. Catharines Schnyler co., was taken off in 1798, Big Flats and Southport in 1822, and Horseheads in 1854. It is situated s. of the center of the co. Ranges of hills occupy the E. and w. borders, and a wide vailey extends through the center. The declivities of the hills are generally steep, and their summits are 400 to 600 ft. above the valleys. The principal streams are Cheming River, forming the s. boundary, and Newtown and Goldsmiths Creeks. The soil upon the uplands is a gravelly loam, and in the valleys a productive, sandy loam. Elmira (p, v.) is situated upon the Chemung, near the center of the s. border of the town. Upon an eminence 21 mi. E. of Elmira Village are the remains of an ancient fortification. It is protected on one side by the river, and on the other by a deep ravine. An embankment 200 feet long, 14 feet wide, and 31 feet high still extends along the rear of the fortification, and upon it large trees grew when the whites first occupied the country. It was incorp. as "Newtown" March 3, 1815, and its name was changed April 21, 1828. The people are largely engaged in manufacturing and in commercial pursuits, for which the location of the place is admirably adapted. Besides the co. buildings, the village contains 3 banks, I daily and 2 weekly newspaper offices, 8 churches, and a large number of fine and commodious commercial buildings. It is also the seat of the Elmira Female College,6 the Elmira Seminary, the Elmira Academy, and a large water-cure establishment. The public schools are graded and are in a flourishing condition. Pop. 8,308, of which 7,173 are within the limits of the town, and I,135 in the town of Southport. The first settlement was made by Col. John Hendy and Christian Loop, who located on the present site of the village in 1788.10 Col. Hendy

inn was kept with. Wynkoop, on vincops access, and riferst store by Elijah Breck, at Breckville. Epinetus Owen creeted the first gristmill, on Wynkoops Creek. Wm. Wynkoop was from Ulster ee., and settled at the mouth of the creek bearing his name. Samuel Wallace, the first school teacher, was killed by

the Indians. 8 The census reports 4 churches; 2 Union, Bap., and Cong. 4 The principal of the manufacturing establishments are as follows:—The Elmira Woolen Manufactory, employing 64 hands, and turning out 230,000 yds, of cloth annually; the Phoenix Furnace Iron Works gives employment to 40 men; the Elmira Ax Factory to 25 men; and a barrel manufactory to 50 men. Besides these, there are several flouring mills, a planing mill, and other establishments.

6 An immense lumber trade is still carried on by means of the Chemung River and Canal. The W. & E. B. R. opens a direct communication with the coal mines of Penn, and a large coaltrade is rapidly springing up. The village is also the center of

an extensive trade.

6 This institution was chartered in 1855, with all the powers or this institution was conserved in 1855, with the the powers and privileges granted to the other colleges in the State. It extends to woman, opportunities for the highest culture. It is heautifully situated upon an eminence a little s. w. of the village. The building is 230 feet long, with an octagonal center 70 feet in diameter and 4 stories high, flanked by 2 wings, each 80 for the transfer of the transfer of the story of the privilege of the product of the story of the privilege of the story of the story with all constitutions.

feet in diameter and 4 stories light, lanked by 2 wings, card by 50 feet, and 3 stories high, all erected at a cost of \$80,000. The catalogue of 1838 reports 188 pupils in attendance.

7 The Elmira Seminary for young ladies, a private institution, has been in successful operation for 11 years, under the management of Miss C. Thurston. The catalogue of 1857 reports 205

pupils.

8 The Elmira Academy, once incorp., is now a private institution. It has an endowment of \$10,000. New buildings for the school are in process of erection. In 1858, 262 pupils were re-9 The Elmira Water-Cure is situated on the hill 1 mi. z. of the

village, commanding an extensive view of the valley and surrounding country. It contains accommodations for 110 patients. rounding country. It contains accommodations for 110 patients. W. Among the early settlers were John Konkle, James Camerow, Wm. Seeley, Nathaniel Seely, John Muller, Caleb Baker, —— Marks, Thomas Hendy, and John J. AcMody. Cornelius Law kept the first inn, in 1791, at Newtown Point, and Cyrus Hallenbeck the first store, at about the same time and place. The first gristmill was built by Wim. Dunn and Brinton Parne, at the village in 1791, and the first sawmill, wool carding and cloth dressing nill by Gen. Matthew Carpenter, on the site of the present woolen factory. The following account of the first birth in town was given in the N. Y. Commercial Advertiser:—'One Saturday afternoon, about 4 o'clock, in the sunnuer of 1788, while Col. John Hendy was working on his log house, a man and woman, both on horseback, emerged from the Indian pathway and crossed the New town Creek to his land. The man rode before, with a basket on town Creek to his land. The man rode before, with a basket on each side of his horse, and a child in each basket, while the woman brought up the rear, having on her nag the goods and chattels of the family; for they were man and wife. The huswoman brought up the rear, having on her naz the goods and chattels of the family; for they were man and wife. The hushand rode up to Col. II., inquiring with much anxiety if there was a doctor to be found in the vicinity. 'What is the matter?' said the veteran. 'My wife has got hurt by the stumbling of her horse, and wants a doctor as soon as possible,' was the reply. 'That is very unfortunate.' said the Col., for there is no doctor in this wilderness.' He had no shelter nor resting place to offer them, save the ground, the pine trees, and the campy of heaven. They rode on a few rods, and stopped—for they were obliged to stop—under the best shelter they could find. On Sunday morning Col. Hendy met the man in the woods, near the spot where they had conversed before, and, innnd. On Sunday morning Col. Hendy met the man in the woods, near the spot where they had conversed before, and, inquiring how his wife was, was answered, 'She is as well as could be expected.' The Col. did not think again of the traveler till Monday, when he sent his son to look after them. The boy returned widt the intelligence that they were getting ready to start. 'But bow is the woman, my boy?' said he. 'The

<sup>1</sup> Among the other early settlers were N. Swick, Homer Tupper, Edward Reebe, Jacob Bucher, Alanson Owen, John Woolsey, and J. M. Barker, who located in the s. part. Jacob Bucher, kept the first inn on Post Creek, and — Ostrander erected the first saw and gristmills on the same stream. Reuben Beebe died in the town in 1854, at the age of 105. His widow, Hamab Beebe, was living, 1854, at the age of 105. Mr. Beebe served as a soldier in the Revolutionary army.

2 The first marriage was that of Guy Maxwell and Nellie Wynkoop, and the first death, that of Wm. Bosworth. The first inn was kept by Win. Wynkoop, on Wynkoops Creek, and the first store by Elijah Breek, at Breekville. Epinetrs Owen erected

was the pioneer in the valley of the Chemung, and one of the most prominent of the early settlers. The first preacher (Presb.) was Rev. Nathan Culver.1

ERIN—was formed from Chemung, March 29, 1822. A part of Van Etten was taken off in 1854. It extends from near the center of the co. to the N. border. Its surface is a hilly upland broken by the deep and narrow valleys of the streams. The principal streams are Winkoop, Bakers, Baldwin, and Newtown Creeks. Upon Bakers Creek, in the s. part of the town, is a fine sulphur spring. The soil is a medium quality of gravelly leam, and is best adapted to Considerable lumber is still manufactured, little more than one-third of the surface being under improvement. Erin, South Erin, and State Road are p. offices. The first settlement was made in 1817, by Robert Park and John Bonfield.<sup>2</sup> There are 2 churches in town; Presb. and M. E.

HORSEHEADS<sup>3</sup>—was formed from Elmira, Feb. 17, 1854. It is an interior town, lying near the center of the co. The surface is rolling and level in the w. and hilly in the E. The summit level of the Cheming Canal at Horseheads Village is 443 ft. above Seneca Lake, and the summits of the hills are 200 to 400 feet higher. Its principal streams are Newtown Creek and its branches. The soil is generally a good quality of gravelly loam. Considerable attention is paid to raising tobacco, and, in 1857, 1000 acres were devoted to this crop. **Horseheads** (p. v.) was incorp. May 15, 1837, as "Fairport," and its name was changed April 18, 1845. It contains 2 steam flouring mills, a plaster mill, a gang sawmill, and 3 churches. Pop. 1000. The Chemung navigable feeder from Corning intersects the canal at this place. Breesport (p. v.) contains 2 churches and 18 dwellings. The first settlement was made at Horseheads in 1788, by Nathan Huntington. The first church (Presb.) was formed by Rev. Daniel Thatcher; the first settled minister was Rev. Ethan Pratt.5

**SOUTHPORT**—was formed from Elmira, April 16, 1822. It is the s. w. corner town of the co. Its surface is mostly a hilly upland broken by the deep valleys of the streams. Chemung River, forming most of the N. boundary, is bordered by wide, fertile alluvial flats. Seely Creek, the principal stream, receives as tributaries South, Bird, and Mud Liek Creeks; Hendy Creek flows along the N. border. The soil upon the hills is a slaty loam, and in the valleys a fine quality of gravelly loam. Wellsburgh, (p. v., ) on the Chemung, in the s. E. corner of the town, contains 2 churches and several mills and manufacturing establishments. It is a station on the N.Y. & E. R. R. Pop. 365. Southport (p. v.) contains 2 churches, 2 mills, a woolen factory, and 44 houses. Webbs Mills (p. o.) is a hamlet, and Seely Creek is a p. o. The 3d ward of Elmira, containing a pop. of 1135, is on the s. bank of the Chemung in this town. The first settlement at Wellsburgh was made by Green Bentley in 1788 and Abner and Henry Wells in 1789. Abraham Miller located at Southport in 1789.6 The first church (Bap.) was formed at Wellsburgh, in 1790; Rev. Roswell Goff was the first preacher. On an eminence known as Fort Hill, near the Chemung, in the w. part, are the remains of an ancient fortification, supposed to have been French.

VAN ETTEN—named from James B. Van Etten—was formed from Erin and Cayuta, April 17, 1854. It is the N. E. corner town of the co. Its surface is a billy upland. Cayuta Creek flows

woman, ch? oh, the woman has got a baby; and I guess she wants another basket to put it in." The child whose birth is told above was Clark Winans, ir. The place was surveyed, in wants another based on the table above was Clark Winans, ir. The place was surveyed, in 1788, by Jas, Clinton, Gen. John Hathom, and John Contine Conis; and the first lands were sold at 18 pence per acre. In 1799, a council with the Indians was held under a tree on Lake St. just E. of the present site of the courthouse. About 1200 Indians were present. Nathaniel Scely, the first patentee, of Elmira Village, sold to Moses De Witt, who sold to —— White; and in 1794 White sold to Gay Maxwell and Saml, Hephurn.

¹ The census reports 8 churches; 2 M. E., Bap., Cong., Presb., Af M. E., Prot. E., and R. C.

² Among the other early settlers were Jesse L. White, Isaac Shoemaker, Alexander and John McKay, Thomas Baker, Win. And Robert Stewart, John and James Hallenbeck, B. Sperry, Thomas Van Houton, Philip Thomas, J. Boyn, Robert McDowell and his son Barnum, and Andrew Austin, Joseph Daniel, and Samuel Vaughn. The first death was that of Mrs. Thomas Baker. The first school was kept on Newtown Creek, and the first sawmill was creeted at the same place by J. and J. McMillen. 1790, a conneil with the Indians was held under a tree on Lake

Baker. The first school was kept on Aewtown trees, and the first sawmill was crected at the same place by J. and J. McMillen.

3 This name was derived from the following incident. While Gen. Sullivan's army was encamped at this place, some 30 or 40 wormout horses were shot. The Indians afterward gathered the heads and arranged them on the sides of the path, and the Leadity League Leaves as the Mexicologies. locality became known as the Horseheads.

<sup>4</sup> John Breese (from N. J.) settled at the same place in 1790, John Breese (170m N.3.) settled at the same page in 11 or, and Jonathan S. Concklin, Nathaniel Huntington, Asa Guildersleve, and a family named Gilbert, in 1791. Soon after, a comsieve, and a samily hanned eithert, in 1691. Soon after, a company from Orange co., among whom were James, Rhenezer, and John Sayre, purchased a tract of 1400 agres, covering the site of the village, and settled on it. The first child borm was Susanna Concklin, in 1792; the first marriage, that of Wm. Dunn and Mary Sayre; and the first death, that of Susanna Concklin. Amelia Parkhurst taught the first school at the village. Vincont Concklin best 400 feet of the child seed of the control of the co cent Concklin kept the first inn, in 1822, and Westlick & Dunn the first store. The first gristmill was erected by Lewis Breese.

E. of the village.

5 The census reports 5 churches; 2 M. E., 2 Bap., and 1 Presb.

6 Col. Abraham Miller was from Penn. He served with distinction as a captain in the army of the Revolution, and was appointed First Judge of Tioga co. by Gov. Geo. Clinton, in 1791. The first birth was that of Ennice Kelsey, and the first death, that of Stephen Kent. The first school was taught by Caleb Baker; the first tim was kept by Wm. Baddwin, and the first store by Wm. and Henry Wells, on the river at Wellsburgh. The first sawmill was erected by Col. Abraham Miller, on a branch of Seely Creek; the first gristmills were erected by Bayid Griswold and Solomon Bovier, and the first factory by Charles Evans, at Southport, 7 The census reports 5 churches; 2 Bap., 2 M. E., and Presb.

s. E. through near the center, and receives as tributaries Jackson and Langfords Creeks from the N. and Bakers Creek from the s. The soil on the hills is a elay loam, and in the valleys a gravelly loam. **Van Ettenville** (p. v.) contains 3 churches and 20 dwellings; **Cayuta** is a p. o. The first settlements were made along the valley of Cayuta Creek in 1795, by Alexander and Benjamin Ennis, Peter, Jacob, Emanuel, and Isaac Swartwood, from N. J. The first church (Bap.) was formed by Rev. Ebenezer Jayne, the first settled preacher.<sup>2</sup>

VETERAN—was formed from Catharines, April 16, 1823. It lies on the N. line of the co., w. of the center. The surface is principally a hilly upland. Catharine Creek flows N. along the w. border, affording an abundance of waterpower. The other streams are Newtown and Beardsley Creeks. The soil is a clay and gravelly loam of good quality. Millport (p. v.) contains 2 churches, flouring and saw mills, and various manufacturing establishments. Pop. 706. Sullivanville, (p. v.,) in the s. part of the town, contains a church and 155 inhabitants. Veteran and Pine Valley are p. offices. The first settlements were made at about the commencement of the century,—in the N. part of the town by immigrants from Conn., and in the s. part by immigrants from Penn. The first church (M. E.) was formed in 1817.

<sup>\*</sup> Formed since 1855.

<sup>1</sup> James Van Etten, John and David Hill, Isaac and Levi Decker, Sam'l. Jumes, Daniel, and Joshua Westbrock, John Lattimore, — Johnson, and — Crammer, all from Delaware River, settled on the Cayuta Flats, at and near Van Ettenville, from 1795 to 1800. Harmon White, (from Litchfield, Conn.,) David Jayne and Gabriel Ogden, (from N. J.,) settled, in 1802, on a branch of Cayuta Creek. Most of these persons served as soldiers during the Revolution. James Van Etten and Isaac Decker were wonnded by musket balls, which they carried to their graves. Flanders & Skants kept the first store, at Van Ettenville; Isaac Swartwood erected the first gristmill, in 1803; Jacob Swartwood opened the first inn, in 1801. His old sign (still hanging) reads as follows:—

<sup>&</sup>quot;You jolly topers, as you pass by, Call in and drink: for I know you are dry! And if you have but half a crown, You are welcome to my jng, sit down! Entertainment

by J. Swartwood."

<sup>&</sup>lt;sup>2</sup> The census reports 3 churches; Bap., F. W. Bap., and M. E. <sup>3</sup> In the summer of 1857 a sudden and destructive flood centred upon this stream, which swept away every dam upon it, and every lock on the canal from Horseheads to Seneca Lake. The whole valley was flooded; and at Millport and other places the needle were obliged to flee for their lives.

the people were obliged to flee for their lives.

4 Among the early settlers were E. Mallary and son, Eli and David Banks, and families named Mecker, Baldwin, and Parsons, from Conn.; Theodore Valleau, D. Shaffer, N. Botsford, and B. Lockesby, from Penn. Daniel Parsons kept the first inn, on the middle road, and E. Craudell the first store, at Millport. The first sawmill was erected by G. Bennett, on Catharine Creek, below Millport.

<sup>&</sup>lt;sup>5</sup> The census reports 3 churches; 2 M. E. and Presb.

## CHENANGO COUNTY.

This county was formed from Herkimer and Tioga, March 15, 1798. Sangerfield (Oneida co.) was taken off in 1804, and Madison co. in 1806. It is an interior co., lying s. e. of the center of the State: is centrally distant 94 mi. from Albany, and contains 898 sq. mi. Its surface is a hilly upland, broken by the deep ravines of the streams. The highlands consist of two principal ridges, extending n. and s.,—the first lying between Unadilla and Chenaugo Rivers, and the second between the Chenango and Otselic. These ridges are subdivided by numerous parallel and lateral valleys, and their declivities are often too steep for profitable cultivation. The summits are broad and rolling, and of nearly uniform elevation throughout the co.; and the highest points are 600 to 800 feet above the principal valleys.

Susquehanna River flows s. w. through the s. e. corner, receiving from the n. the Unadilla, which forms the greater part of the e. boundary of the co. The principal branches of the Unadilla and Susquehanna are Beaver Creek, Shawler, Great, Kent, and Kelsey Brooks. Chenango liver flows in a generally southerly direction from the n. border of the co. to near the center, and thence s. w. to the s. w. corner. It receives from the e. Handsome Eddy, Padgets, and Pages Brooks, and from the w. Canasawacta, Fly-Meadow, Ludlow, and Genegantslet Creeks, and Pleasant, Fly, Cold, and Mill Brooks. Otselie River flows s. w through the n. w. corner, receiving from the e. Middletown Brook and Brackel Creek, and from the w. Manns, Buck, and Ashbel Brooks and Mud Creek. In basins among the hills, far above the valleys, are numerous small ponds. The valleys of the Susquehanna and Chenango are among the finest in the State. They consist generally of firtile and highly cultivated intervales of an average width of about 1 mi., usually bordered by steep and finely wooded hillsides. All the valleys of the co. seem to have been formed by the action of great enrrents of water, which have plewed deep furrows in the gently rolling region which probably once formed the general face of the country.

The lowest rocks in the co., appearing upon the n. border, belong to the Hamilton group. Successively above these toward the s. appear the Tully limestone, Genesee slate, the Fortage, Cheming, and Catskill groups. The sandstone of the Portage group furnishes a good material for building and flagging. Several quarries have been opened along the Chemango Valley between Greene and Oxford. A quarry of the same stone a little below Oxford furnishes grindstones and whetstones. The rock which crowns the summits of the s. hills is the red sandstone of the Cheming group. The soils are almost entirely derived from the disintegration of the rocks. In a few localities is found a very limited amount of drift. Upon the hills the soil is principally a shaly loam, and in the valleys a fine quality of productive alluvium.

The co, is almost exclusively agricultural. Dairying is the leading pursuit, and is gradually gaining upon all the other branches of agriculture. Stock and wool growing are carried on to some extent. Grain is produced, though not in sufficient quantities for the wants of the people. Hops are cultivated to some extent along the river valleys.

The co. scat is located at Norwich.\(^1\) The courthouse is a fine stone building, situated near the center of the village, fronting the public park.\(^2\) It is built in the Grecian style of architecture, with a colonnade in front, supported by Corinthian columns. The jail is a stone building, contignous to the courthouse. The clerk's office is a fireproof brick building, upon the courthouse lot. The poorhouse is situated upon a farm of 170 acres in Preston, 6 mi. w. of the courthouse. The average number of inmates is 90, supported at a weekly cost of 56 ets. each. The farm yields a revenue of \$800. The house is poor and dilapidated, and the accommodations for the inmates are extremely poor. A school is taught 6 months in the year.

<sup>&</sup>lt;sup>1</sup>The co, at first had halfshires, the courts being held alternately at Hamilton (now in Madison county) and Oxford From the organization of Madison co, in 1806, until 1809, the courts were held alternately at Oxford and North Norwich. Pact of March 6, 1807, the co, seat was located at Norwich. The new courthouse was built and first occupied in 1809. The first courthouse was a wooden building, erected at a cost of \$2.500. The present courthouse was built in 1857, at a cost of \$15,000,

under the direction of Wm. Randall, Wm. Knowlton, and Frestus Lathrop, commissioners. The present jail was creekel at 1820, at a cost of \$2,000. It is a two story building, contamus; 10 cells and a house for the jailer.

2 The first co. officers were Isaac Foot, First Judge; Joah Eure.

<sup>&</sup>lt;sup>2</sup> The first co. officers were Isaac Foot, First Judge; Joah Luand Joshua Leland, Judges; Oliver Norton and Flisha Payne Assistant Justices; Uri Tracy, Sheriff; Sidney S. Breese, Carik and John L. Mersereau, Narroyate.

The Chenango Canal extends along Chenango River through the co. It crosses the river below Earlyille, below Sherburne, and below Greene, upon wood aqueducts, supported by stone piers. The Albany & Susquehanna R. R., now in process of construction, extends along the Susquehanna through Bainbridge.

Five weekly newspapers are now published in the co.1

This eo, included 11 of the "Twenty Towns" or "Governor's Purchase," the "Gore" lying between them and the Military Tract, the Harper Patent of 16,000 acres, Vermont Sufferers' Tract of 40,960 acres,2 Livingston Tract of 16,000 acres, the French Tract of nearly the same extent, a portion of the Chenango Triangle Tract, and several smaller tracts. The territory included within the Twenty Townships was ceded to the State by the Judians, in a treaty held with Gov. George Chuton, at Fort Schuyler, Sept. 22, 1788.3 This tract is sometimes called "Clinton's Purchase," and sometimes "The Governor's Purchase."

The early settlers were principally from Vt., Conn., and the eastern part of the State. The settlers in the N. part of the co. came in by way of Rome, and those in the central and s. parts by way of Chenango and Susquehanna Rivers. Many of the early settlers almost perished from want of food, at times, during the first few years. A colony of French settled at Greene in 1792, but,

- 1 The Western Oracle, the first paper published in the co., was | commenced by A. Romeyn, previous to 1804, at Sher-burne Four Corners. It was discontinued in 1808 111
- The Olive Branch was started at Sherburne in May, 1806, by Phinney & Fairchild. In 1808 John F. Fairchild became sole proprietor. —— Miller, Lot Clark, and John B.

- sole proprietor. Miller, Lot Clark, and John B.
  Johnson were successively interested in its publication.
  In 1812 or '13 Johnson changed its name to
  The Volunter. In 1816 the press was purchased by John F.
  Hubbard, who commenced
  The Norwich Journal. In 1844 it passed into the hands of La
  Fayette Leal and J. H. Sinclair, who merged it with The
  Oxford Republican in 1847 and changed the name to
  The Chenango Union. Harvey Hubbard murchased
- The Chenango Union. Harvey Hubbard purchased Leal's interest Oct. 20, 1847, and Sinclair's interest Sept. Is a since set oct, 20, 1841, and the late is now published by Hubbard.

  The Chemingo Patriot was commenced at Oxford in 1807 by John
- B. Johnson, and its publication continued for 3 or 4 yrs.

  The President was published at Oxford in 1898 by Theophilus Faton.

The Republican Messenger was commenced at Sherburne in 1810 by Petit & Percival.

- The Oxford Gazette was started in 1814 by Channey Morgan, who published it some years, when it was sold to Geo. Hunt, and afterward to Hunt & Noyes. Mr. Mergan again became proprietor in 1826, and after a few years the paper was discontinued.
- The Republican Agriculturalist was commenced Dec. 10, 1818, by discontinued.
- The People's Adverte was commenced at Norwich in 1824 by H. P. W. Brainard. It passed into the hands of Wm. G. Hyer, and was discontinued in a short time
- The Cheningo E-publican was commenced at Oxford in 1826 by Benj, Cory. In 1828 it was purchased by Mack & Chap-man. March 3, 1831, Wm. E. Chapman and T. T. Flagler commenced a new series, and soon after changed its name to
- The Oxford Republican. In 1838 Mr. Chapman became sole propristor. It was successively published by J. Taylor Bradt, Benj, Welch, pr., R. A. Leal, C. E. Chamberlin, and La Fayette Leal. In 1847 it was merged with The Oxford Journal and published as The Chemango Union.
- The Anti-Musonov Filegraph was commenced at Norwich in Nov. 1829, by E. P. Pellet. In 1831 B. T. Cook became asso-ciated in its publication. Its name was subsequently changed to
- The Chenango Telegraph. In 1840, on the death of E. P. Pellet, it passed into the hands of his brother, Nelson Pellet, and upon his death, in 1851, it was conducted for the estate by k. Max Leal and F. B. Fisher. In Sept. 1855, it was purchased by Rice & Martin, by whom it is

now published.

The Chemium Patriot was commenced at Greene in 1830 by
Nathan Randall. It afterward passed into the hands

- of Joseph M. Farr, who changed its name to

  The Chewango Democrat, and in a short time it was discontinued.

  The New Ferlin Herald was commenced in 1831 by Samuel L. Hatch. In 1834 it was published by Randell & Hatch. It soon after passed into the hands of Israe C. Sheldon; and afterward into the hands of Hiram Ostrander, who
- changed its name to
  The New Berlin Sentingl.—It was discontinued about 1840, The Chenango Whoy was published at Oxford a short time in 1835
- The Miniature, a small mo., was issued from the same office rharne ———— was commenced in 1836 by J. Worden Marble. In 1839 it was removed to Einghampton. The Sherlacene

The Oxford Times was commenced in 1836 by a joint stock company. It was for some time conducted by H, II. Cook. In 1841 it passed into the hands of E. II. Purdy and C. D. Brigham. In 1844 it was published by Waldo M. Potter: in 1845, by Potter & Galpin: and in 1848 J. B. Galpin became sole proprietor, and still continues its published. times its publication.

The Bainbridge Engle was commenced in 1843 by J. Hunt, jr.
In 1846 its name was changed to

The Brinbridge Freeman; and in 1849 it was merged in The Chenango Free Democrat, commenced at Norwich Jan. 1, 1849, by Alfred G. Lawyer; and J. D. Lawyer soon after became associated in its publication. It was then early removed to Cobleskill, Scholaric co. The New Berlin Gazette was commenced in 1849 by Jos. K. Fox

and M. E. Dunham, and was published about I year.

The Chenunga News was commenced in 1850 by A. T. Beynton,
J. M. Haight soon after became associated in its publication, and subsequently became sole proprietor. He removed the press to Norwich, and, in connection with A. P. Nixon, commenced the publication of

The Temperance Advocate in 1855, and published it I year, when it was discontinued.

The Saturday Visitor was commenced in 1852 by Joseph K. Fox.

The Sucial Vision was soon after changed to

The Social Visitor, after which it was published about 5 years.

The Spirit of the type was commenced at Berlin in 1852 by J. K.

Fox, J. D. Lawyer, editor. It was continued but a short time

The Oxford Transcript was commenced in 1853 by G. N. Carhart, and was published about 6 months.

The Sherburne Transcript was communeed in 1855 by James M.

Scarritt, and was published about 2 years.

The Chenango American was commenced at Greene, Sept. 20, 1855, by Denison & Fisher, its present publishers. The Daily Reporter was commenced at Norwich in 1857 by G. H.

Smith. In 1858 it was purchased by Rice & Martin, and was soon after discontinued.

The Literary Independent was commenced at Norwich in the

The Literary Independent was commenced at Norwich in the fall of 1856 by E. P. Pellet, G. H. & J. E. Spry. It was published about 4 months.

The New Berlin Ploncer was commenced Feb. 19, 1850, by Squares & Fox, its present publishers.

2 This tract was granted to relieve those persons who had purchased lands of the State of New York within the present limits of Vermont. These lands were claimed by both New Hampshire and New York, and, after an anary and protracted controversy extending through several years. New York surcontroversy, extending through several years. New York sur-rendered her claim to Vermont.

8 These towns were designated originally by their numbers

only, and are now in the countres of Madison, Chenango, and Oneida, as follows:

from defect in title, most of them left. The greater part of the later immigration was also from New England. In consequence of the gradual change which has been going on for the last 20 years in the business of the co., and the substitution of dairying for all other branches of farming, the population of the eo. has gradually decreased, and is now no greater than it was 40 years ago.

**AFTON**—was formed from Bainbridge, Nov. 18, 1857. It is the s. E. corner town of the co. Its surface consists principally of a rolling upland, separated into two nearly equal parts by the broad valley of the Susquehanna. The summits of the hills are 300 to 500 feet above the valleys, and their declivities are generally gradual slopes. The Susquehanna flows s. w. through near the center, in a broad and beautiful valley. It receives from the N. Kelseys and Harpers Brooks. Round Pond, one mi. N. E. of the village, covers an area of about 40 acres. It is 25 feet above the surface of the river, and without any visible outlet. The soil upon the hills is a shaly loam, and in the valleys a clayey loam and alluvium. Afton, (p. v.,) upon the Susquehanna, near the center of the town, contains 4 churches and 270 inhabitants. Ayreshire, (p.o.,) upon Kelsey Brook, in the N. part, is a hamlet. The first settlement was made upon the Susquehanna, below Afton, in 1786, by immigrants from Conn. and Vt. There are 5 churches in town.

**BAINBRIDGE**—was formed as part of Tioga co., by the name of "Jericho," Feb. 16, 1791. Its name was changed April 15, 1814. Parts of Norwich and Oxford were taken off in 1793, of Greene in 1798 and '99, and Afton in 1857. It lies upon the E. border of the co., s. of the center. Its surface is a rolling upland, divided into two parts by the Susquehanna, which flows s. w. through The valley of the river is about one mi. wide, and is bordered by moderately steep hillsides. The highest summits are 400 to 600 feet above the valleys. The soil upon the hills is a gravelly and shaly loam, and in the valleys a clay loam and alluvium. Bainbridge, (p.v..) upon the Susquehanna, was incorp. April 21, 1829. It contains 3 churches and 350 inhabitants. **Bennettsville**, (p. v.,) upon Bennetts Creek, in the s. E. part, contains 2 churches, a gristmill, sawmill, and about 20 houses. West Bainbridge is a p. o. in the n. w. corner, and East Bainbridge is a hamlet in the N. E. corner. The lands in this town were first claimed by Robert Harper under a grant from the Indians; but the title was repudiated by the State, and a portion of the lands was granted to settlers from Vt. who had suffered from failure of title to lands in that State granted to them by N. Y. The first settlements were made in 1785, by immigrants from Vt. and Conn.<sup>3</sup> The first church (Presb.) was formed about 1790, by Rev. William Stone.<sup>4</sup>

COLUMBUS—was formed from Brookfield, (Madison eo.,) Feb. 11, 1805. A part of Norwich was annexed in 1807. It is the N. E. corner town in the co., and occupies a portion of the high ridge between Unadilla and Chenango Rivers. The highest summits are 400 to 600 feet above the valleys. Unadilla River forms its E. boundary, receiving as tributaries Beaver Creek, Shawler Brook, and several other small streams. The soil is a gravelly and shall loam.<sup>5</sup> Columbus Center, (Columbus p. o.,) upon a branch of Shawler Brook, contains 3 churches, a tarnery, and 25 houses. The first settlement was made upon Lot 44, in 1791, by Col. Converse.<sup>6</sup> The first religious meeting was the funeral of Mrs. Dorcas Howard, conducted by Elder Campbeh, (Bap.,) in 1797.<sup>7</sup>

COVENTRY—was formed from Greene, Feb. 7, 1806. Parts of Oxford and Greene were annexed in 1843. It is situated centrally on the s. line of the co. The highest elevations, midway between the Susquehanna and Chenango Rivers, are about 800 feet above the valleys. The hills are arable to their summits, and their slopes are generally long and gradual. Harpers and Kelseys Creeks, flowing into the Susquehanna, are the principal streams. The soil is a gravelly and shalv

<sup>1</sup> Among the early settlers were Seth Stone, Nath'l Benton, | Isaac Miner, and Japhet Bush and sons, from Conn., and Hezeissae of the content and some formand and some and Elemezer Church and some form Vt. The three last named families were "Vermont Sufferers." The first child born was Win. Bush. in 1786; and the first death was that of - Polly. Nath'l Church taught the first school, in 1790; Asa Stowell kept the first inn, in 1788, Peter Betts the first store, in 1805; and David Cooper and Isaac Miner built the first sawmill, on Kelseys Brook.

<sup>&</sup>lt;sup>2</sup> Two M. E., Coug., Bap., and Univ. <sup>3</sup> Among the early settlers were Wm. Gutheric, Abraham Fuller, Reuben Kirby, and Gould Bacon, from Conn.; Stephen and John Stiles, Hoath Kelsey, Chas. Bush, Elem and Jos. Landers, and Jas. Graham. Sam'l Bixby settled on Lot 75, m 1788, and Maj. JAS. Gransin. Saint Dixty secured on nor 15, in 1725 and that of K. Landers, daughter of Jos. Landers, in March, 1791; the first marriage, that of Charles Bush and Joan Harrington, in 1794; and the first doubt that of Mrs. Rophan Kirbay in 1792; Will. and the first death, that of Mrs. Renben Kirbey, in 1792 man Gutheric kept the first inn, in 1793, on Lot 85. Phineas

and Reuben Bennett erected a gristmill on Bennetts Creek, in

<sup>4</sup> There are 7 churches in town; 2 M. E., 2 Bap., F. W. Bap., Presb., and Prot. E.

<sup>&</sup>lt;sup>5</sup> The people are almost solely engaged in dairying. years the population has been continually decreasing and the dairies increasing.

<sup>6</sup> Among the other early settlers were Henry, Daniel, and Jaw. Williams, from R. I., who located upon Lot 90, in 1792; This, Howard, from R. I., on Lot 89, Israel Greenleut, from N. H., on Lot 62, Gilbert Strong, on Lot 61, and Josiah Rathbons, on Lot 54, in 1794. The first child born was Sally Williams; the first marriage, that of Joseph Medbery and Hannah Brown, in 1791; and the first death, that of Mrs. Dorcas Howard, in 1797. Nicholas Page taught the first school; Col. Converse kept the first no., in 1793; Amos C. Palmer, the first store, in 1797; and Job Vad built the first sawmill, in 1794, and the first gristmill, in 1795.

7 The census reports 5 churches in town; Bap., F. W. Bap.,

Cong., M. E., and Univ

loam, with occasional spots of a red, slaty loam. **Coventry**, (p, v.,) n. w. of the center, contains 2 churches, a pocket-book factory, and 40 dwellings; and **Coventryville**, (p, v.,) 2 mi. e. of Coventry, a church, mill, and 25 dwellings. **Church Hollow** is a p. o. on the s. linc. The first settlement was made near the center, by Simon Jones, in 1785. In the e. part is a spoke factory. The first church (Cong.) was formed Nov. 19, 1807. Rev. David Harrower was the first preacher.

GERMAN<sup>3</sup>—was formed from De Ruyter, (Madison eo.,) March 21, 1806. Otselic was taken off in 1817, Lincklaen in 1823, and a part of Pitcher in 1827. It is located centrally upon the w. line of the co. The surface is hilly, and watered by several brooks, forming what is called Five Streams, which flow through the town in a s. direction. The soil is a sandy and gravelly loam, well adapted to grazing. Livermores Corners, (German p. o.,) near the w. line, is a hamlet; and East German is a p. o. The first settlement was made in 1795, by Benjamin Cleveland, from Oneida co.<sup>4</sup> The first church (Presb.) was formed at an early period, and a M. E. association was formed in 1815, at the house of Walter Oyshlenbank.<sup>5</sup>

GREENE<sup>6</sup>—was formed from Union (Broome co.) and "Jericho." (now Bainbridge,) March 15, 1798. A part of "Jericho" was annexed in 1799. Coventry was taken off in 1806, and Smithville in 1808. A part of Barker (Broome co.) was taken off in 1840, and a part of Coventry in 1843. It is the s. w. corner town of the co. Its surface is a rolling and hilly upland. The hills rise 500 to 700 feet above the river, and are broken by the ravines of the streams. Chenango River flows s. w. through the center of the town, in a broad valley about I mile in width. The Chenango Canal passes through the valley. Genegantslet Creek flows s. through the w. part in a wide valley, and joins the Chenango a few miles below the village of Greene. Pages Brook flows through the s. e. corner; and several small streams are tributary to the Chenango. The soil is a gravelly and shaly loam on the hills, and alluvium in the valleys. Greene, (p. v.,) near the center, was incorp. April 12, 1842. It contains 4 churches, a flouring mill, furnace, and 814 inhabitants. East Greene (p. v.) contains a church and 158 inhabitants. Genegantslet (p. v.) contains I church and 12 houses. Chenango Forks (p. v.) is partly in this town. S. Ketchum settled in 1792. The first church (Bap.) was organized in 1795, by Elder Nath. Kellogg.

carora Indians in 1785. These lands were subsequently sold by the State to individual patenties.

7 Mr. Ketchum located within the bounds of the present vil-

lage of Greene. In the fall of 1792 a settlement was made by a company of French refugees. One of their number, Chas. Felix The Bulogne, had preceded the main body, and made a purchase of 15 000 acres lying on the E side of Chenango River. The first of 15,000 acres lying on the E side of Chenango River. The first party that came consisted of M. Bulegne, M. Shamont, M. Le party that came consisted of M. Bulogne, M. Shamont, M. Le Fevre, M. Bravo, M. Du Vernet, and M. Obre. A portion of them had families; and several young kelies were among the party. In Otsego co. Simon Barnet joined the party, and subsequently M. Dutremont, with his family, settled with them. Before the dispersion of the colony they were joined by Jos. Juliand, who was the only French emicrant that became a permanent resident. M. Bulogne, on his way to Philadelphia in the spring of 1795, was drowned while fording a creek much swollen by the floods. The untimely death of the leader of this adventurous band proved that to the future success of the settlement. The failure of the company to pay the balance of the purchase money due on the tract caused the title to revert to the original patentees. After all the hardships and privations they had endured, the fulure to secure a title to their land proved a signal for dispersion. The majority of them left in the year 1796. In 1794, Talleyrand, the celebrated French diplomatist, visited his fellow-countrymen in Greene. Among the early permanent settlers were Nath'l Kellogg, Zopher Betts, Benajah Loomis, Cornelins Hill, and Daniel Tremaine, who located at East Greene in 1793. The first road that was cut through the town was called The first road that was cut through the town was called "Releaded Read." It runs from the present village of Bainbridge to the mouth of Page Creek, on the Chemango.—a distance of about 25 mi. The first settlers upon this read within the then limits of the town, commencing at the w., were Nathan Bennett, Joshua Root, Eleazur Skinner. Thomas Elliott, Joab Elliott, Reswell Filch, Aden Elliott, Philo Clemmons, Capt Mandeville, Simeon and Benj. Jones, Hardin Bennett, Record Wilber, and Deacon Richards, who came in from 1792 to 95. The settlers who located in the 8. part, w. of the river, were Jas, and Herman who occured in the s. part, w. of the Free, were obs. and Terman Ferwilliger. Elisha and Noah Gilbert. Stephen Palmer, and Jos. and Cornish Messenger, as early as 1796. The first birth was that of Johnston Rundall, son of Jos. Rundall,—for which honor the mother subsequently received a deed of 50 acres of land from the Hornby Estate. — Control extractly the target the first school, in 1794; Conrad Sharp kept the first inn, m 1791; Elisha Smith the first store in 1801. Conrad Sharp high the first searoull is the first store, in ISOI Conrad Sharp built the first sawmill, in 1795, and Abraham Storm and Henry Vorse the first gristmill,

<sup>8</sup> The census reports 9 churches; 5 Bap., 2 M. E., Presb., and Prot. E.

<sup>1</sup> Wm, Goodell and Andw, Clark settled near Mr, Jones in 1786, and Benj, Jones at the same place in 1788. Oznas Yale and C.N. M. Stork I cated a little N, of Coventry in 1799, Elisla Warren on Lot 2, in 1894, and Moses Allis, and about 10 other families, soon after. The first but hwas that of Wm, son of Moses Allis, in 1794; the first marriage, that of Simeon Parker and Polly Spragne; and the first death, that of a son of Roger Egerton, in 1790. Sherman Page taught the first school; Benj, Jones kept the first inn, in 1788, and Jothkin Parker the first store, in 1799. The first gristmill was creeted by Capt Parker, in 1795, and the first carding and cloth dressing mill by Miles Dooliths, about the year 1845.

Host, and the year 1815.

2 The census reports 5 churches; 2 Cong., 2 M. E., and Bap.

3 Named from Gen. Obadiah German the original owner of
the township. It was first named "Braket Township."

the township. It was first named "Braket Teauship."

Abraham Livermore settled at Livermores Corners, in 1796, with his wife and children, Abraham, pr. Becka, Daniel, Polly, Abel, Cyrus, Hepsey, Sally, and Martiu Livermore. From their isolated position in the wilderness—remote from any settlement.

—the Cleveland and Livermore families suffered great privations and hardships during the first years of their settlement. In June, 1796, Mr. Cleveland set out for "Fort Stannia" for provisions, his family being entirely destitute. He intended to return in 30 r. 4 days, but was detained for some time. On the fourth day of his absence, his wife and children, who had eaten nothing for 3 days except a few roots found in the words, set out for their nearest neighbors, in Cincinnatus, on Otselic River, 4½ mi, distant. When about a mile from home, they encountered a bear, and were frightened back. The next morning the mother was too weak to walk, and the two older children again set out for Mr. Raymond's, on the Otselic. Upon learning the suffering condition of the family, Mrs. Raymond made them a pudding of brain,—the only food she had in the house. This and a bottle of milk kept the family from starvation until rehef came. At another time, when the family were reduced to the last extermity, two unmilked cows came from with milk for several days. It was never known where the cows came from or where they went to. Other families in the vicinity suffered in a similar manner. The first birth was that of Polly Cheveland, in 1796; the first marriage, that of Jonathan Head and Hepsey Livermore; and the first death, that of —— Hartsborn. Abraham Livermore kept the first inn: Jonathan Chandler kept the first store, and creeted the first mill and factory, on the z. branch of Otselic River.

<sup>5</sup> The census reports 3 churches; Presb., M. E., and F. W. Bap. 6 Named in honor of Gen. Nath'l Greene. That part of the original township of Greene lying 2. of Chenango River was included in a purchase made by the State from the Oneida and Tus-

30 years.

GUILFORD—was formed from Oxford, April 3, 1813, as "Eastern." Its name was changed March 21, 1817. It lies on the E. border of the co., s. of the center. The surface is hilly and broken, consisting of the elevated lands between Chenango and Unadilla Rivers, the hills rising 200 to 700 feet above the valleys. It is drained by the Unadilla, which forms the entire E. boundary, Guilford Pond Creek, and several other smaller streams. The soil is a gravelly and slaty loam, occasionally intermixed with clay. Guilford, (p.v.,) located in the valley of Guilford Pond Creek, contains 3 churches, an iron foundery and machine shop, and several mills; pop. 263. Guilford Center (p. v.) contains 2 churches and 20 dwellings. East Guilford, (p. v.,) in the s.E. corner of the town, contains a church, a mill, and 15 dwellings. Mount Upton, (p. v..) upon the w. bank of the Unadilla, contains 4 churches, several mills, and other manufacturing establishments; pop. 190. Rockdale, (p.v.,) on the river, 4 miles below Mount Upton, contains 2 churches, a grist and saw mill, and 25 dwellings. The first settlement was made in 1787, by Ezekiel Wheeler, a little N. of Mount Upton, on the farm now occupied by his grandson, Silas Wheeler, 2d.2 The first church (Bap.) was formed by Elder Orange Spencer, in 1803.3

LINCKLAEN4—was formed from German, April 12, 1823. Parts of Pitcher were taken off in 1827 and '33. It is the n. w. corner town of the co. Its surface is a hilly, broken upland, divided into ridges by narrow ravines extending N. and s. The declivities of the hills are usually steep, and the summits are 400 to 600 feet above the valleys. Mud Creek, a branch of the Otselic, flows s. through the w. part of the town. Ashbel Brook and several other small streams take their rise in the s. and E. parts. The soil is a shaly and clayey loam. Liucklaen, (p.v.,) on Mud Creek, contains a church and 15 dwellings. Burdick Settlement, in the N. part, contains a church and 12 dwellings. North Lincklaen is a p.o. in the N.E. part. The first settlements were made about 1796. The first religious services were held by Rev. Seth Williston, in 1798. The census reports 4 churches in town.<sup>5</sup>

MACDONOUGH6—was formed from Preston, April 17, 1816. It is an interior town, lying w. of the center of the co. The surface is hilly, and in some places broken by deep ravines and charp ridges extending n. and s. It is drained s. by Bowmans and Genegantslet Creeks and several other streams. Genegantslet Lake lies near the w. border. The soil is a clay loam, better adapted to grazing than tillage. **Macdonough**, (p. v., ) on Genegantslet Creek, contains 2 churches, several mills, and 168 inhabitants. East Macdonough (p. v.) contains I church and 14 dwellings. The first settlements were made in 1795, by Nathaniel Locke, Loring and Emery Willard, Henry Ludlow, and others. The first religious association (M. E.) was formed in 1798. The first church edifice (F. W. Bap.) was erected in 1831; Elder Steer was the first pastor.8

NEW BERLIN-was formed from Norwich, April 3, 1807, changed to "Lancaster" May 1821, and original name restored March 22, 1822. A part of Sherburne was taken off in 1852. It lies upon the E. border of the co., N. of the center. Its surface is a rolling and hilly upland, the ridges extending N. and S. Unadilla River forms its E. boundary; and Great Brook flows S

the mouth of Guilford Creek, and erected the first mill in town, in 1789. James Phelps and — Button settled near Rockdate in 1790; Robert McLeod, on Let 1, and Isaac kuller, from Gudford, Coun., in 1791; Dan'l Savage, John Nash, and Nelson Robbins, from Ballston Spa, in 1792, at and near the old Four Corresponding to the contract of ners; John Secor, from Haverstraw, on Lot 2; Gurdon and the first gristmill.

<sup>&</sup>lt;sup>6</sup> Named in honor of Commodore Macdonough.
<sup>7</sup> Edward Collurn, Beuj, Ketchum, Beuj, Kenyon, Ephrain Fish, John Anderson, Nehemiah Dunbar, Jonah and Sylvanus Moure, Joseph and Ransom Cook, Win, Mead, Wm. Norton, Danl, Wainwright, Adam Oyshterbank, and M. Turner settled in town from 1795 to 1808. The first marriage was that of Sylvanus Moore and wife; and the first death, that of Mrs. Benj. Ketclum, The first school was taught by Capt, Joshua A. Burke. Sylvanus Moore kept the first lun, in 1799, and Henry Ladllow the first store, in 1802. Cates Wilcox erected the first budlow the first store, in 1802. Gates Wilcox erected the first gristmill, in 1818; John Nevins, the first paper mill, in 1828, at Macdonough Village. Henry Ladlow built the first sawmill, on the outlet of Ludlow Pond, in 1798. 8 The census reports 4 churches; Bap., M. E., Presb., and

through near the center. Mathewson Pond is near the w. border. The soil is a shaly loam, oceasionally intermixed with clay. New Berlin, (p. v., ) upon the Unadilla, in the N.E. part of the town, was incorp. April 17, 1816. It contains 4 churches, the New Berlin Academy, a newspaper office, paper mill, cotton factory, tannery, and several minor manufactories. Pop. 740. South New Berlin, (p. v.,) upon the Unadilla, in the s. E. part, on the line of Otsego co., contains 2 churches, a large tannery, and 285 inhabitants. Holmesville, in the extreme s.e. corner, contains a tannery and about 20 houses. New Berlin Center is a p.o. Ambler Settlement is a hamlet in the s. part. Daniel Scribner settled upon the Unadilla in I790.1 The census reports 8 churches.<sup>2</sup> Hon. Henry Bennett, who has been elected to Congress five successive terms from this district, resides in New Berlin Village.

NORTH NORWICH—was formed from Norwich, April 7, 1849. It is an interior town, lying N. E. of the center of the co. Its surface consists of the valley of Chenango River and the high rolling uplands which rise upon either side. The summits of the hills are 200 to 600 feet above the valley. It is drained by Chenango River, Cold and Fly Brooks, and several other small streams. The soil is a gravelly and slaty loam, in some places mixed with clay. North Norwich, (p.v.,) upon the Chenango, contains 3 churches, several mills, and about 150 inhabitants. It is an important village upon the Chenango Canal. Kings Settlement is a p.o. in the E. part; and Plasterville, a hamlet in the s.w. Jos. Lothrop and A. Mead located on Lot 1, in 1794.3 The first church (Bap.) was formed in 1796; Elder Eleany Holmes was the first preacher.4

NORWICH—was formed from Union (Broome eo.) and "Jericho," (now Bainbridge,) Jan. 19, 1793. Pharsalia, Plymonth, and Preston were taken off in 1806, New Berlin, and a part of Columbus, in 1807, and North Norwich in 1849. A part of Preston was annexed in 1808, and a part taken off in 1820. It is the central town upon the E. border of the co. Its surface consists of two high, rolling ridges, separated by the valley of the Chenango. The highest summits are about 500 ft. above the valleys. Chenango River flows:s, through the w. part. It receives the Canasawaeta and several other streams as tributaries. Unadilla River forms the E. boundary. The soil upon the uplands is a shaly and gravelly loam, and in the valleys a gravelly loam and alluvium. Norwich, (p.v.,) upon Chenango River, in the N. part, was incorp. April 16, 1816. It contains the co. buildings, 5 churches, the Norwich Academy, 2 banks, 2 newspaper offices, a piano forte factory, 3 carriage factories, 2 tanneries, 2 blast furnaces, a hammer factory, planing mill, foundery, machine shop, 2 sash and door factories, and plaster mill. Pop. 2,430. White Store, (p. o.,) on the Unadilla, contains a church, gristmill, and 10 houses. The first settlement was made in 1788, by Avery Power.<sup>5</sup> The first religious services were held by Rev. Manasseh French, in 1793 or '94.<sup>6</sup>

OTSELIC'-was formed from German, March 28, 1817. It lies on the N. border of the co., w. of the center. Its surface is hilly, consisting of high ridges 500 to 800 ft. above the valley of Otselie Creek, which are broken by the ravines of the streams. Otselic Creek is the principal stream, and flows s.w. through the center of the town. Several small streams are tributaries of the Otselie. The soil on the hills is a shaly loam, and in the valleys alluvium. **Otselie**, (p. v.,) in the N. part, contains 100 inhabitants; South Otselic, (p.v.,) in the s. w. corner, I church and 225 inhabitants. Settlement was commenced about 1800, by Ebenezer Hill.<sup>8</sup> The first preacher was Stephen C. Nicholas. There are 4 churches in town; 2 Bap., F. W. Bap., and Christian.

**OXFORD**—was formed from Union (Broome eo.) and "Jericho," (now Bainbridge,) Jan. 19,

Jeremiah and Abner Purdy, and Benj. Ferris, from Dutchess co., in 1795; and Jesse Rundell, Jacob Grow, Gen. Obadiah German, Ebenezer Hartwell, and James Purdy, in 1796,—all of whom settled at the village and along the valley of the Chemingo. The first child born was Amos Mead, jr., Sept. 12, 1794; the first marriage, that of Ebenezer Hartwell and Rachel Mead, in 1795; and the first death, that of Mrs. Abner Purdy, in 1796. Thomas Brooks taught the first school; Amos Mead kept the first inn. and Gen. Obadiah German the first store. Benj. Hart-

well built the first gristmill, in 1803.

4 The census reports 4 churches; 2 M. E., Bap., and Univ.

5 Among the other early settlers were David Fairchild, Silas

<sup>1</sup> Among the other early settlers were Nath'l and Joseph Medbery, who located upon Great Brook; Thos. Sarle, who located
on the Unadulla; Samuel Anderson, Silas Burlingame, Jeremy
on the Unadulla; Samuel Anderson, Silas Burlingame, Jeremy
and sons Hascall and Wm., jr., John Harris, Manasseh French,
Goodrich, Levi Blakeslee, Chas. Knapp, and Joseph Moss, who

Jeremiah and Abner Purdy, and Benj. Ferris, from Dutchess co.,
1795; and Jesse Rundel, Jacob Grow, Gen. Obadiah German,
1795; and Jesse Rundel, Jacob Grow, Gen. Obadiah German

Union, and R. C.

<sup>7</sup> An Indian name, signifying Plum Creek. Annuan nance, signifying From Creek.

8 Among the early settlers were Reuben Buckingham, David Steadman, Wm. Fish, Jonah Wolcott, Wm. Cross, Wm. Hurlbut, and Wm. Smith, in the x. part: Elias Benjamin, Buell Warner and his sons Oliver, Abner, and Buell, jr., Benoni Parce, Lewis Cook, Æncas Thompson, John and James Warner, Abraham Fairchild, and Wm. Greene, in the s. part. Hannah Warner taught the first school. Ebenezer Hill kept the first inn, in 1810, and bnilt the first grientill, in 1820, G. K. Cooley kept the first store, in 1812. Jas. Rust built the first sawmill.

229

1793. Gnilford was taken off in 1813, and a part of Coventry in 1843. It is an interior town, lying a little s. of the center of the co. Its surface is divided into two parts by the valley of the Chenango. The hills bordering upon the river are 500 to 800 ft, above the valleys. Chenango River flows s. w. through the w. part in a valley averaging about 1 mi. in width. It receives Eddy and Padget Brooks from the E., and Fly-Meadow, Mill, and Ludlow Brooks from the w. The soil is a shaly loam upon the hills, and a gravelly loam and alluvium in the valleys. Oxford, (p. v.,) upon the Chenaugo, in the N. part of the town, incorporated April 6, 1806, contains 6 churches, the Oxford Academy, a hoe factory, sash and blind factory, earriage shop, grist and saw mill, and plaster mill. Pop. 1,218. South Oxford is a p. o. in the s. w. corner; and Cheshireville a p. o. near the s. line. The first settlements were made in 1790, by Benjamin Hovey.2 The first preacher was Rev. Uri Tracy, (Presb.,) in 1792.3

PHARSALIA—was formed from Norwich, as "Stonington," April 7, 1806. Its name was changed April 6, 1808. It is an interior town, lying N. w. of the center of the co. Its surface is a rolling and hilly upland, occupying a portion of the watershed between Chenango and Otselic Rivers. The latter flows through the extreme N. W. corner. Canasawacta, Genegantslet, and Brackel Creeks take their rise near the center. The soil is a shaly loam. Pharsalia, (p. v.,) in the w. part, contains 12 houses; East Pharsalia, (p. v., ) in the s., 2 churches, 2 gristmills, a sawmill, and 15 houses. North Pharsalia is a p. o. The first settlement was commenced in 1797, by John Randall, on Lot 48.4 John Peck was the first settled minister. There are three chnrehes in town; Bap., F. W. Bap., and Presb.

PITCHER5—was formed from German and Lineklaen, Feb. 13, 1827. A part of Lineklaen was annexed in 1833. It lies upon the w. border of the co., n. of the center. Its surface consists principally of two high ridges 500 to 800 ft. above the valleys. Otselie River flows s. E. through the center. Brackel Creek flows s. w. through the s. part. The ravines of the streams are narrow and are bordered by steep hillsides. The soil is a shaly and gravelly loam. Pitcher, (p. v.,) upon the Otselic, s. w. of the center, contains 3 churches, a woolen factory, and 25 dwellings. North Pitcher, (p. v.,) upon the Otselic, N. E. of the center, contains 2 churches, 2 sawmills, a hame factory, fork factory, and about 20 dwellings. Pitcher Springs (p. o.) is a hamlet E. of the center. 6 South Pitcher is a p. o. John Wilson and — Schuyler settled in 1794 or '95.7 The first religious services were held by Rev. Seth Williston, in 1797.8

PLYMOUTH-was formed from Norwich, April 7, 1806. It is an interior town, lying N. of the center of the co. Its surface is a hilly upland, broken by deep ravines. Canasawacta Creck, and its E. and w. branches, flow s.E. through deep and narrow valleys and form a junction near the center of the town. Southwest of the center are 2 small ponds, covering an area of 100 to 150 acres each. The soil is a gravelly and clayer loam. Plymouth, 9 (p.v..) N. of the center, contains 3 churches and 150 inhabitants; South Plymouth, (p.o.,) in the s.E., a gristmill and 10 houses. The first settlement was commenced about 1794, by some French families. 10 The first church (M.E.) was organized about 1806; and the Rev. ---- White was the first preacher."

PRESTON—was formed from Norwich, April 2, 1806. Macdonough was taken off in 1816. A part of Norwich was taken off in 1808, and a part of the same town was annexed in 1820.

1 This institution for many years here the highest reputation of any academy w. of the Hudson. Many distinguished citizens of the central portions of the State received their academic education at this place.

8 The census reports 6 churches in town; 2 Cong., 2 M. E.,

Bap., and Union Formerly called "Frankville."

Browers, Elizabeth Bowlish died about the same time. Cattisea Brooks taught the first school, in 1800 or '01; Charles Baleca & kept the first inn, and John Rayno the first store. Col. Walker Prentiss lunt the first mill, and John Thorp the first worker factory, at an early day.

11 There are 4 churches in town; M. E., Bap., F. W. Bap., and

<sup>&</sup>lt;sup>2</sup> Among the other early settlers were Elijah Blackman, Eben Enos, John Bartle and 6 sons, Peter Burgot, John Church, Theodore Burr, Benj. Loomis, Samuel Farnham, Charles Hurst, John Holmes, John McNeil, Dan I Tucker, Francis Balcom, Win, and Henry Gordon, and Thos. McAlpine. The first child born was Ellis Loomis, in May, 1792; the first marriage was that of Peter Bartle and Tabitha Loomis, in May, 1795; the first death was that of a child of Peter Burgot, and the first death of an adult. that of Andrew Loomis, in 1893. Mrs. Philip Bartle taught the first school, in 1793. Philip Bartle built the first schoolhouse, individually, on "Pauther Hill," in 1793; John Bartle kept the and Peter Burgot built the first mill, on Mill Brock.

The census reports 7 churches in town; Bap., F. W. Bap.,

Among the other early settlers were Joseph Breed, on Lot 49,
 Sanford Morgan, on Lot 36, John Weaver, on Lot 28, Daniel Denison, on Lot 70. Lodowick Weaver, on Lot 32, Joshna Weaver and David Davis, on Lot 69,—all from Conn. The first birth was that of Denson R. Weaver; the first marriage, that of Jabesh Brown and Ketura Brown; and the first death, that of Mrs. Nehemiah Lewis. Aruna Wait taught the first school. The first tavern and store were kept by Sanford Morgan, on Lot 36; the first mill was huilt by Asa Weaver, on Lot 27, on Canasawacta Creek.

<sup>&</sup>lt;sup>5</sup> Named from Nathaniel Pitcher, Lientenant Governor of the

<sup>6</sup> Pitcher Springs, formerly quite a watering place, was named from the sulphur springs located there. It is now almost de-

<sup>&</sup>lt;sup>7</sup> Among the other early settlers were Ebenezer Wakely, Benj. Fairchild, Jonathan Chandler, George Taylor, Silas Beebe, Jonas Himman, Abijah Rhines, Simon Peet, - Millard, and Elijah The first child born was a son of Silas Beebe, in Nov. 1796; and the first marriage, that of John Wilson and Polly Himman, May 16, 1799. Ebenezer Wakely taught the first school; Benj. Fairchild kept the first inn, Reuben Root the first store, and John Lincklaen built the first mills.

It is the central town of the co. Its surface is a high, rolling upland, divided into two distinct ridges. The summits of the hills are 200 to 800 feet above the Chenango Valley at Norwich. The principal streams are Fly-Meadow Creek and Mill Brook, flowing s. into the Chenango. The soil is a gravelly and slaty loam,—in many places stony and hard to cultivate. It is generally well adapted to grazing. Preston Corners, (Preston p.o.,) in the N. part, contains 2 churches and 105 inhabitants. The first settlement was made on Fly-Meadow Creek, in 1787, by James Glover, who erected the first gristmill, in 1788-89. The first church (Bap.) was formed in 1806, by Elder Haskall, the first preacher.2

SHERBURNE-was formed from Paris, (Oneida co.,) March 5, 1795. Smyrna was taken off in I808, and a part of New Berlin was annexed in 1852. It lies on the N. border of the co., The highest summits are 200 to 500 feet above the valleys of the streams. Chenango River enters the co. from Madison and flows in a s. E. direction through the town, receiving Handsome and Mad Brooks and several other tributaries. The soil is chiefly a gravelly and slaty loam, but some portions of the valley lands are a sandy loam. The Chenango Canal passes through the valley parallel to the river. On the bottom lands of the river hops are extensively grown. **Sherburne**, (p. v., ) on the Chenango, s. of the center, was incorp. April 16, 1830. It contains 6 churches, the Sherburne Academy, and several manufactories. Pop. about 1200. Earlville, (p.v.,) on the line of Madison eo., contains 441 inhabitants, of whom 208 are in this town. Joseph Gutherie settled in the valley of the Chenango, near Sherburne Village, in 1792. Major Brooks, one of the "Shay's men," is supposed to have been there a year or two earlier.3 The first religious services were held by a number of families from New England, who purchased the s.w. quarter of the 9th township, (Sherburne,) and settled on it in March, 1793.4

SMETHEVILLE—was formed from Greene, April 1, 1808. It lies on the w. line of the co., s. of the center. The surface consists of high ranges of hills, with narrow valleys extending N. and s. It is drained s, by Genegantslet and Ludlow Creeks and their tributaries, and several other streams flowing into the Chenango. The soil is a gravelly and clay loam in the valleys, and a clay and slaty loam on the hills. Smithville Flats, (p.v.,) on Genegantslet Creek, in the s. w. corner, contains 4 churches, 3 sawmills, a gristmill, and 315 inhabitants. East Smithville, on Ludlow Creek, near the E. line, contains 2 churches and 18 dwellings. The first settlement was made in the valley of the Genegantslet, in 1797, by Robert Lytle, from Ireland.<sup>5</sup> The first church (Bap.) was formed in 1805, by Elder Gray, the first preacher.<sup>6</sup>

SMYRNA—was taken from Sherburne, March 25, 1808, as "Stafford." Its name was changed April 6 of the same year. It is the central town upon the N. border of the co. Its surface is a broken and hilly upland, the highest summits being 500 to 800 feet above the valleys. The principal stream is Pleasant Brook, flowing s.E. through near the center. Cold Brook and several other small streams flow through portions of the town. These streams mostly flow through narrow valleys bordered by hillsides, the largest portions of which are too steep for cultivation. The soil is a gravelly and shally loam. SINYPHA, (p. v.,) upon Pleasant Brook, near the E. line, was incorp. April 20, 1829. It contains 3 churches, a gristmill, 2 tanneries, and 320 inhabitants. The first settlement was made by Joseph Porter, in 1792.<sup>7</sup> The first religious society (Friends) was formed at an early period.8

lings, in 1795.

8 The census reports 5 churches in town; Bap., F. W. Bap., Cong., M. E., and Friends.

<sup>1</sup> David Fairchild and his sons John and Amos settled at Prest ruling Power while on a perilous and tedions journey through ton Corners in 1796; Randall Billings and Silas Champion, from the wilderness to their new homes. The census reports 2 Conn., at Preston Center, in 1790; Jonas Marsh, from Mass, Col., churches; 2 Bap., 2 M. E., F. W. Bap., Cong., Prot. E., Univ., Gindon, and Dudley Heyitt, in 1799. Among the other early set: Ginnon, and Dudney Rewart, in 1799. Among the other early set-tiers were Sam'l and Clark Lewis, Rev. Razard Burdick, Bavid Leeleston, Jonas Marsh, — Champlam, Wm. Packer, Abra-bam Avey, and Wm. Walsworth. The first child born was Famiy Billings, July 16, 1796; the first marriage, that of Capt. Lyon and Widow Grandall, in 1798; and the first death, that of an infant child of Geo. Crary. The first school was taught by Win. W. Abrim, who assessed by Livinsteader. initian child of Geo. Crary. The first school was taught by Wn. McAhane, who surveyed the Livingston Patent in 1798 and subsequently the Morris Tract. Jonas Marsh kept the first inn, in 1800; Jas. Glover kept the first store and ere cted the first mill. 2 The census reports 5 churches; Bap., F. W. Bap., Seventh Day Bap., Presb., and Univ.

<sup>&</sup>lt;sup>5</sup> A company from New England, consisting of Nath'l Gray, Joel Hatch, Abraham, James, and Newcomb Raymond, Joseph, John, and Eleazur Lothrop, Cornelius Clark, and Joel Northrop. with their families, settled in 1793. The deed of their purchase is dated in June of that year.

4 During the first week after their arrival they erected a log

meetinghouse, and on the succeeding Sabbath met in it, after the example of the Pilgrim Fathers, to make public and united acknowledgments for the protection and guidance of an over-

<sup>&</sup>lt;sup>5</sup> Jos. Agard and Eppaphes Sheldon, from Litchfield, Conn., <sup>6</sup> Jobs. Again and Epipapars suction, from normera counterfusions bought out the log heaves and improvement of Mr Lytle in Feb. 1798, moved in their families, and became the sole residents of the town. They were joined in 1798-99 by Edward Loomis, who settled on Ludlow Creek, Simeon Neal, Robt. Williams, Asa Straight. Ball Phillips, Capt. Samuel A. Skeel, John Young, and Labor Thoughts of their child born was Jane Laboris May <sup>6</sup> John Palmer. The first child bern was Jane Looning, and John Palmer. The first child bern was Jane Looning, May 2, 1800; the first marriage, that of Jason Smith and Hannah Rorapsugh, in 1807; and the first death, that of a son of fivergo Shaddock, in 1799. Capt. John Palmer kept the first inn ard store and creeted the first distillery. Timethy Scotille built the first during it is 1805 and Malley. first sawmill, in 1805, and Nicholas Powell the first gristmill, in 1509.

<sup>1</sup> Formed since 1855.

## CLINTON COUNTY.

This county was formed from Washington, March 7, 1788. Essex was taken off in 1799. St. Lawrence was provisionally annexed in 1801, and taken off in 1802; a portion of Oneida was annexed in 1801; and Franklin was taken off in 1808. It lies upon Lake Champlain, and is the N.E. corner co. of the State. It is centrally distant 143 mi. from Albany, and contains 1,092 sq. mi. The surface is generally hilly and broken, and in some parts mountainous. The Au Sable Range enters the s. w. corner from Essex co. and extends in spurs and broken ranges through more than one-half of the w. part of the co. The highest peaks, along the w. border, are 3,000 to 4,000 feet above tide. These mountains have the same general characteristics as those further s. They are wild and broken, and their declivities and summits are so

covered with ragged ledges of rocks that they can produce but a scanty crop of timber and are almost inaccessible. The uplands decline toward the N.; and along the N. line of the co. is a wide tract nearly level. Along the lake shore the surface is level or moderately uneven; and from this tract it rises gradually but unevenly to the summits of the ridges in the interior. A large share of the central and w. portions of the co. is covered by the original forests, and is too rough to ever admit of profitable cultivation. The mountainous region in the s.w., comprising about one-third of the co., is underlaid by gueiss, granite, and other primary rocks. A belt of Potsdam saudstone extends in a great curve around the primary region and occupies more than one-half of the remaining part of the co. On the N. it extends nearly to Canada, but toward the s. it gradually diminishes, and on the s. line it is but a few miles wide. Surrounding this, and lying next above it, is a narrow belt of calciferous sand rock, outcropping on the snrface, along the lake shore, between An Sable and Salmon Rivers. The limestones next appear, occupying the N. E. corner of the co. and outcropping along the lake from Salmon River to Rouses Point. Tertiary elay is found in a few places along the lake; and drift deposits are abundant in the N. and E. parts. Peat bogs are numerous in the N.E. part. The primitive region is exceedingly rich in minerals. Magnetic iron ore is found in inexhaustible quantities, and of a quality equal to the best in the world.<sup>2</sup>

Au Sable River forms most of the s. boundary. North of this are Little Sable, Salmon, Saranae, Little Chazy, and Great Chazy or Champlain Rivers, all flowing into Lake Champlain. English River flows s. into Canada. Upon all these streams are numerous falls, furnishing an immense amount of water-power. In the western wilderness are numerous small lakes, the principal of which are Chateaugay and Chazy Lakes, and Sampson, Taylor, and Slush Ponds. The soil along the lake is clayey, and in the interior and w. a sandy loam, best adapted to pasturage.

The people are principally engaged in stock raising, dairying, lumbering, mining, and in the manufacture of iron and starch. A large business is carried on in peltries, the wilderness still furnishing numerous valuable fur-bearing animals. Fish are abundant in the mountain streams and lakes, although the salmon, once so abundant, have now nearly disappeared. The Northern (Ogdensburgh) R. R. extends w. from Rouses Point, on Lake Champlain, through Champlain, Mooers, Altona, Ellenburgh, and Clinton. The Plattsburgh & Montreal R. R. extends N. through Plattsburgh, Beckmantown, Chazy, and Mooers.

The eo. seat is located at the village of Plattsburgh, on Lake Champlain. The courthouse is a

1 Named from Geo. Clinton, then Governor. When organized, it embraced all the land on both sides of Lake Champlain, as claimed by the State of New York. The claim E, of the lake was abandoned upon the recognition of Vermont as an independent State, in 1791.

2 Clinton and Essex are the two most important mining cos. in the State. The veins of iron, in extent and richness, surpass those of any other part of the world. Ore was first discovered in the "Winter" ore hed, in Au Sable, by Goo, Shaffer, in 1800, —although travelers had previously frequently noticed the immense quantities of iron sand upon the lake shore. The principal veins now opened are the Arnold, Rutgers, Finch, Winter, Indian, Cook, Battle, Mace, Jackson, and McIntyre Mines, in An Sable; the Palmer and Rutgers Mines, in Black Brook; and be Skinner and Avoid Mines, in Dannemora. Veins of greater or less richness are found in all the towns underlaid by the primary rocks.

primary rocks.

8 An Sable and Saranac Rivers flow through valuable lumber

districts, and upon them are numerous sawmills. Immense quantities of logs are annually floated down these streams and worked up at the mills below. Several important plank roads have been constructed in the wilderness for the special accommodation of the lumber and iron business.

4 The iron manufactured is principally in the form of blooms, 5 Hunting is pursued as a business to some extent; and during the summer large numbers of amateur bunters from the cities flock to the wilderness for recreation and amusement.

6 So abundant were sulmon that 30 years ugo 100 bbls, were annually taken in the co.; and from its importance to the early settlers this fish was taken as a device for the first co., seal.
7 The first court was held Oct. 28, 1758. A blockhouse creeted

7 The first court was held Oct. 28, 1788. A blockhouse exected at the time of the alarm occasioned by the defect of St. Clor by the Indians was used for the first jail. A courthouse and jail of wood was erected in 1802-03, and burned in 1814 by the invaling British army. A new one erected soon after was burned in 1836, and the present one was erected on its site. The first

substantial brick building, with a stone basement, fronting the public square and the river. The jail, a stone building in the rear of the courthouse, affords no accommodations for the classification of prisoners, and is destitute of means of ventilation. The clerk's office is a fireproof building on an adjacent lot. The poorhouse is located in Beekmantown, 4 mi. N. of Plattsburgh. It has an average of 65 inmates, supported at a weekly cost of \$1.00 each. The farm-90 acres-yields a revenue of \$800.1 Four weekly newspapers are published in the co.2

The first white man that ever visited this co. was Samuel Champlain, in 1609, under the auspices of the French. From that time until the final surrender of Canada in 1760, the French claimed and held this region of country, and the lands were mostly occupied by parties holding title under French grants.3

At the close of the war in 1760, settlement rapidly spread down the lake shore. By the terms of the treaty between England and France, the French settlers were to be secured in their rights; but the Government of New York made conflicting grants, which gave rise to controversies and quarrels and seriously retarded the progress of settlement. A few families were scattered along the shore previous to the Revolution; but the expedition of Burgovne in 1777 broke up every settlement in the co. An important naval engagement took place Sept. 11, 1776, in the strait between Valeour Island and the w. shore, between the British and American forces, without any decisive results. The conflict was renewed on the 13th, and the American vessels were nearly all run ashore on the Vt. side and burned.4

Settlements were made at all the principal places bordering upon the lake within 10 years after the close of the Revolution. Point Au Fer was occupied by the British until 1796, when, in common with several other posts along the N. frontier, it was surrendered to the Americans.<sup>5</sup> During the same year the St. Regis Indians ceded their claims to the State. The embargo of 1808 was openly violated, and many severe encounters took place between the revenue officers and organized bands of smugglers.<sup>6</sup> Several attempts were made by lawless bands to seize the collectors and revenue officers, but without success. During the last war with Great Britain this co. was the seat of important military transactions, and along its frontiers and upon the adjacent waters of the lake many skirmishes and engagements took place.7

co. officers were Chas. Platt, First Judge; Josiah Throop and | Chas. Hay, Judges: Robt. Cochron, Peter Sailly, Wm. McAuley, and Pliny Moore, Assistant Justices; Theodorus Platt, Surrogate;

Benj. Mooers, Sheriff; and Melancthen Lloyd Woolsey, Clerk.

1 The Senate Committee of 1857 report that "this house is very poor one, indifferently kept, and a disgrace to the co." The rooms were filthy and not at all ventilated; and the water supplied to the establishment is furnished from springs into which drains from the barnyard and privies empty. No school is taught; and the children are not admitted to the public schools. No school is The Supervisors have anthorized a loan of \$4,000 for rebuilding

1 The setablishment.

2 The American Monitor was established at Plattsburgh in 1807 by W. Nichols and Sam'l Lowell, and continued a short time

The Plattsburgh Republican was begun in July, 1811, by — Reynolds. In 1813 Azariah C. Flaggbecame publisher, and continued it until 1826. It was subsequently under the charge of H. C. Müller and Wm. Land. In Aug. 1833, it passed into the hands of Roby G. Stone, by whom it is still continued. The Northern Herald was begun April 10, 1813, by Frol. C. Powell. In 1815 it was changed to

The Plattsburgh Hrudd, and soon after it was discontinued.
The Northern Intelligencer was began at Plattsburgh in May,
1821, by Fred, R. Allen. In 1832 it was united with
The Aurora Borealis, which was established in 1828, the com-

bined papers taking the name of the

Plattsburgh Aurora. It was continued but a short time. The Democratic Press was published at Plattsburgh in 1834 by J. K. Averill.

The Whig was started at Plattsburgh in 1835 by G. W. Platt.

In 1838 it was changed to the
Clinton County Whip. After several changes of ownership, in
Oct. 1855, it was changed to

The Plattsburgh Express, published by Albert G. Carver, and is still continued by him.

The Berean Guide was published a short time at Beekmantown in 1837 by Rev. Mr. Bailey.

The Free Democrat was published in 1848 by Oliver Hart.
The Northern Lancet, mo., was began in 1849 by Dr. Horace
Nelson. It was soon changed to

The Lancet, and was continued till 1856.

The Champlain Beacon was commenced in 1850 by Ketchum & Averill. In 1852 it was sold to D. Turner, of Keeseville, who changed it to

The Rouses Point Advertiser, under which name it is still published.

The Oottage Greetle was published in 1851 by Arthur C. Nelson.

The American Syntenet was started Jun. 10, 1855, by Warren

Dow. It was soon changed to

The Plattsburgh Sentinel, and is still puldished.

The Governor General and Intendant, on the 10th, 11th, and 12th days of April, 1733, granted 3 seigniories within the present limits of Champlain and Chazy, each 3 leagues in depth and fronting upon Lake Champlain. The first, granted to Hugues Jacques Péan, Sieur de Liviandière, captain in the marines, extended from Chazy River  $2\frac{1}{3}$  leagues northward; the second was granted to Sieur Migeon de la Gauchitère, also a captain in the marines, and the third to Sieur de St. Vincent, jr., an ensign in the marines; each grant being 2 leagues in front. These grants were assigned forever, in fiel and seigniory, with the right of superior, mean, and inferior purisdiction, thank, moyenne, ct loss justice,) with the right of lunding fishing, and Indian trade, subject to the performance of fedly and homage at the Castle of St. Louis, in Quebec, agreeable to the enston of Paris followed in Canada. They were conditioned to the preservation by tenants of the cak-timber fit for the royal navy, the reservation of mines and highways to the crown, and the use of the beaches to fishermen unless actually occupied by the seignior. The patentees might grant concessions to tenants, subject to the enstemary censel reales and dues, for each arpent of land in front by 40 arpents in depth. If used for military purposes, materials for the erection of fortifications and firewood for the use of gartions were to be given without charge, and the grant was to be submitted for the royal approbation within one year. The grantees having failed to make improvements on the 10th of May, 1744, all these grants were declared to have reverted to his majesty's domain. On the 1st of Nov., 1752, a seigniory of 2's leagues in front by 3 in depth, and including Chazy River, was granted to the Sieur Bedou, connecllor in the Sangrior Council of Quebec, under conditions like those of Pean .- Titles and Docs. relating to the Scignorial Tenure

4 This engagement was one of the most gallant fought during the war, and although resulting disastrously, it reflected no dishonor on the American arms. The American forces, com-manded by Benedict Arnold, consisted of 1 sloop, 2 schooners, 4 galleys, and 8 gondolas, with \$4 gnms and 144 swivels; and the Figures and a gordonas, with \$4 gines and 144 sweets; and 15 fixed principles, of 1 ship, 2 schooters, I razee, 1 condeda, 20 ginboats, and 25 long bouts, with \$9 gines and 697 men. The American less was \$0.0 90, and the British about the same. The Americans saved themselves by running their vessels aground and swimming ashore.

5 Indge Pliny Woore, who settled in Champhain in 1785, was visited on the let of convenients by a Parking and the settled in the property of the pr

visited on the 1st of every month by a British corporal and tile of men, from Point Au Fer, to notify him that his claim under the State would not be recognized; but no attention was paid to these repeated warnings,—Palmer's Hest, Lake Champbilia p. 152.

6 In 1808 two Government officers were killed in attempting to seize a smuggling vessel called the Black Snake.

7 The following is a brief chromological list of the most im-

portant events of the war connected with this co.

In the summer of 1814, Sir Geo. Provost, Gov. of Canada, made extensive preparations for an invasion of the country along Lake Champlain. Toward the last of Ang. a land force of 14,000 men assembled on the frontier and commenced their march, supported by a formidable fleet under Commodore Downie. Gen. Macomb, who commanded the Americans, had a force of less than 3,000; but, as the invading army drew nigh, he was continually re-inforced by volunteers and militia. The American fleet, under the command of Commodore MacDonough, took position in Comberland Bay, awaiting the attack of the British. On Sunday morning, Sept. 11, a simultaneous attack was made by the British land and naval forces, and a bloody and desperate battle ensued. At the end of 2 hours Commodore Downie's flag struck, and nearly the whole British fleet fell into the hands of the Americans.2 The cannonade was continued upon the shore until night, when the British slowly and sullenly retreated and in a few days returned to Canada.<sup>3</sup> These engagements were justly considered among the most brilliant that occurred during the war,

1812,	Sept. 1.—Gen. Bloomfield, with 8,000 troops, prepared to	1
	attack Canada.	
66	Sept. 16.—Troops consisting of 3,000 regulars and 2,000	
	militia, under Gen. Dearborn, encamped with-	
	in a half mile of the Canada line.	
**	Sept. 20.—Guardhouse at La Cole surprised; but, as:	
	plans of attack were frustrated, the troops	
	retired to Plattsburgh for winter quarters.	
1813,	Feb.—Two brigades marched to Sackets Harbor,	t
	leaving the w. side of the lake entirely un-	p
	protected till Scot.	ė
44	June 2.—Naval engagement near Ash Island, Canada,	n
	between an American force, under Lieut.	
	Sidney Smith, and several British gunboats,	18
	resulting in the loss of the American sloops	
	Growler and Eagle and 112 men. The ves-	
	sels were subsequently re-captured.	-
α	July 31.—A British force of 1,400 men, under Col. Murray.	
	made a descent upon Plattsburgh and de-	
	stroyed a large amount of public and private	
	property.	
66	Sept. 19.—A body of 3,000 American troops, under Gen.	,,
	Hampton, concentrated at Comberland Head	
	and started on an expedition against Canada.	
64	Sept. 21.—After remaining one day in Canada, the tien,	
	changed his plan, and, ostensibly on his way	
	to Montreal, he marched to Chateaugay, and	
	there remained idle 26 days.	i
66	Oct. 1.—A small party of American militia surprised a	
	picket guard at Odeltown, Canada.	
u	Oct. 11.—Col. Isaac Clark, with 110 men, crossed the	
	lake from Champlain, attacked a party of	-
	British at Missisco Bay, killed 9, wounded 14.	ł –
	and took 101 prisoners.	
¢κ	Nov.—A party of Vt. militia crossed the lake and	1
	placed themselves under General Hampton.	
	The Gov. of Vt. ordered them to return; but	
	they refused to obey.	
4	Dec. 1.—A British naval force, consisting of 6 armed	
	galleys, under Capt. Pring, entered the lake	ı
	and burned an empty storchouse near Houses	
	Point. In the report of Sir George Provost.	
	this building was converted into a large	i
	magazine of stores at Plattsburgh.	ı
1814	Jan. 18.—A detachment of infantry from Plattsburgh	-
	arrived upon the frontier, soon followed by	
	another body of troops, under Gen. Wilkinson.	į-
44	March 30.—Under the direction of Gen. Wilkinson, Maj.	
	Forsyth attacked a gristmill at La Cole, but	c
	was repulsed with a loss of 104 in killed and	
u	wounded. The British loss was 56.	e
4	May 9.—A British payal force consisting of 5 sloops and	1 *

May 9.-A British naval force, consisting of 5 sloops and 13 row-galleys, under Capt. Pring, were repulsed in an attack upon Otter Creek, in Vt. Junsed in an action upon order creaming on their retreat they entered Baquet River, but were attacked by a body of militia, and nearly all the men in the rear galley were

Aug. 29 .- Gen. Izard, with the greater part of the American force, left Champlain, leaving the immense amount of military stores at Platts-burgh in charge of Gen. Macomb, at the head of 3,400 men, 1,400 of whom were sick.

Aug. 30.—Gen. Brisbane, with the advance guard of the

Sept. 3.—Sir Geo, Provost, Gov. of Canada, at the head of 14,000 men, advanced s, from Champlain.

evening of the 5th.

The action lasted  $2\frac{1}{2}$  hours. The British galleys lowered their The action lasted 2½ hours. The British galleys lowered their colors: but, not being pursued, they escaped, as did also a store-ship which lay near the point of Cumberland Head during the engagement. The loss upon the enemy's galleys was not ascertained, but was large; and the total british loss was one-fifth of their whole number. In their retreat the British left behind them a vast quantity of provisions, tents, camp equipage, and ammunition, together with their sick and wounded. The British and American officers were buried separately near the center of the village cometery; and the sailors and marines of both ficets side by side in one common grave, on Crab Island. Some time after, the sister-in-law of Com. Geo. Downie placed a tablet over his grave; and on the anniversary of the battle, in 1843, the citizens of Plattsburgh and the Clinton Co. Military Association erected plain marble monuments at the unmarked graves of Lieut, G. W. Runk, Lieut, Peter Gamble, Lieut, John Stansbury, Sailing Master Rogers Carter, Midshipman J. M. Baldwin, and Pilot Joseph Barrow of the American navy; and Col. Willington, Ensign J. Chapman, Licut. R. Kingsbury, Boatswain Chas. Ensign J. Chapman, Lient. R. Kingsbury, Boatswain Chas, Jackson, Capt. Furchase, Capt. Alex. Andersen, (marines.) Acting Capt. Wm. Paul, and Madshipman V. M. Guun, of the British army and pavy.

3 Sir Geo, Provost, in his official report, says, "This unlooked for event deprived me of the co-operation of the fleet, without which the further prosecution of the service was become impracticable. I did not hesitate to arrest the course of the troops advancing to the attack, because the most complete success would have been unavailing, and the possession of the enemy's works offered no advantage to compensate for the loss we must have

sustained in acquiring possession of them.

and they served to partially obliterate the disgrace that attached to most of the movements that were planned and executed along the N. frontier. The immense sums of money expended within the co. during the war greatly stimulated its industry; and although Plattsburgh was twice in the hands of the enemy and partly burned, still business prospered. At the close of the war the exeitement subsided, and a commercial re-action followed that entirely prostrated business. Upon the completion of the Champlain Canal in 1823, business again revived; and a new impulse has again been given to it by the railroads and plank roads since constructed. In 1838-40 the co. shared the intense excitement attending the "Patriot Wars," and several encounters between the insurgents and the military authorities took place in the neighboring parts of Canada.

The lands in this co, were mostly granted in comparatively small patents. The w. portion embraces 4 townships of the Old Military Tract. A tract of 231,540 acres in the N. E. and central parts of the co. was included in the lands granted by the Legislature of New York to the refugees from Canada and Nova Scotia at the close of the Revolution. These lands were divided into 80 and 420 acre lots, except 5,000 acres, which was divided into 15 equal parts, which were granted to the officers and privates among these refugees. Considerable land lying along the lake was granted in small tracts to English officers who served during the French War. Among the principal remaining patents were Platt's, Livingston's, Beekman's, Duerville, Dean's, and Graves.

ALTONA—was formed from Chazy, Dec. 2, 1857. It is an interior town, lying N. of the eenter of the co. Its surface is a rolling upland, with a slight inclination toward the N.E. The w. half is underlaid by Potsdam sandstone, and hundreds of acres are covered with the naked rock. Great Chazy River is the principal stream. The soil is light and sandy, and a large share of it is unfit for cultivation. A few settlements are scattered through the town, and the people are mostly engaged in lumbering. There is no village or p. o. in town. Chazy, in the N. part, is a station on the N. R. R. Etlenburgh Depot lies on the w. line. The first settler was Simeon Wood, who located in town in 1800.2 The town embraces parts of the Refugee Tract and Duerville Patent. The first church (French Bap.) was formed Jan. 1, 1856.

AU SABLE3—was formed from Peru, March 29, 1839. It is the s. E. corner town in the co. Its surface is nearly level in the E., rolling in the center, and hilly in the w. The highest summits are 500 to 600 ft. above the lake. Au Sable River forms the s. boundary, and the Little Au Sable flows N. E. through the w. part. The soil is generally a light, sandy loam, moderately fertile in the E. and center and nearly unfit for cultivation in the w. Upon the Au Sable where it breaks through the Potsdam sandstone is a beautiful cascade known as Birmingham Falls.<sup>4</sup> Iron ore of an excellent quality is found in abundance. **Keeseville**, <sup>6</sup> (p. v., ) upon the Au Sable, 5 mi. from the lake, contains 7 churches, the Keeseville Academy, 2 extensive rolling mills, 3 nail factories, a machine shop, an ax and edge tool factory, a cupola furnace, an axletree factory, a horseshoe factory, a planing mill, 2 gristmills, and a nail keg factory, Pop. 2,569,—of whom 1,999 are in Au Sable and 570 are in Essex co. Clintonville, (p. v.,) upon the Au Sable, in the w. part of the town, was incorp. April 11, 1825. It contains 2 churches and an extensive iron manufactory. Pop. 855. New Sweden, (p. v.,) upon the Au Sable, in the s.w. corner of the town, contains 2 forges and 150 inhabitants. Birmingham Falls, at the head of the rapids upon the Au

<sup>&</sup>lt;sup>1</sup> The act making this grant bears date of May 11, 1782. The names of Canadian refugees were reported by Brig, Gen. Moses Hazen and Col. Jeremiah Throop, and those of the Nova Scotia refugees by Col. James Livingston. The small lots were laid out in narrow strips fronting upon the lake, and the remainder in the rear. These lands were distributed among 252 persons, who drew the lots by ballot. The greater part of the tract was not occupied in the time specified by the act, and reverted to the State

State.

2 Among the early settlers were Lyman Clothier, Eliphalet Hascall, Daniel and Robert Baker. Thos, Cudworth, Simon Goodspeed, and Daniel Robinson. The first birth was that of Matilda K. Wood, May 30, 1802. Sarah Stockwell taught the first school, in 1804; and Lyman Clothier kept the first inn.

3 Pronounced An Saw'ble, a French name signifying river of

The name is said to have been derived from a sandy bar at the month of the river.

This cascade is located about 2 mi. below Keeseville. the face of the cliff the river has worn back a ragged and irregular channel in the solid sandstone for a distance of nearly 2 mi, and to the depth of 100 to 130 feet. The rocks that border it are perpendicular, and in some places overhanging, so that the water can scarcely be seen from the banks above. At several At several points this ravine is compressed to a width of less than on the ravine plunges into the chasm in a perpendicular descent of and the blooms made are entirely worked in 70 feet, and stringgles through the tertnose channel, foaming. pints this ravine is compressed to a width of less than 50 feet.

<sup>5</sup> The Arnold ore bed, 23 mi. N. w. of Clintonville, was first The shuft is 350 feet deep, and the ore is raised opened in 1809 by steam. For many years the average annual yield has been 1,000 tons: and for 5 years before 1856 it was 1,500 tons. There are 5 yeins, with a total width of 25 feet, yielding ores of different qualities. This mine has supplied the forges of Jay, Wilmington, quantoes. This mane messappined the rogges of May, a manageon, and Chesterheld, in Essex co, and of Peru, Au Sable, and Black Brook, in Clinton co. Other ore beds are found, of which the Brook, in Clinton co. Other ore beds are found, of which the Brook, in Clinton co. Other ore beds are found, of which the Brook is the colly one now worked. It has supplied the forge in Jay. The ore from this bed is a peroxid, and may be worked without washing or other

separation.

<sup>6</sup> Named from Richard and Oliver Keese, sons of John Keese, one of the original proprietors. The two parts of the village are connected by 3 bridges,—one of stone, one of wood, and one an iron suspension foot bridge. The stone bridge is a single arch of 110 feet,
7 About 3,500 tops of nails and 1,500 tops of merchant iron

and 70,000 nail kegs are manufactured here animally,

reling and in the State was established here, in 1816, § The Peru Iron Co, was incorp. Nov. 11, 1824, with a capital of \$200,000. The iron works built by them at Chinoville subsequently passed into the hands of Francis Saltus, and are now owned by him and his sons. In one landding are 20 forge fires, and the blooms made are entirely worked up into merchant iron,

Sable, contains 20 houses. The Union is a hamlet, on the line of Peru, and contains two Quaker meetinghouses. Edward Everett located upon the site of The Union in 1786.1 The first religious society (Friends) was organized in 1799.<sup>2</sup>

BEEKMANTOWN<sup>3</sup>—was formed from Plattsburgh, Feb. 25, 1820. Dannemora was taken off in 1854. It lies upon Lake Champlain, near the center of the E. border of the co. The surface is level in the E. and moderately hilly in the w. Its streams are small creeks and brooks. St. Armands Bay extends into the s. E. coruer. Point au Roche and Rams Head are capes upon the lake. The soil is a clay loam in the center and E., and a light sand in the w. A spring emitting sulphuretted hydrogen and carbonic acid gases is found in town. Beekmantown (p.o.) and East Beckmantown (p. o.) are hamlets. The first settlers were Maj. Benj. Mooers and 7 associates, who located at Point au Roche Aug. 10, 1783.4 The British passed through the town in 1814, and on the 6th of Sept. a slight skirmish took place, in which several were killed.5 The census reports 4 churches; 3 M. E. and 1 Presb.

BLACK BROOK -was formed from Peru, March 29, 1839. It is the s.w. corner town in the co. Its surface is a rocky and mountainous upland, the highest summits being 1,500 to 2,500 ft. above the lake. Among the mountains are several nearly level table lands 200 to 300 ft. above the general level. Ledges, crags, and boulders cover a large share of the surface. The forest trees are thinly scattered, and nearly the whole town is too rough and poor for cultivation. Saranac River flows across the x.w. corner, and the Au Sable forms a portion of the s. boundary. Great Black Brook and Little Black Brook, tributaries of the Au Sable, drain the central parts of the town. In the mountainous region are several small lakes or ponds, the principal of which are Mud, Sampson, Taylors, Slush, and Military Ponds. The soil is cold, wet, and unproductive. Extensive beds of iron ore are scattered through the town. The people are principally engaged in the manufacture of iron<sup>8</sup> and charcoal, and in lumbering.<sup>9</sup> An Sable Forks, (p. v.,) on the Au Sable, in the s. E. part of the town, is mostly on the s. bank of the river, in Essex co. Black Brook, (p. v..) near the s. border, contains extensive iron works, several sawmills, and about 85 houses. Clayburgh, on the Saranac, in the N. part, lies partly in the town of Saranae. It contains iron works and 30 houses.10 Union Falls (p.o.) and Garlick Falls, (p.o.,) both on the Saranac, are hamlets and lumber stations. The first settler was Zephaniah Palmer, who located at An Sable Forks about IS25.11 The census reports one church (R. C.)

CHAMPLAIN-was formed March 7, 1788. Chateaugay (Franklin co.) was taken off in 1799, and Mooers and Chazy in 1804. It lies upon Lake Champlain, in the N. E. corner of the co. Its surface is generally level, with a gentle slope toward the lake. The crest of a swell of land between Champlain Village and Rouses Point is about 200 feet above the lake. Great Chazy or Champlain River flows in a tortuous course through the town and discharges its waters into

<sup>1</sup> Among the other early settlers were John Keese and his tions of the Old Military Tract and of Livingston's Patent. The sons Richard, John, Ohver, Stephen, and Wilham, Caleb Green military lands were finally conveyed to Benj. Brdsall and his associates by act of Feb. 4. 1793, to satisfy claims growing out of the suppression of the lease of all of the Indian lands in the State for 909 years.—Folio Laws, XVI, Sess., p. 24. Cark's Hist.

State for five years—procedure, A. S. A. Sable Ferks, was discovered from the Pollmer Mine, 2 mi. N. of Au Sable Ferks, was discovered by Z. Palmer in 1825. It is situated on a hill 400 to 500 feet above the river. The ore is raised by steam and the yield is 10,000 to 20,000 tons per year. The Myrs Min; at Claylurgh, has been worked since 1846. It yields annually 1,500 tons of ore. principally used in the manufacture of wire, tacks, and small nails, The Trombois Mine was discovered in 1845, and about 10,000 tons of ore have been raised. The iron made from it is soft and tough, and is principally used in the manufacture of boiler plates, horse shoe nails, and car axles, 8 The Sable Iron Company have extensive works at An Sable

The Same 100 Company have exceed to the Samulacture 2,000 tons of blooms, 900 tons of merchant iron, 50,000 to 55,000 kers of rations, you tons of merchant from a count to account for an also using 1,000,000 bars, of charcoal per annum. 2,500 tons of blooms are manufactured at their establishment at Black Brook alone. The Co. was incorp. in Sept. 1854, and the stock is now owned by J. & J. Rogers.

is now owner by 3. & 3. rogers.

9 There are 8 to 10 large sawmills in town.

10 The products of the Myers Mine are principally manufactured at this place. A water-power near the mine is improved, and a forge of 5 fires is in active operation. A steam forge and steam hammer for the manufacture of K.R. axles were in opera-

steam hammer for the manification of the wave of the here about 4 years.

11 Several plank reads have been built in this town to facilitate the iron and lumber business. — Curtis kept the first inn, near the center, in 1828. Halsey Rogers and John McIntyre located in town in 1830. The Sable Iron Co, erected the first forge the same year.

sons Richard, John, Oliver, Stephen, and William, Caleb Green and his sons Henry, Rodman, John, and James, Peter Halleck, Danl. Jackson, Gilbert and Gerrit Thew, John Haff, Elisha Arnold, and John Stanton, about 1795. The first child born was in the family of John Stanton, about 1795. The mother of this child was a servant girl in the family. The wife, not being exactly reconciled to the circumstance, insisted upon being immediately taken to her filends in Dutchess, on It being immediately taken to her friends in Dutchess co. It being winter, the husband took her upon a hand sled and drew her upon the lake to "Nemesborough," thence to Fort Edward, and down the Hudson to her father's, after which he returned to Au Sable, having been 5 weeks in performing the journey. Upon his return he married the mother of the child, and lived with her many years. The first school was taught in 1791, by—
Thompson; the first inn was kept by Joel Buck, in 1800; and
the first forge was erected by Geo. Grisweld, in 1812. 2 The census reports 8 churches in town; 2 Cong., 2 M. E., 2

Friends, Presb., and R. C.

Named from Wm. Beckman, to whom, with 20 others, the

town was granted March 27, 1769. It embraced 22,475 acres.

4 Mooers was appointed to survey the Refugee Tract. After several years he removed to Cumberland Head, and afterward several years he removed to Cumberland Head, and afterward to Platt-Jurgh. Thos. Treadwell, Ezekiel Hubbard, Henry Deming, Jonathan Seribner, Abner Pomerov, Simon Newcomb, jr., Capt. John Jersey, and Joseph Main settled near Beekmantown Gorners; Philip Roberts, Henry Barnes, Ephraim and Amos Moores and John Deming were also among the early settlers. The first birth was that of Shas Pomerov; the first marriage that of Eli Howe and Miss Hubbard, in 1794; and the first death, that of a child of Simon Newcomb.

5 Among the kilded were Lieut Col Willington and Pasico.

o Among the killed were Lieut, Col Willington and Ensign Chapman, of the enemy, and several of the American militia.— Palmer's Hest, Lake Champlain, p. 152. Named from its principal stream. The town comprises por-

Kings Bay. It is navigable to near Champlain Village. Corbeau Creek, its tributary, is the other principal stream. Point au Ferl and Stony Point are two capes projecting into the lake. The soil is a clay or clayey loam. Peat is found in numerous localities. Champlain, (p. v.,) upon the Chazy, near the N. line of the town, contains the Champlain Academy, 3 churches, 2 founderies, a linen factory, planing mill, and earriage factory.<sup>2</sup> Pop. I,473. Perrys Mills<sup>3</sup> (p.o.) is a lumber station upon the Chazy, in the N. w. corner of the town. Rouses Point,4 (p. v.,) upon the lake, in the N.E. corner of the town, contains 3 churches, a brewery, newspaper office, and extensive depôts and repair shops belonging to the Northern R. R. Co. It is divided into the Upper and Lower Villages, the latter being about twice as large as the former. Pop. 1,769. Coopersville, or Corbean, is a village upon Chazy River, opposite the mouth of Corbeau Creek. It contains 1 church and 40 houses. The first settlers were Canadian and Nova Scotia refugees, who located in town soon after the Revolution. The first English settler was Pliny Moore, who eame in to reside in 1789.6 The census reports 4 churches in town.7

CHAZY<sup>8</sup>—was formed from Champlain, March 20, 1804. Altona was taken off in 1857. It lies upon Lake Champlain, N. of the center of the co. Its surface is rolling and has a gentle inclination toward the E. The principal stream is the Little Chazy, flowing N. E. through near the center. Corbean Creek flows through the N. border. Potsdam sandstone underlies the w. part, and Chazy and Trenton limestone the E. Tertiary clay extends along the lake shore. The soil is clayer and productive in the central and E. parts, but sandy in the w. Chazy, (p. v.,) upon Little Chazy River, contains 2 churches and a saw and grist mill. Pop. 326. West Chazy, (p.v.,) upon Little Chazy River, in the s. w. part of the town, contains 2 churches, a saw and grist mill, and stareh factory. Pop. 280. It is a station on the P. & M. R. R. Sciota (p.v.) is a station on the P. & M. R. R., in the N. w. corner of the town. Chazy Landing is a hamlet on the lake shore. Ingraham is a p. o. in the s. E. corner. The first settler was John La Trombois, who came in town in 1763. After the Revolution the first settlers were refugees from Canada and Nova Scotia. Of these, Lieutenant Murdock McPherson was the first one that could speak English. The census reports 5 churches in town. 11

CLINTON—was formed from Ellenburgh, May 14, 1845. It is the n.w. corner town in the co. Its surface is generally level, with a gentle inclination toward the n.w. The highest points along its s. border are about 1,050 feet above Lake Champlain. A portion of the surface is undulating. It is nearly all underlaid by Potsdam sandstone, which here is remarkably white. The streams are small brooks. More than three-fourths of the town is yet a wilderness. The soil is a light, sandy loam, capable of supporting but a thin growth of forest trees. A large part of the land is owned by capitalists and speculators. Cherubusco, (p.o.,) the summit station upon the O. R. R., The Frontiers, (Frontier p. o., ) and Wrightsville, upon the w. border, are hamlets. This town lies within No. 6 of the Old Military Tract. The first settlers located upon the Old Military Road and near The Frontiers. 12 A M. E. ehurch has lately been organized.

**DANNEMORA**<sup>13</sup>—was formed from Beekmantown, Dec. 14, 1854. It is the central town upon the w. border of the co. Its surface is mostly a wild, mountainous upland, covered with a sandy soil and light growth of forest trees. Chazy Lake, near the center, 3½ miles long by 1½

and others, in 1785. He erected the first saw and grist mills, in 1789. Among the other early settlers were Elnathan Rogers, Wm. Benumout, Chas. L. Sailly, Samuel Ashman, Joseph Cerbin, Silas Hubbell, Elias Dewey, Charles Bedlow, David Savage, and

SHS Guineau, Lans Bewry, Charles Leader, 1865, 3 churches have Benj, Tyler.

7 M. E. Prot. E., Prosb., and R. C. Since 1855, 3 churches have been organized at Rouses Point: R. C., M. E., and Prot. E.

8 Pronounced Shiczee. It included the patent granted to Elkanab Dean and 29 others, July 11, 1769.

9 He was accompanied by two men, named Gende and Swarte. He was driven off in 1776, but returned after the war, and died there in 1810.—Palmer's Hist. Lake Champlain, p. 80.

Among Tamer's Press, Love Company, p. 89.
 Among the early settlers were Levi Hazen, Septa Fillmore, John Bronson, Elisha Ranson, George Reet, and John Donglas, Miss M. Bingham tanght the first school, in 1802.
 2 M. E., Bap., Cong., and Wes, Meth.

<sup>11</sup> 2 M. E. Bap, Cong, and Nes, acco.
<sup>12</sup> Among these early settlers were Junio Howard, Culvin Johnson, C. A. Smith, Ebenezer Gates, George Peters, and Stephen Martin, mostly from Vt. The first child born was Rhoda S. Martin, mostly from Vt. The first child born was Rhoda S. Howard, Feb. 7, 1819; the first marriage, that of Cornelius Ans-tin and Fanny Hall, in 1822; and the first death, that of a child of William Hunter, in 1820. Mary Emmonds laught the first school, in 1821: Benjamin Beberts kept the first ion; Charles D. Backus the first store, in 1835; and John McCoy erected the first sawmill.

<sup>13</sup> Named by Gen. Skinner, from a celebrated iroz locality in Sweden.

<sup>1</sup> Called Point au Feu (Fire Point) upon a map bearing date of 1748. During the Revolution, the Moira a vessel of war, anchored off this point, and barracks were built upon the land for the winter quarters of the marines. The place was occupied by the British until 1796. It was reserved by the State in 1787 for military purposes, but was not used.

2 This place contains a fine water-power, and a large amount

<sup>2</sup> This place contains a fine water-power, and a large amount of manufacturing is carried on. The greater part of the lumber brought down by the opdensburgh R. R. is shipped here.

3 Named from Geo. Perry, former proprietor.

4 Named from Jacques Rouse, a Canadian, who settled here in 1783. This village has grown to importance since the completion of the R. R. The passenger and freight depots are 1 oth among the largest R. R. structures in the State. A bridge a milliong here crosses the lake, A floating draw of 300 feet, opened and shut by steam admits the passage of vessels. About one mil. N. of the village, upon the banks of the lake. Fort Montgomery is situated. This fort commands the entrance to the lake. It was begun soon after the War of 1812; but in 1818 it was found to be within the limits of Canada, and the work was shandoned. It became known as "Fort Blunder;" but by the Webster Treaty of 1842 it was ceded again to the U.S. Work upon it has been resumed; and it is estimated that the completed works will cost \$600,000, of which sum \$275,000 has already been works will cost \$600,000, of which sum \$275,000 has already been expended.

Named from Ebenezer Cooper, who erected mills there

Moore came in to survey the tract granted to Smith, Graves,

wide, discharges its waters E. into Chazy River. Upper Chateaugay Lake, on the w. border, 5 mi. long by 1½ broad, discharges its waters w.into Chateaugay River. The few settlements in town are confined to the s. E. corner. Dannemora (p. v.) is a small village grown up around the Clinton Prison. This prison was located here in 1845, for the purpose of employing convicts in the mining and manufacture of iron, so that their labor would not come so directly in competition with the other mechanical trades.1 The first permanent settler was Thomas Hooker, who came to reside in 1838. The census reports I religious society (Presb.) in town.

ELLENBURGH2—was formed from Mooers, April 17, 1830. Clinton was taken off in 1845. It lies upon the w. border of the co., N. of the center. Its surface is an upland, mountainous in the s. and rolling in the N., with an inclination toward the N.E. English River flows E. across the N. border. The soil is generally sandy; but in many places the sand is covered with a rich vegetable mold. The settlements are principally confined to the valley. Potatoes are raised in large quantities. Lumbering is extensively carried on. Ellenburgh (p.v.) contains 3 churches, a sawmill, tannery, and 125 inhabitants. Ellenburgh Center (p.v.) contains a church, saw and grist mill, 2 starch factories, a machine shop, and 15 dwellings. Ellenburgh Depot is a hamlet on the line of Altona. James Hanchett came to this town in 1796, but left soon after. The first permanent settler was Abner Pomeroy, from Vt., about 1800.3 There are 4 churches in town.

MOOERS5—was formed from Champlain, March 20, 1804. Ellenburgh was taken off in 1830. Its surface is generally level, with a gentle inclination to the N. E. The principal streams are Great Chazy and English Rivers. The surface is entirely underlaid by Potsdam sandstone, and is covered with a light, sandy soil. Along the N. border are several small swamps. Upon the Canada line, in the N. w. corner, is a remarkable chasm in the rocks, called The Gulf. 6 Centerville, (Mooers Forks p.o.,) upon the Chazy, contains 2 churches, a sawmill, stave factory, and 30 houses. It is a station on the N. R. R. Mooers, (p. v., ) upon the Chazy, in the E. part, contains 2 churches and 40 houses. It is near the junction of the O, and P. & M. R. R's. Angellville, upon Corbeau Creek, in the s. E. corner, is a hamlet. The first settler was Joshua C. Bosworth, who located in town in 1796.7 The first preacher was Rev. Andrew Blackman, in 1800; and the first settled minister was Rev. Martin Powell, in 1807.8

PERU<sup>9</sup>—was formed from Plattsburgh and Willsborough, (Essex co.,) Dec. 28, 1792. A part was annexed to Willsborough in 1799, and Au Sable and Black Brook were taken off in 1839. It lies upon the lake, s. of the center of the co. The surface in the center and E. is rolling and slightly inclined toward the lake, and in the w. broken and mountainous. The Au Sable flows across the s.E. corner, and along its course are extensive swamps. Little Sable drains the greater part of the remaining portions of the town. The principal body of water is Military Pond, on the w. line. A strip of land 2 mi. wide, extending along the lake, has a soil composed of clay and clay loam. West of this is a plain 4 mi. wide, covered with sand and interspersed with swamps. In the w. the soil is a light, sandy loam. Peru, (p. v.,) on the Little Sable, near the center of the town, contains 2 churches, a gristmill, starch factory, and tannery. Pop. 504. Laphams Mills, 2 mi. below Peru, contains a large flouring mill, a plaster mill, forge, and 15 dwellings; Peasleville, on Salmon River, in the N. w. corner, a forge and 25 dwellings. Port Jackson, (Valcour p. o., ) on the lake, opposite Valcour Island, is a hamlet containing a church. Peru

Ransom, in 1922; and Benjamin Hine, W. Jennings, jr., Joseph Sercy, Pardon Daily, Joseph Lawrence, and Samuel Harlesoon after. The first child born was Lloyd Rogers Ilines. was named after Lloyd Rogers, and received a farm of 50 acres for the name. The first marriage was that of Smith Belamater and Phoebe Eastabrook. John R. Mnrray built the first saw

and grist mill.

4 M. E., Prot. E., Presb., and Union. The Union Church was built by J. R. Murray.

5 Named from Maj. Gen. Benj. Mooers, an early settler and prominent citizen of the co.

promment curze or the co.

This galf is 16 rods wide and 300 feet deep. At its bottom
is a pend of water said to be 150 feet deep. The walls are of
sandstone, and perpendicular. No existing agencies could have
produced the classm.—N. Y. Geol., 2d Dist., p. 309.

7 Among the early settlers were Irehabod Bosworth, Geo, and
Daniel Perry, Andrew Blackman and sons, Daniel Southwick,

John, Joseph, and Samuel Churchill, John Sheldon, and Robert Tripp. The first child born was Wm. Hallenheck, in 1801; the first marriage, that of David Anderson and Rhoda Perry, Dec. 5, 1805; and the first death of an adult, that of Mrs. J. C. Bosworth, Sept. 26, 1802. 8 The census reports 4 churches in town; Cong., M. E., Prct. E.,

<sup>1</sup> The prison was erected under the superintendence of Ransom Cook, under an act passed May 1, 1844. The prison grounds, comprising 25 acres, are located upon the slope of a hill, and are surrounded by pickets 21 test high. The main buildings, constructed of dressed stone, are in the form of a T, and are respectively 264 by 56 feet, and 160 by 46 feet. The cells are constructed in a block 3 stories high in the center of the building, a wide corridor extending completely around between them and the outer walls. The main buildings have slate roofs and are completely fire-proof. Within the grounds area steam forge, with 10 fires, a rolling mill, boundery, steam separator copable of wa-hing 600 tons of one per month, 7 coal kilus, a steam saw-mill mechine shop, and the ruins of a blast furnace, borned June 25, 1856. A large slare of the labor of constructing these works has been done by convicts. The prison works were first supplied with one from the Skinner Mine, owned by the State; but more recently from the Averill Mine. A new mine has lately been discovered upon the State grounds. Resides the manufacture of iron, stave making, coopering, and shoemaking are carried on. The total expenses, \$212,901.22.

2 Named in compliment to Ellen, daughter of John R. Marray, of N. Y., the principal proprietor of Township No 5 of the Multary Tract.

8 Among the carly settlers were Aaron Broadwell and Lewis 1 The prison was erected under the superintendence of Ransom

and Presb.

9 Name applied from its mountainous character.

Landing is a hamlet, N. of the mouth of the Little Sable. The first settler was Wm. Hay, a Seoteliman, who located upon Steward's Patent in 1772. The census reports 4 churches in town.

PLATTSBURGII—was first recognized as a town April 4, 1785. A part of Peru was taken off in 1792, Beckmantown in 1820, Saranae in 1824, and Schuyler Falls in 1848. It lies npon Lake Champlain, a little s. of the E. border of the co., and includes Valcour's and Crab's Islands in the lake. The surface is level in the E. and broken and hilly in the w. It is slightly inclined toward the E., its w. border being elevated about 500 feet above the lake. It is principally drained by Saranac River and its branches. In the E. part the soil is a clayer loam, underlaid by Trenton limestone; in the center, a sandy loam, underlaid by calciferous sandstone; and in the w. a light sand, underlaid by Potsdam sandstone. Cumberland Head is a peninsula extending into the lake and forming Cumberland Bay.5 Plattsburgh, (p. v.,) upon Cumberland Bay, at the mouth of Saranac River, was incorp. March 3, 1815. It has a safe and commodious harbor, and an excellent water-power, giving it facilities for a large amount of both commerce and manufactures. Besides the co. buildings, it contains a town hall,6 customhouse,7 the Plattsburgh Academy, 6 churches, a foundery, planing mill, sawmill, gristmill, and 2 tanneries. Pop. 2.926. Upon a sandy plain, 1 mi. s. of the village and 90 feet above the lake, are situated extensive barracks belonging to the U.S. Government.8 Cadyville, (p. v.,) upon the Saranac, 10 mi. above Plattsburgh, contains a church, sawmill, and 25 houses. Elsinore, 1 mi. above Cadyville, contains a forge and a half dozen houses. Salmon River, (South Plattsburgh p. o., ) in the s. part, contains a church, sawmill, and 25 houses. West Plattsburgh is a p. o. The first settlement was made before the Revolution, by Chas, de Fredenburgh and several associates, under royal grants. During the war the settlers were driven off and the improvements were destroyed. In 1785 a tract 7 mi. square was granted to Zephaniah Platt and 32 associates, who had bought up military land warrants to that amount.9 The first 3 families who settled under this grant were those of Charles Platt, Chas. McCreedy, and Kinner Newcomb. Nathaniel Platt was the first surveyor and agent for the proprietors. A farm of 80 acres was offered to each of the first 10 settlers in town. 10 Rev. Benj. Vaughan preached the first sermon, in 1787; and Rev. Frederick Halsey was the first settled minister, in 1795.<sup>11</sup> There are 9 churches in town.<sup>12</sup>

SARANAC—was formed from Plattsburgh, March 29, 1824. It lies upon the w. border of the co., s. of the center. Its surface is a broken and mountainous upland. The highest summits, along the w. border, are 4,000 feet above tide. Saranac River, flowing through the s.E. part, is the principal stream. Upon its course are several falls, affording an immense amount of waterpower.13 The E. part, sloping toward the river, is covered with a light, sandy soil, and the river intervale with a sandy loam and alluvium. The soil among the mountains is sandy; but the whole

<sup>&</sup>lt;sup>1</sup> Hay lived opposite Valcour Island, and witnessed the naval engagement of Arnold. He soon after removed to Canada, but returned in 1785. Among the other early settlers were John Cochrane, John Howe, Isaac Finch, Abij di Ketchum, Lett and John Elmore, Ezekiel Lockwood, Satunel Jackson, Cyrenns Newcomb, Geo, Hayworth, Benj, Sherman, and Silas and Robert Cochrane. The first child born was Ira, son of John Howe, in 1784; the first marriage, that of Lott Elmore and Mary Hay, Dec. 17, 1788; and the first death, that of Win, Hay, Feb. 28. 1779. M. Finch taught the first school in 1790-91; John Cochrane built the first grist and saw mill; — Weed built the first forge, and Geo, Hayworth and John Hack-taff built the first factory. A large stone woolen factory built in 1836, by Richard Hayworth, was changed in 1851 to a starch factory.

<sup>2.2</sup> M. E. Cong., and R. C.

This island is memorable for the naval engagement which
took place near it during the Revolution. The remains of the
schooner Royal Savage, sunk at that time, may still be seen.

<sup>\*</sup> The sailors and marines killed in the naval battle of Sept. 11, 1814, were buried upon this island.

Extensive military works were begun here in 1814, but were abandoned upon the approach of the enemy. The State of Vt. presented Com. MacDonough with a farm on this point,

which is still owned by his descendants.

8 Built in 1856, at a cost of \$3,000. It is a fireproof brick building, and contains a town hall, armory, and fire engine

This is a fine five proof brick building, built at a cost of \$80,000, and contains rooms for the custombonse, postoffice, and U.S.

<sup>8</sup> These buildings were commenced in 1838, and were originally designed to inclose a space of 600 feet square. Only a part of the design has been carried out. Troops were stationed her until 1846, when they were sent to join the army in Mexico. The buildings are now used by the Clinton Co. Agricultural Society for its annual tairs.

9 This grant was made in accordance with the provisions of an

act passed in 1781, which provided that when 61 rights, or 30,500 | thrown into the air like play things.

<sup>,</sup> acres, should be jointly located, a tract 7 mi. square should be

granted, including 860 acres for gospel and schools.

10 Among the settlers who received lets under this offer were Kinner Newcomb, Jacob Ferris, Thos, Allen, John B. Hartwick, Derrick Webb, Jabez Petrit, Moses Soper, Lucius Reynolds, and Henry Ostrander. Among the other early settlers were lebabed Derrick Webb, Jabez Pettit, Moses Soper, Lucius Reynolds, and Henry Ostrander. Among the other early settlers were leahadd Truesdale, Peter Roberts, Win. Campbell, Benj. Kefehum, and Benj. Graves, who settled at the village; Melanethon L Woolsey, — Adams, Frederick Burant, Win. Coe. Russell Ransom, Benj. Mooers, Win. P. and Theodorus Platt, who settled on Cumberland Head; Lambert Hoppin, John Stevenson, Gibbon Ruger, Joshia Hillyard, and Alm. Webb, who located on South St.; Benj. Reynolds, Sam'l Norcross, John Roberts, and Leug, Hammonl, on Center St.; Nath'l Platt, Sam'l Benson, Eliphade Haskins, Jos. Omisby, Benj. Vanghu, and Jehn Wait, on North St.; and Melanethon Smith, Zephaniah Platt, Thos. Treadwell, Peter Sailly, and Win, Bailey, in other parts of the town.

10 The first child born was 1da Ostrander, Sept. 7, 1785; the first marriage was that of Peter Sailly and Marianne Adelaide Grelle, Juno S. 1789; and the first death, that of Mrs. Sailly, first whie of Peter Sailly, Dec. 23, 1786. Twelve of the original proprietora met at the house of Judge Platt, at Poughkeepse, Dec. 20, 1784, and took measures for the immediate erection of a grist and saw mill and ferge. These buildings were the first in fown.

13 At the Saranae, Ealls the river flows through a payrow, tor.

Union.
13 At the Sarunae Falls the river flows through a narrow, for OA the Sarmae Falls the river flows through a narrow, tomous channel, bounded by nearly perpendicular rocks, for the space of a mi. In its course its descent is very rapid, and at several places it is proceiptated down precipies of 12 or 73 at 13 or 61 feet. The ragged rocks upon the bottom and sides, and the abrupt angles in the channel, cause the water to boil and section and structle in the wildest commonon. In high water, thomasules of say here for down the view and is their respective process. sands of saw logs float down the river, and in their passage down the falls they are pitched and tossed upon the surges, or

w. region is too rough for cultivation. Saranac, (p. v.,) upon Saranac River, contains a church, sawmill, forge, and 50 houses. Redford, (p. v., ) on the Saranac, near the s. border, contains 3 churches, several sawmills, and 60 houses. Russia, 2 mi. above Saranac, contains 2 forges and 20 honses. The first settlement was begun in 1802, by Russell Case and Ezekiel Pearce.2 The first preacher was Rev. Lambert Hopper, in 1805.3

SCHUYLER FALLS'-was formed from Plattsburgh, April 4, 1848. It is an interior town, lying a little s. E. of the center of the co. Its surface is rolling in the E. and hilly in the w., with an inclination toward the E. The Saranae forms its N. boundary, and Salmon River flows along its s, border. The soil is a light, sandy loam. Schuyler Falls, (p. v.,) on Salmon River, near the s. line of the town, contains a church, gristmill, starch factory, and 50 dwellings. Morrisonville, (p. v.,) on the Saranac, lies partly in Plattsburgh. It contains 3 churches, a gristmill, sawmill, starch factory, foundery, machine shop, and 35 houses. Norrisville, upon Salmon River, 3 mi. w. of Schuyler Falls, contains a starch factory, 2 forges, and 15 dwellings. The first settler was Ezra Turner, who located upon Salmon River in 1797.5 The census reports 2 M. E. chnrches in town.6

a Formed since 1855.

62 churches (Uap. and Union) at Morrisonville are located N.

lace and erected a saw and grist mill, and, daring the next season, a large manufactory of crown glass. The manufacture of glass was carried on with varying success until 1852, when it was finally abandoned. Mr. Foster went to Jefferson co. in 1832, and there commenced the manufacture of glass, (see page 355;) Gershom Cock, Elias W. Corning, and Matthew Lane, of Troy, were proprietors of the establishment.

were proprietors of the establishment.

2 Among the early settlers were Sylvanus Smith, Wright
Spaulding, Lyman Manly, Nath'l Lyon, John Gregory and son
Czar, Lewis Ferris and sons, Isaada and John Lambert,
John M. Hopper and John Chamberlain. Samuel Stone, first
agent for Township No. 4 of the Old Military Tract, with another
construction to act Molone was expected. man, attempting to go to Malone, was caught in a snow storm and his companion frozen to death, Oct. 8, 1802. He was himself of the river, in Plattsburgh.

<sup>1</sup> In 1831, John S. Foster, agent of a company, came to this | so injured that he died in 3 weeks. John D. Fiske, the second so injured that the dark is weeks. Som D. risk. The second agent, was killed by a falling tree, June 21, 1805. The first birth was that of Isaac Smith, May 9, 1804; the first marriage, that of Cornelius Hopper and Sophia Case, in 1810; and the first death of a settler, that of John D. Fiske, June 8, 1805. Royal Spaulding taught the first school, in 1805; and Isaiah Ferris built the first saw and grist mill, in 1806.

<sup>&</sup>lt;sup>3</sup> There are 4 churches in town; 2 M. E., Presb., and R. C.

<sup>4</sup> Named from the proprietor of the present village site.
5 Among the early settlers were Daniel and Roswell Jones, John P. Roberts, David Hare, Daniel Hillson, Henry Purdy Jonathan Wickham, and Jas. Brand, all of whom located upon Salmon River.

### COLUMBIA COUNTY.

This county was formed from Albany, April 4, 1786.1 It lies upon the E. bank of the Hudson, between Rensselaer and Dutchess cos., and extends E. to the Massachusetts line. It contains an area of 688 sq. mi., and is centrally distant 29 mi, from Albany. The Taghkanick Mts. extend along the E. border, and the adjoining parts of the co. are broken by numerous irregular ranges of hills which constitute the outlying spurs of those monutains. The w. part of the co. consists of an undulating plateau terminating in bluffs on the Hndson River. The principal streams are Roeliff Jansens Kil<sup>2</sup> and Claverack and Kinderhook Creeks. Upon these streams and their tributaries are numerous valuable mill sites. In the E. and N. parts of the co. are several picturesque lakes, the principal of which are Kinder-

hook, Copake, and Charlotte Lakes, and Whitings, Robinsons, Snyder, and Rhoda Ponds. The prevailing rocks are the Hudson River shales. The slate rocks in this co. crop out toward the w., usually at an angle of 45°, but sometimes almost vertically. Limestone crops out in different parts of the co. Brown hematitie iron ore is found in numerous localities in the E. part of Ancram and Copake.3 Lead has been mined in Ancram.4 and manganese, peat, and marl are found in different localities. In New Lebanon are the celebrated thermal springs; in Stockport are other mineral springs, and in Chatham is a small sulphur spring.

The various branches of agriculture form the leading industrial pursuits of the people. Hav. (of which large quantities are pressed and sent to market,) rye, oats, corn, potatoes, and buckwheat, are the staple productions. Stock raising and dairying receive considerable attention. The manufacture of paper, cotton fabrics, vegetable extracts, and iron, is largely earned on.<sup>5</sup> A greater quantity of paper is made in this co. than in any other in the State, and the co. also takes precedence of all others in the amount of tinctures and extracts prepared from medicinal plants,

The city of Hudson is the county seat.<sup>6</sup> The courthouse and jail is a fine building, fronting on Washington Square. It has a marble front, with an Ionie portico, and contains the court and jury rooms, and the co. clerk's, sheriff's, and district attornev's offices. The poorhouse is a spacious brick building located upon a farm of 200 acres in Ghent.8

The most important works of internal improvement are the Hudson River R. R., extending through the w. part of the co., the Albany & West Stockbridge R. R., through the N. part, the Hudson & Boston R. R., terminating at Hudson, and the New York & Harlem R. R., terminating at Chatham Four Corners. Four newspapers are published in the eo.9

" Kings Instrict." The latter line was more accurately defined,

April 1, 1799.

2 Named from Reeliff Jansen, Overseer of the Orphan Claim

2 Named from Reeliff Jansen, Overseer or under the Dutch Gov. e similar to that of surrogate) under the Dutch Govber (an offic ernment. The Indian name was " Stuk-hen-ak." - Doc. Hist., 111.

8 Large quantities of ore have been taken from these localities.

It is obtained near the surface, and its depth is not known.

4 This ore is found near the junction of the slate and lime stone strata, and occurs in strings and bunches .- Gool. Rep.,

1838, p. 59.

6 There are 15 paper mills and 8 cotton factories in the c The first paper mill was creeted at Stuyvesant Falls, in 1802, by Geo, Chittenden; and the first cotton factory, in 1813, by Nath'l

<sup>6</sup> The co. seat was formerly located at Claverack. The first • The co, seat was formerly located at Claverack. The first meeting of the beard of supervisors was held at the house of Gabriel Esselstyne, in Claverack. An appropriation of £2000 was made for a conthouse, and Wm. B. Whiting, Abraham J. Van Alstyne, John Livingston, Henry I. Van Rensselaer, Matthew Scott, Seth Jenkins, and Wm. H. Ludlow were appointed commissioners to superuntend its erection. In 1788, an additional appropriation of £1200 was made, and in 1798 another of £400. The first co. officers were Peter Van Ness, First Judge; Peter Sylvester, Peter R. Livingston, Henry I. Van Rensselaer, and Win, B. Whiting, Judiose; Kullian K. Van Rensselaer, Norand Wm. B. Whiting, Judges; Killian K. Van Rensselaer, Surregate; Lawrence Hogeboom, Sheriff; Robert Van Rensselaer, Cerk; and Walter Vrooman Wemple, Treasurer. By the act of Feb. 25, 1895, the co. seat was removed to Hudson, on condition that the city appropriate for the use of the co. the city hall, a

1 By this act the N. boundary was defined as the N. line of | lot of land, (upon which to erect co, buildings,) and the sum of "Kinderhook District," and the S. boundary as the S. line of | \$2000. A commutee, consisting of Win, Wilson, Jacob Ford, \$2000. A commutee, consisting of Wm. Wilson, Jacob Ford, Thos. Jenkins, Benj. Birdsall, and Nathaniel Green, was ap-

pointed to superintend repairs and the erection of a jad.

The conribouse was erected in 1835, at a cost of \$3500,

This building was erected in 1857, at a cost of \$22000, and, together with the surrounding buildings, has accommodations for 500 persons. The farm is mostly worked by the inmates of

for ado persons.

Another institution.

The Hudson Gazette, the first paper published in the co., was established April 7, 1785, by Ashbel Stod lard and Chas.

R. Webster. Webster soon after withdrew, and the

R. Webster. Webster soon after withdrew, and the paper was continued by Stoddard until 1802-304, was removed from New London, Conn., to Hudson, Aug. 17, 1802, and was published by Chas. Holt until 1810. It then passed into the hands of Saml. W. Clark, and afterward into those of John W. Dutcher. It was the standard that the same transfer. changed, about 1820, to

The Columbia Critinel, and two years afterward it was united with the Columbia Republican.

The Balance and Columbia Repository was started in 1802, by Ezra Sampson, George Chittenden, and Harry Croswell. It was removed to Albany in 1808, and discontinued in 1811.

The Warp was edited a short time by "Robt. Rusticoat," in the

early part of the present century.

The Hudson Newspoper and Balance Advertiser was commenced in Oct. 1806, by Harry Croswell.

The Republican Fountain, established in Dec. 1806, was published about I year, by Sylvester Roberts.

The Northern Whon was begun in 1808, by W. B. Steldins, Wm. L. Stone became the publisher in 2 or 3 years,

The first settlements were made in the N. part of the co., under the Dutch Government. The E. border was settled chiefly by squatters from New England. Livingston Manor<sup>1</sup> was patented July 22, 1686, and first settled by tenants about the beginning of the last century. The most important settlement was made by German Palatinates, in 1710, upon a tract of 6000 acres—now constituting the principal part of Germantown-which had been sold back to the Government by Robert Livingston. The territory of Mass., under its charter, extended westward to the Pacific Ocean, and grants were made by that colony.2 Conflicting claims gave rise to bitter contentions and riotous outbreaks. Arrests made under Mass, warrants led to riots and bloodshed.3 Combinations were formed to dispossess the proprietor of the Livingston Manor, which resulted in tumults and murders.<sup>4</sup> These difficulties continued until after the Revolution. During the Revolutionary War, and for several years after, this section of the country was much infested by robbers, and acts of violence were of frequent occurrence.5 The anti-rent movement of 1840-50 extended to the Livingston Manor, the John J. Van Rensselaer Tract, and other districts held by leasehold. In Dec. 1844, the Governor ordered out 7 companies of militia to assist the sheriff of this co. in the discharge of his duties. Most of the leases which had then been issued were for 1, 2, or 3 lives; but the anti-rent difficulties have led to the policy of conveying the title in fee as rapidly as circumstances will admit.6

ANCRAM—was formed from Livingston, March 19, 1803,7 as "Gallatin." Its name was changed March 25, 1814, and Gallatin was taken off in 1830. It is the s. E. corner town of the co.

It was discontinued in 182

The Columbia Magazine was published at Hudson at an early date, by Rev. John Chester.

The Spirit of the Forum and Hudson Remarker was published in 1847, by a literary association.

The Columbin Republican was started in Aug. 1818, by Solomon Willow. In 1820 it passed into the hands of Ambrose L. and Allen Jordan, and is now published by Win. Byyan. For a year or two, about 1835-36, it

was issued as
The Columbia To publican and Hudson C ty Advertiser.

The Chinatica Equation and Hadson CVI Advertiser.

The Hudson Gazette was established by Williams & Brother, John W. Edmonds, Ed.

The Mesonger of Peace was started in 1824, at Hudson, by Richard Carrique, and continued 1 year.

The Rival Expanding, semi-mo, was commenced, June 12, 1824, by Win, B. Stoddard, and continued until 1851.

Columbia and Green. Co. Europ was started at Hudson, in 1831, by Edwin G. Lindsley, and continued 2 years.

Tre Diamond, semi-mo., was published at Hudson, in 1803, by G. F. Stone. The Magualia, semi-mo., was published at Iludson, in 1834, by

P. D. Carrique. The Hudson Flord was published by J. R. S. Van Vliet, during the campaign of 1840.

The Columbia Washingtonian was started at Hudson in 1842, by J. R. S. Van Vliet. The paper changed bands several times, and was changed to The Duily Econop Star. Dec. 28, 1847, by Alex. N. Webb. It is now published as

The Hudson Star, da, and w.

The Columbia In morrat was commenced at Chatham Four Corners, in 1847, by -

The Temp rance Pulladium was published at Hudson in 1851, by J. W. Dutcher.

The Hudson Dady News was published in 1855, by Richard Van Mass Antwerp.

The Kinderhook Nonlinel was established at Kinderhook in June.

1825, by Peter Van Schaack, and in Jan. 1832, was changed to

Columbia's Swatinel. In 1834 it passed into the hands of John V. A. Hoes, but about 18 months afterward it reverted to Van Schaack. It bas since been changed to the Rough Notes, and since 1854 it has been published at Kinderhook, Ly P. H. Van Yleek.

Kinderhook, by P. H. Van Vleek.

The Valatic Weekly Trues was published in 1853, by H. N. Hopkins.

The Equal Rights Advocate was started at Chatham Four Corners, by an anti-rent association. In 1848 it was removed to Hudson and changed to

The Democratic Preeman. It was discontinued in 1855-56.

The Columbia (h. Journal was published at Chatham Four Corners in 1850, by Philip H. Ostrander.

The Journal of Materia Medica was commenced

The You belong in 1857, H. A. Tildov, but Legach

at New Lebanon in 1857; H. A. Tilden, pub., Joseph Bates, M. D., ed.

1 The patent of this manor conferred upon Robert Livingston, the patentee, fendal privileges, and imposed an annual quitrent of 28 shillings. The manor contained 100,240 acres, and included nearly all the present towns of Clernont, Germantown, Tankkanick, Ancram, and Copake. It

Richard L. Cross in 1816, and W. R. Stebbins in 1821. the Mobegan Indians in July, 1683, and the Taghkanick purthe shoregan liminals in July, 1885, and the larginstance purchase, obtained Ang. 10, 1685. They were confirmed by Gov. Dongan, the former, Nov. 4, 1684, and the latter, Ang. 12, 1685, In 1701 there were but 4 or 5 bonses on the manor. From and after 1716 the manor was represented by a member in General Assembly. Before his death—which took place in 1728—Robert Livingston bequeathed to his son Robert that part of the manor Livingston bequeathed to his son Robert that part of the manor now included in the town of Clermont, and the residue to his closet son. Philip. The latter was succeeded by Robert Livingston, Jr.; and in 1702 the land E. of the post road was divided between Walter, Robert C., John, and Henry Livingston, the devisees of Robert Livingston, Jr., according to the provision of his will,—Sutherland's Deduction of the Tille of the Manor of Livingston: Doc. Hist. 111, Colonial Hist.

In the patent and upon the maps of the manor, several places are designated by their Indian names, viz...—

Abadhavanshkick, a bill in N.W. corner, on Mass. line. Acadhavalance of the Colonial Colon

are designated by their Indian names, viz.—
Ahashawaghkick, a hill in N.W. corner, on Mass. line. Acawanak, a flat or rock in N. part of North East. (Dutchess co.)

2 With the view of settling their claims upon the Hudson, the Boston Government, in March, 1672, sent John Paine to New York to solicit permission to pass and repass by water. The application was received with cold civility, and the subject referred home for the decision of his Majesty. Gov. Lovelace improved the occasion to remind the Mass, people of the distrist with which they had received the commissioners s with which they had received the commissioners sent over 1664, and intimated that their application under other circumstances might have been differently received.—General Entries, 1V. 177, 178, Sec. Office.

9 Doc. Hist., 111. 754.

4 In 1791 the sheriff of the co. was murdered by an armed

mob while in the discharge of his official duty.

<sup>5</sup> A party of rangers was organized to suppress these; and under the act of May 11, 1780, £1500 was raised to defray the expenses thus incurred.

7 This town was included in the Livingston Manor. The line (Ams fown was included in the Divingston Manof. The line bordering upon Taghkanick was altered March 25, 1944. A narrow triangular tract of about 1000 acres, in the extreme E. part of the town, known as "Boston Corner," formerly belonged to the town of Mt. Washington, Berkshire co., Mass. The Taghkanick Mts. extend along the E. border of the tract, and form an almost impassable barrier between this and the reconsisted of 2 prichases: the Livingston purchase, obtained of maining parts of that town. Thus entirely isolated from the

The surface is broken and hilly. In the E. part the hills range in a N. and S. direction, but elsewhere they are irregular. Roeliff Jansens Kill crosses the town in a S. w. direction. A narrow intervale, bordered by steep, irregular hills, extends along its course. The soil is a gravelly loam intermixed with clay. Iron ore has been obtained at different places from the hills upon the E. border of the town,<sup>2</sup> and lead ore is mined at Hot Ground.<sup>3</sup> Ancram,<sup>4</sup> (p. v.,) situated on Roeliff Jansens Kil, in the w. part of the town, contains 2 churches, a paper mill, a sawmill, and about 30 houses. Hot Ground (Ancram Leadmines p. o.) and Boston Corner, (p. o.,) a station on the Harlem R. R., are hamlets. The town was first settled by the Dutch, in the neighborhood of Ancram Village. There are 3 churches in town.<sup>5</sup>

AUSTERLITZ—was formed from Canaan, Chatham, and Hillsdate, March 28, 1818. It lies on the E. border of the eo., N. of the center. The E. and central parts are broken by irregular ranges of hills, and the w. part is undulating. The principal streams are Green River in the E. and Myrtle Creek in the w. The soil is a gravelly loam intermixed in some parts with slate and clay. The hills are mostly arable to their summits. Spencertown, (p.v.,) on Myrtle Creek, in the w. part of the town, contains 2 churches, an academy, and 2 gristmills. Pop. 225. Austerlitz, (p.v.) in the valley of Green River, contains 2 churches and 150 inhabitants. Upper Green River is a hamlet in the s. E. part of the town. The first settlements were made about 1745 to 1750, by squatters from Conn. Disputes concerning the ownership of lands thus appropriated arose; and on the 31st of May, 1757, the settlers appointed a committee to adjust the difficulties. About 1774, Nathaniel Culver and Jas. Savage were sent to England to secure a grant of these lands to the settlers; but, owing to the trouble existing between the mother country and the colonies, they were unsuccessful. The land titles were finally settled by the act of March 22, 1791. The first church (Cong.) was organized in 1750, and Rev. Jesse Clark was the first pastor.

CANAAN—was formed as "Kings District," March 24, 1772, and its name was changed March 7, 1788. A part of Chatham was taken off in 1795, and New Lebanon and a part of Austerlitz in 1818. It is situated on the E. border of the co., between Austerlitz and New Lebanon. A range of mountains or hills separates it from Massachusetts. The surface is broken and hilly. Whitings Pond, in the E. part of the town, is about 2 mi. in circumference. Its outlet is tributary to Kinderhook Creek and affords several valuable mill sites. The soil is a gravelly or slaty loam and clay. The hills are mostly arable to their summits. Near the center of the town is a slate quarry. Canaan Four Corners, (p. v.,) a statiou on the A. & W. S. R. R., contains 1 church and 32 dwellings; Flat Brook, (p. v.,) a station on the same R. R., contains I church and 15 dwellings. Canaan (p.o.) and Canaan Center (p.o.) are hamlets. Queechy, on the outlet of Whitings Pond, contains 1 church, 2 paper mills, a sawmill, a gristmill, and 21 dwellings; and Red Rock, 10 in the s. w. corner of the town, contains 3 churches, a sawmill, a gristmill, and 30 dwellings. Two families of Shakers, consisting of about 75 persons, reside in the N. E. part of the town. They are chiefly engaged in farming, and their estate consists of over 1400 acres. They raise garden seeds to a limited extent, and manufacture brooms, mop sticks, and other similar articles. The settlement of the town was commenced about 1756.11 At a meeting of the citizens of "Kings District," (June 24, 1776,) held for the purpose of choosing delegates to the Provincial

seat of civil anthority, it became the resort of fugitives from fustice, prize fighters, and others of like character, who base defiance to the laws and practiced their unlawful acts with impunity. In Dec. 1848, the inhabitants petitioned to be annexed to N. Y. The State of Mass. consented in May, 1853. The cession was accepted by New York, July 21 of the same year, confirmed by Congress, Jan. 3, 1855, and the Corner was annexed to this town, April 13, 1857.—N. Y. Assem. Docs., 54 & 194, 1849.

1 Called "Ancram Creek" in this town.

<sup>2</sup> These mines have been worked many years. Considerable quantities of ore are obtained on the land of A. McArthur and sent to Millerstown (Du'chess co.) on the Harlem R. R. An ore bed N. of this, owned by the Empire Co., is connected with the R. R. by a track 1½ mi-long.

8. R. by a track (g nt long.

8 This mine was discovered on land leased by the keeper of
the Livingston Manor. Robt. R. Livingston purchased the lease,
and sold it to a N. Y. Co., by whom the mine was worked until
within a few years. A shaft has been sunk 100 feet, and g illeries
opened in different directions. The mine is on land now owned
by H. Melntyre.

opened in different anceroms. Are time is on long now owner by H. McIntyre.

4 This place was formerly celebrated for its iron works. These were creeted as early as 1756. The ore was obtained from Sahsbury, Conn., and from mines in the E. part of this town, and pig and bar iron of a superior quality was made. <sup>5</sup> Evang. Luth., M. E., and Presh.

6 The Spencertown Academy was established mainly through the exertions of Rev. Dr. T. Woodbridge.
7 Among the early settlers were John Dean, John Williams,

<sup>7</sup> Among the early settlers were John Dean, John Williams, Seth and Truman Powell. Jas. Sexton, Ephraim Kidder, and families by the names of Osborne, Lawrence, Spencer, and Whitmore.

<sup>8</sup> The census reports 4 churches in town; Christian, Cong., M. E., and Presb.

<sup>9</sup> This quarry is on the land of L. D. Ford. The slate is of a dark blue color, and plates of any required size or thickness may be obtained.

<sup>10</sup> So named from a large rock by the roadside, painted red, and surmounted by a wooden column about 10 feet high, hearing the date "Jan. 1825."

In Among the early settlers were families named Donglass, Warner, Whiting, Alesworth, Eablwin, and Hawley. The first mill was built by Wm. B. Whiting, about 175. This mill, stored with grain belonging to the government, was burned by tories during the war. In the first book of records is a memorandim, without date or signature, stating that "the town records were kept on loose paper previous to 1772, but not probably but a few years. The deed from the Indians of 6 mi. sq. was executed in 1758. The compensation was £250, that being paid for the 6 mi. sq.?" The record is continuous since May 5, 1772.

Congress, it was voted to recommend to that body the passage of a declaration of independence. There are 7 churches in town.2

CHATHAM—was formed from Canaan and Kinderhook, March 17, 1795, and parts of Austerlitz and Ghent were taken off in 1818. It lies near the center of the N. border of the co. The surface is moderately hilly, the ranges generally extending N. and S. The principal stream is Kinderhook Creek, upon which are numerous mill sites. The soil in the valleys is a gravelly loam intermixed with clay, and upon the hills it is slaty. The valleys are broad and fertile, and the hills arable to their summits. Near New Concord is a sulphur spring. Chatham Four Cormers (p.y.) is situated partly in this town and partly in Ghent. It is an important station on the A. & W. S. R. R. and the H & B. R. R., and is the terminans of the Harlem R.R. The depôts of these roads are in Ghent. The village contains 3 churches, a machine shop, and 3 foundries. Pop. 697. East Chatham, (p.v.,) a station on the A. & W. S. R. R., near the line of Canaan, contains 2 churches, a gristmill, sawmill, and candle factory. Pop. 245. New Concord contains I church and 109 inhabitants; Chatham, (p. v., ) I church, a furnace and plow factory, gristmill, and sawmill, and a pop. of 214; Rayville a Friends meeting house and 13 houses; Chatham Center, (p. v., ) I church and 127 inhabitants; Malden Bridge, (p. v., ) I church, a paper mill, sawmill, and tannery, and a pop. of 193; and Riders Mills, a gristmill, sawmill, and 12 houses. North Chatham, (p. v.,) contains 2 churches, a sawmill, gristmill, and plaster mill. Pop. 179. The settlement of this town commenced about 1725. The settlers were from Kinderhook, but originally from Holland. A company from Connecticut settled at New Concord in 1758.3 The census reports II churches in town.4

CLAVERACK<sup>5</sup> (Claw'ye-raek)—was formed as a district, March 24, 1772. Hillsdale was taken off in 1782, and Hudson in 1785. It was recognized as a town, March 7, 1788. A part of Ghent was taken off in 1818. It lies near the center of the co. The surface in the w. part is undulating, and in the z. hilly. Claverack Creek, upon the w. border of the town, and its tribntaries, are the principal streams. The soil is a rich loam in the w., and a gravelly loam intermixed with slate in the E. Claverack, (p. v.,) in the w. part of the town, a station on the H. & B. R. R., contains 2 churches and the Claverack Academy and Hudson River Institute; 6 pop. 496; **Mellenville**, (p, v<sub>o</sub>) a station on the H. & B. R. R., contains 2 churches, a gristmill, and 30 dwellings; and Philmont, (p. v., ) a station on the Harlem R. R., contains several manufacturing establishments<sup>7</sup> and 35 dwellings. South Bend Mills, Martindale Depot, (p. e.) and Humphreysville (p. o.) are hamlets. Smoky Hollow (p. v.) contains several manufactories and 25 dwellings, and Churchtown (p.v.) I church and 14 dwellings. The Ref. Prot. 1), church, Claverack, was organized in 1716, and the present edifice was erected in 1765. There are 6 churches in town,9

CLERMONT—was formed from the Livingston Manor, March 12, 1787.10 It lies upon the Hudson, in the s. w. corner of the co. The surface is undulating. Roeliff Jansens Kil forms the E. boundary. The soil is a fertile loam, and in some places sandy. Clermont, (p. v.,) near the E. part of the town, has a pop. of 155. The first settlement was made at an early day by Germans, who occupied the lands as tenants. A school was established, in 1791, by a special act of the legislature, before any general school system had been adopted in the State. 11 Robert R. Livingston, a prominent statesman of the Revolution and the first chancellor of the State, was a resident of this town. A German Lutheran church, about 3 mi. w. of the village of Clermont, is the only church in town.

COPAKE—was formed from Taghkanick, March 26, 1824. It lies on the E. border of the co., between Hillsdale and Ancram. Its surface is broken by ranges of hills separated by broad

<sup>1</sup> William B. Whiting, Asa Waterman, Philip Frisbie, Martin Reebe, Elisha Pratt, Capt. Baldwin, Daniel Back, Elijah Bost-wick, Gideon King, Jarvis Mudge, Saml. Johnson, Saml. Gillett, L. A. Herrick, Joseph Wood, John Woodworth, and Saml. Baily were appointed a committee to prepare a memorial making such recommendation to Congress.

<sup>2 2</sup> Bap., 2 M. E., Christian, Cong., and Presb.

<sup>3</sup> Among those were John Beebe, and others named Cady, Hurlburt, Falmer, and Davis. A little w. of Chatham Center was a stone house, used as a defense against the Indians during the Revolution. A man named Vosburgh, who lived near this house, was killed and scalped; but his family escaped.

Aonse, was almer and scanper, that his admy escaper. 4 6 M. E., 2 Bap., Christian, Cong., and Ref. Prot. D. 5 This town formerly extended to the Hudson, and the bluffs on the bank were named the "Klauvers," (clovers.) whence "(laver-reach," or "Claverack."—Benson's Memoir, p. 44.

<sup>6</sup> This institution is located upon a beautiful eminence in the x. part of the village, and commands an extensive view of the surrounding country and of the distant Catskills. It is one of the most flourishing institutions in the State. It has accommodations for 500 to 600 pupils.

7 Three paper mills, a carpet factory, woolen factory, sash and

blind factory, furnace and machine shop.

<sup>8</sup> Among these are a woolen factory, cradle factory, gristmill, and sawmill.

9 2 Ref. Prot. D., Bap., Evang. Luth., M. E., and Prot. E.

<sup>10</sup> By an act of legislature passed March 2, 1858, a triangular tract, now constituting the N. part of Germantown, was taken off from Clermont.

<sup>11</sup> An academy was incorp. April 26, 1834, and received under the regents Feb. 26, 1837, but it was never successfully organ ized.

and fertile valleys. A high and nearly unbroken range extends along the E. border. In the town are several small lakes, the principal of which are Copake Lake in the w., and Robinsons, Suyder, and Rhoda Ponds in the s. The soil is a gravelly and clayey loam. Near Copake Station are several iron mines. Copake Station, (Copake Iron Works p.o.,) on the Harlem R. R., contains 1 church, a blast furnace, and 26 houses; Copake Flats (Copake p.o.) contains 1 church and 20 houses; and Baines Station, (North Copake p.o.,) a station on the Harlem R. R., 15 houses. The settlement of this town commenced about the middle of the last century.<sup>2</sup> A Ref. Prot. D. church was the first church organized, and Rev. Jeremiah Romeyn was the first pastor.3

GALLATIN4—was formed from Ancram, March 27, 1830. It lies near the center of the s. border of the co. The surface is broken by several ranges of hills, which extend in a N. and s. direction. The highest point is Mattashuk Hill, s. of Lake Charlotte. Roeliff Jansens Kil is the principal stream: its banks are steep and in some places rocky. Charlotte Lake, in the N. part of the town, is a fine sheet of water, surrounded by gentle slopes cultivated to the water's edge. The soil is a slaty and gravelly loam, and moderately fertile. Gallatinville, (p. v..) on Roeliff Jansens Kil, contains a gristmill and 11 houses; Weaver Hollow, Jacksons Corners, (on the line of and p.o. in Dutchess co., ) and Union Corners, (partly in Livingston,) are hamlets. The town was settled at a very early day by emigrants from Holland and Germany.<sup>5</sup> A Ref. Prot. D. church was organized in 1748, and the Rev. Mr. Freymoot was the first pastor.<sup>6</sup>

GHENT'-was formed from Chatham, Claverack, and Kinderhook, April 3, 1818; and a part of Stockport was taken off in 1833. It is an interior town, N. of the center of the co. Its surface is hilly in the E. and undulating in the w. The town is watered by several small streams tributary to Kinderhook and Claverack Creeks. The soil is mostly a gravelly loam, but in some parts it is clayey. Ghent,8 (p.v.,) in the E. part of the town, is a station on the H. & B. and Harlem R. Rs. It contains 2 churches and 18 houses. West Ghent (p. v.) contains 1 church and 16 houses. Palvers Station is on the H. & B. R. R. The first settlement was made about 1735. by emigrants from Holland and Germany.9 There are 4 churches in town. 10

GREENPORT-was formed from Hudson City, May 13, 1837. It lies upon the Hudson, near the center of the w. border of the co. Its surface is broken and hilly. Beacrofts Mt., ir. the E. part of the town, is nearly precipitous upon its w. side. Merino Point," near the Hudson, has an elevation of 250 feet above the river. Claverack Creek forms the E. boundary of the town, and a small tributary of this stream and Kahseway Creek are the principal watercourses. The intervale of the latter is broad and fertile. The soil is clayey along the river and a sandy and gravelly loam in the interior. Limestone is extensively quarried on the E. side of Beaerofts Mt. Oak Hill (p.o.) is a station on the Hudson R. R. R. in the s.w. part of the town. A steam ferry connects this place with Catskill Point on the opposite side of the Hudson. Settlement commenced in this town about the middle of the last century.12 There is but one church (Ref. Prot. D.) in town,

GERMANTOWN<sup>13</sup>—was formed as a district April I, 1775, and recognized as a town March 7, 1788. A part of Clermont was annexed, March 2, 1858. It lies upon the Hudson, in the s. part of the co. The surface is undulating. Roeliff Jansens Kil forms the N. boundary. The soil is a rich, fertile loam, sandy in a few places. Germantown (p. v.) contains I church and 19 houses, and East Camp 17 houses. The first settlement was made in 1710, by German Palatinates, under the patronage of Queen Anne. The first arrival was in 1710; and on the Ist of May, 1711, there were 1178 settlers in town, and the four villages "Hunterstown," "Queensbury," "Annsberg," and "Haysburgh" had sprung into existence. 15 A school was estab-

<sup>1</sup> The ores obtained from these mines are bematites. ore bed, that promises an abundant supply of an excellent quality, has recently been opened to the depth of 13 feet. 2 Families by the names of Snyder, Briese, and Lampman were among the early settlers.

<sup>3</sup> The census reports 3 churches; M. E., Presb., and Prot. E.

<sup>4</sup> Named in honor of Hon. Albert Gallatin. 5 The Knickenbackers and the Snyders were among the first An Englishman, named Ross, was one of the first setthers in the neighborhood of Gallatinville.

6 There are 2 churches in town; Ref. Prot. D. and M. E.

Named from Ghent, in Holland.
 The Indian name of this locality was "Scom-pa-muck"

<sup>9</sup> Among the first settlers were John, Cornelius, Andrew, and Lawrence Sharp, and Abraham Hogelsoom, who located near Ghent Village. A man pamed Cox had settled near the same

A tract or noon acres, terming the present town of terman-town, was purchased, on the 9th of Sept. 1710, of Robt. Living-ston by Gov. Hunter, for the use of these people. It was de-signed to employ them in raising hemp and making tar, pitch, and rosin for the royal navy, and they were furnished with provisions and tools. The management of their afforms was in-trusted to a board of commissioners, consisting of Robt. Living-Ghent Village. A man named Cox had settled near the same place a short time before.

ston, Richard Sacket, John Cost, Godfrey Walsen, Andrew Bagger, and Herman Schureman. John Peter Kineskem was appointed "materiorstown, John Conned Weiser in Hunterstown, John Conned Weiser in Pittis point was formerly called "Rorabuck." Its present Queensbury, Hartman Windecker in Annsberg, and John Chris-

lished in 1711. The Ref. Prot. D. church was formed in 1728, and Johannes Van Driesen was the first pastor.1

HILLSDALE—was formed from Claveraek, as a district, March 26, 1782, recognized as a town March 7, 1788, and a part of Austerlitz was taken off in 1818. The surface is broken by ranges of high hills extending in a x, and s, direction and separated by narrow valleys. Green River crosses the N. E. corner; and several small streams, which form the headwaters of Roeliff Jansens and Clayerack Creeks, take their rise in the town. The soil is a gravelly loam and clay. Hillsdale, (p.v.,) a station on the Harlem R. R., in the s. part of the town, contains 2 churches and has a pop. of 225; Harlemville (p.v.) contains I church and 225 inhabitants, and Green River (p. v.) 1 church and about 12 houses. The town was settled at a very early day,—the s. part by immigrants from Mass, and the N. by Dutch settlers.2 The first church (Bap.) was organized June 23, 1787, and Rev. Stephen Gano, D.D., was the first pastor. There are 6 churches in town.

HUDSON CITY—was formed from Claverack, and incorp. as a city, April 22, 1785.4 A part of Stockport was taken off in 1833, and Greenport in 1837. It lies upon the E. bank of the Hudson, at the head of ship navigation, near the center of the w. border of the co. The surface is a rolling upland. A slate bluff rises abruptly from the river to the height of 60 ft., and from its summit a beautifully rolling ridge extends eastward and slopes gradually upward for a distance of one and a half mi., terminating in Prospect Hill, a high, rounded eminence 300 ft. above the surrounding lands and 500 ft. above the river. This ridge is from 6 to 50 rods in width, and is bounded on the N. and s. by gradual and uniform slopes. North and South Bays (two shallow

bodies of water) extend about 1000 ft. inland from the river, converting the w. extremity of the ridge into a promontory.5 A public square, containing an area of about an acre and a half, has been laid out upon the summit of the bluff overlooking the river, and furnishing one of the most beautiful public promeuades in the country. From the summit of Prospect Hill an extensive view is obtained of the windings of the Hudson, with the distant Catskills on one side, and the Green Hills of Mass, on the other.

In the river, opposite the city, is an extensive mnd flat, through which a canal has been cut for the Hudson and Athens Ferry. This canal has recently been abandoned.

This city is the western terminus of the Hudson & Boston R. R., and an important station on the Hudson R. R. R. The manufactures are extensive, consisting principally of iron and clothing. A considerable amount of commerce is carried on by means of the Hudson.

The City Hall is a brick building, situated on Warren St. near the center of the city. The lower story is used for mercantile purposes.

The Public Schools are in a flourishing condition. In 1857 the city was divided into 4 districts, and gave employment to 21 teachers, -5 males and 16 females. The number of children between the ages of 4 and 21 was 2562, of which 1095 (or 42\frac{3}{4} per cent.) were in attendance some portion of the year. The total expenses of the schools for that year was \$4448.38; total receipts, the same; number of volumes in district libraries, 700. A Lancasterian School Society was incorp. April 15, 1817, and it maintained a school many years.8

The Hudson Academy building, a plain, 3 story brick edifice near Prospect Hill, was erected in 1805.

tian Tucks in Haysburgh. The enterprise was unsuccessful, and many of the settlers removed to the Mohawk and Schoharie Valleys. In the summer of 1711 a company of 25 men from "Hunleys. In the summer of the a company of 25 men from "Hun-terstonen" volunteered in the expedition against Canada. In 1725 the tract was granted by letters patent to the inhabitants of "East Comp." to be divided equally in fee after reserving 40 acres for church and school purposes.

1 The census reports 3 churches in town; Evang, Luth., M. E., and Ref. Prot. D.

<sup>&</sup>lt;sup>2</sup> Among the early Dutch settlers were families named Showerman, Blackman, Kinyon, Fregers, Evens, and Shorts, ——Foster was one of the first settlers near Hillsdale Village. The State enriendered its claims to the lands actually occupied, March 12,

<sup>1793
8 3</sup> M. E., Bap., Christian, and Presb.
4 The express object of this incorporation was to facilitate commercial operations.
The charter included all the territory N. of Colorovach Crock, and S. of Major Abranams Creek, extending 150 feet into the Hudson.

<sup>5</sup> Warren St., the principal street of the city, extends along the crest of this ridge from the foot of Prospect Hill to the promenade grounds on the bluff. Few streets in any city have a finer location than this.

<sup>6</sup> The Hr dson Iron Co. have a double blast furnace, driven by an engine of 300 horse power: 80 to 90 men are employed, and an engine of son solo holes power. So to so that are demonstra, and 40 to 50 tons of pig from turned out per day. At the Columbia Iron Works about 40 men are employed, and 20 to 25 tons of pig from made daily. The ore used in these frances is obtained from Weston, Mass., and from Dutchess, Orange, and Essex cos. Clark's Clothing Manufactory employs about 400 hands. In 1858, sales were made to the amount of \$130.000, mostly for the Southeast where Medical Clark's Clothing Manufactory employs about 420 hands. In 1858,

sales were made to the animal of globod hossy, no the scale ren market. Beside these, there are in the city 2 machine shops, 2 iron foundries, a stove foundry, gunshop, cutlery manufactory, bookbindery, flouring mill, brewer, and brickyard.

7 An immense quantity of pressed hay, annually sent to the New York market, forms the principal export of the co.

8 By act of May 11, 1835, this society was allowed to raise \$400 annually.

The Hudson Female Academy was organized in 1851, and occupies a substantial stone edifice formerly used as a private lunatic asylum.

The Orphan Asylum was established in Oct. 1843, and is in charge of a board of lady managers. Forty to 60 children are provided for. It is supported by private donations, assisted by an annual stipend of \$1000 from the co.

The city contains 11 private schools, 2 public libraries, 3 banks, and 3 newspaper offices. Pop. 6.720.

A lunatic asylum was established here in 1832, but it was given up upon the opening of the State Asylum at Utica.<sup>1</sup> The first religious organization (a society of Friends) was formed in 1784, and a meeting house was built in 1785. There are now 11 churches in the city.2

Hudson was formerly known as "Claverack Landing." The foundation of its future prosperity as a city was laid by Seth and Thos. Jenkins and their associates, in 1783.4 It grew with great rapidity, and soon became the center of a very extensive commercial business. In 1775 it became a port of entry,5 and at an early period its commerce extended to the West Indies and Europe.6 Shad and herring, from the river and coast fisheries, ship timber, and country produce were exported, and numbers of ships were employed in the whale fisheries. The embargo, and the war which followed, destroyed this trade. The whaling business was afterward resumed, and for some time prosecuted with success; but it has since been entirely abandoned. A daily line of steamers plies between this city and Albany, and the day line between Albany and New York touches here.

KINDERHOOM'-was formed as a district, March 22, 1772, and reorganized as a town March 7, 1788. A part of Chatham was taken off in 1795, a part of Ghent in 1818, and Stuyvesant in I823. It occupies the central part of the N. border of the co. The surface is level or undulating. Kinderhook Lake, in the N.E. part, is about 4 mi. in circumference. The principal streams are Kinderhook Creek and the outlet of Kinderhook Lake. The soil is a fertile, sandy, and gravelly loam. Kinderhook, (p.v.,) situated on the creek of the same name, was incorp. April 18, 1838. It contains 4 climches, the Kinderhook Academy, a newspaper office, 2 banks, and several mannfacturing establishments.8 Pop. 1078. Lindenwald, the residence of Ex Pres. Martin Van Buren, is about 2 mi. s. of this village. Valatie, 9 (vol'a-che, p. v.,) situated at the junction of Kinderhook Creek and the outlet of Kinderhook Lake, was incorp. June 30, 1856. It contains 4 churches, 5 cotton factories, 10 and several other manufactories. 11 Niverville, (p. v.,) on the outlet of Kinderhook Lake, is a station on the A. & W. S. R. R. It contains a wadding factory, batting factory, gristmill, and 2I houses. Settlements commenced under the Dutch Government, 12 The rights of certain settlers were confirmed by the act of March 12, 1793. A controversy concerning the patent of John Hendrick De Bruyn, granted in 1686, was settled by commissioners June 8, 1812. A Ref. Prot. D. church was organized in 1712. Rev. Johannes Lydius, of Albany, conducted the first religious services, and Rev. J. Van Driesen was the first settled pastor. There are 8 churches in town.13

**LIVINGSTON**—was granted as a manor, <sup>14</sup> July 22, 1686, formed as a district, March 24, 1772, and organized as a town, March 7, 1788. Clermont was taken off in 1787, and Ancram and Taghkanick in 1803. It is situated in the s.w. part of the co., bordering on the Hudson. The surface is generally undulating. Claverack Creek crosses the N. E. corner, Kleina Kill<sup>15</sup> flows through near the center, and Roeliff Jansens Kil forms the s. w. boundary. In most of its course

<sup>1</sup> Established by Dr. S. White. It was continued 6; years,

Established by Dr. S. White. It was continued 6\(\frac{1}{2}\) years, and during that time 297 patients were admitted.
 Bap., M. E., Presb., Prot. E., Ref. Prot. D., R. C., Univ., Wes. Meth., Af. Meth., and 2 Friends meeting houses.
 S In 1783, Peter Hogeboom, Peter Van Hoesen, Caspar Hnyck, John Van Allen, and John, Jacob, Jonathan, and Leonard Hendricks lived at this place. Van Allen kept a store, and Corner Plock kept a camee ferry to Loonenburgh.
 Selh and Thomas Jenkins, and 28 others, that year formed themselves into an association for commercial nursuses, and

themselves into an association for commercial purposes, and selected "Claverack Landing" as the seat of their operations. A city plot was at once surveyed, docks were built, and shipbuild city just was at one surveyed, docks were bink, and simpounding commenced. The following year the Hudson, a ship of 500 tons, was launched by Jenkins & Gelston. Cotton Gelston opened a store the same year, and in 1785 Thomas Jenkins and Josiah Alcott built a rope-walk, 600 feet long. Josiah Barmard built a wind gristmill on Prospect Hill, in 1787; and Thos, and Seth Jenkins and Stephen Paddock, a hemp ducking factory, in 1789.

<sup>5</sup> Henry Malcomb, the first collector, was appointed June 12,

<sup>1795.
6</sup> It is said that at one time a greater amount of shipping was owned at this port than at New York.

7 A Dotch name, signifying "Childrens Point." There are

several versions of the origin of this name; one is, that it was

given by Hudson from the number of Indian children congregated to see his vessel at a point above Stuyvesant Landing; and another, that it was derived from the number of children belonging to a family residing at the forks of an Indian trail, where the village of Kinderhook now is.

<sup>8</sup> A steam cotton factory, gristmill, sawmill, 2 hat factories, and

a candle factory.

9 A Dutch word, signifying "Little Falls." There is a fall here of about 15 feet; and hence the name.

<sup>&</sup>lt;sup>10</sup> There are about 400 looms in these factories, and 400 to 500 persons employed: warp and wicking exclusively are made at

one of them.

11 A paper mill, furnace, machine shop, plaster mill, and saw-mill. Pop. estimated at about 1500.

mill. Pop. estimated at about 1500.

12 A record belonging to the Ref. Prot. D. church, dated 1729, and signed by Johannes Van Driesen, gives the names of 100 families their residing in town. Among these are the names Van Alsteyn, Van Ahen, Van Schauck, Van Burjeen, Van Der Pool, Conyn, Huijk, Voshurg, Schermerhorn, Klauw, Gardenier, Van Yakenburgh, Van Beigk, Wieber, and Mubber 13 2 M. E., Bapa, Evang, Luth, Preste, Prot. E., Ref. Prot. D., and R. C.

 <sup>14</sup> The manor, of which this town is a part, was granted to Robert Livingston.
 16 Little Creek.

this last stream flows through a broad and fertile valley, but near the Hudson its banks are steep and rocky. The soil is a fertile, sandy loam. Johnstown, (Livingston p.o.,) situated near the center of the town, contains I church, a parochial school, and 28 houses. Glencoe Mills. (p.v..) on Claverack Creek, contains a free chapel, 2 sawmills, and 16 houses. Bakers MiHs, (p. o.,) on Roeliff Jansens Kil, contains a woolen factory, 2 paper mills, a gristmill, and 10 dwellings. Elizaville, (p.o.,) Blue Store, and Limitingo are hamlets. Settlement commenced soon after the patent was granted.\(^1\) There are 4 churches in town.\(^2\)

NEW LEBANON-was formed from Canaan, April 21, 1818. It is the N.E. corner town of the co. The surface consists of steep hills separated by broad, irregular valleys. The Taghkanick Mts., upon the E., separate this town from Mass. The Wyomanock or Lebanon Creek is the principal stream. The soil is a gravelly and slaty loam intermixed with clay. The valleys are generally narrow and the hills arable to their summits. Lebanon Springs, (New Lebanon Springs [p.o.,) in the E. part of the town, is celebrated for its thermal springs.3 It contains 2 churches, 4 hotels, a female seminary, and a gristmill. Pop. 278. Tildens (New Lebanon p. c.) contains 1 church, a barometer and thermometer manufactory, a laboratory for the preparation of medicinal extracts, and 35 houses. New Lebanon Center (p.v.) contains a gristmill, sawmill, tannery, and 22 houses; Moffatts Store, (p. v., ) I church and 23 houses; and New Britain, (p.o.,) 1 church and 6 houses. In the E. part of the town, about 2 mi. s. of Lebanon Springs, is a large Shaker community.<sup>5</sup> The first settlement was made about 1760, by immigrants mostly from Mass, and Conn.<sup>6</sup> There are 8 churches in town.<sup>7</sup>

STOCKPORT—was formed from Hudson, Ghent, and Stuyvesant, April 30, 1833. It lies upon the Hudson, N. of the center of the co. The surface consists of a high table land, rising from the river in bluffs and descending with a moderate slope toward the E. Kinderhook and Claverack Creeks unite near the center of the town. The valleys of these streams are narrow and their banks often steep and rocky. Near Stottsville are 4 mineral springs, known as the Columbia Springs,8 Stockport, (p.v..) situated at the junction of Kinderhook and Claverack Creeks, contains 3 churches, several manufactories, and 44 dwellings. Chittendens Falls contains 1 church, 2 paper mills, and 14 dwellings, and **Stottsville** 2 woolen factories and 21 dwellings. **Co**lumbiaville10 (Stockport station on the Hudson R. R. R.) is situated on the Hudson. This town was settled at an early period by the Dutch. There are 4 churches in town.11

STUYVESANT<sup>12</sup>—was formed from Kinderhook, April 21, 1823, and a part of Stockport was taken off in 1833. It is the N. w. corner town of the co., is situated on the bank of the Hudson, and includes the adjacent islands E. of the middle of the river. The surface is generally level, except along the river bank, where it is broken by ravines and low hills. Kinderhook Creek crosses the s. part of the town. The soil is generally clayey, but in some places it is a light, sandy loam. Stuyvesant Falls, (p.v.,) on Kinderhook Creek, contains I church, several manufactories,13 and 35 houses. Stnyvesant Landing, (Stuyvesant p.o.,) on the Hudson, contains 1 church, a flouring mill, a foundry, 2 coal yards, a lumber yard, and 34 houses. It is a steamboat

<sup>100</sup> Beatty's map of 1714, the manorhouse and mill are about 2000 acres of land in this State, besides a considerable ocated within this town, near the Hndson, and the residences tract in Mass. They have a large meeting house, a laboratory located within this town, near the Hudson, and the residences of families named Witbeck, Claus, and Brusie near Claverack Creek.

<sup>&</sup>lt;sup>2</sup> 2 Ref. Prot. D., Evang, Luth., M. E.

<sup>2 2</sup> Ref. Prot. D., Evang, Luth., M. E.
3 The spring is 10 feet in diameter and 4 feet deep, and discharges 16 barrels of water per minute. The water is wholly tasteless, and loss a temperature of 75° at all seasons. According to an analysis made by Dr. Mede. 1 pint of water contains 1.25 grs. solid matter, as follows:—0.25 grs. chloride of calcium, 0.44 grs. chloride of solumn, 0.19 grs. carbonate of lime, and 0.37 grs. sulphate of lime. Bubbles of gas constantly rise from the bottom of the spring, giving it the appearance of boiling. This gas is composed of 844 parts mitragen and 10.6 parts oxygen, and is given out in the proportion of 5 cubic inches from a pint of the water. So great is the volume of water discharged that it not only supplies several baths, but 2 or 3 mills are kept runit not only supplies several baths, but 2 or 3 mills are kept running by it both summer and winter.—L. C. Beck's Report, 1848, p. 48, and Godogy 1st Dist., p. 105. The medicinal properties of these waters were first brought to the notice of the public by Jas. Hitchcock. There are several similar springs of less volume

in the vicinity.

4 Tilden & Co. have under cultivation 40 acres of medicinal plants,—chiefly dandelion, hyosyamus, lettuce, belladonna, stra-monium, yellow dock, burdock, poppies, digitatis, aconite, hore-hound, wormwood, and valerian. They also use large quantities of conium, gathered from the surrounding country, as well as imported medicinal herbs and roots. Sixty persons are employed in the preparation of their extracts.

<sup>6</sup> There are 500 to 600 persons in this community. They own

furnished with steam power, a gristmill, 4 sawmills, 2 machine shops, 8 dwellings, and several other buildings. They are principally engaged in farming, and in preparing extracts, roots, berles, botanic medicines, and garden seeds. They also mannafacture brooms, sieves, and fancy baskets. About 200,000 fbs. of medicinal articles and garden seeds are put up annually.

The neatness of their grounds and premises is proverbial.

6 Among the first settlers were families named Gilbert, Cornell, King, Skinner, Mudge, Gurnsey, Jones, Waddams, Sauford, and Patchin. An inn was kept at Lebanon Springs for several years before the close of the Revolutionary War. The hones is still standing, and is supposed to be nearly a century old.

7 3 M. E., Bap., Christian, Presb., R. C., and a Shaker meeting

<sup>8</sup> The waters of these springs have never been analyzed. A hotel and bathing houses have recently been erected near them, and they are now much frequented.

<sup>9 2</sup> cotton factories, a matrass factory, machine shop, and sash and blind factory,

<sup>10</sup> Columbiaville was incorp. Feb. 21, 1812, but the act of incommonwhile was moorp, reb. 21, 1812, but the act of in-corporation was repealed April 20, 1833. It was formerly a manufacturing place of considerable importance. In 1812 it had a cotton factory of 1500 spinlles, 2 paper mills, 4 cording mills, 2 fulling mills, together with grist, saw, and plaster mills, 11 M. E., Presh., Prot. E., and Univ.

 cotton factories, a woolen factory, a gristmill, sawmill, machine shop, and an agricultural implement factory.

landing and a station on the Hudson R. R. R. Coxsackie Station, on the Hudson R. R. R., has half a dozen houses. At this place is a ferry to Coxsackie, (Greene co.,) on the opposite side of the river. The first settlement was made by the Dutch about the period of the English conquest." There are 3 churches in town.3

TAGHKANICK4—was formed from Livingston as "Granger," March 19, 1803. Its name was changed March 25, IS14, and Copake was taken off in 1824. It is an interior town, lying s. of the center of the co. The surface is hilly. Taghkanick Creek is the principal stream. Its banks are low and rocky, and upon it are numerous mill sites. The soil is a gravelly and slaty loam. The hills are generally arable to their summits, although some are wooded and rocky. West Taghkanick (p.v.) contains I church, a gristmill, and 14 houses. Taghkanick (p.o.) and New Forge are hamlets. The first settlements were made by German and Dutch settlers, among whom were families named Brises, Shurts, and Shoefelts. A tract of about 600 acres, called Taghkanick, included in this town, was purchased by Robert Livingston in 1685. The first church (M. E.) was organized in 1843. There are now 2 churches in town; Evang. Luth., and M. E.

4 Pronounced Toh-kon'nick, and supposed to signify "Water Enough." Upon this side of Mt. Tom, in Copake, was f-tmerly a spring which was a favorite resert of the Indians; and bence the name "Taghkanick for the locality.

## CORTLAND COUNTY.

This county was formed from Onondaga, April 8, 1808, and embraces the original townships of Virgil, Cincinnatus, Homer, Solon, and the south half of Tully and Fabius1 in the s. E. corner of the Military Tract. It was named in honor of Pierre Van Cortlandt, first Lieut, Gov. of the State of N. Y.2 It lies near the center of the State, upon the northern spurs of the Allegany Mts., and just s. of the watershed between the Susquehanna and Lake Ontario. It contains an area of 485 square miles, and is centrally distant 120 miles from Albany. Its surface is hilly and occasionally broken, consisting mostly of arable ridges with narrowish valleys between them. The highlands are divided into three general ridges extending through the county in a

northerly and southerly direction. The first of these occupies the extreme eastern edge of the county, and is bounded on the w. by the valley of the Otselic River; the second lies between the Otselic and Tioughnioga Rivers; and the third embraces all the highlands lying w. of the Tioughnioga. These highlands are all divided laterally by the valleys of small streams, and in some places they are but little more than a collection of sharp ridges separated by narrow ravines. The northern portion of the county spreads out into a high plateau, broken by hills. This level has an average elevation of 1,100 to 1,200 feet above tide, and the ridges rise from 200 to 500 feet higher. A broad plain, into which nearly all the valleys of the tributaries of the Tioughnioga converge, occupies the center of the western part of the county; and here the county seat is located. South of this the valleys contract until they become raviues. The highest points in the county are Mount Toppin, in Preble, the Truxton Hills, and the Owego Hills, in Virgil and Harford, which attain an elevation of 1,600 to 2,100 feet above tide.

The drainage is nearly all through the Tioughnioga River, which flows through near the center of the county. In its upper course, it consists of two principal branches, the eastern entering the town of Cuyler from Madison county, and the western taking its rise in the small lakes in the northern part of Preble and the southern part of Onondaga county. The principal branches of the Tioughnioga are the Otselic,—which flows through a deep valley in the eastern part of the county from Chenango county,-Trout, Cheningo, and Labrador Creeks, and Cold and Factory Brooks. The Skaneateles Inlet drains the northwestern, the branches of Fall Creek the extreme western, and Owego Creek the southwestern, parts of the county. The only considerable bodies of water in the county are the Skaneateles Lake, which borders upon the N. W. corner, and several small lakes in the northern part of the Tioughnioga Valley.

The Hamilton group of rocks—consisting of calcareous shale, with limestone and slate intermixed—euters the northern portions of the county; and successively above this, toward the south, appear the Genesee slate, and the Portage and Chemung groups. Quarries of sandstone and limestone, affording excellent building material, are worked in Scott, Homer, Cortlandville, and several other parts of the county. A little s. E. of Cortlandville are several small lakes, containing deposits of marl, from which an excellent quality of lime is manufactured. The soil upon the hills is principally a sandy or gravelly loam; and that of the valleys is of the same character, with a large mixture of disintegrated slate, shale, and limestone.

From its considerable elevation above tide, the climate of this co. is colder than the lower regions N. and W. The winters are longer, and snow falls to a greater depth. The people are almost exclusively engaged in the different branches of agriculture. Spring grains are largely produced in the valleys, but the whole county is better adapted to pasturage than tillage. Dairving and stock raising are extensively pursued. The production of wool also receives considerable attention. The more hardy fruits generally flourish, but are liable to injury from early and late frosts.

<sup>1</sup> The following lots in these towns were set apart for the support of the gospel and schools:—In Tully, 69, 76, 81; Fabins, 55, 58; Homer, 4, 34, 70, 85, 93, 98; Solon, 22, 25, 30, 41, 64, 98; Vingil, 20, 36, 51, 86, 91, 99; Chneimatus, 1, 16, 57, 49, 53, 62. The territory of the "Boston Ton Towns," lying immediately south of this, was found to overlap or extend over a patton of this tract, and to embrace nearly all of the two southern tiers of lots 250

<sup>1</sup> The following lots in these towns were set apart for the sup- in Virgil, and 4 lots in the s. w. corner of Cincinnatus. Two adin Virgil, and 4 lots in the s. w. cerner of Cincinnatis. I wo additional townships (Junius, Cayuca co., and Galen, Wayne co) were set apart by the Land Commissioners, July 31, 1790, to supply the deficiency thus occasioned in the Military Tract.

2 Gen. Van Cortlandt was an extensive owner of lands upon the Military Tract in this and adjoining counties.

Manufactures are of limited extent. The completion of the Syracuse, Binghamton, and New York R. R. through this county has given an additional impulse to every branch of business, and has greatly enhanced the value of the farms by furnishing an easy and direct avenue to market.1

Cortland Village, the county seat, is situated upon the Tioughnioga, near the center of the town of Cortlandville. The county elerk's office and the court house are finely situated in the center of the viflage.2 The jail is located in the basement of the court house, the floors of the cells being 4 or 5 feet below the surface of the ground. The average number of prisoners is 2. The poor house is situated upon a farm of 118 acres, 3 mi, N. E. of Cortland Village. The average number of inmates is about 50. The farm yields a revenue of \$600.

There are four papers published in the county.3

Few events of general interest have occurred in this county. Settlement began in Homer in 179I, in Virgil and Cortlandville in I794, and in several other towns before the commencement of the prescut century. Being remote from the great routes of travel, its settlement advanced but slowly for many years, and the fertile but more distant valley of the Genesee had been mostly taken up by immigrants before civilization spread over the hills and along the valleys of Cortland county. The fear of Indian massacre then had not entirely subsided, and at times occasioned distress almost as real as if hostilities actually existed. The wild beasts often claimed a share of the little flocks and herds of the pioneers; and long, weary forest roads to distant mills and markets, for many years, proved a heavy burden to the early settlers in this and many other sections of the State not favored with navigable streams.

CINCINNATUS—was formed from Solon, April 3, 1804. It embraced the township of Cineinnatus, or No. 25 of the military tract, a name applied by the Land Commissioners upon its first survey. The present town is one-fourth of its original size,—having been reduced by the erection of Freetown, Willett, and Marathon, in 1818. It lies upon the eastern border of the county, s. of the center. Its surface consists of the narrow valley of the Otselic River and of the high ridges which rise upon each side. Deep ravines, forming the valleys of small tributaries to the river, extend laterally far into the highlands, dividing nearly the whole surface of the town into steep ridges of hills. The soil is generally a gravelly loam, and best adapted to grazing. Cincinnatus (p. v.) contains about 290 inhabitants, and Lower Cincinnatus I50. The former contains 3 churches and au academy. The first settlers were Ezra and Thos. Rockwell, from Lenox, Mass., who located upon lot 19; and Dr. John McWhorter, from Salem, N.Y., on lot 29, in I795.6 The first church (Presb.) was formed by a union of the people of Cincinnatus, Solon, Taylor, and Pitcher, Chenango co.

1 This read is built along the Tionghnioga Valley, connecting | with the N.Y. C. E. R. at Syracuse, and with the N.Y. & E. R. R. at Burghamton. It has stations at Proble, Little York, Homer, Corthardville, Blodgets Mills, State Bradge, and Marathon.

2 The county courts were first directed to be held at the

schoolhouse on lot 45, in Homer. By an act of April 5, 1810, Joseph L. Richardson, of Auburn, Nathan Smith, of Herkmer, and Nathamel Locke, of Chenango, were appointed commissioners to select the site for a court house, and \$2000 was appro-priated for the erection of the building. The first county officers were John Keep, First Judge; Wm. Mallory, Sheriff; and John M Whorter, Surregate,

8 The Coefficial Courier was established at Homer in 1810 by

Jas, & Saml, Percival. In 1812 H. R. Bender & R. Wash burne became the proprietors, and changed its name to

The Firmers Journal. They sold it to Jesse Searl in 1813, by
whom it was issued as

The Cortland Repository, and continued until 1825. Then Milton A. Kinney became proprietor, and changed its title to

The Cortland Observer. It passed into the hands of S. S. Budford in 1823, and in 1836 into those of — Holmes,
by whom its title was changed to

by whom its title was changed to

The Home Engle. In 1887 it was united with the Cortland Republican, and issued by R. A. Reid as

The Republican and Engle, and continued until 1852. C. B.

Good then became proprietor, and changed it to

The Cortland County Wag. In 1856 it was sold to J. R. Dixon,
and by him it is now published as

The Cortland County Republican.

The Protestant Suitud was started at Homer in 1831 by John

Wasson and continued until 1832.

Maxson, and continued until 1833.

The Cariband Republican was commenced in 1815, at Cortland Vidage, by James Percival, and was continued by hum. by Usborn & Campbell, and by the Campbell Bros., until 1821.

The Western Courier was founded at Homer in 1821 by Roberts

& Hull, and was soon after removed to Cortland Vdlage. | mill, in 1814. In 1824 it appeared as

The Cortland Journal, and in 1832 as

It was published successively by C The Cortland Advocate. It was published successively by C W. Gill, H. S. Randall, and David Fairchild, and in 1845 it was styled

The Cortland Democrat. Seth Haight & H. G. Crouch have been interested in its management; and it is now published by A. P. Cole, as

The Cortland Gazette, which name it received in 1857. The Corticul Gazette, when hame it received in 1883. The Cortinud Chronicle was started in 1828 by Reed & Osborn.

It was sold to R. A. Reed in 1832, and by him called The Anti-Mosonic Republican. In 1833 it was styled The Corticul Republican, and in 1837 it was united with The Homer Eagle.

The Liberty Herald, semi-mo., was published at Cortland Village in 1844 and '45 by E. F. Grabum. The True American and Religious Examiner was started in 1845, at Cortland Village, by C. B. Gould. The following year it passed into the hands of S. R. Ward, was issued by him as

The True American, and continued until 1848 The Republican Banner was started in 1858 by E. D. Van Slyck & P. H. Bateson.

The South Cortland Luminary was published in 1840, at South Cortland, by M. Reynolds.

The Morning Star was published at McGrawville in 1850, and

The Central Reformer in 1858.

4 Cong., Bap., Meth. 5 Cincinnatus Academy was chartered by the regents, April 21, 1857.

<sup>6</sup> Eb'r Crittenden, from Barrington, Mass., removed to the pro-

sent town of Willett in 1793, and to the present limits of this town in 1797. The first child born was Sally Rockwell, the first marriage that of Dr. McWhorter to Katy Young, and the first death that of Isani-Hartshorn.—all in 1796. Mrs. II. Beelon taught the first school, in 1797; Col. John Kingman, the first inn; Elijah Bliss, the first store; and Eph'in Fish coult the first

CORTLANDVILLE-was formed from Homer, April 11, 1829, and embraces the southern half of the original township of Homer, and a small portion of the N.E. corner of Virgil. The name was applied to the town from its being the county seat of Cortland county. It is situated at the junction of the eastern and western branches of the Tioughnioga River, and extends from the central portion of the county to the extreme western border. The surface of much of the town is level; but the eastern and southern parts are hilly. From an eminence just w. of Cortland Village can be seen 7 distinct valleys, separated by ranges of hills radiating in different directions. The ridges are 200 to 400 feet above the valleys; and the southern part of the town is a broken upland region, the hills being arable to their summits. The tributaries of the Tioughnioga in this town are Trout Brook from the E. and Dry and Otter Brooks from the w. A small part of the western portion of the town is drained by streams flowing westward into Cayuga Lake. In the s. w. part of the town are three small ponds, fed by springs, and furnishing an almost unlimited supply of marl, from which an excellent quality of lime is manufactured.\(^1\) The soil is generally a sandy or gravelly loam. Cortland Village2 (p.v.) is finely situated upon the Tioughnioga, near the center of the town. It contains an academy, 3 5 churches, 3 hotels, and a population of 1,576. McGrawville (p.v.) is situated upon Trout Brook, 41 mi. E. of Cortland Village. It contains 3 churches and several manufacturing establishments, and is the seat of the N.Y. Central College. Pop. 558. South Cortland, (p.v.,) in the s.w. part of the town, contains I6I inhabitants. Blodgets Mills is a p.o. The first settlers of this town were Jonathan Hubbard and Col. Moses Hopkins,—the former upon the lot where Cortland Village now stands, and the latter upon lot 94.5 The census reports 9 ehurches in town.6

FREETOWN—was formed from Cincinnatus, April 21, 1818, and embraces the N. w. quarter of that township. Lot 20 of Virgil was annexed in 1850. It is situated upon the ridge between the Otselic and Tioughnioga Rivers, s. E. of the center of the county. It is high and hilly, and its surface is much broken by the narrow ravines of the watercourses which flow n. and s. A considerable part of the more hilly portions is yet covered with the original forests. Its soil is a sandy and gravelly loam, and is best adapted to pasturage. Freetown Corners (p.v.) has 2 churches and about 100 inhabitants. Robert Smith, a soldier of the Revolution, drew lot 2, and, accompanied by his son-in-law, Ensign Rice, took possession of it in 1795.7 The first church (Bap.) was organized in I810, by Elder Caleb Shepard, of Lisle, who was the first preacher.

**HARFORD**—was formed from Virgil, May 2, 1845, and it embraces the s.w. quarter of that township. It is the s.w. corner town in the county. Its surface consists of a high, broken upland, 500 to 700 feet above the valleys and I500 to I700 feet above tide. The Owego Hills, in the central part, are the most elevated portions. The declivities are usually steep, and often rocky, and the summits are crowned with forests. One half of the town is yet a wilderness. The streams are more brooks. The soil is a moderately productive sandy and gravelly loam, best adapted to pasturage. Harford (p. v.) contains 30 houses, and South Harford 20. The first settler was Dorastus De Wolf, in 1803.10 Religious meetings were held as early as 1804; but the first church (Bap.) was not organized till 1815.11

INOMER -was formed March 5, 1794. Solon was taken off in 1798, Virgil in 1804, and Cortlandville in 1829. It lies upon the w. border of the county, N. of the center. Its surface

<sup>1</sup> Crandalls Pond covers an area of 15 acres; Swains, 6, and i ington co., settled on let 22. In 1806, Remembrance Curtiss set-1 Crandalls Pond covers an area of 15 acres; Swains, 6, and Chatterdons, 4. The mart is generally of an ash color when first taken out, but the vegetable matter which it contains whitens upon exposure to the air. When partially dried, it is moulded into the form of bricks, and these are thoroughly dried and burned. The greatest known thickness of these deposits of mart is about 20 feet.—Gol. Third Dist., p. 291. 2 Incorp. 5 The Cortandville Academy, incorp. Jan. 13, 1843. 4 This institution was incorp. in 1850. It was originally started as a manual labor school, and is open to all, without distinction of color or sex.

started as a manual labor school, and is open to all, without distinction of color or sex.

5 In 1795, Thos. Wilcox, from Whitestown, located upon lot 94; Renben Doud, from New Haven, Jas and John Morse, and Joseph Lee, upon lot 75. In 1796-97, Aaron Knapp located near Cortland Village, —— Hotchkiss upon lot 73, and Saml, Inglis and son on lot 75. In 1800, Wilmut Sperry (from Woodbridge, Com) settled on lot 73; and a few settlers came yearly until 1810, when the growth became more rapid. The first inn was kept by Saml, Inglis, in 1810.

6 2 Bap., 2 M. E., 2 Presb., Christian, Ref. Presb., and Univ.

7 About 10 years after, Smith and Rice sold their improvements to Saml, G. Hathaway and Saul, Jennings; and about the same time Caleb Shepard and David H. Munro, from Wash-

the same time Caleb Shepard and David H. Munro, from Wash- Union.

tled on lot 12; and Curtis and Chas. Richardson, from Saratoga co., on lot 32. Henry Gardner, Wm. Tuthill, Jacob Hicks, Gideon co., on lot 32. Henry Gardner, Win, Tuthill, Jacob Blocks, Gideon Chapin, Simeon Boty, John Backus, and Amos Eaton, were among the other early settlers. The first marriage was that of Robert Smith, jr., with Amity Smith. The first school teacher was Don A. Robertson. The first store was kept by Peter McVean, at "The Corners." The first permanent merchant was Walton Sweetland, still a resident of the town.

8 The census reports 3 churches; 1 Baps, 2 M. E.
9 A v. n. (Excelled was catabilished in this part of Virgil In

<sup>9</sup> A p. o. (Harford) was established in this part of Virgil In 1825 or 26. From this the town derives its name. The village was formerly called "Wirthington,"

was normerly careful in Franciscon.

10 Among the other first settlers were Thos, Nichols, in 1804,
John Green, in 1805, Eben Burgess, L. Barns, Gordon Burlingame, Nathan Heaton, Theodore E. Hart, and Levi Moore,
Theodore E. Hart kept the first store, in 1824. The first burth
was that of Dr. Charles Burns; the first marriage, that of Oled was mar of the charles banks; the first indiringer, that of Own. Graves and Alice Munroe; and the first death, that of Mrs. Dorastus De Wolf. Betsey Carver taught the first school, in 1806; Lewis Moore kept the first inn; and Nathan Heaton built the first gristnull, in 1814.

11 The census reports 3 churches; Christian, Cong., and United States.

is quite uneven, consisting of the valleys of the two branches of the Tioughnioga River and the ridges which border upon them. The valley of the western branch is over a mile wide, and elevated 1,096 feet above tide. The eastern valley is narrower. A ridge of hills, 200 to 500 feet above the river, separates the two valleys; and a similar ridge occupies the s. E. corner of the town. The western part is a hilly upland, 1500 to I600 feet above tide. The principal branches of the Tioughnioga are Cold and Factory Brooks, from the w. The valleys of these streams open northward into corresponding valleys, through which flow streams emptying into Otisco and Skancateles Lakes. The soil upon the river intervales is a deep, rich alluvial and dark boam, well adapted to tillage; among the hills, it is a sandy or gravelly loam, better for pasturage. Itomer' (p. v.) is finely situated on the Tioughnioga, 3 mi. N. of Cortland Village. It contains 6 chnrches, a printing office, and several manufacturing establishments, including the only cotton factory in the county. It is the seat of Cortland Academy, an old and very flourishing institution. Pop. 1625. East Homer (p.v.) contains 25 houses, and Little York (p.v.) 15. Spencer Beebe and his brother-in-law, Amos Todd, were the first settlers of this town, and of Cortland county, in 1791.3 The first religious meetings were held in 1793, when there were but 6 families in town; and all attended. The first church (Cong.) was founded in 1801, chiefly through the influence of Mrs. Hobart, wife of Licut. Hobart.4

LAPEER-was formed from Virgil, May 2, 1845, and embraces the s. E. quarter of that township. It lies upon the high ridges w. of the Tioughnioga River, on the s. border of the county, w. of the center. The declivities of the hills bordering upon the river are precipitous. "Luce Hill," in the north western part of the town, is the highest point, and is 1,600 to 1,700 feet above tide. The streams are all small brooks. Upon Fall Creek, near the s. border of the town, is a wild and beautiful cascade, 71 feet high, known as Hunts Falls. The soil is a sandy and gravelly loam. Nearly one half of the town is still unsettled. Hunts Corners contains 10 houses. Lapeer (p.o.) is near the center of the town. There is no church edifice in town.<sup>5</sup> The first settler was Phineas Grant, a colored man.6

MARATHON—was formed from Cincinnatus, April 21, 1818, as "Harrison," embracing the s. w. quarter of the military township. Its name was changed in 1827. It lies upon the southern border of the county, E. of the center. Its surface is rugged and hilly, the ridges rising 500 to 700 feet above the valleys. The Tioughnioga flows through its western part, in a deep, narrow valley with precipitous sides. Hunt Creek in the N. w. and Merrill Creek in the E. part of the town also flow through deep and narrow valleys. The arable land lies principally along these valleys, the uplands being broken and only fit for pasturage. The soil is a sandy and gravelly loam Marathon' (p. v.) contains 3 churches, the oldest of which is the Presh, organized Feb. 11, 1814.8 Pop. 500. Texas Valley is a p. o. in the n. e. corner. Dr. Japheth Hunt, a surgeon of the army, who served in both the French and Revolutionary Wars, settled on Lot 93, in 1794.9

<sup>1</sup> Incorp. May 11, 1835

<sup>2</sup> Incorp. February 2, 1819. This institution, from its com-Priceip, Federaly 2, 1793. Into standard, non-rise commencement, has uniformly borne a high reputation. Samuel B. Woodworth, LL.D., present Secretary of the Regents of the University, was at the head of this institution for nearly 22 years. At a jubilee celebration, held July 7 and 8, 1846, it was stated that 4000 students had been connected with the academy.

Stated that 5000 statems that even connected win the academy.

1 the whole number up to 1859 was over 8,000,

2 They came in the fall, and erected a temporary dwelling, a little 8, of Homer Village, near the bridge, and returned in the winter for their goods, leaving Mrs. Beebe the sole occupant of the house, and the only representative of civilization within a circuit of 30 miles. They were prevented from returning for 6 weeks by the deep snows; and during the whole of that period the lone woman remained in anxious doubt as to the fatte of her husband and brother. Mr. Todd located on let 42, b West Hill." Among the other early settlers were John House, John Miller, Jas. Matthews, Jas. Moore, Silas and Danl. Miller, (from Binghamton.) in 1792; Darius Kinney, (from Brimfield, Mass., in 1793; Roderick Owen, (from Lebanon, N.Y.,) Jonathau Hubbard, and Muses Hopkins, in 1794; Thos. Wilcox, (from Whitestown,) Zebulen Keene, and John Stone, (from Brumfield.) John Keep, Solomon and John Hubbard, and Asa White, in 1795. The first male child born was Homer Moore, and the first female Betsey House; the first death, that of Mrs. Gould Alvord. The first marriage was that of Zadoc Strongand Wid. Russell, who were first marriage was that of Zadoc Strongand Wid. Russell, who were colliged to go through the forest sto Ludlow wille, Tompkins co., on horselack, to have the ceremony performed. The first school-house was built a little x. of Homer Village in 1798. The first school-house was Joshua Ballard. Enos Stimson kept the first inn, and A. M. Coats the first store. The first permanent and successful merchant was Jedediah Barber. John Keep, Sciomon Hubbard, and Asa White built the first grist mill in 1798, on the

present site of that of Cogswell & Wilcox. The old mill for some time was used as church public hall, and hall room.

<sup>4</sup> The first sermon was preached by Rev. Mr. Hillard, of N.J. He was assisting at a raising; and, when it became known that an uninter was present, a sermon was chancrously called for and was delivered on the spot. The census reports 6 churches in town; Cong. Bap. M. E., Prot. E., and Univ. at Homer. in town; Cong. Bap. M. E., Prot. E., and Univ. at Homer, and M. E. at East Homer.

Free Bap. Mcth., and Christian denominations hold meetings in schoolhouses. The Free W. Bap. Society was formed by Elder

Lake in 1820.

6 Among the other first settlers were Peter Gray, (on lot 70.)

<sup>&</sup>lt;sup>6</sup> Among the other first settlers were Peter Gray, (on lot 70.) Robt. K. Wheeler, and Thomas Kingsley, who came in 1802; Seth Jennings and Timothy Roberts, in 1805; Zac'h Lynes, John R. Smith, Urial Sessions, Simeon Luce, Avery Hartshorn, and H. J. Richards. The first marriage was that of Simeon Luce and Robecca Ayres, Oct. 9, 1805; and the first death, that of Simeon Luce, in 1808. Ebenezer Luce taught the first school, in 1814; and Harvey Jennings built the first mill, in 1813.
7 About one miles of the village on they body of the virus.

<sup>7</sup> About one mile s. of the village, on the E. bank of the river, is the site of an old Indian village and burial ground. Tradition says that this was once the seat of a powerful tube of Indians.

<sup>8</sup> The census reports 4 churches; 2 Presb., Bap. and M. E.

9 Among the other pioneer settlers were John Hunt, in 1796;
Abram Brink, (first innkeeper.) Barnabas Wood and Son, and
Zachariah Squires, in 1802. The first child born was S. M. Hunt, a
grandson of the first settler; the first marriage, that of Nicholaa
Reink and D.M. Allechan, the first half of the first Brink and Polly Alfred; and the first death, that of the first settler, in March, 1808, aged 97 years. Wm. Cowdrey taught the first school, in 1803; John Hunt built the first saw mill; and Weed & Waldo, James Burgess, and David Munroe were the early merchants. The first successful mercantile firm was that

PREBLE—named in honor of Commodore Edward Preble, was formed from Tully upon the organization of Cortland co., April 8, 1808, and embraced the southern half of the latter town. Scott was taken off in 1815. It lies upon the northern border of the county, w. of the center. Its surface consists of the valley of the western branch of the Tioughnioga River, which is here nearly 2 miles wide, and the ridges which rise on the E. and W. Mount Toppin, s. W. of the village, is 1,700 feet above tide; Truxton Hills are the highest land in the county. The declivities of the hills are steep, and some of their summits sharp ridges. North of Mount Toppin a valley extends northward and opens into the valley of the Otiseo Inlet. In the northern part of the town are several beautiful little lakes; and upon the southern borders are others of a similar character, known as the Little York Lakes. The soil is a fine quality of gravelly loam. Preble Corners (Preble p.o.) contains 200 inhabitants, and **Rattimore** 75. The first settlers were James and Robert Cravarth, John Gillett, and Elijah Mason, who came in 1798. The first church (Cong.) was formed through the efforts of Revs. Theodore Hinsdale and Joel Hall, missionaries from Conn.<sup>2</sup> Rev. Matt. Harrison was the first pastor.

SCOTT—was formed from Proble, April 14, 1815, and named in honor of Gen. Winfield Scott. It is the N. w. corner town of the county. Its surface is mostly upland, broken by two deep and narrow valleys which extend n. and s. through the town. The declivities of the hills are very steep, and in many places precipitons. Cold Brook flows through the eastern valley, and Factory Brook and Skaneateles Inlet through the western. Skaneateles Lake borders upon the N.W. corner. The soil is a sandy and gravelly loam, and is best adapted to grazing. Scott Center (Scott p. o.) contains about 300 inhabitants. Scott Corners (East Scott p. o.) is a hamlet. Peleg and Solomon Babcock and Asa Howard (from Mass.) and George Dennison (from Vt.) located on lot 82 in 1799.3 The first church was a Seventh Day Baptist, organized in 1820, Wm. B. Maxson first pastor.4

SOLON—was formed from Homer, March 9, 1798, and embraced the townships of Solon and Cincinnatus. A portion was annexed to Truxton, April 4, 1811. Cincinnatus was taken off in 1804, and Taylor in 1849. It is an interior town, lying near the center of the county. The surface is mostly upland, broken by numerous narrow valleys of small brooks and creeks. The hills on the eastern border are 1400 to 1500 feet above tide. Many of the highest summits are too rough for cultivation, and are crowned with forests. Trout Brook flows in a westerly direction through near the center, forming a narrow but fertile valley. The soil is a gravelly loam, well adapted to grazing. Solom (p.v.) contains about 100 inhabitants. The first settlers were Johnson Bingham and Eddy Wildman, from Canterbury, Conn., who located, the former on lot 62, and the latter on lot 51, in 1796.5 The first church was formed in 1804, Rev. Josiah Butler the first preacher.6

TAYLOR—was formed from Solon, Dec. 5, 1849, and named in honor of Gen. Zachary Taylor. It lies near the center of the eastern border of the county. Its surface is mostly upland and is very broken and hilly. The declivities are generally precipitous, rising 600 to 800 feet above the valleys. Mount Rhoderick, lying partly in this town and partly in Solon, is the highest point, The streams are mere brooks, generally flowing in a southerly direction and discharging their waters into the Otselic. Solon Pond is a small sheet of water near the center of the town. The soil is a sandy and gravelly loam. **Taylorville**, (Taylor p. o.,) or "Bangall," contains 25 houses, and Union Valley (p. v.) 20.7 The first settlers were Zerah Beebe, a Revolutionary soldie: Latus Beebe, his son, and John Tinker, his son-in-law, from Waterbury, Conn., in 1794.8

<sup>1</sup> Among the other first settlers were Amos Skeel, Seth and Samuel Trowbridge, Richard Fgbertson, Samuel Orvis, Jabez R. Phelps, Ed Cummings, and Francis, Albert, and Garret Van Hoesen. The first child born was Nancy Gill; the first mar-riage, that of Amos Ball and Sally Mason; and the first death, that of John Patterson, a Revolutionary patriot, in 1799. Buth Thorp taught the first school, in 1801; Davis & Taylor kept the first store, and Moses Nash the second; Samuel Trowhrige kept the first inn.

<sup>2</sup> The census reports 2 churches; 1 Presb., 1 M. E.

<sup>8</sup> Among the other first settlers were Cornish Messenger and Daniel Jakeway, (from De Ruyter, Maxon Babcock, (from Mass.) Gershom Richardson, Jared and John Babcock, Elisha Sabins, Henry and Jesse Burdick, Timothy Brown, and Nathl, Morgan. The first child born was Harriet Babcock; the first marriage, that of Solomon Babcock and Amy Morgan, and the first death, that of an infant daughter of Peleg Babcock. Amy Morgan taught the first school, in 1804; James Bahcock kept the first inn, and Nathan Babcock the first store.

<sup>4</sup> Besides this, there are in town 3 societies; Bap., M. E., and Presb.

Among the other first settlers were Benj. Beebe, Lewis Namong the other inst sectors were Benj. Beebe, Beebe, Grat innkeeper, Daniel Perter, Zerah Tinker, Jas. II. Wheeler, Elisha Johnson, Saml. G. Hathaway, Stephen N. Peck, and Noah Greeley, (first mill owner.) The first child boun was a daughter of Johnson Bingham; the first marriage, that of Robt, Smith and Amy Smith, and the first death, a daughter of Johnson Bingham. Roxana Berbe and Lydianna Stewart taught the first school, in 1804; and B. Tubbs kept the first store, <sup>6</sup> The census reports 2 churches; 1 Bap. and 1 R. C.

<sup>7</sup> The census reports 5 churches; Bap., Cong., Wes. Meth.,

<sup>2</sup> M. E.

8 The first child born was Kezia Beebe; the first marriage,
Detter and they Beebe; and the first death, that that of Asaph Butler and Lucy Beebe; and the first death, that of Zerah Beebe, in 1800. — Beers taught the first school, in 1810; Orlando Beebe kept the first inn, Hurlbut & Gilbert the first store, and Ezra and Thos. Rockwell built the first saw mill, in 1816.

TRUXTON - named in honor of Commodore Thomas Truxton, was formed from Fabius, April 8, I808, and embraced the s. half of the latter town. The N. 4 tiers of lots of Solon were annexed April 4, 1811. Cuyler was taken off in 1858. It is the N. E. corner town of the co. The surface consists of a broken upland divided into ridges, which have a general northerly and southerly direction. The east branch of the Tioughnioga River flows in a s. w. direction through the center of the town, cutting the ranges of hills diagonally. The Truxton Hills are the highest in the co. North of the river, nearly the whole surface is divided into sharp ridges with steep declivities, their summits being technically termed "hog backs." Muneey Hill, in the s. E. part, the highest land in town, is a wild, broken region, poorly adapted to cultivation. On the N. border is a small lake known as Labrador Pond, noted for its wild and picturesque scenery. Upon a small brook, which flows into the outlet of this pond from the E., is a beautiful eascade, ealled Tinkers Falls. The soil is generally a sandy and gravelly learn. In amount of dairy products this town is one of the first in the State. **Truxton** (p. v.) contains 257 inhabitants, and **Cuyler** (p. v.) 112. Keeney Settlement is a hamlet on the N. line. There are in town a woolen, a sash and blind, and butter tub factory, and an extensive carriage shop. The first settlers were Saml. Benediet, Chris. Whitney, and Jonas Stiles, in 1795, who located on Lots 12, 93, and 2, respectively. The first church (Bap.) was formed in I806, under Eld. Rufus Freeman.<sup>3</sup>

VIRGIL—was formed from Homer, April 3, 1804. Harford and Lapeer were taken off in 1845. A small portion of its E. part has been annexed to Cortlandville and Freetown. It lies upon the w. border of the county, s. of the center. Its surface is a broken and hilly upland. The Owego Hills, in the s. w. part, are about 600 feet above the valleys and 1600 to 1700 feet above tide. The valleys are narrow, bordered by the steep declivities of the hills. Virgil Creek, flowing w., and Gridley Creek, flowing E., are the principal streams. The soil is a sandy and gravelly loam, and is best adapted to grazing. Virgil (p. v.) contains 206 inhabitants, and East Virgil (p. v.) about 60. State Bridge (Messengerville p. o.) is a R. R. station. Franks Corners is a hamlet in the s. w. part. The first settler was Joseph Chaplin, in 1792. The first religious meeting was held in 1802; and the first church (Cong.) was formed, Feb. 5, 1805, by Rev. Seth Williston.

WILLET—was formed from Cincinnatus, April 21, 1818, and was named in honor of Col. Marinus Willett, of Revolutionary memory. It lies in the s. e. corner of the county. Its surface consists of the narrow valley of the Otselic River and of the high ridges which rise on either side. The uplands are broken by the narrow ravines through which the small streams flow. Nearly one-third of the town is yet unsettled, the surface being too rough for profitable cultivation. In the n. w. part of the town is a small lake, known as Bloody Pond,—its sanguinary name having been bestowed in consequence of the vagaries of delirium tremens. The soil is a sandy and gravelly

known as 'The States Hundred.' By giving notice that he wished to retain his land together, and paying \$8,00 for the survey, the patentee could retain the whole lot. In default of the payment, the State retained 50 acres of the Mie Synare, called the 'Survey of Fifty Acres.' "As an illustration of the hardships to which the pioneers of this town and co, were subjected, we extract the following:—'In the spring of H75, John E. Ree came on term Uster co, and made a beginning on his left,—the same occupied till recently by himself and family,—boarding with Mr. Frank. He cleared a spot, put up the body of a log house, split plank and laid a floor, peeled lark for a roof, and carried with a man in Homer to put it on. He also cut and carred with a man in Homer to put it on. He also cut and carred some of the wild grass growing in the swamp, for hay, and returned. Preparations were then made for moving on; which was done in the winter following. He and his who came in a sleigh, with a young cow following them. When they came to the river, opposite Mr. Chaplin's, they found the water high, and the cance that had been used in crossing carried away. Mr. Chaplin's hog trough was promered, and Mrs. Row was safely carried over in it. She then stood upon the bank to await the crossing of what remained. The horses, being urged in, swam across with the sleigh, the cow following and came near being carried away with the current, but, after a hard struggle, made the shore in safety. They put up for the night, the horses being fastened to the sleigh, (as no accommodations could be produced, and they are out the flag bottoms of the chairs to alay the keen demands of appetite. The snow was two feet deep, with no track, and the whole day was consumed in coming from the river to their new home. When they surved, they were surprised to find their house without covering, consequently the snow as deep in it as out of it. Persons of hes perseverance would have been disheart ned. But no time was to be lost. The snow was cleared away from a

4 Mr. Chaplin was engaged to open a road from Oxford to Caynga Lake, which he commenced in 1792 and finished in two years. This road was 60 mi, in length, and it became the thoroughfare for emigrants. Mr. Chaplin brought in his family from Oxford in the winter of 1794–95. Among the other first settlers were John M. Frank, John Gee, John E. Roe, James Wright, Jas. Knapp, Jas. and John Ghenny, Joseph Bailey, and Enos Bouton. The first flock of sheep, brought in by Mr. Frank, ware all destroyed by the wild animals. Mr. Roe and Capt. Knapp killed 15 wolves in one year. The first child born was a son of Joseph Chaplin; the first marriage was that of Buluff Whitney, of Dryden, and Susan Glenny, in 1800; and the first death was that of a stranger, named Charles Hoffman, who was a son of Joseph Chaplin; the first marriage was that of Buluff bright of the woods in April, 1798. Chas, Joyce was the first teacher; Peter Vamlerlyn and Nathl. Knapp built the first grist mill, in 1805; Daniel Edward built the first saw mill in 1801, and brail. Sheldon kept the first store, in 1807. As early as 1828, in a series of articles in the "Cortland Observer" Nathaniel Bouton, and brail. Sheldon kept the first store, in 1807. As early as 1828, in a series of articles in the "Cortland Observer" Nathaniel Bouton, as farmer in this town, strongly advocated the construction of a R. R. through the southern tier of counties. From the proceedings of a "Festive Gathering" of the early settlers and inhabitants of the town of Virgil we make the following extracts:—

"The practice of the town of Virgil we make the following extracts:—

"The practice of the town of Virgil we make the following extracts:—

<sup>1</sup> Mr. Crittenden embarked, with his wife, child, and goods, upon a rade boat, at Chemango Forks, and with a paddle and setting-pole worked his way up the rapid current of the fronzing-pole worked his way up the rapid current of the Tourzhnioga and Otselic Rivers to his place of settlement. For years he was the sole inhabitant of the town. Almong and these were the first deaths in town. The first school was the other first settlers were Jaber Johnson, (from V.) Benj. Wilson, (from Westchester co.) John Fisher, Thos. Gayley, 2 Formed since 1855.

## DELAWARE COUNTY.

This county was formed from Ulster and Otsego, March 10, 1797.1 It lies upon the headwaters of Delaware River, from which it derives its name. It contains an area of 1,580 sq. mi., and is centrally distant 70 mi. from Albany. Its surface is a hilly and mountainous upland, divided into 3 general ridges by the valleys of the 2 principal branches of Delaware River. This upland region is a connecting link between the Blue Ridge upon the s, and the Catskill and Helderbergh Mts. on the N. In the s. part of the co. these ridges form a mountainous region, with lofty, rocky peaks and precipitous declivities broken by wild and narrow ravines. In the N. the highlands are less wild and precipiteus, and the whole region assumes the character of a rugged, hilly upland.2 The main or w.

branch of the Delaware3 River takes its rise in Utsyanthia Lake,4 a small sheet of water upon the N.E. line of the co. It flows 60 mi. in a s.w. direction to the w. border of the co., thence turns abruptly to the s. and forms the s. E. boundary of Tompkins and Hancock. In its course in the co. it descends about 1000 feet. Pepachton River, the E. branch of the Delaware, rises in Roxbury and flows 60 mi. s. w., uniting with the Delaware at Hancock. The Susquehanna forms a portion of the N. boundary of the co. Charlotte River and Oulcout Creek are tributaries of the Susquehanna. The other streams are creeks and brooks, principally tributaries to the 2 branches of the Delaware. The valleys of these streams are usually narrow, and bordered by steep hills which often rise into mountains. The rocks of the co. mostly belong to the old red sandstones of the Catskill division.

The mineral wealth of the co. is limited to stone useful for building and flagging, of which large quantities of a fine quality are found. Vague traditions of silver and lead mines have here, as in other counties, haunted the brains of dreaming adventurers. A brine spring is reported 4 mi. x. w. of Delhi Village, and 1384 feet above tide, another 3½ mi. from Colchester, and several chalybeate springs in various parts of the co.; but none of them are important. The soil is generally of a dark reddish color, composed of the disintegrated sandstone and shale. In the valleys are occasionally narrow strips of fertile alluvium. Dairying is at present the leading occupation of the people. The numerous fresh springs of water issuing from its hillsides,7 the fresh herbage, and bracing mountain air, seem peculiarly adapted to this business.8 Lumber was formerly rafted in large quantities to Philadelphia; but, although still extensively exported by R. R., the quantity is diminishing.9 Since the completion of the R. R., tanneries have sprung up in favored localities, and will continue until the supply of bark is exhausted. The other manufactures are chiefly limited to the local wants of the inhabitants. The immense amount of water power in the co. will greatly facilitate the establishment of manufactories whenever the exigencies of the co, may demand them.

1 The w. branch of the Delaware was formerly the boundary The w. branch of the Pentwate was returned to be common fine between this co, and Broome was run according to the treaty of Fort Stanwix of Nov. 5, 1768, and was known for a long period as the "Line".

of Nov. 5, 1495, and was an ......
of Property."

2 The following is a list of elevations above tide, principally derived from the State Road Survey in 1825, and various R. R. surveys of more recent date:—

3 Otherwise called the "Mohawk Branch of the Delaware," and by the Indians "Cookanaya" or "Greenaya," 4 This lake is often mentioned in early documents. In colo-

nial times it was at one of the angles of Albany co.

5 Sometimes written Popacton, Papotnuk. In the Government returns the p.o. named from the river is written Poparton. 6 Beck's Mineralogy N. Y. p. 100.

7 The first court held in the co, adopted as its seal the device f a "stream of water issoing from a high mountain."

8 In amount of butter this co, ranks second only to St. Law-

rence.

9 In number of sawmills that to, is now surpassed by none but Stenben and Oneida.

The co. seat is located at Delhi. The present courthouse was creeted in 1820. The co. clerk's office and jail<sup>3</sup> are in separate buildings, adjacent to the courthouse. The poorhouse is an old, two story wood building, situated upon a farm of 175 acres about 2 mi, s. of Delhi Village. The average number of inmates is 65, supported at a cost of \$1,00 per week each. The farm yields an income of \$250. The N. Y. & Erie R. R. extends along the Delaware, and the Albany & Susquehanna R. R. through the N. W. corner. Soon after the completion of the N. Y. & E. R. R., in 1849, plank roads were built, extending from several of the stations into the interior of the co.4

The co, has 7 weekly newspapers.<sup>5</sup>

The Hardenburgh Patent,6 cmbracing 10 mi. square, lying s. of the E. branch of the Delaware, was granted April 10, 1708, to Johannes Hardenburgh, of Kingston, Ulster co., and associates, who had previously purchased the lands of the Indians. A tract of 250,000 acres, between the w. branch of the Delaware and a line a mi, E. from the Susquehanna, was bought from the Indians at "Johnson Hall," Montgomery co., June 14, 1768, by John Harper, Sen., and Gen. Wm., Joseph, and Alex. Harper and others. On the s. r. side it extended from Utsyanthia Lake down the Delaware to the mouth of a small stream called Camskutty. Within this tract 5 towns, with full privileges of townships, were created by patent in 1770; but in none of them was an organization ever effected under this authority.7

Under their grant of 10 mi, square the proprietors of the Hardenburgh Patent claimed all the land between the branches of the Delaware, and leased it to actual settlers.8 In 1844, the settlers, who had previously paid annual rents, refused longer to submit to what they believed to be a wrong and fraud, and they called for legislative and judicial aid. In the mean time, the lessors prosecuted for rent. In 1845, associations were formed to prevent the collection of rent; and when the sheriff attempted to make a levy, or to sell property for rent, men disguised as Indians appeared to prevent the sale, determined thus to stay proceedings until the question of title should be legally settled.

1 The courthouse was located by the judges, justices, and | represents and the sum of \$100 was granted April 4. 1798, for the crection of the co. buildings, on a lot given by Levi Baxter and George Fish. Under an act of March 28, 1806, the sheriff's mileage was reckoned from the courthouse; and under an act of June 18, 1812, a tavern was allowed to be kept in the The courthouse and jail was burned April 17, 1820. and a prisoner confined for some trifling offence perished in the figures. An act passed April 11, 1820, authorized a foan of \$8000 for rebuilding, and the present edifice was creeted in the sum-mer of that year. About a dozen prisoners, on "the limits" at the time the jail was burned, were released upon bail; and it happened that while the co. was without a jail there was no occusion for its use; but within a few hours after a prison room was so far completed as to hold a prisoner, it was needed and

2 Supervisors' meetings and courts were held at the house of Gideon Frisbie until the courthouse was completed. The first co, officers were Joshua II. Brett, First Judge; Patrick Lamb, Wm. Herton, and Gabriel North, Judges; Isaac Hardenburgh and Alex, Leal, Asst. Justices; Ebenezer Footo, Clerk; Elias Butler, Sheriff, and Anthony Marvin, Surrogate.

The jail is of wood, warmed by furnaces. It contains 4 rooms, and generally has I or 2 inmates.

<sup>4</sup> During the first 10 years of this century several turnpikes were built through this co., and these tended greatly to promote settlement, by opening routes to market.

<sup>5</sup> The Delaware Gazette was established at Delhi, Nov. 18, 1819, by John Jas. Lappan. In 1833 it was sold to A. M. Paine, by whom it is now published.

The Debaware Republican was started at Delhi, July 4, 1822, by
Elijah J. Roberts, and was continued about 2 years.

The Delaware Journal was started at Delhi in 1834, by Geo.
Marvine, and was continued 1 year. It was revived by Bonne & McDonald, but was again discontinued.

The Delaware Express was started at Delhi, in Jan. 1839, by Norweod Bowne, the present publisher.
Voice of the People, an anti-rent paper established at Delhi in 1845, by Wm. S. Hawley, was continued about 4 years.
The Deposit Courier was started in March, 1849, by C. E. Wright, and was continued till May, 1853. From in Sept. 1853, Sylvester D. Hulse issued From the same office.

The Deposit Union Democrat, and still continues to űblish it

The Bloomville Mirror was begun May 28, 1851, by 5100mwille Mirror was begin May 28, 1851, by S. B. Champion. The first number contained but 161 words, and till July no price was fixed. The "office," located in the corner of a mill, consisted of 10 lbs, of type without a press; and the paper was "printed" by striking with a mallet on a block laid over the type. It has grown into respectable size, and has an unusually large putronage for a country newspaper. It is now printed on a power press.

10bart Free Press was started Jan 1855 by P. D.

The Hobart Free Press was started Jan. 1855, by E. B. Fenn.

The Weekly Visiter was commenced April 14, 1855, at Franklin, by Geo. W. Reynolds. It has been changed to

The Franklin Visitor, and is still published. The Walton Journal, commenced in 1856 by E. P. Berray, was

continued 2 years

The Village Record was established at Hobart in 1856, by G. W. Albright,

The William Blade was commenced in 1856 by E. P. Berray, but

was soon after discontinued.

6 Most of the Haidenburgh Fatent was surveyed by Ebenezer Wooster, in 1749; and in that year the proprietors released to each other certain lots, bounded by monuments on the belaware and Fapakunk Ritvers. After the Revolution it was found that the monuments were lost, and an act, passed March 29, 1799, appointed Charles Tappen and Jas. Cockburn commissioners to make a survey of certain lines, to be properly marked by stone heaps every 2 mi, along the division lines. The tract was divided into great tracts, numbered from 1 to 42. Of these, 35 to 42 lay between the branches of the belaware, and parts of 2 to 8.8 of the E. branch. was soon after discontinued.

to 8 s. of the E. branch. 7 These towns were as follows:

Names of Townships.	Date of Patent,	Acres.	Patentees.
Bedlington,	May 24, 1770,	27,000	John Lake and asso- ciates.
Franklin,	Feb. 26, 1770,	30,000	Thomas Wharton and Reese Meredith.
Goldshorough,	June 15, 1770,	6,000	Edward Tudor, Ber- pard Ratzer, and John Clark.
Strasburgh,	Dec. 4, 1770,	37,000	John Butler and asso- ciates.
Whiteborough,	March 10, 1770,	38,000	Henry Wbite and as- sociates.

The quitrents of these lands were fixed at 2 shillings sixpence per 100 acres, payable annually on the Feast of the Annunciation of B. V. M. There was generally in the patent 1 name to each 1000 acres of the grant, although the bona fide owners were usually few in numbers.

8 A select committee of the Assembly, in 1846, reported the following tracts under lease in this co.: Kortright Patent, 20,000 acres, mostly leased in fee, at sixpence sterling per acre. It was offered for sale at \$2 per acre. Desbrosses Tract. (Harden-burgh Patent.) 60,000 acres, mostly leased in fee between 1790 and 1807, at 1 shifting per acre after the first 7 years. Farms from 100 to 200 acres. Morgan Lewis Estate, 20,000 acres, about from 100 to 200 meres. Margan Lewis Estate, 20,000 acres, about 15,000 under perpetual lease, at 20 bash, of wheat per 100 acres after 15 years for the first 5 of the 15 years it was rent free, 5 years for one-balf rent, and 5 for three-quarters. 6, and N. Ferplanck, 3 tracts, originally 50,000 acres, of which less than 20,000 were under lease. R. R. Livengston and Mrs. Moreomery, 20,000 acres, under perpetual lease, on a rent of 20 bash, of wheat per 100 acres. Gen. Armstrong. 8,000 acres, under lease for 3 lives, at 20 bash, of wheat per 100 acres. Hunter's and Opering's large tracts in this co., Sullivan, and Greene, in 600 with a vent of 12% to 15 or 18 cents per acre. fee, with a rent of 123 to 15 or 18 cents per acre.

An act was passed, Jan. 25, 1845, forbidding persons from appearing disguised and armed, under a penalty of imprisonment in the co. jail for a term not exceeding 6 months. Persons thus armed and disguised might be prosecuted under the fictitious names they assumed, if their real names could not be discovered; and such persons assembling in public houses or other places to the number of three or more might, upon conviction, be imprisoned 1 year in the co. jail. If convicted upon an indictment for a conspiracy or riot or other misdemeanor, in which offense they were armed with deadly weapons, they were further liable to a fine not exceeding \$250, with or without a year's imprisonment. In a few cases these laws were disregarded; several arrests were made, and the co. was declared in a state of rebellion. Aug. 7, 1845, Sheriff Moore, accompanied by P. P. Wright, went to the town of Andes to sell the property of Moses Earl upon execution for rent. There he found 176 men armed and disguised, who told him to do his duty, and they would protect him: "bnt," said they, "let bidders beware." The sheriff and Indians drove the cattle near the road, the Indians forming a semicircle about the property. At this crisis Dept. Sheriffs Osman N. Steele and R. Edgarton (whom Sheriff Moore had requested not to come to the sale) appeared on horseback, jumped their horses over the fence, were joined by Wright, and rode into the midst of the Indians, flourishing their revolvers and firing several shots. The Indians gave ground; but the chief ordered them to shoot the horses. Several shots were made, killing the horses of Steele and Edgarton, and mortally wounding Steele, who survived but a few hours. The Governor immediately issued a proclamation declaring the co. to be in a state of insurrection, and placing it under martial law. A battalion of 300 militia, one-half of whom were mounted, were called out and placed at the disposal of the local officers.2 They continued in service several months. The mounted men were actively employed the first 2 or 3 months in small detachments, aiding the civil authorities in making arrests, and in patrolling day and night such districts as the exigency of the service required. The residue was employed in guarding the jail, and as foot patrols in the vicinity of Delhi on the occasion. On two occasions detachments of troops attended the sheriff to State prison with prisoners.3

ANDES'—was formed from Middletown, April 13, 1819. It lies on the s. E. border of the co., E. of the center. Its surface is a broken and hilly upland, intersected by the deep, narrow ravines of the E. branch of the Delaware and its branches. The hills are high, rocky, and irregular, and are bordered by steep declivities.5 The Dclaware flows s. w. through near the center of the town. Trempers Kil, Little Bush Kil, and Shaw Brook are the other principal streams. The valleys of these streams are all narrow and tortuous and are bordered by rocky hillsides. A considerable portion of the town is still covered with forests. The soil is a clayey and shaly loam underlaid by hardpan upon the hills, and a gravelly loam of good quality in the valleys. Andes, (p.v.,) on Trempers Kil, in the N. part of the town, contains an academy, 6 3 churches, a flouring mill, and 2 tanneries. Pop. 350. Cabin Hill, (p. o.,) in the n. w., is a hamlet. Shavertown and Trempers Kil are p. offices. Permanent settlement commenced in 1784. A few farms were taken up prior to the Revolution, but were abandoned. The w. part of the town began to be settled in 1794-96. Rev. Mr. House, of Colchester, held the first religious meetings, in 1797.

BOVINA9—was formed from Delhi, Stamford, and Middletown, Feb. 25, 1820. It is an interior town, lying directly E. of the center of the co. Its surface is a hilly upland, broken by the deep valleys of small streams. The highest summits are 1500 to 2500 ft. above tide. The streams are Little Delaware River, flowing w. through the center of the town, Bush Creek, the outlet of Teunis Lake, and Coulter, Maynard, Mountain, and Grants Brooks. The valleys of these streams

<sup>&</sup>lt;sup>1</sup> For full particulars see Governor's Message in 1846, and Gould's Hist, Del. Co., Chap. xii. About 90 persons were indicted for the nurder, of whom enethird were arrested. Two (O'Conner and Van Steenburgh) were convicted and sentenced to be executed, but their punishment was commuted to State prison for life by Gov. Wright, and they were fully pardoned by Gov. Young. The co. remained under martial law from Aug. 18 to Dec. 22, 1845. The murder of Steele led to the speedy abandonment of secret organizations and Indian costumes.

dominent of secret organizations and Indian costumes.

A company of volunteers under Benj. T. Cook, and another under John R. Baldwin, were formed, and organized into a battalion under Thomas Marvine as major. A company of light infinitry from Unadilla, under Capt. Bolles, was also called out, and reported themselves to Maj. Marvine.

Adjutant General's Report: Assem. Doc. 6, 1846. The whole expense of this service was \$65,683.20, which was charged to the co., but has never been repaid. Considerable tracts of land have since been convexed in feer and of others the rort is now real.

since been conveyed in fee; and of others, the rent is now paid as formerly, and if in arrears, suits are instituted without diffi-

<sup>4</sup> Named from the monntainous character of its surface.

<sup>5 &</sup>quot;Mt. Pisgah" is the highest point between the two branches of the Delaware. By a R. R. survey from Oneonta by way of Elk Creek, Delhl and Fish Lake, the Fish Lake summit is ascertained to be 1640 ft. above tide. By another route, up the Little Delaware and Coulters Brook, the highest point on the line was almost the same height. Mt. Pisgah measured 1800 ft. above this, or

the same height. Mt. Pisgah measured 1800 ft. above this, or about 3400 feet above tide.

6 Erected by Henry Dowie in 1847. It is not incorp.

7 Among the first settlers were James Phenix. — Olmsted, Peter Burgher, Joseph Erskine, Silas Parish. E. Washburn. Eli Sears, Jacob, Adam, and Philip Shaver, and Philip Barnhart. The first birth was that of Philip, son of Adam Shaver, Oct. 9, 1786; the first marriage, that of Henry Myers and Cathaine Shaver, June 17, 1789; and the first death, that of Wm. June. Wm. Washburn tanght the first school, in 1792-93; Edward Sands kept the first store, Russell Comstock the first inn, and Robt. More built the first mill on Trempers Kil in 1797.

<sup>&</sup>lt;sup>8</sup> The census reports 8 churches; 2 Asso. Ref. Prot., and 1 each Bap., O. S. Bap., Cong., M. E., Presh., and Union.

<sup>9</sup> Name applied by Gen. Erastus Root, from the Latin, in allu-

sion to its fitness for grazing.

are narrow and are bordered by steep, rocky hillsides. Teunis Lake1 (s.) and Landons Lake (w.) are small bodies of water. The surface is stony, and the soil is generally a clay loam, admirably adapted to grazing. Brushland, (p.v.,) on the Little Delaware, contains a tannery, gristmill, and clothing works. Pop. 183. Bovina, (p. v.,) at the junction of Mayuard and Mountain Brooks, contains about a dozen houses. first settlement was begun in 1792, by Elisha B. Maynard, and during the succeeding 3 years many families from Conn. and Scotland located in the valleys.4 Rev. James Richic conducted the first religious services, in 1795. The first church (Un. Presb.) was formed in 1809. The census reports 3 churches; M. E., Asso. Presb., and Ref. Presb.

COLCHESTER5—was formed from Middletown, April 10, 1792. A part was annexed to Walton in 1799; Hancock was taken off in 1806, and a part of Walton was auuexed in 1827. It occupies a central position upon the s. E. border of the co. Its surface is a mountainous upland, broken by the narrow valleys of the streams. The E. branch of the Delaware flows westward through the N. part of the town, dividing the highlands into two distinct parts. From the N. it receives West Trout, Downs, and Coles Brooks, and from the s. Clearwater and several smaller brooks. Beaver Kil flows through the s.w. corner, receiving Spring Brook as a tributary. The valleys of these streams are all narrow, and many hundred feet below the summits of the hills which rise on either side. The soil is a reddish clay, and is often very stony. A considerable share of the surface is still covered with forests. Lumbering is extensively pursued. Downsville, (p. v.,) on the Delaware, at the mouth of Downs Creek, contains 3 churches. Pop. 206. Pepacton and Colchester are p. offices. The first settlement was begun in May, 1774. The first religious services (Bap.) were conducted by Elder Haynes, and the first church (Bap.) was formed in 1803. There are now 2 churches in town; M. E. and Presb.

DAVENPORT<sup>8</sup>—was formed from Kortright and Maryland, (Otsego co.,) March 31, 1817. It lies along the N. border of the co., E. of the center. Its surface is a broken upland, divided into two ridges by the valley of Charlotte River, which extends E. and w. through the center of the These ridges are subdivided by the narrow, lateral valleys of tributaries of Charlotte River. The soil is a chocolate colored clay loam mixed with slate. Fergusonville, 9 (p.v.,) on Charlotte River, on the E. border of the town, contains an academy, 10 a church, and several manufacturing establishments. Pop. 125. **Davenport**, (p. v., ) 3 mi. below, contains a population of 95. Davenport Center (p. v.) contains a cradle and rake factory and 5 sawmills. Pop. 125. West Davenport<sup>11</sup> (p. v.) contains a woolen factory, 3 sawmills, and 90 inhabitants. The first settlers were Daniel Farnsworth and ---- Pross, who located upon the present site of Davenport Center in 1786.12 At that time an Indian trail, of sufficient width to admit the passage of wagons, extended along Charlotte River. Elder Mudge (M. E.) conducted the first religious services, and commenced regular preaching in 1813.13

DELIHII-was formed from Middletown, Kortright, and Walton, March 23, 1798. A part of Bovius was taken off in 1820, and a part of Hamden in 1825. A part was annexed to Walton in

<sup>1</sup> This lake lies near the foot of Mt. Fisgali, and its shores are muddy, and covered with bushes and coarse grass. It was named from a friendly Indian who saved the early settlers of Mt. History Sutton, Jas. Miller, and Dennis, Jared, and John Hitt. The first birth was that of Catharine, a danghter of Wm. Roc. Dec. Mt. History form massacre by giving them a timely warning. His hut was near the lake, and he remained several years after Doll opened the first store, and bnit the first bridge across the the war. Tradition attributes to this region rich lead mines known only to Indians.

and the control of th 4 Francis Coulter, Levi and Jacob Mahie, Jas. Kidzie, Andrew Chisholm, Jas. Ray, Thos. Liddle, Sam'l Davis, and A. Nichols, were early settlers. The first birth was that of Elisha H., son of Elisha B. Maynard, Ang. 26, 1793; the first marriage, that of Jas. Russell and Nancy Richie, in 1799; and the first death, that of Hezekiah David, in 1798. — Edwards taught the first school, in 1808; James Wetmore kept the first inn, at the "Hook;" Rohert Hume the first store, at Brushland; Stephen Palmer built the first mill. in 1796, for Gov. Lewis; and John Jerome the first factory, in 1808.
6 Name applied by Joseph Gee, from Colchester, Conn.
6 Named from Abel Downs, who erected there extensive tanneries and mills.

neries and mills.
7 Timothy Russell, Thos. and John Gregory, (from Westchester co.,) Frederick Miller, (still living, 1859, aged 100 years.) Jas. and S. Shaver. Silas Bowker, Peter. Harry, and Nehemiah Avery, Jacob Brambart, Daniel and Wm. Parish, and Wm. Rose, began settlement before the war, but were driven off by the Indians and tories. Before leaving they buried their iron implements, to preserve them. After the warseveral of the families returned,

river at the place now known as Brooks Bridge. Wm. Rose built a sawmill in 1790. On the farm of Wm. Early, near the month of Coles Brook, is the site of an Indian village, with many of the apple trees planted by the natives still standing.

8 Named from John Davenport, an early settler and first

supervisor.

Named from Messrs. Ferguson, who were largely engaged in

business here

<sup>10</sup> Erected by the Fergusons about 1843.

Defected by the Fergusons about 1845, it Called Ad-a-quigh-tin-ga, or Ad-i-qua-tau-gie, by the Indrans. 2 Among the other first settlers were Humphrey Demo, Geo. Webster, Daniel Olmstead, — Van Valkenbrigh, Harmon Moore, and Elisha Orr. Dr. Dani'l Fuller came in 1796, and was the first physician. The first marriages were those of Harmon Moore and Mary Orr. and Richard Moore and M. Banks, in 1791, the two marriages taking place at the same time; the first hirth was that of a child of Harmon Moore, who died in infancy; this was the first death. The first death of an adult was that of Mrs. Harmon Moore, in 1796. Wid, Hannah Dodge taught the first school: Dan'l Prentice built the first grist and saw mill, in 1792school; Dan'l Prentice built the first grist and saw mill, in 1792 93, and it is believed he kept the first inn. Ezra Denio kept the first store, in 1800.

<sup>18</sup> The census reports 5 churches; 3 M. E., F.W. Bap., and Presh. 14 Named through the influence of Judge Ebenezer Foote. The and were joined by Wm. Horton, Abraham Sprague, Thos. Cal- name of "Mapleton" was suggested by several prominent citizens.

1812. It occupies a nearly central position in the co. Its surface is a hilly upland, broken by the deep valleys of the streams. The w. branch of the Delaware flows s. w. through the center of the town, receiving from the N. W. Platners, Peeks, Steels, and Elk Creeks, and from the s. E. Little Delaware River. The valleys are generally narrow and bordered by steep hills. The soil is a clay loam, and the surface is very stony in places. **Delhi**, (p. v.,) the county seat, is finely situated on the N. bank of the w. branch of the Delaware. It was incorp. March 16, 1821. Besides the co. buildings, it contains the Delhi Academy, 4 churches, a bank, 2 printing offices, a woolen factory, an iron foundry, a gristmill, and a sawmill. Pop. 919. The first settlement was commenced by Abel and John Kidder, in 1785.2 The first religious meetings were conducted by Elder Kidder Beck, in 1786. The first church (Cong.) was formed in 1798.3

FRANKLIN'-was formed from Harpersfield, April 10, 1792. Walton was taken off in 1797, and a part was restored in 1801. A part of Meredith was taken off in 1800, Sidney in 1801, and a part of Otego, (Otsego co.,) as "Huntsville," in 1822. It lies upon the N. border of the co., w. of the center. Its surface is a hilly upland, broken by deep and narrow valleys. The principal streams are Ouleout's Creek, flowing w. through the n. part of the town, and its two tributaries from the s., Croton Creek and Handsome Brook. The soil upon the hills is a shaly learn underlaid by hardpan, and in the valleys a gravelly loam and alluvium. Franklin, (p.v.,) on the Ouleout, in the N. w. part of the town, contains the Delaware Literary Institute, printing effice, and 3 churches. Pop. 490. Croton (p.v.) is situated upon Croton Creek, near the line of Meredith. Pop. 200. North Franklin is a p.o. Sluman Wattles, afterward judge, was the first white settler who built his cabin in the valley of the Ouleout. He came in 1785, and was accompanied by his brothers John and Roger and his sisters Sarah and Caroline. The town was surveyed under Judge Wattles, who acquired one of the 4 shares.<sup>7</sup> The first church (Bap.) was formed at the house of Gad Merrick by Elder Hamilton, in 1798.8

**HAMDEN**—was formed from Walton and Delhi as "Hampdon," April 4, 1825. Its name was corrected March 17, 1826. It is the central town of the co. Its surface is a mountainous upland, divided into two parts by the valley of the w. branch of the Delaware. The s. part is covered by lofty peaks and ridges scarcely susceptible of cultivation. Bagleys Brook, a tributary of the Delaware, and Clove Brook, in the s. E. part, are the other principal streams. The soil is generally a brownish clay learn underlaid by hardpan. Hamden, (p.v.,) upon the Delaware, near the center, contains mills, a woolen and satinet factory, and 2 churches. Pop. 191. Lansingville, 1½ mi. above, on the s. side of the river, contains 2 churches and 116 inhabitants. North Handen is a p.o. The first settlers were Daniel Harrower and Benajah McCall, who came in some time previous to 1795.9 The census reports 4 churches in town.10

HANCOCK<sup>11</sup>—was formed from Colchester, March 28, 1806. It lies upon Delaware River, in the s.w. corner of the co. Its surface is a mountainous upland, ending in high and nearly precipitous bluffs upon the Delaware, and divided into two parts by the E. branch of the Delaware, which flows w. through the N. part. Beaver Kil flows into the E. branch in the E. part of the town. Sands and Cadosia Creeks and Rieds and Baxters Brooks are tributaries of the E. branch of the Delaware, from the N.; and Big Trout, Basket Pond, Giers, Sand Pond, Lords, and Homer Pond

of The huildings consist of one large stone edifice, containing recitation rooms, &c., and two large boarding halls. The total property of the institution is valued at \$20,000.

7 Among the early settlers were Nath'l Edgerton, Jas. Follett.

<sup>1</sup> The first academic building was erected in 1820, on the public square, near the courthouse. In 1856-57 a new site was procured, containing 20 acres, upon the w. bank of Steels Brook and a new edifice, with two spacious boarding halls, was erected.

The site is commanding, and affords a fine view of the village. The institution has been endowed by moneys derived from the

The institution has been endowed by moneys derived from the sale of escheated lands in the co. to the value of \$5114. Its total property amounts to \$28,829.

2 Among the first settlers were Judge Gideou Frisbee, Thos. Farrington, Bartholomew Yandes, Joseph Denio, Geo. Fisher, John, Irancis, and Levi Baxter, — Preston, and Gideon Rathense and his sons John, David, and Gideon, ir. The first birth was that of Huldah, daughter of Gideon Frisbee, June 14, 1787; the first marriage, that of Philip Frisbee and Jerusha Harmon in 1791; and the first death of an adult, that of Dr. Philip Frisbee, in 1797. Thos. Averill taught the first school. The first mills were built in 1788.

bee, in 1797. Thos, Averin taught the first school. The first mins were built in 1788.

3 The census reports 8 churches; 2 Christian, 2 Presb., and 1 each Prot. E., Bap., M. E., and Asso, Presb.

4 The township of Franklin, embracing 30,000 acres, was patented Feb. 26, 1770, with the usual powers of a township, and acress and the analysis of two and sixpates for severy 100 acres annually. a quitrent of two and sixpence for every 100 acres animally. The patentees were Thos. Wharton, Reese Meredith, and 28 others. It was named from Temple Franklin, a natural son of Dr. Benj. Franklin.

<sup>&</sup>lt;sup>5</sup> In the great Indian purchase of 250,000 acres, June 14, 1768, this stream is named Au-ly-ou-let.

Among the early settlers were Nath'l Edgerton, Alex, Smith, Daniel and Chauncey, sons of Enos Parker, Gen. Aaron Chamberlain, Moses Clark, Asa Turner, Gad Merrick, Hugh Thompson, Eph'm McCall, — Case, Turner and Daniel Clarke, Sol. Green, John Dewey and sons, Maj. Joel Gillett, — Mix. — Sharp, and — Fitch. The first child born was Thos. Edgerton; the first marriage was that of Judah Bartlett and Caroline Wattles; and the first death, that of Mrs. Alexander Smith, in 1795. Shuman Bartlett taught the first school, and

Asa Turner kept the first inn and store.

8 The census reports 8 churches; 3 M. E., 2 Bap., 2 Cong., and

Inecensus reports a contrenes, o.a. in 2 supp, 2 congentual Union.
 Among the first settlers were Joseph Fisk, Henry Van Wag goner, Jas. Mason, Benhen Ward, Henry Edwards, Henry and John Howard, Sam'l Robinson, Wm. Cornell, and John and Silas Grimes. Jas. Howard kept the first inn, in 1796, and Matthias Sweney built the first gristmill, in 1797. Gen. Elias Butler was the Seat reachest the Walton line.

the first merchant near the Walton line.

10 Asso. Presh., Christian. Cong., and Presh.

11 Named in honor of John Hancock, President of Continental

Brooks, are tributaries of the Delaware. These streams all flow through narrow ravines bordered by steep, rocky hills nearly perpendicular. The valley at the junction of the two branches is 922 feet above tide, and at the mouth of Beaver Kil it is 1018 ft, above tide. The summits are 1000 to 1500 ft. above the valleys. A large portion of the surface is still covered with forests. The soil upon the uplands is a hard elayey loam, searcely susceptible of cultivation. Lumber, leather, shingles, and staves are largely manufactured. **Hancock**, (p. v.,) at the junction of the two branches of the Delaware, is an important trading and R.R. station. Pop. 502. Stockport Station and Lordsville are R. R. stations and p. offices. East Branch, (p. v.,) at the mouth of Beaver Kil, contains 2 churches and 20 houses; and Harvard, (p.v.,) 3 mi. above E. Branch, 15 houses; Partridge Island, on the E. branch, at the mouth of Rieds Brook, and Cadosia Valley, (p. o., ) on Hawks Brook, 3 mi. above Hancock, are hamlets. Before the Revolution two families settled in town; but they soon after left and never returned. The first permanent settlement was made soon after the close of the war by families from Dutchess co.<sup>2</sup> In 1784, Canope, a friendly Indian, was treacherously killed in this town by Ben Haines.3 The first religious meetings (M. E.) were conducted by Rev. Titus Williams.4

HARPERSFIELD5-was formed March 7, 1788. Frankliu was taken off in 1792, Kortright in 1793, and a part of Stamford in 1834. It is the N.E. corner town of the ee. Its snrface is a rolling upland, constituting a portion of the high plateau region stretching westward from the Catskill Mts. The principal streams are head branches of the w. branch of the Delaware, in the s.; of Middle Brook, in the center; and of Charlotte River, in the N. The valleys are usually narrow, and bordered by gradually sloping hills arable to their snmmits. The soil is a shaly and slaty learn of good quality. The quality of the soil, and the great abundance of pure soft water which issues from the hillsides, render this co. one of the finest grazing regions in the State. Harpersfield, (p. v.,) near the E. line, contains 20 houses. North Harpersfield (p. o.) is a hamlet. Fergusonville (p. v.) lies on the line of Davenport, North Kortright (p. v.) en the line of Kortright, and **Stamford** (p.v.) on the line of Stamford. This town formed part of a large purchase made from the Indiaus by the Harpers in 1768.6 In 1771, Col. John Harper and David Hendry surveyed this town, and a small settlement was made soon after. One of the first settlers was Samuel Claxton, a tory. Several murders were committed by tories and Indians during the war, and the settlement was abandoned. In 1784, Col. John, Capt. Wm., Col. Alex., and Joseph Harper returned, and began the first permanent settlement. Rev. John Lindsley conducted the first religious services, at an early period. There are now two churches in town, Bap. and Presb.

KORTRIGHT<sup>3</sup>—was formed from Harpersfield, March 12, 1793. A part of Delhi was taken off in 1798, a part of Meredith in 1800, a part of Davenport in 1817, and a part of Stamford in 1834. It is an interior town, lying N.E. of the center of the co. Its surface is a hilly upland, broken by narrow valleys and ravines. The mean elevation of the town is 1700 ft. above tide, and the highest summits attain an elevation of 2400 ft. The streams are the w. branch of the Delaware, forming its s. boundary, and its tributaries, and several small tributaries of Charlotte River, draining the N. half of the town. The hills are steep, but are generally susceptible of cultivation. The soil is a dark, shaly loam, well adapted to pasturage. Bloomville (p. v.) is in the s. w. part of the town. Pop. 184. Kortright Center (Kortright p. o.) contains a church and 25 honses. North Kortright (p. o.) and South Kortright (p. o.) are farming neighborhoods. Set-

<sup>1</sup> Formerly "Shohakin," or "Chehocten," said to signify the nuion of streams. A plank road extends from this place to Walton, a distance of 21½ mi.

2 Among the first settlers were Dr. Elnathan Gregory and his son Samuel, John Barber, Daniel Bonker, Henry Ruff, Timothy Rine, Chris, Ruff, Dennis Hitt, — Gilbert, — Leonard, (from son Sannel, John Barber, Daniel Bonker, Henry Ruff, Timothy Rine, Chris. Ruff, Dennis Hitt, — Gilbert, — Leonard, (from New England, who settled on Reeds Flat.) John Hitt, John and Bichard Biddlecon, Ebr. Wheeler, Wm., Jos., John, and Sant'l Mallory, (near Partridge Island.) Josiah Parker, Geo. Hanks, and — Jones, (at Hancock Village.) The first birth was that of Elisha, son of Dan'l Bouker. May 11, 1792; the hirst marriage, that of Abm. Sprague and Polly Parish, in 1791; and the first death, that of Lient. Bay. John Gregory taught the first school. 3 Gould's Hist. Int. (co., p. 184. 4 The census reports 6 churches; 3 M. E., and 1 each Bap., Cong., and R. C.

<sup>&</sup>lt;sup>4</sup> The census reports 6 churches; 3 M. E., and 1 each Bap, Cong., and R. C.

<sup>6</sup> Named in honor of Col. John Harper, a proprietor and pioneer settler. The family consisted of John and his wife Abigail and nine children,—Wm., James, Mary, John, Joseph, Alexander, Abigail, and two others. The brothers were ardent patriots of the Revolution and active defenders of liberty. Pheir names are intimately associated with our State history.

<sup>&</sup>lt;sup>6</sup> On the 2d of April, 1780, a party of 14 persons, under Capt. Alex. Harper, was sent from Schoharie to Harpersfield for the purpose of making maple sugar and watching the disaffected in that quarter. On his return, Capt. II. was taken prisoner by a party of tories and 43 Indians. Of the party he had left, 3 were a party of tone and as mains. On the party he had reft, swere killed and the rest taken prisoners. The representation made by Capt. Harper concerning the strength of the Scholarie settle-ment saved it from destruction at that time.

ment saved it from destruction at that time.

7 Roswell Hotchkiss, and Levi and Jedediah Gaylord, settled with the Harpers near the center of the town. Josiah Sedy, Matthew Lindsley, Sam'l and John Knapp. — 2 Hamiltons, — Washburn, Issac Pierce, Stephen Judd, Sam'l, Eliab, and John Wilcox, Richard and John Bristol, Abijah Baird, Byron McIvaine, David and John McCullongh, Issac Patchin, Wm. Lamb, Caleh Gilbs, and Wm. McFarland were among the early settlers. Rebeca Harper, born Jan. 8, 1783 was the first birth Lamb, Calen Ghos, and win Accarising were among the earliest settlers. Rebecca Harper, born Jan. 8, 1783, was the first birth after the war. Rev. John Lindsley is believed to have taught the first school. A gristmill, erected about 1775 by Col. Harper, was burned by the enemy, and was rebuilt soon after

the war.

8 Named from Lawrence Kortright, the patentee.

tlements commenced before the Revolution, but were broken up by the war. 1 The first permanent settlers after the war were from Conu., Dutchess co., N. Y., and Scotlaud.2 The first church (Presb.) was formed in 1789: Rev. Wm. McAuley settled in town in Sept. 1794, and was installed pastor June 6, 1795. He filled that office until the time of his death, March 21, 1851, a period of 56 years.3

MASONVILLE'—was formed from Sidney, April 4, 1811. Its surface is a hilly upland, divided into 2 ridges by the valley of Bennetts Creek, which extends E. and W. through the N. part of the town. These ridges are subdivided by numerous lateral ravines, through which flow small brooks. The highest summits are 600 to 1000 feet above the valleys and 1800 to 2000 feet above tide. The surface is stony, and the soil a shaly loam, difficult of cultivation except in the valleys. Masonville (p.v.) is situated on Bennetts Creek, in the w. part of the town. Pop. 234. The first settlement was commenced in 1795, on "Cockburns Gore," upon the w. border of the town, by immigrants from Mass.<sup>6</sup> In 1797, the State Road from Cherry Valley to Jericho was opened through the town. The first religious services were conducted by Rev. Joel Chapin, in 1797. The first church (Bap.) was formed Dec. 7, 1811. There are 3 churches in town; Bap., Presb. and M. E.

MEREDITH'-was formed from Franklin and Kortright, March 14, 1800. It is an interior town, lying N. E. of the center of the co. Its surface is a hilly upland, less broken than most of the towns in the co. The s. and E. parts of the town are occupied by the high ridges forming the watershed between Susquehanna and Delaware Rivers. The streams are small brooks and ereeks. The soil is a reddish clay and shaly loam. Ouleout (p. v.) contains 25 houses. Meredith Square (Meredith p. o.) contains 2 churches and 20 houses. West Meredith (p. o.) is a hamlet. These last two places are on the old Catskill Turnpike. Settlement was begun in 1787, by Joseph Bramhall, whose family were sole inhabitants till 1793.8 Elder Nathan Stilson (Bap.) held the first meetings. He was not a regular preacher, but a zealous promoter of education and religion.9

MIDDLETOWN—was formed from Rochester and Woodstoek, (Ulster eo.,) March 3, 1789. Colchester was taken off in 1792, a part of Delhi in 1798, Andes in 1819, and a part of Bovina in 1820. It is the s. E. corner town of the co. Its surface is a mountainous upland, bisected by the deep, narrow valley of the E. branch of the Delaware. The principal streams are Delaware River, Platte Kil, Batavia Kil, Red Kil, Bush Kil, and Mill Creek. The valleys of these streams are bordered by steep, rocky hillsides often rising into mountains. The soil is a shaly and gravelly loam. Margaretville, 10 (p.v.,) on the N. bank of the Delaware, near the center of the town, contains 40 houses. Griffins Corners, 11 (p. v., ) on the Bush Kil, in the s. E. part, contains 30 honses. Clovesville, (p.o.,) Solitude, and Arkville are hamlets on the Bush Kil, below Griffins Corners. Dry Brook Settlement is a lumber station on the s. branch of the Bush Kil. Halcottsville, 12 (p. o.,) on the Delaware, near the E. border of the town, is a hamlet of a dozen houses. Spruceville is a little settlement between Halcottsville and Margaretville. New Kingston<sup>13</sup> (p.o.) is a hamlet upon the Platte Kil, in the N. part of the town. Clarks Factory<sup>14</sup> (p.o.) is a little settlement on the Platte Kil, near its mouth. Lumberville (p.o.)

1 Among these early settlers were Alex. Mills, agent for the proprietor, Alex. Leal, Daniel McGilivrae, and Hugh Clark. The township was surveyed by Wm. Cockburn in 1770, and the first

township was surveyed by Wm. Cockburn in 1770, and the first improvement began soon after.

2 By an advertisement dated Jan. 1785, it appears that 30 families were then settled in town. The proprietor offered 150 farms, more or less improved, tree of rent 5 years, and skypence sterling per acre annually after forever. The first school was taught by Jared Blakeley, in 1795. Thos. McAuley, brother of the minister, and afterward Prof. in Union College, taught here in 1799. Judge Keeler was the next teacher. A Mr. Alexander built a mill before the war, and the irons concealed then have never been found. The first birth was that of Dan'l McGilivrae; the first marriage, that of Michael Sexsmith and Mary Ann Riggs; and the first death, that of a son of Isaac Randell. By an act of April 5, 1810, fairs were established in the village of "Health," in this town, for the sale of live stock, agricultural produce, and domestic manufactures. It was to be supported by a tax of 1 per cent. on all sales. a tax of 1 per cent. on all sales.

3 The census reports 6 churches; 3 Asso. Ref. Presb., 2 M. E.,

and 1 Ref. Presb.

4 Named from the Rev. John M. Mason, of N. Y., principal owner of the Evans Patent in this town.

owner of the Evans Patent in this town.

A narrow strip of land between Evans Patent and the "Line of Property."

Among the early settlers were Wan and Aden Wait, Danl. Scranton, Enos Goodman, Justin Nash, Peres Moody and son Moses, Asa, Terry, and Caleb Monson. The first birth was that of Sally, daughter of Daniel Wait, Aug. 10, 1797, and the first birth was the first barth was the death was that of Wm. Wait, the same summer. Dr. Eli Em- nery at this place.

mons taught the first school; Simeon Wells kept the first inn; Fitch & Phelps the first store, in 1808; and Joseph Bicknell

Fitch & Phelps the first store, in 1808; and Joseph Bicknell built the first saw and grist mill, in 1802.

7 Named from Sun'l Meredith, of Philadelphia, who owned a part of Franklin Putent. Hon. Sand. A. Law came into this town in 1796, as agent and part owner of the Franklin Patent. Being a New England man he influenced a large immigration of New Englanders to this place, giving to it the peculiar characteristics of a Connecticut town.

8 Among the early settlers who came in 1793 were Nathan Stilson, Caleb Strong, Nath'l Stewart, Oliver Dutton, Dan'l North, and Truman Stilson. Lucy Austin taught the first school; Joe. Bramhall kept the first tin, and the first birth and death occurred in his family. Rufus Bungel kept the first store, at the

curred in his family. Rufus Bunnell kept the first store, at the Square, in 1799; David Spoor built the first gristmill, in 1802. The first marriage of settlers was that of Elijah Georgia and Keziah Stewart, who eloped and were married in the fall of

 $^{1796},\,$   $^{0}$  The census reports 4 churches; 2 Bap., 1 F. W. Bap., and 1

10 The old Indian village of "Pa-ka-tagh-kan" was situated about mi. z. of this village, at the mouth of the Bush Kil.
 Named from the Griffin family, early proprietors and resi-

 A woolen factory is located at this place.
 This village is situated in the center of a tract of land given by Wm. Livingston to 100 sufferers of the Kingston fire in 1777 Fan h family received 50 acres.

14 Named from the Messrs. Clarks, who have an extensive tan-

is a lumber station at the mouth of Mill Creek, in the w. part of the town. A vague tradition exists of an early settlement of this town by French traders, but no positive proof. In 1762-63 a party from Hurley, Ulster eo., commenced a settlement, which increased rapidly and in a few years spread over the Delaware bottom lands.\(^1\) The settlers were driven out in 1778,\(^2\) but returned soon after the war. The first church (Ref. Prot. D.) was formed in 1794. There are 3 churches in town; 2 M. E. and 1 Asso. Ref. Presb.

ROXBURY3—was formed from Stamford, March 23, 1799. It occupies the extreme E. portion of the co. Its surface is a mountainous upland, forming a portion of the great plateau extending w. from the Catskill Mts. The declivities of the hills are steep and rocky and are mostly unfit for cultivation. The highest points on the N. and w. borders of the town are estimated to be 2800 feet above tide. The principal streams are the E. branch of the Delaware, flowing s. w. through the center of the town, Bear Kil in the E., Batavia Kil and Red Kil in the s., and numerous smaller creeks. The soil is a reddish elay loam. Roxbury (p. v.) lies on the Delaware, near the center of the town. Pop. 232. Moresville, 4 (p.o.,) near the N.E. border, Strattons Fall, 5 (p.o.,) in the s., Little Falls, upon the E. border, and Batavia Kil are hamlets. The first settlement was made by John More, a Scotchman, on the site of Moresville, in 1786.6 The first religious meetings were conducted by Rev. II. Myres.7

SIDNEY8—was formed from Franklin, April 7, 1801. Masonville was taken off in 1811. It lies upon Susquehanna River, in the N. w. corner of the co. Its surface is a hilly upland, ending in high bluffs upon the valley of the river. The highest summits are 800 to 1200 ft. above the valley. Ouleont and Carrs Creeks<sup>9</sup> flow w. through the town and empty into the Susquehanna. The valleys of these streams are deep and narrow, and are bordered by steep, rocky hills. The soil in the valleys is a fine fertile alluvium, and upon the hills a dark, shaly loam. Sidney, (p. v.,) on the s. bank of the Susquehanna opposite Unadilla, contains about 25 houses, Sidney Center, (p. v.,) on Carrs Creek, 3 churches and 20 houses, and Sidney Plains, (p. v.,) upon the Susquehanna, in the N. w. corner of the town, 2 churches and about 20 houses. In May, 1772, Rev. Wm. Johnston, with an Indian guide, explored this region of country, and finally selected the present site of Sidney Plains as a place of settlement. 10 Early in 1773 he moved in with his family, being the first settler in the Susquehanna Valley within the limits of the State. Several others soon followed. Just before the war, Gen. Herkimer held an interview with Brant at this place; and the menacing attitude assumed by the Indians led Johnston and others who sympathized with the Continental cause to leave their new home for a less exposed situation. A few inhabitants remained during the war, and many returned immediately after its close. 11 By an act of April 6, 1790, £800 was granted for the construction of a road from "Olchoudt" Creek to Catskill on the Hndson. 12 The census reports 5 churches; 2 M. E., 2 Cong., and 1 Bap.

**STAMFORD**<sup>13</sup>—was formed April 10, 1792. Roxbury was taken off in 1799, and a part of Bovina in 1820. A part was annexed from Harpersfield and Kortright, April 22, 1834. It lies N. of Roxbury, on the N. E. border of the co. Its surface is a mountainous upland. Mt. Prospect, E. of Stamford Village, is estimated to be 1500 ft. higher than the valleys. From its summit Albany City is visible in a clear day. The streams are the w. branch of the Delaware, forming a portion of its N. boundary, and Town and Rose Brooks. The soil is principally a reddish clay

<sup>1</sup> The first settlers were Harmanus and Peter Dumond, Johannes Van Waggoner, and — Hendricks, who located near the old Indian village. Among those who came soon after were the old Indian village. Among those who came soon after were families named Kittle, Yaple, Brugher, Slyter, Hinebaugh, Green,

<sup>2</sup> Most of the settlers because tories, and in 1779 the Governor was empowered to cause the removal or destruction of grain in the back settlements of Ulster co., to prevent it from being serviceable to the enemy. Soon after the war, the settlers of "Pa-\*\*Mataghkan" came before the legislature for redress; but no act was passed in their favor.—Legislative Papers, St. Lib.

3 Named from Roxbury, Conu., from which place many of the but no act

early settlers came.

early settlers came.

4 Named from the first settler.

5 Named from an early settler. Strattons Brook falls about 40 feet at this place, furnishing a good water power.

5 John More, Israel Inman, Abm. Gould, Geo. Squiers, Josiah Patchin, Nehemiah Hayes, David Squiers, (most of them from Fairfield, Conn...) settled along the valley near the present village of Rexhury, in 17\*99—Gould's Hist, Del. Co., 197-298-39. The first child born was Charlotte, daughter of Nath'l Tiffany, in March, 1792; and the first male child born was John Gould, in Oct. of the same year. David Smith taught the first school, in the winter of 1794-95; Isaac Hardenburgh owned the first store, John More kent the first inn. and John Pierson built the first strainill. kept the first inn, and John Pierson built the first gristmill.

<sup>7</sup> The census reports 8 churches; 3 M. E., 2 O. S. Bap., 2 Ret.

Prot. D., and I Christian.

8 Named from Sir Sidney Smith, the British Admiral. The name was first applied by John Mandeville, an English schoolmaster, then living on Sidney Plains.

9 Named in memory of John Carr, a tory, who built a sawmill

upon this stream at an early period.

<sup>10</sup> At this place was the site of an old Indian fort. Three acres of ground were enclosed by mounds of earth surrounded by a From early times the place has been called "The Fort Grounds?

<sup>11</sup> The first gristmill w. of Harpersfield was built, in 1778, by Ahm. Fuller, on the Ouleout, near Wattles Ferry. An inn was opened at the ferry in 1785, by Nathaniel Wattles. The first raft was sent down to Harrisburgh in 1795, by Capt, David McMasters. In 1787 a great scarcity of provisions occasioned much distress in this valley, and the settlers were saved from starvation by a boat beed of four from Northmuberland, Pern., got to them through the exertions of Gen. Daniel Bates.

12 The contract for building this road was awarded to Nathaniel

Wattles and Medad Hunt; but, proving rainous, the parties were relieved, in 1793, by a further grant of £120.

13 Originally named "New Stamford," from Stamford in Conn.

It is situated on Great Lot No. 42 of Hardensburghs Putent.

and shaly loam. Stamford, (p. v.,) upon the Delaware, in the N. E. part of the town, on the line of Harpersfield, contains a seminary, 2 churches, and 2 woolen factories. Pop. 185. Hobart (p.v.) is situated on the Delaware, 4 mi. below Stamford. Pop. 391. The first settlement was made in 1773, by Dr. Stewart and John and Alex. More, from Scotland.<sup>2</sup> The first church (St. Peters Prot. E.) was formed at Hobart, Dec. 8, 1799. Rev. Philander Chase, afterward Bishop of Ohio and Ill., the first pastor, was installed Aug. 1799.3

TOMPKINS'—was formed from Walton, Feb. 28, 1806, as "Pinefield," and its name was changed March 11, 1808. It is the central town on the w. border of the co. Delaware River flows westward through near the center of the town to the w. border, where it turns s. and forms a portion of the w. boundary. The portion of the town s. of the river is composed of broken and rocky mountain masses too steep and rough for cultivation. The N. part is broken and hilly and but partially cultivated. The soil is a clay, slate, and gravelly loam. **Deposit**<sup>5</sup> (p. v.) is situated on Delaware River, at the mouth of Oquaga Creek, on the line of Sanford, Broome co. It was incorp-April 5, 1811.6 It is the center of a large lumber business, and is an important trading station and wood depôt upon the N. Y. & Erie R. R. It contains a seminary, printing office, sawmill, a large tannery, and 4 churches. Pop. 1249,—of which 593 are in Tompkins and 656 are in Sanford, Broome co.: the depôt and R. R. buildings are in the latter town. Cannonsville, (p. v.) at the mouth of Tront Brook, on the Delaware, 7 mi. above Deposit, contains a sawmill, flouring mill, a large tannery, and 2 churches. Pop. 325. Hales Eddy, (p.o.,) on the Delaware, 5 mi. below Deposit, Barbourville, (p.o.,) on Cold Spring Brook, near the N. border, and Trout Creek, (p. o.,) in the N. E., are hamlets. Dickinsons Station is near the s. line. The first settler was Squire Whittaker, from Wyoming, 10 Penn., who came in 1787; John Hulse, 11 from Neversink, (Sullivan co.,) came in April, 1789, and Philip Pine and Conrad Edict in 1791.<sup>12</sup> The first religious meetings were held at the house of John Hulse, by Rev. Hugh Compton, in 1794.13

WALTON14—was formed from Franklin, March 17, 1797. A part of Delhi was taken off in 1798, Tompkins in 1806, a part of Hamden in 1825, and a part of Colchester April 14, 1827. A part of Colchester was set off Feb. 1, 1799, a part of Franklin March 13, 1801, and a part of Delhi was annexed June 17, 1812. It is an interior town, lying w. of the center of the co. The deep valley of the Delaware divides the town into two nearly equal parts. The s. half is a broad, rocky, mountainous region with abrupt declivities and a surface too rough for cultivation; the N. half is broken and hilly, but generally well adapted to pasturage. The principal streams are East, West, and Hydes Brooks. The soil is a shaly loam upon the hills and a fertile alluvium in the valley. Tanning and lumbering are extensively carried on. Walton, (p. v.,) upon the N. bank of the Delaware, near the center of the town, contains the Walton Academy<sup>15</sup> and 3 churches. Pop. 430. New Road, a p.o. in the extreme N. part, has I church. West Brook is a p. office. Dr. Platt Townsend, 16 of Dutchess co., purchased a tract of 1740 acres in this town in 1784. He surveyed it the same year, and in 1785 he located upon the present site of Walton Village. He was accompanied by 5 families, of 20 persons, mostly from Long 1sland. A large number of immigrants

<sup>1</sup> The Stamford Collegiate Institute, established in 1851.

The Stamford Collegiate Institute, escapinated in 1851.

2 Jas. Stewart, Wm. Frazer and son Simon, from Scotland, time in 1775. During the war most of the settlers left, but reprinted in March, 1786. In 1789, a company consisting of 20 sads of families and 2 single men (principally from Fairfield for the building of a city, to be called "Dickinsons City." He came in 1775. During the war most of the settlers left, but returned in March, 1786. In 1789, a company consisting of 20 heads of families and 2 single men (principally from Fairfield co. Conn.) came into Delaware co. to examine the country and select locations. Several of them located in this town, and select locations. Several of them forsited in this town, and others soon followed. Dea. John forant taught the first school, in the winter of 1788-89. Lient Paine kept the first inn and store, and — Calden bullt the first mill, near Bloomville, before 1780. Andrew Beers, the almanac maker, resided in this town. The first maringe was that of Simon Frazier and Abiah Potter, Jan. 1787; the first hirth, that of Wm. Stewart, Sept. 1,

<sup>1776;</sup> and the first death, that of Margaret Frazier, in 1791.

8 There are 8 churches in town; 4 M. E., 2 Asso. Ref. P., Prot.

E., and Union.

4 Named from Daniel D. Tompkins, soon afterward Governor.

6 Named from having formerly been an important station, or place of "deposit," for lumber preparatory to rafting in the spring freshets." It was called by the Indians "Cokelose," (fowls Nest.) a name corrupted by the English into "Cookhouse," by which it is still designated by the Od inhabitants.

6 The original corporate limits of the village were entirely within the town of Tompkins. A part of Sanford, Broome co, was sanexed in 1852. The charter was amended in 1858.

7 Laurel Brandt was at Cherry Valley at the time of the massacre, and, of course, was not a participant in its atrocities.

1 The place where he settled is now (1859) occupied by his grandson, Martial R. Hulse.

2 Mr. Edict was a soldier of the Revolution. The first birth was that of Polly Hulse, in 1789 or "90; and the first death, that of Doreas, wife of Oliver Hale, about 1790.

13 The census reports 7 churches; 3 Bap., 2 M. E., and 2 Presh.

14 Named from Wm. Walton, a large land proprietor in this vicinity. Walton's Patent (20,000 acres) was granted in 1750.

15 The academy building was creeted in 1853. The institution as a good lineary and is in a flourishing condition.

16 Dr. Townsend received 1700 acres for surveying, and paid 50cts, per acre for the remainder, receiving his deed in 1756.

boarding students. The recent death of the principal has cansed

built a gristmill upon Tront Creek, and a large hotel, which he called the "City Hall." The town meetings were held in this building for several years. Dickinson run the first ruft that went from the w. branch of the Delaware. Upon his failure, tenjamin Cannon purchased the property, and from him the village derived its name.

Named from the Hale family, who were early settlers.

<sup>10</sup> Mr. W. was one of the survivors of the massacre of Wyoming; and his sons John and Benjamin, then children, remember many incidents of that event and the subsequent escape. He stated that Brandt was at Cherry Valley at the time of the massacre,

from New Canaan, Conn., came in within a few years. The first church (Cong.) was formed in

<sup>1</sup> Among the early settlers were Gabriel and Robert North, Istac and Wan, sons of Platt Townsend, Wm. Farnum, Joshua Pine and sons. Daniel and Joshua. Michael Goodrich, Eph. Beers, Joshua Hoyt, Chas, W. Stockton, Matthew Benedict, John Eells, Alan Mead, Lindal Fitch, Jas. Weed, Nathan Kellogg, Cephus Beech Eph'n Waring, Sam'l Hanford, jr., Seth Berray, David and Sellick St. John, and Seymonr Fitch. The proprietor offered a lot of land to the first male child born in knym who should be mained Wm. Watton; and the prize was within reach of a son of Mrs. Robert North, the first woman who came

## DUTCHESS COUNTY.

This county was formed Nov. 1, 1683.1 It was provisionally annexed to Ulster eo., and was first represented separately in the General Assembly in 1713. Livingston Manor was taken off, and annexed to Albany co., in 1717; and Putnam co. was taken off in 1812. It lies on the E. bank of the Hudson, about midway between New York and Albany, is centrally distant 60 mi. from Albany, and contains 810 sq. mi. Its surface is principally a rolling and hilly upland broken by the deep valleys of the streams. The Taghkanick Mts., extending along the E. border of the eo., are 300 to 500 ft. above the valleys and 1000 to 1200 ft. above tide. Their declivities are generally steep, and in some places rocky. A wido valley skirts the w. foot of this range, bounded on the w. by the

Matteawan or Fishkill Mts., a high, broad range which extends n. and s. and occupies the whole central part of the co. A spur from this range extends eastward along the s. border to the Hudson, forming the N. extremity of The Highlands. This range has an average elevation of about 1000 ft. above tide, the highest peaks along the s. border attaining an elevation of 1500 to 1700 ft.2 In the s. part of the co. the declivities of these monntains are steep and in many places rocky, but toward the N. they become more gradual, and the country assumes a rolling character, broken by rounded hills. West of this range the snrfaco is a rolling upland, occasionally broken by deep ravines and isolated hills, and terminating upon the Hudson River Valley in a series of bluffs 100 to I80 ft. high. The greater part of the streams that drain the co. are tributaries of the IIndson. They mostly flow in a s. w. direction, and have worn deep valleys through the bluffs that border upon the river. The principal of these streams, commencing upon the N., are the Sawkil, Landimans, Crum Elbow, Fall, Wappingers, and Fishkill Creeks. Sprout Creek is a considerable branch of the Fishkill. The wide valley extending n. and s. through the eo., separating the Taghkaniek Mts. from The Highlands farther w., is drained by several streams. Ten Mile River flows s. in this valley through Amenia to near the s. line of Dover, where it turns E. and discharges its waters into the Housatonic River, in Conn. It receives Swamp River from the s. Croton River takes its rise in the s. part of the valley. Roeliff Jansens Kil flows through a small portion of the extreme N. part of the co. Among the highlands in the central and E. parts are numerous beautiful little lakes, noted for the purity of their waters and the beanty of the scenery immediately about them. The principal rock formation in the co. is the IIndson River slate, which crops out upon the hills and along the courses of the streams. The rock has been quarried at Red Hook for flagging, and in various places for roofing slate.3

A low ridge of metamorphic limestone extends longitudinally through near the center of the valley, which lies at the base of the Taghkaniek Mts. and along its course are numerous quarries, from which is obtained a fair quality of marble.4 Hematitie iron ore is found in almost inexhaustible quantities along the E. and s. parts of the co., and it has been extensively mined in several places.<sup>5</sup> Thin veins of galena have also been found, but none have been worked since the Revolution.6 Mineral springs are found in several parts of the eo., but none of them have acquired notoriety. Marl and peat beds are scattered over the whole co. The soil is generally a

Old Beacon, 2 ml. E. of shatteawan Village, 18 1440 R. above tide; and New Beacon, or Grand Sachem, a ½ ml. s. of the same place, is 1680 ft. above tide.
A company, styled the "N. F. Slate Co," was incorp. March 23, 1810, to continue 15 years; and another, styled the "Dutchess Co, Slate Co," June 8, 1812, to continue 21 years. The operations of the letter of the configuration of the property of the configuration. of the latter co. were to be confined to Northeast.

<sup>5</sup> This ore is generally compact, but in some places it is fibrous Its cavities are lined with a glossy black surface, and often contain stalactital and botryoidal concretions of the ore.

6 Considerable excavations were made in Nortbeast in colonial

times—it is said as early as 1740—by a company of Germans, who sent the ore to Bristol, Eng. The mines were re-opened during the Revolution, and a few tons of ore were obtained. Traces of lead ore bave been also observed in Rhimbeck and Amenia.—Geol., 1st Dist., pp. 46, 47. Among the other useful minerals that have been observed in the co. are, graphite, for Among the other useful the co. are, graphite, formerly worked to some extent in the Fishkill Mts., oxyd of man-ganese, and the sulphnrets of copper and iron, &c. Besides these are found calcite, asbestus, gibbsite, garnet, staurotide, epidote, feldspar, and tonrmaline.

7 Inflammable carburetted hydrogen gas is emitted from the bottom of a lake in Northeast, and from a locality  $\frac{1}{4}$  of a mi. from Ameniaville on the road to Poughkeepsje. A sulphur spring is strated 12 mi. N. w. of Ameriaville.—Beck's Mineralogy N. F., p. 160.

<sup>1</sup> The act by which this co. was formed defines its original oundaries as follows:—"The Dutchess co. to be from the bounds of the co. of Westchester, on the s. side of the Highlands, along the E. side as far as Roeliff Jansens Creek, and E. into the woods 20 miles."

2 Old Beacon, 2 mi. E. of Matteawan Village, is 1470 ft. above

<sup>4</sup> This marble is of the variety called dolomite, and yields npon analysis about 394 per cent, of carbonate of magnesia; but the analysis about one or per control of the principal workings have been in Dover, where a portion of the marble is pure white, fine grained, and capable of receiving a good but not a high polish. Clouded varieties are found in Amenia and Northeast .- Geol., 1st Dist.,

fine quality of sandy and gravelly loam. Upon the hills in some places it is composed of disintegrated slate, and upon the Hudson River intervale it is a deep, rich alluvium. Agriculture is the leading pursuit, and few cos. in the State offer greater attractions to the farmer. The richness and variety of its soil, and its proximity to the New York market, insure a rich return for all agrieultural labor. Farming is of a mixed character, all branches being successfully pursued. Sending milk to New York and the raising of improved breeds of eattle have become important branches of business.1

A considerable amount of manufacturing is earried on in the co., the principal establishments being located at Poughkeepsic and Fishkill, and a large amount of commerce is carried on by means of the Hudson.

The county seat is located at the eity of Poughkeepsie. The colonial courthouse and jail was burned in 1785, and a new one was built soon after. This was burned in 1808.2 The present building was erected in 1809,3 and contains the courtroom, jail,4 clerk's office, and all the usual co. offices except that of surrogate, which is in a small building adjacent. The eo, poorhouse is situated on a farm of 107 acres in the town of Poughkeepsie, 1 mi. E. of the courthouse. The average number of inmates is 220, supported at a weekly cost of 95 cents each. The farm yields a revenue of \$1631.5 The Hudson River R. R. extends along the E. bank of the Hudson, through Fishkill, Poughkeepsie, Hyde Park, Rhinebeck, and Redhook; and the New York & Harlem R. R. extends along the E. border of the co., through Pawling, Dover, Amenia, and North East. In summer, regular lines of steamers ply between Poughkeepsie, New York, and Albany.

One daily and seven weekly papers are now published in the eo.6

1 In cultivated area Dutchess co. is excelled only by Jefferson, Oneida, Otsego, and St. Lawrence cos.; and in cash value of farms by Monroe and Westchester only. Over 2,000,000 gallons of milk are sent annually to the N. Y. market.

2 A courthouse and jail were first ordered to be built July 21. 1715; but they do not appear to have been completed until 30 years afterward. In 1760, an act authorized the conversion of a jury room into a jail, and 4 years after money was raised to complete the arrangement. The act of April 11, 1785, appropriated the sum of £1500 to re-construct the buildings, which had been destroyed by fire, and Cornelins Humfrey, Peter Tappen, and Gdbert Livingston were appointed a building committee. A further tax of £2000 was ordered in 1786, and of £1300 in 1787. In the mean time, prisoners were sent to the Ulster co. jail. By act of March 19, 1778, the sheriff's mileage was to be reckoned from the house of Myndert Vielle, in Beekman's Precinct.

<sup>3</sup> The act for the re-construction of these huildings was passed March 24, 1809, and \$12,000 was raised for that purpose. Jas. Talmadge, John B. Van Wyck, and John Van Benthuysen were appointed hudding commissioners. The next year, \$13,000 additional was raised, and the budding was completed soon after. It is a stone edifice, 50 by 100 ft. The first deed on record was entared Dec. 26, 1718, conveying property from Henry Van De Bo-gart to Capt. Barent Van Kleeck, and others.

4 The condition of the jail was represented by the Senate Com-

mittee of 1856 as extremely unfit for its purpose and unhealthy

to its inmates.

of the buildings are large, and can accommodate 350 inmates. The sexes are kept separate, and an asylum is provided for lunatics. A school is taught during the whole year, and religious

ues. A sensor is taught outing the whole year, and rengious worship is regularly conducted.

6 The New York Journal, first established in the city of New York by John Holt in 1734, was removed to Pough-keepsie in 1776, in consequence of the British occupation. In 1778 is the came the first State paper under the new Government; and on the 11th of April, 1785, its

new Government; and on the 11th of April, 1785, its name was changed to
The Poughkeepsie Journal, published by Nicholas Power. In
1786 its name was changed to
The Country Journal and Poughkeepsie Advertiser; and in
1789 to

The Country Journal and Dutchess and Ulster Family Register. In 1808 it was sold to Paraclete Potter, who changed it to

The Poughkeepsie Journal and Constitutional Republican. 1n 1812 it was changed to The Poughkeepsie Journal, and in 1834 Jackson & Schram became

the proprietors. In 1844 it was united with The Eagle, and was issued as

The Journal and Poughkeepsie Eagle. In 1850 the name was changed to

changed to

The Poughkeepsle Eagle, under which title it is still
published by Platt & Schram.

The New York Packet and American Advertiser, published by
Sam'l Loudou, was removed from New York when the British took possession of the city, and was first issued at Fishkill tet. I, 1776. It was removed to New York again after the close of the war.

The American Farmer and Dutchess Caunty Advertiser was com-menced in Aug. 1798, by John Woods, and was continued a short time.

The Barometer, commenced in May, 1802, by Isaac Mitchell, was changed to
The Political Barometer in 1806, and was published by Thomas
Nelson. Its name was changed to

The Northern Politician, and it was soon after discontinued.

The Farmer was published at Poughkeepsie in 1806-07.
The Republican Herald was started in Nov. 1811, by Derick B.

Stockholm and Thos. Brownjohn. It was continued until 1823 under the charge of Johnston Verplank & Wm. Orr.

The Dutchess Observer was first started May 10, 1815, by Chas.
P. Barnum & Richard Nelson. Nicholas Jaycocks,
Nathan Myers, jr., and Orriu Osborne were successively

The Poughkepsic Telegraph and Observer. It was successively under the charge of Chas. P. Baruum, Egbert E. Killey, Aaron Low, and Benson J. Lossing. In 1841 it was charged to changed to

The Telegraph, and was published by Killey & Lossing. Albert S. Pease & E. K. Olmsted were afterward interested in its publication; and in 1852 it was united with The

its publication; and in 1005 to 1000 Democrat, and was issued as

The Poughkeepsic Telegraph and Dutchess
Democrat, now published by Oshorne & Killey.

"Telegraph was first issued May 5, 1824, by Wm. The Republican Telegraph was first issued May 5, 1824, by Sands & Isaac Platt. In 1826 it was united with

The Observer.

The Dutchess Intelligencer was first issued April 30, 1828, by Chas. F. Ames & Fred. T. Parsons. It was afterward Chas. F. Ames & Fred. T. Parsons. It was afterward published by Platt & Psrsons and Isaac Platt until 1833, when it was united with The Republican, and was issued as

The Includencer and Republican, published by Platt & Ranney.
In 1834 the name was changed to
The Poughkeepsie Eagle; and in 1844 it was united with The

Journal.

The Dutchess True American was published at Ponghkeepsie in 1828, by Peter K. Allen.

The Dutchess Inquirer was started in Aug. 1829, by Pet. K. Allen.
In 1830 it was changed to
The Anti Mason. It was under the charge of John M. Vethake

and Stephen Entler until 1831, when it was discontinued. It was soon after revived by Eliphaz Fay, and was issued a short time as The Independence.

The Dutchess Republican was started in Aug. 1831, by Thos. S. Ranuey. In April, 1833, it was united with The Intelligencer.

The Poughkeepsie Casket was published by Killey & Lossing in 1836.

The Branch was issued a short time in 1836 by Jos. H. Jackson. The Youth's Guide (semi-mo.) was issued in 1837 by Isaac Harrington, jr.

The Thomsonian (medical) was issued at Ponghkeepsie in 1840 by Thos. Lupham.

The Free Press was started at Fishkill in 1841 by Fred. W. Ritter. In 1842 it was removed to Ponghkeepsie its name was changed to

The Dutchess Free Press, and was continued until 1844.
The Temperance Sufeguard was started at Poughkeepsie in 1843
by G. R. Lyman, and was continued 2 or 3 years.

The first settlements in the co. were made by the Dutch at Rhinebeck and Fishkill before 1690.1 Other settlements were made along the river in 1700; but for some years the progress of growth was very slow. About 1720 a considerable number of settlers came in; and from that time the scttlements increased rapidly until all the lands of the co. were taken up.2 Among the early settlers were considerable numbers of French Huguenots, who had fled from the persecutions that followed the revocation of the Edict of Nantes. A portion of the co. was settled upon leaseholds, which here, as elsewhere, led to much difficulty.<sup>3</sup> The first civil divisions were established in 1737.<sup>4</sup>

This co. comprises the greater part of the Oblong, Great and Little Nine Partners, Beekmans, Rumbouts, and Schuylers Patents.8 In 1777, the co. for a short time was in possession of the British, and for a considerable time during the Revolution it was the seat of the colonial convention and legislature. By an act of April 11, 1808, semi-annual fairs of sale were directed to be held in this co. under the management of five commissioners to be appointed by the judges of Common Pleas.7

AMENIA<sup>8</sup>—was formed March 7, 1788. It lies on the E. border of the co., N. of the center. The Taghkanick Mts. extend along the E. border, and the highlands belonging to the Fishkill Range extend through the w. part. The wide valley separating these two ranges occupies the eentral portions. The declivities of the mts. are often steep, and their highest summits are 300 to 500 feet above the valleys. Amenia Station, on the Harlem R. R., is 540 feet above tide. The

The Anti Bank Democrat (mo.) was issued from the office of The Free Press in 1843

The American was started in Nov. 1845, by Augustus T. Cowman. It was soon changed to

The Poughkeepsic American, and was published by Isaac Tompkine and Elias Pitts until 1863, when it was sold to E. B. Osborne, and changed to

The Dutchess Democrat. In 1856 it was united with The Tele-

The Patientess Democrat. 10 1830 it was unned with The February Traph.

The Safeguard (Temperance) was issued in 1845 by Wm. Patton.

The Daily City Press was commenced at Poughkeepsie, May 1,

1852, by Nichols, Bush, & Co. 1t was soon after changed to

changed to
The Daily Press, which is still issued by A. S. Pease & Co.
The Independent Examiner was started in Feb. 1855, by Henry
A. Gill, and was discontinued in 1858.
The American Banner was started at Poughkeepsie in 1856 by
Charles J. Ackert. In 1857 it was removed to Fishkill,
and was changed to

and was changed to

and was changed to
The Dutchess Co. Times, under which name it is still
published by J. Carpenter Mills.
The Pouglikeepsie Gazeite was started Jan. I, 1859,
by B. L. Hannah.

Fishkill Landing, by Wm. R. Addington, and is still issued by him.

The Fishkull Journal, started in 1853 by H. A. Guild, was dis-

continued in 1855.

The American Mechanic was started at Poughkeepsie in 1849 by Goo. W. Clark. In 1950 it was removed to Rhinebeck, and was united with The Gazette, under the name of The American Mechanic and Rhinebeck Gazette. It was soon

changed to The Rhinebeck Gazette and Dutchess County

Advertiser. It was successively issued by Edward M. Smith and L. R. Blanchard, and now by Win. Luff. The Rhinebeck Gazette was established in 1846 by Smith & Car-

The Rambock datate was established in 1849 by Smith & Carpeter, and in 1850 was united with The Mechanic.

The Rhinebeck Advocate was published by Robert Marshall in 1840. It was subsequently changed to The Dutchess County Advocate, and was discontinued about 1850.

The American Chilzen was commenced June 12, 1858 at Phineback by Gas W. Cherk.

at Rhinebeck, by Geo. W. Clark.

at Rhinebeck, by Geo. W. Clark.

The True Balance, a campaign paper, was published at Rhinebeck by C. J. Ackert in 1858.

The Amenia Times was started at Ameniaville, April 7, 1852, under the charge of Joel Benson. It was subsequently issued by H. Livingston & Co., and Palmer, Vall & Co. It is now pub. by J. W. Dutcher.

The Redhook Journal was commenced April 29, 1859, by L. Piester.

by L. Piester.

1 The following copy of a letter, now in possession of T. Van Wyck Brinkerhoff, of East Fishkill, throws some light upon the early history of the co. "In the year 1823, I saw Isaac Upton, a coaster from Newport, who informed me that about 1760 he came up the North River to Poughkeepsie, and, in com-1769 he came up the North River to Poughkeepsic, and, in company with another person, went to Mabbirt's store, in Washington, on business. That, on their return, they took a circuitous. American poet, if route from Pleasant Valley, and passed a German by name of Hoffman, who was then 11% years old. He supposed himself to be the first white settler in Dutchesson; and that, when young, hard 20, 1762, he deserted from a Dutch sbip of war in New York, squatted and the whole of where he then lived, built him a shanty, and lived a number of

years a solitary life without being able to find a white woman for a wife; that afterward, finding a German family at Khine-beck, he married, and had lived where he then was to that advanced age. I was informed that he died two years afterward, at 120 years. (Signed) PAUL UPT
<sup>2</sup> Smith, in his history, written in 1732, says of this co., PAUL UPTON.

only villages in it are Poughkeepsie and the Fishkill, though they scarce deserve the name. The inhabitants on the banks they scarce deserve the name. The inhabitants on the banks of the river are Dutch, but those more easterly, Englishmen, and for the most part immigrants from Coon, and Long Island. There is no Epis, church in it. The growth of this co. has been very sudden, and commenced but a few years ago. Within the memory of persons now living, it did not contain above 12 families; and according to the late returns of the militia it will furnish at present above 2500 fighting-men."—Hist. N.Y., Alb. Ed. n. 204.

 Ed., p. 304.
 In 1766, the district now embraced in Rensselaer, Columbia, and Dutchess cos, was involved in a domestic war, arising from the conflicting jurisdiction of adjacent colonies and resistance to the claims of preprietors. In June of that year, the sheriif of Albany Co., with 105 men, went to a honse on the manor to dis-perse a band of ricters, 60 in number. Several shots were ex-changed: Cornelius Ten Broeck, of Claverack, was killed, and 7 others of the militie were recorded. There of the ricter were others of the militia were wounded. Three of the rioters were killed, and many wounded, among whom was Capt. Noble, one of their leaders. In July, the 25th Regiment was ordered into Dutchess co., to quell riots; and a small body of light infantry was soon after fired upon, and 3 were wounded. One Pender-grast, a leader, was taken, tried before Judgo Horsmanden for high treason, and sentenced to be executed, but was inferward pardoned. Fifty to 60 others were fined, imprisoned, or pilloried. Soen after the sentence of Pendergrast, an advertisement was issued, offering a good reward to any one willing to assist as the executioner, and promising disguise against recognition and protection against insults.—Dunlap's Hist. N. Y., II., Appen. CXCHI.

<sup>4</sup> By an act of the General Assembly, passed Dec. 16, 1737, this co. was divided into 3 divisions. The s. division extended from co. was divided into 3 divisions. The s. division extended from below the Highlands to Wappingers Creek; the middle division from the latter, N. to Cline Sopas Island, (Little Esopus Island;) and the N. division from this point to the N. bounds of the co. Each of these divisions elected a supervisor. The subsequent formation of precioets is mentioned nuder the several towns.

§ The Othora, a tract 580 rods wide, extending across the place.

<sup>5</sup> The Oblong, a tract 580 rods wide, extending across the E. bor der of this co, and Putnam, was mostly granted to Thos. Hawley and others, in 1731; South, Beekmans, Crum Elbow, and North Precincts were extended across to the Conn. line, Dec. 17, 1743. The patent was divided into lower, middle, and upper districts, March 9, 1774, to facilitate the collection of quitrents.

6 Several of these patents were granted as follows: Rumbont,

to Francis Rumbout and others, Oct. 17, 1685; Great or Lower Nine Partners, to Caleb Heathcote and others, May 27, 1697; Rhinebeck, to Heury Beckman, June 5, 1703; Little or Upper Nine Partners, to Sampson Boughton and others, April 19, 1706; 7 These fairs were to be supported by a tax of 1 per cent, on all sales, one-half to be paid by the purchaser and one-half by

all sales, one-half to be paid by the purchaser and our-man cythe seller.

8 According to Benson, this term was applied by Young, the American poet, in his "Compass of Quebec," in a description of the several provincial troops employed in that campaign. The precinct of this name was formed from Crum Ellaw Precinct, March 20, 1762, and included a part of Amenia and North East, and the whole of Washington, Pleasant Valley, Stanford, Clinton, and Used Park.

principal streams are Ten Mile River, Wassaic Creek, and West Brook, and their branches. A low range of metamorphic limestone extends n. and s. through near the center of the valley. Iron ore has been extensively mined in the highlands w. of the valley.2 The soil is a clayey and sandy loam. Ameniaville, (Amenia p.o.,) N. of the center of the town, contains the Amenia Seminary, 3 churches, and 30 houses. It is a station upon the Harlem R. R. The City, (City p.o.,) in the N. W. corner, contains a church and 17 houses; Wassaie, (p.v.,) a R. R. station, a furnace, sash and blind factory, and 18 houses: Amenia Union, (p.v.,) upon the Conn. line, 2 churches, a woolen factory, and 30 houses; and South Amenia (p.v.) a church and 14 houses. Leedsville (p. o.) is a hamlet near the E. border. Sharon Station, on the line of Northeast, is a p.o. Richard Sackett purchased large tracts of the Indians in this town and in Sharon, Conn., and settled in 1711; he failed of getting his title recognized by the erown, and died in poverty in 1748 or '49.5 During the Revolution a furnace and foundery for the manufacture of steel for the use of the army was established about I mi. s. of Wassaic. The site, known as "The Steel Works," is still covered by coal dust and cinders. There are 7 churches in town.6

BEEKMAN—was formed as a town, March 7, 1788.7 A part of "Freedom" (now La Grange) was taken off in I821, and a part of Union Vale in 1827. It lies in the s.E. part of the co., -one corner extending to the s. border. Its surface is a hilly and broken upland. Pleasant Hill, on the N. border, is the highest summit. Limestone and slate erop ont on the summits and declivities of nearly all the hills. The streams are small creeks and brooks tributaries of the Fishkill, and are bordered by wide, fertile intervales. Silver Lake is a fine body of water near the w. line.8 Iron ore is found s. of this lake.9 The soil is a productive, gravelly loam. Green Haven, (p.v.,) near the w. border, contains 1 church and 18 dwellings; Beckmanville, (Beckman p.o.,) near the center, 1 church and 12 dwellings; **Ponghquag** (p.v.) 2 churches and 15 dwellings; and Beekman Furnace, on the N. line, an iron manufactory and 10 houses.10 The first settlements are supposed to have been made about 1710; but the early records are lost. A. Delong located in 1716, and kept an inn at an early day. Rt. Rev. Alonzo Potter, Bishop of Penn., and his brother, Rt. Rev. Horatio Potter, Provisional Bishop of the Diocese of N. Y., were natives of this town. There are 4 churches in town.11

CLINTON<sup>12</sup>—was formed from "Charlotte" and Rhinebeck Precincts, March 13, 1786. Hyde Park and Pleasant Valley were taken off in 1821. It is an interior town, lying N. w. of the center of the co. Its surface is a rolling upland considerably broken by hills in the N. and W. Shultz Mts., on the N. border, and Sippe Barrack, in the w., are the highest points.<sup>13</sup> Salt Point Creek, the principal stream, flows s. through near the center. Crum Elbow Creek forms a portion of the w. boundary. Several small lakes, the principal of which is Long Pond, lie in the N. part. The soil in the x. is a sandy loam, and in the center and s. it is a productive, slaty loam. Clinton Heoliow, (p. v., ) near the center, contains 25 houses, Clinton Corners (p. v.) 25 houses, Schultzville (p. o.) a gristmill and 10 houses, and Pleasant Plains (p. o.) a church and 8 houses. Bulls Head. Clinton Point, and Hibernia are p. offices. Derrick Van Vliet located in town about 1755. There are 3 churches in town; Friends, Presb., and Prot. E.

**DOVER**—was formed from Pawling, Feb. 20, 1807. It lies on the E. border of the co., s. of the center. The E. and w. borders are occupied by hills and mts., and the center by a deep, wide valley. The valley is about 400 feet above tide, and the summits of the hills are 300 to 500 feet higher. Ten Mile River flows s. from the N. line to near the s. boundary, thence turns E. and discharges its waters into the Housatonic. It receives from the s. Swamp River, a stream that is

<sup>1</sup> This limestone is of a bluish color, hard and brittle; and and Elisha Kinney settled previous to 1743.

where it crops out it is considerably disintegrated, covering the ground in the immediate vicinity with a white sand.

2 An ore bed \(\frac{1}{2}\) mi, w. of Ameniaville has been extensively worked for 25 or 30 years, and the supply of ore seems inexhaustible. Another ore bed has been opened 2 mi. N. w. of Wassaic, and another near the N. line of the town.

<sup>3</sup> This institution has been under the charge of the M. E. denomination.

<sup>4.1</sup> church, the woolen factory, and about half of the buildings

<sup>&</sup>lt;sup>3</sup> I church, the woolen factory, and about half of the buildings are in Coun.
<sup>6</sup> Mr. Sackett was connected with the Livingstons in the settlement of the Pulatinates at "German Camp," (now Germantown, Columbia co.) Ulric Winegar and his son, Capt. Garrett, were the next families. They removed from "German Camp" in 1724 and settled on the Oblong tract. The father died in 1754, aged 102 years. — Delamater settled soon after the Winegars, N. w. of Amenia Union Henry Nase, Stephen Hopkins, Joel Gillett, Hez. King, Abm. and Joshua Paine, J. Howe,

After this time the town rapidly filled up with settlers, mostly from New England. The first mill is supposed to have been built by John Delamater, at Leedsville, and the first inn to have been kept by Michael

at Lecasymo, and the first int to have been kept by Michael Hopkins, near the center of the town. 6 3 Presb., 2 M. E., and 1 each Esp. and Prot. E. 7 The town enbraced the land granted to Col. Henry Beekman. Beekman Precinct was formed Dec. 16, 1737, and Pawling's Precinct was set off in 1768. 8 The Indian name for this lake is A-po-qua-gue, signifying

round lake. P Ore from this bed is extensively mined and taken to Pough-

<sup>Ore from this hed is extensively nimed and taken to Pough-keepsie and Fishkill Furnace.
The furnace at this place is supplied with ore from Unionvale; 700 tons of iron are annually produced.
Bap., M. E., Prot. E., and Union.
Named from Go. Clinton, first Governor.
A slate quarry was formerly worked at the N. extremity of the clints.</sup> 

the Shultz Mts.; but it is now abandoned.

bordered by swamps upon the greater part of its course. The limestone ridge extends N. and s. through the center of the principal valley. Along its course several marble quarries have been opened. 1 Iron ore is found in abundance. The soil is a fine quality of sandy, gravelly, and slaty leam. The small streams flowing from the w. hills have worn deep ravines, and in several places form beautiful eascades. The most noted of these is known as "Dover Stone Church." Dover Plains, (Dover p. o.,) a R. R. station, in the N. part of the town, contains 3 churches, a gristmill, and plaster mill. Pop. 375. South Dover, (p.v.,) on Ten Mile River, contains 2 churches, a grist and saw mill, and 30 honses. Chestnut Ridge (p.o.) and Wing Station (p.o.) are hamlets. The first settlements are said to have been made by the Dutch from the river towns. Among the early settlers are found the names of Knickerbacker, Osterhont, Dutcher, and Van Duzen. The first settlers upon the Oblong tract were from Conn. The first church (Ref. Prot. D.) is said to have been formed about 1770.4

EAST FISHKILL—was formed from Fishkill, Nov. 29, 1849. It is the center town upon the s. border of the co. Its surface is mountainous in the s. and E. and hilly in the N. and W. The highest points of the Fishkill Mts., in the s., are 1000 to 1200 ft. above tide.<sup>5</sup> The principal streams are the Fishkill and its tributaries, Wortel Kil and Sprout Creek. Black Pond is a small sheet of water near the s. line. The intervales along the streams are generally wide, and bordered by steep hillsides in the s. and more gradual slopes in the x. The soil is a gravelly loam. Fatting cattle for the New York market is one of the leading pursuits. East Fishkill, (p.v.,) near the center, contains a grist and saw mill and 15 houses; **Johnsville**, (p. v.,) near the w. border, 1 church and 14 houses; Stormville, (p. v.,) in the E. part, 20 houses; Fishkill Plains, (p.v..) in the N. w., 1 church and 15 houses; and Shenandoah Corners, in the s., a church and 15 houses. Pecksville, Hopewell, (Adriance p.o.,) and Fishkill Furnace<sup>6</sup> are The first settlers were Genet, Geo. and Isaac Storm, about the year 1730; Cornelius Wiltsie and Isaac Adrience came in about 1740. There are 4 churches in town.

**FISHIKILL**—was formed as a town, March 7, 1788. A part of "Freedom" (now La Grange) was taken off in 1821, and East Fishkill in 1849. A part of Philipstown (Putuam co.) was annexed March 14, 1806. It lies upon the Hudson, in the s.w. corner of the co. Its surface is mountainous in the s. and hilly in the N. The Fishkill Mts., extending along the s. border, are high, rocky, and precipitous. Old Beacon and Grand Sachem, in the s. E. corner, the highest summits, are respectively 1471 and 1685 ft. above tide. A break in these mountains, in the E. part, opening toward the s., is known as the Wiccopee Pass.8 The Fishkill flows s. w. through near the center of the town, skirting the foot of the mountains and separating them from the hilly region in the N. W. Wappingers Creek forms the w. boundary. A high rolling ridge lies between these two streams, and the highest point is Mt. Hope, 1000 ft. above tide, near the E. border. Sprout Creek, a tributary of the Fishkill, forms a portion of the E. boundary. A series of bluffs, 150 to 200 ft. high, extends along the river, broken by the valleys of the streams. The soil is a clay and gravelly loam. Fishkill Landing, (p. v.,) on the Hudson, opposite Newburgh, contains a newspaper office, 2 machine shops, and 4 churches. Brinckerhoff's Nursery, the largest on the Iludson, and occupying 50 acres, is at this place. Pop. I,100. It is a R. R. station and steamboat landing, and is connected with Newburgh by a steam ferry. Matteawan, (p. v.,) on Fishkill Creek, I mi. above the landing, is an important manufacturing village. It was formerly the seat of extensive cotton mills; but these have mostly been converted to other purposes.10 It contains 4

<sup>&</sup>lt;sup>1</sup> The principal quarties are between Dover Plains and South

Dover.

2 White's ore hed, 3 mi. N. w. of South Dover, has been extensively worked, and the ore produced is of good quality. The Dover from Works formerly did an extensive business: they closed about 2 years since. White's Furnace, halfway between South Dover and Dover Plains, is making 5 to 6 tons of iron

per day.

8 This ravine is about a ½ mi. w. of Dover Plains. It is 20 to 25 feet wide at the bottom and I to 3 feet at the top, and the rocks that border it are 40 to 50 feet high. It extends into the bill 30 to 40 feet, and nt its farther extremity the stream flows bill 30 to 49 feet, and nt its farther extremity the stream flows from the mountain above in a succession of rapids. The name was given in consequence of its resemblance to the Gotbic arch. In another ravine, about ½ mi. s. of Stone Church, are the "Wells." A small stream here flows down from the mountain in a succession of rapids 3 to 12 feet in height; and at the foot of each fall smooth, rounded boles, called the Wells, have been worn in the rocks to the depth of 3 to 8 feet. The holes occupy the whole width of the bottom of the ravine, and the rocks on each side are shelving and slippery, rendering a near approach difficult and dangerous. These two localities are frequently visited by the lovers of nature during the summer season.

4 This is now a Union church. A Friends meeting house was

<sup>4</sup> This is now a Union church. A Friends meeting house was

built here about the same time.

<sup>&</sup>lt;sup>5</sup> The highest point on the s. border is locally known as "Wiecopee," or "Ling Hill," and the highest on the E. border as "Looking Rock."

A furnace at this place manufactures pig iron from the ore.

1 temploys 40 hands, and makes about 400 tons of iron per

1 annum. The ore is obtained from the mine near Silver Lake, in Beekman. A mine on the E. liue, after being worked 20 years,

was exhausted. 7 2 Bap., M. E., and Ref. Prot. D. The last named has an endowment of \$5000.

<sup>&</sup>lt;sup>8</sup> This pass was carefully guarded during the Revolution, to prevent the British from turning the American works at West Point. A considerable American force was stationed at its upper

extremity during the campaign of 1777.

9 Mt. Hope is \( \frac{1}{2} \) mi. s. of Myers Corners. A heautiful and extended view is obtained from its summit. A beacon has been erected here by the Coast Survey, to serve as a point in the triangulation of the Hudson River Valley.

<sup>19</sup> Among the most important manufactories are 6 The Semiless Clothing Manufacturing Co.," incorporated with a equital of \$\$50,000. It gives employment to \$\$29 hands, and turns out \$\$50,000 worth of goods annually. The Matteawan Machine Works, S. B. Schenck, proprietor, gives employment to \$200 hands, and turns out annually goods to the amount of \$500,000. J. Rothery's file factory employs 70 hands, and manufactures goods to the

churches. Pop. 1476. Wappingers Falls, (p. v., ) at the head of navigation on Wappingers Creek,  $I_2^1$  mi. from the Hndson, lies partly in Poughkeepsie. It is largely engaged in manufacturing. Wappingers Creek here falls 75 feet, furnishing an excellent water power. The village contains 4 churches. Pop. 1819, of which 1139 are in this town. **Highsonville**, (p.v.,) 1½ mi. s. of Wappingers Falls, contains a church and a steam saw and grist mill. Pop. 245. New Hackensack, (p. v.,) in the N. part, contains I church and 15 dwellings; Fishkill, (p. v.,) near the center, contains the Fishkill Seminary, the Fishkill Collegiate Institute, 2 private schools, a newspaper office, a bank, savings' bank, 3 churches, and 130 dwellings. Glenham, (p.v.,) 2½ mi. below Fishkill, contains a woolen factory, 23 churches, and 75 dwellings. Carthage Landing. (p. v.,) on the Hadson, 5 mi. above Fishkill Landing, contains I charch and 30 dwellings. Myers Corners, Swartoutville, and Brinkerhoffville are hamlets. The first settlement is supposed to have been made before 1690. The earliest records, dated in 1697,3 are papers relating to lands. The town lies within the tract granted to Francis Rumbout and others, Oct. 17, 1685.4 In colonial times it formed a part of the Rumbout and Fishkill precincts. The first constitutional convention held a session in this town in the fall of 1776. There are 22 churches in town.<sup>5</sup>

HYDE PARK6—was formed from Clinton, Jan. 26, 1821. It lies upon the Hudson, a little N. of the w. border of the co. Its surface is principally a rolling and moderately hilly upland, terminating on the Hndson in a bluff 180 ft. high. Hog and Lloyds Hills, in the N. part, each about 500 ft. above the river, are the highest points in town. The principal streams are Crum Elbow Creek, and Fall Kil, tributaries of the Hndson. The soil is a sandy and gravelly loam underlaid by slate. Hyde Park, (p. v.,) finely situated upon an eminence half a mi. E. of the river, contains 4 churches, a gristmill, and 692 inhabitants. Staatsburgh (p. o.) is a R. R. station and hamlet in the N. part of the town; Union Corners and Hyde Park Landing are Numerous elegant residences, occupying splendid sites, have been erected along the banks of the river. The first settler is supposed to have been Jacobus Stoughtenburgh, the owner of one of the nine "water lots;" he came to the town about 1720. Gov. Morgan Lewis formerly resided upon the place now occupied by Hon. J. K. Paulding. The census reports 7 churches in town.7

LA GRANGE<sup>8</sup>—was formed from Beekman and Fishkill, as "Freedom," Feb. 9, 1821. Its name was changed in 1828. A part of Union Vale was taken off in 1827. It is an interior town, lying s. w. of the center of the co. Its surface is a rolling and moderately hilly upland. Sprout Creek, the principal stream, flows s. through near the center. Wappingers Creek forms the w. boundary. The soil is a gravelly loam. La Grangeville, (p. v.,) in the s. E. part, contains 2 gristmills and 14 houses; and Freedom Plains, (p. v.,) near the center, a church and 14 houses. Titusville, 1 mi. s. of Manchester Bridge, is a hamlet. Sprout Creek (p. o.) is a hamlet in the s. part. Manchester Bridge, (p.o.,) on the w. line, is mostly in Poughkeepsie. Arthursburgh (p.o.) is a hamlet in the s. corner. The first religious society (Friends) was formed before 1800. There are two churches in town; Friends and Presb.

MILAN<sup>10</sup>—was formed from Northeast, March 16, 1818. It lies on the N. border of the co., w. of the center. Its surface is a hilly upland broken by the deep valleys of the streams. The declivities are generally gradual slopes, and the hills are arable to their summits. Roeliff Jansens Kil crosses the N. E. corner. The other streams are small and are bordered by fertile intervales. The soil is a clayey, gravelly, and slaty loam. Jacksons Corners, (p. v.,) on Roeliff Jansens

amount of \$45,000 annually. Wiccopee, \(\frac{1}{2}\) mi. below Matteawan, \( |\) in the Revolution, and salt was stored in its cellar for the was the seat of the Wiccopee Color Mills, since changed to the \( |\) army.

was the seat of the Wiccopee Color Mills, since changed to the New York Rubber Co., engaged in the mannfacture of rubber toys. This co. has a capital of \$125,000, employs 125 men, and turns out \$100,000 to \$150,000 worth of goods per year. ¹ The Dutchess Printing Co., incorp. with a capital of \$300,000, employs 300 hands, and produces \$750,000 worth of prints per annum. The Franklin Dale Manuf'g Co., incorp. with a capital of \$150,000, employs 250 hands, and turns out \$150,000 worth of printing cloths per annum. There are, besides, a foundry, comb factory, and numerous machine shops. A large cotton feature was hurnt here a few years since and has not them refactory was hurnt here a few years since, and has not been re-

<sup>2</sup> The Glenham Woolen Co., incorp. with a capital of \$75,000, employs 175 hands, and turns out \$275,000 worth of goods annually. It was first started in IS11.

8 The first mill was erected at the mouth of Fishkill, some time before 1709. A ferry to Newburgh was authorized in 1743. 4 The house now occupied by Hon. Isaac Teller and his sisters

st Matteawan—one of the first built in town—belonged to Roger Brett, a sonin-law of Rumbout. It was built about 1710. The house is one story, 87 by 36 ft., the sides and roof covered with edar shingles. It was often filled with officers and soldiers

<sup>5</sup> The first church (Ref. Prot. D.) was formed at Fishkill Village early in the last century; but the precise date cannot be ascertained. The earliest church records bear date of Sept. 30, 17-77. Rev. Dr. De Witt supposed that the church was formed as early as 1716. The present edifice was built in 1786, in the place of one built in 1731. The old church was used for barracks by of one bold in 1731. The on Children was used to barracks by the American army during the Revolution. The present churches are as follows:—Presh. M. E., Ref. Prot. D., and Af. Meth. at Fish-kill Landing; Presb., Prot. E., Prot. Meth., and R. C. at Matteawan; M. E., Ref. Prot. D., and Prot. E. at Glenham; M. E., Ref. Prot. D., and Prot. E. at Glenham; M. E., Ref. Prot. D., and Prot. E. at Fishkill; M. E., Irot. E., and Rap. at Wappingers Falls; Presb. at Brinkerhoffville; M. E., at Carthage Land-Robbs at Mathematican Report Proc. 1831.

ing; Presb. at Hughsonville; and Ref. Prot. D. at New Hackensack.

Named by Dr. John Bard, from Hyde Park, Loadon.
Prot. E., M. E., Bap., Presb., Ref. Prot. D., R. C., and Friends.
Named from La Fayette's residence in France.

<sup>&</sup>lt;sup>9</sup> The Titus Woolen Factory, established here in 1828, employs 60 to 70 hands, and turns out about \$100,000 worth of cloths per annum; capital, \$50,000.

<sup>10</sup> This town is included in the tract known as the "Little Nine Partners."

Kil, in the N. E. corner, contains I church and 25 houses; Rock City' (p. v.) a grist and saw mill and 20 houses; Milanville (Milan p.o.) I2 houses; and La Fayetteville (p.v.) I6 houses. Shookville and Thornville are hamlets. The first settlements were principally made by tenants under the original proprietors, about 1760,2 and a large share of the land is still held by leasehold tenure. The first church (M. E.) was formed about 1790. The census reports 4 churches.

NORTHEAST'-was formed as a town, March 7, 1788. Milan was taken off in 1818, and Pine Plains in 1823. It is the N. E. corner town of the co. A tongue of land 1½ mi. wide, upon the E. border, extends 4 mi. N. of the remaining part of the town. The surface is a hilly and broken upland. The Taghkanick Mts., extending along the E. border, are rocky and broken, and are 1000 to 1200 ft. above tide. The highest point in the valley w. of the mountains, forming the summit level of the N. Y. & H. R. R., is 77I feet above tide. Ten Mile River, the principal stream, flows s, through nearly the whole length of the town. Chekomiko Creek flows n. through the w. part. Indian Pond, on the E. line, Round Pond, on the S. line, and Ruds Pond are the principal bodies of water. The valleys have generally a gravelly and clayey soil, but the hills in some places are rocky and fit only for pasturage. An extensive bed of iron ore has been opened I mi. N. E. of Millerton, near the Conn. line. 5 Northeast Center (p. v.) contains 2 churches and 20 houses; Millerton, (p. v.,) a rail road station, contains 1 church and 27 houses; and Spencers Corners (Northeast p. o.) a church and 12 houses. Coleman Station is in the s. part. Federal Store and Oblong are p. offices. The pioneer settlers were mostly from Conn., and located here from 1725 to 1730.7 The first religious services were held by Moravian missionaries, at an Indian mission house at the N. end of Indian Lake.<sup>8</sup> There are 4 churches in town.9

PAWLING<sup>10</sup>—was formed as a town, March 7, 1788. Dover was taken off in 1807. It is the s. E. corner town in the eo. A high range of hills extends along the E. border, and another occupies the w. part. A fine, broad valley occupies the central portions and separates the two highland regions." Swamp and Croton Rivers take their rise in the valley, the former flowing N. and the latter s. Whaleys and Little Ponds-the sources of the Fishkill-lie near the w. border, and Oblong Pond lies in the N. E. part. The ridge of limestone from which marble is quarried extends into the N. part from Dover. The soil is a slaty and gravelly loam. Large quantities of milk are daily sent to the New York market. **Pawling**, (p. v.,) a station on the H. & N. Y. R. R., contains a bank, 2 churches, and 25 houses. Campbellville, (p.v.,) in the N. part, contains 14 houses. Quaker Hill (p.o.) and Farmers Hill (p.o.) are hamlets. Settlements are supposed to have commenced at Quaker Hill between 1720 and 1730, by Friends from R. I., who organized the first religious society soon after their arrival.<sup>12</sup> There are 3 churches in town; M. E., Bap., and Friends.

PINE PLAINS<sup>13</sup>—was formed from Northeast, March 26, 1823. It lies on the N. border of the co., E. of the center. The surface is a hilly upland, the ridges being separated by broad valleys. The highest summit is Stissing Mt., in the w. part, 400 to 500 feet above the valleys. Its declivities are steep, and it is crowned with a mass of naked rock. Rocliff Jansens Kil crosses the N. w. corner, and the Shekomeko or Cheecomico flows N. through near the center. Thompsons, Stissing, and Mud Ponds lie at the E. foot of Stissing Mt., and Buttermilk Pond and several smaller ones are in the s. part. The soil is generally a productive, gravelly loam. Marl is found in several

<sup>1</sup> Named from the rock which crops out in the adjacent hills ;

and along the streams.

2 In 1760, Johannes Rowe bought of Robert Livingston 911 acres a little N. of La Fayetteville, and located upon it. Among the other early settlers we find the names of Clark, Stewart, Simons, and Herrick, a part of whom were from Conn.

3 2 M. E., and I each Christian and Union.

4 Named from its geographical position in the co. Northeast

Precinct was formed from the North Precinct, Dec. 16, 1746, and embraced the Little or Upper Nine Partners Tract. The North Precinct was extended across the Oblong Tract to the Conn. line,

Premit was extended across the coloning fract to the Colin mee, bec. 17, 1743.

5 The Dakin ore hed was opened in 1846 by the proprietor, who creeted a furnace in the vicinity and run it until 1856. The mine is at the foot of the Taghkanick Mt., where it makes a bend into Colin, and about 1½ ml, above the Salisbury (Colin). a bend into Conn., and about 12 mi. above the Sansonry (1991).

I from Soul to 10,000 tons of ore are taken out annually, and are mostly sent by R. R. to Hudson. Benedict's Furnace. I tract. Many original proper from Salishury ore. A cupola furnace has also been erected there, and the manufacture of car wheels commenced. A state unsuccessful, company was incorp, in this town in 1812.

<sup>&</sup>lt;sup>6</sup> Large quantities of milk are daily sent to the N. Y. market 7 Baltus Lott and Adam Showerman first settled in the s. part of the town. Barzillai Rudd, Elder Dakin, and — Spencer were also early settlers.

<sup>8</sup> The remains of this old mission house are still visible on the

farm of Douglas Clark.

9 2 M. E., Bap., and Cong.

10 Pawling Precinct was formed from Beckman Precinct, Dec.

<sup>21, 1708.

1</sup> Mt. Tom, a prominent peak \(\frac{1}{2}\) mi. w, of Pawling Station, is about 300 feet above the valley.

12 The Friends meeting house on Quaker Hill was used as a hospital during the Revolution, and a considerable number of sedders were buried in the vicinity. A body of troops were stationed here for some time; and Gen. Washington spent a short time here in 1778.

<sup>13</sup> This town formed a portion of the "Little Nine Partners" tract. Many of the farms are still owned by the herrs of the original proprietors, and are based to the occupants. All efforts to convert the leaschold tenure into a freehold have proved

localities. Pine Plains, (p.v.,) near the center of the town, contains a bank and 3 churches. Pop. 382. Hammertown contains an extensive seythe factory and a dozen houses.<sup>2</sup> Pulvers Corner (p.o.) and Mount Ross are hamlets. The first settlements were probably made about 1740.3 A Moravian mission was established among the Indians at Shekomeko, 2 mi. s. of Pine Plains, in Sept. 1740.4 There are 7 churches in town.5

PLEASANT VALLEY—was formed from Clinton, Jan. 26, 1821. It is an interior town, lying w. of the center of the co. Its surface is a rolling and hilly upland. Barnes and Dennis Hills, in the N. W., are the highest points. Wappingers Creek flows s. w. through near the center; Sprout Creek takes its rise in a pond in the s. w. part. Slate crops out along the hills, and a vein of marble has lately been discovered. The soil is a clayey and gravelly loam. Pleasant Valley, (p.v.,) in the s. w. part, was incorp. April 15, 1814; it contains a cotton factory6 and 4 churches. Pop. 500.7 Salt Point, (p.v.,) on Wappingers Creek, contains a grist and plaster mill and 17 houses. Washington Hollow, (p.v.,) on the line of Washington, contains a church, cotton factory, and 16 houses. Crum Elbow is a p.o. The first church (Presb.) was formed in 1765; Rev. Wheeler Case, the first pastor, was installed Nov. 12 of the same year-There are 5 churches in town.9

POUGHKEEPSIE<sup>10</sup>—was formed as a town March 7, 1788. The city of Poughkeepsie was taken off March 28, 1854. It lies upon the Hudson, s. of the center of the co. Its surface is mostly a rolling upland. Wappingers Creek, forming the E. boundary, and Fall Kil, flowing s. through Poughkeepsie City, each furnish a considerable amount of water power. The soil is clayey in the w. and a sandy and gravelly loam in the remaining parts. New Hamburgh, (p.v.,) on the Hudson, in the extreme s. angle, contains 2 churches. It is a R. R. station, and is connected by a ferry with Marlborough, Orange co. Pop. 339. Channingville, opposite Wappingers Falls, contains a gristmill, 2 churches, and 50 houses. Manchester, (Manchester Bridge p. o., ) on the line of La Grange, contains about a dozen houses. 11 Rochdale, in the N. E. corner, contains 2 cotton factories and 15 houses. Locust Glen is a p. o. The first settlements were made by the Dutch, about 1700.12 There are 4 churches in town; 2 M. E., Presb., and R. C.

POUGHKEEPSIE CITY—was formed from Poughkeepsie, and incorp, as a village March 27, 1799, and as a city March 28, 1854. It is situated upon the Hudson, a little s. of the center of the w. border of the co. The ground gradually rises from the river to a table land, 150 to 200 ft, high, upon which most of the city is built, and about I mi. back into a hill 500 ft. high.13 Fall Kil, a small stream, flows in a torthous channel through the city, affording a limited amount of water power. The city is finely laid out on the bluff overlooking the Hudson; and, besides the co. buildings, it contains 4 banks, I savings' bank, 18 churches, and many other fine public and private buildings. Its location gives to the city commercial advantages

which are fully improved. During the summer daily lines of steamers run to New York and to

<sup>1</sup> Upon draining Hoag Pond, 1½ mi. 8, E, of Pine Plains Village, ; 1 Con draming Hoag Fond, 14 m.s. E. of Pine Plains Village, a very deep hed of mart, covering 6 or 8 acres, was found. Marl is also found in Buttermilk Pond.
2 Harris's Scythe Exectory gives employment to 50 bands, and turns out about 2000 dozen scythes per unnum.
8 In 1740, John Rau, a German, lived on a hill 8, E. from Shekemeko, John Tice Smith, Jas. Grabam, C. W. Rautz, Ebr.

points, and — Snyder were also early settlers.

• This mission was commenced in Sept. 1740, by Henry Banch, and on the 22d of Feb. 1742, the first 3 Indian converts were baptized. Before the end of the year, 26 more were converted, and a place of worship was erected. This little community had not become fully settled before its quiet was disturbed by the intrusion of an armed force under the orders of the sheriff, at the instigation of intolerant and bigoted neighbors; and, al-though neither arms nor any thing else were found that could be construed into hostile designs against the Government, the be construed into hostile designs against the Government, the prissionaries were solved and brought before the Government of Council at New York, under charge of being in the interests of the French and of endeavoring to seduce the Indians from their alliance with the English. Upon refusing to take the outh of allegiance, they were reprimanded and discharged. Their ene-mies, well knowing their consciuntions scruples in regard to ouths, in 1744 obtained the passage of an act "for securing his analesty's government in New York," by which an outh of alle-giance was made obligatory. Bather than do violence to their consciences the missionaries range of the Rubbehom Page. consciences, the missionaries removed to Bethlehem, Penn.,

followed by several of their Indian converts. The mission was visited by Count Zinzendorf and Bishop Pavid Nitschman soon after its location in this town. During the last 2 years, 62 native converts were baptized and admitted to the church. Gottlieb converts were naptized and admitted to the cultrel. Gottlieb Buetner, one of the missionaries, died in Feb. 1745, at this place.—Heckewelder's Hist. Moray, Missions, 20; Doc. Hist. N.Y., III. 1014; Davis's Sh. Komeko, p. 29.

<sup>6</sup> Bap., M. E., Presb., Prot. E., and Friends, <sup>6</sup> This factory was built in 1815, by John Gibbons. It con-tains 80 bonns, and gives employment to 75 hands.

<sup>7</sup> The charter of this village is a dead letter, as no election has taken place in 10 years. The village records are lost,

taken place in 10 years. The vinage records are lost.

8 This factory gives employment to about 40 hands.

9 2 M. E. Friends, Prot. E., and Presb.

10 Poughkeepsie Precinct was formed Dec. 16, 1737. In early documents the name is spelled in a variety of ways, as "Picipsi" and \*Poktpsi." The original name is said to have been Apobenously, significing "them water." and "Pokepsi." The original name is said to have been Apo-keep-sink, signifying "deep water."

11 A cotton factory was formerly in operation here.

In 1849 it

was changed to a paper mill, which was run until 1857.

was changed to a paper mill, which was run into 1856.

2 Near the s. line of the city is a house built before the Revolution and formerly owned by Philip Livingston. It still bears the marks of balls fired by the British. The dwelling of tiev. Geo. Clinton, still standing, 6 mi. below the city, is now owned by Philip S. Van Rensselaer. Prof. S. F. B. Morse, the inventor of the electric telegraph, resides 2 mi, s. of the city.

<sup>13</sup> About 1 mi, N. of this hill is another of about the same ele-

Albany, and a considerable trade is carried on by barges and boats. The daily line of steamers between New York and Albany touches here. A steam ferry connects the city with New Paltz Landing. The manufactures are extensive and various. They consist chiefly of pig iron, carriages, carpets, pins, chairs, drugs, files, sewing silk, and ale.<sup>1</sup>

The City Hall is a plain brick building, situated on Main St., a little w. of the courthouse.

The Public Schools are under the charge of a board of education, consisting of 12 members, of whom 3 are elected annually. The schools are 6 in number, and employ 23 teachers,—3 males and 20 females. In 1857 the number of children between 4 and 21 was 4329, of whom 1900 (or 44 per cent.) were in attendance at school during some portion of the year. The total expenses of the schools were \$8444 13. The number of volumes in the district libraries was 4683.

The Dutchess Co. Academy occupies a large 3 story brick building on Hamilton St.<sup>2</sup>

The Poughkeepsie Female Seminary, situated on Cannon St., was founded by a stock co., at a cost of \$15,000. Eleven teachers and two lecturers are connected with it.

The *Poughkeepsie Collegiate School* is situated on a hill  $\frac{3}{4}$  of a mi. E. of the city. A lot of 80 acres is connected with the institution, and the building and grounds are valued at 875,000.

The Mansion Square Female Institute is a private institution, corner of Mansion and Catharine Sts. 1t has 9 teachers and 80 pupils.

The Dr. McLellans Female Collegiate Institute, a private institution, is situated at the corner of Mill and Catharine Sts. It occupies a 3 story brick building, and has 10 teachers and about 160 pupils.

The Cottage Hill Seminary, a private institution for young ladies, is located on a beautiful site upon Garden St. It is under the charge of a principal, assisted by 12 teachers and lecturers. A library of 2000 volumes is connected with it, and the number of pupils is limited to 50.

The Law School, incorp. in 1851, and first located at Ballston Spa, w.s. removed to this city in 1853, and its sessions are still held here. A Young Men's Association has been established, for the purpose of furnishing winter lectures.

The Poughkeepsie Lyceum of Literature, Science, and Art was incorp. April 6, 1838.

The Poughkeepsie Orphan Asylum and Home of the Friendless, having for its object the care of orphans and destitute children, was organized June 21, 1847. Besides these, there is a Rural Concetery Association, a well organized Fire Department, and an Aqueduct Association. Population of the city, 12,763.5

The first settlement was begun in 1690 and 1700. Baltus Van Kleeck built the first house within the present limits of the city, in 1702, on land now owned by Matthew Vassar Jr., near Cong. Church.<sup>6</sup> The first church (Ref. Prot. D.) was formed about 1700. Rev. Cornelius Van Schie was installed paster of this church and the one at Fishkill in 1727.<sup>7</sup>

The Van Kleeck House, a substantial stone building, was used for purposes of defence, and just under the eaves the walls were pierced with loop-holes for musketry. This building was afterward the meeting place of the inhabitants to consult upon the public welfare when the Boston Port Bill and kindred measures awakened a spirit of resistance through the country. There the Committee of Correspondence of Dutchess held their meetings; and there the pledge to sustain the Continental Congress and the Provincial Assembly was signed by the inhabitants of Poughkeepsie in June and July, 1775.

vation. Many beautiful and costly dwellings are built upon these table lands about the city, affording a fine view of the city and valley. The eye here has an unintercupted range of view

over 2500 sq. mi, of country.

1 The Poughkeepsie Iron Works were established in IS48, with a capatal of \$200,000 ; 75 hands are employed, and 10,000 to 11,000 tons of pg iron are manufactured per annum. The ores used are the hematic from Fishkill, and the magnetic ore from Essex co. The Poughkeepsie Currage Manufactory, with a capital of \$35,000, employs 50 hands, and turns out \$90,000 to \$100,000 worth of carriages per annum, which are chiefly sold in the Southern markets. Pelton s Carpet Factory, with a capital of \$50,000, employs 60 to 10 hands, and produces \$00,000 to \$100,000 ok, of carpeting per year. A pure factory in the same building, employs 16 hands, The Poughkeepsie Chair Manufactory employs 300 hands, and produces \$50,000 worth of chairs per year, which are mostly sent to South America. An establishment for the preparation of dye stuffs and drugs employs 20 hands, and manufactures \$200,000 worth of gods annually. A file factory, started in 1856, employs 12 men; and a sewing silk factory, started in 1856, employs 15 men; and a sewing silk factory, started in 1856, employs 15 men; and a sewing silk factory, started in 1856, employs 15 men; and a sewing silk factory, started in 1856, employs 10 men; and a sewing silk factory, started in 1856, employs 15 men; and a sewing silk factory, started in 1856, employs 15 men, and manufactures 30,000 bits, of ale per year.

pages or men, and manufactures occasions in an per year.

2 This binding was creefed in 1836, at a cost of \$14,000.

3 The binding of this institution is of brick, modeled after the Parthenon. If was og mized under the charge of Class Bartlett, N. P. Tallmage, and —— Conningham. See p. 750.

4 The Poughkeepsie Rural Cemetery consists of 54 acres, sith ated in the town of Poughkeepsie, a short distance below the city, between the Highland Turnpike and the Hudson.

i 6 The population of the town of Poughkeepsie (including the centry recently organized) at different periods has been as tollows:—

1790.....2,529 | 1814...5,673 | 1830....7,222 | 1845 | 11,79 | 1800....5,246 | 1829....5,726 | 1835....8,529 | 1859....5,524 | 1810....4,659 | 1825....5,935 | 1849....10,006 | 1835....15,873 | 6 Anong the early settlers were Dutch tambles named Van De Begart, Van Benschoten, Van De Begart, Van Wenschoten, Van De Begart, Van Wenschoten, Van Enschoten, Van De Begart, Ne Wenschoten, Van De Begart, Ne Wenschoten, Van Benschoten, Van Hogeboom, Lukins,

De Begart, Van Benschoten, Van De Bergh, Vin Weigenet, De Graff, Le Roy, Parmentier, Messier, Ostrom, Hogedsom, Filkmis, Swartwort, Freir, Hogeman, and Livingston. The first house stood until 1835. It was built of stone, and was murished with loughtedes for the use of muskerry. Furring the Revolution tho

colonial legislature held several sessions in 1.

7 In 1758, the controversy between the Cetus and Conferential parties distracted this church, and led to its division in 1762. The former of these parties wished to sever their connection to not the Classis at Amsterdam and become independent, one the latter wished to still preserve their connection with them there church. The controversy divided nearly all the Bot Food B, churches in America, and it was not entirely settled unité dont 1799, when a reconciliation took place. There are new 1850 in these in the city; 4 M. E., 2 Ref. Prot. D. 2 Prot. E., (Christ) and 81. John's, 2 Bap, and Cong. Presb., Univ., Ger. Luth., At M. th., Friends, R. C., and Jewysh.

As soon as the alarm occasioned by the invasion of Sir Henry Clinton (in 1777) had subsided, Gov. Clinton called a meeting of the Legislature at Poughkeepsie. It assembled at the Van Kleeck House early in Jan. 1778. Various acts to complete the organization of the State Government were passed; provisions were made for strengthening the eivil and military powers of the State; and it was during that session that the State gave its assent to the Articles of Confederation, the organic law of the Federal Union until our present Constitution was formed and adopted.

The State Convention to consider the Federal Constitution assembled at the Van Kleeck House on June 17, 1788. There were 57 delegates present, and Gov. George Clinton was chosen President of the Convention. In that assembly were some of the most distinguished men of the Revolution, and the debates were of the most interesting character. In no State in the Union was hostility to the Federal Constitution more extensive and violent than in the State of New York. Forty-six of the 57 delegates, including the governor, were Anti-Federalists, or opposed to the Constitution. The principal advocates of the instrument were John Jay, Alexander Hamilton, and Robert Livingston. Mr. Hamilton had been a leading member of the National Convention that framed the Constitution, and also one of the principal writers of The Federalist. He felt the responsibility of his situation, and the Convention readily acknowledged the value of his judgment. He was perfeetly familiar with every topic included in the wide range which the debates embraced, and he was nobly sustained by his colleagues Jay and Livingston. The hostile feelings of many of the Anti-Federalists gradually yielded, and on the 26th of July the final question of ratification was carried in the affirmative by a majority of 3 votes.

Huddlestone, the famous spy, who was captured upon Wild Boar Hill, near Yonkers, Westchester co., was tried, condemned, and hung in Poughkeepsie in April, 1780. The place of his execution was upon a verge of the plain on which the town stands known as Forbuses Hill. He was accompanied to the scaffold by the co. officers and a small guard of militia enrolled for the purpose.1

**REDHOOK**<sup>2</sup>—was formed from Rhinebeck, June 2, 1812. It lies upon the Iludson, in the N. w. corner of the co. Its surface is a rolling upland, terminating on the Hudson in a series of bluffs 100 to 150 ft. high. The E. part is hilly. Prospect Hill is a prominent peak a little s. of Upper Redhook Village. The streams are the Saw Kil and White Clay Kil. of the streams are broad and their banks low. Long Pond, in the E. part, forms the source of the Saw Kil. The soil along the river is a clay loam, and in the remaining parts a sandy, gravelly, or slaty loam. Redhook, (p. v.,) near the center, contains a cigar and tobacco manufactory, a female orphan asylum,8 and 3 churches. Pop. 625. Tivoli.4 (p. v.,) in the N. w. part, is a steamboat landing and a R. R. station. A large forwarding business is carried on here. It is adjacent to Myersville, the two places forming a continuous village. They contain 5 churches and about 600 inhabitants. Barrytown (p.v.) is a R. R. station, 6 mi. below Tivoli. It contains 1 church, and is a place of considerable trade. Pop. 250. Upper Redhook, (p.v.,) in the N. E. part, contains I church and 175 inhabitants. Cedar Hill, on the Saw Kil, contains 1 church, a earpet yarn manufactory, a flouring mill,5 and 175 inhabitants. The first settlements were made between 1713 and 1727, by the Dutch. There are 11 churches in town.6 Along the river are numerous elegant country seats. The old residence of Gen. John Armstrong is now owned by his son-in-law, William B. Astor. The former estate of Gen. Montgomery is now occupied by Mrs. Edward Livingston.

RHINEBECK<sup>8</sup>—was formed as a town, March 7, 1788. Redhook was taken off in 1812. It lies upon the Hudson, N. w. of the center of the co. Its surface is a rolling and moderately hilly upland, terminating on the river in bluffs 100 to 150 ft. high. Landmans Creek, the principal stream, flows s. w. through near the center. Rhinebeck Kil is its tributary. Lake Sepasco is a small body of water in the N. E. corner. The soil is principally a fine quality of sandy loam.

<sup>1</sup> Lorsing's Field Book, Vol. I, pp. 283, 384.

2 By the Dutch called Roode Hoeck. Tradition ascribes the name of the town to a marsh near Tivoli, covered with ripe cranberries when first seen.

3 Supported entirely by Mrs. William B. Astor.

4 Pronounced Tivole. A ferry connects this place with Sangerties, Ulster co.

6 Erectoi in 1856, at a cost of \$30,000, 64 Prot. E., 3 M. E., Lutin, Bap., Union, and Independent; the last is the Sylvanian Chapel at Barrytown, owned by Robert Bonalson. Donalson.

Tamong the early settlers were families named Haeners, Shufoldt, Zippertie, Hagerdorn, Wiederwax, Trauvs, Staats, Mellhau, Bermar, Woldorf, Near, Proseus, and others, mostly from

Germany. They first settled near Barrytown and Tivoli. 

Sam'l Staats; all the land granted to Adrian, Roosa, and Cotbe; land patented by Col. Henry Beckman, June 5, 1703; and the land granted to Col. Peter Schuyler, called the Magdalen Island Purchase. The name is derived from the first settlers, who wer from near the Rhine, in Germany, and Beckman, an original proprietor.

Rhinebeck, (p. v.,) near the center of the town, was incorp. April 23, 1834. It contains a bank, paper mill, 2 newspaper offices, a private academy, and 5 churches. Pop. 1051. Rhinebeck Station, (p. v.,) on the Hudson, contains a paper mill and 18 houses. A steam ferry connects the place with Rondout, Ulster co. Monterey, near the N. border, contains a church and 10 houses. The first settlement was made some time before 1700, but the precise date cannot be determined. The first family that came in was that of Wm. Beekman, the original proprietor.<sup>3</sup> His homestead (known as the Beekman Ilouse, built on a high point above Rhinebeck Station) is still standing.\* The first religious services are said to have been held in this house. The first church (Ref. Prot. D.) was formed May 23, 1724, at the present village of Monterey.<sup>5</sup> The Lutheran elurch at Monterey was formed in 1730.6 There are 6 churches in town.7

STANFORD<sup>8</sup>—was formed from Washington, March 12, 1793. It is an interior town, lying N. E. of the center of the co. Its surface is a broken and hilly upland. The hills are generally rounded, and admit of cultivation to their summits. Slate crops out in numerous places along their declivities, and bowlders and water-worn pebbles are thickly strewn over a considerable portion of the surface. The highest point is Carpenter Hill, in the N. E. corner, Wappingers Creek, flowing s. w. through near the center, is the principal stream. Hunns Lake, in the N. E., and Uptons Pond, in the s. w., are the principal bodies of water. The soil is a good quality of gravelly and slaty loam. A considerable quantity of milk is sent daily to New York by the Harlem R. R. Stantordville, (p.v.,) near the center of the town, contains a gristmill, carriage axle factory, paper mill, 3 churches, and 35 dwellings. Bangall, (p.v.,) on Wappingers Creek, contains 2 gristmills, 2 sawmills, a foundry, 2 churches, and 30 dwellings. Attlebury, (p.o.,) Stissingville, and Old Attlebury 10 are hamlets. Smith Thompson, U. S. Circuit Judge, was a native and resident of this town. There are 5 churches in town.11

UNION VALE12—was formed from Beekman and "Freedom," (now La Grange,) March 1, 1827. It is an interior town, lying s. E. of the center of the co. Its surface is a hilly and broken upland divided into two parts by a broad valley which extends N. and S. through the center. Slate crops ont upon the summits and the declivities of the hills. The Clove Kil, a tributary of Fishkill Creek, flows s. w. through near the center. The soil is a gravelly and slaty loam. An iron mine near Clove p.o. supplies the Beekman Furnace, 2 mi. farther s. Verbank. (p.v., ) in the N.W. corner, contains 2 gristmills, a paper mill, church, and a dozen dwellings. Oswego Village, (p.o..) near the w. border, contains a church and 10 dwellings. Clove, (p.o..) near the center, contains 2 churches and about a dozen dwellings. Crouse Store, in the s. part, Mausfield, in the N. E. corner, and Pleasant Ridge, in the s. E. corner, are p. offices. Henricus Beekman, the patentee, conveyed 1,000 acres to his son Henry in 1716, and settlement is supposed to have commenced soon after. There are 4 churches in town.<sup>13</sup>

WASHINGTON<sup>14</sup>—was formed March 7, 1788. Stanford was taken off in 1793. It is an interior town, lying near the center of the co. The surface is a rolling and hilly upland. Slate crops out on the hills, and water-worn pebbles are thickly strewn over a small portion of the surface. The principal elevations are Muckle Hill, near the center, Molly Mt., in the N. w. corner, Plymouth Hill, in the s. E. corner, and Canoe Hill, near the N. line. The streams are small creeks and brooks. Round and Shaw Ponds, in the N. part, form the sources of Wappingers Creek. A large quantity of milk is sent from the E. part to N. Y. by the Harlem R. R. The raising of blooded stock receives considerable attention.15 literts Village, (p.v.,) near the center, contains 2 gristmills, 2 sawmills, a spoke factory, and 28 dwellings. 46 Mabbettsville, 17 (p.o., ) 2 mi. E. of Harts

<sup>1</sup> The Rhinebeck Academy was formerly incorp., but is now a private institution. It employs 2 teachers, and has an average

of 100 pupils.

2 Named by Geo. Pink, who was appointed first postmaster in 1849. The p.o. has since been discontinued.

3 Wm. Beckman came from Germany with his son, Henrieus, the same a number of more families. in May, 1647; and with them came a number of poor families, who afterward settled in this town. Among the first families were those named Sipperly, Kipp, Pink, Schmidt, Sheptown, Backman, and Elseffer.

sams house was built of stone, and was used as a fortress in early times. The brick used in the chimneys were brought from Holland. It is now owned by A. J. Hermanec, Esq. 6 About 1800 this church divided, by mutual consent of the members; one branch located at Rhinebeck and the other at Redhook. The first baptism on record is that of John Schmidt, April 5, 1730.

6 Fred Henry Onitman - 6 18 - 2 3 3

<sup>4</sup> Fred Henry Quitman—father of tien, Quitman, of the Mexi-can War—was for several years pastor of this church. He was born in the Duchy of Cleves, Westphalia, in 1760, and died in 1832.

<sup>1</sup> The Nine Partners Boarding School was founded at this place in 1796, by the Friends' Yearly Mectug. A farm of 100 acres is attached to it, and it has a cash endowment of \$\$\fomale\$10,000, this devoted to the education of the children of Friends in indistributions.

## ERIE COUNTY.

This county was formed from Niagara, April 2, 1821. It lies upon Lake Erie and Niagara River, on the w. line of the State, is centrally distant 253 mi. from Albany, and contains 1,071 sq. mi. Its surface is level in the n., rolling in the center, and hilly in the s. A region perfectly flat, and much of it marshy, lies along Tonawanda Creek, and occupies the greater part of the n. tier of towns. This low region is bounded on the s. by a limestone terrace, 20 to 60 ft. high, extending from Black Rock E. through the s. part of Amherst, Clarence, and Newstead. A nearly level region, extending s. from the summit of this ridge, embraces the city of Buffalo and the towns of Chicktowaga, Lancaster, and Alden, and terminates in the rolling region which occupies the entire central part of the eo.

The ridges in the center and s. have a general N. and s. direction, and rise gradually toward the s., their highest summits attaining an elevation of 200 to 300 ft, above the valleys, 900 to 1,000 ft, above Lake Erie, and I,400 to I,600 ft. above tide. The highlands are divided into several distinct ridges by the valleys of Cazenove and Eighteen Mile Creeks. The slopes of the hills are generally long and gradual; but in some places the banks immediately bordering upon the streams are very steep. The land along the lake in the N. is low and level, but in the s. it rises in steep banks to a height of 20 to 50 ft. Niagara River, the outlet of Lake Erie, forms a portion of the w. boundary of the co. Its current flows at the rate of 2½ miles per hour. Grand Island, commencing about 5 miles below Buffalo, divides the river into two nearly equal branches. Squaw, Strawberry, Rattlesnake, Tonawanda, Beaver, and Buckhorn Islands, also in Niagara River, are within the limits of this co. The river is navigable to the head of the rapids, about 2 mi. above Niagara Falls.

Tonawanda Creek<sup>2</sup> forms the N. boundary of the co. It flows in a tortuous course through a low, marshy region. A dam, 4½ ft. high at its mouth, furnishes slack water navigation for the Erie Canal for about 10 miles. Its principal branches are Murder and Ellicott—or Eleven Mile— Creeks. Buffalo Creek3 enters the lake at Buffalo City, its estuary forming the harbor. Its principal tributaries are Cayuga Creek, from the N., and Cazenove Creek, from the s. The other principal streams are Little Buffalo, Eighteen Mile, Big Sister, and Cattaraugus Creeks, all flowing into the lake, and the last forming the s. boundary of the co.

The lowest rocks are those of the Onondaga salt group; and these are succeeded by the hydraulic, Onondaga, and corniferous limestones. The central part of the co. is occupied by the Marcellus and Hamilton shales, and the summits of the southern hills are covered by the rocks of the Portage group. The rocks of the salt group occupy nearly all the low land below the limestone terrace. They are covered so deep with drift and alluvium, however, that they have but little influence upon the surface, and can never be profitably quarried for commercial purposes. Hydraulic limestone of an excellent quality crops out along the N. base of the limestone terrace, and is extensively quarried. The terrace is composed of Onondaga and corniferous limestone; and along its whole extent are numerous quarries, furnishing an abundance of lime and building stone of excellent quality. Numerous sulphur springs are found near the N. base of the terrace. The shales of the central and southern parts of the co. are generally covered with a thick deposit of drift, and are only visible along the margin of the streams. These rocks furnish an inferior kind of building stone, but are not otherwise valuable.

The soil in the N. is generally a stiff, clay loam interspersed with beds of marl and muck; further s. it is a clay and gravelly loam resting upon limestone. The southern hills are covered with

<sup>1</sup> The following heights have been obtained from the surveys of the proposed Buffalo & Pittsburgh R. R. :-South Wales, 507 ft. above Lake Eric. Holland Village, 699 ft. " "

Sardinia (summit), 891 ft. " Concord ("), 920 ft." ), 920 ft. "

The hills generally rise to about 200 feet above the grade of

<sup>2</sup> Seneca, Ta-no'wan-deh, meaning, "at the rapids or ripples," or perhaps more nearly literally, "at his rapids."

3 On a map made in 1804 by Joseph Ellicott, agent of the

Holland Land Company, this stream is laid down as "Tos-c-o-

way" Creek. In an ancient Indian treaty it is called "Te-ho-se ro-ron.

<sup>4</sup> Named from Theophilus Cazenove, agent for the Holland

A some a from Theoparine Cazeners of the Scheen name is "Gaah gwahpe-ph-auh." literally, "it was the residence of the Gaah-gwah people." Leaving off the suffix for the past tense, the name is "Gaah-gwah-geh," literally, "Gaah-gwah" place or residence. The Gaah-gwah Indians, or "Gaah-gwah" place or residence. Eries, who formerly resided in this region, are supposed to be the Neuter Nation spoken of by early French writers and some-times called Cat Indians. The remnant of them now living beyond the Mississippi are called Quawpaws.

drift, consisting of clay and gravel. The soil of the valleys is generally a gravelly loam and alluvium.

The principal pursuits in the x. are grain raising, and in the s. stock and wool growing and dairying. The hilly regions are much better adapted to pasturage than tillage. The people of Buffalo and Tonawanda are mostly engaged in commerce and manufactures.

Buffalo is the county seat.<sup>2</sup> The courthouse, situated on the corner of Clinton and Ellicott Sts., is a substantial brick building, containing the court and jury rooms, the office of the co. clerk, and most of the other co. offices.3 The jail is a small stone building on the same lot. The Erie Co Penitentiary is located on Fifth St., in Buffalo. The buildings are 5 in number,—the male and female prisons, the workhouse, the warehouse, and the superintendent's dwelling. Prisoners are received from Allegany, Chautauque, Cattaraugus, Wyoming, Genesee, Orleans, and Niagara cos. The average number in confinement is 130.4 The Eric Co. Poorhouse is located on a farm of 153 acres in the N. E. part of Buffalo. There are 2 buildings,—one designed for use as the poorhouse proper, and the other for the accommodation of the insane. The average number of inmates is 300, supported at a weekly cost of \$1.00 each.5

The principal works of internal improvement are the Erie Canal, the Rochester & Buffalo, and the Lockport, Niagara Falls and Buffalo branches of the New York Central Rail Road, the Buffalo, New York & Eric, and the Buffalo & Eric Rail Roads, all terminating in the city of Buffalo, and the Canandaigua & Niagara Falls branch of the N.Y. C. R. R., extending through Newstead, Clarence, Amherst, and Tonawanda. A railroad from Buffalo to Pittsburgh is now in process of construction. A pier, lighthouse, and breakwater have been built at the mouth of Buffalo Creek.7

With the exception of the Indian Reservation and the Mile Strip, along Niagara River, this co. was all included within the Holland Purchase. The Indian lands, containing 130 sq. mi. and lying upon both sides of Buffalo Creek, at its mouth, were purchased in parcels, at different times; and the whole territory is now thickly settled. The first settlements were made at Buffalo, about 1794-95, and in other places within a few years after. The generous outlays made by the Helland Company in the construction of roads, bridges, mills, &c. led to a rapid occupation of all the best lands in the co.<sup>9</sup> On the morning of the 30th of Dec., 1813, a British force of about 1,000 men crossed over from Canada and captured Black Rock and Buffalo. The American forces then stationed at these places were superior to the British in point of numbers; but the officers were not qualified for command, and a large share of the militia field upon the commencement of the action. The village of Buffalo was burned in retaliation of the wanton destruction of Newark, in Canada, by the Americans under Gen. George McClure, (then of Steuben co.,) a short time before.10 The finishing of the Eric Canal and of the N. Y. Central R. R. tended greatly to develop the resources of the co., and to convert Buffalo, its chief city, into the greatest commercial place on the upper lakes.

The first newspaper in the co. was established in ISIL,<sup>11</sup>

2 By the act of March 11, 1808, erecting the co. of Niagara, Buffelo was named the co. seat, on condition that the Holland Land Company deed to the county not less than half an acre of land for a site for the public buildings, and erect thereon a courthouse and jail. The company complied with these con-ditions, and erected, in 1810, a weaden courtheness and a stone jail. In the mean time the courts were held at the house of jail. In the mean time the courts were held at the house of Joseph Landon. The courthouse was burned by the British in 1813. Soon after the close of the war, a new one was erected on Washington 84, fronting La Fayette Park. The first offices of Erie co, were Sau'l Wilkeson, First Judge; John G. Camp, Sheriff; James L. Barton, Co. Clerk; and Roswell Chapin, Sur-

rogate.
3 The present courthouse was built in 1850, at a cost of \$18,000.

8 The present courthouse was built in 1850, at a cost of \$18,000. The commissioners under whose supervision it was errected were Albert II. Tracy, Ralph Plumb, and Timothy A. Hopkins. 4 The pendentary lot contains 5 acres, and is enclosed by a stone wall 14 ft. in height. The male prison is built of stone, and the other buildings of brick. Four-fitties of all the couriets are of foreign birth. They are maintained at an average weekly. expense of 65 cts., and are employed principally in the manufacture of harness findings, upon contract,—the males at 20 cents per day, and the ismales at 15.

cents per day, and the lemales at 15.

§ The poorhouse was built in 1852 under the supervision of Silas Kingsley, at a cost of \$20,000. It consists of an octagenal center, 75 ft. in danneter, with 2 wings, each 80 ft long by 40 ft, wale; the whole 3 stories high and built of stone. Of the inmates in 1857, 71 were limited and 11 bilots.

§ The main lines of the N. Y. Central and the Builado, N. Y. & Eric R. Reads extend through Ablen, Lancaster, and Chickstowaga; the Lockport & N. F. branch of the N. Y. Central, through Tonawanda; and the B. & State Line R. R., through

West Seneca, Hamburgh, Evans, and Brandt. Brantford (Canada) R. R. terminates opposite Buffalo.

7 See page 284.8 See page 321.

9 A large share of the later settlers of the co, have been Germans; and this class of people now constitute about one-fifth of the entire population of the co. The population of several of the towns in the immediate vicinity of Buffalo is almost exclusively German.

<sup>10</sup> The loss at Buffalo was reported at 66 frame, 1 stone, and 2 brick houses, 16 stores and offices, 35 barns, and 15 shops, valued together at \$190,000; at Black Rock, 16 frame and 11 log houses, together at \$190,000; at Black Rock, to think and 11 for notices. Sbarns, and 5 outhouses, valued at \$190,000; and at other places 20 trame and 67 log houses, 5 stores, 20 trans, 30 shops, Ac., worth \$141,000. Total, 334 buildings, worth \$50,000, not including the buildings of the Messrs, Porter,—Albany Aryus, April 22,

114. In The Buffalo Gazette, the first paper in the county, was commenced Oct. 3, 1811, by S. H. & H. A. Salisbury. It was removed to Harris Hill in 1813, and back to Buffalo and the country of the falo in the spring of 1814. In April, 1819, H. A. Salisbury became safe proprietor, and changed the name to The Niagara Patriot. On the erection of Eric co. in 1820 it was

changed to The Buffalo Patriot. It was successively under the editorial charge of Wm. A. Carpenter, Thurvey Newcomb, and Guy II Salisbury

The Daily Commercial Advertiser was issued from the same office, Jan. 1, 1835. Soon after, Dr. T. M. Foote and B. A. Manchester became associated in the manazement of the two papers; and in Aug. 1838, the Amora Standard was merged in them, and A. M. Clapp, its pub lisher, became one of the proprietors of the joint con-

ALDEN—was formed from Clarence, March 27, 1823, and a part of Marilla was taken off in 1853. It lies upon the E. border of the co., N. E. of the center. Its surface in the w. is level, and

cern. In May, 1839, they were united with the Buffalo Journal, and the weekly was published us
The Patriot and Journal, and the daily as

The Commercial Advertiser and Journal, by E. R. Jewett & Co.

The following year the daily appeared as

The Buffalo Commercial Advertiser, and under
these titles the papers are still published, under the
editorial charge of D. S. B. Hunt. Since Polita semiweekly Commercial Advertiser has been issued.

The Niagara Journal was established in July, 1815, by David M.

2 m Number of some mass established in only 1915, by David M. Day; and in 1820 its name was changed to The Buffalo Journal. In 1834 it presed into the hands of E. J. Roberts, and in 1835 it was suspended.

The Buffalo Wing was established in 1834 by D. M. Pay; and in

1835 it was united with the Buffalo Journal, and ap-

The Englido Whip and Journal, Jan. 1, 1838, M. Cadwallader and Dr. H. R. Stagg were associated with Day, and in Feb.

The Buffolo Daily Journal. In 1838 the establishment passed into the hands of E. R. Jewett, by whom the papers were united the following year with the Buffalo Patriot and the Commercial Advertiser.

The Gospel Advecate (Univ.) was begun in 1822 by Rev. Thomas Gross. In 1823 Simeon Funton, and in 1826 Revs. L. S. Everett. Theophilus Fosk, and M. Tuttle, became proprietors. In 1828 it was removed to Auburn.

The Black Rock Beacon was published by L. G. Hoffman from

1822 to 1824.

The Buffido Emporium was issued in 1824 by J. A. Lazelle and Simeon Francis, and continued about 5 years.

The Black Rock Gazette was begun in 1824 by Bartemus Ferguson, who disposed of it to S. H. Salisbury in 1825. In 1827 it was removed to Buffalo, and its name changed to

The Buffele and Black Rock Gazette. It was discontinued in 1828. The Black Rock Advocate was begun in Feb. 1826, and was published 1 year by Dan't P. Adams.

The Hestern Advertiser, after an existence of 3 months, was merged in the Bufalo Patriot in the spring of 1828.

The Buffalo Republican was commenced in April 1828, by W. P. M. Wood. It was successively under the charge of 8. H. Salisbury & W. S. Sow, S. H. Salisbury, H. L. Ball. Chas. Faxon & Jas. Stryker, and Chas. Faxon. In 1835 the Buffalo Bulletin was merged in the Republican, and the Daily Star was bought by Faxon and continued under its old name. Horatio Gates and W. L. Crandall under its old name. Horatio Gates and W. L. Crandall were successively editors. In Dec. 1838 the office was burned and the papers were suspended; but the weekly was resumed by Quartus Graves in 1839. Jan. 1, 1842, Henry Burwell, then proprietor, changed its name to The Democratic Economist; and in Oct. following Joseph String-

man succeeded, and changed it to

The Mercantile Courier and Democratic Economist. 1n Feb. 1843.

t appeared as

The Buffulo Courier and Economist; and in March as

The Buffulo Courier. July 1, 1846, it was united with The l'ilet, and

The Courier and Pilot, d., tri-w., and w., was published by Stringman, Manchester & Brayman. In Dec. it was

The Buffalo Courler, its present title. It has successively through the hands of Robt. D. Foy It has passed Seaver & Fey, Wm. A. Seaver, Seaver & Sandford, and to J. H. Sandford, its present publisher. The Buffilo Bull-tin was issued in 1830, and was published by

Horace Steel 4 years, by James Faxon 1 year, and was united with The Republican in 1835.

The Daily Star was commenced in 1834 by Jas. Faxon, and in

1835 it was united with The Republican.

The National Pilot was started in Feb. 1845, by Manchester & Brayman, and was united with The Courier in July, 1846

The Warning, semi-mo., was published in 1828 by Rev. J. B.

Hyde The Buffala Herald, (Presb.,) edited by Rev. Randolph Stone in

1831, only reached its second number. The Gospel Banner was begun in 1832 by Benj. Clark, and continued 2 years.

The Philanthropist, mo., was started in 1832 by Nathaniel Pot-

ter, jr., and continued 1 year.

The Examiner, no., (Unit.,) was published in 1833.

The Literary Enquirer, semi-mo, commenced Jan. 1, 1833, was published 2 years by Wm. Verrinder.

The Transcript, d. and w., commenced in Aug. 1835, by Henry

The Transcript, d. and w., commenced in Ang. 1835, by Henry Faxon, was continued only 6 months.

The Young Men's Temperance Herald was started in 1835 by A. P. Grosvenor & E. B. French, and continued 1 year.

The Daily Enquirer, The Daily Whip, and The Loco Floo were campaign papers issued in 1835.

The Buffulo Spectuae (Presh.) was started in 1836 by J. & W. Butter, and continued 2 years.

The Bethel Magazine, une, was commenced by the Bethel Society in 1836. It was afterward changed to

The Bethel Flag, and in 1846 united with the Sailors' Magazine, of New York.

of New York.

The Buffidoman, w. at first and d. afterward, was published about a year; and in 1858 it was united with

The Mircory. This paper was continued until 1840 by T. L.

Nichols and R. Simpson successively.

Der Wiltburger was started in 1837 by tiee. Zahm, and was published successively by him, by his administrators, and by firunck & Domidon. In 1855 it was united with The Buffalo Democrat and WellDuerger, d.

The Buffalo Democrat and WellDuerger, d. and w. by which title it is now mibbled by firunck.

and w., by which title it is now published by Brunck, Held & Co.

The Buffala Democrat (German) was started in 1850 by Chas, do

The Lagran Lamorra (German) was started in 1800 by Class, 60
Hass, and in 1855 it was united with The Welthardger.
The Sun, d. and w., was issued in the winter of 1858, and was published 1 year by Abraham Densmore and E. H.
Eastabrook successively.
The Moon, a penny daily, was issued during the summer of 1859.

Bristol's Gazette and Berald of Health, mo., was commenced in 1859 by C. C. Bristol. The next year it appeared as

Brishel's Gazette, and was discontinued in 184;

The Previol of Youth, mo., was started in 1839 by Rev. A. T.
Hopkins, and was published I year.
The Buffolo Sentenel, d. and w., was published during the sum-

The Daglace scattering, a. w. was perfusion under the more of 1829 by Thomas Newell.

The Manning Tattler, d., was started in 1840 by Langdon, Fourhette & Shaefter, 11s name was changed to The Marning Times, by J. S. Walker, and it was discontinued

soon after.

Der Folks Schild was published by F. H. Singer during the

summer of 1840,

The Phalanx, d. and w., was published 6 weeks in 1840 by C. D. Ferris

The Buffalo Garland was published in 1840 by Geo. W. Bungay. Howest Industry was published in 1840 by Dr. Damel Lee. The Volksfreund (German) was published in 1840 by Adolphus Meyer. The Western Presbyterian was issued in March, 1841, by Rev. J.

C. Lodd, and continued I year.

The Western Labrary Messenger, semi-mo., was started in July, 1841, by J. S. Chadbourne. C. D. Ferris, Jesse Clement, Chas. Faxon, and E. R. Jewett, at different times, were interested in its publication. From 1842 it was pub-lished weekly until 1857, when it was discontinued.

Bonni, ter's Life in Buffalo was published a tew weeks in 1841 by N. H. Bannister.

The Subleme Patriot, semi-mo., was published during the winter

of 1841-42 by T. J. Southerland. The Buffolo American was started in 1842 by T. Foster & C. F.

The Buffete American was started in 1842 by 1. roster & C. r.
Buther, and continued 1 year.
The Old School Inflersonion and The Daily Gazette were published from 1842 to 43 by Charles Fixon.
The Timperance Standard was published in 1842 by H. H.
Salisbury & A. M. Clapp.
The School Render was published about 3 months in 1842 by A.

Prescoult's Telegraph was published in 1842 by W. Prescott's Telegraph was published in 1842 by W. Prescott.
The Bujlah Gazelte, d. and w., was started in 1843 by H. A. Salisbury, B. A. Manchester & J. O. Brayman, and continued 3 years.
The Freimäthige (German) was started Jan. 1843, by Alexander

Kranse & Adolphus Meyer, and continued 2 years.

The Telegraph, da. and w., (German.) was started in Nov. 1845, by H. B. Miller. Louis Tickers, Adolphus Himan. and C. Essellen bave successively had the editorial charge. It is now published by P. H. Bender, and edited by C. Essellen.

The Buffalo Medical Journal and Monthly Review of Medical and Surgical Science was started in June, 1845, by Dr. Austin Flint. In 1853 Dr. S. B. Hunt became associated in its management, and in 1855 its sole proprietor. In 1858 it passed into the hands of Dr. Austin Flint, jr., its present proprictor.

The Western Cutoract was started in 1845 by L. P. Judson. Jas. Dubois, W. B. Williams, and Chauncey Hulburt were successively editors. In Jan. 1847, it was changed to

The Western Temperance Standard, and was discontinued the

following year.

The Impetus was started in 1845 by E. W. Spaulding, and continned 6 months.

The Morning Express was started Jan. 14, 1846, by A. M. Clapp & Co. In 1855 The Daily Democracy was united

with The Express, and it appeared as

The Buffalo Morning Express and Daily De-

The Bullato Morning Express and Daily De-mocracy, by which name it is now pullished. A weekly and tri-weekly edition are also issued. The Democracy, d. and w., was started in May, 1834, by G. W. Haskins. The Rough Notes was merged in The Demo-cracy soon after; and in Aug. 1855, The Democracy was united with The Express.

The Rough Notes, d., was started in March, 1852, by Geo. Reesa

in the E. gently undulating. It is watered by the head waters of Cayuga and Eleven Mile Creeks. The soil is a deep, fertile, sandy, gravelly, and clayey loam. Alden, (p.v.,) a station on the B. & N. Y. R. R., contains 2 churches and has a pop. of 285; Alden Center (p.v.) contains 1 church and 20 houses; and Mill Grove, (p. v.,) in the n. w. corner, 18 houses. Alden (Crittenden p. o.) and Wende are stations on the N. Y. C. R. R. Settlement was commenced in the spring of 1810, by Moses Fenno. Rev. John Spencer conducted the first religious services, iu 1811. The first church (Presb.) was organized in 1813-14. There are now 6 churches in town,2

AMBBERS'T3-was formed from Buffalo, April 10, 1818; and Chicktowaga was taken off in 1839. It lies upon the N. horder of the co., between Clarence and Tonawanda. Its surface is level. Eleven Mile and Ransoms Creeks flow across the town in a n. e. direction; and Tonawanda Creek forms its x. boundary. The soil is a sandy and clayey loam. Upon the land of John Foglesonger, in the s. part of the town, is a very copious sulphur spring. A gristmill with 3 run of stone has been built on the stream formed by it. A ledge of limestone extends across the s. part of the town, from which limestone is quarried in various places. Beneath this ledge is a layer of hydraulic limestone, which is extensively quarried at Williamsville and burned for waterlime. Williamsville, (p.v.,) incorp. in 1850, is situated on Eleven Mile Creek, in the s. part of the town. It contains 4 churches, an academy, 5 and several manufactories, 6 Pop.

The Western Evangelist (Univ.) was started in June, 1846, by Rev. L. S. Everett, and continued 1 year.

The Ambirsaider, (Univ.) started the same year, was removed to Anburn in 1847.

The Journal of Commerce, d., was started in 1847 by John W.

The Journal of Commerce, a. was started in 1844 by John W. Jones, and continued 6 months.

The Kepublic, d. and w., was started by Livingston, Albro & Co., Jan. 26, 1847. Quartus Graves, Maynard & Welster, C. A. Kellogz, and C. C. Bristol were successively interested in its management, In 1857 The Buffalo Daily Times was united with The Republic, and it was issued as

The Buffalo Republic and Times, d., tri-w., and w. Gny. II. salisbury is the present proprietor. A campaign paper was published in connection with this

paper in 1856.

The Buffido Daily Times was started in Aug. 1857, by the Times Association; and the next year it was united with The Remblic.

Der Freie Demokral was published in 1848,

The Wool Grower and Magazine of Agriculture and Horticulture, no., was started in 1849 by T. C. Peters, and continued until 1852

The Daily Queen City, a penny paper, was started in 1850 by G. J. Bryan. The title was changed in 1852 to The Huffalo Evening Post, under which name it is

now published.

The Buffalo Christian Advocate was started in Jan. 1850, by
John E. Bobie. In 1857 it was changed to

The Advocate, under which name it is now published.
Common Nonse was published in 1850 by D. P. Stile.
Die Aurora, w. and semi-w. was started in 1850 by Christran Wieckmann, its present publisher.

Das Kirchliche Informatorium, semi-mo., was storted in July, 1851, by Conrad Bar; and in 1854 T. Andr. A. Grabau, its present editor, assumed its charge, The Sunday Bulletin was started in 1851 by Wm. F. Rodgers,

The Santoy Intertin was started in 1851 by Will, F. Roogers, and contained 9 months.

The Youth's Casket, no., was started in 1851 by Beadle & Vonderzee. It is now published by Robt. Adams.

The American Maler was published in 1851 by Will. C. Hughes.

The Evangelved Christian was published in 1851 by Geo. Stanbro & C.

The American Celt and Catholic Cilizen was brought from Bos-ton, Mass., to Buffalo in June, 1852, and continued until May, 1853, when it was removed to New York.

Die Homeropath and Durtetischer Hansfreund was started in 1852 by Conrad Bar, and continued Lyenr,

Sountags Blatt was started in 1852 by Brunck, Held & Co., and continued I year.

The Sunday Fisitor was started in 1852 by Reed & Moore, and

continued I year.

The United States Meal, mo., was published in 1852 by Jewett,
Thomas & Co.

The Buffolo Party Ledger was published a few months in 1852 by T. Richardson.

The Pathfinder was published in 1852 by Charles Faxon.

The Simbley Herald was published about 3 months in 1853 by Gro, W. Wecks,
The Simbley Herald was published about 3 months in 1853 by Gro, W. Wecks,
The Schol and House Friend, semi-mo., (German.) was started in March, 1853, by Conrad Bir, and continued 1 year.
The Library and Graden was published in 1853 by D. S. Mardy & Co.,
The Buffalo Catholic Sentinel was started in June,
1872 by Webul Blows, its present and fisher than 1872 by Webul Blows.

1853, by Michael Hagan, its present publisher.

\*\*Mustrirle Abenel Schoole, semi-mo., was published in 1854 by Rev. C. Dichlman.

In 1854 Rann & Cowan became proprietors, and the The Atlantis, mo., (German.) brought from Cleveland, same year it was united with The Democracy.

The Atlantis, mo., (German.) brought from Cleveland, one to Buffalo in 1856, is edited by C. Essellen. The American Rights was published from Sept. 1854, to July,

No.5, by Gro. Reese & Co.
The Agr of Progress, conducted by Stephen Albro, was commenced in 1854 and discontinued in 1858.

The Zeitschrift was published about 4 months in 1854 by Conrad Bar.

Zeichen der Zeit, mo., was started in June, 1855, by — Prexler. In 1858 T. Gottlieb Ade became its editor. The Home has been published since Jan. 1856, by E. F.

Bendle The Buffalo Allegemeine Zeltung, w. and semi-w., was started in May, 1856, by Frederick Remecke,

the present publisher.

The Buffah Torriot, d. (German,) was published during the campaign of 18th by Voght & Jung.

Das Illstorische Zeitblatt und Literarischer

Anzeiger, mo., was started in May, 1857, by Conrad

Bir. its present publisher.

The Home Monthly was started Jan. 1, 1859, under the editorial charge of Mrs. II. E. G. Arey and Mrs. Gildersleve

The Inventor's Adverticer was published at Buffale by Thos. P. Thow,

The Aurora Democrat was established at West Ancora in Oct 18.5. by Deloss E. Sill, publisher, and continued about 1 year.

The Aurora Standard was started at East Aurora Aug. 1, 1835, by A. M. Clapp. In 1838 it was removed to Euffalo and merged in the Euffalo Commercial Advertiser.

The Springrille Express was commenced in May, 1844, by Edwin Hough, and continued until the fall of 1848.

The Springville Herald was established in May, 1850, by E. D. Webster; and in Dec. 1856, if passed into the hands of J. B. Saxe, its present publisher. The American Citizen was started at Springville in Feb. 1856, by

Lucius C. Sanders, and continued nearly a year, The Tonowanda Commercial was started at Tonowanda in 1846 by Sylvester Hoyt, and continued about a year.

The Ningura River Pilot was communed at Tonawanda in 1853 by Packard & Foxlonger. In Aug. 1856, it passed into the hands of S. O. Hayward, by whom, in Nov. 1857, it was changed to

The Ningara Frontler, under which name it is still

published.

The Mental Elevator was pullished a short time in the Seneca language.

I Among the first settlers were Joseph Freeman, John Easta-Among the most settlers were dost par Freeman, John gash-brook, Wim. Snow, and Amand Hibbard, who came in 1840; Sami Slade, James Crocker, Sami, Huntington, and Jones Stick-ney, who came in 1811; and Win. Dayton, who came in 1812. The first birth was that of a doughter of Annah Hibbard; and the first born was that of a gauginer of Aliman Imboard; and the first death, that of Pedly Chars ky, in 1812. John Rogers built the first sawmill, in 1813 or '14, and the first gristmill, in 1817. Amos Blass kept the first inn, and seth Eastabrook the first store, both in 1816. The first school was taught by Mehe-tabel Eastabrook, in 1815.

2 Bap, Freslo, Eveng, Luth, M. E., and 2 R. C.
3 Named in honor of Lord Amherst, commander of the
English forces in America in 1759-00.

A Named from Jonas Williams, one of the early settlers,
The Williamsville Classical Institute. The whole number
of students for the year 1857 was 222.

A gristmill, a sawnill, a tameny, a furnace, a broom factory,

a chair factory, and a waterline null, the last producing 3,000 to 6,000 bbls, of hydraulic cement per year.

1,166. Eggertsville, Getzville, East Amherst, and Westwood are p. offices. The first settlement was made in 1804, by Timothy S. Hopkins and Elias Rausom, from Great Barrington, Mass. There are 9 churches in town.2

AURORA—was formed from Batavia, as "Willink," April 11, 1804.—Its name was changed April 15, 1818. Clarence and Cambria (Niagara co.) were taken off in 1808, Buffalo in 1810, Concord, Hamburgh, and Eden in 1812, Holland and Wales in 1818, and a part of Elma in 1857. It occupies nearly a central position in the co. Its surface is rolling in the N. and hilly in the s. The hills are gradual slopes, and their summits are 150 to 300 feet above the valleys. principal streams are Cazenove Creek and its branches. The soil is gravelly loam in the valleys and clayey among the hills. Willink, (p.v.,) incorp. Dec. 29, 1849, is situated on the E. branch of Cazenove Creek, in the N. part of the town. It contains 2 churches and a woolen factory and has a pop. of 365. East Aurora, (p. v., ) about 1 mi. E. of Willink, contains 2 churches, an academy, and several manufacturing establishments. Pop. 360. West Falls, (p.v.,) on the w. bank of Cazenove Creek, in the s. part of the town, contains 1 church, 2 sawmills, a gristmill, and about 30 houses; and Griffins Mills, (p.v.,) on the same stream, near the center of the town, contains I church, a sawmill, a gristmill, and 25 houses. The first settlement was made in the fall of 1803, by Jabez Warren, Henry Godfrey, and Nath'l Emerson.4 The evidences of ancient Indian occupation were plainly visible upon the advent of the whites.<sup>5</sup> The first church (Bap.) was organized with 16 members, in 1810, by Elder Irish. There are 7 churches in town.<sup>6</sup> Ex-Pres. Millard Fillmore and Hon N. K. Hall, Judge of Supreme Court and Ex-P. M. Gen., were for some years residents of East Aurora.

BOSTON-was formed from Eden, April 5, 1817. It is an interior town, lying s. of the center of the co. Its surface is a hilly upland, broken by the valley of the N. branch of Eighteen Mile Creek, which flows N. w. through near the center of the town. The valley of this stream is about three-fourths of a mile wide. In this valley the soil is a fine, fertile loam, and upon the hills it is a gravelly and clayey loam. Boston, (p. v., ) on the N. branch of Eighteen Mile Creek, contains 3 churches, 2 gristmills, 2 sawmills, a tannery, a cow-bell factory, and 40 houses; Boston Center, (Patchin p. o..) on the same stream, contains 2 churches, a sawmill, and 20 houses; and North Boston, (p. v.,) I church, a gristmill, a sawmill, and 20 houses. The first settlement was made by Didemus Kinney, in 1803.7 The first religious services were conducted by Rev. John Spencer, in 1810. There are 7 churches in town.8

BRANDT9—was formed from Collins and Evans, March 25, 1839. It lies upon the shore of Lake Erie, in the s. w. corner of the co. The surface is generally level, with a gentle inclination toward the lake. Cattarangus Creek forms a part of the s. boundary. The other principal streams are Big Sister, Delaware, and Muddy Creeks. The soil is generally a gravelly loam intermixed with clay. Brandt (p. v.) contains 20 houses. Mill Branch (Farnham p. o.) is the Saw Mill Station on the B. & E. R. R., and contains 30 houses. The first settlement was made in 1817, by Moses Tucker. 10 The first religious services were conducted by Benj. Olmsted, in 1820. A union church is the only one in town.

town.

3 The Aurora Maunal Labor Seminary was chartered Oct. 18,
3 The Aurora Maunal Labor Seminary was chartered to the Aurora Academy. 1833; and in 1838 its name was changed to the Aurora Academy. The manual labor department was long since abandoned

The manner lawer department was long since abandance.

4 These were followed by Joel and John Adams, Tabor Earlle,
and Humphrey Smith, in 1804, and Win, Warren. Thes. Trace,
Christopher Stone, and Luther Hibbard, in 1805. The first birth
was that of Oria Warren, in Dec. 1805; and the first death, that
of a daughter of Humphrey Smith, in 1806. Phineus Stevens built
before consult in 1805. The the first sawmall, in 1806, and the first gristmill, in 1807. Gen. Wm. Warren kept the first inn, in 1806, and Adams & Hascall the first store, in 1808. The first school was taught by Mary Eddy, in 1806.

<sup>6</sup> Two hills, in the N. part of the town, were fortified by ciro two mins, in the S, part of the town, were fortuned by cir-cular breastworks, in many places 6 to 8 ft. high. Human hones, of almost giant size, have been dug up near the fortifica-tions; and pieces of pottery and iron axes have been found in the vicinity—Letter of Rev. 1.8ker Wright. In 1809 an ament copper plate, 12 by 16 inches, covered with letters or hereglyphics, was plowed up upon the land of Ephraim Woodrull, hirst school, in 1823.

(Offiver and Charles Johnson settled in the town in 1805, and Richard Cary and Sam'l Eaton in 1807. The first birth was that of I humey Johnson, in 1806; the first marriage, that of David Stamand and Esther Yaw, in 1810; and the first death, that of Joel Beebe, in 1809. Ethan Howard built the first mill, in 1810, Job Palmer kept the first inn, in 1811; and Aaron J. Tupper the first store, the same year. The first school was taught by Joel 8 Bap., Free Will Bap., Evang. Luth., Friends, M. E., Meth. Prot., and Univ.

9 Named from Col. Joseph Brant, the Mohawk chief. Indian name was "Tho-yan-da-ne-qah," said to signify "wood partly burged," or "n brand;" and as the Indians are unable to distinguish d from t in their pronunciation, it became Brant.—
Ashor Weight, Missionary at the Cutterwayas Beservation,
10 John, Robert, and Major Campbell, and John West, settled

in the town in 1808, and Ansel Smith, Robt, and Wm. Grannis, and Benj. Olmsted, in 1819. The first birth was that of a son of John West, in 1818; the first marriage, that of Levi Grannis and Leah Hallida, in 1819; and the first death, that of Matthew West, in 1822. The first mill was built by Sam'l Butts, in 1822; the first inn was kept by Josephus Hubbard, in 1825; and the first store, by Milton Morse, in 1835. Julia Bradley taught the

<sup>1</sup> Among the early settlers were Wm. Maltbury, Jonas Williams, James Harmon, Horatio Kelsey, 8eth Cambeld, Enos A. Armstrong, and Jus. Harris. The first sawmill was built in 1804, by — Thomson; and the first grashmill, by Wm. Maltbury, in 1808. Elias Eansom kept the first mn. in 1805, and Juba Storrs & Co. the first store, in 1812.

2 Bapa, Disciples M. E., and Germ. Cath. at Williamsville, and 2 Evang, Luth, Free, Memounte, and R. C. in other parts of the fown.

BUFFALO CITY—was formed as a town from Clarence, Feb. 8, 1810.¹ Amherst was taken off in 1818, and Tonawanda in 1836. Buffalo Village was incorp. April 2, 1813, re-organized in 1815, and again in 1822, and incorp. as a city April 20, 1832, with its limits enlarged by the addition of that part of the Milo Strip Reservatiou²s, of York and North Sts. By the provisions of a new charter, granted April 13, 1853, the then town of "Black Rock" was included within the city limits. The city lies at the E. extremity of Lake Erie, extending nearly 10 mi. along the lake shore and the upper part of Niagara River, and occupies an area of about 40 sq. mi. The principal streams are Big Buffalo and Scajaquady³ Creeks,—the former emptying into Lake Erie

and the latter into Niagara River. The principal business part of the city is on the lake shore around the harbor. The land in this locality is low, and was once considered "an irreclaimable morass; but it is now densely covered with substantial warehouses and large stores, intermingled with factories, foundries, mechanics' shops, and dwellings."

The site rises gradually, and attains in one or two places an elevation of about 100 ft.; but the greater portion of the area occupies an extended plain of an average height of 50 ft. above the lake. On the "Buffalo Plains," and along the river at North Buffalo, are extensive quarries of limestone, furnishing an excellent building material.<sup>5</sup> The city is regularly laid out, and the streets are broad and straight. The flagging and paving are done in the most substantial manner, and are kept in excellent repair.<sup>6</sup> The main part of the city is supplied with wholesome water from Niagara River by the Buffalo Water Works Company. The reservoir, situated on Niagara between Connecticut and Vermont Sts., is 88 ft. higher than the river, and has a capacity of 13,500,000 gallons. The water is elevated by two force pumps, each of a capacity of 235 gallons, and is distributed through 31 mi, of pipe.<sup>7</sup> Lower Black Rock is supplied by the Jubilee Water Works with water obtained from the Jubilee Springs. It is conducted through wooden pipes, of which there are more than two miles laid.<sup>6</sup> There are 5 post-offices in the city,—Buffalo, North Buffalo, Buffalo Plains, Red Jacket, and Black Rock.

The harbor of Buffalo is formed by Big Buffalo Creek, along which for more than a mile is a continuous line of wharves. A pier extends from the s. side of the harbor 1500 ft. into the lake, forming an effectual barrier against the encroaching sands, which everywhere on the lake have a tendency to accumulate on the w. side of piers. At its extremity is a lighthouse. The Eric Canal enters the city along Niagara River, from which it is separated by a seawall, and extends southward to near the mouth of Buffalo Creek, and thence eastward to Hamburgh St. The Eric Basin, just n. of the mouth of Buffalo Creek, protected lakeward by a breakwater, and the Ohio Basin, about one and one-fourth mi. from the mouth of the creek, containing an area of 10 acres, are both connected with the harbor and canal and are sufficiently deep to float the largest lake vessels. A ship canal more than a mi. in length extends along the w. side of Big Buffalo Creek parallel to the shore of the lake. This canal, the basins, the Eric Canal, and the harbor are all connected by numerous slips. Six railroads terminate in the city; and another—the Buffalo & Pittsburgh—is in process of construction.

<sup>1</sup> The city of Buffalo was taken off in 1832, and Tenawanda in 1856. The village of "Black Rock." in this town, was incorp. April 24, 1837, and receives its name from the color of the rock which outcrops at the terry landing. The remaining part of the town was organized as Black Bock, Feb. 14, 1839; and in 1853 it was samewed to the city.

2 See p. 280.

8 Named from an Ludan of that wave and measurement State.

<sup>8</sup> Named from an Indiau of that name, and pronounced Ska-

joc'quad-da.
4 Buffalo City Directory, 1858.

<sup>&</sup>lt;sup>5</sup> The pier, the breakwater, the arsend, St. Joseph's Cathedral, and many of the most substantial buildings in the city, are in part or wholly built of this stone.

part or wholly built of this stone.

6 There are 251 nn, of located streets within the city limits,

75 mi, of paved streets, 205,000 line or feet of stone sudewalks,
and 108 mi, of plank walks. There are 11900 street lamps in
the city, lighted by gas furnished by the Buffalo Gas Light Company. The present cost of the street improvements is estimated
at \$2,000,000; and the aggregate of laxes for local improvements
in 1857 was \$3.56 943.

7 The Buffalo Water Works Company was incorp. March 15,
1840—The original cost of the works was \$400,000; and \$55,000

<sup>7</sup> The Buffalo Water Works Company was incorp. March 15, 1849. The original cost of the works was \$400,000; and \$55,000 of the earnings have been expended in extending the works. Connected with them are \$20 street hydrants, and 20 underground reservors, baving an aggregate capacity of 407.550 gal. 8 The Jubilee Water Works Company was organized in 1827. With a country for \$20,000. Above that the basis was the first street of the property of the country back for \$20.000.

<sup>\*\*</sup> The Jubilee Water Works Company was organized in 1827. Il Besides these, 5 plank roa with a capital of \$20,000. At one time the company had 16 mi. turnpike terminate in the city.

of wooden pipe laid, fully supplying Black Rock and a part of Buffido: but, while the increase of population created a greater demand for water, the supply from the springs diminished, and in 1845 the citizens of Lower Black Rock purchased the works and confined the supply to their von village.

and confined the supply to their own village.

9 The lighthouse is built entirely of stone and iron. It is 44 ft. high, 26 ft. in diameter at its base, and 12 ft. at the top. The molehead upon which it stands is 160 ft. in diameter and has a depth of 15 ft. below the surface of the water. The pier and lighthouse were completed in 1833. It is furnished with a first

class dioptric Fresnel apparatus.

10 These basins were constructed by the State as parts of the great system of internal navigation; but their sites were furnished by the city. The Eric Basin cost \$300,000, and the Ohio Basin \$60 000. They were commenced in 1848 and finished in 1858. Vessels driven by storms and fading to gain an entrance to the harbor find a capacious and sheltered retreat in the harler of Black Rock,—formed by a mole from Bird Island to Squaw Island, a distance of 2915 yards. This, with the Islands, forms a harbor 4.565 yards long and from 88 to 220 yards wide, with an area of 136 acres. Besides afterding an exceedingly convenient harbor, with an average depth of 15 feet, this work secures a water-power of about 4½ ft. A ship lock is constructed at its foot; and it is on the here of the Eric Canal.

<sup>11</sup> Besides these, 5 plank roads, a macadamized road, and a turnriske terminate in the city.

Buffalo is the second commercial city of the State, and the largest and most important upon the great lakes.¹ Its situation at the foot of navigation upon Lake Erie and at the western terminus of the Erie Canal makes it the principal port for the transhipment of the products of the great grain region of the Upper Mississippi Valley, and gives to it the command of the greater part of the commerce of the lakes.² The number of entries at this port during the year 1857 was 4.017, with an aggregate of 1.618,672 tons; and the number of clearances was 3,564, with an aggregate of 1.603,134 tons.³ The exportation and importation by canal is also immense;⁴ and it is estimated

1 It is often called "The Queen City," and "The Queen City of the Lakes."

of the Lakes.

2 The amount of grain received in 1857 was 15,443,778 bush., and of thour 925,411 bbls., of which 15,348,939 bush, of grain and 845,033 bbls. of thour were received by lake. The same year there were received by lake 29,729 head of cattle, 75,174 hogs, and 44,972 sheep. The following table shows the imports, by lake, of thour and grain for a series of years:—

Feir.	Flour.	Wheat.	Corn.	Outs,	Burley.	Rye.
1536	139,178	304,090	204,355	28,640	4.876	1.500

The at	musd aver	age receil	ds of flour	during th	e first fi	Ve vears

was about 390,000 bils.; during the next five it was \$20,000; during the next five, 1,474,000; and during the next five, 990,000. The whole amount of grain received in 1847 was 9,668,187 bush, and in 1855 20,788,475 bush,—the greatest amount in any one year. This was a greater amount than was received that year in any other port in the world. The following table shows the receipts of leading articles during three seasons:—

	1855.	1856.	1857.

that the value of merchandise and property transported by R. R. is greater than the entire amount of the lake commerce of this port. About one-fourth of the shipping of the lake is owned by the citizens of Buffalo.2 Shipbuilding is extensively carried on.3 The manufactures of the city are extensive and various.4

The principal public buildings are the Custom House, Fort Porter, the State Arsenal, and the city markets. The Custom House, on the corner of Seneca and Washington Sts., is a handsome and well built structure, containing, beside the custom house office, accommodations for the post-office and the U. S. courts. It was constructed, at a cost of \$140,000, from designs furnished by the U. S. Treasury Department.<sup>5</sup> Fort Porter, built in 1842-48, is a fortification on the bank of Niagara River at the point where it emerges from Lake Erie. The State Arsenal, erected in 1858, is a massive stone building fronting on Batavia St.6 There are four large markets, conveniently located in different parts of the city.7

The Public Schools of the city have long enjoyed a deservedly high reputation. They are carefully nurtured through the operations of an enlightened public sentiment, and are so excellent in all their departments that searcely any other elementary schools are supported or needed. They are thoroughly graded, consisting of three general departments. The third department is an advanced school for the whole city; and in it a complete academic course, excepting the classics, is taught. There were, in 1857, 32 school districts, employing 189 teachers,—24 males and 165 females. The number of children, between 4 and 21 years of age, was 28,000, of whom 15,593, or a small fraction more than 55½ per cent., were in attendance some portion of the year.8

The Buffido Female Academy, a flourishing institution, situated on Delaware Avenue, was opened for students in July, 1852.9

1 The amount of live stock received by R. R. in 1857 was 78,404

head of cattle, 232 375 hegs, and 72,496 sheep.

2 The amount of shipping owned in Bullalo, as shown by the custom house books, is as follows:-

Vessels,	No.	Tonnage
Steamers	10	9,067
Propellers	50	30,186
Tugs	20	2,629
Barks	7	3,537
Prigs	21	6.754
Schooners	129	35,460
Scows	5	473
Total	242	88,136

3 The following table shows the shipping launched in 1857:—

Vessels,	Tounage.	Tabue.
4 Steamers	4,056	\$352,000
to Propeliers	5.070	349,000
[3 Tugs	1.145	-126,800
21 Schooners	7,955	353,400
1 Predge		
25 Canal Boats	1	

In connection with one of the shipyards of the city is a dry dock of sufficient capacity to admit a steamer of over 2,500 tons also a marine railway; and near by is a large derrick for hoisting boilers and heavy machinery.

The value of the articles manufactured in 1857 was about \$10,000,000, of which the leading products are estimated as follows:—ships and boats, \$1,800,000; leather, \$1,500,000; flour, \$1,000,000; stoves and other castings, \$600,000; machines, \$500,000; distilled stuffs, \$400,000; piano fortes, \$350,000; boots and shoes, \$100,000.

For most of the statistics of the commerce and manufactures of Buffalo we are indebted to the Annual Statement of the Trade and Commerce of Buffalo for 1857, issued from the office of the

Commercial Advertiser.

6 The custom house building was commenced in 1855 and completed in 1858. It is 3 stories high, exclusive of basement, and has a front of 110 ft, on Seneca St, and 60 tt, on Washington St, with a total elevation of 70 ft, above the sidewalk. Its exterior is of light gray sandstone, obtained from Cleveland. Ohio; and the whole is fireproof throughout, the floors being of small, segmental brick arches, turned from wrought iron beams, resting on tubular girders. The girders rest upon the walls, and are supported in the middle by cast iron columns reaching to the foundation of the building.

The arsenal is 165 ft. long by 65 ft. wide. Its front, 50 ft.

wide, projecting 16 ft. from the main building, is flanked by octagonal towers 60 ft. high. The walls are 40 ft. high; and at each corner is a heavy, square turret. The cost of the building

was \$35,000.

7 Elk Street Market is 30 ft. wide by 375 ft. long, having a veranda 24 ft, wide extending the whole length of each side, veraining 23 ft. wide extending the whole length of each such The Court Street Market consists of a main building, 51 ft. sq., with 4 wings, one on each side. The N. and S. wings are each 91½ ft. long by 36 wide, and the E. and W. wings are each 61 ft. long by 36 ft. wide. The Clinton St. and Washington St. Markets long by 36 ft. wide. The Clinton St. and Washington St. Markets are each 395 ft. long by 36 ft. wide, with a veranda 24 ft. wide extending the whole length of each side.

8 The total expenses of the schools for 1857 were \$160,019.86,

and the total receipts the same; number of volumes in district

libraries 8,216.

9 This institution owes its existence in a great measure to the liberality of Jabez Goodell, who contributed over \$10,000 toward its establishment. The academy occupies one of the most cli gible and beautiful sites in the city. There are two academic limidings, Goodell Hall and Evergreen Cottage,—the former oc-cupied for school purposes, and the latter as a dwelling by the I family of the principal.

The Buffalo Medical College, on the corner of Main and Virginia Sts., was organized in Aug. 1846, under the charter of the University of Buffalo. A course of lectures is given each winter; and the students are admitted to the hospital of the Sisters of Charity, on stated days, during the visits of the medical and surgical officers.

The Buffelo Mercantile College, on the corner of Main and Seneca Sts., was established Oct. 10, 1854. Its object is to impart a theoretical and practical knowledge of business transactions.

The Buffalo Commercial College, on Main St., is an institution similar in character to the Mercantile College.

The Button Law Library Association, incorp. April 2, 1833,—capital \$10,000, in shares of \$100 each,—was formed for the purpose of securing the benefits of a professional library beyond the reach of private means.

The Young Men's Association was established in the winter of 1835-36, and incorp. in March, 1843. It has a library of about 10,000 volumes, and a reading room, which is well supplied with papers from most of the principal cities of the Union. During the winter months lectures are maintained by the association.

The German Young Mea's Association was organized in 1841 and chartered in 846. The library contains about 2000 volumes, mostly German works.

The Young Men's Christian Union was established in May, 1852, and incorp. March, 1853. It has for its object the moral and intellectual improvement of young men. Its library and reading rooms are in Kremlin Hall, at the junction of Niagara and Eric Sts.

The Young Meu's Catholic Association and the Buffalo Catholic Institute are societies similar to the preceding.

The Buffulo Medical Association was formed in 1845 and incorp. in 1856. Its objects are purely scientific and professional, and its membership is confined to the medical profession of the county.

The Mondelssohn Association, organized Jan. 1858, has for its object the improvement and cultivation of vocal and instrumental music.

The Deutsche Leidertafel and the Deutscher Saengerbund are German societies of a similar character.

The Buffalo Orphan Asylum, located on Virginia St., was organized in 1835 and incorp. April 24, 1837. The site was donated by Louis S. Le Couteulx, and the present building was erected in 1850. The average number of inmates is about 80.

The Buffalo Female Orphan Asylum, on the corner of Batavia and Ellicott Sts., was established in 1848, under the care of the Sisters of Charity of St. Joseph. The present number of children is 98.

The Buffalo Hospital of the Sisters of Charity, on Virginia St., was incorp. July 5, 1848. The building contains 20 wards, and the average number of patients is 130.

The Buffilo General Hospital was incorp. Nov. 21, 1855, and went into operation in 1858. It was founded by individual donations, amounting to \$20,000, and a State appropriation of \$10,000.\(^1\)
The Lying-In Hospital, on Edward St., is under the charge of the Sisters of Charity.

The Buffulo City Dispensary, a society of physicians, was organized to afford gratuitous medical services to the destitute.

The Association for the Relief of the Poor disburses among the needy each winter sums ranging from \$1,500 to \$8,000.

The Firemen's Benevolent Association was incorp. March 23, 1837, and has for its object the accumulation of a fund for the relief of indigent and disabled firemen and their families.

The Buffalo Physicians' Charitable Fund Association was organized in 1858, to provide means for the assistance and relief of the widows and orphans of medical men.

A M. E. church was founded in Buffalo, in 1809, by the Rev. Jas. Mitchell; but it had no permanent organization. The oldest church now in the city (1st Presb.) was organized Feb. 2, 1812, by the Rev. Thaddens Osgood. The next established were a Prot. E., Bap., a M. E., and a Univ. There are now 57 churches in the city. Most of the church edifices are large and commodions; and many of them are of a high order of architectural beauty. St. Joseph's Cathedral (R. C.) is

<sup>&</sup>lt;sup>1</sup> This hospital is located on High St., and is a two story brick structure, 160 ft. long by 75 ft, wide. The w. wing only of the general plan is finished; but that is complete in itself, and has 4 wards, capable of accommodating 100 patients.

<sup>4</sup> wards, capable of accommodating 100 patients, 2 14 R. C., 8 Presh., 7 Prot. E., 7 M. E., 6 Bap., 4 Ger. Evang., 3 Luth., 2 Ref. Prot. D., and 1 cach Asso. Presb., French Prot., Unit., Univ., Mission, and Bethel. The R. C. Church of St. Louis.

in this city, has been prominently before the public from the refusal of its trustees to convey their church property to the bishop, and the extraordinary but ineffectual effects made by the Roman portiff to induce obedience to this order. In 1853 Cardinal Bedim visited America, having this as a prominent object of his mission; but the trustees were milexible, and still continue the owners of their property.

the largest and most costly in the city.\(^1 \) St. Paul's\(^2\) and St. John's, (Prot. E.,) and the North and Central Presb. churches, are elegant and substantial structures.

The earliest notice of the site of the city of Buffalo is found in the travels of Baron La Hontan, who visited this locality in 1687,3 No white settlers located here until after the American Revolution. A village of the Seneca Indians lay on Buffalo Creek, about 3 mi. from its mouth. In March, 1791, Col. Thos. Proctor, U. S. Commissioner, visited "Buffalo Creek,"—as this village was then called,—on an embassy to the Indians. The locality around the mouth of the creek was then called "Lake Eric," and Cornelius Winney, an Indian trader, resided there.4 The place was visited in 1795 by La Rochefoucault Liancourt, a French nobleman, who says that "at the post on Lake Erie there was a small collection of four or five houses." Buffalo was laid out by the agent of the Holland Land Company in 1801, and was called by them "New Amsterdam," Settlement was commenced at Black Rock in 1807.7 In 1808 "New Amsterdam" was made the county seat of Niagara co.; and its name was then changed to Buffalo. In 1812 it became a military post. In Dec. 1813, a party of British and Indians crossed over from Canada, defeated the Ameri can forces, and fired the villages of Black Rock and Buffalo. Only two dwelling houses were left standing.8 The rebuilding of the village was not commenced until 1815. Buffalo had from the first a formidable rival in Black Rock. While the mouth of Buffalo Creek was obstructed by a bar, Black Rock possessed an excellent harbor and monopolized the infant commerce of the lake. The "Walk-in-the-Water," the first steamboat on Lake Eric, was built at Black Rock in 1818. The construction of Buffalo harbor was commenced in 1820, by the citizens; and in 1827 the General Government assumed its completion and built the present pier and lighthouse. The Eric Canal was finished in 1825; and from that time to the present Buffalo has increased in wealth and population with the characteristic rapidity of the cities of the West. 10

CHICTAWAUGA 11—was formed from Amberst, March 22, 1839; and a part of West Seneca was taken off in 1851. It is an interior town, lying N. of the center of the co. The surface is level. The principal streams are Eleven Mile, Cayuga, and Slate Bottom Creeks. The soil is a heavy, tough clay. Chictawauga and Four Mile Creek are p. offices. The first settlement was made by Apollos Hitchcock, in 1808. There is but 1 church (R. C.) in town.

CLARENCE—was formed from "Willink," (now Aurora,) March 11, 1808. Buffalo was taken off in 1810, Alden in 1823, and Lancaster in 1833. It lies upon the N. border of the co., E. of the center. Its surface is level. A limestone terrace about 50 feet high, with a wall-like front facing the N., extends E. and w. through the center of the town. The streams are Tonawanda Creek, on the N. border, and Ransoms Creek, flowing N. W. through near the center of the town. The soil in the N. part is clayey, and in the s. a sandy and gravelly loam underlaid by

4 The cathedral is 236 ft, long, 86 ft, wide in the body, and 120 at the transept. The coiling is 75 ft, high, the roof outside 90 feet, and the spire, when finished, will be 220 ft, high. The windows are all of beautiful stained glass, the larger ones in figures representing sacred scenes and characters. The trifigures representing sacred scenes and characters. The tri-partite window above the altar represents the birth, cruci-haion, and accusion of Christ. This window was executed in

Munich, at a cost of \$5,000. <sup>2</sup> This church was creeted at a cost of about \$100,000. It has a chime of 10 bells, which cost \$15,000.

3 La Hontan recommended to the French Government the

erection of a fort at this place.

4 Winney's house—undoubtedly the first erected in Buffalo

4 Winney 8 noise—indonatedly the first errected in Ballalostord near where the Washington 8t, Canal Bridge now is, 5 Resides Winney, Johnston, the British Indian interpreter, Martin Middaugh and his family, and his so-malek Eeckiel Lane, resided here at that time; and in 1196 Asa Ransom, Jesse Skinner, and "Elack Joe" were also here. Skinner kept an inn, and Winney and "Elack Joe" an Inhan store.
6 The principal streets were named from members of the Holyal Land Comeany. Man 8t, was called "Willinks Arenne."

The principal streets were named from members of the Holand Land Company. Main St. was called "Willinks Arenne," Nagara St. "Schlinmelpennicks Arenne," Genesce St. "Busti Arenne," It's St. "Follenhovens Arenne," and Church St. "Sadmith, Arenne," In 1826 these names were changed by the trustees of the village. The business of the Holland Land Company was transacted here for a short time previous to the opening of their office at "Ransoms Grove," now Clarence Hollow,

in 1891.

7 The surveyor general was directed (April 11, 1894) to lay 7 The surveyor general was directed (April 11, 1804) to lay It is a out the land about Black Rock—forming a part of the Mile strip—into lots and report to the legislature. This was accordingly done; and in his report the surveyor general stated lay his belief that this was the best, if not the only, place at this end of the lake where a harbor of proper size could be constructed. From the earliest period the U.S. had designed with the following words:—"It will be observed that 1815.

streets are laid where it will either be impracticable or useless streets are laid where it will enner be improved on some to open them soon. It may, notwithstanding, be useful now to contemplate, in the plans of fowns, what will be necessary ar-concentrate a century hence. Such plans on record, while for rangements a century hence. Such plans on record, while for the present they can be productive of no harm, may prevent those aberrations from order that might hereafter be a cause of much inconvenience; and, without being governed by travagant calculations, no doubt can be entertained that the future importance of this place will justify extensive views in the projection of its arrangements." The village, like Lewiston, Oswego, Salina, and Fort Covington, was patented in small parcels.

8 See p. 280. In 1825, Congress made an appropriation of \$80,000 to compensate the inhabitants for the losses incurred by this disaster.

9 The sum of \$1,861.25 was raised by subscription, and a loan of \$12,000 was obtained from the State. A pur, extending 80 rods into the lake, was built, and a lighthouse erected upon the land. The Superior—the second steamboat launched upon Lake Eric—was built at Buffalo in 1822.

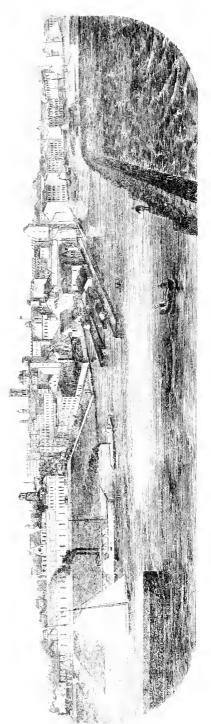

10 The population at different periods has been as follows: 1845..... 29,773 1514...... 1,060 1850..... 42,261 1820...... 2,095 1825..... 5,141

The population of Black Rock (now about 12,000) is included in the returns of 1855 only.

n This name was given at the suggestion of Alex. Hitchcock. It is a corruption of the Scheca word "Jidk-do-waah-geh." signifying "the place of the crab-apple tree," the Indian name of this locality

12 Among the early settlers were Sam'l Lasure. Roswell Judson, Abraham Hatch, and Maj. Noble. The first birth was that of a child of Roswell Hatch, in 1810; and the first death, that of Franklin Hitchcock, in 1818. The first mill was built by Sam'l Lasure, in IS10; and the first inn was kept by Jesse Munson, in

BUFFALO HARBOR

limestone. Clarence Hollow, (Clarence p. o.,) near the s. E. corner of the town, contains 3 churches, the Clarence Academy, and a pop. of 400; Clarence Center (p.v.) contains 2 churches and about 40 houses. Harris Hill (p. o.) and North Clarence (p. o.) are hamlets. The first settlement was made at Clarence Hollow in 1799, by Asa Ransom.<sup>2</sup> The census reports 7 churches in town.3

COLDEN'-was formed from Holland, April 2, 1827. It is an interior town, lying s. of the center of the eo. The surface is an elevated upland, rolling in the E. and hilly in the w. The w. branch of Cazenove Creek flows through the w. part of the town and is bordered by steep declivities 150 to 200 ft. high. The soil is a gravelly loam intermixed with clay. Colden, (p.v.,) on Cazenove Creek, contains a sawmill, a gristmill, and 34 houses; Glenwood, (p.v.,) on the same stream, contains 1 church, 3 sawmills, 2 lath mills, a tannery, and 30 honses. The first settlement was made in 1810, by Richard Buffnm.<sup>5</sup> The Presbyterian, at Glenwood, is the only church in town.

COLLINS—was formed from Concord, March 16, 1821. A part of Brandt was taken off in 1839, and North Collins in 1852. It lies on the s. border of the co., w. of the center. The surface is a rolling upland, sloping gradually to the w. and descending abruptly to Cattaraugus Creek upon the s. The summits of the ridges are 150 to 300 ft, above the valleys. Cattaraugus Creek forms the s. boundary of the town; and the other streams are Clear Creek and its tributaries. The channels of these streams are narrow and deep. The soil is a clavey loam on the uplands and a gravelly loam along the streams. Collins Center (p. v.) contains 1 church and 36 houses. Taylors Hollow is a hamlet near the N. W. corner. Gowanda lies partly in this town.6 The first settlement was made in 1806, by Jacob Taylor.7 There are 5 churches in town.8

CONCORD—was formed from "Willink," (now Aurora,) March 20, 1812; and Collins and Sardinia were taken off in 1821. A part of Sardinia was annexed in 1822. It lies upon the s. border of the co. The surface is a rolling upland, with steep declivities bordering up in Cattaraugus Creek. Townsend Hill, the highest point, is nearly 1500 ft. above tide. The principal streams are Cattaraugus Creek, upon the s. boundary of the town, and its tributaries. Several small brooks, forming the head waters of Eighteen Mile and Cazenove Creeks, take their rise in this town. The soil in the s. part is a gravelly loam, and in the N. a clayey loam underlaid by hardpan. Springville, (p. v.,) incorp. April 11, 1834, is situated in the s. part of the town, and contains 5 churches, the Springville Academy, a newspaper office, and several manufacturing establishments. Pop. 953. Mortons Corners, (p.v.,) in the s. w. part, contains I church, 2 sawmills, a gristmill, and 20 houses. Woodwards Hollow (p.o.) is a hamlet. The first settlement was made in 1808, by Christopher Stone. The first church was organized Nov. 2, 1816, by Rev. John Speneer. There are 7 churches in town. 11

EAST HAMBURGH-was formed from Hamburgh, as "Ellicott," Oct. 15, 1850. A part of West Seneca, as "Seneca," was taken off in 1851. Its name was changed Feb. 20, 1852. 1t is an interior town, lying near the center of the co. The surface is a broken upland. Chestnut Ridge, the highest land in the town, has an elevation of about 500 ft. above Lake Erie. The declivities of the hills are generally gradual slopes, broken by narrow ravines formed by the streams. Smokes Creek and its branches are the most considerable streams. The soil is a loam, gravelly in the N. and clayey in the s. East Hamburgh, (p. v.,) N. of the center of the town,

Hadley and R. Blennerhussett.

2 Asa Ransom was a man of considerable influence with the 2 As Ransom was a man of considerable influence with the Indians. They gave him the name of "O-mistanead-equation," signifying "maker of silver," or "maker of silver nearly," Gen. Timothy Hopkins settled in the town in 1797; Asa Chapman, Timothy James, Wm. Updegraff, Christopher Saddler, Levi Felton, Abraham Shope, John Haines, and John Gardner, in 1801; Andrew Purnet, Geo. Shurman, Bera En-sign, and Jacob Shope, in 1803; and Daniel Bailey in 1804. The first birth was that of Harry B. Ransom, in 1801; and the first death, that of Keyes in 1804. Asa Ransom opened the first public house, in 1801, built the first sawmill, in 1805, and the first gristmill, in 1806; to its R. Honkins kept the first store, in 1811. The first 1806; Otis R. Hopkins kept the first store, in 1811. The first school was taught by Rebecca Hamlin, in 1805.

<sup>3 3</sup> Mennonites, Bap., Seventh Day Bap., Presh, and Union.

<sup>4</sup> Named from Cadwallader D. Colden, then in the State Schate. 5 Thos. Pope, Josiah Brown, and L. Owen settled in the town in 1810, and Jesse Southwick, Richard Sweet, Nath'l Bowen, and Silas Lewis in 1811. The first birth was that of a child of Thes. Pope, in 1811; the first marriage, that of Jas. Sweet and Charlotte Buffum, in 1810; and the first death, that of Nathaniel Bowen, in 1812. Richard Buffum built the first mill, in 1810.

<sup>1</sup> Established as the Clarence Classical School in 1841, by J. The first school was taught by Mary Eddy, in the winter of addey and R. Blennerhassett.

1 Established as the Clarence Classical School in 1841, by J. The first school was taught by Mary Eddy, in the winter of 1814.

<sup>7</sup> Joshna Palmerton, Stephen Peters, Turner Aldrich, and Stephen Lapham settled in the town in 1810, and Stephen Wil-bur and Sylvanus Bates in 1811. The first birth was that of a our and Syramus lattes in 1811. The first birth was that of a son of Aaron Lindsley, in 1810; the first marriage, that of Stephen Peterson and Sarah Palmerton, in 1811; and the first death, that of ——Straight, in 1812. Jacob Taylor built the first mill, in 1812; John Hanford kept the first store, in 1813, and Nathan King the first inn, in 1816. The first school, was tunded by John King in 1814.

tunght by John King, in 1815.

8 Christians, Friends, F. W. Bap., Presh., and Union.

9 A wooden factory, 2 planing mills, a turning shop, a saw mill, 2 gristmills, a tannery, a stone sawing mill, and a furnaco and machine shop.

<sup>&</sup>lt;sup>10</sup> John Albro and John Russell settled in the town the same. year, San'l Cochrane in 1809, and Rufus Eaton, Joseph Adams, Alva Plumb, and David Shuftiez in 1810. The first birth was that of Lucius Stone, in 1809; the first marriage, that of Jas, Ruemell and Anna Richmond, in 1813; and the first death, that of Mrs. John Albro, in 1808. Anna Richmond taught the first school, in 1811

<sup>11</sup> Bap., F. W. Bap., M. E., Presb., R. C., Union, and Univ.

contains 2 churches, 2 sawmills, and 40 houses. Ellicott (p.o.) is a hamlet. The first settle ment was made in I803, by David Eddy, from Rutland, Vt. There are 3 churches in town, Friends, M. E., and Union.

EDEN—was formed from "Willink," (now Aurora,) March 20, 1812. Boston was taken off in 1817, and Evans in 1821. It is an interior town, lying s. w. of the center of the co. Its surface is hilly and broken in the E. and level in the w. A ridge about 500 ft. above the lake extends along the E. border. The principal streams are Eighteen Mile Creek and its branches. The soil is a gravefly loam intermixed with clay. Eden, (p. v.,) situated near the center of the town, contains 3 churches, a sawmill, a stave and shingle mill, a tannery, and 63 houses; Eden Valley, (p. v.,) on Eighteen Mile Creek, contains a gristmill, a sawmill, and 20 houses. Clarksburgh (p.o.) and East Eden (p.o.) are hamlets. The first settlement was made in 1808, by Benj., Joseph, and Samuel Tubbs.<sup>2</sup> The first religious services were conducted by Rev. Wm. Hill, in 1812. There are 8 churches in town.8

ELMA—was formed from Lancaster and Aurora, Dec. 4, 1857. It is an interior town, lying N. E. of the center of the co. Its surface is gently rolling, the summits of the ridges being 50 to 100 ft. above the valleys. Big Buffalo and Cazenove Creeks flow through the town. The soil is a clayer loain in the N. and a gravelly loam in the s. Spring Brook, (p. v.,) on Cazenove Creek, contains 2 churches and several manufactories. Pop. 300. Elma (p.v.) has several manufacturing establishments<sup>6</sup> and 34 houses; and Upper Ebenezer 27 houses. The first settlement was made in 1827, by Taber Earlle. There are 2 churches in town; Presb. and R. C.

EVANS\*—was formed from Eden, March 23, 1821. A part of Hamburgh was annexed in 1826, and a part of Brandt was taken off in 1839. It lies upon the lake shore, in the s. part of the co. The land rises from the lake in a bluff 20 to 40 ft, high; and the highest part of the town, near the E. border, is 160 ft. above the lake. The streams are Big and Little Sister Creeks. The soil is a sandy and gravelly loam intermixed with clay. Evans, (p. v.,) situated on Big Sister Creek, contains 3 churches, a gristmill, a sawmill, a tannery, and about 45 houses; Angola, (p. v.,) on the same stream, is Evans station on the E. R. R., and contains a gristmill, a sawmill, and about 45 houses; North Evans, (p. v.,) on Eighteen Mile Creek, in the N. E. part of the town, contains 3 churches, a gristmill, a sawmill, a tannery, and about 40 houses; East Evans, (p.v.,) in the N. part of the town, and Pontiac, (p. v.,) on Big Sister Creek, in the s. E. part, contain about 20 houses each. The first settlement was made in 1804, by Joel Harvey.9 There are 7 churches in town.10

GRAND ISLAND—was formed from Tonawanda as a town, Oct. 19, 1852. It is the n.w. corner town in the co., and comprises Grand, Buckhorn, and Beaver Islands, in Niagara River. Its surface is nearly level, and a considerable portion of it is still covered with forests. The soil of the upper part is clayey, and of the lower part sandy. The people are principally engaged in grain raising and lumbering. Grand Island is a p.o. on the E. shore. There is no village on the island, although it is thickly settled along the shores. The first settlers were squatters, who located soon after the War of 1812 and before it was decided to which Government the island belonged. In 1820, Mordecai M. Noah, of New York, conceived the project of forming a

<sup>&</sup>lt;sup>1</sup> Ezekiel Cook and Zenas Smith settled in the town in 1803. and Amos Colvin and Ezekiel and Daniel Smith in 1804. The that of Almon C.  Timothy Treat, Isaac Williams, Willard and Jas, Fairbanks, and Amasa Adams settled in the town in 1830, and Zima A. Hemstreet. Abraham Taber, and Jacob Pettengill in 1831. The first birth was that of H. Scott Fairbanks, in 1831; the first marriage, that of Gould Hinman and Louisa Adams, in 1835; and the first death, that of the wife of Isaac Williams, in 1830. The first mill was built by — Eastabrook, in 1824; and the

first inn was kept by Taber Earlle, in 1829. Emily Paine tanght the first school, in 1831. 8 Named from David E. Evans, agent of the Holland Land

<sup>-</sup> Fisk and - Worder settled in the town in 1808, Aaron Salisbury and Aaron Cash in 1809, and Andrew Tyler and Elijah Satisfully and advin cash in 1898, and andied Tyler and Eggle Gates in 1810. The first birth was that of a daughter of David Casb, in Jan. 1811; the first marriage, that of Whiting Casb and Persis Taylor, June 28, 1815; and the first death, that of Jona-than Cash, in 1811. Henry Tottle built the first mill, in 1817; Joel Harvey kept the first inn, in 1806; and John Harris the first store, in 1815. The first school was taught by —— Hibhard, in 1811.

During the War of 1812a party of British sailors and mariners landed near Sturgeon Point, in the night, and commenced plun-dering the inhabitants. Judge Aaron Salishury, then a young man, seized his musket and started off alone to get a shot at them. When he arrived they were retreating to their boats, and an exchange of shots produced no damage on either side. They started for the month of Eighteen Mile Creek, and he on foot endeavored to get there before them; but they had landed when he arrived. He immediately commenced firing; and they, not knowing how large a force was opposing them, re-treated to their boats and speedily left. Here one man fright-ened away 100 and saved the inhabitants from plunder.

HAMBURGH2—was formed from "Willink," (new Aurora,) March 20, 1812. A part of Evans was taken off in 1826, East Hamburgh in 1850, and a part of West Seneca, as "Seneca," in 1851. It lies on the shore of Lake Erie, near the center of the w. border of the co. Its surface in the E. is rolling; but in the w. it is nearly level, with a gentle inclination toward the lake. A bluff averaging 50 to 100 feet high borders the lake. The principal stream is Eighteen Mile Creek. The soil is mostly a clayey loam; in the s. E. corner it is gravelly. Whites Corners, (p. v.,) on the N. branch of Eighteen Mile Creek, in the s. E. part of the town, contains 5 churches, a gristmill, a sawmill, a tannery, and has a pop. of 609; Water Valley, (p. v.,) on the same stream, w. of Whites Corners, contains a woolen factory, a furnace, and 20 houses; Abbotts Corners, (Hamburgh p. e.,) on the line of East Hamburgh, contains 2 churches, a sawmill, a shingle mill, and 145 inhabitants. Big Tree Corners and Hamburgh-on-the-Lake are p. offices. The first settlement was made in 1804, by Nathaniel Titus and Dr. Rufus Belden.3 There are 7 churches in town.

HOLLAND—was formed from "Willink," (new Aurora,) April 15, 1818; and Colden was taken off in 1827. It lies upon the E. border of the co., s. E. of the center. The surface is a high, broken upland, divided by the valley of Cazenove Creek. The summit of the highland is about 900 ft. above Lake Erie. The soil is a gravelly loam, intermixed in some places with slate and The valley of Cazenove Creek is very fertile. Holland, (p. v.,) on Cazenove Creek, contains 1 church, several manufacturing establishments,<sup>5</sup> and 28 houses. The first settlement was made in 1807, by Jared Scott, Abner Currier, and Arthur Humphrey, from Vt.<sup>6</sup> There is but I church (Bap.) in town.

LANCASTER—was formed from Clarence, March 20, 1833. A part of West Seneca was taken off in 1851, and a part of Elma in 1857. It is an interior town, N. E. of the center of the co. The surface is level. Cayuga and Eleven Mile Creeks are the principal streams; upon them are several mill sites. The soil is a clayey and gravelly loam. **Lancaster**, (p. v., ) incorp. March 13, 1849, is a station on the N. Y.C. R. R., in the w. part of the town. It contains 6 churches, a bank, and several manufactories. Pop. 1,259. Bowmansville, (p. v.,) in the n. w. corner of the town,

1818, by commissioners appointed respectively by the United made known, large numbers would be induced to emigrate. The States and British Governments. While the matter was still sanction of law was asked to give confidence to those who might undecided, a large number of lawless persons—mostly refugees from justice from both sides of the river—squatted upon the island, locating principally along the shores. Remaining for some time numolested, they began to commit extensive depresome time infinesied, they legan to commit extensive depict dations upon the timber; and finally they set up an independent government and elected a full quota of municipal officers. In April, 1819, the legislature passed an act authorizing the removal of these intruders. During the succeeding summer the governor issued a proclamation commanding them to desist from depredations upon the property of the State, and at once to remove. A few obeyed the command; but, seeing no active demonstrations on the part of Government, they returned. It demonstrations on the part of Government, they refurned. In the fall of 1819, Gov. Clinton directed Col. Jus. Cronk, the sheriff of Nugara co., to call out a sufficient military force for the purpose and forcibly expel them. On the 9th of Dec. 1813, the sheriff, accompanied by Lieuts. Benj. Hodge and — Osborne, 2 serjeants, 4 corpords, and 24 privates, went to the island in boats, manned by 20 boatmen, to carry into execution the orders of the governor. Every facility was given the people to remove with their effects; and the boatmen took them to either shore, as they might elect. The military were divided into 3 parties; a vanguard, to read the governor's orders and assist in clearing the houses; a second party, to forcibly remove all property left in the buildings; and a rear guard, to burn the buildings and complete the removal and destruction. Seventy houses were complete the removal and destruction. Seventy houses were burned, and 150 people, consisting of men, women, and children, were turned out shelterless upon the U. S. and Canada shores. Two buildings, filled with grain, alone were saved. The removal and destruction occupied 5 days and cost the State \$568.99. A few families returned immediately, but did not re-

main.

1 In a memorial to the legislature in 1820 for the purchase of the island, Mal. Neah explained his object; recounted the persecution which his co-religionists in the Old World had suffered through many centuries; pointed out the benefits that had iered through many centuries; pointed out the benchts that had resulted to Spain, Portugal, France, and Germany from the commercial enterprise and the capital of the Jews when allowed the exercise of their rights; and painted in brilliant colors the henefits that would accrue to the U.S. if his people could exchange "the whips and scorns of Europe, Asia, and Africa for the hight of liberty and civilization" which this country afforded. He estimated that there were 7,000,000 of Jews in the world, and predicted that, if the existence of an asylun of freedom were predicted that, if the existence of an asylum of freedom were

made shown, here numbers wend be induced to emigrate. The sanction of law was asked to give confidence to those who might not otherwise be induced to remove. His attempt to gather the Jews, like those before it, ended in day dreams. The European rabbii refused to sanction the effort; and Maj. Noah soon gave up the attempt, Jeaving no trace of his "city" upon the island but a monument of brick and wood. It bore, on a marble tablet, the following inscriptions from Deuteronomy vi. 4:--

## שמע שראלרר אלהרנר

A CITY OF REFUGE FOR THE JEWS,

Founded by Moedecal M. Noah, in the month of Tizri 5,586, (September, 1825.) and in the 50th year of American Indenendence.

The monument has since tumbled down; and the schemes of Noah have now scarcely a place in memory or a trace in history.

A Boston company was formerly extensively engaged in the manufacture of ship timber upon the island.

2 Named from Hamburgh, in Germany.

Summer trainering, in Germany.

S Berij, Enos, and Joseph Sheldon settled in the town in 1805, and John Fox and Elisha and David Clark in 1806. The first marriage was that of Ezekiel Cook and Anna Smith, in 1807. Nath'l Titus kept the first inn, in 1804; and John Cummings.

Nath!! Titus kept the first inn, in 1804; and John Cummings built the first mill, in 1805.

4 Bap. F. W. Bap. Evang, Luth., M. E., and R. C. at Whites Corners, and M. E. and Presb, at Abbotts Corners.

5 sawmills, a gristmill, and a tannery; the last named is a large establishment, employing about 20 men, and turning out about 20,000 sides of leather per annum.

6 They were followed by Dan'l McKean and Ezekiel and Harvey Colby the same year, and by Increase Hichardson, Sammel Miller, Theophilus Baldwin, and Sandford Porter in 1808. The first birth was that of Dan'l McKean, in 1808. Joshua Parsons kept the first inn, in 1817, and Leonard Cook the first store, the same year. The first shood was tamelt by Abner Currier, in same year. The first school was taught by Abner Currier, in

7 A glass factory, a bedstead factory, a tannery, a gristuill, and a sawmill.

contains I church and has a pop. of 196. Town Line, Winspear, and Looneyville are p. offices. The first settlement was made in I803, by Jas. and Asa Woodward. The first religious services were conducted by Rev. John Spencer, at the house of Benj. Clark, in I809. There are 8 churches in town.2

MARILLA3—was formed from Alden and Wales, Dec. 2, 1853. It is situated near the center of the E. border of the co. The surface is rolling. Big Buffalo Creek crosses the s. w. corner; but the principal part of the town is drained by the head waters of Little Buffalo Creek. The soil in the N.E. and s.w. is a sandy and gravelly loam; but elsewhere it consists of clay and muck. Marilla, (p. v.,) situated near the center of the town, contains 3 churches, 2 sawmills, a shingle mill, and 235 inhabitants. The first settlement was made by Jerry and Joseph Carpenter, in 1829.\* There are 3 churches in town; Disciples, M. E., and R. C.

NEWSTEAD—was formed from Batavia, (Genesce co.,) as "Erie," April 11, 1804; its name was changed April 18, 1831. It is the N. E. corner town of the co. A limestone terrace extends through near the center of the town. North of this the surface is level, in many places marshy; and the soil is a clayey loam intermixed with marl and sand. To the s. the surface is level, or gently undulating, and the soil a sandy and clayey loam underlaid by limestone. The town is watered by several small streams, the principal of which is Murder Creek.<sup>5</sup> A layer of hydraulic limestone crops out along the terrace, and waterline is extensively manufactured from it. Akron, (p.v.,) incorp. Oct. 1850, is a station on the Canandaigua & N. F. branch of the N. Y. C. R. R., near the center of the town. It contains 4 churches and several manufacturing establishments. Pop. 462. Falkirk, I mi. E. of Akron, is a hamlet. The first settlement was made in the early part of the present century.8 The first religious society (M. E.) was organized in 1807, with 12 members, at the house of Charles Knight, by Rev. Peter Van Nest and Amos Jenks. There are 4 churches in town.9

NORTH COLLINS—was formed from Collins, Nov. 24, 1852, as "Shirley;" its name was changed June 24, I853. It is an interior town, lying in the s. w. part of the co. Its surface is rolling, the summits of the ridges being 200 to 300 ft. above the valleys. The town is watered by the head branches of Eighteen Mile, Clear, and Big Sister Creeks. The streams generally flow through deep ravines bordered by steep declivities. The soil is a gravelly loam. North Collins, (Collins p. o..) in the N. w. part of the town, contains 2 churches and 34 houses. Shirley. (p. v.) and Langford, (p. o.,) in the N. E. part, New Oregon, (p. o.,) in the E. part, and Marshield, (p. o., ) in the s., are hamlets. The first settlers were Stephen Sisson, Abram Tucker, and Enos Southwick, from Warren co., who moved into the town in 1810.10 There are 8 churches in town. 11

SARDINIA—was formed from Concord, March 16, 1821. A part of Concord was taken off in 1822. It is the s. E. corner town of the co. The surface in the E. part is gently rolling, and in the w. hilly. Shepherd Hill, s. w. of the center, is 1,040 ft. above Lake Erie. Cattaraugus Creek terms the s. boundary. In the E. part the soil is a gravelly loam, and in the w. it is clay underlaid by hardpan. Sardinia, (p. v.,) in the s. E. part, contains 2 churches, a woolen factory, a gristmill, a tannery, and 40 houses. **Protection** is a p.o. The first settlement was made by George Richmond, from Vt.12 The first religious services were conducted by the Rev. John Spencer, in Feb. 1815. There are 2 churches in town; Bap. and M. E.

<sup>1</sup> Among the early settlers were Alanson Eggleston and David | <sup>1</sup> Among the early settlers were Alanson Eggleston and David funlin, who came in 1804, Joel Parmadee, in 1805, Warren Hamlin, in 1806, Wm. Blackman, Peter Pratt, — Kerney, and Elisha Cox. in 1807, and Elish Bissell, Pardon Peckham, and Elisha Cox. in 1807, the first birth was that of a pair of twins, children of Zophar Beach, and the first death, that of a child of Wm. Blackman, both in 1808. — Rothinson built the first sawmill, in 1808; Ahaz Luce opened the first store, in 1810, and Jos. Carpenter the first inn.in 1812. The first school was taught by Fraderic Identity in 1810.

Jos. Carpenter the first 100. in 1812. The first school was taught by Fredove Johnson, in 1810.

2 2 Evang, Luth., 2 M. E., Disciples, Ger, Meth., Presb., and R. C.

3 Named from Mrs. Marilla Rogers, of Alden.

4 Rice Wilder, Cyrus Finney, and Bodman Day settled in the town in 1831. The first birth was that of Sarah Finney, in Oct. 1831. Jesse Barton built the first sawnull, in 1828, and the first gristmill, in 1832. Miles Carpenter kept the first store, in 1-48, and the first inn, in 1850. The first school was taught by Southia Day in 1833. Sophia Day, in 1833.

of Called by the Indians "See-un-put," noise or roar of distant ater. The creek was named from the fact that about the water. The creek was named from the fact that about the time of the first settlement a white man was nurriered upon it, within the present village limits of Akron, by an Indian who was conducting him to Canada.

<sup>6</sup> Named from Akron, Ohio, and the latter from a Greek word

signifying "summit."
7 2 gristmills, 2 sawmills, 1 waterlime mill, 1 furnace and machine shop, 1 planing mill, 1 stave and shingle mill, and a tannery.

<sup>8</sup> Among the early settlers were Otis Ingalls, David Cully, Peter Van de Venter, Sam'l Miles, John Felton, Charles Barney, Aaron Beard, Robt. Durham, Tohias Cole, and Sam'l, Silas, John, and Thomas Hill. Peter Van de Venter kept the first inn, in 1802, and Archibald Clark the first store, in 1809. The first school was taught by — Keith, in 1807.

<sup>&</sup>lt;sup>9</sup> Bap., Presb., M. E., and R.C. 10 The first birth was that of Geo. Tucker, in Aug. 1810; the first marriage, that of Levi Woodward and Hannah Sonthwick, first marriage, that of Levi Woodward and Hannah Southwick, in 1812; and the first dearths, those of two girls, twin daughters of Stephen Sisson. Stephen Stancliff built the first mill, in 1818; Stephen Tucker kept the first finn, and Chester Rose the first store, both in 1813. The first school was taught by Phebe Southwick, in the summer of 1813.

12 Priends, 2 M. E., 2 R. C., Bapp, and Cong.

12 Among the early settlers were Ezra Nott, Henry Godfrøy, and Josiah Summer. Elisha Rice and Giles Briggs settled in the town in 1810. The first birth was that of Ray Briggs, in

TONAWANDA—was formed from Buffalo, April 16, 1836; and Grand Island was taken off in 1852. It lies in the N. W. part of the co., at the angle formed by the junction of Tonawanda Creek and Niagara River. Its surface is generally level. Eleven Mile Creek crosses the N. part of the town. The soil along Niagara River is clayey; in the interior it is sandy. Tonawanda, (p. v.,) incorp. Dec. 3, 1853, is situated on the Eric Canal, at the confluence of Niagara River and Tonawanda Creek. It has a good harbor, and is an important station on the B. & N. F. R. R. It is the western terminus of the C. & N. F. branch of the N. Y. C. R. R. It contains 5 churches, a newspaper office, a bank, an elevator,2 and several manufacturing establishments.<sup>3</sup> Pop. 1,257.<sup>4</sup> The first settlement was made in 1805.<sup>5</sup> There are 8 churches in town.<sup>6</sup>

WALES—was formed from Aurora, April 15, 1818; and a part of Marilla was taken off in 1853. It is situated near the center of the E. border of the co. Its surface is broken and hilly and inclined toward the N. The principal stream is Big Buffalo Creek. The soil in the N. is a gravelly loam, and in the s. clay underlaid by hardpan. Wales Center, (p.v.,) on Big Buffalo Creek, in the N. part of the town, contains 2 churches, a gristmill, a sawmill, and 40 dwellings; Wales, (p. v..) on the same stream, contains 1 church, a gristmill, a sawmill, and 30 dwellings; and **South Wales** (p. v.) contains a gristmill, a sawmill, and 25 dwellings. The first settlement was made in 1805, by Oliver Pettengill.<sup>7</sup> There are 3 churches in town; 2 M. E. and a Free Will Bap.

WEST SENECA—was formed, as "Seneca," from Chicktowaga, Hamburgh and East Hamburgh, and Lancaster, Oct. 16, 1851; its name was changed March 25, 1852. It is situated on the shore of Lake Erie, near the center of the w. border of the co. Its surface is gently undulating in the E. and level in the w. The streams are Big Buffalo, Cazenove, and Smokes8 Creeks. The soil is generally a sandy loam. The town is mainly settled by a society of German religionists, generally known as Ebenezers, but who style themselves the "Community of True Inspira-Middle Ebenezer, on Buffalo Creek, contains a church, calico printing factory, wooler factory, sawmill, oil mill, and 67 honses; Lower Ebenezer, on Cazenove Creek, contains a church, sawmill, gristmill, tannery, and 50 houses; and New Ebenezer contains a large manufactory of cotton and woolen goods, an extensive dyeing works, and 9 dwellings. Reserve, West Seneca Center, and West Seneca are p. offices. The first settlement was made by Reuben Sackett, in 1826.10 There are 4 churches in town.11

Summer Warren built the first mill, in 1811; Geo. Richmond kept the first ing, in 1811; and Clark & Co. the first store, in 1816. The first school was taught by Melinda Abbey, in 1814.

1 Large quantities of lumber are received at this port from Canada and the Western States. The quantity re-shipped by caoal in 1857 was, of timber, 841,041 cubic feet; of sawed stuff, 4815,441 fit; and of wood, 16,007 cords.

2 This elevator has a storage capacity of 250,000 bush., and facilities for elevating 2000 bush. per hour.

3.3 sawenits. 38hingele mills a naturing mill and a furnace and

<sup>3</sup> 3 sawmills, 3 shingle mills, a planing mill, and a furnace and machine shop.

4 This is the pop. of that part of the village in Eric co. A part of the village is across the creek, in Niagara co.; and the

pop. of this is not known.

5 Alex. Logao, John King, and John Hersey settled in the town in 1805; Emanuel Winter, Jos. Haywood, Oliver Standard, John Cunningham, Josiah Guthrie, Ebenezer Coon, Thos. Honnan, and Joseph Hersey, in 1806; Henry Anguish, io 1808; and Frederick Back, in 1809. Henry Anguish kept the first inn. in 1811, and Judge Wilkinson the first store, in 1823. The first mill was built by — Osborne, in 1819.

6 Disciples, Evang. Luth., M. E., R. C., and Wes. Meth. at Tonawanda Village, and Evang. Luth., M. E., and R. C. in other parts of the town.

<sup>7</sup> Ethan and Wm. Allen and Jacob Turner settled in the town in 1806, and Chas, and Alex. McKay, Ehenezer Holmes, and Wm. Hoyt in 1807. The first birth was that of Wm. Pettengill, in Hoyt in 1805. The first birth was that of Wm. Pettengm. In June, 1806. Isaac and Eli Hall built the first mill, in 1811; June, 1805. Isaac and Eli Hall built the urst min. in Line 1805. Isaac Hall kept the first inn. in 1816; and Orsamus Warren the first store, in 1824. The first school was taught by Jas. Wood, and the latter was found imbedded in a In 1813 an Indian hatchet was found imbedded in a tree at Wales Center, and in 1825 John Allen related the fol-

ISI1; and the first death, that of a son of Henry Godfrey, in 1814. | lowing circumstance concerning it. About the time of the first settlement of Buffalo an Indian came to that place and exhibited the skin of a white child, and boasted that he had murdered and the skill of a wire chind, and nearest mat he had marriered and skinned the child for the purpose of making a tobacco pouch. Truman Allen, (brother of the narrator,) hearing the hoast, became so enraged that he followed the Indian to Wales and shot him. He buried the body and ribe to the sand, and stick the temahawk into a tree, where it was afterward found as above stated.

8 Named from na Indian who resided near its mouth and who was an inveterate smoker

9 This community purchased 7,622 acres belonging to the Buffalo Indian Reservation in 1844, and commenced their settlements the same year. They are largely engaged in agriculture and manufactures; and their wares have obtained so excellent a and manufactures; and their wares have obtained so excellent reputation that they find a ready market at Buffalo and elsewhere. They have a community of property, reside in villages, and several families usually occupy the same house. They are governed by a board of trustees; and their business is done through an agent, who appears to have almost unlimited control of matters. They are honest, industrious, and frugal; and in the contented and peaceful tenor of their lives they present a model which might well be copied by some of the restless and ambitions Yankee race. umbitious Yankee race.

10 Among the other early settlers were Arteons W. Baker, John G. Wells, Isaac Earlle, and Geo. Hopper, who located in 1828. The first child born was a daughter of Joel becker, in Aug. 1828; and the first death, that of Peter Beal, in 1834. Geo. E. Elderkin taught the first school, in 1839; Reuben Sackett kept the first inn, in 1826; the Elenezer Society, the first store, in 1845; and Ballon & Tubell built the first mill, in 1837.

<sup>11</sup> 2 Lutheran and 2 Community of True Inspiration.

<sup>&</sup>lt;sup>a</sup> Formed since 1855.

## ESSEX COUNTY.

This county was formed from Clinton, March 1, 1799, and a corner was taken off in the erection of Franklin co, in 1808. It lies upon Lake Champlain, in the N.E. part of the State; is centrally distant 100 miles from Albany, and contains 1,926 square miles. It is by far the most broken and mountainous county in the State. With the exception of a narrow strip of level land along the shore of Lake Champlain, nearly the whole co. is of an Alpine character. High, rocky peaks, and immense mountain masses, abounding in wild, broken crags and stupendous precipices, and separated by narrow ravines and deep gorges, form the general characteristics of the landscape. With the exception of the Black Mountain, of North Carolina, and the White Moun-

tain group, of New Hampshire, the mountains of this co. attain a higher elevation than any others belonging to the great Appalachian system; and, taking into consideration their great number of lofty peaks, they surpass in magnitude all other groups E. of the Mississippi. The mountains seem thrown together without regard to order or system; and from this fact, and the frequent misapplication of names, much confusion has arisen in attempting to describe them.

The 5 mountain ranges N. of the Mohawk valley extend through portions of this co., and terminate upon the shores of Lake Champlain. They all have a general N.E. and S.W. direction, rising successively higher toward the n. until they culminate in the most northerly range. The axes of these ranges are nearly parallel, and are respectively about 8 mi. apart. They are not always distinct and continuous, but in some places their lateral spinrs interlock, and in others their continuity is broken by the intervention of valleys and brief intervals of lowland. They are not regularly serrated, but appear to consist of groups of sharp pointed peaks connected by immense ridges. The principal mountain masses appear to extend in a due N. and s. direction, and are thus placed obliquely in the range of which they form a part. Single mountains are often sufficiently large to occupy the whole intervening space between the ranges, thus destroying the continuity of the valleys and reducing them to narrow, isolated ravines. This arrangement of mountains, in regard to the ridges, affords the key to the peculiar plan of the construction of this whole mountain system. The most sontherly of the 5 ranges barely enters the extreme s. E. corner of the co. It is known as the Palmertown or Luzerne Mts. It has also sometimes been called the Black Mountain Range and the Tongue Mts. It constitutes the highlands which rise upon both sides of Lake George and upon the narrow peninsula between the Lake George Ontlet and Lake Champlain. Mt. Defiance, the extremity of the ridge, has an elevation of about 750 feet above the lake. The second range, known as the Kayaderosseras, extends through the s. E. part of Schroon and the center of Crown Point, ending in the high cliff which overlooks Bulwagga Bay, and is elevated about 1,150 feet above the surface of the lake. Along the course of this range, in Schroon, is a cluster of mountain peaks, the highest of which, Mt. Pharaoh, is 3,500 to 4,000 feet above tide. The third range occupies the w. and N. parts of Schroon, and extends through the N. part of Moriah and the center of Westport, ending in the high promontory of Split Rock, in the s. part of Essex. Bald Mountain, in Westport, one of the most noted peaks of this range, attains an elevation of 2,065 feet above tide. This range takes the name of the Schroon Mts. from the principal lake which lies at its foot.

The fourth range extends through the central parts of Minerva and N. Hudson, the s. E. corner of Keene and Lewis, the N. w. part of Elizabethtown, and the center of Willsborough, ending in the high bluffs which border upon Peron Bay. It might with propriety be called the Boquet Range, from the principal river which flows at its base. Dix Peak, in N. Hudson, the highest monntain in this range, attains an elevation of 5,200 feet above tide, and, next to Mt. Marcy, is the

¹ The name of Split Rock was applied to this promontory in consequence of about ½ acre of the extreme point being detached from the mainland by a chasm 10 feet wide, extending downward to near the water's edge. It was once supposed that this mass was split off from the mainland by some great above the lake is about 30 feet. convulsion of nature, and writers have gravely asserted that 500

highest point in the co. Nipple Top has an elevation of 4,900 feet. Raven Hill, in Elizabethtown, and Mt. Discovery, in Lewis, each attain an elevation of over 2,000 feet. The fifth range extends through Newcomb, Keene, Jay, Lewis, and Chesterfield, ending in the rocky promontory of Trembleau Point. It has sometimes been called the Clinton Range, but it is more widely known as the Adirondack Range. Mt. Marcy, the highest peak of this range, and the highest land in the State, has an elevation of 5467 feet above tide. Mounts McMartin, McIntyre, and San-da-no-na, belonging to this range, are each upward of 5000 feet high. A spur of this range extends northward on the borders of Jay and Chesterfield, in a high, unbroken ridge, with a mean elevation of about 2,000 feet above tide.

North of the Adirondack Range the mountains are not disposed in regular ranges, but are scattered in groups over a large space of country. These groups, however, lie in a line parallel to the other ranges, and for convenience of description they might be considered under the head of the "Au Sable Range." Mt. Seward, the highest peak, 5,100 feet above tide, is situated just beyond the limits of the co. Whiteface, in Wilmington, has an elevation of 4,855 feet.

The rocks of Essex co. are primary, consisting of granite, gueiss, and hypersthene. The mountains generally are composed of huge masses of naked rocks, more or less disintegrated by the action of the elements. Nearly the whole mountain region is composed of this primitive rock. Along the base of the mountains, on the E., appear the Trenton limestone and Utica slate; while upon the immediate borders of the lake are found the clayey masses of the tertiary formation. In the primary rocks, among the mountains, are immense beds of rich magnetic iron ore, some of which have been extensively worked, though generally in a very rude and primitive manner. The iron produced from this ore has been subjected to the most severe tests, and has been pronounced equal to the best which is produced in the world.

The s.w. portion of the co. is drained by the Hudson and its principal branch, the Schroon River. These streams take their rise upon the highest peaks of the Adirondack and Schroon Ranges, and flow through the winding valleys that lie at their base. Upon the E. Putnams Creek drains the region between the Luzerne and Kayaderosseras Ranges; Mill Brook, between the Kayaderosseras and Schroon; and the Boquet<sup>2</sup> River, between the Schroon and Boquet Ranges. The Au Sable, flowing along the N. base of the Adirondack Range, drains the N. portion of the co. The valleys of these streams are generally narrow, and are bounded by steep banks, which are not unfrequently huge masses of precipitous or overhanging rocks.

Lakes Champlain and George lie partly in this co., and more than 100 small lakes lie wholly within its limits. The greater part of these are comprised in three groups, lying near the base of the principal mountain peaks. The first of these groups surrounds Mt. Marcy; the second, Mt. Pharaoh; and the third, Whiteface. Many others are found scattered along the whole course of the mountain ranges. These lakes are generally long and narrow; and Prof. Emmons says "that, instead of occupying shallow basins secoped out of the softer materials,—as earth and the ordinary slates and shales,—they lie in chasms formed by uplifts and fractures in the primary rock." Many of these lakes have precipitous banks, presenting a great variety of wild and picturesque scenery. The soil along Lake Champlain consists of a stiff, hard clay, alternating with a dark loam and gravel, and, in the narrow valleys, of disintegrated rocks. Upon the mountains the soil is thin and light, many of the peaks being masses of naked rocks, destitute of both soil and vegetation. The declivities of the hills are generally wooded, but not very heavily. Three-fourths of the entire surface of the co. is too rough and broken for cultivation.

Farming, iron mining, and the manufacture of iron from the ore, constitute the leading pursuits; and the immense mineral wealth of this section must for centuries continue to afford an object of profitable investment. In the infancy of the settlement, and until the supply became exhausted, the manufacture and exportation of lumber and staves to the Quebec market formed the leading, and, in some neighborhoods, almost the sole, objects of industry. Rafts of great size were formed in the coves and sheltered points along the lake shore, and were wafted by sails and oars to the Richlieu River, and down that stream and the St. Lawrence to Quebec, where they were transferred to ships for the British market. The completion of the Champlain Canal gave a new impulse to lumbering; but the timber suitable for exportation is now nearly exhausted, except on the extreme w. borders of the co. The logs of this latter region are floated down the Saranac,

<sup>&</sup>lt;sup>1</sup> The name Adirondack is strictly applied only to the group of elevated peaks of which Mt. Marcy is the center, but by common usage it is now made to comprehend the whole system of mountains N. of the Mohawk.

<sup>&</sup>lt;sup>2</sup> Pron. bo-kwét. Probably from the French "traquet," a trough. It is also said to have been named from Henry Boquet, an English officer; but the name appears on French maps previous to his residence in the country.

Racket, Hudson, and other streams, to some convenient place for sawing; and large sums have been appropriated by the State for improving the channels of these rivers for this purpose.\(^1\) Tanneries, within the last few years, have greatly increased in the woody sections of the State, and about a dozen of them are located in this co. The iron manufacturing business of this region was commenced at Willsborough Falls in 1801,2 and now forms one of the leading pursuits of the people. Iron ore is exported from this co. in large quantities to Pittsburgh and other distant localities, to be mixed with other ores.3 The mannfacture of sash and blinds, tubs, pails, and other articles of pine and cedar, starch, paper, and black lead, receives considerable attention. Shipbuilding, to some extent, has been carried on in Essex and Willsborough.

The county seat is located at Elizabethtown, situated upon the Boquet, about 8 mi. w. of the lake. It contains the courthouse, jail, and county clerk's office. These buildings are plain and substantial. The poorhouse is located upon a farm of 100 acres, in Essex, 10½ mi. N.E. of Elizabethtown. The average number of inmates is 70, supported at a cost of 62 cts. per week each. The farm yields a revenue of about \$1,200.6

There are 2 papers now published in the county.7

In 1609, Samuel Champlain, with two attendants, accompanied a party of Canadian Indians on an expedition against the Five Nations. On the 4th of July his party entered the lake which now bears his name, and on the 30th they met their enemies. A sanguinary battle ensued, the fate of which was decided by the firearms of the whites, then for the first time used within the limits of the State. This aet of unprovoked hostility on the part of Champlain laid the foundation for the long and bloody wars between the Five Nations and the French, and rendered the former the willing and steadfast friends and allies of the Euglish. The whole region bordering upon the lake was claimed, by constructive title, by both France and England; and during the wars that ensued it became the great battle ground for supremacy, and the principal highway for war parties in their mutual incursions upon the defenseless frontier settlements. Fort Frederick was erected by the French at Crown Point in 1731. This measure was met by remonstrance, but no open resistance, on the part of the English. Previous to the erection of the fort, French settlements had commenced in various places along both shores of the lake. These settlements had made considerable progress,

1 \$6000 was appropriated in 1853, and \$5000 in 1854, for im-1 so, and south in 1895, and south in 1895, and south in 1895, for improving the log navigation of the An Sable River. A lighthouse has been creeted at Split Rock by the General Government. The proposed Sacketts Harbor and Saratoga R. R. has been surveyed across the s. corner of the co., and another route has been projected from Plattsburgh to Whitehall; but there is little

been projected from Plattsburgh to Whitehall: but there is little prospect of either of these lines being soon finished.

In that year George Throop and Levi Higby, in connection with Charles Kane, of Schemectady, began the mannfacture of anchors at Wilsborough Falls. For the first 10 years the ore was obtained in part from Canada, but principally from Vermont. A bed at Basin Harbor was the only one then known within the co. Mill and steamheat irons were afterward made, and the foundry was finally converted into a forge. Early in the present century W. D. Ross erected a rolling mill on the Boquet, for making nail plates for the factory at Fair Haven, Yt. About 1809, Archibald McIntyre and his associates erected works on a branch of the Au Sable, in the present town of N. Elba, designated as the "Elba Iron Works," which were at first supplied from the vicinity, and afterward which were at first supplied from the vicinity, and afterward from the Arnold mine, in Clinton co. The forge was abandoned in 1815, after several years of prosperous business. The iron interest rapidly extended after the completion of the Champlain Canal, and several large manufactories were erected in the valley of the Au Sable and the sprrounding region. rolling mills, and nail factories of this section are among the most extensive of the kind in the country. Bar, pig. and bloom iron of superior quality are produced in large quantities. Within a few years, authracite coal has nearly superseded the use of charcoal in the furnaces along the lake shore. These establishments aford a home market for a large part of the agricultural products of the co. Most of the above dates and facts are condensed from Watson's Ag. Survey of Essex Co., 1852, p. 814.

<sup>3</sup> The principal ores in this co. are magnetic, and they are separated from the stone by water and by magnetic machines. Hundreds of bbls, of iron sand are collected upon the shores of Lake Champlain and sold to the N. Y. stationers.

4 David Watson and John Savage, of Wash. co., were appointed

\* David Watson and John Savage, of Wash.co., were appointed commissioners to locate a site for the co. buildings, which were to be erected under the care of 3 commissioners appointed by the supervisors. The first co. officers were Daniel Ross, First Judge; Stephen Cuyler, Clerk; Thos. Stowers, Sheriff; and Win. Gilliand. Surrogate.

6 When the co. was formed, the new blockhouse in Essex, then Willsborough, was used as a courthouse and jail. By an act passed April 7, 1807, Elizabethtown was selected as the co. seat, and to this place the courts and clerk's office were transferred upon the completion of the proper buildings, in 1814.

<sup>6</sup> This establishment is old, and in some respects inconvenient; but it is spoken of as extremely well kept, and in this

The Bereille, the first paper in the co., was started at Elizabethtown, about 1810, by Luther Marsh.

The Essex Patriot was published at the same place, in 1817-18, by L. and O. Person.

The Essex County Times was started at Elizabethtown, by R. W.

Livingston, and in 1833 sold to —— Macomb, who continued it about 15 months. It was printed on an old "Ramage" press brought from Skaneateles, Onondaga

and thriving villages had spring up, before they were finally broken up by invading armies. Still more extended schemes of settlement were planned, and extensive grants of land were made upon the same condition as the French grants in Canada. 1 Soon after their first occupation, the French caused a survey of the lake and its shores to be made by Sieur Anger, surveyor to the King; and the work seems to have been carefully done. In 1755 the French advanced 12 mi. nearer to the English settlements, and commenced the fortification of Ticonderoga upon a point that entirely commanded the passage of the lake. The fort was named by them "Carillon;" but it is now generally known by the Indian name of Ticonderoga. Upon it vast sums of money were afterward expended by both the French and English, and it became the most formidable fortress in America. The French here made a stand against the advances of the English; and when at length it was found to be no longer tenable, Crown Point and all the posts along the lake were at once abandoned.

The repeated incursions of the French and Indians into the English settlements, and the continual advancements of the French military posts, at length aroused the attention of the English Government and led to the conviction that the very existence of the frontier settlements depended upon the complete overthrow of the French power in America. One of the great expeditions of 1755 was directed against Crown Point. The English troops, under the command of Gen. Lyman, built Fort Lyman—afterward Fort Edward—on the Hudson, and, under Sir Wm. Johnson, who assumed the command, advanced to the head of Lake George. Here, learning that the French were fortifying Ticonderoga and that they had received large reinforcements, Sir William chose a commanding position and fortified his camp. In the mean time, Baron Dieskan, the French commander, at the head of a superior force, endeavored to cut off his communication with Fort Lyman. A body of provincial troops, under Col. Williams, of Mass., and of Indians, under the famous Mohawk chief Hendrick, thrown ont as an advance gnard by Sir Wm., fell into an ambush, and the whole party were cut to pieces, and the two leaders killed. The French immediately attacked the English camp, but were repulsed with great loss, and the retreating fugitives were mostly killed or taken prisoners by a party of fresh English troops from Fort Lyman. Sir Wm. did not follow up his success, but spent the remainder of the season in constructing Fort Wm. Henry on the site of his camp, leaving the French to strengthen their works at Crown Point and Ticonderoga without molestation. No general expedition was projected during 1756, and the only active warfare was earried on by adventurous parties of rangers.4

From this time to the close of the war, and again during the Revolution, this co. was the theater of important military events. We have space only for a brief chronological recapitulation of the principal ones as they occurred. The partisan warfare, with varying success, continued through the winter and spring of 1756-57. In July, Montcalm, Gov. of Canada, assembled 9,000 men at Ticonderoga, and marched to the head of Lake George, for the purpose of reducing Fort Wm. Henry; which object he accomplished Aug. 3.5 In the summer of 1758 an expedition was fitted out against Ticonderoga, and was intrusted to the command of Gen. Abererombie. On the 5th of July he crossed Lake George with 17,000 men; and on the 6th the advanced gnard of his army was surprised by the French, and many killed, among whom was Lord Ilowe, 6 second in command. On the 8th the English army endeavored to take the fort by storm, but were repulsed with a loss of 2,000 men. In 1759, Gen. Amherst, at the head of 12,000 men, proceeded to invest Ticonderoga. The French troops having been mostly withdrawn for the defense of Quebec, the whole fortress was dismantled, and abandoned on the 30th of July. Crown Point was soon after abandoned, and the whole region came into the undisputed possession of the

and made his will, leaving a sum of money to found a free school in Western Mass. This legacy founded and gave the name to Williams College. In 1851 the alumni of the college erected a monument to his memory on the spot where he was killed.

<sup>1</sup> A seigniory, extending 3 leagues along the lake shore and 2 leagues back, was granted, June 13, 1707, to Sieur Louis Joseph Robert, the king's storckeeper at Montreal. Its northern boundary was to be half a league below the "Bacquet" (Boquet) Eiver, and its southern 2½ leagues above. This territory embraced the present town of Essex and a large part of Willsborough. Another seigniory, extending 6 leagues along the lake and 5 back, was granted, Nov. 15, 1758, to Michael Chartier de Lotbinière. It was called "D'Alainville," and embraced the present towns of It was caused "D Authority", and enteraced the present towns of Tecondering, Crown Point, and Schroon. Settlements which commenced upon this grant were broken up by the English armies. Most of the seigniory was granted to officers and sol-diers of the English army, in accordance to his majesty's pro-clamation of Oct. 7, 1783. After the cession of Canada, the French proprietor presented his claims to the English Govern-ment with postular effect than to create a considerable to. ment, with no other effect than to create a considerable temourary alarm among the English settlers.

<sup>8</sup> On his way to the frontiers. Col. Williams stopped at Albany

<sup>4</sup> The most enterprising of these rangers were Majs. Israel Pntnam and Robert Rogers. The party commanded by the latter officer consisted of old hunters, accustomed to all kinds of hardships and privations. Among his officers was John Stark, afterward Gen. Stark of the Revolution. These parties These parties hung upon the outskirts of the French forts, took off the nung upon the outstatts of the French Ioris, Iook of Iner sen-tinels, burned their villages, killed their cattle, destroyed their boats, and annoyed them in every possible manner. 5 See page 668; Lossing's Field Book of the Revolution; Ban-craft's Hist. U.S.

<sup>6</sup> Brother of Sir William Howe and Admiral Howe, English commanders during the Revolution. Lord Howe was a brave and enterprising officer, greatly beloved by the army, and his loss was deeply deplored.

English. The works at Ticonderoga and Crown Point were enlarged and strengthened, at a cost of \$10,000,000.1

By the provisions of the Treaty of Paris, signed Feb. 10, 1763, in which the French ceded their possessions in North America to the English, the latter government was bound to respect the titles to land previously granted by the former. The proclamation of the King of Oct. 7, 1763, authorized the granting of the lands upon Lake Champlain to officers and soldiers who had served in the war. These incompatible acts led to much confusion. Overlapping claims and conflicting titles nnavoidably followed; and the matter was not finally settled until after the Revolution. In the mean time, the controversy had the tendency to retard settlement, by destroying confidence in the titles by which the land could be held and conveyed.

Settlement was commenced upon the Boquet in 1765, under the anspices of Wm. Gilliland, a wealthy merchant of N. Y.2 Through his agency, and that of other capitalists, several miles of the lake shore between the mouth of the Boquet and Crown Point were settled, mills and roads were built and schools established. Mr. G. held a justice's commission, and for many years was the only judicial authority.3 The settlers whom he induced to locate upon his estate were mostly Irish.

After the eession of Canada the great fortresses on the lake were allowed to fall into partial decay, and were held by only small bodies of troops. Upon the receipt of the news of the commencement of hostilities at Lexington, a small body of troops, known as "Green Mountain Boys," under Col. Ethan Allen, surprised and took both Tieonderoga and Crown Point in May, 1775.4 During the summer and antumn of the same year the expedition, under Schuyler and Montgomery, against Canada, passed down the lake, and returned the next spring, unsuccessful. During the summer of 1776, naval forces were organized upon the lake by both the British and Americans, the latter under the command of Benedict Arnold. In an engagement that ensued, the Americans were defeated, and their remaining vessels were obliged to take refinge under the guns of Fort Ticonderoga. Crown Point was dismantled, and the stores removed; and soon after it was taken possession of by the British. Mr. Gilliland and the colonists ardently embraced the American eause, and materially aided Montgomery's army in its advance on Canada, by furnishing provisions, and, on its return, by affording relief to the siek and wounded. Mr. G.'s estate was wasted by both friends and foes, and finally the whole settlement was broken up by Bnrgoyne.

Burgoyne landed on the banks of the Boquet, June 21, 1777, and spent several days in conferences with the Indian tribes; and on the 27th the invading army advanced to Crown Point. On the 30th they invested Ticonderoga; and on the night of July 4 they took possession of "Sugar Loaf Hill," (now Mt. Defiance,) and erected upon it a battery of heavy guns, completely commanding the fort. On the night of the 5th the Americans hastily embarked their stores and munitions of war upon bateaux, and sent them up to Skenesborongh under convoy, and the main body of the army escaped into Vt.7 Both parties were quickly pursued, and the tide of war slowly and sullenly rolled southward, beyond the limits of the co.

In Sept. Gen. Lincoln, at the head of a body of militia stationed at Manchester, Vt., made an attack upon these works, took Mts. Hope and Defiance, released 100 American prisoners, took 293 of the enemy, and captured an armed sloop, several gun boats, and more than 200 bateaux.8 The fort was not taken. After the surrender of Burgoyne the place was dismantled, and the garrison retreated down the lake. The rear division of their boats, with 50 men and a large quantity of

<sup>1</sup> The fort and field works at Ticonderoga spread over an area of several niles, and the fortress at Crown Point embraced seven acres. The ruins of these works now visible still attest their extent and magnitude.

2 Mr. Gilliland at first designed to lay the foundation of a

rast baronial estate; and hence he sold no land, but leased it on

the most favorable terms.

8 A convention of the settlers was held March 17, 1775, (St. Patrick's Day.) and a local, independent government was adopted. The management of affairs was intrusted to a moderator, two supts, of roads and bridges, three appraisers of damages, and a town clerk. Just before the Revolution, a scheme was devised to form a separate colonial government, embracing all the territory north of Mass, and between the Connecticut and 8t. Lawrence Rivers. Philip Skene, the founder of "Skenesborongh," (now Whitehall,) is believed to have been the leading spirit of this movement, and his appointment as gov. of the forts of Theonderoga and Crown Point in June, 1775 seems to give color to this belief. See Jurnals of Congress, June 8, 1775; Watson's Ag. Survey, Tr., Ag. Soc., 1852, p. 694.

4 The capture of these forts, and of the armed schooner upon the lake, was of immense importance to the Americans, as it supplied they with a great separate of these control of the server of the con was devised to form a separate colonial government, embracing

them with a great amount of cannon and other munitions of war.

<sup>5</sup> Gen. Carlton offered a reward of \$500 for the delivery of Gilliland in Canada. Sheriff White, of Tryon co., and a party

of Tories and Indians, who attempted to capture him, were

themselves captured and sent to Gen. Schuyler.

<sup>6</sup> Mr. G. assisted Arnold in the prosecution of his designs to the extent of his ability; and, in return for the kindness, the extent of his ability; and, in return for the kindness, Arnold, by an arbitrary stretch of power, destroyed his dwellings, mills, and stores, and bearly reduced him to poverty. In a memorial to Congress in 1777, Gilliland held the following truthful and prophetic language in regard to Arnold:—"It is not in mine, but it is in your power to bring him to justice. Duesting with pride and involved with record —to which he Bursting with pride, and intoxicated with power,—to which he ever ought to have been a stranger, but which he has had art ever ought to have been a stranger, but which he has had are tenough to obtain from you.—be tyrannizes where he can. If temerity, if rashness, impudence, and error, can recommend him to you, he is allowed to be amply supplied with these quali-ties; and many people think they ought to recommend him in a peculiar manner to Lord North, who, in gratitude for his having done more injury to the American cause than all the ministerial troops have had the power of doing, onght to reward

him with a generons pension."

A heavy chain, 1000 feet long, and an immense boom, erected across the lake by the Americans at great labor and expense, were cut through in 2 hours.

<sup>&</sup>lt;sup>8</sup> In this expedition the Continental standard left behind by St. Clair was recovered.

military stores, were captured by a party of "Green Mountain Boys" under Capt. Ebenezer Allen. In 1780, Gen. Haldeman, with a party of British soldiers, advanced to Ticonderega and occupied it for some time. Maj. Carleton here made a diversion in favor of Sir John Johnson, by an attack upon Forts Anne and George. In 1781 the British fleet several times entered the lake, but retired without accomplishing any thing.1 In 1784, Gilliland returned to his ruined settlement and endeavored to retrieve his waning fortunes. Relinquishing his ideas of manorial greatness, he offered his lands for sale; but adverse lawsuits and treacherons friends soon dissipated the remnant of his wealth and brought his existence to a miserable close.2 The progress of settlement at first was not very rapid. In 1795 there were in Clinton co.—then embracing Essex—but 624 legal voters. From that time forward, however, settlement progressed with great rapidity, and several public roads were opened to facilitate it.3 Soon after the war an arsenal was erected at Elizabethtown. During the patriot excitement it was robbed; and since, it has been sold.

CHESTERFIELD-was formed from Willsborough, Feb. 20, 1802. It lies in the N.E. corner of the eo., upon the shore of Lake Champlain. Its surface is broken and mountainous. The Jay Monntains, a northern spur of the Adirondack Range, extend northward through the w. part. This range is a continuous, high, rocky ridge, without a single pass, forming an almost impassable barrier between Chesterfield and Jay. The main Adirondack Range extends through the center of the town from s. w. to N. E., ending at Trembleau Point, a high, rocky bluff 1200 to 1500 feet above the surface of the lake. Bosworth Mountain and Poke-a-Moonshine, each attaining an elevation of about 3000 feet, are the two principal peaks within the limits of the town. The s. E. part is hilly. The N. E. part is a rolling table land, with a light, sandy, and unproductive soil. There are several lakes in the interior, the principal of which are Augur and Butternut Ponds. Not more than one half of the surface is susceptible of cultivation. The principal valuable minerals that have been found are iron, graphite, and a beautiful light brown marble. Schuyler Island, in the lake, belongs to this town. The Au Sable River, upon the N. border, affords a large amount of hydraulic power, and some very attractive seenery. The falls at Birmingham have a descent of 90 feet, including the rapids above the main fall.4 **Keese**ville (p. v.) is situated on both sides of the Au Sable River, its northern part being in Clinton co.5 It is the seat of extensive iron works and other important manufactures. The iron from the ore is made into nails, horseshoes, merchant iron, edge tools, and machinery. The village has a bank, an academy, and 5 churches. Pop. according to last census, 2569, of which I370 were in Chesterfield. Port Kent, (p. v., ) on Lake Champlain, contains 25 houses; Port Douglas 5; Port Kendall 6; and Birmingham Falls 6. Matthew Adgate and sons came into town about 1792.7 The first church was Cong.; and the first preacher was Rev. Cyrus Comstock.8

CROWN POINT—was formed March 23, 1786, and named from the old French fortress<sup>9</sup> situated on the lake. Elizabethtown was taken off in 1798, Schroon and Tieonderoga in 1804, and Moriah in 1808. It lies upon the shore of Lake Champlain, s. E. of the center of the co. A strip of nearly level land, about 4 mi, wide, extends along the lake shore. The central part of the town is broken, the hills gradually rising into the Kayaderosseras Mts. in the w. Pntnams Creek, the principal stream, takes its rise in the ponds and lakes among the mountains, and upon its course are numerous falls, furnishing an abundance of water power. The soil upon the lake shore is a deep, rich, clayey loam; and in the interior it is of a light, sandy nature. Abundance

<sup>1</sup> For a long time there was a great mystery connected with these movements, which was afterward explained by the publication of the negotiations which took place between the Gov. of Canada and the "Vt. Council of Safety."

2 For some time he was confined in N.Y. for debt; but, regaining his freedom, he returned to the scene of his former enter-

ing his freedom, he returned to the scene of his former enterprise. Here meeting with new disappointments and treachery, and becoming partially deranged by his misfortunes, he wandered into the wilderness and perished of cold and exposure.

Among these public roads were one from Willsborough Falls to Peru; another, known as the "Old State Road," from Sandy Hilh, along the Schroon Valley, to Canada Line; and another across the s.w. corner of the county from Canton to Chester. In 1790, Platt Rogers established a ferry across the lake at Rasin Harbor. He also built several roads, and a hidea Chester. In 1790, Platt Rogers established a ferry across the lake, at Basin Harbor. He also built several roads, and a bridge over the Boquet at Willsborough Falls. For constructing over the bodget at Winsporough Fails. For constructing these and other public works, Rogers and his associates received grant of 73,000 acres of mappropriated land.

4 See page 235.

4 The first settler of Keeseville was Rohert Hoyle, who built house.

the first bridge and sawmill and kept the first store, in the best bridge and sawmin and kept the first store, in 1902. It was first called "Long Chule." About 1812 the property came into the hands of Richard and Oliver Keese and John W. Anderson, who erected a woolen factory and iron works in 1813. The name was first changed to "Andersons Fulls." and afterwards to Keeseville. See Clinton co., town of the Salle.

of An Sable.

6 Both Port Kent and Keeseville are centers of extensive and

Alva Bosworth, Elihu Briggs, Edward Palmer, Levi Cooley, Dr. Clark. John and Benj. Macomher, John Page, and Norton, were among the first settlers. The first child born was Thos. Rangnam, and the first death that of Abel \*\* The census reports 5 churches; F. W. Bap., M. E., Presh.,

Prot. E., and R. C.

The point which contains the ruins of this fortress is supposed to have been an important commercial mart previous to the French War; but now it contains only a single farm

of tich iron ore is found; and in connection with it are beds of natural phosphate of lime. Graphite and black clouded marble are also found in great abundance. On the shore of the lake is a mineral spring, containing sulphates of lime and magnesia. The manufacture of iron is carried on to a great extent; there are also establishments for the manufacture of lumber, shingles, pails, sash and blinds, and woolen goods. Crown Point, (p. v., ) in the E. part, on Putnams Creek, contains 2 churches and about 60 houses. Hammonds Corners contains 35 houses, and Irondale (late "Penfield") 20. The French made the first settlement, at a very early period. The country around Fort St. Frederick, upon the point, seems to have been once the seat of thriving villages, the remains of which are still visible. All these settlements were obliterated during the French War of 1755-60. During the peace which followed, settlements were again made, and in 1777 were again destroyed.2 Religious services were early held in the chapel of the fort, and were continued during its military occupation.3

ELIZABETHTOWN—was formed from Crown Point, Feb. 12, 1798, and was named in compliment to Elizabeth, wife of Wm. Gilliland. Parts of Moriah and Keene were taken off in 1808, and Westport in 1815. A part of Jay and Lewis were annexed Jan. 31, 1844, and a part of Lewis, Nov. 11, 1854. It is an interior town, lying a little N. of the center of the co. The Boquet Mts. occupy the N. W. and the Schroon Range the S. E. corner of the town. Raven Hill, an offshoot from the former range, in the N.E. corner, is 2,100 feet above tide; and the "Giant of the Valley," the highest peak of the latter range, has an elevation of 2,500 to 3,000 feet. A perpendicular precipice of 700 feet lies on the northern declivity of this mountain. The Boquet River flows in a N. E. direction through near the center of the town. Its valley, one-fourth of a mile to a mile in width, comprises the greater part of the arable land. Not more than onefourth of the surface is susceptible of cultivation. Extensive beds of iron ore are found in various parts of the town. In the s. E. part, a hill, 200 feet high, covering 40 acres, is supposed to be nearly a solid mass of iron, except a slight covering of drift. An extensive bed of kaolin, or porcelain clay, is also found in towu. The manufacture of iron is one of the leading pursuits: there are several forges in town. The soil is a sandy or gravelly loam. Elizabethtown4 (p. v.) is pleasantly situated upon the Boquet River, near the foot of several high peaks. It is the co. seat, and a place of considerable trade. Pop. about 500. New Russia (p.v.) contains about 100 inhabitants. Among the first settlers were Jonah Hanchett, Sampson Smith, Herman and Joel Finney, Wareham Barber, Nathan Lewis, Hez. and Ira Phelps, Wm. Kellogg, and Gardner Simonds, who came in about 1792. The first school was taught by Dr. Kincade. The first church (Bap.) was organized in 1796 or '97.5

ESSEX—was formed from Willsborough, April 4, 1805. It lies upon the shore of Lake Champlain, N. of the center of the co. The surface is rolling in the E. and mountainons in the w. Boquet Mt., in the N. w. part, has an elevation of about 1,000 feet above the lake. Split Rock, the extremity of the Schroon Mountain Range in the s. E. corner of the town, has already been described.6 The Black River limestone crops out in this town, and is used both for building purposes and for the manufacture of lime. The Boquet River flows northerly through near the center of the town. Upon it are several falls, affording abundance of water power. The soil is a clavey loam upon the lake, and a light sandy loam among the mountains. Manufactures, consisting of wrought iron, nails, spikes, lumber, and woolen goods, are carried on. Essex' (p. v.) has a population of about 700, Whallonsburgh (p. v.) 250, and Boquet 200. The town was first settled by Wm. Gilliland, in 1765.8 Wm. McAuley, a relative and coadjutor of Mr. G., located upon the site of the present village of Essex.9 This settlement was broken up during the Revolution.<sup>10</sup> The first church (Prot. E.) was organized in I805.<sup>11</sup>

<sup>&</sup>lt;sup>1</sup> The Swedish traveler Kalm mentions the existence of this early settlement; and the "Journal of Major Rogers" speaks of villages, well filled barns, herds of cattle, and fields of grain. Chimney Point, upon the eastern shore of the lake, derives its name from the remains of early habitations found there by the

present race of settlers.

2 Among the first settlers after the Revolution were George Trimble, James Morrow, Aaron Townsend, Dennis Meagher, Andrew Hardy, Saml. Foot, and Elisha Rhodes. The first mill was a windmill, a short distance s. of the fort. James Morrow. erected the first mill and kept the first inn and store after the Revolution. Washington visited Crown Point in 1784.

the Revolution. Washington visited Crown Point in 1784.

3 Benj. Wooster was the first preacher after the Revolution.
The first church (Cong.) was organized in 1804. The census reports 4 churches; 2 Cong., M. E., Union.

4 Elizabethtown was named "Pleasant Valley" by the first settlers, sud is now locally known as "The Valley."

5 The census reports 3 churches; Bap., Cong., M. E.

<sup>6</sup> See page 295.

<sup>&</sup>lt;sup>7</sup> A blockhouse was built in this village in 1797, in consequence of the alarm occasioned by St. Clair's defeat; and in 1799, upon the organization of the co., it was used for a co. courthouse, and continued as such until the erection of the co. buildings at Elizabethtown, under the act of 1807.

See pages 299, 305. 9 Among the first settlers after the Revolution were Danl. Rose, (first merchant and mill owner, ) Isaac and Benj, Sheldon, Benj, Stafford, Danl, Murray, Hen, Van Ormand, Dr. Colborn Clemens, (first physician,) David, Abram and Abner Reynolds, Nehemiah Payn, and James Eldrich. The first school was taught by Miss Towner. The first male teacher was Enoch P. Henry.

Towner. The first male teacher was Enoch P. Henry.

10 In Oct. 1777, in this town, the retreating British garrison
of Ticonderoga was attacked by a party of "Green Monntain

Albert and 56 men and all the Boys," under Capt. Ehenezer Allen, and 50 men and all the military stores were captured.

<sup>11</sup> The census reports 6 chs.; M. E., Wes, Meth., 2 Bap., 2 Presb.

JA W1—was formed from Willsborough, Jan. 16, 1798. A part of Keene was taken off, in 1808, of Wilmington (as "Dansville") in I82I, and a part of Elizabethtown in 1844. Parts of Peru (Clinton co.) and Chataugay (Franklin co.) were annexed, March 22, 1822. It lies upon the N. border of the co., w. of the center. The Au Sable Mts., extending through the w. part, gradually decline toward the N. Mts. Hamlin, Clark, and Bassitt, each 2000 feet above tide, are the highest peaks; the Jay Mts., a N. spur of the Adirondacks, lie along the E. border. The extreme s. angle of the town is occupied by some of the most lofty and rocky peaks of the Adirondacks. The E. branch of the An Sable flows through near the center of the town. Veins of black lead have been found, but not Iron ore is found in abundance. The soil is a light, sandy and gravelly loam. mineral spring, near Upper Jay, contains iron and sulphur. The mannfacture of bar iron, nails, and bloom iron is extensively carried on. Au Sable Forks, (p.v.,) an iron manufacturing village, contains 70 houses; Jay (p.v.) 50, and Upper Jay (p.v.) 20. Nathaniel Mallory was the first settler, about 1796.2 The first church (Bap.) was formed in 1797; the first preacher was Solomon Brown.3

KEENE—was formed from Elizabethtown and Jav, March 19, 1808. North Elba was taken off in 1849. It extends from the center of the co. toward the N. and W. The Adirondack Mts. extend through the center of the town and occupy nearly its entire surface, leaving little or no arable land. The principal peaks are Mt. Marcy, 5467 feet above tide; Long Pond Mt., 3000 feet; and Pitch Off, 2500 feet. The Au Sable, flowing N., forms the principal drainage. The valley is so narrow that there is scarcely room for a road between the mountain and stream; and freshets often occur that sweep every thing before them. Lake Colden, in the s. w. part, is 2,851 ft. above tide. Iron is found in numerons veins along the course of the river, and is manufactured 1797.6 The M. E. church was organized in 1800, and the Cong. in 1815.

LEWIS—was formed from Willsborough, April 4, 1805, and named in honor of Morgan Lewis, then Governor of the State. Parts of Elizabethtown were taken off in 1844 and 1854. The Adirondack Mts. occupy the N. w. and the Boquet Mts. the s. E. part of the town. The latter range is not a continuous ridge through this town, but consists of several isolated peaks, the principal of which is Mt. Discovery, 2000 feet above tide. The remaining parts of the town consist of steep rocky hills and narrow valleys, and not more than one-third of the surface is susceptible of cultivation. Numerous beds of iron ore are found; but none have been extensively worked. The soil is a sandy and gravelly loam. In the n.w. part is a mineral spring of some repute. Lewis (p.v.) contains I30 inhabitants. Wm. Hinckley made the first purchase of land and the first settlement, in 1796.7 The first church (Cong.) was formed in 1804; and the first preacher was Rev. Mr. Burbank.8

MINERVA—was formed from Schroon, March 7, 1817; a part of Newcomb was taken off in 1828. It is the s. e. corner town of the co. Its surface is a high, broken upland, bordered by mountain ranges. The Boquet Range traverses the N. w. border, and the Schroon Range the s.E. The intermediate portion is hilly, with a mean elevation of I200 to I500 feet above tide. Nearly the whole town is still covered with forests, the settlements being confined to the s. E. corner. The soil is cold and hard, and only moderately productive. On Orrin West's farm is a cave of considerable extent. Lumbering is the leading pursuit. Olmsteadville (p.v.) contains 20 houses; Minerva is a p.o. The first settlers were Ebenezer West, and his sons Nathan, Ebenezer and John, in I804.19 The first church (Bap.) was formed in I810, by Elder Fort.11

MORIAH—was formed from Crown Point and Elizabethtown, Feb. I2, 1808. A part of

Named from John Jay, then Governor of New York.
 Among the other first settlers were J. W. Sonthmaid, Joseph Storrs, John Purmort, Robert Otis, Ezekiel Lockwood, Nathl, Ray,

Josiah Way, and Joseph Fowler. Win. Mallory built the first mill.

3 The census reports 6 churches; Bap., Cong., and 4 M. E.

4 A perpendicular cliff on the north side of this mountain, 300 to 500 feet high, gives to it its singular name.

6 A most destructive flood occurred from excessive rains, Sept.

O A flost destructive hood occurred from excessive rains, sept. 30, 1856; and the damage which this occasioned was increased by the breaking away of the State dam across the s. branch of the Au Sable, in this town. The testimony relating to this accident (forming a vol. of 368 pp.) was printed by order of the Canal Board, in 1858.

<sup>6</sup> Among the first settlers were Benj, Payne, Timothy rang-burn, Thos, Roberts, Zadock Burd, Eli Hall, Thos, Taylor, Gen, Reynolds, and David Graves. The first child born was Betsey Payne; the first marriage, that of Thos, Dart and Cynthia Griswold; and the first death, that of Eli Bostwick. Asa A Andreas 6 Among the first settlers were Benj. Payne. Timothy Pangtaught the first school, and Zadock Hurd kept the first inn.

<sup>7</sup> Among the other early settlers were Dea. Putnam, Samuel Bishop, Charles, Saml., and Noah Lee, Ishmael H. Holcomb, Hocker and Timothy Woodruff, Ziba Westcott, and Ziba Flage. The first child born was Oliver Holcomb; the first marriage, that of Timothy Woodruff and Eunice Newell; and the first death of an adult, that of Mrs. John Smith. Levi Parsons taught

the first school.

8 The census reports 1 M. E. church. A Meth. church was formed in 1808.

<sup>9</sup> There is an extensive tannery at Olmsteadville, which makes the village.

<sup>10</sup> Among the other first settlers were Wm. Hill. (first mill owner,) Thos. Leonard, Richard Miller, Ahner Talman, James Cary, Philo Hawley, and A. P. and Asa Morse. The first settlements were chiefly made along the line of the Canton and Chester Road. The first child born was Francis West; the first marriage, that of Richard Miller and — West; and the first

death, that of Elizabeth West.

11 The census reports 3 churches; Bap., M. E., R. C.

Newcomb was taken off in 1828, North Hudson in 1848, and a part of Westport was annexed, April 9, 1849. It lies upon the shore of Lake Champlain, s. of the center of the co. A narrow strip of level land extends along the shore of the lake, from which the surface gradually rises to a height of about 500 feet, where it spreads out into a hilly plateau region, rising into mountains on the w. border. About one-half of the surface is susceptible of cultivation. The soil upon the lake is a clayey loam, and in the hilly regions a light, sandy loam. This town is very rich in minerals. Fourteen veins of iron ore have been opened, producing iron of a very superior quality: the supply seems to be inexhaustible. Black lead, and a beautiful variety of verd autique serpentine, are also found. The manufacture of iron forms one of the leading pursuits. Moriah (p.v.) contains Moriah Academy and a pop. of 275, and Port Henry (p.v.) contains a pop. of 503. The first settlers after the Revolution were Wm. McKenzie, Abel Butler, James McClane, Jabez Carpenter, G. H. and John Havens, and Joseph Curtis.3 The first church formed was a Cong.4

**NEWCOMB**—was formed from Minerva and Moriah, March 15, 1828. It lies near the center of the w. border of the co. The Adirondack Range extends through the center of the town and occupies more than one-half of its entire surface. The principal peaks are Mts. Goodwin, Moore, Sandanona, and Henderson, each 3,000 to 5,000 feet above tide. The remaining part of the surface is a broken upland, with a hard, sour, unproductive soil. Among the gorges in the mountains are numerous small lakes. The Preston Ponds, Lakes Henderson, Harkness, Sanford, Harris, Dalia, Moose, and Ridge Pond, are within the limits of the town; and Lake Catlin and the Chain Lakes are on the line of Hamilton co. The Adirondack iron beds, near Lakes Sanford and Henderson, are among the most extensive in the world. One of them has been traced upon the surface for a mile in length, 700 feet in width, and has been penetrated to the depth of 40 feet without any signs of diminution in quantity or quality of ore. It forms a bar across the river, the water literally falling over an iron dam. This are yields 75 per cent. of pure metal, is easily worked, and makes an admirable quality of iron. For the manufacture of steel it surpasses all other ores in America, and equals those of the most celebrated mines of Sweden and Russia. The mountainous character of this town, and its remoteness from the great routes of public improvement, have prevented the development of its immense mineral resources. There is very little tillable land in the town. Adiroudack has about 15 houses. The first settlement was commenced in 1816, by Joseph Chandler.<sup>5</sup> A M. E. church was formed in 1843, and a Wes. Meth. in 1845.

NORTH ELBA—was formed from Keene, Dec. 13, 1849. It lies upon the w. border of the co., N. of the center. The Adirondack Range occupies the s. part, and a branch of the Au Sable traverses the N. E. part. At the foot of Whiteface Mt. lies Lake Placid, a beautiful sheet of water, 4½ mi. long by 1½ broad, and nearly divided in the center by 3 islands. The noted Adirondack or Indian Pass, partly in this town and partly in N. Elba, is a deep gorge between Mts. McIntyre and Wallface. The bottom of the pass is 2,800 feet above tide, and the mountains on each side are 1,000 to 1,500 feet higher. Wallface, forming the w. border of the pass, is bounded by a perpendicular precipice a mile in length and 800 to 1,000 feet in height. Mts. McIntyre, McMartin, and Sugar Loaf are each over 3,000 ft. high. Bennets, Connery, and Round Ponds are in the immediate vicinity. Avalanche Lake, on the E. line, is 2,901 ft. above tide. The central portion of the town is a hilly upland, and the N. w. part a rolling table land, known as "the Plains." The Au Sable and Saranae Rivers form the principal drainage. The soil is a thin, sandy and gravelly loam. The people are principally engaged in lumbering. North Elba and Saranac Lake are p. offices. Settlement was commenced about 1800, by Elijah Bennett.<sup>6</sup> The first church (Cong.) was formed in 1824; and the first preacher was the Rev. Cyrus Comstock.

Union.

<sup>1</sup> In 1852, 26,800 tons of ore were exported from Moriah to first death, that of John Alwater, (by drowning) enn., Vt., Va., Me., and Md. The quantity contracted for ex- Collins taught the first school. The first authorized Penn., Vt., Va., Me., and Md. The quantity contracted for exportation from that town, in 1853, amounted to 107,500 tons, of which 16,000 were to Penn., 10,000 to Mass., 3500 to Va., 1500 to The quantity contracted for ex-Ohio, 1500 to N. J., and 1000 to Me .- Tr. N. F. S. Ag. Soc., 1852,

p. 827.

2 The site and water power of Port Henry were granted to Benj. Porter in 1766. It is supposed that he erected a mill soon after, which was destroyed during the Ecvolution. After the war, he returned, and, in connection with Robt. Lewis, of the war, he returned, and, in connection with refoct Lewis, or Albany, rebuilt the nill, which has remained up to a recent date. One of the first furnaces in the co. was erected here in 1824, by Maj, James Dalliba. It was a cold blast furnace, and was used for the manufacture of pig iron, and the casting of hollow ware and agricultural implements. Several extensive

anthraeite coal furnaces have lately been put in operation.

\*The first child born was Alex. McKenzie, in 1785; the first that of Arunah Taylor, who perisl marriage, that of John Ferris and Deborah Wilcox; and the

Collins taught the first school. The first authorized ferry was granted to Robert Lewis, April 3, 1811, for 10 years.

4 The census reports 5 churches; Bap., M. E., Presb., R. C.,

<sup>5</sup> James Chandler, Collins Hewitt, and Wm. Butler came in to reside in 1818. Among the other first settlers were Elijah Bissell, Abner Belden, David Pierce, Cromwell Catlin, and James Ramsey. The first child born was Nath! P. Hewitt; the first Ramsey. The first child born was Natht r. newner, me marriage, that of Abner Belden and Bershelia Butler; and the marriage, that of Abner Belden. Harriet Chandler taught the first death, that of Eliza Butler. Harriet Chandler taught the first school.

<sup>6</sup> Among the other early settlers were Isaac Griswold Eb'r Mack, Jonathan Bibs and son, Iddo Oggood, Jerem. Kmeckind, James Porter, and Daniel McArthur. The first marriage was that of Elijah McArthur and Elects Brooks; and the first death, that of Arunah Taylor, who perished by cold in the wooda.

NORTH HIDSON<sup>1</sup>—was formed from Moriah, April 12, I848. It is an interior town, lying a little s. of the center of the co. The Boquet Mts. occupy the central and w. portions, the principal peaks of which are Dix Peak, 5200, and Nipple Top, 4900 feet high. The Schroon Mts. traverse the E. border of the town. There are numerous small lakes in town, the principal of which are Bull Pout, Mud, Boreas, and Clear Ponds. The soil is a light, sandy loam, and not more than one-eighth of the surface is arable. The Moriah iron district extends into the E. part, and the manufacture of iron forms a leading pursuit. North Hudson (p. v.) contains 15 houses; and Bead Water Iron Works (p. o.) 10. The first settler was Benj. Pond.<sup>2</sup> The first church (M. E.) was formed in 1838.

ST. ARMAND—was formed from Wilmington, April 23, 1844. It derived its name from the old French name of the Saranac River. It is the n.w. corner town of the co. Its surface is rolling and is inclined toward the n.w. The ridges extend in a n.e. and s.w. direction, and are 200 to 300 feet above the valleys. The average height of the town is 1500 to 1800 feet above tide. The Saranac, flowing in a n.e. direction, forms the principal drainage. Moose Creek, a tributary, flows through Moose Pond, a small lake covering an area of about 200 acres. The soil is a sandy and gravelly loam. The people are chiefly engaged in lumbering. **Bloomingdale**, (p. v..) in the n.w. corner, the only village, contains about a dozen houses. Settlements are of recent date. Among the first settlers were Daniel Crouch, Thos. and Antrim Peck, Geo. Lowrie. Win. Stranahan, Aaron Brimhall, and Ellis and Milton Goodspeed. The first church (Bap.) was formed in 1852.

SCHROON—was formed from Crown Point, March 20, 1804. Minerva was taken off in 1817, and a part was reannexed to Crown Point, Feb. 26, 1840. It lies near the center of the s. border of the co. The w. and n. w. portions are occupied by the Schroon Range, and the s. e. portion by the Kayaderosseras Range. Mt. Pharaoh, the highest peak of the latter range, is 3000 to 3500 feet above tide. There are great numbers of other elevated mountain peaks, that have never been named. Not more than one-fourth of the town is susceptible of cultivation; and the greater part of the arable land is in the narrow valley of Schroon River. Schroon Lake is a fine body of water. 10 mi. long. Near the foot of Mt. Pharaoh lies a cluster of small lakes, the principal of which is Pharaoh Lake. Paradox Lake is near the center. The soil is a thin, sandy loam. Iron is found in various parts, and black lead has also been found. Schroon Lake (p. v.) contains 192 inhabitants. Schroon River is a p. o. Settlement was commenced in 1797, by Samuel Scribner, Thos. Leland, Moses Pettee, Benj. Bowker, and Simeon Rawson, all from New England. The first church (Bap.) was organized in 1830. Jehial Fox was the first preacher.

TICONDEROGA<sup>8</sup>—was formed from Crown Point, March 20, 1804. It lies upon the shore of Lake Champlain, and is the s.e. corner town of the co. The portion between Lakes George and Champlain is the extremity of a mountain ridge ending in Mt. Defiance, 750 feet above the surface of the lake. North of this a strip of level land, about 4 mi. wide, extends along the lake shore, from which the surface gradually rises into the mountainous region which forms its w. border. About three-fourths of the town is susceptible of cultivation. The outlet of Lake George, the principal stream, in the course of a mile and a half descends 150 feet; and as the water never freezes, and its quantity does not materially change during the year, it furnishes one of the most valuable water-powers in the State. The soil is a stiff clay upon the lake, a clayey loam in the center, and a sandy loam in the w. part. The manufacture of lumber, leather, and black lead extensively carried on. **Ticonderoga**, (p. v.,) or **Lower Falls**, contains 325 inhabitants. **Upper Falls** is a village of 40 houses, and **Ti Street** of 30. Settlements were begun in this town by the French, soon after the commencement of the fortress in 1755; but they were soon

<sup>&</sup>lt;sup>1</sup> Named from its location upon the upper branches of the Hudson.

<sup>&</sup>lt;sup>2</sup> Among the first settlers were Randall Farr, (first innkeeper.) Wm. Pond. Samuel Norton, Wm. Everett, Benj. Cummings, Russell Walker, Wm. Mallory, Timothy Chellis, Hez'h Keep, and Titis Walker. The first death was that of Mrs. Halloway, Janet Post taught the first school.

<sup>3</sup> The first child born was Silas Crouch; the first marriage, that of Adrian Storrs and Lovina Hough; and the first death, that of —— Goodspeed.

<sup>4</sup> This name is said to be a corruption of "Scharon," and to have been applied in honor of the Duckess of Scharon, favorite of Louis XIV. Some say Schroon is derived from an Adirondack word, signifying a child or daughter of the mountain.
4 The surface of this lake is so near the level of the Schroon

<sup>4</sup> The surface of this lake is so near the level of the Schroon River, which forms its outlet, that in seasons of flood the water Jowe into instead of out of it; hence its not inappropriate name.

<sup>&</sup>lt;sup>6</sup> Among the other early settlers were George Moore, Elijah Garfield, James Livingston, Geo, Whitney, Cornelius Travers, Abel Tupp, and John Bowker. The first child born was John T. Leland; the first marriage, that of John Scribner and Silence Leland; and the first death, that of Mrs. Benj. Bowker. Clark Ransom taught the first school.
<sup>7</sup> The census reports 4 churches; Bap., M. E., Presb.,

The census reports 4 churches; Bap., M. E., Presb. Union.

<sup>8</sup> The Indian name "Tsinondrosie," or "Cheonderoga," signifying "Brawling Water," and the French name "Carillon," signifying a "Chime of Bells," were both suggested by the noise of the rapids upon the outlet of Lake George.

<sup>&</sup>lt;sup>9</sup> In 1852, 600,000 pieces of lumber were shipped from this oint.

<sup>10</sup> Above 30 tons of black lead are manufactured per year; and the vein of graphite seems inexhaustible.

broken up. During the French War many skirmishes and one general engagement took place in the town. The subsequent history of the fortress belongs to the general history of the country. Permanent settlement commenced immediately after the Revolution.4 The first church was St. Pauls, Prot. E.; and the first preacher, Rev. Mr. Harwood.<sup>5</sup>
